Cotton in New York was active, but weak. Liverpool closed 10 to 19 points lower. Rains were reported in eastern part of belt New Orleans was a good seller. Private crop reports made the condition 82, and predicted that the approaching Government would show 79, and an increase in acreage of 7 per cent. Closing prices were 38@51 points lower on near and 11@15 points lower on deferred deliveries.

Broomhall's weekly foreign crop summary says: "United Kingdom, France—Conditions for Wheat crop been generally favorable past week. In fact, month just ended was most favorable May Western Europe has had in years. Supplies of Wheat in United Kingdom are fair; in France ample. Germany—Weather been very favorable; native Wheat very scarce. Spain—Drouth which we recently reported continues in many districts. Russia—Weather continues favorable and there has been a moderate improvement in crop prospects. Shipments likely to continue smaller than they were few weeks ago. Roumania—Fears continue to be expressed that rains were too late to save Wheat crop. They have improved Corn outlook. Bulgaria—Present prospects, as a whole, are favorable, but rains needed in the south."

REVIEW OF TO-DAY'S MARKETS

FLOUR—Domestic demand moderate, but little better foreign inquiry. Prices steady.

WINTER WHEAT—Was quiet and easier. Prices were nominally 1c lower than quoted of late. The few cars of fresh arrivals were taken by usual buyers No. 2 Red in store nominally $1 04@1 05 and fresh arrivals free on board at $1 03 @1 07. No. 3 Red fresh arrivals free on board quotable at $1 02@1 06. No. 2 Hard Winter fresh receipts quotably 92@96c. No. 3 Hard quotable at 81@93c, with sales at 85c. No. 4 Hard sold at 70c.

SPRING WHEAT—Was in only light demand and the market was quiet and quotably 1@2c lower. No. 1 Northern in store was quotably 7@8c over July prices, with a sale of 10,000 bu at 7c over, and ranged at 93⅝@96¼c and fresh arrivals free on board quotably about 96@98c No 2 Northern fresh arrivals nominally 92@95c. No. 3 Spring ranged at 85@95c for poor to choice, with a sale at 93c No. 4 Spring quotable at 64@86c for poor to choice, with a sale of very choice at 90c.

REGULAR WHEAT—A very good trade, and a little on the spasmodic order, with the feeling manifested considerably stronger. Closing prices were 1¾c better for July and 1¼c higher for September. Market acted oversold and "shorts" covered freely, the strength in Corn and decreasing supplies being among the principal "bull" helps *Bradstreet's* world's available supply decreased 5,534,000 bu, while a year ago the reduction was but 1,990,000 bu Liverpool quoted spot steady to ⅛d lower and futures steady to ⅛d lower. Receipts there the past six days were 608,000 bu, of which 112,000 bu came from America. Liverpool stocks June 1 reported 3,000,000 bu, an increase during May of 472 000 bu. Stock one year ago reported at 1,152,000 bu. London came unchanged to ⅛d lower and Paris was quoted steady to ¼c higher English country markets were quiet with a turn lower to sell and French markets steady. London Mark Lane quoted foreign Wheat dull at 3d decline and an easier tendency for English The map showed higher temperatures, with rains in the Northwest Ohio Valley Kansas and Nebraska —heavy in the two latter States. Showers were generally predicted for both the Winter and Spring Wheat belts. Stocks here in all positions were reported 3,638,000 bu, against 3,733,000 bu—a decrease of 85,000 bu—one week ago, and one year ago were 6,125,007 bu. Contract stocks increased 196,394 bu last week and now include 782,106 bu, as against 3,076,157 bu for the same date one year ago. Stocks in interior elevators of the Northwest were reported at 1,330,0 0 bu, an increase during May of 46,000 bu. Stock a year ago 1,299,000 bu, and 1,462,000 bu in 1902. Minneapolis wired that receipts at country points continued fair and claimed there was a good demand for cash Wheat, with No. 1 Northern 1½@2c over July. Nearly the full capacity of the mills there expected to be running by to-night. Primary receipts were about 100,000 bu larger than a year ago. Receipts in the Northwest were 57 cars larger. St. Louis and Kansas City received 131,000 bu and shipped 184,000 bu. Duluth shipments the past three days, 632 000 bu. Minneapolis stocks reported reduced 125,000 bu so far this week. Exports were again small and only 15 boat loads were accepted at the seaboard. Receipts at Duluth 59 cars and at Minneapolis 178 cars, a total of 237 cars, against 240 cars yesterday, 106 cars a week ago, and 180 cars last year. Local receipts included 8 cars Winter, 10 cars Spring, 19 cars mixed, a total of 37 cars, against 83 cars last year. Included in the above were none contract grade. There was also 3 cars and 31 500 bu from unlicensed elevators. The estimated receipts for to-morrow are 8 cars. Withdrawals today were 3,000 bu. Receipts at Western points were 350,930 bu, against 248,729 bu last year; at Eastern points 26,938 bu, against 171,256 bu last year. Shipments from Western points were 923,851 bu, against 210,398 bu last year, and from Eastern points 1,630 bu, against 166,329 bu last year. Shipments of Flour were 11,287 brls. Exports of Wheat in Flour were equal to 52,421 bu.

Future Deliveries of Regular Wheat—Good trade and prices higher

DECEMBER—Sold at 80¼@81⅛c. Opened at 80¼c and closed at 81⅛c.

CORN—There was a good trade, with a continuation of the "bullish" sentiment developed yesterday, July selling to 49⅝c. September to 48⅝c and December to 44c. Closing prices showed gains of 1⅛@1⅞c. The buying was led by the same interests that were prominent on the "bull" side yesterday, while speculative offerings were moderate and the advance rapid in consequence. Scattered realizing followed the upturn, causing a moderate recession in values, but market rallied and closed at the top. The weather West was considered too wet, and receipts are not coming up to the expectations. To-day's arrivals were 691 cars, with 113 cars contract, against 1,081 cars last year, when 133 cars graded, and 323 cars are estimated for to morrow. The map showed heavy rains in Kansas and Nebraska. Rains were also reported through the Ohio Valley. The signal service predicted showers for all the principal Corn States. The Illinois crop bulletin stated the outlook in the northern districts was promising, but in central and southern sections much replanting was necessary, owing to bad seed and ravages of cut worms. Liverpool quoted spot steady and futures unchanged to ⅛d higher Receipts there the past six days 192,000 bu, of which 128,000 bu came from America Stocks at Liverpool June 1 reported at 1,816,000 bu, a decrease during May of 240,000 bu. Stock one year ago, 854 000 bu. Stocks here in all positions were reported at 4,177,000 bu, against 5,203,000 bu one week ago—a decrease of 1,026,000 bu. One year ago at this time were 2,597,000 bu. Contract stocks decreased 756,000 bu last week and now include 1,806,034 bu, against 1,165,515 bu same date one year ago. *Bradstreet's* decreased 954 000 bu, while one year ago for the same week there was an increase of 555,000 bu. Part of the early buying of December and May was credited to Provision interests. Southwestern markets were again strong and higher. Exports were 84,000 bu; last year 277,000 bu, and 5 boat loads accepted at the seaboard. Cash sales here 200,000 bu With-drawals from store 88,450 bu. Sixty-one cars of contract switched from private to public elevators. Local receipts 734,000 bu; shipments 332,000 bu. Western receipts 1,183,000 bu; last year 1,06?,000 bu. Shipments 635,000 bu and 355,000 bu respectively Car lots were in more active demand and prices were 1@3c higher. No. 2 closed about 50c No. 2 Yellow sold at 50½c and closed at 51c No. 2 White sold at 49¾c No 3 sold at 49¼c and closed at 49½c. No. 3 White at 49@49¼c. No. 3 Yellow sold at 50c and closed at 50½c. No. 4 at 38@47c, and No Grade at 35@43½c.

Corn by sample—Offerings were smaller and the demand sharp and active. Feeling stronger and prices generally 1@2c higher, and in some instances about 3c higher Sales on track and free on board: No Grade sold at 33@38½c. No. 4 at 36@49¼c. No. 3 at 49@49¾c. No 3 Yellow at 50@51c. No. 2 at 49@50c. No. 2 Yellow at 50½@51c. No 3 White at 49@49½c. No 2 White at 49½c. Billed through: No Grade at 37@44c. No. 4 at 43@48½c. No. 3 at 48@48½c. No. 3 Yellow at 49@49½c. No 2 Yellow at 49½@50c. No. 3 White at 48@48¾c. No 2 White at 48½@48¾c.

Future Deliveries of No. 2 Corn—Active and stronger, closing at the top, with 1⅛@1⅞c advance.

JUNE—Ranged at 48⅛@48⅞c, and closed at 48⅞c nominally.

JULY—Sold at 47¾@49⅝c. Opened at 47¾c to 48c, and sold at 48½c, to 48⅜c, to 49c, to 48¾c, to 49¼c to 48⅞c, up to 49⅝c, and closed at 49⅜c asked.

MAY—1905—Sold at 42¼@43⅝c. Opened at 42¼c to 42½c, and sold at 43⅝c, to 43⅜c, to 43½c, and closed at 43½c bid.

OATS—Were active and strong, borrowing a good deal of it from Corn, and closing at about the best prices, with net gains of ½@⅝c. There was good buying to cover "shorts" and by commission houses, who took July and September. Selling was scattered and mainly by "longs" to take profits. The Government crop report was favorable, early-sown heading as far north as the Central Mississippi Valley and southern portion of Middle Atlantic States Harvesting is progressing in the South. Local stocks in private elevators increased 16,000 bu and are 1,062 000 bu; in all positions are 2 142,000 bu, a decrease of 176,000 bu last week Of contract stocks are 759,0 0 bu, a decrease of 8,000 bu last week. Cash sales were 75 000 bu here and 70 000 bu at New York. Seaboard clearances were 27,000 bu Arrivals were 287 cars, with 94 cars expected to-morrow. Withdrawals were 33 900 bu. Seaboard clearances 27,000 bu. Car lots to go to store were steady to ½c higher. Standard in store closed at 41¾@42c.

Oats by sample were in good request and steady to ½c higher. Supply lighter. Sales on track and free on board: No. 4 White at 36@41¼c. No 3 at 38¾c. No. 3 White at 41¼@41¾c. Standard at 43c. No. 2 at 40c No. 2 White at 43¼c Billed through: No 1 White at 41c. No. 3 White at 41¼@41½c. No. 2 White at 43½c. At the river No Grade at 37½c. No 4 White at 38@41c No. 3 White at 40@41¼c.

Future Deliveries of Contract Oats Were strong and closed at about the best prices

JUNE—Ranged at 41@41¾c. Opened at 41c; closed at 41¾c bid.

JULY Active. Sold at 38¾@39½c. Opened at 38¾c to 38⅞c, sold to 39⅛c, to 39⅛@39½c at close.

SEPTEMBER—Active Sold at 30⅝@31¼c and at 31⅛@31¼c. Opened at 30¾c, sold at 30⅝c to 30¾c, to 31⅛@31¼c; closed at 31⅛c.

DECEMBER—Slow at 31½c bid.

RYE The market ruled firm little more doing in cash for local manufacturing purposes, but the speculative business was neglected although full former prices bid for new crop futures. There were four cars received and none withdrawn from elevators. No export clearances from the seaboard. No. 2 in store nominal and a car fresh receipts free on board sold at 75c No. 3 fresh receipts sold free on board at 66¾c and No 4 at 51½c.

Future Deliveries of No. 2 Rye—Quiet and firm. July 66¾c bid and September 63c sellers No trading.

BARLEY—The market was quiet and values were called unchanged, except Screenings and they were again 1c higher All grades salable and firm. Offerings were small To-day's postings showed 27 cars received Screenings were quotable at 36@42c for poor to choice outside recleaned. Barley, low-grade feed or mixing quotable at 38@41c, outside for good weight. Malting low grade, 42@43c, fair to good sound, 45@48c; good color, 49@56c, and fancy, 58@59c

SEEDS Timothy was firm and more active. Millet and Buckwheat was nominally higher. Flax and Clover were dull and nominally unchanged.

Timothy—A very moderate business was done in the cash market and there was more interest taken in futures Cash Seed was steady and sales were made at former prices Futures were quoted nominally higher Contract spot Seed was nominally $3 05 July was quotable at $3 05@3 10. September sold at $3 25 and closed with sellers at that Country lots quotable at $2 00@3 10 for low-grade to fancy, choice about $2 80@2 90 fair to good Seed $2 60@2 75 and rough at $2 40@2 50

Flax—Was again inactive. There were no offerings of either cash or future deliveries Local receipts were 1 car or 830 bu; shipments were 1 car or 1,045 bu Northwestern receipts were 10 cars at Duluth and none at Minneapolis No. 1 Northwestern nominally $1 16½, No 1 at $1 00, and Rejected quotable at 97c@$1 10—outside for choice Northwestern July nominally $1 02½ and September $1 00

Clover—The market was very quiet, due to small offerings The tone of the market was steady and values were unchanged Contract spot Seed was quotably $10 75 Country lots common to choice, $7 75@10 00; fancy above, mixed with Buckhorn or other weed Seeds, $8 00@8 00; poor, c eaned out of Timothy, very foul, down to $3 00@6 00. Such lots as usually come to market when ordinary to good quotable at $8 50@9 50.

HOG PRODUCTS Quite a good speculative business was reported in the market for Hog Products, and the market was somewhat unsettled Outside orders were fair, and local trading was quite active. Offerings were rather free, credited to local "longs" and packers, while the demand was moderate and mainly from parties who were willing to accept small profits. Hogs were in rather good supply, and prices ruled slightly higher, but this feature appeared to have little influence on the market Receipts at the leading Western packing points were estimated at 104 960, compared with 81,400 one year ago. Foreign markets were stronger for Meats, and Liverpool quotations were advanced 1s on Cumberland Sides, and 6d on Hams and Backs. Lard was reported steady at unchanged prices. Domestic markets were reported more active, with buyers cautious. Receipts of Products were rather liberal of Lard and Meats about 30 cars Shipments were quite large—of Lard and Meats about 178 cars. Speculative market opened rather weak with considerable pressure to sell, and prices ruled lower on all the leading articles About the middle of the session a little more steadiness was manifested, with a slight rally in prices, but an easy feeling again prevailed, and the market closed around inside figures Shipping demand showed some improvement. Exporters accepted moderate quantities and the home trade was fair. Offerings were not very large, and holders rather firm in their views Sales were fair, and prices inclined in favor of sellers.

CROPS GENERALLY IN FAIR CONDITION.

WASHINGTON, May 31.—The weather bureau today issued its weekly summary of crop conditions throughout the country It follows:

With the exception of the Northern Rocky Mountain region and Upper Missouri and Upper Mississippi Valleys, where the early part of the week was too cool, the temperature of the week ending May 30 was favorable in al districts and especially to the eastward of the Mississippi River and in the West Gulf States

Well distributed and beneficial rains fell over the greater part of Texas and the Central Rocky Mountain slope.

Light frosts occurred in Wisconsin, and heavy, damaging frosts in Montana, Idaho, and the eastern portions of Oregon and Washington.

Except in the more northerly sections, where Corn planting is much delayed, this work has progressed under favorable conditions, but the reports indicate that a large amount of replanting will be necessary throughout the central valleys and lake region, due in part to poor seed

A general improvement in the condition of Winter Wheat is indicated in the principal Wheat States but the condition of the crop continues very poor in the Ohio Valley. Harvest is in progress in the Southern States.

Early sown Spring Wheat is growing rapidly, and the general outlook for this crop in the Spring Wheat region is promising Some fields in South Dakota, however, are weedy, and the late sown in North Dakota has not germinated well.

On the North Pacific Coast early Spring Wheat is doing well, but rain is needed for the late sown.

Nearly all reports respecting Oats indicate that this crop has made very favorable progress Early Oats are heading as far North as the Central Mississippi Valley and the southern portion of the Middle Atlantic States. Harvesting continues in the South

Although Cotton continues small, a general improvement in its condition is indicated, especially in the central and western districts where rains have been well distributed and generally ample.

Tobacco transplanting has progressed slowly in Kentucky, Virginia and North Carolina, and this work awaits rain in Maryland. Planting has made favorable progress in New England, Pennsylvania and Tennessee

The reports respecting Apples received from the Central Mississippi and Ohio Valleys are somewhat less encouraging but from the Middle Atlantic States, New England and the Upper Lake region the reports are more favorable In the East Gulf States a good crop of Peaches is promised, but elsewhere the outlook is poor.

In the principal Hay producing States the condition of this crop is uniformly good. Haying has commenced in Texas.

Missouri—Week more favorable, but latter part too cool for good growth; Corn planting advancing rapidly; much early planted to be replanted; cultivating becoming general; Oats slightly improved; earliest heading; meadows promising; Apple prospects declining.

Illinois—Warmth and well distributed showers contributed to rapid and vigorous growth; Corn promising and showing good stand in north; in central and south Corn not so even and planting not finished, but well advanced; Oats, Wheat, Rye, meadows and pastures improved by warm rains; Apples dropping extensively, other Fruits promising, except Peaches.

Indiana—Temperature slightly above normal; rain Thursday and Sunday beneficial; three-fourths of Corn crop planted, acreage large, cut worms causing much replanting; Wheat improving, but present acreage promises light crop; old Clover very poor, new Clover, Oats, Timothy, and pastures in good condition; Fruit, except Peaches, promising.

Ohio—Weather favorable for plant growth and farm work, except in the northwest, where too wet; Rye heading; Corn not all planted, much replanting necessary; Wheat, Oats, Barley, Potatoes, gardens, pastures, meadows and Tobacco improving; some vineyards in extreme north show winter killing.

Michigan—Ample and well distributed showers very beneficial to Oats, Barley, Peas, meadows and pastures; Wheat and Rye improved, but continue poor; Corn planting well advanced, but germination slow on account of poor seed, early being cultivated; all Fruits except Peaches continue promising.

Wisconsin—Cold and wet weather first of week seriously interfered with farm work, latter part more favorable; light frost in few sections; no damage; winter and spring Grains making good progress; Corn planting retarded, but nearing completion, many fields being replanted, due to seed rotting.

Minnesota—Unevenly distributed rain in central and southern portions, dry in northern; Oat and Barley seeding nearly finished in north, and Flax and Potatoes being seeded; early Wheat and Oats growing nicely; elsewhere Wheat, Oats, and Barley growing well and stooling; Corn and Potato planting well advanced, earliest being cultivated; considerable replanting of Corn necessary; Hay prospects good.

Iowa—Week cool and cloudy, with excessive rains in central and northern districts causing some damage and retarding field work; in southern sections fair progress made in finishing planting and cultivating early planted Corn.

North Dakota—Cool, dry weather greater part of week, while favorable for Grain that is up, was generally unfavorable for germinating late sown; Wheat seeding practically finished; Oats, Millet and Barley nearly all sown; Corn planting well advanced, Flax seeding in progress; grass in excellent condition.

South Dakota—Fore part of week cool and showery, followed by more favorable weather; Spring Wheat, Oats, Barley, Rye, and grasses growing well, but in some scattered fields Wheat and Oats are weedy; Corn planting nearly completed but defective seed necessitating some replanting and cool soil retarded germination and growth; Flax and Millet seeding making good progress.

Nebraska—Good growing week, with heavy showers in central and northern counties, Winter and Spring Wheat, Oats, Rye, Barley grass, and Alfalfa growing well; Potatoes doing well; Corn coming up unevenly and growing slowly, large amount of replanting being done; cultivation just beginning; Cherries promise full crop; Apples not so good.

Kansas—Wheat in good condition and headed in south, heading in central counties, some local damage by hail; Spring Wheat growing well; Corn improving, cultivation more general, some washed; Oats and Barley growing well; Rye blooming; grass growing well; pastures good; Alfalfa cutting begun, good crop; Apples and Peaches promising; Potatoes growing well.

THE WEATHER CONDITIONS.

Unsettled conditions have continued over the greater portion of the country. Considerable rain has fallen directly west of the Missouri River, and the rain has been general in the northern tier of States, except in portions of lake region. Temperatures have remained nearly stationary in all sections.

Indications are that the unsettled conditions in the greater part of this district will continue. The rain area may not reach Lake Michigan before Thursday night.

CROPS IN ILLINOIS.

SPRINGFIELD May 31.—The Illinois crop bulletin for the week ended May 30 says:

"Well distributed showers and a mean temperature above the seasonal average have contributed to rapid and vigorous plant growth during the last week. While the soil is too wet for farming operations in sections of the southern district and planting has been retarded elsewhere, it is generally in good condition The showers have mostly been farmers' rains, occurring in the night, and have not materially hindered work in the field.

"Corn in the northern district is uniformly promising. It is showing a good stand and considerable cultivating has been done. In the central and southern districts the condition is not so even. Planting is still in progress, but the work is well advanced. In all sections much replanting has been done because of bad seed and the ravages of cut worms.

"Oats have been improved greatly by the warm rains. In the central and southern districts complaint is made of thin stand in some localities, but the average condition is good.

"Wheat is heading in the southern half of the State Although some fields are poor and will give a greatly reduced yield, the general condition is favorable The outlook for Rye is promising.

"Meadows and pastures have made rapid growth under favorable conditions. Some Clover is now in bloom. Stock continues healthy, but the young Pig crop is small.

"Gardens have made an advance, and Potatoes are showing well, except in sections of the southern district, where much seed rotted in the ground. Strawberries are in bloom in the northern part and ripe in the southern. A heavy yield is indicated. Apples gave promise of a heavy output, but many unfavorable reports have been received that the Fruit is dropping at such a rate as to presage a considerably reduced yield."

LA PLATA FREIGHT MARKET.

[The Times of Argentina, April 18.]

Merchants contend that the unsatisfactory condition of Corn does not warrant forward chartering and they are successfully playing on that string of the harp to bring about lower and tempting offers from owners. These merchants willingly forget that there is plenty of Wheat to be shipped irrespective of Corn, and that whether Corn is not in first-class shipping condition or otherwise, it will go forward, the effect of its condition being on the purchasing price, while the freight will be regulated by the tonnage supply. So far, the visible or probable tonnage supply for June loading is below our probable requirements, and when that fact is established beyond doubt, the one-string tune that is being played on the freight harp will be dropped and quite another music will have to be faced. There is, of course, the danger of a wet season retarding shipments and the greater danger of boats coming out in ballast in the hope of striking a rising market. The extraordinary proclivity exercised by owners to thus thoroughly demoralize the market is the real sheet anchor of merchants. Everything pointed, at the opening of the season, to the absence of unfixed ballast boats, but although their number showed a considerable falling off as compared with the previous season, a good number of them appeared on the scene, and nothing will convince merchants that the same history will not repeat itself month after month. They naively remark that owners holding out for the inevitable extra sixpence necessarily implies an ultimate rate, lower by sundry sixpences. We must fully admit that past and present history fully corroborates that contention, and we have only to add that if that policy is pursued, there is no possibility of a payable rate being maintained for any length of time in this trade.

LONDON FLOUR MARKET.

[From Beerbohm, May 20.]

The past week's imports of Flour were 112,960 sacks, against 87,670 sacks the previous week, and 146,500 sacks last year, making the total since Aug. 1 6,986,000 sacks, against 6,063,200 sacks the same time last year. The shipments in the past two weeks from the Atlantic ports were: For London 39,000 sacks, for Liverpool 113,000 sacks and for Glasgow 24,000 sacks.

The general demand for Flour seems to be improving. For nearly three months bakers have restricted their purchases so much that they must be getting very low in stock, and it may be expected that the slightest incentive would cause a brisk demand. In London town-made households are unaltered at 24s 9d ex-mill and Whites at 27s 9d. American Spring Patents ex-store have been sold as low as 26s 6d, but close with buyers at 26s 9d to 27s, while for shipment much above this level is still asked. English country Flour is held at late rates, viz., at 22s 6d to 23s 6d for country roller Whites, up to 27s 6d for best Patents. French Flour is in fair supply but difficult to sell; the best brands are obtainable at 23s 6d ex-store. The present month will witness a sharp decrease in the stock of Flour in London, for the shipments from the Atlantic ports during the past three weeks have been only 67,000 sacks, against 150,000 sacks in the three previous weeks. Liverpool on Tuesday reported a rather better inquiry.

Window glass factories aggregating in capacity 1,500 pots have suspended operations until September and the new organization of workers, known as the Cleveland, or third union, hopes to close every factory in the country by June 11.

The Chicago and Northwestern Railway Company has declared the usual semi annual dividend of 3½ per cent on its common stock and 2 per cent quarterly on its preferred stock payable July 1 to stockholders of record June 11. Transfer books do not close

Official announcement is made that the guaranteed quarterly dividends of 1½ per cent on the stock trust certificates issued by the St. Louis and San Francisco Railroad Company for the preferred stock of the Chicago and Eastern Illinois Company and the regular semi-annual dividend of 5 per cent on the common stock certificates will be paid July 1. Books close June 16 and reopen July 2.

The steamer Reed, of the Provident Line, has just loaded 275,000 bu Wheat, the largest cargo of Wheat ever taken on at Duluth, Minn. She sailed Monday night for Buffalo. The steamer Kerr, of same line, will load a similar cargo in a day or two. The steamer Clemenson is now lying in the Duluth harbor with 270,000 bu Wheat, and the Heffelfinger has 240,000 bu, making a total of 1,000,000 bu in four boats.

The average price of good Beef Cattle at Chicago the past week was $5 05, the highest weekly average since last September. While the average price of Cattle was the highest in eight months, the average price of Hogs at Chicago the past week—$4 59—was the lowest since the week ending Dec. 26, 1903. During the week wooled Colorado Lambs reached $7 50, being as high as any Colorados sold in Chicago since April of last year.

The *Corn Trade News* of May 19 says of the French crops: "As the result of a special inquiry concerning crop conditions, stocks, etc., the *Marche Francais* announces that prospects are good, the few complaints being far outweighed by almost general satisfaction As regards the stocks, the journal calculates that there will be a carry-over of fully 56,000,000 bu into the new season, after allowing 7½ per cent for bad quality of the last crop. In general, the weather continues seasonable and favors the crops. On provincial markets there is still very little business passing; offers are smaller but are sufficient to fill the requirements of millers, whose Flour has met a very slow sale, owing to the warm weather and abundance of Vegetables."

A report from St. Petersburg of May 15 states that the condition of the autumn-sown cereals in the Government of Kieff is very varied—in general the early sown fields have a satisfactory appearance, but the late sown are lost in five districts, and replowings have been resorted to. In Uman it was conjectured that one-third of the crop area would have had to be turned over, but timely rains and mild weather inspired the hope of an improvement in the outlook, and many farmers left their Grain fields intact. Spring seeding was two to three weeks later than ordinary. The weather is still favorable and mild, but the want of humidity is felt. In the Government of Kherson the autumn-sown crops in a few localities were considered unsatisfactory, although recently some improvement is to be noted. The area under crops shows a diminution of 5 to 6 per cent. In the Azoff district there is great deficiency of humidity—in Kharkoff and Ekaterinosloff and in the Crimea rain has much ameliorated the crop situation.

ITEMS OF GENERAL INTEREST.

Documentary Sterling strong at 484¾.

New York Exchange 25@30c premium.

Chicago Bank Clearings to-day, $35,796,661.

Two small failures on the Liverpool Cotton Exchange to-day.

Minimum rate discount of Bank of England unchanged at 3 per cent.

Total stock of Lard at Milwaukee, 4,873 tcs, of which 2,879 tcs are contract.

It is claimed that the Wheat crop of Ontario will be about 5,000,000 bu less than in 1903.

Reported that 40,000 bu Wheat and 16,000 bu Corn were taken at the seaboard to-day for export.

Estimated receipts for to-morrow: Wheat, 7 cars, Corn, 534 cars; Oats, 112 cars; Barley, 8 cars; Hogs, 33,000.

A steamer was chartered at Chicago, Wednesday, to carry Oats from Washburn Wis., to Buffalo at 2⅛c

The Northwestern Elevated Railroad, Chicago, gain during May was 2,342 passengers daily, or 3.35 per cent.

Ten packers purchased 22,000 Hogs to-day; shippers, 6,500; left over, 4,500. Market closed steady at the decline.

Average cost price of Hogs at Chicago, Wednesday, was $4 69, against $4 66 Tuesday, $4 54 a week ago and $6 19 a year ago.

Stock of Flax Seed in interior elevators of the Northwest reported at 196,000 bu, compared with 1,299,000 bu one year ago.

Southern Kansas says harvesting of Wheat will begin in ten days or two weeks, and with present high prices it should move freely.

It was rumored that new No. 2 Red Winter Wheat was offered to-day from Oklahoma to be delivered at Chicago during June at $1 00 per bushel.

A good sized cargo of No. 2 Hard Winter Wheat that has been held at Portland, Maine, all winter, without finding a buyer for export, has within a few days been shipped to New York and sold there.

The Missouri State report makes the condition of Winter Wheat 81, compared with the same last month, and 89 in June 1903. Condition of Corn 70, compared with 74 last year, and 75 per cent of area planted.

Local Securities were moderately traded in with a 4-point jump in Pneumatic Tool, a 2-point rise in City Railway and ½-point gain in Northwestern elevated. The Industrials, on the whole, were slow and easier.

The weekly statement of the Bank of England shows an increase in bullion of $835,316. The proportion of the bank's reserve to liabilities is now 46.33 per cent, against 48.10 per cent last week, and compared with a decline from 50¾ to 49⅝ per cent in this week last year.

The *Northwestern Miller* says: "Crop reports from the Southwest continue favorable and harvesting is only a few weeks off. While there is some indication of slight improvement in conditions in the Ohio Valley, no appreciable change can be noted."

Money rates in Chicago remain unchanged at 4 to 5 per cent. One banker stated, to-day, that borrowers with gilt-edge collaterals would find no difficulty in securing loans at concessions of the former figure for short dates. Loans running up to the fall election command top rates.

The Cincinnati *Price Current*, in its weekly crop summary, says "Winter Wheat advancing favorably, but less decidedly than in previous several weeks. Late Corn planting delayed, affecting moderately the acreage intended. More replanting than usual. Warmer weather desirable. Oats progressing favorably."

Cotton in New York was heavy under realizing sales by "longs" and poor support. July broke 60 points, to 11.36. The decline brought increased purchases of spot and a fair rally. Losses on other months were sharp. The market closed 37@49 points lower on near and 9@13 points lower on deferred deliveries.

The Cincinnati *Price Current* reports the packing of the West for the week at 485,000 Hogs, compared with 500,000 for the week previous and 445,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 5,345,000 Hogs, compared with 5,010,000 for the corresponding time last year—an increase of 335,000 Hogs.

Stocks in New York averaged lower, due to liberal general selling. Consolidated Gas was a feature. Its stockholders voted to increase the capital stock from $80,000,000 to $100,000,000. Poor railroad earnings were a "bearish" factor, and caused selling. A fair bank statement is expected Saturday, but it had little if any effect on prices.

The Duluth *Commercial Record* claims that the movement of Wheat in the Northwest indicates a yield for the past year of 188,000,000 bu. The Minneapolis *Market Record* claims that the shipments of Spring Wheat out of the Northwest will equal the receipts of Winter Wheat, and if such was the case the crop would be over 200,000,000 bu.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Sales chiefly on domestic and local account and moderate in the aggregate. Buyers providing only for immediate wants. Chicago stocks of Flour 30,800 brls.

WINTER WHEAT—Was quiet. Scarcely enough coming to make a market. Feeling steadier and fresh arrivals were taken by millers. Choice Wheat will sell, but poor Wheat dull. No. 2 Red in store nominally $1 04@1 05 and fresh arrivals quotable $1 02@1 07 for poor to choice, with sale of a car at $1 05½. No. 3 Red fresh arrivals free on board sold at $1 06 for choice, and ranged down at $1 00 for ordinary. No. 2 Hard fresh receipts free on board sold at 98½c for choice, and ranged down to 94c for ordinary. No. 3 Hard sold at 80c for poor, and quotably up to 93@94c for choice No. 4 Hard sold at 80c.

SPRING WHEAT—There was a little demand on milling and shipping account and a few small parcels were sold out of store. No fresh arrivals to speak of coming and trading restricted. Market steady for choice. No. 1 Northern in store nominally 95½@97c and free on board out of store sold at 97@98c, with fresh arrivals free on board quotably 98c@$1 00. No. 2 Northern fresh arrivals quotably 94@97c. No. 3 Spring fresh receipts free on board sold at 92@93c and quotably 85@95c for ordinary to choice. No. 4 Spring nominally 64@87c for poor to choice.

REGULAR WHEAT—There was a good trade and rather an unsettled feeling prevalent, higher prices ruling early, followed by a moderate reaction. Resting prices showed old July ⅛@¼c higher and the September shade lower. The fact that the Missouri report showed no improvement during May, and that cables showed a tendency to follow the upturn on this side, started the market stronger. The *Price Current* summary was also construed as moderately "bullish," and "shorts" in old July covered. Southwestern markets were strong and was supposed to reflect adverse crop conditions. There was also some buying on bad reports from Kansas, which described generally heavy rains and severe wind storms yesterday and last night in Kansas and Oklahoma. Liverpool quoted spot unchanged, while futures were ⅛@⅜d higher. London advanced ⅜d on the leading futures. Paris was steady to ¼c better and Antwerp unchanged. The Liverpool strength was due to the improved demand for Indian Wheat and the advance in the Continental markets. Map showed rains in the Northwest, also in Nebraska, Missouri and Central Illinois. Heavy in Missouri and Nebraska, and showers were generally predicted. Missouri State report made condition 81 per cent, same as May 1. A St. Petersburg cable stated the crop outlook was improved, but still backward. New York claimed foreigners were buying futures and cash bids advanced. A New York message stated Continental limits were advanced, but United Kingdom markets hesitate, weather wet in England. Minneapolis wired that 89 per cent of the mills were now running. Flour output in the Northwest the past week 390,000 brls, compared with 482,000 brls same week in 1903. Duluth claimed stocks there had decreased 700,000 bu so far this week, and Minneapolis decreased 300,000 bu. Receipts in the Northwest 53 cars short of last year, but primary receipts 74,000 bu larger. As the session advanced there was rather free selling of September by commission houses and part of the same was credited to Provision interests. New No. 2 Red for June delivery was offered here by Oklahoma at $1 00. Exports were again most meager, and but 5 boat loads accepted at the seaboard. Kansas City and St. Louis received 63,000 bu and shipped 166,000 bu. Manitoba advices on the crop outlook were said to be most favorable. Receipts at Duluth 18 cars and at Minneapolis 108 cars, a total of 126 cars, against 237 cars yesterday, 120 cars a week ago, and 179 cars last year. Local receipts included 10 cars Winter, 1 car Spring, 6 cars mixed, a total of 17 cars, against 19 cars last year. Included in the above were none contract grade. There was also 2 cars and no bu from unlicensed elevators. The estimated receipts for to-morrow are 7 cars. Withdrawals today were 6,000 bu. Receipts at Western points were 273,035 bu, against 209,473 bu last year, at Eastern points 27,337 bu, against 261,797 bu last year. Shipments from Western points were 233,293 bu, against 118,124 bu last year, and from Eastern points 800 bu, against 56,800 bu last year. Shipments of Flour were 4,862 brls. Exports of Wheat in Flour were equal to 21,679 bu.

Future Deliveries of Regular Wheat—Fair trade and closing easier.

JUNE—Was nominally 95½@96¼c, and closed at 96c sellers.

JULY—Old Style—Sold at 88¼@88⅞c and at 89⅛c. Opened with sales at 88½c to 88⅞c; sold to 88¾c, to 89⅛c, to 88⅝c, to 89⅛c, to 88½c, to 88¾c, to 88¼@88⅜c, to 88⅝c, to 88⅜c, to 88⅝c, to 88⅜@88½c, and closed at 88⅜@88½c.

JULY—New Style—Sold at 87@87⅛c and at 87⅞c. Opened with sales at 87½c to 87¾c, sold to 87⅝c, to 87¾c, to 87⅞c, to 87⅝c, to 87½c, to 87⅞c, to 87¼c, to 87⅜c, to 87@87⅛c, to 87⅜c, to 87⅛c, to 87⅜c, to 87⅛@87¼c and closed at 87⅛@87¼c.

SEPTEMBER—Old Style—Sold at 83@83⅛c and at 83¾c. Opened with sales at 83½c to 83⅝c; sold to 83¾c, to 83@83⅛c, to 83⅜c, to 83⅛c, to 83¼@83⅜c, and closed at 83¼@83⅜c.

SEPTEMBER—New Style—Sold at 81⅝@82¼c. Opened with sales at 81⅞c to 82⅛c, sold to 82c, to 81¾c, to 81⅝@81¾c, to 81½c, to 81⅞c, to 81⅝c, to 81¾c, to 81½c, to 81⅝c, to 81½@81⅝c, and closed at 81½@81⅝c.

DECEMBER—Sold at 80⅞@81⅝c. Opened at 81⅝c to 81⅜c; sold to 81¼c, to 81½c, to 80⅞c, to 81¼c, to 80⅞c, to 81@81⅛c, and closed at 81@81⅛c.

CORN—Was strong and higher early, but weakened later with the close showing July ⅛c higher, while September gained ⅛c and the December ¼c. The higher cables, excessive rains in important sections of the West, adverse crop advices from Missouri, Iowa and Kansas started renewed buying by "shorts," prominent Provision interests leading in the covering of the near-by as well as the distant futures. There was, however, an absence of that demand so conspicuous the past two days, and as the session advanced profit taking was much in evidence and some selling which looked like sales against country purchases. Liverpool quoted spot steady and futures ⅛@⅜d higher. Receipts were under expectations at 234 cars, with 22 cars contract against 322 cars last year, when 14 cars graded. For to-morrow 534 cars were estimated. Map showed heavy rains in Nebraska and Missouri, and temperatures a little lower through the West, but higher in Southwest. Showers were generally predicted for the West. The *Price Current* stated late planting was delayed affecting moderately acreage intended, with more replanting than usual and warm weather needed. The Missouri report made the condition on June 1, 70 per cent, against 74 per cent last year and claimed 75 per cent was planted. Western receipts 1,168,000 bu; last year 661,000 bu. Shipments 772,000 bu and 313,000 bu. Local arrivals 800,000 bu; shipments 545,000 bu. Exports 31,000 bu; last year 52,000 bu. Acceptances at the seaboard 2 loads. Cash sales here 100,000 bu. Philadelphia claimed there was no domestic or foreign demand. Transfers of contract Corn from private to public elevators 114 cars and 45,450 bu. Car lots in fair demand and prices ½@1c higher. No. 2 sold at 50c and closed at 50c. No. 2 Yellow sold at 51½c and closed at 51c. No. 2 White sold at 50c. No. 3 sold at 49¾c and closed at 49½c. No. 3 White sold at 49¾@50c. No. 3 Yellow sold at 51¼c and closed at 50¾c. No. 4 sold at 44½@47c, and No Grade at 40c. Charters were 310,000 bu to Buffalo at 2¼c.

Corn by sample—Demand good and offerings fair. Market early was strong and a few early sales were made at ½@1c advance, but later the price dropped back to about yesterday's figures. Sales on track and free on board: No Grade sold at 38@44c. No. 4 at 38@48½c. No. 3 at 49¾@50½c. No. 3 Yellow at 51@51½c. No. 2 at 50@50¼c. No. 2 Yellow at 51½@51¾c. No. 3 White at 49¾@50c. No. 2 White at 50@50¼c. Billed through: No Grade at 36@42c. No. 4 at 44½@49½c. No. 3 at 48½@49c. No. 3 Yellow at 50@51c. No. 2 at 48¾@49c. No. 2 Yellow at 50¾@51c. No. 3 White at 48½@49c. No. 2 White at 48¾@49½c.

Future Deliveries of No. 2 Corn—Active and stronger early, but receded later, the close being ⅛c to ¼c higher.

JUNE—Sold at 48¾@49¼c, and closed at 49c.

JULY—Sold at 49⅝@50⅛c. Opened at 49¾c to 50⅛c and sold at 50⅛c, to 50⅛c, to 50⅜c, to 50⅛c, to 50¼@50⅜c, to 49⅞c, to 50⅛@50¼c, to 49⅝c, to 49⅞c, and closed at 49⅞c asked.

SEPTEMBER—Sold at 48⅝c and 49⅛@49½c. Opened at 49c to 49⅛c, and sold at 49⅜@49½c, to 49⅛@49¼c, to 49c, to 49⅛@49½c, to 48⅝c, to 48¾c, and closed at 48¾c bid.

DECEMBER—Sold at 44@44½c. Opened at 44¼c to 44⅜c, sold to 44½c, to 44⅜c, to 44c, to 44⅛c, to 44¼c, and closed at 44¼c asked.

MAY—1905—Sold at 43½@44c. Opened at 43⅝c to 43¾c, and sold at 44c, to 43⅜c, to 43¾c, and closed at 43¾c.

OATS—Were traded in moderately and the market closed strong at the best prices, with net gains of ¼c on the distant futures. There was nothing in the weather or crop report to cause extensive operations and prices were influenced largely by Corn. The range was small. Cash demand was not so good, with sales of 55,000 bu for shipment. Arrivals were 96 cars, with 112 cars expected to-morrow. Withdrawals were 39,750 bu. Seaboard clearances 31,000 bu. Car lots to go to store were ¼c higher early, but lost the advance. Standard in store closed about 41½@41¾c.

Oats by sample were ½c higher at the start, but failed to hold it, and reacted and closed about the same as yesterday, with the advance lost, as the demand was not so good. Sales on track and free on board: No. 4 at 36½c. No. 4 White at 37@42c. No. 3 at 39½c. No. 3 White at 41@43½c. Standard at 42½@44½c. No. 2 at 40@40½c. Billed through: No. 4 White at 41@42c. No. 3 White at 41¾@42¾c. Standard at 42@43¾c. No. 2 at 39½@40c. At the river No. 4 White at 37@40½c. Standard at 41¾c.

Future Deliveries of Contract Oats—Were moderately active and higher.

JUNE—Neglected. Quoted at 41½@41¾c; closed at 41½c.

JULY—Active. Sold at 39⅜@39½c and at 39¾@39⅞c. Opened at 39½c to 39⅝c, sold to 39¾@39⅞c, to 39⅜@39½c, to 39¾c at the close.

SEPTEMBER—Fair trading. Sold at 31⅛@31⅜c. Opened at 31¼c to 31⅜c, sold at 31⅜c, to 31⅛c, to 31⅜c at close.

DECEMBER—Slow. Closed at 31¾c.

RYE—The market was quiet and feeling firm. Some demand and light offerings prevented trading. There were no receipts here and one car was withdrawn from private warehouse. No export clearances from the seaboard. No. 2 in store entirely nominal, and fresh arrivals sold at 75c. No. 3 fresh receipts nominally 66@72c for ordinary to choice.

Future Deliveries of No. 2 Rye—Quiet. July 67c bid and September 63c sellers. No trading.

BARLEY—The market for all grades was firm. Screenings ½c higher and mixing Barley 1c higher. Demand for spot Barley was good and offerings were rather small. There was a good demand for to arrive lots, but only 15,000 bu were sold. Postings to-day showed 15 cars inspected in. Screenings were quotable at 38@42½c for poor to choice, outside recleaned. Barley, low-grade feed or mixing, quotable at 38@43c, outside for good weight. Malting low grade, 42@45c, fair to good sound, 45@48c; good color 49@55c, and fancy, 58@59c.

SEEDS—All lines were quiet and unchanged. Very little cash Seed is being received and future deliveries were almost entirely neglected.

Timothy—Market for cash Seed was nominally unchanged. Futures were 5c lower. There were small offerings of cash Seed, but buyers and sellers differed in their ideas on values and no trades were made on this account. Contract spot Seed was nominally $3 00. July was quotable at $3 05. September sold at $3 20 and closed with sellers at that. Country lots quotable at $2 00@3 10 for low-grade to fancy, choice about $2 80@2 90; fair to good Seed $2 60@2 75 and rough at $2 40@2 50.

Flax—There was no interest taken either in cash or futures and values were nominally unchanged. The movement was very small. Local shipments were 1 car or 1,041 bu. There was none received. At Minneapolis 2 cars were received and at Duluth 6 cars. No. 1 Northwestern nominally $1 16½, No. 1 at $1 00, and Rejected quotable at 97c @$1 10—outside for choice Northwestern. July nominally $1 02½ and September $1 16.

Clover—Was inactive and nominally unchanged. There was no cash Seed on sale. Contract spot Seed was quotably $10 75. Country lots common to choice, $7 75@10 00; fancy above, mixed with Buckhorn or other weed Seeds, $6 00@8 00, poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Such lots as usually come to market when ordinary to good quotable at $8 50@9 50.

Other Seeds—None offered, consequently there was nothing done. Values were nominally higher for Millet and Buckwheat; other kinds were unchanged. Hungarian, common and light color to choice, dark, at $1 30@1 80. Common Millet $1 20@1 60 for poor to fancy. German Millet, $1 20@1 70. Siberian, 85c@$1 10. Broom Corn and Early Fortune Millet, 85c@$1 05. Mustard, 85c@$1 05. Buckwheat quotable at $1 65@1 75 for good.

HOG PRODUCTS—Rather a good speculative trade was reported in Hog Products, but the feeling was somewhat unsettled. Hogs were in good supply and lower, and the reported stocks on hand were larger than generally anticipated. Outside orders were fair, and local trading was moderately active. Offerings were rather free, and the demand was moderately active. Aggregate supplies on hand are about 14 per cent larger than one year ago. Market opened rather easy, with considerable pressure to sell, and prices ruled lower on all the leading articles. The filling of a few orders caused a little more steadiness and a slight rally in prices, but after these were provided for, the market again weakened, and the advance was lost. Toward the close, the feeling was steadier, but the changes in prices were slight. Receipts of Hogs at the leading Western packing points were estimated at 84,000, compared with 77,700 one year ago. Returns of the packing of the West for the week, compared with the corresponding week in 1903, exhibited an increase of 40,000 Hogs. Foreign markets were firm, with Cumberland Sides quoted 6d higher. Domestic markets fairly active. Receipts of Product were fair of Lard and Meats about 18 cars. Shipments were fairly liberal—of Lard and Meats about 170 cars. Demand on shipping account was rather active, especially on domestic account. Offerings were moderately free. Sales were quite liberal, and prices of all descriptions were well maintained.

Mess Pork—A fairly good trade was reported in the market for Mess Pork, and the feeling was easier. Supply on hand exhibited little change. "Long" rather anxious to realize. Offerings were rather free, and the demand was only fair. Opening trades were made at 10@12½c decline, but the reduction was quickly recovered. Later, the feeling was easier and prices settled back 20@25c. Toward the close, the feeling was rather steady, but changes in prices were slight. Shipping demand was moderate, and offerings were only fair. Cash lots quotable at $11 30@11 35.

JULY—Offerings were quite free, and the demand was fair. Sales were made at $11 32½@11 57½. Opened at $11 45, sold to $11 57½, to $11 45, to $11 52½, to $11 47½, to $11 52½, to $11 32½@11 35, to $11 40, to $11 37½@11 40, and closed steady.

SEPTEMBER—In fair request, and offering were rather free. Sales were made at $11 57½@11 77½. Opened at $11 75, sold to $11 77½, to $11 70, to $11 75 @11 77½, to $11 57½, to $11 60, and closed steady.

Lard—Trade was rather active and the feeling was easier. Stock on hand exhibited an increase of 18,700 tcs, and the world's supply was about 22,000 tcs larger. This feature encouraged considerable realizing, especially by holders of small quantities. Demand was only fair. Foreign markets were steady. Opening trades were made at 5@7½c decline, and a further reduction of 2½@5c was submitted to. Toward the close a little more steadiness prevailed and prices rallied 2½@5c, but toward the close receded to inside figures, and the market closed steady. Inquiry on shipping account limited and offerings were only moderate. Cash lots were quotable at $6 32½@6 35. Loose lots in limited request with moderate offerings. Prices steady at about 55c discount on July figures. Leaf Lard in moderate request and offerings were fair. Prices were quotably lower at $5 75. Neutral in only limited demand with fair offerings. Prices quotably steady at $6 75@6 87½ for No. 1 and $6 50@6 62½ for No. 2.

JULY—Offerings were rather free, and the demand was fair. Sales were made at $6 40@6 47½. Opened at $6 45 to $6 47½, sold to $6 40@6 47½, to $6 47½, to $6 42½, to $6 45, to $6 40 and closed steady.

SEPTEMBER—In moderate request, and offerings were fair. Sales were made at $6 55@6 67½. Opened at $6 65, sold to $6 67½, to $6 60, to $6 62½, to $6 55, to $6 55@6 57½, and closed steady.

JANUARY—Quiet with small sales at $6 50.

Short Rib Sides—Quite a good business was reported in the market for Short Rib Sides and the feeling was rather easy. Supply on hand exhibited a reduction of about 3,300,000 lbs, but this appeared to have little effect on the market. Offerings were moderately free and the demand was fair. Market opened rather steady, but an easy feeling was developed, and prices receded 2½@5c. Later, a little more steadiness was manifested, and the decline was recovered. Toward the close the market was easy and prices receded 5@7½c, and the market closed steady. Shipping demand was fair and offerings were moderate. Cash lots quotable at $6 50@6 62½, according to weight.

JULY—Offerings were moderately free, and the demand was only fair. Sales were made at $6 60@6 67½. Opened at $6 67½, sold to $6 62½, to $6 65@6 67½, to $6 60, and closed steady.

SEPTEMBER—In good request and offerings were rather free. Sales were made at $6 75@6 85. Opened at $6 80 to $6 82½, sold to $6 85, to $6 82½, to $6 85, to $6 77½@6 80, to $6 82½, to $6 75@6 77½, to $6 77½, to $6 75, to $6 77½, to $6 75@6 77½, and closed steady.

Other Meats—Trade was fairly active, and feeling rather firm. Offerings were not very large and the inquiry was somewhat improved. Exporters bought sparingly and the home trade was rather good. Green Meats in limited supply, with rather good inquiry, and prices steady. Pickled Meats in active demand, and prices well maintained. Dry Salted Meats were in fairly good demand, with moderate offerings, and prices were unchanged. Smoked Meats called for in limited quantities, and prices ruled steady. Closing prices ranged as follows:

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled in that city.

The Minneapolis Flour output decreased 6,000 brls. This was due to some of the mills shutting down Saturday. Most of the mills will this week not start until to-morrow (Wednesday) and though the number running will be materially increased compared with recent weeks, the fact of their being in operation only four days will hold the production down to modest limits—perhaps 240,000 brls. For the same week in 1903 the output was 307,325 brls. With the existing dull Flour trade, the tendency is for the mills to run much lighter than in 1903. This applies to outside mills as well as to those of Minneapolis. The fact that the outside mills have added materially to their capacity during the year, helps them to make a favorable showing as to output compared with the figures of 1903.

The week was a dull one with Minneapolis mills so far as trade was concerned. Flour sales did not equal the output. The drooping Wheat market was not calculated to inspire buyers with a desire to buy Flour, and trade in the main consisted of scattering lots. Shipping directions also came in slowly. While some mill managers still have an encouraging word to say as to the outlook for domestic trade, others can see little upon which to base expectation of a favorable business before new Wheat is on the market.

Little heed is given to foreign trade. The United Kingdom, when bidding for Patent, is some 2s out of line. Clears are about as dull as Patent, though Holland has lately been showing somewhat more interest. Millers are asking 10⅛@10¼ guilders for first clear, and the bids are not above 10 guilders. Fancy clear, a grade which in the past has always been very salable, has for some time been even duller than standard first clear. The lack of demand for these grades of Flour is attributed to the fact that English mills have this year been able to secure a mixture of Wheat from other countries which has done away with the need of spring clears for blending purposes.

SEEDING IN THE NORTHWEST.

[From the Minneapolis Journal.]

GRAND FORKS, N. D., May 31.—The past week was a favorable one for growing Grain and for farm work, though not so good for Grain just seeded. The conditions of the early sown crop are all that could be wished. The weather has not been so warm as to stimulate the growth of the plant at the expense of its strength, as in nearly all cases the Grain is well developed and stocky—just the sort of plant to withstand all sorts of hardship later in the season.

Grain sown since the rains is likely to be spotted. Where the soil was fairly mellow the seed would germinate at once, and would get a fair start. On other fields, and on portions of the same fields, the ground has been baked and has dried out so that the seed has not sprouted regularly or uniformly. On such fields there will be a great deal of Grain that will sprout later in the season, and when this is the case, while there may be a thick growth, a good deal of it will be made up of immature plants.

Wheat seeding has been finished in the western and central parts of the State except in occasional places, where lands were overflowed. In the Valley Wheat is still being sown, and unless weather conditions prevent, some of the farmers will sow until the end of the week. By doing so they are, of course, taking chances of frost and all the other chances that usually go with late sown Wheat. Still, there have been seasons in which June sown Wheat has yielded excellent results, and this may be one of the years.

There are all sorts of statements about the acreage of Wheat. Many insist that there will be more acres of Wheat in the State this year than last. Some place the increase at as much as 25 per cent. This does not seem possible. It is admitted everywhere that the percentage of increase in the western part of the State is considerable, but the total in any preceding year has not been great. The greatest percentage of decrease is in the valley, where the total is the greatest, and it seems safer to place the total acreage of the State at considerably less than that of last year. The acreage of Oats and Barley will probably be 25 per cent more than last year.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, June 1.]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth, together with that of 39 "outside mills" with a daily capacity of 30,270 brls, from Sept. 1, 1903, to May 21, 1904:

	1903-04 Flour, brls.	1903-04 Wheat, bu	1902-03 Flour, brls.	1902-03 Wheat, bu
Minneapolis	10,880,995	48,961,500	12,549,910	56,474,500
Duluth	798,075	3,591,500	1,212,070	5,454,500
39 outside mills	5,343,755	24,047,000	4,927,980	22,176,000
Totals	17,022,825	76,603,000	18,689,960	84,106,000

These figures represent the approximate consumption of 7,503,000 bu less Wheat this year than in 1902-03. This has occurred from the mills of Minneapolis and Duluth turning out 2,082,910 brls less Flour, equal to 9,373,000 bu of Wheat, than last year. In contrast, the outside mills have increased their output to the extent of 415,775 brls, or equal to 1,871,000 bu of Wheat.

BOSTON WOOL MARKET.

BOSTON, May 27.—The *Commercial Bulletin* says: "The volume of business is little larger on the Boston Wool market, with some fair-sized lines of old Territory Wool cleaned up at unchanged prices, but which are lower than the cost to replace. A line of 300,000 lbs Idaho fine and fine medium sold for 14c. Active operations have commenced in Oregon, and three-fourths of the new clip of Utah, Wyoming and Idaho has been sold or contracted for. At Newcastle, Wyo., the Morton clip of 600,000 lbs sold at equal to 17½c landed in Boston, and only 10,000 lbs of the clip had been sheared at the time the deal was closed. At the London auction sales very fine merino sold on Boston accounts at 90c, clean, landed.

"The shipments of Wool from Boston to date from Dec. 31, 1903, are 89,290,746 lbs, against 94,220,161 lbs at the same time last year. The receipts to date are 87,677,583 lbs, against 84,087,497 lbs for the same period last year."

THE WEATHER CONDITIONS.

The weather map shows rains general Northwest, West and parts of Southwest. Very heavy in Iowa and along Missouri River. Light in Southwest. Cloudy everywhere. Temperatures unchanged West, lower Northwest, rising Southwest. Sioux City has 1.82 inches, Des Moines 1.12, and Springfield, Mo., .80 inches.

Indications are that showery condition in this forecast district will continue with no decided change in temperatures.

WHEAT AT PRIMARY MARKETS.

The following table shows the receipts of Wheat at Winter and Spring Grain markets for forty-eight weeks, from June 30 to May 30, with comparisons, as compiled by the Cincinnati *Price Current:*

ITEMS OF GENERAL INTEREST.

The output of the St. Louis Flour mills for the past week was 46,000 brls, against 41,200 brls for the previous week.

Directors of the South Side Elevated have declared the regular quarterly dividend of 1 per cent, payable June 30. Books close June 20 and open July 1.

Chicago Union Stock Yards received 123,820 cars of Live Stock during the past five months, compared with 119,318 cars during the corresponding time in 1903.

Directors of the Chicago City Railway have declared the regular quarterly dividend of 2¼ per cent, payable June 6 to stockholders of record June 13. Books close June 14 to June 18, both inclusive.

The American Sugar Refining Company has declared the usual quarterly dividends of 1¾ per cent on the preferred and 1¾ per cent on the common stock, payable July 2. Books close June 4 and reopen July 5.

The National Enameling and Stamping Company has declared the regular quarterly dividends of 1¾ per cent on the preferred stock and 1 per cent on the common stock, payable July 1. Books close June 10 and reopen July 2.

The shipments of Flax Seed from India from April 1 to date amounted to 3,104,000 bu (Calcutta 1,664,000 bu and Bombay 1,440,000 bu), against 3,856,000 bu last season (Calcutta 2,200,000 bu and Bombay 1,656,000 bu), and 4,256,000 bu in 1902 (Calcutta 2,664,000 bu and Bombay 1,592,000 bu).

The Pennsylvania has laid off 1,100 more men in the various shops of its Southwest system, principally at Columbus. Also 462 men in the maintenance of way department at Pittsburg were laid off. At Fort Wayne notice has been posted that either the hours or the working forces must be reduced 35 per cent.

Five hundred and twenty five thousand dollars' worth of Kansas City bonds, bearing 4 per cent interest and redeemable in twenty-five years, were sold, Tuesday, for $552,900. The city received a bonus of $27,900. The buyers in addition will pay in accrued interest since Jan. 1, $10,500. The actual figure paid for the bonds was 105.31.

The San Francisco *Commercial News* says: "The yield of Wheat in California will not come up to early expectations. The crop in the south will be light and in the north there are many reports showing that the late rains were far from beneficial. On the whole it is not expected that the yield will amount to much over 500,000 tons."

The United States Supreme Court has granted the application of the Chicago Board of Trade for a writ of certiorari in its case against Christie & Co. of Kansas City. In a former decision the Christie Company won its point. The decision of Monday means that the Christie case will be taken up and considered with others of the same sort that are pending.

The Denver *Stockman* says: "Reports from the range country all indicate a good grass year ahead. There have been liberal rains and the outlook is for a prosperous season all through the Northwest. The drouth has been somewhat broken in the south and the Panhandle reports conditions very greatly improved. Quite a number of northern buyers have recently gone south, and while it is rather late for trading, the indications are that there will be a very good movement later."

The Federal Mining and Smelting Company, which began active operations Sept. 1, 1903, has declared an initial dividend of 1½ per cent on its common stock. The usual dividend of 1¾ per cent on the preferred has also been declared. Both are payable June 15 to stockholders of record June 3. The company, which has an authorized issue of $30,000,000, is controlled by what is known as the Rockefeller-Gould-Sweeny combination. The amount of stock outstanding is $10,500,000 preferred and $5,250,000 common.

It is understood that the committee appointed to appraise the properties of the Sloss-Sheffield Steel and Iron Company, the Tennessee Coal, Iron and Railroad Company and the Republic Iron and Steel Company is likely to present its report to the presidents of these three companies in Birmingham, Ala., some time this week. Prominent interests in at least one of the companies do not think that anything of a definite character will result from the work of the committee. The statement is made on authority that at least one of the companies concerned declined to give the committee information on points that would be of great interest and actually imperative if a consolidation plan were to be effected.

To enable the millers of the Northwest to move between 10,000 and 15,000 tons of Flour collected at the various lake ports in the expectation of the opening of navigation, the railroads of the Northwest, Tuesday, joined with the Eastern lines in granting reduced rates for one month. Effective June 3 and operative until July 3, the rate on domestic Flour was reduced from 25c to 23c and the rate on export Flour from 23c to 20½c. The reduced rates are the usual lake and rail rates, which have not been in effect this season owing to the strike on the great lakes, and which are now made the all-rail rates. It appears that several weeks before navigation opened the millers entered into extensive contracts based upon the usual lake and rail rates. Flour to fill these contracts was collected at the various ports, where it since has remained. The railroad officials felt that the occasion demanded a reduction in rates in order to protect the millers.

Interest in the Northern Securities Company was revived in Wall Street, Tuesday, and questions were raised regarding the progress made in the suit brought by the directors opposing the pro rata distribution of assets. One of the lawyers interested in the case pointed out that arguments on both sides were completed on Monday, May 23, but that two weeks had then been granted by the New Jersey courts to prepare supplementary briefs. After the briefs are submitted on June 6 the case will rest with the courts until a final decision is handed down and it depends entirely upon the courts as to when that will be. Rumors of a settlement between the Harriman-Hill interests outside of the courts were again officially denied. It was also stated that a pro rata distribution of Northern Securities assets would immediately follow the refusal of the courts to grant a permanent injunction against the plan.

The troubles of the International Salt Company over the receivership and sale of the defunct National Salt Company appear to be about ended. At the second sale of the assets of the National Salt Company, ordered by the court when the first sale was set aside, the property was bought in by the president of the International Salt Company for $103,310. At the previous sale, which was set aside by the court on the ground of collusion and inadequate compensation, the price brought by the properties was $337,500. The lower price realized at the last sale appears to justify the position of the leading interests in the International Salt Company, who brought about the previous sale. Following the sale of the National Salt Company's assets, the president and others of the International Salt Company incorporated in New York State a new company with the title of the International Salt Company of New York, Retsof, New York. The capital stock was named at $500,000. It is presumed that this company is to take over the assets and business of the National Salt Company, which had a capital of $12,000,000. The new company will be a subsidiary of the International Salt Company, in the same way as is the International Salt Company of Illinois, which is the largest earner of the International Company's branches.

The Chicago *Inter Ocean* says: "For the fiscal year ended June 30, 1903, the Atchison Railroad Company reported a surplus over fixed charges of, in round figures, $13,900,000. Fixed charges will be increased this year by the interest on the additional general mortgage bonds sold last October, this increase being, say, $480,000. On the other hand, the company will save $100,000 on serial debentures paid in 1903. The net increase in fixed charges is, therefore, not above $380,000. For the ten months ended April 30 an increase in net earnings over taxes and rental are shown of $1,700,000, and this will be increased in May and June by at least $500,000, so that for the entire fiscal year ended June 30 next there should be at least a net gain of $2,200,000 in the income available for fixed charges. Allowing an increase in fixed charges of $400,000, there will be added to the surplus for the stock the sum of $1,800,000, which will bring this surplus in round figures to $15,700,000. Payment of preferred dividends will take approximately $5,700,000 of this, leaving an even $10,000,000 surplus for the common stock. Deducting from this surplus $2,500,000 for the serial debentures maturing on Feb. 1 last, there is left a sum of $7,500,000, which is, in round figures, 7½ per cent on Atchison common stock. The probability is that when the final figures are in the actual surplus will be equal to 8 per cent on the common stock, or twice the dividend paid."

Since the New York Clearing House Association promulgated a new rule that trust companies who cleared through the association must maintain a stipulated reserve, trust companies have been gradually withdrawing from the clearing house and planning a system for conducting their business independently from the banks. Saturday the City Trust Company announced that May 31 would be the last day that it would clear through the Clearing House Association. This leaves but two trust companies—the Manhattan and Knickerbocker—clearing through members of the association, and the withdrawal of these companies is expected soon. An interesting development in connection with this important financial matter was the formal launching of the new Trust Company's Association of the State of New York. Representatives of fifty out of the eighty odd trust companies in the State, representing $750,000,000 of trust company's assets, met and adopted articles of association and elected officers. It was stated by those who are interested that the object is to get into shape an organization which can properly represent the interests of trust companies in possible contingencies affecting them. One of the first acts of the association will be to arrange for clearing facilities, and a system similar to that of the banks' clearing house will probably be adopted. The severance of relations between the banks and the trust companies has been attributed to the inroads that the latter have made upon the business of the banks. There is little question that the trust companies have been becoming more formidable each year as rivals of the banks, and there is a growing demand, especially from the banking interests, that the trust companies be surrounded by stricter legal regulations.

Estimated receipts for to-morrow: Wheat, 13 cars; Corn, 482 cars; Oats, 129 cars; Barley, 10 cars; Hogs, 18,000.

The receipts of Hogs at Chicago for the week will be about 169,000, compared with 204,949 for the corresponding week last year.

Average cost price of Hogs at Chicago, Thursday, was $4 61, against $4 69 Wednesday, $4 57 a week ago and $5 93 a year ago.

The London correspondent of the *Northwestern Miller* estimates that the aggregate Wheat crop of Europe will be about 120,000,000 bu less than in 1903.

The receipts of Wheat at Liverpool during the past three days were 408,000 bu, of which 112,000 bu were American. Receipts of Corn, 32,000 bu, of which 8,000 bu were American.

Kansas City wires: 'General rains all over Kansas, Missouri, and Oklahoma, streams out of banks, and much damage done in lowlands to wheat, and much blown down, as growth is rank."

Argentine Wheat visible is 4,344,000 bu, against 4,448,000 bu the previous week, and 4,456,000 bu last year. The Argentine Corn visible is 3,111,000 bu, against 2,400,000 bu the previous week and 2,282,000 bu last year.

Shipments of Wheat from Argentina this week were 1,592,000 bu, against 2,102,000 bu the previous week, and 1,712,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 60,584,000 bu, against 40,134,000 bu same time in 1903.

Local Securities were stronger and made fair advances for Can, Diamond Match and Swifts, but were weak and 3¾ lower for Pneumatic Tool and ⅛ lower for City Railway and West Chicago. Union Traction statement is unsatisfactory.

Shipments of Corn from Argentina this week were 2,066,000 bu, against 1,465,000 bu the previous week and 2,598,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 16,879,000 bu, against 8,958,000 bu for same time last year.

The final official estimate of crops of Central Provinces of India places the Wheat crop at 28,200,000 bu, against 18,178,000 bu last year. This is the third largest territory, but contains only about one-third the acreage of the two larger territories.

Cotton in New York had a good reaction from yesterday's severe setback. Liverpool advanced 8 to 13 points and started traders to covering. New Orleans interests took 15,000 bales July. The market closed 5 points lower to 15 points higher.

Ohio crop report makes condition of wheat 54, compared with 53 one month ago and 89 one year ago. Crop prospects, considering the acreage plowed up, the poorest in ten years except in 1900. Corn very irregular, due to cold, wet weather. Much rotting and some replanting.

The shipments of Flax Seed from Argentina this week were reported at 680,000 bu, compared with 760,000 bu last week, and 320,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 28,196,000 bu, compared with 17,021,000 bu for the corresponding time last year.

Bradstreet's reports the exports of Corn from the Atlantic and Gulf ports the past week at 327,000 bu, against 234,000 bu for the previous week and 1,011,000 bu for the corresponding week last year. Exports from July 1 reported at 50,164,000 bu, compared with 62,410,000 bu for corresponding time last year.

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 1,137,000 bu, against 1,132,000 bu for the previous week, and 4,709,000 bu for the corresponding week last year. Exports from July 1 reported at 127,136,000 bu, compared with 208,669,000 bu for the corresponding time in 1902-3

Stocks in New York were stronger despite the light trading and the average was higher There was a good borrowing demand for Steel, St. Paul, Atchison and Pennsylvania. London was a small seller. "Shorts" were the best buyers. With the exception of a 2 point rise and 1 point reaction in Consolidated Gas, the changes were small. Money 1¼ per cent.

The *Modern Miller* says: "Heavy rains have created fear of floods and especially in the West, where the rainfall has been very heavy. Complaints are received that the Wheat harvest in Texas is interfered with, and that the crop is being damaged in Oklahoma and Kansas by the continued rains. Otherwise crop conditions are maintained, though the prospects for the Ohio Valley are for a yield not to exceed half an average crop"

Broomhall's Argentine cable says. "Fair progress is being made in the preparations for Wheat seeding and acreage is likely to be increased over last year. Argentine Wheat markets are now dull with but a slight demand for export. Arrivals from interior are now small, and quality of Grain not giving satisfaction Corn markets continue weak under influences of a very small export demand. Arrivals at ports liberal, but condition of Corn is still unsatisfactory."

Orange Judd Farmer says: "It seems reasonable to expect an improvement in condition on June 1 over May 1, of 2 or 3 points. The last year showing an improvement in condition during May was the year 1898, and the average yield per acre of that year was the largest ever made. Local returns show that the month of May was favorable to growth of small Grain. Month was cooler than normal throughout central valleys, with abundant moisture to helpstooling of small Grain. Improvement in stand is likely to show an increased rate of yield. Incomplete returns show a Spring Wheat acreage but little changed from last year, with considerable decrease in North Dakota Red River counties and offsetting increases in other sections. Acreage of Oats will not vary much from last year, and crop is normal in condition. Weather has been poor for Corn, too cool for prompt germination and early growth. Considerable complaints of defective stands from inferior seed are received. Acreage is largest on record, and crop is not late. It is too early to make definite figures of condition Should June prove favorable, the crop will start under normal conditions."

REVIEW OF TO-DAY'S MARKETS

FLOUR—Market rather quiet and no essential change in prices.

WINTER WHEAT—Was quiet. Scarcely enough coming to make a market. Feeling steady and fresh arrivals were taken by millers. Choice Wheat will sell, but poor Wheat dull. Sales of 30,000 bu mixed lots were reported. No. 2 Red in store nominally $1 04@1 05 and fresh arrivals quotable $1 04@1 08 for poor to choice, with sale of a car at $1 18. No. 3 Red fresh arrivals free on board sold at $1 02@1 03, and ranged at $1 02@1 06 for ordinary to choice No. 2 Hard fresh receipts free on board sold at 98½c for choice, and ranged at 93c@$1 00 for ordinary to choice. No. 3 Hard quotably at 80c for poor up to 93@94c for choice

SPRING WHEAT—There was a little demand on milling account, but the advanced prices checked the shipping business Market quiet No fresh arrivals to speak of coming and trading restricted. Market steady for choice. No. 1 Northern in store nominally 97½@98c, with fresh arrivals free on board quotably 98c@$1 00 No. 2 Northern fresh arrivals quotably 94@97c. No 3 Spring fresh receipts free on board quotably 85@95c for ordinary to choice No. 4 Spring nominally 64@88c for poor to choice, with sales at 85@88c

REGULAR WHEAT—There was a large trade and active, strong market, the close showing the July up 1⅞@2c and the September 1@1⅛c higher. The start was stronger, pit sentiment being "bullish" on claims of large Flour sales at Minneapolis for Japan, the bulge in Corn also helping the market. Flood talk from the Southwest was likewise a factor in strengthening values. Kansas City wired: "Heavy and general rains over Kansas, Missouri and Oklahoma and much damage done to Wheat in the lowlands." Predictions were for a continuation of unsettled and showery weather in both Spring and Winter Wheat belts The European correspondent of the *Northwestern Miller* estimated that Europe would raise 120,000,000 bu less Wheat than last year, and was an indirect "bull" help. The *Modern Miller* crop summary was also construed as "bullish." Liverpool quoted spot ¼d higher to ⅛d lower, and futures ¼d better. Receipts there the past three days 408,000 bu, of which 112,000 bu came from America London was ¼@½d lower Paris declined ½@¾c Liverpool was affected by the brilliant weather in England and "bearish" India crop report. Final official estimate of Central Provinces of India places Wheat crop at 28,200,000 bu, against 18,178,000 bu last year. Argentine shipped 2,102,000 bu, and since Jan. 1, 60,584,000 bu, against 40,434,000 bu in 1903. Visible there 4,344,000 bu last week 4,448,000 bu, and 4,456,000 bu for the same period last year. *Broomhall* cabled that fair progress is being made in preparation for Wheat seeding in Argentine and acreage is likely to be increased over last year. Ohio report made condition 54 per cent, against 53 last month and 89 one year ago. A statistician predicted an improvement of two to three points in showing of Government report this month Duluth stocks are expected to show 1,000,000 bu decrease this week and Minneapolis 365,000 bu. Northwest cars 84 less than last year. Primary receipts 12,000 bu less Kansas City and St. Louis received 75,000 bu and shipped 83,000 bu. Exports for the week were 1,137,000 bu, against 4,709,000 bu last year Acceptances at the seaboard 4 boat loads. Adverse reports from California and a "bullish" crop report covering conditions in the Southwest were the late "bull" helps Receipts at Duluth 4 cars and at Minneapolis 105 cars, a total of 109 cars, against 126 cars yesterday, 114 cars a week ago, and 283 cars last year. Local receipts included 7 cars Winter, no car Spring, no cars mixed, a total of 7 cars, against 22 cars last year. Included in the above were 1 car contract grade. There was also 4 cars and no bu from unlicensed elevators The estimated receipts for to-morrow are 13 cars. Withdrawals today were 9,000 bu. Receipts at Western points were 308,250 bu, against 321,066 bu last year; at Eastern points 28,123 bu, against 114,018 bu last year. Shipments from Western points were 662,797 bu, against 140,461 bu last year, and from Eastern points 605 bu, against 379,061 bu last year. Shipments of Flour were 40,113 brls. Exports of Wheat in Flour were equal to 180,803 bu.

Future Deliveries of Regular Wheat—Good trade and prices higher

JUNE—Entirely nominal.

SEPTEMBER New Style Sold at 81½@81⅝c and at 82⅞c. Opened with sales at 81¾c to 82c; sold to 81⅞c, to 81½@81⅝c, to 82½c, to 82⅜c, to 82⅞c, and closed at 82⅞c.

DECEMBER—Sold at 81⅛@82⅜c Opened with sales at 81½c to 81¾c; sold to 81⅜c, to 81¼c, to 82⅜c, and closed at 82⅜c

CORN—There was a very fair trade and stronger feeling prevalent with closing prices ⅝c to 1¼c higher than yesterday. Light speculative offerings was the chief feature early, while there was a good miscellaneous demand, under which July touched 51⅛c. "Shorts" covered freely. The map showed further downpours in the Corn belt, and unsettled, showery weather was generally predicted, and was the principal "bull" influence. Receipts were 503 cars, with 59 cars contract, against 419 cars last year, when 26 cars graded. For to-morrow 482 cars are expected Liverpool quoted spot steady to ⅛d lower and futures unchanged. Receipts there the past three days only 32,000 bu. Argentina shipped 2,066,000 bu, and total since Jan. 1 foots up 16,879,000 bu, against 8,958,000 bu in 1903. Visible there 3,111,000 bu; last week, 2,400,000 bu; year ago, 2,282,000 bu The Argentine market was reported weak, owing to the absence of export demand. A local statistician in his June report stated that the weather in May was too cool for prompt germination and early growth, but acreage is largest on record and crop is not late Southwestern markets were again strong. Exports were 168,000 bu, and total for week 327,000 bu, against 1,014,000 bu last year Withdrawals from store, 32,400 bu. Fifty-nine cars and 22,500 bu contract were switched from private to public elevators. Local arrivals 863,000 bu; shipments 357,000 bu. Western receipts 590,000 bu; last year 385,000 bu. Shipments 541,000 bu and 274,000 bu respectively. Cash sales here 100,000 bu, and no boat loads accepted at the seaboard. Car lots were in good demand, and prices were higher. No. 2 sold at 50¼@50½c and closed at 50¾c. No. 2 Yellow sold at 51½@51¾c and closed at 52c. No. 2 White sold at 50¼c. No 3 sold at 50@50½c and closed at 50½c. No. 3 Yellow sold at 51¼@51½c and closed at 51½c. No. 3 White sold at 50c. No. 4 sold at 4[illegible]@49c.

Corn by sample—Good, sound Corn was steady to ½c higher, while the low grades were in large supply and slow sale Prices were steady to ½c lower. Sales on track and free on board. No Grade sold at 38¼@47c. No. 4 at 38¼@50c. No. 3 at 49⅝@50c No. 3 Yellow at 50½@51½c. No. 2 at 50@50½c. No. 2 Yellow at 51½@52c. No 3 White at 50@50¼c. No. 2 White at 50@50½c. Billed through: No Grade at 37@43c. No. 4 at 40@49c. No. 3 at 48½@49½c. No. 3 Yellow at 50¼@51c. No 2 at 49¼c. No. 2 Yellow at 51c. No. 3 White at 48¾@49⅛c. No 2 White at 49⅛@49¼c.

Future Deliveries of No. 2 Corn—Active and stronger, closing ⅝c to 1¼c higher.

JUNE—Ranged at 49¼@50¼c, and closed at 50⅛c nominally.

JULY—Sold at 49⅞@50c and 51⅛c. Opened at 50⅛c to 50⅜c and sold to 50¼c, to 50⅛c, to 50⅛@50¼c, to 50⅜c, to 50c, to 50¼c, to 49⅞@50c, to 50¼c, to 50c, to 50½c, to 50¼c, to 51c, to 50¾c, to 51⅛c, and closed at 51⅛c asked.

SEPTEMBER—Sold at 48⅞@49½c. Opened at 49c to 49¼c and sold at 49⅜c, to 49¼c, to 48⅞c, to 49⅛@49¼c, to 49c, to 49⅛@49¼c, to 48⅞c, to 49½c, and closed at 49½c asked.

DECEMBER—Sold at 44⅜@45c. Opened at 44⅝c to 44½c, and sold at 44¾c to 44⅝c, to 45c, to 44¾c, to 45c, and closed at 45c.

MAY—Sold at 43⅞@44½c. Opened at 43⅞c and sold at 44½c, to 44⅜c, to 44⅝c, and closed at 44⅝c bid.

OATS—Were advanced ¾c for July, and closed at the top. September gained ⅜c Trading was more active and general July was the attractive future and advanced with other Grains, and on reports of too much rain West and Southwest, also on predictions of unsettled weather. A private crop report said the acreage would not show the increase expected, and will not be much over last year, due to extreme moisture in Illinois, Iowa and Missouri The stand is good Cash business in round lots was small owing to the advance in prices. Arrivals were 122 cars, with 129 cars estimated for to-morrow. Withdrawals were 24,250 bu Seaboard clearances 6,000 bu Car lots to go to store were steady to ½c higher Standard in store closed about 41¾@42c

Oats by sample were in good request and prices held steady to ½c higher. Offerings were fair. Sales on track and free on board No. 4 White at 38@43c. No 3 at 38¼@39½c No. 3 White at 40@44¼c Standard at 41½@43½c Billed through No. 4 at 38½c No 3 White at 41½@43c Standard at 42¾@44c No. 2 at 39½c At the river No 4 White at 36@41c. No 3 White at 40½@41½c

Future Deliveries of Contract Oats Were active and higher

JUNE Slow at 41¾@42c; closed at 41¾c bid.

JULY Active. Sold at 39¾@40½c Opened at 39¾c to 39⅞c, sold to 40½c, to 40⅜@40½c at close.

SEPTEMBER—Good trading. Sold at 31½@31¾c. Opened at 31½c, sold to 31¾c, and closed there.

DECEMBER—Sold at 32@32⅛c, closed at 32c.

RYE Was quiet and steady Demand light and same prices as yesterday bid. Offerings light. There were no receipts and 150 bu were inspected out of public elevators. No exports from seaboard. No. 2 in store nominal and a car fresh receipts free on board sold at 75c No. 3 fresh receipts nominally 66@72c for ordinary to choice.

Future Deliveries of No. 2 Rye—Quiet. July 67c bid. September 63c sellers.

BARLEY—A few out-of-store lots were sold, but regular market car-lot offerings were so very small that no business of consequence was possible About all that can be said of the market was that all grades of Barley were salable, to a certain extent at least, and values were quotably steady. Several lots sold free on board out of store at 41@43c. The market for Screenings was quotable at 30@42c for poor to choice, outside recleaned. Barley, low-grade feed or mixing, quotable at 38@42c, outside for good weight. Malting, low grade, 42@43c, fair to good sound, 45@48c; good color, 49@55c, and fancy, 58@59c

SEEDS—Were exceedingly quiet Late sowing Seeds were reported in good order demand and steady to firm, but no offerings on the regular market Everything else about the market rather neglected and without quotable change

Timothy Was practically inactive A few small bag lots were sold and that was the extent of business done. The speculative market was easy. New crop Seed offered at the late quotation; no one bid for it. Values were quotably unchanged September delivery was offered at $3 20, July was nominally $3 05 and June $3 00 Limited cash sales made were at $2 00@2 65. Country lots quotable at $2 00@3 00 for low-grade to fancy, choice about $2 80@2 90, fair to good Seed $2 60@2 75 and rough at $2 40@2 60

Flax—There were neither arrivals or output posted. The market also was inactive, aside from the sale of a small lot for June delivery Movement in the Northwest very small and no news at all from there Minneapolis reported no receipts and Duluth only 9 cars Cash Flax No 1 Northwestern remained nominal at $1 16½, No. 1 at $1 00, and Rejected quotable at 97c@$1 10—outside for choice Northwestern. June delivery sold sparingly at $1 00. July quoted at $1 02½ and September at $1 06

Clover—Was lifeless and nominally steady as heretofore. Contract spot Seed was quotably $10 75. Country lots common to choice, $7 75@10 00; fancy above; mixed with Buckhorn or other weed Seeds, $6 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Such lots as usually come to market when ordinary to good quotable at $8 50@9 50.

HOG PRODUCTS Only a moderate business was reported in Hog Products The feeling was rather easy early, but ruled stronger toward the close in sympathy with the Grain markets Offerings were fair and the inquiry rather active. Outside orders small and local trading fairly liberal Hogs in only fair supply and prices ruled higher, but this feature had little effect on the market Receipts at the leading Western packing points were estimated at 67,200, compared with 68,000 one year ago. Foreign market were quiet and dull. Liverpool quotations were advanced 6d on Cumberland Sides and reduced 6d on Lard. Hams and Backs Domestic markets were quiet and steady. Receipts of Products were good of Lard and Meats about 22 cars. Shipments were light of Lard and Meats about 71 cars Speculative market opened rather steady at about the closing prices of Thursday, but the demand was barely sufficient to absorb the offerings, and prices declined slightly all around. Later, prices rallied sharply on all the leading articles, and the market closed steady around outside figures Shipping demand was fair and offerings not very large. Sales were moderate and there was no material change to note in prices

Mess Pork—Trade was fair in the market for Mess Pork, and the feeling was rather unsettled. Offerings were not very large, and the demand was fairly active. Prices ruled irregular. Market opened at about Thursday's prices, and receded 2½c. Later, ruled strong, and advanced 25@27½c, and closed firm at outside figures Shipping demand was light, and offerings were small. Cash lots quotable at $11 65@11 70.

JULY Offerings were fair, and the demand was rather active. Sales were made at $11 37½@11 70 Opened at $11 42½, sold to $11 37½, to $11 40, to $11 37½, to $11 60, to $11 57½, to $11 70, and closed steady.

SEPTEMBER—In good request, and offerings were moderately free. Sales were made at $11 57½@11 90 Opened at $11 57½, sold to $11 65, to $11 62½, to $11 65, to $11 60, to $11 80, to $11 72½, to $11 90, to $11 87½, to $11 90, and closed steady

Lard—Only a limited business was reported in the Lard market, and the feeling was rather strong Demand was moderate, and offerings were fair. Foreign advices were unfavorable to holders Prices averaged 10@12½c higher, and the market closed steady. Inquiry on shipping account limited and offerings were only moderate. Cash lots were quotable at $6 40@6 42½ Loose lots in fair request, with moderate offerings Prices steady at about 52½c discount on July figures. Leaf Lard in moderate request and offerings were fair Prices were quotably steady at $5 75. Neutral in only limited demand with fair offerings. Prices quotably steady at $6 75@6 87½ for No. 1 and $6 50@6 62½ for No. 2.

JULY—Called for moderately and offerings were fair. Sales were made at $6 37½@6 50. Opened at $6 40 to sold to $6 37½, to $6 50, to $6 47½, and closed steady

SEPTEMBER—In moderate request, and offerings were fair Sales were made at $6 55@6 67½. Opened at $6 55, sold to $6 57½, to $6 55, to $6 57½, to $6 65, and closed steady

JANUARY—Quiet with small sales at $6 52½

Short Rib Sides—Quite a good business was reported in the market for Short Rib Sides, and the feeling was stronger Offerings were not very free, and the demand was fairly active. Prices on the whole range were advanced 10@12½c, and the market closed comparatively steady around outside figures. Shipping demand was light, and offerings were moderate Cash lots quotable at $6 50@6 75, according to weight

JULY Offerings were moderately free, and the demand was fairly active. Sales were made at $6 60@6 72½ Opened at $6 60 to $6 62½, sold to $6 60@6 62½, to $6 65, to $6 60@6 62½, to $6 70, to $6 67½, to $6 72½, and closed firm

FINANCIAL AND COMMERCIAL NEWS.

HOWARD, BARTELS & CO., Publishers, 28 Sherman St.

Chicago, Friday, June 3, 1904.

Communications addressed to the publishers of the DAILY TRADE BULLETIN *will not receive attention unless postage is enclosed for reply.*

Important Notice.

In March, 1884, when it was alleged that certain market circulars compiled for the use and benefit of members of the Chicago Board of Trade, were being furnished daily to alleged "bucket shops," the following resolution was passed by the Board of Directors:

Resolved, That the President of this Board notify the above mentioned firms that such action on their part is detrimental to the interests of this Board, and that they are requested to discontinue sale of said circulars to such "bucket shops."

Exports of Flour and Wheat are unusually small.

***

Prospects favor a large acreage of Cotton in the South.

***

France will probably have a good yield of Wheat this year.

***

Supplies of Grain are very light in all the Eastern markets.

***

Advices from Russia indicate irregular crops of Wheat and Rye.

***

Speculative trading in Cotton appears to be fairly well maintained.

***

Trade in Grass Seeds is comparatively light, and price changes are small.

***

Farmers appear to be quite willing to accept current prices for Live Stock.

***

India, Argentina and Australia are shipping Wheat to Europe quite freely.

***

Indications point to a decreased acreage of Flax in the Northwest this year.

***

Chicago expects to do a large business in small Grain when the new crops begin to move.

Orders from the Eastern markets for Hogs are not quite as liberal as they were one month ago.

***

Stocks of Flax Seed in the leading markets are considerably in excess of those returned one year ago.

***

Prospects for Wheat and Rye in the Danubian districts are not very encouraging, owing to the drouth.

***

Outlook for the Rye crop is quite good, but it is doubtful if the aggregate yield will be equal that of 1903.

***

Exports of Hog Products indicate that packers are probably "consigning" goods with considerable freedom.

***

The movement of Hay is quite good, and the demand rather active for the better grades at satisfactory prices.

***

The amount of Wheat and Flour on passage to Europe has not reached high-water mark, and may not do so this year.

***

Farmers in some sections of the West are replanting a portion of their Corn area, owing to the poor quality of the seed.

***

Packing of Hogs in the West since March 1 shows a slight increase compared with returns for the corresponding time last season.

***

If prices of "milling offal" go much higher, millers can afford to pay good prices for Wheat and sell Flour at very reasonable figures.

***

It is generally estimated that the area of Corn will be materially enlarged, especially through the Central West and Southwest.

***

The Chicago Board of Trade has instituted a new department—that of Grain sampling and inspection of all kinds of Seeds under one head.

***

Supplies of the speculative articles of Hog Products are quite liberal for the season of the year—considerably in excess of those of one year ago.

***

Rather a better demand for Chicago Board of Trade memberships within the past ten days. The Board may be a purchaser within sixty days.

Trade in Wall Street is on a limited scale. Many of the large houses have been compelled to reduce their office forces owing to the dullness in trade.

***

The Merchants Exchange of St. Louis has a proposition before it to make Hard Wheat deliverable on contracts at a fixed differential in price under No. 2 Red.

***

Advices from California indicate that the yields of small Grains will fall below previous estimates, while the outlook in Washington and Oregon is very favorable.

***

All trades for May delivery in Grain and Hog Products on the Chicago Board of Trade were promptly settled up, though "shorts" were subject to slight "squeezes."

***

The quality of the Hogs now being marketed shows some improvement—due to their retention on the farms while the farmers were actively engaged in their spring work.

***

The record of cash transactions in the Grain markets of Chicago, reported by the DAILY TRADE BULLETIN, would indicate that we have resumed an active and an old-time business.

***

The movement of the Chicago Board of Trade in giving an estimate of the Grain for the coming day's market is in the right direction, and of considerable benefit to the trading public.

***

Indications point to some revival in the market for Hog Products in the near future. Stocks are not very large abroad, and the supplies in the domestic consuming markets are moderate.

***

A large majority of the correspondents of the DAILY TRADE BULLETIN report an improvement in the condition of Winter Wheat during May. The crop is the poorest in Ohio, Michigan and Indiana.

***

Bank Clearings in all the leading cities are falling considerably below those one year ago. Money is accumulating in the banks, and it is claimed that the banks are reducing their interest rates on deposits.

***

The "official" visible supply of Grain is all right as far as it goes, but it does not represent the actual quantities of Grain at the points named. At some points there is more Grain in private elevators than in the public.

***

The discharge of 90,000 employes by the leading railroads during the past six months is not indicative of a very active business by these organizations, or prospects of any material improvement in road beds or rolling stock.

***

Traders in the future deliveries of Hog Products, where new Products are required, are a little cautious in their operations. Prospects favor a large Corn crop, and this factor is regarded as encouraging a large increase in the Hog supply.

***

The tie-up of lake vessels, owing to the disagreement between the owners and masters, has materially curtailed the Grain business by the water route to the seaboard. Satisfactory rates by railroads has relieved the embargo to some extent.

***

Very little activity in the Flour trade at present. Export demand light, while the home demand is not very active, and chiefly for small quantities. Millers who manufactured rather freely in anticipation of a "war boom" are not very well satisfied with the situation.

TWINE OUTLOOK UNCERTAIN.

[From the Winnipeg Commercial.]

March is stated to have been one of the dullest months ever known in the binder twine trade. April bids fair to run a close second. The International Harvester Company sphinx has not yet declared what the season's pace is to be, although April 1 was the date set. In some quarters the announcement is not expected until the first of May. Meanwhile trade is very uncertain and complications are expected when the harvester interests announce their prices. Inquiries in leading twine centers in the States disclose the fact that somewhat less twine has been sold to date this season than last. Winter Wheat crop reports range generally from poor to fair, and present prospects indicate a smaller consumption of binder twine this year than last. Despite late planting, however, Spring Wheat may be a large crop, and other circumstances may alter the situation.

THE HOP SITUATION.

[New York Producers' Price Current, May 28.]

The general conditions of the Hop market remain unchanged. With the advent of really warm weather holders seem to be a little more encouraged that brewers will soon be compelled to take on a little more stock. How much the expected increase in the consumption of Beer, however, may be neutralized by the extensive labor troubles all over the country remains to be seen. Prices here remain unchanged, with no indication of any hurry to urge business. One or two small sales are reported on the Coast at 25c. Reports from the growing crop in this State show that the hail storm of last week did no material damage and the vines look well. From California and Washington advices continue favorable, but from Oregon there is some complaint in certain sections of weak vines, which may be due to excessive rains and not enough sunshine. Reports from England and the Continent continue good regarding the growing crops. The London market is reported dull with prices weaker.

GROWTH OF THE MILLING INDUSTRY.

The extent of the milling industry of the country and its importance is set forth by a party of Minneapolis in an argument made recently before the Inter-State Commerce Commission in its hearing on Flour rates. It shows that the Wheat crop will have to be doubled if the mills of the country are to be kept going. His statement in part is as follows:

"Milling is the third largest industry in the United States. The value of the product by the Flour mills of the country is only exceeded by the value of Steel and packing house goods; $216,000,000 is invested in the mills of the United States. The capacity of these mills is 850,000 brls daily. Figuring on 300 working days in the year, these mills can grind 1,100,000,000 bu of Wheat. The average crop of the United States is from 600,000,000 bu to 700,000,000 bu, so that figuring on 300 working days in the year, the mills could grind in a year almost two average crops. Every bushel of Wheat grown in the United States can be converted by the mills of the United States into Flour, but if the policy of the roads, as indicated during this war on the question of differentials to the Atlantic ports, should be followed to its logical conclusion, it would indicate a desire on the part of the railroads in this country to see the mills of America located in Liverpool or London. A miller in Liverpool could have bought during February, March and April Wheat at Buffalo, ground it into Flour at Liverpool and shipped it back to New York State and met the competition of mills located in New York State, and this is simply due to the fact that the relation between Wheat and Flour was not considered during this period of war.

"The necessity of adjusting the differentials between the different ports is also necessary to the milling industry, because a merchant mill during the period of its operation must of necessity ship from 15 per cent to 20 per cent of its output into foreign countries. This 15 per cent or 20 per cent represents lower grades of Flour, which must be manufactured as long as the mill operates, and a market for the entire production of these grades is not to be found in America. The American laborer is well-to-do and buys the highest grades of Flour."

A meeting of the Intermarket Committee of the Chicago Board of Trade was held, Wednesday, with the Grain Committee and several of the larger shippers. The desire was to agree upon terms for handling shipping business to conform with the regulations adopted by the Chicago Board of Trade and the New York Produce Exchange.

Stockholders of the Stromberg-Carlson Telephone Manufacturing Company have adopted a proposition to increase the common stock from $1,500,000 to $3,000,000, par value of shares $100. There is also outstanding $1,500,000 of preferred stock. All shareholders of record are entitled to subscribe at par to one share of new stock for every three shares held. A special dividend of 1[illegible] per cent has been declared on the common stock, to be paid in cash or in new stock. The company, it is said, will close its Chicago factory and do all its manufacturing in Rochester, N. Y.

Traffic on the Metropolitan Elevated in Chicago in May averaged 114,372 passengers, an increase of 5,042, or 4.61 per cent, over May, 1903.

The May report of the Chicago custom-house shows a tremendous decrease in business for this port from last year. No Iron ore has been received, and Coal shipments amount to but 1 per cent of the record for the same month last year.

Concerning the yield of the Argentine Corn crop the Buenos Ayres *Handels-Zeitung*, a conservative authority, says that it is very various this year. In Santa Fe and in the Western parts of the Province of Buenos Ayres the crop is a bad one, but in the North it is good. In some parts of Entre Rios also the crop is very poor and in others very good. It is now regarded as possible by some authorities that the exports may not exceed the half of those of last season, when 85,400,000 bu was shipped

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, June 2.]

The marketing of Hogs is without special change. Total marketings 485,000, compared with 500,000 the preceding week and 110,000 two weeks ago. For corresponding time last year the number was 445,000 and two years ago 405,000. From March 1 the total is 5,341,000, against 5,010,000 a year ago—an increase of 331,000. The quality is generally good. Prices at the close average 5@10c per 100 lbs higher than a week ago, prominent markets indicating about $4 50, compared with $4 50 a week ago, $5 15 two weeks ago, $5 30 a year ago, $5 65 two years ago, and $5 75 three years ago.

The speculative Provision market was only fairly active the past week. Toward the close of the week a firmer tone developed, owing to some extent by the firmer tone to the Corn market and the maintenance of prices for Hogs, under fairly liberal receipts. There were no important developments in the general situation. The export clearances of Product were fair, and show a slight increase over the preceding week and a decided gain over the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year.
Pork, pounds	2,500,000	891,000

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, June 2.]

The Winter Wheat crop prospects have been fully maintained during the past week, although there was a little less unfavorable weather. The prospects of favorable progress than in the preceding several weeks. Weather conditions the past week have been characterized by several days of warm temperature followed by several days of rain, turning moderately cooler. In some localities of the West the excessive rains caused some damage, but in the aggregate it was slight. On the contrary a slight improvement is in the Ohio Valley, where prospects have been poorest, but owing to the greatly reduced acreage, the improved weather conditions can only partially recoup the early unfavorableness.

Latest advices from the Spring Wheat States reflect a favorable state of affairs in regard to the growing Wheat, the plant generally being in good stooling well. Rains were scattered, lacking somewhat in North Dakota, where it was needed for germinating late-sown Grain.

Rains over the Corn belt the past few days have retarded considerably the flushing of Corn planting, and will probably affect moderately the acreage originally intended to be planted. Where standing this the acreage will probably be larger than ever before. The ground was too cool for early planted Corn and somewhat more than the usual amount of replanting has been necessary, and the crop averages a week or more late. Some reports from Illinois of poor seed. The ground was in good condition for planting, and with warmer weather following the recent cool weather is expected to bring the plant out favorably.

THE WEATHER CONDITIONS.

The weather map shows general rains through all the agricultural States of the Missouri, Mississippi and Ohio Valleys and in Canadian Northwest Waterspout—3 05 inches at Evansville, Ind.; Rapid City, South Dakota, 1 74 inches; Wichita, 2 01; Concordia, 1 46; Springfield, Mo., 1 00; Columbia, 1 74; Fort Smith, .58; Kansas City, 1.12. Illinois has less rain than any other State.

The first shipment of Gold for the season has left Dawson City, and is reported at Seattle, May 26, as worth $500,000. It is generally estimated that about $5,000,000 Gold will be received from Alaska and the Klondike this summer.

The Indiana Trust Company of Indianapolis was appointed receiver, Tuesday, for the Old Wayne Mutual Life Association on complaint of the State of Indiana. The company, by agreement, is to be reorganized when the receivership is dissolved.

The Northwestern Road contributed 5,101 of the 22,638 car loads of Live Stock received at Chicago last month. The Milwaukee Road was next with 4,417. Burlington third with 3,878, and Rock Island and Illinois Central next with 2,732 and 2,057 respectively.

A receiver was appointed, Tuesday, for the Surety Trust Company, Kansas City, Mo., capital $50,000, by Judge Douglass, of the Circuit Court, upon application of a stockholder, who alleged that the company had gone out of business. The assets are not given.

The Hocking Valley Railway Company has declared a semi-annual dividend of 2 per cent on its preferred stock and an annual dividend of 1½ per cent on the common stock, both payable July 18 to stockholders of record June 30. Transfer books will be closed June 20 and reopen July 19.

The receipts of Flax Seed at Bombay for the week ended April 28 amounted to 8,778 tons, against 1,778 tons in the previous week and 12,860 tons in the same week last year. The total receipts at Bombay from Jan 1 to April 28 amounted to 77,501 tons, against 70,783 tons in the same period last year.

A London cable to a Chicago commission firm, Wednesday, said: "News from Southwestern Russia is decidedly unfavorable. They have had slight rains, but by no means a sufficiency. Crops are suffering. This is the opinion of well-posted men. Is bound to start an advance in prices in Europe soon."

The Board of South Park Commissioners, Chicago, Wednesday, opened bids for issues of $1,000,000 4 per cents extension bonds and $500,000 small bark extension 4 per cent bonds, and awarded both issues to Chicago banking firms. The successful bidders paid a premium of $12,145 for the larger issue and $1,665 for the smaller one.

A Boston dispatch says: "The Wool market continues quiet so far as the local field is concerned. Some trade estimates are that dealers will not take a profit prices will have to be advanced 10@15 per cent above the present basis when the new clip reaches the market. This estimate is based upon the high prices in the West. The market for fleece Wools is dull."

Justice White of the United States Supreme Court delivered an opinion, Thursday, in favor of the Cleveland Railways Company in a bonding case that the 6c fare ordinance constituted a violation of contract, and that the ordinances of 1885 under which the railway companies are operating and which establish 3c fares are binding. The city can secure no relief until the expiration of these franchises.

Average weight of Live Stock at Chicago for months mentioned follows:

	May. April.	May.	May.	May.
	1904. 1901.	1903.	1902.	1901.
Hogs	235 227	236	227	198
Cattle	1,015 1,033	1,040	937	1,036
Sheep	88 88	85	84	88

May averages weight of Cattle lightest since last October and Hogs heaviest of the year.

France imported in April, the ninth month of the present cereal campaign, 8,058,800 bu of Wheat, of which 497,200 bu are reported to have been entered from bond for consumption, the rest being either exported or received as "temporary admissions," or consigned to entrepots. The quantities delivered for consumption in the corresponding month of the two previous years were 891,840 bu and 870,080 bu respectively.

Directors of the United Railways and Electric Company of Baltimore, Saturday, decided to pass the June coupon on the company's income bonds This action is understood to have been taken on account of losses due to the great fire and partly due to the increased working capital for extensions, betterments, improvements, and rolling stock required by the company's rapidly increasing business.

In an action involving almost $100,000,000 brought by stockholders against the New York and Harlem and the New York Central and Hudson River Railroad companies to set aside a lease known as the "secondary supplementary contract," dated May 18 '97 for the lease of the former road to the latter, and reducing the annual rental $250,000, former Judge Edgar M. Cullen, May 26, handed down his decision in favor of the defendants.

The St Louis and San Francisco sold to a syndicate, of which Blair & Co. are managers, $3,500,000 twenty year 4 per cent bonds at 5 per cent. They are secured by $2,850,000 St. Louis, Memphis and Southeastern first mortgage, and $1,0 0,0 0 Frisco collateral trust bonds, which in turn are secured by all the stock of the St. Louis, Memphis and Southeastern. The members of the underwriting syndicate received the notes at 97½ and interest.

The Comptroller of the Currency has declared the following dividends in favor of the creditors of insolvent national banks: First dividend of 22 per cent on the American Exchange National Bank of Syracuse, N. Y., on claims amounting $251,466; first dividend of 10 per cent on the First National of Matthews, Ind., on claims amounting to $61,855; first dividend of 50 per cent on the Citizens' National of McGregor, Texas, on claims of $50,968.

The San Francisco *Commercial News* says: "Hop prospects over the Pacific Coast are very good, and it is estimated that the crop will be considerably larger than last year's, as there is an increase of over 2,000 acres in the area under cultivation. Under favorable conditions the Californian crop in California, it is thought, will be 37,000 bales. Oregon nearly 100,000 bales, and Washington about 81,500 bales, a total of 194,500 bales, as compared with 178 000 bales last year."

Dornbusch & Mayer 14 says: "As was exclusively announced in the Buenos Ayres *Herald* a few days ago, the amount of Corn supposed to be available for export has fallen considerably short of that calculated. There were, theoretically, 2,500,0 0 tons for export owing to the vast tracts sown regardless of the difficulty of harvesting the Grain. The result shows that it is not wise to grow more than can be gathered. [The actual exports totaled 1,950,000 tons.—Ed. *Dornbusch*.]

The Chicago and Northwestern Railroad has adopted the Inter-State Commerce Commission's charge that the heaviest reports will bring the figures forward from May 31 to June 30, and consequently will cover thirteen months. The road reports gross earnings only during the year. The last figures carried operations up to April 30, inclusive. Eleven months ending April 30, gross earnings, 1904, $40,914,922; 1903, $45,505,932; increase, $4,0 8,980. Percentage of increase, 9.7 per cent. Indications are that the figures will wind up the current fiscal year with a surplus over fixed charges and preferred dividends sufficient to take up the February maturities of serial debentures. A gain of five per cent on the earnings will leave a surplus over all in round figures equal to 3½ to 4 per cent additional on the common stock. It may be a fact, but would take a year or two of earning twice the dividends on the common stock after taking up the year's proportion of serial debentures, equivalent to 2½ per cent more on the stock.

The San Francisco *Commercial News* of the *Pacific Coast Wheat Region* says: "Estimates of the Wheat crop of California are being steadily reduced as the effects of the late rains are looking more and more apparent. A month or two ago 650,000 tons were confidently counted on, but the crop in the south has turned out poorly and in the north much damage has been done by dry weather. Now crop talk is of little over 500,000 tons and a good many say they would not be surprised if even those figures have to be reduced."

The rain this spring has been falling for the last six weeks, says a South Dakota exchange The range is in an unusually fine condition and cattle are looking fat and in a great many parts of the range. A higher precipitation has fallen thus far than for eight years, according to local observations. According to the best reports from the round-up in the Black Hills it is claimed that about 5 per cent will cover the loss of Cattle for the winter. Stock is picking up rapidly and it is predicted that shipments will be early this season.

The *Mark Lane Express* of May 16 says: "The temperature up to the 12th inst. was four to five degrees below the average, but a southerly current has set in since then in the West, is generally but not fast; it is perhaps ten days later than last year. Spring sowings are proportionately less in mainland. The condition of weeds is a bad feature. Winter Oats have come on rather well of late, and are of a much better color than in middle April. The meadows are improving, and the demand for feedingstuffs is smaller than it was a fortnight ago."

The Winnipeg correspondent of the *Northwestern Miller*, writing under date of May 30, states that the weather has been favorable for the new Wheat crop and it is now well above the ground in all the favored localities, with every condition favorable for rapid growth. There is plenty of moisture to insure the rapid growth of the plant. Some who have been giving their attention to the subject estimate the increase in the Manitoba acreage at 10 per cent, while others think the increase in Assiniboia, and it seems likely that there will be an increase in that part of the country of considerably more than 10 per cent.

The monthly circulation statement issued by the Comptroller of the Currency shows that the total circulation of national bank notes at the close of business May 31, 1904, was $445,988,955, an increase during the month of $1,0 6,3 6, and an increase for the month of $8,9 7,9 9. The circulation issued on United States bonds was $107,379,031, an increase for the year of $3,592,017, and an increase for the month of $99,4 0. The circulation secured by lawful money amounted to $338,109,531, a decrease for the year of $4,146,687 and a decrease for the month of $698,260. The amount of bonds on deposit to secure circulation was $410,572,640 and to secure public deposits $124,177,880.

Officials of the Republic Iron and Steel Company say they did not take the initiative in the reduction in the bar iron rate. Other mill men are said to have been shading prices for a long time back, and since new business has slackened competition has been very keen. The officer says that reduced prices do not always help bar iron, but many other classes of product, and these will have to be met before many days if the practice continues. He declares that the United States Steel Corporation is not in the quiet way which is going on Everybody is bustling for business, and as the limited numbers of buyers at the present time are bargain hunters, prices are naturally being placed with those who offer the best terms.

In an opinion by Justice Homes, the United States Supreme Court, Tuesday, reversed the opinion of the Supreme Court of Indiana in the case of the Terre Haute and Indianapolis Railroad Company versus the State of Indiana. The case involved about $1,600,000 claimed by the State under the charter of the Terre Haute Railroad company, which provided that all the net proceeds of the road should be turned over to the State for the benefit of the common schools. The charter was passed by the Legislature of the railroad company, but notwithstanding this fact the State court upheld the claim. Tuesday's opinion takes the position that in the absence of legislation after the surrender of the charter the railroad company the State could not recover.

The *Agricultural Gazette* of May 16 says: "After many changes, some cold weather and a considerable rainfall, the prospects generally for Autumn on Friday settled down into a spell of warmth and abundant sun-shine, admirably suited to crops of all kinds Since then a wonderful change set in. growth has been much more rapid than it had been in any preceding portion of the season, and the farm outlook is now favorable for all crops but Wheat. Acreages of Spring Corn have been cleared up, and forcing weather would bring tardy growth up to date. The proverbial May Wheat year, we imagine, will be sought in vain this year, although a big supply may be grown eventually."

Walter H. Barnard, an English statistician, has compiled some very interesting figures on Gold production. They show that during the five years from 1851 to 1855, the forty years later, the average yearly production was $146,000,000. So, as is seen, it took forty-five years to show an increase of only $21,000,000. The tale told during the succeeding eight years—that is, from 1895 to 1903—is a very different one, although these eight years in the world's production increased $170,000,000, the production for the year 1903 being $337,584,000. In other words, it more than doubled itself during the past eight years.

The Iowa crop bulletin says: "The mean temperature of the past week was slightly below normal, except in portions of the eastern districts. There was a large percentage of cloudiness and the rainfall was above the normal in the larger part of the State, excess being greatest in portions of central and northern sections. The rains were timely and beneficial except in localities visited by heavy and destructive downpours. In sections where rainfall was moderate very good progress has been made in finishing planting and beginning cultivation of Corn crop. Reports are variable as to stand of Corn, but there is general agreement that acreage planted is increased. Reports from the southern counties planting operations are likely to be continued somewhat later.

For the corresponding week in 1903 the receipts were equal to 5,767,000 bu and the shipments to 3,761,000 bu. These figures are supposed to include the through shipments of Flour.

The weekly statement of the New York banks shows the following changes: Increases — Reserves on all deposits, $2,068,550; Reserves, less United States deposits, $1,694,225; Specie, $3,348,100. Circulation, $280,400. Decreases — Loans, $3,018,200. Legal Tenders, $1,318,100. Deposits, $151,600. Banks hold $31,760,875 in excess of legal requirements.

Export clearances for the past week from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans, and Galveston included 81,100 brls of Flour and 101,000 bu Wheat, against 91,000 brls of Flour and 207,000 bu of Wheat the preceding week, a decrease of 10,000 brls of Flour and a decrease of 106,000 bu of Wheat. For the corresponding week last year the exports were 2,8000 brls of Flour and 1,527,000 bu of Wheat.

The Interborough Company, controlling the New York subway and holding under lease the Manhattan Elevated Railroad system, has secured control of the New York and Putnam Railroad by purchase from the New York Central. This adds 58 miles of road to the lines of the Interborough system. The amount of money involved could not be learned, but it is understood to carry an absolute majority of the Putnam's $6,500,000 stock issue. There also is a funded debt of $5,225,000 which was guaranteed by the New York Central. This, too, is taken over. Work will begin at once to install the third-rail system, replacing the locomotives now in use and enabling the running of electric trains from the Battery to Yonkers, covering a large area of suburban residence property north of the Harlem River.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate, but market firm and prices were reported advanced 10c on Standard Patents, making the basis $5 60.

WINTER WHEAT—Was quiet and generally steady, although a few very choice cars of different grades sold at higher prices. Demand moderate, no round lots sold, but the fresh arrivals, especially of choice Wheat, were taken up readily. No. 2 Red in store nominally $1 04@1 06, fresh arrivals free on board quotably $1 03@1 08, with a sale of a fancy car at $1 10. No. 3 Red fresh receipts quotable at $1 03@1 06, with a sale at $1 06. No. 2 Hard fresh receipts free on board sold at 98c@$1 00½. No. 3 Hard quotable at 83@96c.

SPRING WHEAT—Was in only light demand and held very firmly. Stock of choice Wheat light and holders firm in their views, with sales of No. 1 Northern at 10c over new July price. Fresh arrivals were taken readily by the usual buyers. No. 1 Northern in store quotable at 98¾@99¾c and fresh arrivals free on board quotably 98c@$1 00. No. 2 Northern fresh receipts free on board quotable at 94@97c. No. 3 Spring sold at 90@92½c and ranged at 86@95c for ordinary to choice. No. 4 sold at 90c and ranged at 65@90c for poor to choice.

REGULAR WHEAT—A moderate trade, chiefly in way of realizing by local and outside "longs," there being more disposition on the part of "bear" interests to favor the selling side. Support was rather lacking and closing prices showed losses of from ⅝c to ⅞@1c. The market acted as though "shorts" were pretty well covered yesterday and there was a rush to sell by floor traders at the start. Part of the selling was credited to the Northwest. Cables made rather a poor response to the advance on this side yesterday and foreigners were reported as selling futures and reselling cash at New York. Liverpool quoted spot unchanged and futures ¼d higher. London was up ⅛@⅜d. Paris steady to ⅛c lower. Berlin was up ⅞c and Buda Pesth ⅛c higher. Map showed more and heavier rains in the Southwest, a veritable cloudburst at Oklahoma City with 3.90 inches of rain. Heavy rains all through Missouri and the West and Northwest. Showers and thunderstorms were generally predicted, but weather conditions received but little attention. *Broomhall* cabled Roumanian crop reports were worse, his Galatz correspondent claiming only one quarter of an average Wheat crop. Average ten years, 56,500,000 bu. World's shipments were estimated at 9,600,000 bu and arrivals in the United Kingdom this week were 4,600,000 bu, against 4,200,000 bu same week in 1903. English farmers' deliveries were 304,000 bu at 81¼c, against 336,000 bu last week at 81c and 360,000 bu last year at 83¼c. Primary receipts this week were 1,712,000 bu, against 1,416,000 bu last week and 1,919,000 bu one year ago. Receipts in the Northwest 1,239 cars; last week 719 cars and in 1903 were 1,379 cars. Australia shipped 618,000 bu and India (unofficial) 1,944,000 bu. Crop news from the Northwest was most favorable. Kansas City and St. Louis received 41,000 bu and shipped 82,000 bu. Of 136 answers to the question: "Has Wheat improved during May?" received by the DAILY TRADE BULLETIN yesterday from Ohio, Indiana and Michigan 113 answered "Yes" and 23 "No." Rail rates from Missouri River points to the Atlantic Northern seaboard were reported reduced 2½c per 100, making the rate on Wheat 90 to New York. The English visible decreased 139,000 bu, compared with 819,000 bu increase same week in 1903. Exports were again moderate. Receipts at Duluth 26 cars and at Minneapolis 111 cars, a total of 137 cars against 109 cars yesterday, 35 cars a week ago, and 217 cars last year. Local receipts included 7 cars Winter, 3 cars Spring, 2 cars mixed, a total of 12 cars, against 28 cars last year. Included in the above were no cars contract grade. There was also 7 cars and no bu from unlicensed elevators. The estimated receipts for Monday are 27 cars. Withdrawals to-day were 11,500 bu. Receipts at Western points were 202,918 bu, against 225,311 bu last year. At Eastern points 31,186 bu, against 125,155 bu last year. Shipments from Western points were 245,531 bu, against 174,095 bu last year, and from Eastern points 21,150 bu, against 71,312 bu last year. Shipments of Flour were 20,058 brls. Exports of Wheat in Flour were equal to 111,411 bu.

Future Deliveries of Regular Wheat—Fair trade.

JUNE—Entirely nominal.

JULY—Old Style—Sold at 89⅝@90⅞c. Opened at 90⅞c to 90⅝c; sold to 90¼c, to 90⅝c, to 90c, to 90⅛c, to 89⅝c, to 89⅞c, to 89½c, to 89¾c, to 89⅝c, to 89½c, to 89⅝@89½c, and closed at 89⅝@89½c bid.

JULY—New Style—Sold at 88⅛@89¾c. Opened with sales at 89¾c to 89¼c; sold to 89c, to 89⅛c, to 88⅞c, to 89c, to 88¾c, to 88⅞c, to 88½c, to 88⅝c, to 88⅛c, to 88⅜@88½c, to 88¼c, to 88½c, to 88⅛c, to 88¼c, to 88⅛c and closed at 88⅛c bid.

SEPTEMBER—Old Style—Sold at 83¾@84⅝c. Opened with sales at 84⅜c to 84⅝c; sold to 84¼c to 84⅜c, to 84⅛c, to 84¼c, to 83¾c, to 83⅞c, and closed at 83⅞c.

SEPTEMBER—New Style—Sold at 82⅛@83¼c. Opened with sales at 82⅞c to 83¼c; sold to 82⅝c, to 82¾c, to 82¼c, to 82⅜c, to 82⅛c, to 82⅜@82¼c, to 82¼c, to 82⅜c, to 82⅛c, to 82¼@82⅜c, and closed at 82¼@82⅜c sellers.

DECEMBER—Sold at 81⅝@81¾c and at 82⅛c. Opened with sales at 82⅛c to 82⅜c; sold to 82¼@82⅜c, to 81¾c, to 81⅞c, to 81⅝@81¾c, and closed at 81¾c bid.

CORN—There was a large trade, with profit-taking the feature, closing prices showing the July 1¼@1⅜c lower, while September lost ⅞c, and December 1c. Principal selling was by interests prominent on the buying side earlier in the week. Weather was looked upon as unfavorable, but received little consideration. Map showed heavy and general rains in the West and Southwest, and showers and thunderstorms were predicted. Local weekly receipts were 3,135,000 bu, and shipments 1,886,000 bu. Liverpool quoted no change spot, and futures but ¼d higher. Receipts 553 cars, with 56 cars contract, against 402 cars last year, when 95 cars graded, and 617 cars are estimated for Monday. Primary receipts were 4,941,000 bu, against 3,110,000 bu last week and 4,878,000 bu in 1903. Southwestern markets all weaker. Withdrawals from store were 60,670 bu, and 37 cars contract switched from private to public elevators. Exports were 4,000 bu, and no boat loads accepted at the seaboard. *Broomhall* cabled the Roumanian crop was badly in need of rain. All rail rates from Missouri River points to North Atlantic seaboard were reported reduced 2½c per 100. Cash sales here small. Car lots were in fair demand, with prices 1@4c lower. No. 2 closed about 49½c. No 2 Yellow sold at 51c and closed at 50¼c. No. 2 White sold at 49¾c. No. 3 at 49¼@49¾c and closed at 49¼c. No. 3 Yellow at 50¼@51c and closed at 50c. No. 3 White at 49¼@49½c. No. 4 at 46@45c.

Corn by sample—Offerings were quite liberal and demand a little slack. Feeling weaker and prices anywhere from ½c to 4c lower, the decline being mostly on the low grades. Sales on track and free on board: No Grade sold at 36@40c. No. 4 at 38@48c. No. 3 at 49¼@50c. No. 3 Yellow at 50@51½c. No. 2 at 49½@50c. No. 2 Yellow at 51@52c. No. 3 White at 49¼@49¾c. No. 2 White at 49¾c. Billed through: No. 4 at 42@48c. No. 3 at 48¼@48½c. No. 3 Yellow at 49@50c. No. 2 Yellow at 50@50½c. No. 3 White at 48¼@48½c. No. 2 White at 49c.

Future Deliveries of No. 2 Corn—Active and weaker, closing ¾c to 1¼@1⅜c lower.

JUNE—Inactive. Quotable about 1c under July, closing 48⅞c nominally.

JULY—Sold at 49⅝@51¼c. Opened at 51¼c to 50⅞c, and sold at 50½c, to 50⅝c, to 50⅜c, to 50⅛c, to 50¼c, to 49⅞c, to 50⅛c, to 49⅞c, to 49¾c, then closed at 49¾@49⅞c asked.

SEPTEMBER—Sold at 48⅝@49⅝c. Opened at 49⅝c to 49¼c, and sold at 49⅜c, to 49¼c, to 49c, to 49⅛c, to 48½, 48⅝c, to 48¾c, to 48⅜c, to 48⅜c, and closed at 48⅜c sellers.

DECEMBER—Sold at 43⅞@45c. Opened at 45c to 44⅞c and sold at 44⅛c, to 44⅜c, to 44⅜c, to 44⅛c, to 43⅞c, to 44c, and closed at 44c asked.

MAY—Sold at 43⅝@44⅛c. Opened at 44c to 44⅛c, and sold to 44c and closed at 43⅞c asked.

OATS—Were sold for profits by the largest holders and prices receded ⅜@⅝c and closed at the bottom. On the break some of the early sellers turned buyers. The decline was in sympathy with other Grains. Weather West and Southwest was wet and predictions are for unsettled conditions over Sunday. Cash business was low. Arrivals 137 cars, with 118 cars expected Monday. Withdrawals were 21,000 bu and seaboard clearances 13,780 bu. Car lots to go to store steady to ¼c lower. Standard in store closed at 42@42¼c.

Oats by sample were slow, weak, and closed steady for good to ½c lower for poor. A good many samples remained unsold at the close and had to be carried over. Sales on track and free on board: No. 4 White at 39@41c. No. 3 at 37@42½c. No. 3 White at 41@43½c. Standard at 43@44c. Billed through: No. 4 White at 42c. No. 3 White at 42@43¾c. Standard at 42@44c. No. 2 at 39@40½c. No. 2 White at 43½c. At the river: No. 4 at 37c. No. 4 White at 41@41½c. No. 3 White at 40½@42c.

Future Deliveries of Contract Oats—Were weak and lower.

JUNE—Inactive; closed at 42c.

JULY—Fairly traded in. Sold at 39¾@40½c. Opened unsettled at 40¼c to 40½c, sold to 39¾c; closed at 39¾@39⅞c.

SEPTEMBER—Sold at 31⅛@31¾c. Opened at 31¾c down to 31⅝@31¾c, sold to 31⅛c, closed at 31⅛c.

DECEMBER—Sold at 31⅜@31⅝. Closed at 31⅜c.

RYE—Was quiet and neglected. Nothing doing, and prices entirely nominal. There were no arrivals, no withdrawals and no export clearances, and the market was about as quiet as it could possibly be. No. 2 in store offered at 75c and no bid, fresh arrivals, free on board one car sold at 76½c. No. 3 fresh arrivals quotable 67@72c for poor to good. No. 4 sold at 54c to go to store and at 60c free on board.

Future Deliveries of No. 2 Rye—Quiet. For June 75c asked. July 67½c bid and September 63c asked. No trading.

BARLEY—Demand keeps up very well for mixing goods; market firm, with offerings light. Not much malting demand, still there was some. Since malting grades were sparingly offered they, too, were steady and salable, no change in prices to note. Nine cars inspected in. Market for Screenings quotable over a range of 34@42c for poor to choice, outside recleaned. Barley, low-grade feed or mixing, 38@42c, outside for good weight. Malting, low grade, 42@43c, fair to good sound, 45@48c; good color, 49@50c, and fancy, 51@59c.

SEEDS—Were quotably steady for all but Timothy which ruled easy. Market as a rule devoid of offerings.

Timothy—There was no trading. No cash Seed offered and the entire market was neglected. It was said that September delivery was obtainable at a shaded figure; not offered yet it was said it could be bought at $3 15. Other futures nominal. Contract spot or June delivery about $3 00. Country lots nominal at $2 00@3 10 for low-grade to fancy, choice about $2 80@2 90, fair to good Seed $2 60@2 75 and rough at $2 40@2 50.

Flax—All that could be said of the Flax market was that it was nominally unchanged. There were no offerings, hence no one showed any desire to purchase. Local sheet was blank on movement. Minneapolis got 9 cars and Duluth 13 cars. Cash Flax No. 1 Northwestern was again quoted at $1 06½, No. 1 at $1 00, and Rejected quotable at 97c@$1 00—outside for choice Northwestern. June delivery sold sparingly at $1 00. July quoted at $1 02½ and September at $1 06.

Clover—Nominally steady at former prices. No Clover coming on sale. It would bring prices which follow: Contract spot Seed was quotably $10 75. Country lots common to choice, $7 75@10 00; fancy above; mixed with Buckhorn or other weed Seeds, $6 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Such lots as usually come to market when ordinary to good quotable at $8 50@9 50.

Other Seeds—Were quotably firm. There were but meagre offerings. Orders reported as good, both for late sowing Seeds and for Buckwheat. Broom Corn Millet a shade higher. Hungarian, common and light color to choice, dark, at $1 50@1 80. Common Millet $1 20@1 60 for poor to fancy. German Millet, $1 20@1 70. Siberian, 85c@$1 10. Broom Corn Millet, $1 00@1 10. Early Fortune Millet 85c@$1 05. Mustard, 85c@$1 05. Buckwheat quotable at $1 65@1 75 for good.

HOG PRODUCTS—Trade was only moderate in the market for Hog Products, and the feeling was easier. Outside orders were smaller and local trading was only fair. Offerings were moderately free, and the demand was on a limited scale. Hogs were in fair supply, and prices ruled higher but this feature had little influence on the market for Products. Good receipts anticipated the coming week. Receipts of Hogs at the leading Western packing points were estimated at 42,600, compared with 36,600 one year ago. Foreign markets were firm, and Lard was quoted 3d higher. Domestic markets steady. Receipts of Products were fair—of Lard and Meats about 18 cars. Shipments were moderate—of Lard and Meats about 98 cars. Speculative market was slow, and prices declined moderately on all descriptions, and closed at nearly inside figures. Shipping demand was fair, and offerings were moderate. Sales fair, and prices well maintained.

Mess Pork—Only a moderate business was reported in Mess Pork, and the feeling was easier. Offerings were fair, and the demand was on a moderate scale. Prices declined 17½@20c on the whole range, and the market closed quiet around inside figures. Shipping demand was light, and offerings were moderate. Cash lots quotable at $11 45@11 60.

JULY—In moderate request, and offerings were fair. Sales were made at $11 47½@11 60. Opened at $11 55 to $11 60, sold to $11 50, to $11 52½, to $11 47½, to $11 52½, and closed steady.

SEPTEMBER—Offerings were moderate, and the demand was rather light. Sales were made at $11 70@11 85. Opened at $11 85, sold to $11 70, to $11 75, and closed steady.

Lard—Trade was only moderate in the Lard market, with September attracting a little more attention. Offerings were not very large, and the demand was moderate. Prices ruled 2½@5c lower, and the market closed steady around inside figures. Foreign markets were more favorable to holders. Inquiry on shipping account limited and offerings were only moderate. Cash lots were quotable at $6 35@6 37½. Loose lots in fair request, with moderate offerings. Prices steady at about 55c discount on July figures. Leaf Lard in moderate request and offerings were fair. Prices quotably steady at $5 81¼. Neutral in only limited demand with fair offerings. Prices quotably steady at $6 75@6 87½ for No. 1 and $6 50@6 62½ for No. 2.

JULY—Demand was limited and offerings were moderate. Sales were made at $6 40@6 47½. Opened at $6 47½, sold to $6 40, to $6 42½, to $6 40@6 42½, and closed steady.

SEPTEMBER—In fair request, and offerings were not very large. Sales were made at $6 57½@6 65. Opened at $6 62½ to $6 65, sold to $6 62½, to $6 65, to $6 57½, and closed steady.

JANUARY—Quiet with small sales at $6 55.

Short Rib Sides—Only a fair trade was reported in the market for Short Rib Sides and the feeling was not as strong. Offerings were not very large and the demand was fair. Prices were 2½@5c higher early, but settled back again 5@7½c, and the market closed rather steady. Shipping demand was light, and offerings were moderate. Cash lots were quotable at $6 50@6 75 according to weight.

JULY—In fair request and offerings were moderately free. Sales were made at $6 65@6 75. Opened at $6 70 to $6 75, sold to $6 65, to $6 67½, to $6 65, to $6 67½, and closed steady.

SEPTEMBER—Offerings were fair, and the demand was moderately active. Sales were made at $6 85@6 92½. Opened at $6 87½, to $6 92½, to $6 85, to $6 87½, to $6 95, to $6 85@6 87½ and closed steady.

Other Meats—Trade was only moderate, and feeling rather firm. Offerings were not very large and the inquiry was only moderate. Exporters bought sparingly and the home trade was fairly good. Green Meats in moderate supply, with rather good inquiry, and prices steady. Pickled Meats in active demand, and prices well maintained. Dry Salted Meats were in fairly good demand, with moderate offerings, and prices were unchanged. Smoked Meats called for in limited quantities, and prices ruled steady. Closing prices ranged as follows:

GREEN—Hams av 10@12 lbs 9⅞@10¼c; 12@14 lbs, 9⅞@10c, 14@16 lbs 9⅞@9c, 18@20 lbs 9¼@9⅜c; Skinned Hams, 10⅛@10½c; Shoulders, 6½@6¾c; Picnic Hams, 6½@6⅝c, Bellies 8¾@10c. WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, June 3, 1904.

The money market is easy, and there is little prospect of any material change in the near future. Many borrowers who usually take money at this season are not doing much business, and have recently liquidated their loans. Call loans were made for 4½ per cent with occasional 4 per cent, and time money ranged up to 5 per cent. There are a few bankers who are "bullish" on money who claimed they are having a good demand, but the large lenders tell a different story. In New York rates on the Stock Exchange were 1¼ to 1½ per cent. Time money was 2½ to 4 per cent, the former for sixty days and the latter for twelve months. Exports of Gold have fallen off and the big movement of the yellow metal to France has reached its maximum. Money in London is steady.

New York exchange was firm at 30c to 45c premium per $1,000, and closed at 20c.

Foreign exchange was strong, with rates on shippers' sixty day documentary sterling bills on London at 484½ to 484¾.

Cotton in New York averaged decidedly lower. Conditions were more favorable for the crop. Although they are not such as to make traders very "bearish," and were it not for the fact that prices were above the normal and offset the backward conditions the Government crop bulletin. The "long" interest were good sellers on all hard spots. Foreign markets weakened and there were plenty of incentives for selling, which assisted in making a lower range. Closing prices were at net losses of 51 to 119 points.

In Local Securities the feature was the advance in traction shares, due to the decision on the ninety-nine-year franchise in favor of the roads. The buying was not heavy, but the small lots that were picked up moved prices up sharply. Elevated roads during the month of May increased their traffic moderately, gains ranging from 1 to 4.52 per cent over last year. Industrials were traded in moderately and prices moved within narrow limits. The bond market showed fits of activity, but the buying did not continue large throughout the week.

The New York Stock market was a hard one to understand. Money was easy. There were reports of improved transportation conditions throughout the West. Crop reports were, on the whole, favorable, but the buying was not of a character to make a good market. Some of the larger operators have found that they did not have the line of stocks anticipated and worked for a decline in order to accumulate holdings so that on the break the offerings were absorbed. The report of the Erie system for April showed a decrease of $293,000 in earnings from last year and for the ten months a reduction of $3,018,000. This created talk of a cut in the dividend on first preferred. Foreigners were moderate sellers of stocks. The average on the majority of shares for the week was slightly lower and the close showed about as many gains as losses as compared with a year ago. Total sales on the New York Stock Exchange for the week were 582,000 shares, compared with 1,399,000 shares the previous week, and 4,112,000 shares last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

There has been a moderate improvement in the industrial situation, but no great change is expected for some time, the disposition being to go slow. Reports coming in from all sections note the reduction of wages or laying off of a large force of men by manufacturers and railroads. The mill hands in some instances either have to accept a reduction in wages and hours or no work at all. The worsted and yarn spinners in Philadelphia have been cut 15 per cent, which affects 20,000 workers. Business throughout the West is moving fairly. Good weather brought in liberal reordering from interior retailers, particularly in dry goods, clothing and shoes, and forward sales were of liberal volume. The heavy goods are being taken to a fair extent, as there is a possibility of a good crop in most sections. The presidential uncertainty possibly has something to do with moderate buying by a few, but this is expected to be out of the way before the fall, as the policy of the candidates will be well decided by that time.

Reports from the Iron and Steel trade are "bearish," new buying of finished products being confined to small lots. Sales of pig Iron were light and buyers have the advantage of naming prices. Production has been swelled of late and it has reached a point where the output must be curtailed or very much lower price accepted. Lumber and building material has moved to local and interior consumers more freely. A feature in the lumber trade is the increased consumption of low grade material by box-makers, which has taken up the surplus. Groceries were moved in good volume. Paints, drugs, oils and chemicals were all ordered moderately. Collections were fair.

COMMERCIAL.

Business in commercial circles on the Chicago Board of Trade is gradually enlarging, transactions the past week showing a material enlargement. Outside interest was more marked and local and professional traders operated on a more extensive scale. Investment buying was more in evidence in all the leading commodities. Weather and crop conditions were watched closely and the Government report, due the 10th, will no doubt exert considerable influence in the principal Grain markets. With spring work out of the way and a larger movement from first hands, business should show a further improvement. At the present time indications favor fair yields, and with larger stocks at receiving centers, speculative interest will undoubtedly be further revived. Business in Wall Street continues dull and dragging. The leading markets on 'change exhibited a somewhat stronger tone and the more forward deliveries are attracting more general attention.

Cable advices this week generally indicated continued favorable weather and crop conditions abroad outside Roumania and Hungary. In this section of Europe drouth has undoubtedly caused considerable damage, the extent of which is at the present time difficult to determine. In the United Kingdom and France the month of May is reported the most favorable that Western Europe has experienced in recent years. The same is true in Germany, and in Russia there has been improvement in crop prospects. In Bulgaria present indications are favorable.

In the United States and Canada weather conditions were fairly satisfactory, though temperatures were, perhaps, a little too low and rains excessive in sections of Kansas and Nebraska. There is some complaint of Corn germinating slowly and much replanting in important sections owing to the poor quality of the seed. Conditions, however, were favorable for Winter Wheat in the principal States, but through the Ohio Valley the outlook is still poor. Harvesting has commenced in Texas, and in ten days to two weeks will start in Southern Kansas. Early sown Spring Wheat is said to be growing rapidly and the general outlook is promising. In South Dakota there is some complaint of weeds and in North Dakota the late sown has not germinated well. Reports indicate that Oats are making favorable progress and the early sown heading as far north as the Central Mississippi Valley and Southern Middle Atlantic States, while harvesting continues through the South.

The movement of Grain from the farm and interior elevators is gradually showing some increase, that is to say, is larger than noted a few weeks ago. Offerings were somewhat freer all around, which would indicate that Spring work is well advanced and farmers in better shape to market their products. In the Northwest the movement of Wheat was better than a year ago, and through the West and Southwest coarse Grains were marketed with more freedom. The movement of Grain eastward, while limited for the season, is gradually increasing. Considerable Flour is now going forward all rail at the reduced rates. The vessel tie up still checks shipments by lake, though quite a few charters were made this week. Exports of Flour, Wheat and Corn show but little, if any, enlargement, and the new business booked at the seaboard was small. According to the official weekly visible supply of Grain there were decreases in the stocks of Wheat, Corn and Oats, and and increase in Rye. *Bradstreet's* reported a large decrease in the world's supply of Wheat, over double that reported one year ago, and the reductions in Corn and Oats were also liberal.

A good business was reported in the leading speculative market the past week, transactions in Provisions also being of larger volume. Outside orders were more numerous and local traders operated on a larger scale. May contracts were all closed without any unusual excitement. "Shorts" were more disposed to cover outstanding contracts in all the cereals, and investment buying was more in evidence, resulting in higher prices being established, and the extreme figures were well maintained. The decreasing supplies, better tone abroad, and adverse crop reports from important growing sections, were among the principal "bull" helps. Fluctuations were quite frequent and increased interest manifested in all the pits. Offerings of Hog Products were quite free most of the week, and the bulk of the same was credited to local "longs" and packers, while the demand was chiefly from interests willing to accept small profits. Hogs were in rather good supply, and prices lower. Trading still chiefly in contracts for July and September. Prices ruled easier for both these deliveries. The stocks of Provisions on hand at Chicago are 3,546,000 lbs more than on April 30, and 69,954,000 lbs more than one year ago. Compared with one year ago the present supply of "contract" Mess Pork is 33,605 brls more—equal to 6,401,290 lbs—and of Lard 72,341 tcs more, and of Meats 29,063,008 lbs more. Packing of the West for the week in 1903, exhibited an increase of 41,000 Hogs.

The trade in cash Grain was quite active and a good business was reported, more particularly in Corn and Oats. Sales were the largest in some weeks. Offerings were more liberal and the demand at the same time was more urgent. Current receipts met with more ready sale and prices averaged higher. Shipments by lake are gradually increasing, though the strike in marine circles is still far from being settled. Warehousemen were in the market for the better qualities of Grain and there was more doing by carriers. Wheat was scarce and firmly held. Rye was quiet and Barley inactive, with no important change in prices. Hay was in somewhat larger supply and fair demand with prices steady. Seeds were quiet with no essential change in prices. Hog Products were in moderate demand and offerings only fair. Prices were rather inclined to favor buyers. Hogs were in fair supply and prices lower. Cattle were in good demand and prices higher all around. Sheep met with fair inquiry and prices were comparatively steady.

FREIGHTS—Eastbound roads have put in the lake and rail tariff on Flour and Grain from the Northwest to the seaboard of 23c on domestic and 20½c on export for 30 days. Cars are plentiful and business fair.

Eastbound all-rail tariff is as follows:

To—	From Chicago. Domestic.	From Chicago. Export.	From Miss. River Domestic.	From Miss. River Export.
Boston..........	19½	13½	21½	16
New York........	17½	13½	19½	16
Philadelphia	15½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News...	14½	11	16½	14½

Flour rates are to be 17½c domestic and 15c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 4c per bu on Wheat, 3¾c on Corn, 3½c on Barley and 3c on Oats.

Ocean rates on Grain are slow and easy. Rates on Grain are ½@¾d per bu from New York and ½d from Boston. Through rate on Wheat from Chicago to Liverpool is 10.4c per bu and Corn 10¼c. Flour 10c per 100 lbs and Provisions 35⅝c per 100 lbs.

Lake rates on Corn to Buffalo are 2¼c. A number of the b ats that have been tied up by the strike have cleared by securing masters to resign from the union. More boats are moving at all ports and lake traffic is slowly being resumed.

FLOUR—While there has been some Flour sold from Chicago to go abroad the demand is small on foreign account and the bids generally 2s out of line. Locally the trade is fair and there is some Flour being taken to go to New England and points this side of Pittsburg. Very little Flour is being taken to go to the seaboard. Millers in the Northwest as well as those in the Southwest are complaining of a general lack of business, and there are many mills closed down owing to scarcity of wheat in some sections on poor Flour demand. The demand for Flour in all parts of the country is only for immediate wants. The decrease in the Flour output in Minneapolis for the week is 6,000 brls, and the output this week will be only 240,000 brls, as compared with 325,000 brls a year ago. The tendency of millers is to manufacture less Flour than they did a year ago. There is general complaint of a lack of shipping orders on Flour already sold. Local stocks June 1 were reported 36,800 brls, against 29,250 brls May 1 and 48,600 brls June 1, 1901. Liverpool stocks June 1 were 88,000 brls, against 97,000 brls May 1 and 59,000 brls June 1, 1903. Closing prices are as follows:

MILLSTUFFS—Offerings have been light all the week and trade supplied by home millers. Scarcely any coming from outside points. Demand good. Bran in 100-lb sacks preferred, and such sold at $20 50 per ton.

WINTER WHEAT—An easier feeling existed during the past week, especially noticeable after the close of May and prices declined 1@2c. There has been only a limited demand and trade has been very light. The demand has been limited from all sources. No shipping demand existed and millers bought only sparingly. Only a few cars of fresh arrivals were received, and these met with fair sale excepting poor Wheat, for which there has been no special inquiry. Only choice Wheat was wanted. No. 2 Red in supply light, the last statement showed a stock in store of only 194,000 bu, against 207,000 bu the previous week and 1,340,000 bu the corresponding date a year ago. The receipts for the week aggregated 35 cars, against 23 cars the previous week. There were withdrawn from public elevators 46,400 bu, and from private warehouses 77 cars. No. 2 Red in store was nominally $1 05@1 06 early in the week, down to $1 01@1 05 later; fresh arrivals were quoted $1 03@1 08. No. 3 Red fresh receipts sold at $1 02@1 05, and was quoted at $1 03@1 07 down to $1 02@1 08. No. 4 Red sold at 90c. No. 2 Hard sold at 96@98½c and ranged at 93c@$1 00. No. 3 Hard sold at 80@91c and ranged at 80@93c depending on quality. No. 4 Hard sold at 70@82c. No. 3 White sold at $1 01.

SPRING WHEAT—The market has been quiet all the week, and after the close of May an easy feeling developed and prices declined 1@2c. The demand has been of a limited character, there being no shipping business, and millers bought sparingly. The fresh arrivals were taken up quite readily, receivers having no difficulty in selling their choice Wheat when disposed to follow the market, but poor Wheat ruled dull. An occasional round lot of No 1 Northern Wheat in store was taken by millers besides the daily fresh arrivals. The receipts have been small, and scarcely enough Wheat arriving to make a market for fresh arrivals. The stock of No 1 Northern in store was increased to 588,000 bu, against 378,000 bu the previous week and 1,736 000 bu the corresponding time last year. The receipts for the week aggregated 85 cars, against 40 cars the previous week. There were withdrawn from public elevators 42,350 bu and 69 cars and 105 500 bu from private warehouses. No. 1 Northern in store ranged at 95½@97¼c, to 93½@98½c, down to 93⅝@96¼c. Fresh arrivals quotably 97c@$1 00, down to 96@98c. No. 2 Northern fresh receipts were nominally 92@97c. No. 3 ranged at 85@96c, with a sale at 93c. No. 4 ranged at 64@88c for poor to choice and sold at 80@88c for good to choice, and at 90c for very choice.

REGULAR WHEAT—A very good trade was witnessed under this head the past week and the feeling manifested, all things considered, was quite strong. The close shows July 2⅞@3c higher than last Friday, while September gained 1⅞c. May went out with very little excitement, in fact the close was tame. There was perhaps 500,000 bu traded in the closing day and all contracts were closed in the usual manner, there being no "squeeze." The interest prominent in that future is now supposed to control about all the No. 1 Northern and most of the No. 2 Hard Winter. There was at no time any evidence of a desire on the part of the pricipal "long" to squeeze the "shorts." It has been claimed he held the lines because he thought cash Wheat of the old crop was going to be desirable property, and he now has the Wheat. Some of the elevator interests which were "short," however, have been kept busy turning out enough contract Wheat to fill their sales, but they were able to do so, or to cover their "shorts" in the pit, without forcing any material advance in the price. With the May deal out of the way "bear" interests became more aggressive in their operations and "short" selling again became popular, the favorable weather being the chief "bear" incentive. July sold off to 88¼@86⅜c and September to 82⅛c before the decline was checked. Around these figures "shorts" covered freely and investment buying became more pronounced. A large size line was supposed to have been covered for Southwestern account and market acted oversold. The bulge in Corn proved a "bull" help, as also the adverse crop advices from Roumania and Hungary. The improved milling conditions in the Northwest and decrease in the world's supply of Breadstuffs as reported by *Bradstreet's* also imparted strength to the market. July rallied and touched 90½c, while September sold to 84⅝c. Routine statistics, too, were considered favorable to holders and likewise tended to harden values. World's shipments were less than expected at 9,400,000 bu, against 10,296,000 bu the previous week and 13,061,000 bu in 1903. The quantity on ocean passage decreased 1,032,000 bu, to 52,480,000 bu, compared with 37,112,000 bu the same date in 1903. The visible supply decreased 2,586,000 bu, against 2,674 000 bu decrease same week in 1903. The total is now 21,575,000 bu compared with 24,528,000 bu in 1903. Local public and afloat stocks increased 106,000 bu to 1,796,000 bu, against 4,379,000 bu same date last year. Stocks here in all positions were reported 3,658,000 bu, against 3,733,000 bu one week ago—a decrease of 85,000 bu, and one year ago were 6,125,007 bu. Contract stocks increased 196,394 bu last week and now include 782,106 bu, as against 3,076,157 bu for the same date one year ago. Stocks in interior elevators of the Northwest were reported at 1,330,000 bu, an increase during May of 45,000 bu. Stock a year ago 1,299,000 bu, and 1,462,000 bu in 1902. *Bradstreet's* world's available supply decreased 5,534,000 bu, while a year ago the reduction was but 1,990,000 bu. The weekly weather crop bulletin reported a general improvement in the condition of Winter Wheat in the principal States, but the condition of the crop continues very poor in the Ohio Valley. Harvest is in progress in the Southern States. Early sown Spring Wheat was said to be growing rapidly, and the general outlook in the Spring Wheat region is promising. Some fields in South Dakota, however, are weedy, and the late sown in North Dakota has not germinated well. The San Francisco *Commercial News* says: "The yield of Wheat in California will not come up to early expectations. The crop in the south will be light and in the north there are many reports showing late rains were far from beneficial. On the whole it is not expected the yield will amount to much over 500,000 tons." *Broomhall's* weekly foreign crop summary said: "United Kingdom, France—Conditions for Wheat crop been generally favorable past week. In fact, month just ended was most favorable May Western Europe has had in years. Supplies of Wheat in United Kingdom are fair; in France ample. Germany—Weather been very favorable; native Wheat very scarce. Spain—Drouth which we recently reported continues in many districts. Russia—Weather continues favorable and there has been a moderate improvement in crop prospects. Shipments likely to continue smaller than they were few weeks ago. Roumania—Fears continue to be expressed that rains were late to save crop. Bulgaria—Present prospects, as a whole, are favorable, but rains are needed in the south." The movement to primary markets was fair considering the season and the total from July 1 to May 30 foots up 212,630,000 bu, as against 240,944,000 bu in 1902-3, and 224,935,000 bu in 1901-2. Exports in the country continue small and meagre with a total for the week of 1,137,000 bu, making 127,136,000 bu since July 1, against 208,669,000 bu for the same period in 1902-3. Argentine shipments at the same time are fair, the total for the week aggregating 1,592,000 bu and so far this season 60,584,000 bu, as compared with 40,434,000 bu same time one year ago. The visible there is reported 4,344,000 bu, compared with 4,448,000 bu last week and 4,456,000 bu one year ago. Bookings on the Atlantic Coast were light and show but little, if any, increase. The Ohio report made condition 54 per cent, against 53 last month and 89 one year ago. The following table exhibits the exports of Breadstuffs from the following countries from July 1, 1903, to May 28, 1904, compared with the corresponding period in 1902-3:

Countries—	1903-4, bu.	1902-3, bu.

CORN—Was active and a substantial advance established the closing days, the close shows the July 3⅜c higher, while the September gained 2⅜c and the December 2⅝c. There was a good general demand the last of the week, "shorts" leading in the buying, several large lines being provided for under which July touched 51⅛c, September 49½c, and December 45c. Crop advices were not of the best, excessive rains occurring in Eastern Kansas and Nebraska, and reports from other sections of the Corn belt referred to the crop as germinating slowly, owing to the weather being too cool. Receipts did not come up to expectations and the fact also tended to impart strength to the situation. The routine statistics as presented on Tuesday and Wednesday were construed as favorable to holders, and this feature aided the upturn, which was quite rapid, owing to the fact that speculative offerings were very moderate at the time. The market acted greatly oversold, and the new crop futures shared in the advance, December selling to 45c, and May 44½c. Provision interests were quite conspicuous on the buying side of these deliveries. The visible decreased 1,424,000 bu, compared with 490,000 bu increase same week in 1903. Total is now reported at 3,740,000 bu, against 4,886,000 bu in 1903, and 4,227,000 bu in 1902. Local public and afloat stocks decreased 1,023,000 bu and are now 2,121,000 bu, against 1,285,000 bu same date last year. World's shipments were 2,681,000 bu, against 2,916,000 bu the previous week and 4,034,000 bu in 1903. The quantity on ocean passage increased 86,000 bu to 8,032,000 bu, compared with 10,813,000 bu same date last year. Stocks here in all positions were reported at 4,177,000 bu, against 5,203,000 bu one week ago—a decrease of 1,025,000 bu. One year ago at this time were 2,597,000 bu. Contract stocks decreased 756,200 bu last week and now include 1,806,034 bu, against 1,165,515 bu same date one year ago. *Bradstreet's* decreased 954,000 bu, while one year ago for the same week there was an increase of 555,000 bu, and this showing imparted a strength to the market as was considered "bullish" in view of the lake situation. Receipts this week were 2,995 cars, and for the month of May footed up 5,037 cars, as against 6,643 cars in 1903, 3,075 cars in 1902, and 12,616 cars in 1902. The movement through the West was fairly liberal, but Southewestern markets at the same time displayed a decidedly strong tone. The Government weekly crop bulletin stated that with the exception of the more northerly sections, where Corn planting is much delayed, this work has progressed under favorable conditions, but the reports indicate that a large amount of replanting will be necessary throughout the central valleys and lake region, due in part to poor seed. In Nebraska Corn is coming up unevenly and growing slowly, and a large amount of replanting being done; cultivation just beginning. In Kansas the crop has improved and cultivation more general. In the northern districts of Illinois the crop is promising and showing a good stand, but in the southern and central districts is not so even and planting not finished but well advanced. Considerable replanting was reported in Missouri and Ohio. Around 51⅛c for July and 49½c for September and 45c for the December considerable "long" property came out. Foreign markets, while firm, did not share fully with the advance on this side. Shipping operations, too, were curtailed owing to the continuance of the strike on the lakes, and exports at Atlantic and Gulf ports made rather a poor showing. The total clearances this week were 327,000 bu, making 50 [illegible] since July 1, as against 62,410,000 bu for the corresponding period in 1902-3. Bookings on the coast, too, for forward shipment were small and insignificant. Argentine shipments on the contrary were fair at 2,068,000 bu, making 16,379,000 bu since January 1 compared with 8,958,000 bu for the same period in 1903. The visible there is now reported at 3,111,000 bu, compared with 2,400,000 bu last week and 2,282,000 bu one year ago. Car lots were in more active and general demand all the week. Offerings were fair and prices much higher for all grades as will be noted in the table on the following page.

OATS—There was good activity and irregularity in the market for Oats the past week. The May went out with a break owing to liberal selling by leading holders and closed at 40½c, a loss of [illegible] from the close of Saturday. All trades were cleaned up by deliveries. The cash Oats went mainly to shipping houses who control the bulk of the supply there. The distant futures were stronger than the May and advanced in the later trading and at the close were ⅞@1⅝c higher than a week ago. July was traded in at a range of 38⅝@40½c, and closed at 40⅜@40½c, a gain of 1⅝c. September sold at 30⅝@31¾c, and closed at 31¾c. Part of the late strength due to unsettled weather west and in sympathy with other Grains. Corn in particular being strong and exerted an influence over Oats. There was more general buying and "shorts" came in freely. The leading interest that has been on the "long" side of May took a good part of the offerings of July, but is "bearish" on September. June was traded in to a moderate extent and sold at about the same premium over July that the May did. Crop and weather conditions were in the main favorable and the Government weekly crop report said: "Nearly all reports respecting Oats indicate that this crop has made very favorable progress. Early Oats are heading as far North as the Central Mississippi Valley and the southern portion of the Middle Atlantic States. Harvesting continues in the South." In the cash market there was fair activity and strength with an advance of 1@1½c. Offerings were fair and all found buyers. Arrivals for the week were 832 cars compared with 510 cars the previous week, and 1,022 cars for the same time last year. Export clearnces were 91,800 bu compared with 138,000 bu the prevoius week and [illegible] bu last year. Stocks in public houses decreased 44,583 bu, and were 847,176 bu, against 485,[illegible] bu last year. Of contract they are 758,823 bu, against 393,569 bu last year. Stocks in all positions decreased 176,000 bu, and were 2,142,000 bu. In the visible supply there was a decrease of 504,000 and the stock was 6,738,000 bu, against 4,802,000 bu last year.

RYE—The market ruled very quite all the week, but a firm feeling existed, and late prices were well maintained. Trading has been limited, both in cash and futures. The few cars of fresh receipts, especially of choice Rye were taken up readily, being wanted for local manufacturing purposes—vinegar, distilling etc, and the limited offerings enabled receivers to obtain satisfactory figures. Buyers were compelled to pay full prices. There has been but little disposition to trade in futures and really very little interest shown in the market. Only an occasinal trade was made. A few May contracts were unprovided for and the price was bid up 6c by "shorts". A little demand existed for July or new crop futures, but offerings light and there was scarcely any trading. The receipts for the week aggregated 1[illegible] cars, against 25 cars the previous week. There were 150 bu withdrawn from public elevators and 1 car load and 4,500 bu were taken from private warehouses. Export clearances from the seaboard none. Visible supply increased 30,000 bu and was reported at 956,000 bu, against 926,000 bu the previous week and 1,072,000 bu one year ago. The local stock in store was 451,000 bu and a year ago was 378,000 bu. No. 2 in store was nominal and just about impossible to give a quotation nominally about 72c; fresh arrivals free on board sold at 75c. No. 3 fresh receipts sold at 66½@74c for ordinary to choice. No. 4 sold at 51½c for poor. For future deliveries of No. 2 Rye the market was quiet. May sold at 72c and closing day was bid up and sold 78c. July sold at 66½c and later 67c was bid. September 63c asked.

BARLEY—There were small offerings during the week which ranged in quality from poor to fancy. On Tuesday the offerings were quite liberal, owing to the holiday on Monday. For Screenings and mixing Barley there was a very good demand and values ruled firm to 1c higher early in the week. Malting grades ruled rather slow, but values were steady. There were some to-arrive lots sold, but the volume of business done along this line was small. Receipts during the week were 78 cars, against 72 cars the previous week and 65 cars two weeks ago. There were withdrawals of 8,787 bu; the previous week 7,050 bu were taken out and two weeks ago 21,275 bu. There were no exports reported at New York the past week. The visible supply decreased 13[illegible] bu and was reported at 2,046,000 bu, against 930,0[illegible] bu a year ago. Local stocks decreased 8 199 bu, leaving 96,029 bu; last year at this time there was none in regular houses. Values during the week covered a range as follows: Screenings at 30@42c for poor to choice, outside recleaned. Barley—low grade feed or mixing nominally 39@42c, outside good weight. Malting, low grade, 42@43c; fair to good, sound, 45@48c; good color, 49@56c, and fancy 58@59c.

SEEDS—All lines were quiet and the changes in values were slight. Timothy was rather dull and inclined to rule easy. Both Clover and Flax Seed were inactive the greater part of the week. Millet was scarce and higher. Buckwheat quoted higher, but there were no offerings.

Timothy—There were no special featurs in the market and values ruled steady during the week. A small business was done in the cash market and there were limited transactions in futures. Offerings of cash Seed was small and the quality ranged from fair to choice. Values were quotable over a range as follows: Contract Seed, was usually quoted at $3 00@3 05. July was nominal at $3 05@3 10, and closed at $3 05. September sold early at $3 25, to be later offered at $3 20. Country lots quotable at $2 00@3 00 for low-grade to fancy, choice about $2 80@2 90, fair to good Seed $2 60@2 75 and rouffh at $ 2 40@2 50. Aggregate movement as indicated by the daily reports with comparisons, was as follows:

Receipts the past week, lbs.................	389 [illegible]
The previous week..........................	33[illegible]
Two weeks ago..............................	4[illegible]
Same time last year........................	16[illegible]
Shipments the past week, lbs...............	2[illegible]
The previous week..........................	13[illegible]
Two weeks ago..............................	4[illegible]
Same time last year........................	10[illegible]

Flax—There was no trading and values were entirely nominal for both cash and future deliveries during the entire week. There were no offerings of cash Seed and no bids or offers of futures. The movement was very small here as well as in the Northwest. Local receipts were 4 cars, compared with 22 cars the previous week and 42 cars two weeks ago. Withdrawals from regular houses were 4,060 bu, against none a week ago. Local stock did not change, remaining at 21 2[illegible] against 74,396 bu the same time last year. Duluth increased 119,000 bu, and 8,273,000 bu were reported

there. At Minneapolis 86,677 bu decrease appeared, leaving a stock of 397,145 bu. No. 1 cash was nominally $1 00 all the week. No. 1 Northwestern $1 05½, and for Rejected there was a nominal range of 97c@$1 00, outside for choice Northwestern. May delivery was nominally $1 02 and July quoted at $1 02, while September was quoted at $1 06, with nothing doing. Late in the week June sold at $1 00.

Comparative stocks the 1st of the month and a year ago were as follows:

	1904.	1903.
Chicago, bu	24,201	74,386
Duluth, bu	2,273,000	3,089,299
Minneapolis, bu	397,000	752,640
Total	2,694,346	3,916,305

Clover—During the past week there were some small lots on sale, which met a rather dull market. The season is practically over and there was but very little inquiry for cash Seed. Values were nominal and unchanged during the week. Stocks were small, yet they are equal to the demand, and some will be carried over for the early trade of next season. Values during the past week ranged as follows: Contract grade nominally $10 75. Country lots, common to choice, $7 50@10 00; fancy above: mixed with Buckhorn or other weed Seeds, $6 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Such lots as usually come to market when ordinary to good quotable at $8 50@9 50. The movement for the week, with comparisons, was as follows:

Receipts the past week, lbs.	95,840
The previous week	89,315
Two weeks ago	147,980
Same time last year	....
Shipments the past week, lbs	45,220
The previous week	129,940
Two weeks ago	155,300
Corresponding week last year	3,130

Other Seeds—Arrivals of all varieties were small, consequently only a very small volume of business was transacted. Demand was not at all urgent, yet all offerings were taken. The prices daily quoted during the week are in the table which appears elsewhere and exhibit some Millets as slightly improved. Receipts and shipments, with comparisons, were as follows:

Receipts—The past week, lbs	135,411
A week ago	118,000
Two weeks ago	534,570
Same time last year	85,920
Shipments—The past week, lbs.	231,520
A week ago	455,725
Two weeks ago	663,110
Same time last year	200,185

Buckwheat was scarce and advanced to $1 65@1 75 for good quality.

HAY—The receipts for the week were 5,110 tons, against 3,295 tons for the previous week. Shipments for the week were 227 tons, against 106 tons for the previous week. Only a moderate business was transacted in this market during the past week. A fair demand existed on local account, but the shipping inquiry was very light. The offerings were larger and an easier feeling prevailed. Prices declined 50c@$1 00 per ton, and the market closed quiet. The arrivals of Straw continue light, but the demand was not so urgent, and the market ruled quiet. Quotations at the close ranged as follows: Choice Timothy, $14 00@14 50; No. 1 Timothy, $12 50@13 50; No. 2 Timothy, $10 50@12 00; No. 3 Timothy, $8 50@10 50. Choice Prairie, $11 50@12 00; No. 1 Prairie, $9 50@10 50; No. 2 Prairie, $8 00@8 50; No. 3 Prairie, $7 00@7 50; No. 4 Prairie, $6 50@7 50. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $7 00@14 50 for poor to choice Timothy, $8 50 for State, and $9 00@11 75 for Kansas Prairie Hay. Rye Straw sold at $13 00@14 00, Wheat Straw at $8 00@9 00, and Oat Straw at $7 50@8 50.

COOPERAGE—The market for Cooperage attracted very little attention during the past week, and the feeling was comparatively steady. Offerings were not very large, and holders were rather firm in their views. Demand was on a moderate scale. Local packers accepted a few lots, and outside orders were somewhat limited. Ash Pork Barrels were in moderate request and steady at 92½@95c. Oak Pork Barrels were quiet and rather dull at $1 00@1 05. Lard Tierces were in moderate demand and prices were steady at $1 35@1 37½. Iron bound Lard Tierces were in better demand and prices ruled higher at $1 22½@1 25 for six-hoop, and $1 27½@1 30 for eight-hoop.

HOGS—A good supply of Hogs was marketed during the past week, and the quality was quite good. Farmers were inclined sell with considerable freedom at present prices. The market was quite active and the market in a general way exhibited considerable strength, though extreme figures were not fully supported to the close. Packers purchased quite actively, and shippers provided for moderate orders. Prices were advanced 5@10c on the whole range, but toward the close settled back again, and the market closed rather steady. Sales during the week were made at $4 35@4 75 for light, $4 35@4 60 for rough packing, $4 40@4 82½ for mixed, and $4 55@4 85 for heavy packing and shipping lots, with the bulk of the sales at $4 60@4 80 for fair to good averages. At the close about 2,000 Hogs remained in the pens unsold. Pigs were in fair supply and rather good demand and changed hands at $3 65@4 55, according to weight and condition. Receipts of Hogs at the other large Western packing points were quite free, and the quality was rather good.

PACKING—Rather more activity manifested in packing circles during the week just closed. The supply of Hogs was larger, and packers were inclined to purchase and manufacture Products quite liberally. Mess Pork was neglected. Other cuts of Pork made in moderate quantities. Lard produced quite freely, and the average yield was quite good. Very small proportion placed in tanks. Domestic cuts of Hams made quite freely, and the bulk cured by manufacturers. Skinned Hams cut rather liberally, and only a small proportion cut from the block. Foreign cuts of Hams made sparingly. Shoulders cut in limited quantities, and a fair proportion sold from the block to the retail trade. Picnic Hams made with considerable freedom, and the bulk packed by manufacturers. Long Clear Sides and Extra Long Clear Sides made in very small quantities. Short Clear Sides made sparingly, Extra Short Clear Sides cut in moderate quantities. Short Rib Sides met with a little more favor, and the production was slightly enlarged. Extra Short Rib Sides made in fair quantities. Rough Sides made with considerable freedom, and chiefly of medium averages. Backs and Bellies made in moderate quantities. Plates and Butts cut in limited quantities. Loins made quite freely to supply the wants of the fresh-meat trade. Foreign fancy and special cuts of Meats made in limited quantities.

PROVISIONS—There was a little more interest manifested in the market for Hog Products, and the volume of business was larger. Outside operators appear to be more interested in the market, and local trading was moderately free. An unsettled feeling prevailed during the greater portion of the time, and fluctuations in prices were frequent. Hogs were in good supply at all the leading Western packing points, and prices were fairly well supported. The usual "June run" has set in, and will probably continue during the next five or six weeks. The uncertainty regarding the Corn crop tends to check trading in the deliveries requiring new Products. The Grain markets as a rule exhibited considerable steadiness, and this factor tended in a measure to strengthen the market for Provisions. The report near the close of the week of the supplies on hand was somewhat of a surprise to the trade—rather larger in the aggregate than generally anticipated, and are 44 per cent larger than reported one year ago. Foreign markets as a rule were stronger, and prices ruled higher on all the leading articles. Domestic markets exhibited more life, and prices favored sellers. Returns of the packing of the West for the week, compared with the corresponding week in 1903, exhibited an increase of 40,000 Hogs. The receipts of Products from the interior were moderately free, and indicating that outside packers were rather inclined to sell at current prices. Shipments were rather liberal and widely distributed, with a good proportion destined for foreign markets. Supplies of the speculative articles are rather liberal for the season of the year, and considerably in excess of those on hand one year ago. Prices, however, are materially lower. The speculative market was rather easy at the opening, and prices were slightly lower on all the leading articles. At the decline, the demand improved, while the offerings were moderate. "Shorts" were rather anxious to provide for their outstanding contracts, and packers were credited with moderate purchases. The market developed considerable strength, and prices were advanced materially all around. Toward the close, there was inclination on the part of "longs" to realize, and parties who purchased early in the week were somewhat anxious to unload. Prices declined moderately on all the leading articles. Toward the close, the feeling was stronger, and prices rallied moderately on all descriptions, and the market closed rather steady. Considerable business in the way of transferring contracts ahead at the current differences. In the shipping branch of the trade there was quite an improvement. Exporters forwarded a few more orders, and accepted fair quantities. Stocks abroad are fair. Domestic demand was rather active, and sales were larger than for some time past. Offerings were moderately free, but holders were rather firm in their views. Values, however, were without material change, though occasionally a slight advance was gained.

Pork—Quite a good business was transacted in the market for Mess Pork, and the feeling was considerably unsettled. Offerings were moderately free at times, and the general demand was quite active. Fluctuations in prices were frequent, and within rather wide ranges. Stock on hand was reduced only 105 brls during May. Quite a good business was reported in transferring contracts at 20@22½c difference. Early in the week, the feeling was rather easy with a little pressure to sell, and prices ruled 5@7½c lower. At the decline the demand improved, but sellers held back, and the market developed considerable strength. "Shorts" bought rather freely, and there was a little investment inquiry. Prices advanced 47½@50c on the whole range. At the advance, the offerings were enlarged, while the demand was less urgent, and a weaker feeling was manifested. Prices gradually receded 42½@45c. Toward the close, a little more steadiness prevailed, and prices rallied 20@22½c, and the market closed comparatively steady. Demand on shipping account was moderate and offerings were not very large. Cash lots at the close were quotable at $11 65@11 70. Other cuts of Pork were in better request and offerings were only fair. Trading was moderate, and prices were unchanged.

Lard—Trade was fair in the Lard market during the week just closed, and the feeling was somewhat unsettled. Offerings were moderately free, and the demand was fairly active. Outside orders a trifle larger, and there was more trading on local account. Foreign advices were a little more favorable to holders. Stock on hand increased 18,700 tcs during May, and the world's visible supply was enlarged about 22,000 tcs. Production quite liberal. Early in the week, the feeling was rather easy, with a little pressure to sell, and prices ruled 2½@5c lower. At the decline, there was a good miscellaneous inquiry, while the offerings were moderate, and the market exhibited considerable strength. Prices were advanced 15@20c on the whole range. At the advance, there was a little pressure to sell, especially as the stocks reported were larger than expected. A weak feeling was developed, and prices settled back 10@12½c. Toward the close, rallied again 10@12½c, and the market closed comparatively steady. Transfers of contracts from July to September were made at 15@17½c difference. A few trades were made for December delivery at $6 55, and January at $6 50@6 52½. The inquiry on shipping account was limited, and the offerings were moderate. A few trades were made at about 5@7½c discount on July figures—closing at $6 40@6 42½. Refined Lard was in moderate demand, and a few sales were made at prices not made public. Loose lots were in only fair request, and the offerings were moderate. Quotable at 52½@55c discount on July figures. Leaf Lard was in rather good demand and a few trades were made at $5 75@5 87½, and closed steady at $5 75. Neutral was in only limited request, and offerings were fair. Market was rather quiet and prices quotably steady at $6 75@6 87½ for No. 1, and $6 50@6 52½ for No. 2.

Short Rib Sides—Considerable interest was manifested in the market for Short Rib Sides, and the volume of business was quite large. Outside orders were fair, and local trading was quite good. Local packers were credited with supporting the market early in the week, and selling moderate quantities toward the close. Supplies on hand were reduced about 3,300,000 lbs during May. Trading chiefly in July and September contracts, and transfers were made at 15@17½c difference. Early in the week, the feeling was not very strong, with a little pressure to sell, and prices ruled 2½@5c lower. At the decline, the demand improved, and offerings were only moderate. The market developed considerable strength, and prices were advanced 20@22½c, with a good business at the advancing scale. This improvement tended to enlarge the offerings, while the demand slackened. "Longs" were a little anxious to realize. Prices gradually settled back 12½@15c. Toward the close, the feeling was stronger, and prices rallied 10@12½c, and the market closed steady. Demand on shipping account was moderate, and offerings were fair. A few sales were made. At the close cash lots were quotable at $6 50@6 75 according to weight.

Green Meats—Trade was moderate in the market for Green Meats during the past week, and there were no material changes to note. Offerings were rather light, and the demand was only fair. Local curers bought sparingly and outside orders were moderate. Prices ruled rather steady. Hams were in moderate demand, and prices were comparatively steady. Skinned Hams were in small request, and prices were unchanged. Shoulders were in light demand, and prices favored buyers. Picnic Hams were in fair request and firmer, and prices were about ⅛@¼c higher. Bellies were called for sparingly, and prices ruled steady.

Pickled Meats—A little more business was transacted in Pickled Meats during the past week, and the feeling was steadier. Offerings were fair of most descriptions, and holders a little more independent in their views. Foreign advices were a little more favorable to holders, and orders from that quarter were slightly increased. Domestic demand was fair, but for only moderate quantities. Supplies of all kinds are fairly liberal excepting of Picnic Hams. Manufacture of all kinds was fair. Hams were in fair request and prices were maintained on desirable averages. Skinned Hams were in rather good demand and prices ruled steadier. Shoulders were quiet and slow sale at about former figures. Picnic Hams were in good demand, with moderate offerings, and prices were advanced ⅛@¼c and closed firm. Bellies were in light request and prices ruled steady.

Dry Salted Meats—A little more interest was manifested in the market for Dry Salted Meats during the past week, and the feeling was steadier. Offerings were fair by local and outside packers, and the demand was moderately active. Shippers of all kinds quite large. Foreign advices were a little favorable to sellers, and a few small orders were received. Domestic markets were steadier, with a moderate improvement in trade. Shipments abroad were quite large. Foreign cuts Hams were quiet and steady. Shoulders were in small request at about previous prices. Long Clear Sides quiet and prices favored sellers. Extra Long Clear Sides were inactive and prices entirely nominal. Short Clear Sides were quiet and prices quotably ⅛@¼c higher. Extra Clear Sides were in moderate request, with fair offerings, and prices were advanced ⅛@¼c—closing at 6⅜@6½c. Extra Short Rib Sides were in fair demand with not very large offerings, and prices were advanced ⅛@¼c—closing at 6⅜@6½c. Rough Sides were in fairly good demand and prices ruled ⅛@¼c higher—closing at 6⅜@6⅝c according to weight. Plates were in moderate request and prices favored sellers. Butts in rather light demand and prices were slightly higher. Backs met with a little more inquiry, and sales were slightly larger, with prices favoring sellers. Bellies were in fair demand and prices were slightly higher. Foreign fancy and special cuts of Meats were quiet but steadily held.

Smoked Meats—Only a moderate demand prevailed for car lots of Smoked Meats during the past week, but the jobbing trade was fairly active. Offerings were moderate and holders rather firm in their views, especially for desirable averages and descriptions. Stocks of all kinds are fair. Hams were in moderate request and prices comparatively steady. Skinned Hams called for in fair quantities and prices favored sellers. Shoulders were in small request and prices ruled steady. Picnic Hams in fairly good demand and prices ruled ⅛@¼c higher. Sides of all kinds were called for moderately and prices were well maintained. Breakfast Bacon in fair request in a jobbing way, and prices ruled steady.

Beef Products—Trade was moderate in the market for Beef Products and there were no particular changes to note. Offerings were not very large, and the demand was only fair. Cattle were in rather good supply and the better grades ruled higher. Manufacture of Products was moderate. Foreign markets were quiet and steady, and the general domestic trade was moderate. Shipments of Dressed Beef were quite liberal. Beef Hams were in moderate request and prices were steady. Extra Mess Beef was rather slow sale and prices ruled slightly lower. Plate Beef was called for moderately and prices declined about 25c. Extra Plate Beef was in fair demand and prices inclined in favor of buyers. Tallow was in moderate request, with no particular pressure to sell, and prices ruled about ⅛c higher. Oleo-Stearine in only fair demand and prices ruled steady, closing at 5⅞@6c.

Greases—Trade was rather light in Greases during the past week, and the feeling was rather firm. Holders were not offering to any extent, and generally asking higher prices. Buyers backward, and slow to meet the views of sellers. Prices ruled slightly higher on all grades.

The Colonial Sugar Company has declared a dividend of 2 per cent, payable July 1. Books are closed and reopen July 2.

The Kansas City correspondent of the *Northwestern Miller*, writing under date of May 30, says: "The condition of Wheat through all of Kansas continues to improve. Weather conditions are as favorable as possible. Frequent rains with mild temperature and plenty of sunshine combine in favoring the growing plant in every part of the State. In Southern Kansas Wheat is heading splendidly and the strength of the stalk and size of the formed heads indicate a splendid yield. Over the rest of the State the crop is making favorable progress and there is now but little discussion as to the Kansas crop closely approaching last year's total. Oklahoma conditions are satisfactory and promise the best and fullest development of the crop in the northern and eastern parts of the territory. Even in the western and southern part good weather has much improved the prospect, but in a good part of the district the Wheat was beyond help weeks ago."

SMALL WHEAT EXPORTS.

WASHINGTON, June 1—There has been an extraordinary decline in Wheat exports this spring, breaking the low-water mark for a quarter of a century. This year's exports will aggregate 130,000,000 bu, which is 75,000,000 bu less than last year and 100,000,000 bu under 1902, the record year. As explaining the decrease, it is said that other countries are steadily increasing their Wheat yield and that the high price here has stimulated farmers of Argentina, India and Australia, to which countries Europe is now turning. Argentina last year exported more than half its total yield, or half as much as the American exports, and only one-tenth her Wheat area is under cultivation. India has this year planted 3,000,000 more acres than before. Advices from consular agents abroad are to the effect that crop prospects in all the great world Wheat markets are good.

THE WEATHER CONDITIONS.

The weather map shows in the extreme Northwest, raining. Rains heavy and general Northwest—.48 inches at Rapid City, S. D., up to 1.12 at Williston, N. D., and 1.14 at Moorehead, and La Crosse 1.24. West, rains general and fairly heavy—trace at Des Moines to 1.34 at Keokuk. Southwest, rains heavy and general—cloudburst at Oklahoma City 3.90 inches, Springfield, Mo., 1.38; St. Louis, 1.54. Ohio Valley, cloudy; rains in Indiana, cloudy in Ohio.

ITEMS OF GENERAL INTEREST.

A traveling man reports from Dorchester, Neb.: "Corn is looking well; some fields are quite weedy, but with a week of fair weather farmers will get ahead of the weeds."

Redemptions of 5 per cent Government bonds of 1904 during the last week amounted to $19,450, making the total since Sept. 23 last $18,470,700 and leaving $914,350 of this issue still outstanding.

At a special meeting of the stockholders of the Consolidated Gas Company, held Thursday, the proposition of the directors to increase the capital stock of the company from $80,000,000 to $100,000,000 was ratified by a large majority vote.

A compilation of new incorporations in the Eastern States with a capital of $1,000,000 or more shows that in May they aggregated $132,000,000, which amount is largely below the totals of 1903, 1902 and 1901. However, the figures are $57,300,000 larger than those for the previous month. New Jersey leads with a total of $50,000,000.

It is said that the Detroit Southern affairs will soon be thoroughly investigated. Some of the bondholders, who have consented to a postponement of their interest rather than resort to a receivership, will, it is reported, demand a complete statement, to date, of the company's financial condition.

The Baltimore and Ohio Railroad has reduced the working time of the men employed in its locomotive car repair shops at Mount Clair one hour a day. The men in the locomotive department will work nine hours a day, instead of ten, and the men in the car repair shops will work eight hours a day, instead of nine.

The St. Louis correspondent of the *Northwestern Miller* under date of May 31, says: "The growing crop continues to make favorable progress and is now headed out. No unfavorable reports were received, and providing good weather prevails from now until harvest, there is no question that a very fair crop of Wheat will be harvested in this section."

A Boston dispatch says: "Orders were issued, Thursday, by several Cotton mill managers instructing agents to curtail production on account of the depression in the textile industry. Many mills in Southern and Central New England have been running on short time all the spring and at present about 50,000 operatives are affected. Nearly 10,000 operatives are affected by the new order."

In the face of weather reports showing 1.12 inches of rain at Des Moines Wednesday, a Grain man there said: "I know conditions are about perfect. All agricultural implement houses report crop conditions perfect. There is some planting over of Corn, but no more than is usual every spring. Oats are coming along nicely and promise a big yield up to date. Iowa is all right."

Judge F. E. Baker, of the United States Circuit Court at Indianapolis, Thursday decided that the property of the Consumers' Gas Trust Company belonged to the certificate holders, and the company had no right to manufacture artificial gas. The property will be sold. It is valued at $3,000,000 and was organized early in the natural gas period with money subscribed by citizens to pipe and sell gas at cost.

It is estimated that the net earnings of the Erie Railroad for the fiscal year will be $11,598,853. To this should be added "other income" and the net returns from the Coal companies owned by the Erie, which on last year's basis would be $2,985,285, making a total net income of $14,584,138. Fixed charges on last year's basis would amount to $10,456,673, leaving a surplus for the year of $4,127,465, which is equal to 8.62 per cent on the $47,892,400 of first preferred stock outstanding.

A Boston dispatch says: "It was expected by the organizers of the company that the stock of the National Broom Company would be listed in Boston and New York this month, but it has been decided at a meeting of the directors in Chicago to postpone such action until August, when the first dividend will be declared on the preferred stock of the company, and this newest industrial given a standing in the financial community."

A dispatch from Sydney, C. B., says: "About 2,000 men are idle here as a result of the strike which went into effect at the Dominion Iron and Steel Company's works, Wednesday. All the departments, except the Coke oven and electric power station, were shut to-day. The men demand the restoration of last year's wage scale. There is some fear that the strike may extend to the Dominion Coal Company, which supplies the Iron and Steel Company."

It is said the terms of the new St. Louis and San Francisco loan are such that it will cost the 'Frisco 7 per cent interest. This is an unusually high interest rate for a railroad to have to pay. It is understood that Blair & Co. have formed an underwriting syndicate to which the notes will be turned over on an interest basis of 6½ per cent. That is, the syndicate will purchase the notes for 97½. It is thought that the syndicate will have little difficulty in disposing of the notes at a good profit.

A new proposition has been made to members of the Wabash Pittsburg syndicate, and has been accepted by nearly all of these members. The proposition is intended to prevent any attempt to make a market immediately for the securities to be received by the syndicate members. The proposed plan contemplates the carrying of the $13,400,000 first mortgage bonds, $20,000,000 second mortgage incomes, and $10,000,000 Wabash common stock for an indefinite period. The terms of the syndicate are kept secret.

Suit for receivership was filed in Circuit Court, Thursday, against the Colonial Securities Company of St. Louis by three of the bondholders. In their petition they claim that the Colonial Securities Company is insolvent, with $1,500,000 of liabilities and $575,963 assets. The petition sets forth that the Colonial Securities Company was originally the Tontine Loan and Trust Company of Texas, organized there in 1892 and removed in 1897 to St. Louis, where, in 1903, it became the Colonial Securities Company.

Twenty five shares of Lake Shore stock were sold at auction in New York, Thursday, at $249.75 a share. This is $22 per share less than when the last odd lot was sold in February. In January, 1903, the stock was sold at 334½ in 100-share lots, and in December of the same year at 275. The floating supply is now said to be smaller than ever, as purchases of outstanding lots have been made by New York Central at various times during the past few years, mostly at private sale. As high as $300 a share is said to have been paid for some of this stock.

According to a statement made in Steel circles at New York, Thursday, the lake fleet of the United States Steel Corporation will be used in general carrying trade. While no formal announcement of this fact was made, a Steel trust director said that many of the vessels of the Pittsburg Steamship Company, which owns the lake fleet of the United States Steel Corporation, will this season be utilized to a greater extent than ever in transporting Coal from the lower to the upper lake ports in the Superior region. The corporation realizes that the fleet will fall this season much below its gross business of last year, and hopes through general lake traffic to make the gross decrease as small as possible.

Earnings of the People's Gas Company, Chicago, for four months ending with May, interests close to the company's affairs say, will show an increase of more than 10 per cent over the same period in 1903. The remarkable feature of the gain is said to lie in that the company has not been obliged to extend its territory or lay a single mile of new mains in accomplishing the showing. The growth is ascribed to density of the territory already served. New buildings are springing up everywhere and dwellings are being equipped with gas for illuminating and domestic purposes, which heretofore have clung to old methods. The arc light, the new feature which made such an admirable increase last year, is growing more popular than ever. It is estimated that the company will install in the neighborhood of 30,000 of these lights this year.

The final stage has been reached in the scheme for the amalgamation of the Edison and Thomson-Houston interests in Germany, as represented by the Berlin Allgemeine Electricity Company and the Berlin Union Electricity Company. It is only slightly over a year since a community of interests between the two companies was established for a period of thirty-five years, and at the same time it was reported that this might be followed by a complete amalgamation of the concerns. This report has proved correct, the Allgemeine company increasing its share of capital to $22,500,000 for the purpose, among others, of entirely absorbing the Union company. The former has already acquired 95 per cent of the latter's shares, and an exchange of the balance for new shares in the Allgemeine company is now on the point of being effected, when the undertaking of the Union company will pass into the possession of the other company.

According to a prominent official of the Federal Mining and Smelting Company the earnings of the company average about $125,000 net per month. In connection with the initial dividend declared last week on the common stock, it is stated that this issue has been placed on a 6 per cent annual basis. It is pointed out that it takes $87,500 per month to pay both the common and preferred dividends. The company, it is stated, has $1,500,000 cash reserve in the treasury. The management proposes to have the shares listed on the New York Stock Exchange, but probably nothing will be done in this direction until October. This $30,000,000 corporation is closely allied with the American Smelting and Refining Company, which smelts the Federal company's ore. The combined output of the Federal Mining and Smelting Company is 100,000 tons concentrates and 3,000,000 ounces of Silver annually. The company operates the Empire State Mining and Development Company's concentrating plants at Sweeny, Idaho, the Mammoth and Standard mines, Mace, Idaho, and the Poorman and Tiger mines, Burke, Idaho.

WEATHER BUREAU REPORT.

WASHINGTON, June 7.—Weather Bureau weekly summary, issued at noon says.

Winter Wheat—Has suffered from heavy rains in portions of Oklahoma and Missouri, elsewhere this crop has advanced favorably, but the outlook over the eastern part of Winter Wheat belt continues unpromising, although more or less improved in the Ohio Valley and the Middle Atlantic States. Wheat heading as far North as the Central Mississippi Valley, harvesting being general in Southern States. On the North Pacific coast, the crop has advanced favorably and is spreading. In California it is maturing rapidly, but the late sown has been severely damaged by hot winds.

Spring Wheat—With the exception of some weedy fields in South Dakota, Spring Wheat is in very promising condition in all districts.

Corn—Over the Western portion of Corn belt, the growth of Corn has been checked by lack of warmth and sunshine, and is in need of cultivation, while in the central and eastern districts planting and replanting has been delayed by rains.

Oats—Have made vigorous growth throughout the Central Valleys and Middle Atlantic States A general improvement in the condition of the crop is indicated in nearly all districts Seeding is now practically finished in the extreme northern sections Harvesting continues in the Southern States.

WORLD'S SUPPLY OF BREADSTUFFS.

The following table shows the supplies of Breadstuffs afloat for Europe and in store in Europe and Argentina on the dates named:

	June 1, '04. Bu.	May 1, '04. Bu.	June 1, '03. Bu.
Afloat for Europe	52,480,000	50,890,000	37,110,000
In store in Europe	36,020,000	34,470,000	25,050,000
In store—Argentina	4,448,000	4,448,000	4,008,000
In store—America	49,758,000	64,729,000	54,205,000
Total	142,706,000	154,537,000	120,373,000

The decrease during May equalled 11 831,000 bu, compared with a decrease of 2,916,000 bu during April, and a decrease of 11,753,000 bu during May, 1903.

Oats	Dec 360,000	Dec. 121,000

Broomhall's weekly foreign crop summary says "United Kingdom Weather conditions most favorable France, Germany—Occasional complaints being received and prospects rather less brilliant. A French authority estimates that 15 per cent of the old crop of that country will be carried over. Italy—On the whole the crop is progressing favorably. Roumania—Weather continues unfavorable and Wheat crop will be short Corn also wants rain Bulgaria, Turkey—Owing to the continued drouth, crops reported lost in some districts Last year Bulgaria raised 56 000,000 bu, this being the largest crop on record Turkey's crop is small Russia—Recent rains have been of great benefit, although complainst are still heard of insufficient moisture in some localities. Interior reserves said to be good, but holders reported as being rather firm in their views North Africa—Wheat harvest progressing favorably, with prospects excellent."

REVIEW OF TO-DAY'S MARKETS

FLOUR—The market is holding steady with the demand moderate.

WINTER WHEAT—Was in fair demand by shippers and millers, and the medium Hard Winter was especially better sale than yesterday Market steady to firm, with some sales showing slight improvement in prices No 2 Red in store quotable at $1 05@1 06 and fresh arrivals free on board quotable at $1 05@1 10. No. 3 Red, a very choice car sold at $1 09, and ranged down to $1 03 for good No. 2 Hard in good demand and fresh receipts free on board sold at 95@99c and ranged at 92c@$1 00 No 3 Hard in good demand and sold at 80c for poor, at 85@91c for fair to good and at 94@98c for choice No 4 Hard sold at 80@88c No. 2 White sold at $1 03.

SPRING WHEAT—Was in good milling demand and held firmly Stock of choice Wheat light and holders firm in their views No. 1 Northern in store quotably 96¼c@$1 00 Fresh arrivals would sell readily to the usual buyers—quotably 99c@$1 01. No. 2 Northern fresh receipts free on board quotable at 95@98c No 3 Spring fresh arrivals quotable at 85@96c. No. 4 quotably 68@90c for poor to choice.

REGULAR WHEAT—Just a moderate speculative trade, with tone somewhat unsettled. Final figures showed July ⅝@¾c better, and September ¼@⅜c higher. Better weather present and prospective caused rather an easier tone at the start, but market later developed more strength on commission house buying, the selling being largely local. The growing belief that the Winter Wheat harvest will be late, was partially responsible for the better tone Crop reports from the Southwest were construed as 'bullish.' The *Bradstreet's* showing was also a "bull" help, but market sagged again later on the Illinois crop bulletin, and Government weekly crop report, the later claiming the outlook was favorable, outside Oklahoma and Missouri. Map showed clear weather, with slowly rising temperatures West, Southwest and Northwest. Showers predicted for Dakotas, Kansas and Nebraska. Liverpool quoted spot generally ⅛d lower, and futures off ⅛d. London was unchanged to ⅛d lower. Paris declined ⅛@¼c, Berlin ⅛c, and Buda Pesth lost ⅝c Antwerp unchanged. Stocks here in all positions were reported at 3,103,-600 bu, a decrease of 535,000 bu last week. Stock a year ago, 5 716 000 bu Contract stocks increased 8,655 bu and now includes 790 761 bu, against 2,867,-732 bu same date in 1903 *Bradstreet's* decreased 4,076,000 bu, against 107,000 bu increase same week in 1903 Northwest cars 49 under last year, while primary receipts were 91,000 bu larger Kansas City and St Louis received 119 000 bu and shipped 111,010 bu. Minneapolis stocks decreased 300,000 bu so far this week According to the monthly report of the DAILY TRADE BULLETIN the world's supply of Breadstuffs decreased last month 11,831,-000 bu and are now 142,706 000 bu, against 120,373,000 bu June 1, 1903 Reports from Manitoba were "bearish," stating the outlook was favorable and prospects were for 80,000,000 bu north of the line Clearings were meagre and only 12 boat loads accepted at the seaboard Weather in Argentina cabled as fine Duluth reported the sale yesterday of 50,000 bu No 1 Northern to go to Eastern mills The strength in Corn was one of the late supporting influences, "shorts" covering at close. Receipts at Duluth 49 cars and at Minneapolis 162 cars, a total of 211 cars, against 384 cars yesterday, 640 cars a week ago, and 258 cars last year Local receipts included 24 cars Winter, 4 cars Spring, 7 cars mixed, a total of 35 cars, against 16 cars last year Included in the above were no car contract grade. There was also 6 cars and no bu from unlicensed elevators The estimated receipts for to-morrow are 36 cars Withdrawals to-day were 10,000 bu. Receipts at Western points were 352 140 bu, against 261,574 bu last year At Eastern points 130,067 bu, against 167,036 bu last year Shipments from Western points were 253,139 bu, against 171,-924 bu last year, and from Eastern points none, against 89,872 bu last year. Shipments of Flour were 11,725 brls. Exports of Wheat in Flour were equal to 66 262 bu

Future Deliveries of Regular Wheat—Fair trade and closing higher.

JUNE—Sold at 96¼c and that about the closing

JULY—Old Style—Sold at 88¼@89⅝c Opened with sales at 88½c to 88¼c sold to 88½@88⅝c to 88⅝@88½c, to 88⅞c, to 88⅝c, to 89¼c, to 89c, to 89⅜c, to 89⅛c, to 89⅝c, to 89¼c, to 89½c, to 89¼c and closed at 89¼c sellers.

JULY—New Style—Sold at 87⅛c and at 88⅜@88½c. Opened with sales at 87¼c to 87⅛c; sold to 87⅜c, to 87¼c, to 87⅝@87¾c to 87½c, to 88c, to 87⅞c, to 88⅛c, to 87¾c, to 88⅜@88⅛c, to 88¼c, to 88⅜c, to 88c, to 88@88⅛c, and closed at 88@88⅛c

SEPTEMBER—New Style—Sold at 81⅜@81⅝c and at 82⅛c. Opened with sales at 81½c to 81⅝@81⅛c; sold to 81⅝c, to 81½c, to 82⅛c, to 81¾c, to 82⅛c, to 81⅞c, and closed at 81⅞c bid

DECEMBER—Sold at 80⅞@81c and at 81½c Opened at 81c and closed at 81¼c.

CORN—A fair trade, with the feeling more "bullish," the close showing July ¾@⅞c higher, the September gaining ½@⅝c and December ⅜c Market acted a little as though yesterday's selling was overdone and responded readily to the covering by "shorts" There was quite a marked falling off in the speculative offerings at the opening. Receipts were considerably under expectations and country acceptances much smaller. Prospects of a smaller movement and better cash demand, due to lake situation were among the 'bull' helps. On the other hand the weather was more favorable and fair weather was predicted for Illinois, Indiana, Missouri, Iowa and showers for Kansas and Nebraska Receipts 667 cars and 326 cars estimated tomorrow London quoted cargoes on passage weak under heavy Argentine offerings. Liverpool quoted spot steady and futures ⅛d lower. Receipts there the past three days only 48 000 bu and none from America. Stocks here in all positions reported at 4,675,000 bu an increase of 98,000 bu last week. Stocks a year ago 3 651,000 bu Contract stocks decreased 241 125 bu, and now include 1 564 909 bu, against 968,248 bu one year ago *Bradstreet's* increased 665 000 bu; last year increased 1,488 000 bu. Southwestern markets were higher. Western receipts 1,063 000 bu: last year 649,000 bu. Shipments 650 000 bu and 372 000 bu respectively Local arrivals 755,000 bu, shipments 453,000 bu Withdrawals from store 10 300 bu About 50,500 bu and 38 cars contract switched from private to public elevators The strength of cash Corn was quite a help to futures Illinois crop bulletin was moderately 'bearish.' Government weekly crop bulletin rather favorable. Exports 7,600 bu, and 6 boat loads accepted at the seaboard. Cash sales here 150,000 bu Charters 180,000 bu at 1¾c to Buffalo Car lots were about ¼@½c higher No 2 sold at 49½@50,. and closed at 49¾c No 2 Yellow sold at 50½c, and closed at 50½c No. 3 sold at 49¼@49½c, and closed at 49¾c. No 3 Yellow at 50@50¼c, and closed at 50¼c. No. 3 White at 49@49½c No. 4 at 39@47c

Corn by sample—Was in much better demand, while the offerings were smaller. Feeling strong and prices anywhere from ¼@½c higher Sales on track and free on board No Grade sold at 35@40c. No 4 at 39@48c No 3 at 49@50c. No. 3 Yellow at 49¾@50½c No 2 at 49½@50c No. 2 Yellow at 50½@50¾c No 3 White at 48¾@49¾c No 2 White at 49½@50c. Billed through No Grade at 38@42c No 4 at 40@47c No 3 at 48@49c No 3 Yellow at 48¾@49½c No 2 at 48½c No 2 Yellow at 49@49½c No 3 White at 48@48½c.

Future Deliveries of No. 2 Corn—Fairly active and stronger and closed ½c to ¾@⅞c higher.

JUNE—Sold at 48⅞@48½c. and closed 48½c

JULY—Sold at 48⅝c and 49⅝@49¾c. Opened at 48⅝c to 48⅞c and sold at 48¾@48⅞c, to 48⅞c, to 49⅛@49¼c, to 49½c, to 49⅛@49¼c, to 49¼@49⅜c. to 49⅜c to 49½c, and closed at 49½c asked

SEPTEMBER—Sold at 47⅝@48⅜c Opened at 47⅝c to 47¾c, and sold at 47⅞c, to 47⅝@47¾c to 47⅞c to 47⅝c, to 48⅛c to 48c to 48⅜c, to 48⅛@48⅜c, to 48¼c to 48⅛@48⅜c and closed at 48¼@48⅜c bid

DECEMBER—Sold at 43⅛@43⅞c Opened at 43⅛c and sold at 43⅜c, to 43⅝c to 43⅞c, and closed at 43⅞c sellers.

MAY—Sold at 42⅝@43⅜c. Opened at 42¾c to 42⅞c, and sold at 43⅜c, to 43c, to 43¼c, and closed at 43¼c bid

OATS—Were moderately traded in and showed weakness at the start, but advanced ⅜@⅝c and closed at a gain of ¼c on July and ⅛c on September. There was good selling of July early by the leading "longs" and liberal buying later by "shorts" and speculative interests Smaller arrivals for to-morrow 91 cars, against 208 cars today, and a stronger sample market, were factors in assisting the advante. Contract stocks decreased 97,500 bu last week and are 661,000 bu Stocks in all positions are 1,843,000 bu, a decrease of 299,000 bu last week Withdrawals were 14,100 bu and seaboard clearances 23 000 bu. Cash sales here were 70,000 bu and at New York 50,000 bu Car lots to go to store were steady to ½c higher. No. 3 White sold at 40c Standard in store closed at 41⅞@42¼c

Oats by sample were in better request, with supply smaller and prices steady to ½c higher. Sales on track and free on board: No. 4 at 39½c. No. 4 White at 37@42¼c No 3 White at 42@43½c. No. 2 at 40c. Billed through. No. 4 White at 41c. No. 3 White at 42@42¼c. Standard at 43c. At the river No Grade at 38c No. 4 White at 36@39¼c. No. 3 White at 40½@41¼c.

Future Deliveries of Contract Oats—Were stronger and closed higher. despite the favorable weather crop bulletin

JUNE—Slow closed at 41⅞c bid

JULY Good trading Sold at 39⅜@39½c and at 40c. Opened at 39⅝c, sold to 39¾@39½c, to 40c; closed at 39¾@39⅞c

SEPTEMBER—Fairly active. Sold at 30⅞@31¼c, Opened at 31⅛c, sold to 30⅞c, to 31¼c, to 31⅛c at close.

DECEMBER Slow. Sold at 31⅜c and at 31½@31⅝c, closed at 31½@31⅝c.

RYE Very quiet and steady Prices nominally about the same as quoted yesterday Offerings light, demand light—next to nothing doing. There were five cars received and two cars withdrawn from private elevators. There were no export clearances from the seaboard. No. 2 in in store entirely nominal and fresh arrivals about 75c. No. 3 fresh receipts sold at 70c. No. 4—A choice car sold free on board at 67c.

Future Deliveries of No. 2 Rye—Quiet. July 67½c old and September 62c asked No trading.

BARLEY—There was some increase in the number of cars of malting Barley offered. Several buyers were present and sufficient demand existed so that Barley on sale was taken The meagre developments pointed to steadiness of prices. There was no essential change to note. Of feed, mixing Barley and Screenings the supply was light. These grades met with rather an indifferent demand Only the better qualities were cared for; common lots slow and easy the better cars salable and steady Posted to day 23 cars inspected in and 8,850 bu out. Screenings scarce, quiet and quotable at 31@43c for poor to choice. outside recleaned Barley, low grade feed or mixing, 40@43c outside for good weight Malting, low grade, 43@44c, fair to good sound, 45@48c; good color, 50@56c, and fancy, 58@59c

SEEDS—Prices for Timothy were slightly lower, and September delivery Flax was offered at a small decline These were the only changes. The entire market was in an exceedingly quiet state

Timothy—An easy feeling continues. September delivery selling at $3 10 indicated 5c decline After a sale it was offered at that figure. Very little disposition to purchase was present Futures this side were quoted as nominally easier, July at $3 00, and June or contract spot at $2 95 Market bare of offerings of cash Seed Market inactive and nominally easy, with country lots quotable at $2 00@2 65 for low grade to fancy choice about $2 75@2 85, fair to good Seed $2 60@2 70 and rough at $2 40@2 5

Flax—Nothing whatever was done The market was without regular offerings, it also was just as devoid of demand. All that could be learned about prices was that they were entirely nominal and unchanged Neither receipts or output reported. Minneapolis receipts 7 cars and Duluth 16 cars Values nominal as follows Cash Flax No. 1 Northwestern at $1 06½. No 1 at $1 00. and Rejected quotable at 97c@$1 00—outside for choice Northwestern. June and July deliveries both were nominal at $1 00 September offered at $1 05

Clover—Was nominally steady for good Seed Some small lots of low grade were offered and they sold at $6 50@7 00 Season for cash Seed is about closed No speculative interest in new crop has as yet appeared. Contract spot Seed remains nominally $10 75 Country lots common to choice, $7 00@10 00, fancy above, mixed with Buckhorn or other weed Seeds, $6 00@8 00, poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Such lots as usually come to market when ordinary to good quotable at $8 50@9 50.

HOG PRODUCTS—Considerable interest was manifested in the market for Hog Products, and quite a good speculative business was transacted. Outside orders were larger, and local trading was rather active Local speculators were credited with fair purchases, and "shorts" were a little anxious about their outstanding contracts Offerings were not very free, though there was a little realizing at times by parties who purchased early, and were willing to accept small profits Hogs were in fair supply and higher, and the Grain markets were stronger in a general way, and these features had a little influence on the market for Products in a general way. Prices ruled higher on all the leading articles and were well maintained to the close Quite a good business in transferring contracts from July to September at the current differences Receipts of Hogs at the leading Western packing points were estimated at 62,700 compared with 43,000 last year Foreign markets were quiet and prices unchanged Domestic markets steadier Receipts of Products were good—of Lard and Meats about 22 cars Shipments were moderate—of Lard and Meats about 107 cars Demand on shipping account was moderately active, and offerings were fair Sales were not very large Holders were firm in their views, and prices generally ruled higher

Mess Pork—Quite a good business was transacted in the market for Mess Pork and the feeling was stronger Offerings were not very free and the demand was fairly active Market opened rather firm at 5@7½c advance, and prices further improved 17½@20c Toward the close, the feeling was not quite so strong and prices receded 5@7½c but rallied sharply toward the close 17½@20c, and the market closed comparatively steady Shipping demand was light and offerings were moderate. Cash lots quotableat $12 05@12 10.

JULY—In rather good request and offerings were only moderate. Sales were made at $11 80@12 15 Opened at $11 80 to $11 85, sold to $11 82½ to $11 95, to $11 87½, to $12 00, to $11 92½, to $11 95, to $11 92½, to $12 02½, to $12 00 to $12 15 and closed steady

SEPTEMBER—Offerings were fair and the demand was quite active Sales were made at $12 00@12 32½. Opened at $12 00, sold to $12 05, to $12 02½, to $12 15, to $12 12½, to $12 17½, to $12 07½, to $12 20, to $12 17½, to $12 25, to $12 20 to $12 32½ and closed steady

Lard—A fairly good business was reported in the Lard market, and the feeling was stronger Offerings were moderate and the demand was fairly active Foreign advices were unchanged Opening trades were made at 2½@5c advance and a further improvement of 2½@5c was gained Later there was a little pressure to sell and prices settled back 2½@5c, but fair miscellaneous buying caused a rally of 5@7½c Toward the close, the feeling was not so strong, and prices receded 2½c, but rallied again 5@7½c and the market closed steady Inquiry on shipping account limited and offerings were only moderate. Cash lots were quotably $6 55@6 57½ Loose lots in small request with moderate offerings Prices steady at about 55c discount on July figures Leaf Lard in moderate request and offerings were fair Prices quotably steady at $5 87½ Neutral in only limited demand with fair offerings Prices quotably steady at $6 87½@7 10 for No. 1 and $6 62½@6 75 for No. 2.

JULY—In fair request and offerings were moderate Sales were made at $6 50@6 62½ Opened at $6 50 to $6 55 sold to $6 52½, to $6 57½, to $6 55 to $6 62½, and closed steady

SEPTEMBER—Offerings were moderately free, and the demand was fairly active Sales were made at $6 67½@6 80 Opened at $6 70, sold to $6 70@6 72½, to $6 70, to $6 72½, to $6 67½, to $6 75 to $6 72½, to $6 77½, to $6 75 to $6 80, and closed steady

JANUARY—Quiet, with small sales early at $6 70

Short Rib Sides—Quite an active business was transacted in Short Rib Sides, and the feeling was stronger in a general way Offerings were fair and the demand was quite active. Market opened rather strong at 5@7½c advance, and a further improvement of 2½@5c was gained Later, the feeling was not quite so strong, and prices receded 5@7½c, but rallied again 7½@10c Toward the close the market was rather easy, and prices receded 2½@5c, but rallied quickly 7½@10c, and closed rather strong Shipping demand was light and offerings were moderate. Cash lots were quotable at $6 62½@6 87½ according to weight.

JULY—Offerings were moderately free, and the demand was rather active Sales were made at $6 80@6 95 Opened at $6 82½@6 85, sold to $6 87½, to $6 80@6 82½, to $6 90, to $6 85@6 87½, to $6 90, to $6 85@6 87½, to $6 92½, to $6 90, to $6 95, to $6 92½@6 95, and closed steady.

SEPTEMBER—In good request and offerings were fair Sales were made at $7 00@7 15. Opened at $7 05, sold to $7 00, to $7 05, to $7 02½, to $7 05, to $7 00, to $7 10, to $7 05@7 07½, to $7 10@7 12½, to $7 10, to $7 15, to $7 12½@7 15, and closed steady.

Other Meats—Trade was fairly active, and feeling rather steady. Offerings were not very large and the inquiry was somewhat larger. Exporters bought sparingly and the home trade was fairly good Green Meats in moderate supply with only fair inquiry, and prices steady Pickled Meats in active demand, and prices ruled higher. Dry Salted Meats were in fair demand with moderate offerings, and prices were advanced Smoked Meats called for in limited quantities, and prices ruled higher. Closing prices ranged as follows.

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, June 2.]

Wheat—A careful review of the Wheat trade during the past week both at home and abroad, develops the fact that the situation generally shows weakness. An important factor is the heavy increase in the amount of Wheat and Flour on ocean passage to Europe. It is not surprising, considering the large stocks in three countries, that English and Continental buyers are not willing to make new engagements. The only comforting influence which can be reasonably called for the holding interest is that crop prospects in Europe are not up to the average while in the United States East of the Rocky Mountains it is conceded the full crop will be known later of last year. There is, of course, an element of uncertainty attached to present crop conditions, and until something more definite is known buyers look for much caution on the part of buyers, who will work mostly on a conservative basis, content to do business on or about the present level of prices, and as long as exporting countries keep up the present ratio of shipments foreign buyers are not going to worry much about future prospects. The local market has as a rule, remained stationary. The volume of business has been small. Receipts have been light and nothing doing in the way of new business for foreign, beyond the completion of a French ship, leaving here early in May. We have no vessel on spot for immediate loading, and not much prospect of any further shipments during the rest of the month, except in the case as stated above, at prices and freight rates and prices demanded by holders of Wheat there is no encouragement for shippers to take up new business. Club Wheat is worth on dock here 52c per bushel; blue stem, 53c, and valley 54c per bushel. Very few sellers can be found to let go at these prices.

Crop Advices—The past week was a fairly good one for the growth of most crops. Winter Wheat has made fine progress and in some localities it is waist high, and commencing to head out. Early sown Spring Wheat is doing very well; a good rain would do no harm to germinate some late spring sown and give it a good start.

Prices—The situation in Flour is very slow, and the rumor that has been looked for for has as yet failed to materialize. Steamers going to the Orient are taking very small lots over; the demand is nil. China continues to work off a good part of her surplus to Japan, and occasionally bring small over there. Cables for orders are not being received, even buyers have ceased making bids. From South America ports the demand is small and there is no likelihood of any better trade doing there for the next few months. California is not buying as freely. Millers there have reduced their prices, and competition with Northern Flour was becoming intense. The past two months have been the dullest in the history of the Flour trade, and millers who have been in business here for years say they cannot recall a time when the demand for Flour was so small. Quotations for export brands are without change and range from $3.25 to $3.50 per bbl, according to brands; patents are irregular in price and Flour is offered from $4.00 to $4.35 per bbl. A great many millers are anxious to unload their large stocks, have gone the rounds and dumped their goods on the market here for whatever the same will bring, and the consequence is the market is weak.

THE HOP SITUATION.

[New York Producers' Price Current, June 4.]

The principal item of interest in the week in the Hop trade has been the publication of the Government report showing the consumption of beer during the month of April, 1903, as 3,781,787 bbls, against 3,859,398 bbls during the month of April, 1902, a decrease of 52,421 brls this year in April as compared with April, 1902. There has been a natural increase in the consumption of beer each year of late and the average increase for the month of April for the past three years has been 230,000 brls, so that not only has the natural increase been wiped out, but there is further loss of 52,421 brls in April this year as compared with last. These figures will tend to give some idea of the poor business the brewers of the country have been enjoying, and explain in a great measure the lack of interest shown by brewers in Hops the past few months. On the local market there has been an almost entire absence of business and the situation can be designated as nominal. Prices are unchanged, but merely nominal, simply representing holders' views. Crop reports from all over the world continue good.

AGRICULTURE IN GREAT BRITAIN.

[From the Agricultural Gazette, May 23.]

Another week of glorious weather has further improved the farm outlook. The Grain crops have continued to grow healthily, and the promise of spring Grain and pulse crops is excellent all round. The nights might have been a little warmer with advantage perhaps, but at this period of the season steady growth is better than too much forcing for the cereals. One reason why the yield of Grain in this country is greater than it is elsewhere is the extra length of time as compared with most other countries occupied by the development of the crops. June is quite early enough for forcing weather, and when it comes in that month any backwardness of Grain crops is made good, especially when as in the present season, it has not been cut by frost or severely cold winds. The dry and sunny weather has promoted sturdy growth, which is much better than the production of a great exuberance of soft and sappy flag. It has also been advantageous for the destruction of weeds.

THE WEATHER CONDITIONS.

The weather map shows clear, with slowly rising temperatures throughout the West, Northwest and Southwest, and in Ohio Valley. Light rainfall in Lake region

ITEMS OF GENERAL INTEREST.

The production of Copper by the Greene Consolidated Copper Company in the month of May was 5,413,000 lbs.

Advices from Oklahoma, Thursday, said where a Wheat crop of 6 to 8 bushels per acre was reported some time ago there are prospects of 20 to 25 bu.

Chicago bankers were the successful bidders' Friday, for the $150,000 Omaha 4½ per cent semi-annual twenty-year bonds at a premium of $10,350.

The New Albany, Ind., board of school trustees has awarded the $66,000 4 per cent seven and one-half year average school bonds for $61,825. The bonds are not taxable.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to May 31 have amounted to 6,240,000 qrs, against 4,650,000 qrs in the previous year, and 2,250,000 bu in 1901-2.

No dividend is expected this season on the common stock of the Huntington and Broad Top Railroad. Some expect that the preferred dividend will be cut from 7 to 5 per cent.

Louisville, Ky., reports that part of the Corn in the bluegrass and Green River territory has been replanted once, and some will have to be replanted again. The weather has not been of the growing kind, being too cold and wet.

The daily average number of passengers carried by the Chicago and Oak Park Elevated Railroad in May was 42,866, a loss of 1,187 or 2.79 per cent as compared with the figures for the month last year.

The furnaces of the Iroquois Iron Company at South Chicago have been closed on account of exhausted ore supplies, due to the lake strike. Officials of the Illinois Steel Company say many furnaces throughout the country are being closed down.

A telegram from New Haven, Conn., says: "It is stated here that in order to curtail expenses on account of the depression in trade, four of the boats, against 72,000 tons in the same period last year.

In an opinion delivered, Friday, the Appellate Court upheld the expulsion of John Hedstrom from the Chicago Board of Trade Refusing a writ of mandamus compelling his reinstatement, the court established the right of the Board to enforce its own rules and by-laws. Hedstrom was charged with doing a cut rate business regardless of the rules of the Board, and was expelled.

Chicago managers of the various railroad lines examined the reports received yesterday from their superiors in the East to reduce working forces The order is taken to mean that the strike will not be settled very soon, if at all this season. Employes have been in the service of some of the companies for more than twenty-five years are said to have been let out during the past few days.

It is admitted that negotiations are under way looking to the carrying out of a merger of the United Lead and National Lead companies. The negotiations, it is understood, have progressed so far that there is every likelihood that the merger will be accomplished. When the National is taken over by the United company, the latter will have a practical monopoly of the lead manufacturing industry in the United States.

Beerbohm of May 27 says: "Our latest mail accounts from both Odessa and Rostoff are more favorable with regard to the crops, beneficial rains having fallen, and the complaints of drought come from the Volga districts. The shipments of Wheat remain on a very liberal scale, and it is probable that this season's shipments will exceed that of last year, which up to date have reached 18 891-5, when about 132,000,000 bu were exported."

A telegram from Sydney, C. B., says: "The electricians and locomotive engineers at the Dominion Iron and Steel Company's works went out, Thursday, in sympathy with the laborers, who struck Wednesday. Some of the laborers who remained at work Wednesday went out Thursday. Business men here are pressed over the situation, and a report from Montreal indicates that the directors have decided to shut down the plant until the strike is ended."

The voting power of the preferred and common stock of the Wisconsin Central Railway will terminate July 1, and the stock held thereunder has been lodged with Maitland Coppell & Co. of New York, the depositary under the trust agreement. Stockholders are requested by the voting trustees to present their trust certificate on and after June 15, to the firm named, which will be exchanged for common stock certificates in exchange therefor on and after July 1.

Texas had heavy rains Friday and Saturday. A wire from Dallas, Monday, said: "Rainstorms Saturday and Sunday were general, and the whole country. The loss to Cotton around here in Texas and in Indian Territory will be 25 per cent." Reports from Texarkana said: "Too much rain over Arkansas, East Texas and North Louisiana. It continues to pour, and is damaging the Cotton crop. Pine Bluff, Ark., had four inches of rain, and the bottom lands are overflowed."

The Michigan Paper Company, at Niles, Mich., has been compelled to close down its Paper mill for lack of orders for the first time since the panic of 1893. A member of the board of directors who visited the mill, and went through the country to ascertain the cause of the depression, says he found overproduction our leading cause, there now being more mills than ever before. He also found business in which 20 cents used to pay not as brisk as usual, due to this being the Presidential year.

At a meeting of the directors of the St. Louis and Southwestern Railroad Company, held Friday, it was voted to take from the treasury $1,000,000 4 per cent refunding bonds, the proceeds to be used in reimbursing the company for improvements and betterments made and improvements of various kinds The directors formally ratified the traffic agreement for a joint use of the St. Louis and Southwestern and Texas Pacific between the Frisco system a line down the Mississippi Valley and into New Orleans.

Bradstreet's Buda Pesth correspondent, writing under date of May 23, says: "The Flour market this week has been subject to violent fluctuations which naturally did not tend to foster a feeling of confidence Some large sales were effected in the early part of the week in which prices went up 50 per 50 kilos, but subsequently activity suddenly ceased, and, although the tone at the close is firm, transactions were insignificant. Export business is fairly active and generally satisfactory. Mill Feedingstuffs were very firm "

Statements made by men in position to have the best information on Illinois Corn are to the effect that the shortage in the crop of 1902 was drawn on the preferred stock at the next meeting of the board In case 6 per cent is declared the payment will be made July 1 and the next half will be paid July 1 and half Aug. 1. The company has had an excellent business this year, and has sold at advanced prices the large stock of Brick carried over from last year. The last dividend paid was 3 per cent, disbursed Jan. 15, 1903.

Beerbohm of May 27 says "The crop reports in France could hardly be more favorable than they are just now, and the continued good weather for the crop, which is now at hand, passes favorably over. It is expected that there will be a big crop, reduced although the area compared with last year. With this prospect, and with the stocks apparently exceeding the requirements, the French markets remain extremely weak, and although prices are relatively by the weather with the result that fields generally are in very good condition, and that the condition of the plant was on June 1 more promising than in 1902, although not in maturity up to the highest state of growth at the same date.

The average capitalization per mile of all the street railroads in the State of Massachusetts was $48,621 The average capitalization per mile in the State of New York was $239,547. In other words, the street railroad capitalization in the State of New York is $190,926 per mile greater than that of the United States, and is $190,926 per mile greater than that of the State of Massachusetts, which has had the benefit of excellent laws and a rigid commission possessing ample powers and a will to exercise them for the benefit of the public.

The *Paper Trade*, in the course of an article on the United Box Board and Paper Company, says: "One stockholder states he awaits certain developments of those now temporarily in control of the company. He will be guided in his conduct as to the most effective legal action to undertake. He grows restless in watching and waiting for results, and says he will be joined by others whose aggregate of stock will be formidable enough when petitioning the court. He also states it is the accepted belief that the stockholders' interests will be best served with Mr. Barber out, and this may be materialized by returning him the money he advanced as a loan."

Railroad earnings reported, Thursday, show general decreases in gross and net for the month of April. The Lake Shore reports a decrease in gross for the month, as compared with the figures for the corresponding month last year and a decrease of $68,000 in net. The net for ten months, however, shows an comparative increase of $40,000 The Pennsylvania continues to show heavy decreases, its April net figures being $500 000 under those of the month last year. For ten months the decrease on all lines is almost $4,000,000. The Norfolk and Western decreased its net nearly $100,000 in April, cutting its net increase for ten months to $161,000.

Mark Lee Express of May 23 says: "Hot in the sun, chilly in the wind, the May weather of late has been exceedingly typical of the month. The growth of Wheat is still not fast, and the crop is likely to be late. The prospects for Corn promise to be thus far of quality rather than quantity, but the summer has so vital a word to say in this regard that there is no basis for any real confidence by the promise of the home fields of Wheat. With respect to Barley there is but a poor outlook, the color has gone off, and the growth has come on but irregularly. It is a good thing that the Oats are looking well, and that spring Beans have found the season within taste. Good progress is being made with Potato planting and with the sowing of the root crops."

In spite of the present depression in the Steel and Iron industry, experts themselves optimistically regarding the future. In discussing the trade Steel trade directors have said: "If the crops turn out favorably this year I should not be surprised to see a very great revival in Steel and Iron set in in the latter part of the year or early in 1904. Prices of Steel stocks have increased rapidly and most surprisingly within a very recent period, and the demand will be greater in the future than in the past. It must be remembered that the bigger supply of money country is being rapidly exhausted, and prices for Lumber have gone up from $10 00 per 1,000 feet to $30 00 per thousand feet within the last two years. Railroads have found it necessary to substitute Wood, and this substitute will be Iron or Steel. Metal will be more largely used in building than Wood in the future. Railway cars of all kinds will be built entirely of metal, while the old wooden cars which are now wearing out rapidly, must be replaced by the new kind within a very short period. Railroads will likely be compelled to build heavier before, not only in the way of heavier rails, but also in the way of Steel ties, which will eventually replace the wooden ties now in use."

J. H. Moore is quoted in New York as follows: "I have been buying Corn in Illinois every year, with one exception, for the past fifteen years," he says, "and before I was myself interested in Southwestern railroads I was very much interested in watching the development of the country It has been rapid, but it has been solid and conservative. The manufacturing and jobbing establishments in Lake cities which is the great distributing point of the Southwest, have grown until they are in many instances on a par with similar establishments at Chicago, which is the distributing center of the Northwest. Corresponding growth in the great cities dependent on the Southwest merely reflects the development of the country upon which these cities depend. That country is profoundly sound, year by year shows a very great boom, but with a steadiness and certainty that should, in the long run, bring better results than from methods that have been known in the West. From what I hear, present conditions in the Southwest indicate a fairly prosperous year for that territory. It has a great many resources, and they are all developed at the same time, so that a man cannot say at any time just how much the next year is going to bring, but we do know that money seems plentiful, business about normal, sentiment fairly confident, and most important of all the Wheat crop fairly certain of an average volume.

In the New York Stock market the feature was the activity in Ontario and Western, of which 107,000 shares were sold. The buying orders are said to have come from the Pennsylvania Railroad. Prices advanced 2½. Another feature was the break of 5 to 6 points in Great Western "A and B" shares, due to reports of poor business. The market in general was slow, with changes small.

Stockholders of the South Side Elevated Railroad, Chicago, will hold a special meeting Aug 9 to authorize an issue of bonds to finance the Englewood and Stock Yards extensions of the road. The amount of bonds the stockholders will be asked to authorize is $8,000,000 and the rate of interest in all probability will be 4½ per cent, the same as is paid on the $750,000 first mortgage bonds now outstanding. The amount will provide the company with the $7,220,000 required to build the extensions and leave enough to retire the present bond issue. The retirement of the present issue will be necessary to make the new bonds a first mortgage on the property. The new issue probably will be made retireable at 105 in the first five years after their issue and at 102 after five years, the same as was provided for the bonds now outstanding.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate and prices firm at the recent advance.

WINTER WHEAT—Was quiet and generally quoted steady. Demand moderate; no round lots sold, but the fresh arrivals, especially of choice Wheat, were taken up readily. No. 2 Red in store nominally $1 04@1 06; fresh arrivals free on board quotable at $1 06@1 10. No. 3 Red fresh receipts quotable at $1 03@1 08, with sales at $1 03@1 08. No. 2 Hard fresh receipts free on board sold at $1 00, and quotably 94c@$1 00. No. 3 Hard quotable at 84@95c.

SPRING WHEAT—Was in only light demand and held very firmly. Stock of choice Wheat light and holders firm in their views, with sales of No. 1 Northern at 10c over new July price. Fresh arrivals would sell readily to the usual buyers. No. 1 Northern in store quotable at 98c@$1 00 and fresh arrivals free on board quotably 98c@$1 01. No. 2 Northern fresh receipts free on board quotable at 94@97c No 3 Spring in store sold at 87c and fresh arrivals quotable at 85@96c No. 4 quotably 68@90c for poor to choice.

REGULAR WHEAT—A moderate trade with the early tone weak, rather a steadier feeling prevailing later, but the strength proved to be only temporary, with the closing prices ⅞c lower for July, while the September lost ⅝c. The lower cables, larger world's shipments than expected, increase on ocean passage, improved weather conditions and liberal Northwest receipts were among the "bear" influences and local traders led in the early selling. On a "bullish" crop summary by a recognized authority at St. Louis the market rallied temporarily, but weakened again on reports of harvesting in Southern Kansas and Oklahoma. The Indian crop report was also "bearish," making the yield 358,000,000 bu, against 292,320,000 bu last year and 249,552,000 bu average past five years. Fair weather was predicted for the Northwest as well as the Winter Wheat belt. World's shipments were 10,056 000 bu (Russia 2,576,000 bu and India 2,040,000 bu), against 9,400,000 bu previous week and 13,192,000 bu one year ago. Quantity on ocean passage increased 672,000 bu to 53,152,000 bu, against 36,418,000 bu one year ago. The Hungarian crop report indicated a yield of 117,600,000 bu, against 157,600,000 bu one year ago. The visible decreased 972,000 bu, against 1 817,000 bu decrease one year ago. Total now 30 003 000 bu, against 22,711,000 bu in 1903 and 26,091,000 bu in 1902. Local public and afloat stocks decreased 272,000 bu to 1,524,002 bu, compared with 3,913,000 bu same date one year ago. Liverpool spot unchanged and futures ⅛@¼d lower. Stocks there 3,408,000 bu increased 176,000 bu last week. London ⅛@⅜d lower and English country markets down 1½@3d. Paris declined ¼@½c; Buda Pesth was up ⅛c and Berlin and Antwerp unchanged Kansas City and St. Louis received 71,000 bu and shipped 85,000 bu. Primary receipts were 79,000 bu smaller than last year. Minneapolis wired liberal receipts are expected to continue for some time. Messages from Oklahoma and Texas reported the crop damaged by the recent storms. Minneapolis stocks decreased 175,000 bu past two days. Exports moderate and 15 boat loads accepted at the seaboard. Receipts at Duluth 23 cars and at Minneapolis 311 cars, a total of 334 cars against 137 cars Saturday, holiday a week ago, and 409 cars last year. Local receipts included 13 cars Winter, 2 cars Spring, 3 cars mixed, a total of 18 cars, against 41 cars last year. Included in the above were 1 car contract grade. There was also no cars and no bu from unlicensed elevators. The estimated receipts for to-morrow are 42 cars. Withdrawals to-day were 13,500 bu. Receipts at Western points were 423,197 bu, against 501,445 bu last year At Eastern points 107,163 bu, against 70,664 bu last year. Shipments from Western points were 714,721 bu, against 878,881 bu last year, and from Eastern points 51,362 bu, against 818,359 bu last year. Shipments of Flour were 21,973 brls. Exports of Wheat in Flour were equal to 150 240 bu.

Future Deliveries of Regular Wheat—Fair trade and closing lower

JUNE—Sold at 96@96⅛c, or 7c over old July. Nominal closing about 95½@96c.

JULY—Old Style—Sold at 88¼@89⅝c. Opened with sales at 89½c to 89c; sold to 89⅛c, to 88⅞@89c, to 89¼@89⅜c, to 89c, to 89⅜c, to 88¾c, to 89c, to 88¼c, to 88½@88⅝c, to 88½c, to 88½@88⅝c, and closed at 88½@88⅝c.

JULY—New Style—Sold at 87@87⅛c and at 88⅜c. Opened with sales at 88c to 87⅞c; sold to 87⅛@87¾c, to 88c, to 87⅞c, to 88c, to 87¾c, to 88⅜c, to 87⅜@87½c, to 87⅝c, to 87½c, to 87¾c, to 87¼c, to 87⅜c, to 87@87⅛c, to 87⅜c, and closed at 87⅜c

The official close on new July Wheat on Friday last was 89⅛c, instead of 89¼c.

SEPTEMBER—Old Style—Sold at 83@83¾c. Opened at 83¾c to 83½c; sold to 83¾c, to 83⅜c, to 83½c, to 83c, to 83¼c, and closed at 83¼c sellers

SEPTEMBER—New Style—Sold at 81⅛@82¼c. Opened with sales at 82¼c to 81⅞c; sold to 81¾@81⅞c, to 82⅛c, to 81⅝c, to 81⅞c, to 81⅜c, to 81⅝c, and closed at 81⅝c sellers

DECEMBER—Sold at 80⅞@81c and at 81½@81⅝c Opened at 81⅛c to 81⅜c; sold to 81½@81⅝c, to 80⅞@81c, and closed at 81⅛c

CORN—Was fairly active and weaker, with the close 1⅛c lower for July, while September lost ⅞c and the December ⅞c. Influential interests were arrayed on the "bear" side, and selling against country acceptances was an early feature. The large receipts and improved weather, with prospects of fair and warmer conditions, were among the weakening factors. Selling July and buying September was a feature. Buying chiefly on scattered commission house account. Receipts were 838 cars, including Sunday inspection on the Illinois Central, of which 55 cars graded, against 456 cars last year, when 21 cars were contract For to-morrow 955 cars are expected, though this figure possibly includes part of yesterday's inspection Liverpool quoted spot steady and futures ¼d lower. Stocks there 1,148 000 bu, or the same as last week. MAY—Sold at 42¾@43⅜c. Opened at 43⅜c to 43c, and sold at 43⅛c, to 42¾c, and closed at 42¾c bid

OATS—Were relatively stronger than other Grains, the weakness and decline of ⅜@⅝c being due to sympathy with Corn Private crop reports were "bearish" and indications are for better weather. Trading was fair, there being good supporting orders for July at 39½c, and for September at 31c. Cereal interests led the selling of September. Local stocks in public houses decreased 94,000 bu, and are 753,000 bu. The visible supply decreased 636,000 bu. Cash sales here were 30 000 bu, and at New York 80,000 bu Seaboard clearances 20 000 bu. Arrivals 138 cars, with 207 cars estimated to-morrow Withdrawals were 16 800 bu. DECEMBER—Sold at 31⅜c and at 31⅛@31¼c. Closed at 31⅛@31¼c.

RYE—Was quiet and steady Scarcely enough doing to establish a market. Demand light and offerings limited Only one car load received and three withdrawn from private warehouses No export clearances from the seaboard The visible supply decreased 114,000 bu, and this was due to the 130 000 bu afloat last week at Duluth not appearing in this weeks statement. Local stock increased 1,000 bu No 2 in store nominal and fresh arrivals free on board quotably about 75@76c No 3 fresh sold at 69@73c. No 4 sold at 52c.

Future Deliveries of No. 2 Rye—Quiet Nothing doing. June 75c asked. July 67½c bid. September 62c asked

BARLEY—So far as could be noticed there was no essential change. The little malting Barley on the market was salable and steady Better grades used for mixing also easily disposed of, but poorer qualities of mixing Barley and Screenings were slow and easy. There were 7 cars inspected in and 3,000 bu taken out. Screenings had a quotable range of 34@43c for poor to choice, outside recleaned; some sold at 43c to day, the highest price yet paid Barley, low-grade feed or mixing, 40@43c, outside for good weight. Malting, low grade, 43@44c, fair to good sound, 45@48c; good color, 50@56c, and fancy, 58@59c

SEEDS—A quiet market marked the opening of the week. Flax showed an instance of a break in prices, and aside from this there was no essential change anywhere.

Timothy—The market was without cash offerings. No essential change appeared. September delivery sold at $3 15 and remained offered at that, Saturday it was offered at that figure also, so there was no change; tone of the market was easy. July was nominally $3 05 and June $3 00 Country lots quotable at $2 00@3 00 for low grade to fancy, choice about $2 80@2 90, fair to good Seed $2 60@2 75 and rough at $2 40@2 55

Flax—July delivery sold at $1 00 to day, only a small lot and this indicated 2½c decline The rest of the market presented no changes and nothing was done. June delivery was nominally $1 00 and September obtainable at $1 06. Cash market inactive and nominal. There were no offerings. Only two-fifths of a car reported in and none taken out. Cash Flax No. 1 Northwestern nominal at $1 04½ No 1 at $1 00, and Rejected quotable at 97c@$1 01—outside for choice Northwestern Minneapolis receipts to-day 8 cars and Duluth got 7 cars No change in local stock last week. It remained at 24,201 bu; a year ago it was 74,306 bu.

Clover—Inactive. Quoted as nominally steady There were no offerings Contract spot Seed was quotably $10 75. Country lots common to choice, $7 75@10 00; fancy above; mixed with Buckhorn or other weed Seeds, $6 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Such lots as usually come to market when ordinary to good quotable at $8 50@9 50

Other Seeds—Were quotably firm. The several lines were salable at late advanced prices. Market without offerings Hungarian, common and light color to choice, dark, $1 30@1 60. Common Millet $1 20@1 60 for poor to fancy. German Millet, $1 20@1 70. Siberian, 85c@$1 10. Broom Corn Millet, $1 00@1 10. Early Fortune Millet, 85c@$1 05 Mustard, 85c@$1 05. Buckwheat quotable at $1 65@1 75 for good.

HOG PRODUCTS—Trade was moderate in the market for Hog Products, and the feeling was stronger in a general way. Outside orders were comparatively small, and local trading was only fair. Hogs were in good supply and slightly lower, but packers were purchasing rather freely at the decline Receipts at the leading Western packing points were estimated at 70,000, compared with 65,000 one year ago. Foreign markets were quiet, and Hams were quoted 6d higher Domestic markets were comparatively steady. CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, May 24.]

United Kingdom—The weather in general in the United Kingdom continues seasonable and favorable for the crops, and the rains of the last few days, although very unwelcome for holiday makers, have come just when complaints of too much dry weather were beginning to be heard. Since the heavy downpour of February last the rainfall has been well distributed and the falls have come just when wanted to keep vegetation moving and the land in good order, but at no time has there been enough to cause serious inconvenience or stop field work. The crops continue to look well, although there are some complaints of slow growth owing to low temperatures, and mention is still made of deficient plant in many Wheat fields. Deliveries of native Wheat are fairly well maintained, but both quantities and price are now running below the level of last year at this time.

Russia—Rains have now fallen throughout the South, but the quantity has not been sufficient to satisfy growers in the drouthy districts of the Southwest; however, on the whole, some improvement in the crop prospects can be noted. Our Odessa correspondent says that opinions there are very varied, but all seem agreed that Rye will give a very poor result indeed Our correspondent further says that at the present moment prospects for Wheat are not so unfavorable, but everything depends on getting sufficient rain, and the continual cry is for more rain The shipping movement is still liberal, but holders are now reported to be very firm, and we think it quite possible that the quantities may be somewhat smaller in the near future.

Roumania—The drouth in the Braila region has been relieved, but there is some doubt whether rain came in time to save the crops from damage. In Moldavia moisture is still wanted, but the harvest there being later, there is yet time for rains to do a lot of good; in other parts of the country there have been good rains and conditions are favorable, although vegetation generally is backward. The interior movement of Grain is fair, but, of course, only about one-fourth or one-third of the total is Wheat.

Turkey-in-Europe—A good rain May 14 saved the crops in Macedonia, Thrace and Lower Bulgaria; our correspondent at Dedeagatch writes that prices there have fallen.

Austria-Hungary—An official report from Hungary dated May 15 says that owing to heat and drouth the Wheat crop has suffered considerable damage. At date of report the crop was coming into ear. Rye suffered less than Wheat from drouth, but the spring crops of Barley and Oats naturally make a poor show, for these require plenty of moisture during the spring Since the report was compiled some rain has fallen, but according to our advice of last Friday the quantity has been insufficient. The Austrian Government has issued a favorable report for that half of the Empire.

India—The final official report for the United Provinces of Agra and Oudh shows, as expected, a good increase in the Wheat yield, viz., about 8,000,000 bu, while the Bengal crop is 1,600,000 bu larger. It is to be noted, however, that the above increases are based on revised estimates of last year's yields. The quantity actually returned for the United Provinces this year is really less by 8,000,000 bu than what was returned in 1903 in the estimate issued in June, 1903. Such sharp revisions of published estimates are not at all creditable to the officials. The export movement is liberal, and we expect an increase this week.

Australasia—There is no fresh news regarding the new crop. Shipments increased last week, and chartering is still going on, but the movement now is slow.

Argentina—Favorable weather conditions continue to be reported. The movement to the ports last week was lighter, also the shipments.

France—The crop outlook continues to give great satisfaction to growers; the *Marche Francais* has announced that a special investigation shows prospects to be good, almost general satisfaction being expressed. This authority calculates that there will be a carry-over of fully 56,000,000 bu into the new season. Supplies on Provincial markets are moderate, business very slow.

Italy—Both official and unofficial reports continue to speak favorably of the crops.

Spain—Our Barcelona correspondent now reports that heat and drouth have caused serious crop damage in several districts of the Peninsula. The damage has not been general, however, and reports from some of the most important producing Provinces say that conditions in general are satisfactory.

Germany—The Royal Statistical Bureau of Prussia returns the condition of the Wheat crop on May 15 as equal to 82 per cent, against 68 per cent in May, 1903; Rye 80 per cent, against 72. The condition of the spring crop is also placed at a high figure. This fully confirms the favorable reports of our own correspondents.

Sweden—We hear from Stockholm that the weather has been very cold and wet and spring seeding is very backward

North Africa—Our correspondents continue to send very favorable reports as to harvest prospects.

OUTLOOK FOR COTTON.

The chief of the Bureau of Statistics of the Department of Agriculture estimates the total area planted in Cotton in the United States this season at 31,730,371 acres, an increase of 2,823,016 acres, or 9.8 per cent, upon the acreage planted last year.

The average condition of the growing crop on May 26 was 83, as compared with 74.1 on May 26, 1903, 95.1 at the corresponding date in 1902, and a ten-year average of 85.8.

The percentage of increase in acreage in the different States (the comparison being with the area planted last season) is as follows:

Virginia	19.9	Louisiana	13.5
North Carolina	13.5	Texas	7.1
South Carolina	9.0	Arkansas	9.4
Georgia	7.7	Tennessee	11.5
Florida	10.7	Missouri	23.0
Alabama	9.0	Oklahoma	20.2
Mississippi	10.5	Indian Territory	26.0

The condition of the crop by States on May 26 was as follows:

Virginia	82	Louisiana	86
North Carolina	84	Texas	84
South Carolina	81	Arkansas	81
Georgia	78	Tennessee	85
Florida	88	Missouri	82
Alabama	80	Oklahoma	93
Mississippi	85	Indian Territory	90

Aside from the large increase in acreage, due mainly to the high price of Cotton, there are no conditions calling for special comment at this time.

THE WEATHER CONDITIONS.

Rains appear fairly general Northwest, West and Southwest, but they are light and do not show in Kansas. Temperatures lower. Cloudy.

Indications are for generally fair throughout this district. Threatening conditions in lake district will pass away to-day and to-night; seasonable temperatures will prevail.

The Harriman lines have placed an order with a Pittsburg company for 2,000 pressed steel cars.

ITEMS OF GENERAL INTEREST.

A fire, Friday, at New York, caused a loss of $50,000.

In the fourth week of May the Wabash gross was $618,000, an increase of $5,800. From July 1 the gross was $20,995,500, an increase of $1,564,000.

The directors of the Western Trust and Savings Bank, Chicago, have declared the regular quarterly dividend of 1½ per cent, payable July 1 to stockholders of record June 30.

The directors of the Corn Exchange National Bank, Chicago, have declared the regular quarterly dividend of 3 per cent, payable July 1 to stockholders of record June 1.

The Interborough Rapid Transit Company has declared a quarterly rental of 1½ per cent under the Manhattan Railway lease, payable July 1. Books close June 10 and reopen June 22.

The coinage executed at the mints of the United States during May amounted to $44,551,565, as follows: Gold, $44,109,000; Silver, $380,000; minor coins, $62,565. In addition 660,000 pesos and 2,590,000 centavos were coined for the Philippine Government.

The official Austrian report for the middle of May describes Wheat as good on the whole, but Rye had suffered injury in many districts. The Rape Seed crop mostly promised well. The Barley crop had started unfavorably, being in some districts much damaged.

The average daily gain in traffic of the three leading Elevated Railroads of Chicago for five months ended May 31 was about 3¼ per cent. The Northwestern led with an average increase of 4 1-5 per cent, Metropolitan had 3¼ per cent, and South Side 2 3-5 per cent for the period.

The comparative statement of the Government receipts and expenditures for May shows total receipts, $41,686,059; expenditures, $96,418,472. The latter amount includes $40,000,000 paid on account of the Panama Canal purchase and $600,000 loaned to the Louisiana Purchase Exposition Company. The receipts for the eleven months of the present fiscal year exceeded the expenditures by $3,526,973.

Dornbusch of May 24 says of the French crops: "The weather during the past week has been unsettled and at times stormy. Reports regarding the cereal crops continue to speak of a generally satisfactory state of affairs and farmers have not much cause for complaint. Vegetation everywhere is progressing rapidly. The vines look splendid and the year promises to be a record one for Fruit crops."

Interest is payable in June on bonds having a par value of $784,729,118, the amount of such interest being $18,132,277, as compared with $18,751,695 last year, $18,381,167 in 1902, $17,358,639 in 1901, and $18,517,926 in 1900. Dividends have been declared or are payable on stocks having a par value of $396,722,890, the amount of such dividends being $46,541,965, against $50,797,549 last year, $50,104,630 in 1902, $29,618,138 in 1901, and $21,776,717 in 1900.

Buda Pesth advices of May 21 say: "In the early part of the week the weather was warm and fine, but later turned dull with rain and in some parts fall of hail, with temperature cooler. Regarding the crops, complaints of rust are increasing, and the absence of rain has in some districts caused considerable damage. The official crop statement recently published also shows retrogression compared with previous month, although timely rains would still do much to improve matters."

REVIEW OF TO-DAY'S MARKETS

FLOUR—The market is holding steady under a moderate local and domestic demand.

WINTER WHEAT—Was in moderate demand and steady Some milling and shipping demand existed for fresh arrivals but limited offerings checked trading. No. 2 Red in store quotably $1 05 @1 06 and fresh arrivals free on board ranged at $1 05@1 10 depending on quality No 3 Red fresh arrivals free on board ranged at $1 03@1 08 depending on quality. No 2 Hard fresh arrivals free on board quotably 92c@$1 10, with a sale at 93½c and a sale in store at 91½c No 3 Hard quotable at 80@95c for poor to choice fresh receipts. No 4 Hard sold at 80c

SPRING WHEAT—Was in fair milling demand and held steady Stock of choice Wheat light and holders firm in their views No 1 Northern in store sold at 99c Fresh arrivals would sell readily to the usual buyers quotably 99c@$1 01 No. 2 Northern fresh receipts free on board quotable at 95@98c No 3 Spring fresh arrivals quotable at 85@96c with a sale at 88c No 4 quotably 68@90c for poor to choice

REGULAR WHEAT—The trade was of very moderate volume, and market displayed very little activity early, but livened up considerably toward close Rather a steady tone was displayed early in the day, but later, feeling became easier, and close was 1@1⅛c lower for July, while September lost ¾@⅞c. Market started out easy and rather tame, with yesterday's best buyers the principal sellers. The favorable weather and irresponsive cables evidently more than offset the small receipts in the Northwest. The map was favorable—no rains in the Southwest, where the harvest is on, and cables showed no response to our advance yesterday. Liverpool quoted spot California ¼d lower and La Plata ½d higher, Kansas and Manitoba unchanged. Futures were steady to ⅛d lower London unchanged to ⅛d lower. Paris ½@1c higher Berlin declined ⅜c and Buda Pesth lost ⅛c There were 10 cargoes waiting at English ports for orders and offered for sale, against 7 cargoes yesterday Cargoes on passage were quoted dull, with buyers holding off Market gathered some strength on the prediction of showery weather in the Missouri valley to-morrow and possibility of rains in Mississippi valley to-morrow Private advices from Missouri, Kansas and Indian Territory stated the damage from floods was quite extensive. Kansas City wired that Minneapolis was bidding 3d over Kansas City July for new No 2 Hard country run, shipment from country points during July A Calcutta cable stated the Covernment final estimate on Wheat crop made yield 9,588 000 tons, against 7,775,000 tons last year. Minneapolis wired the country movement was light, and that stocks there had decreased 425 000 bu the past four days. Receipts in the Northwest were 176 cars smaller than last year, and primary movement 86 000 bu less. Kansas City and St. Louis received 97,000 bu and shipped 150,000 bu. Exports were small and only 11 boat loads accepted at the seaboard. Cairo wired that Winter Wheat in Southern Illinois had improved wonderfully the past two weeks The *Orange Judd Farmer* estimated the condition of Winter Wheat June 1 at 76 3 per cent, against 74 5 on May 1. Spring Wheat area 20,190,000 acres, against 20,176,000 acres last year and condition 90 9. Receipts at Duluth 41 cars and at Minneapolis 73 cars, a total of 117 cars, against 211 cars yesterday, 287 cars a week ago, and 293 cars last year Local receipts included 16 cars Winter, 3 cars Spring, 1 car mixed, a total of 20 cars, against 9 cars last year. Included in the above were no car contract grade There was also 3 cars and no bu from unlicensed elevators. The estimated receipts for to-morrow are 28 cars. Withdrawals to-day were 38,700 bu. Receipts at Western points were 268 921 bu, against 355 077 bu last year. At Eastern points 114,688 bu, against 34,573 bu last year Shipments from Western points were 226,952 bu, against 205,254 bu last year, and from Eastern points 800 bu against 266,690 bu last year. Shipments of Flour were 5,546 brls Exports of Wheat in Flour were equal to 24,752 bu.

CORN—There was less interest in this market, fluctuations being confined within narrower limits than of late, and the trade was largely local in character. Feeling manifested was rather weak with final figures ⅝@¾c lower for July, while September was down ⅜@½c and December off ¼c. The start was evidently disappointing to holders in view of the smaller receipts, but market acted as though "shorts" had covered rather freely yesterday Arrivals were only 237 cars, 37 cars grading, against 340 cars last year, when 8 cars were contract, and 394 cars are estimated for to-morrow The Illinois and Iowa crop bulletins, however, were looked upon as favorable, and a wire from a conservative authority at Cairo stated Corn in Southern Illinois would make a bumper crop Liverpool quoted spot steady and futures unchanged to ¼d higher. Weather conditions were on the whole favorable, but showers indicated for the Missouri and Mississippi Valleys Southwestern markets were easy Primary receipts were 943,000 bu, last year 421,000 bu Shipments were 277,000 bu and 278 000 bu respectively. Local arrivals were 750,000 bu, and shipments 126 000 bu Receipts for two days 1 511,000 bu, and shipments 580 000 bu. Withdrawals from regular elevators 7 100 bu Thirty four cars of contract switched from private to public elevators Exports were 17,000 bu; last year 135 000 bu, and 3 boat loads were accepted at the seaboard. Cash demand here reported more moderate and sales 100,000 bu Car lots were in larger supply and fair demand Prices were firmer No 2 closed about 48¾c No 2 Yellow sold at 50½c, and closed at 50c No. 3 sold at 49¼@49½c, and closed at 48½c No 3 Yellow sold at 50¼c, and closed at 49½c. Standard at 43@43¼c. Billed through: No 4 White at 41½c No 3 White at 42@43½c At the river No 4 White at 36@40c. No 3 White at 40@41¼c

Future Deliveries of Contract Oats—Were lower at the close

JUNE—Ranged at 41¾@42c; closed at 41¾c.

JULY—Good trading. Sold at 39⅝@40c. Opened at 39⅞c, sold at 39¾@39⅞c to 40c, to 39⅝c at close

SEPTEMBER—Were liberally traded in, and sold at 31¼@31⅜c. Opened at 31⅛c to 31¼c, sold at 31¼@31⅜c, to 31@31⅛c, to 31⅛c at close.

DECEMBER Sold at 31⅜@31⅝c Closed at 31½@31⅝c.

RYE—Was quiet and unchanged No trading to-day, either in cash or futures Receipts one car No withdrawals from store here and export clearances from the seaboard No 2 in store offered at 75c and fresh arrivals free on board nominally 75c No 3 from store free on board offered at 67c and fresh arrivals free on board quotable at 66@72c for poor to choice.

Future Deliveries of No. 2 Rye—Quiet. July 67c bid and September 62c asked.

BARLEY—Under smaller offerings there was less life in the market. The little malting Barley offered met with fair sale and ruled steady. No change noted. Of feed Barley and Screenings, both demand and offerings were restricted. Only 6 cars inspected in to-day. Not much doing in Screenings, but there remained a quotable range at 31@43c for poor to choice outside recleaned. Barley, low-grade feed or mixing, quotable 40@43c, outside for good weight Malting, low grade, 43@44c, fair to good sound 45@48c good color, 50@55c, and fancy 56@59c

SEEDS—Some business in cash Timothy transpired at lower prices, and entire market weak Other lines were unchanged, and all very quiet owing to very small offerings.

Timothy—There was an increase in cash offerings Some on sale was fresh in and some was held Seed The market was weak Buyers indifferent Concessions had to be made in order to bring about sales Speculative market lifeless. September delivery was offered at the last sale price at $3 10 and $3 05 was bid for it Contract, spot, June or July delivery nominally about $2 95 Country lots were quotable at $2 00@2 85 for low grade to fancy choice about $2 70@2 75 fair to good Seed $2 50@2 60 and rough at $2 35@2 45.

CROPS IN ILLINOIS.

SPRINGFIELD, June 7.—The successive storms were attended by high winds and much Fruit was blown off. Corn planting and plowing were greatly hindered, the soil being too sodden to work. Well distributed and beneficial showers fell in the Central and Northern districts, of heavy measurements in some instances, and while they contributed to plant growth, field work was greatly retarded.

Corn in the Central and the Northern districts is practically all in the ground, and many fields are showing a good stand.

Oats are growing under favorable conditions and the crop has made marked advance during the week. Rye is heading out and is generally promising.

Some correspondents report that Wheat is heading low, but the average condition continues favorable, and the outlook has improved during the week.

The weather conditions have been favorable for grasses; Clover is in bloom. Reports indicate that many Clover fields were winter killed. A large acreage will be planted in Broom Corn.

Potatoes are promising generally, except in the Southern districts, where much replanting was entailed on account of seed rotting. Gardens are growing well.

BOSTON WOOL MARKET.

BOSTON, June 3.—The *Commercial Bulletin* says: "The week has been fairly active in sales of small lines of old territory Wool, ranging principally from 25,000 to 75,000 lbs each. The smaller consumers have been operating with freedom, as holders were ready to clean stocks at current prices. Fine medium sold mostly at around 48c clean, and fine at 50c. The high cost of new Wool caused the mills to secure what they could of old. A little new territory sold during the week at a small profit on interior cost. Primary Western markets continue excited, with Utah, Wyoming and Idaho practically sold up, and heavy operations in Oregon and Texas. Stiff prices rule everywhere in the general desire to own Wool.

"The shipments of Wool from Boston to date from Dec. 31, 1903, are 92,060,747 lbs, against 96,800,661 lbs at the same time last year. The receipts to date are 95,370,322 lbs, against 88,947,576 lbs for the same period last year."

WHEAT AREA.

[From the Grand Forks Herald.]

The work of estimating the acreage will be much more difficult this year than usual, as the conditions are spotted. In the West there is a fair degree of uniformity, but in the Valley there is nothing of the sort. On one little area of two or three miles square Wheat may have been sown early on every foot of land intended for it and on another near by there will be comparatively none sown. One casual observer who happened to see the first-named section and who bases his judgment on its appearance will say that there will be as many acres of Wheat in the Valley as last year, or more. Another who happens to run across a few localities such as the second-named will feel certain that the Wheat area in the Valley has fallen off at least 50 per cent. Only close figuring by experts who look over the entire district is worth anything, and even experts will have to do a good deal of guessing this year.

THE WEATHER CONDITIONS.

The weather map shows light rains and cooler in the extreme Northwest and North Dakota. Rising temperatures and warmer elsewhere. Generally cloudy or partly cloudy.

Indications are for showers extending over the Missouri Valley during the next 36 hours and possibly reaching the Mississippi Valley by Thursday night. Generally fair weather in the lake region, although there may be occasional cloudiness. No change in temperature.

Nicaragua, it is learned in Washington, has begun the construction of an isthmian railway to compete with the proposed canal. The country has appropriated $3,000,000 for the work, which is to be completed within one and one-half years.

During the month of April, Holland imported net 648,000 bu Wheat and 96,000 sacks Flour. The net importation of the two articles in the nine months ending April was 12,816,000 bu, against 12,872,000 bu in the corresponding period of last season.

Lipton (limited) has declared a semi-annual dividend of 4 per cent, making for the past year 7 per cent, against 8 per cent in the preceding year, showing some falling off in earnings. Reserves and depreciation allowances, however, were slightly increased.

Reports from Smyrna say that the recent rains have been of great benefit to the Barley crop of the coast provinces. The grain, which was thin, now appears to be well nourished and of good weight. The quality is better than last year's, but the yield is smaller.

The Standard Oil Company, Tuesday, made another cut in price in all grades of Oil except Ragland. The quotations follow: Pennsylvania, $1 59; Tiona, $1 74; Corning, $1 19; Newcastle, $1 45; Cabell, $1 24; North Lima, $1 11; South Lima, $1 06; Indiana, $1 06; Somerset, $1 04; Ragland, 66c.

The weekly weather and crop bulletin says of Cotton: "As a whole, there has been quite a decided improvement in the condition of Cotton over nearly the whole of the Cotton belt. The crop has, however, suffered some damage in Oklahoma and Indian Territory from overflows."

A dispatch from Mexico City, says: "Ferdinand Viver, a Frenchman and an expert in rubber culture, has discovered a plant which yields to nut [illegible] rubber. Tests of the plant demonstrate that no chemicals are needed, as it vulcanizes easily. There is already a large demand from New York for the product of the new discovery."

An official crop bulletin for Italy, covering the second ten days of May, says that warm, dry weather had favored field work and growth, but a little rain was needed for the Corn and Wheat crops. The latter crop still looks well generally, but in parts of the Centre and North the plant is thin and the fields infested with weeds.

The Chicago and Eastern Illinois Railroad Company has declared the regular quarterly dividend of 1½ per cent on the preferred stock and a dividend of 5 per cent on the common stock. This is an increase of 2 per cent for the six months on the latter issue. Both dividends are payable July 1. Books close June 16 and reopen June 21.

A Boston dispatch says: "While trade in the Boston Wool market is quiet, there is a more confident feeling among dealers, who look for better prices as the outcome of the situation in the West, where the market is higher for some grades than it is here. Old Wools are well sold up here, many of the warehouses being unusually bare of stock."

More American locomotives are being exported this year than last. The locomotives exported during the months ending April last numbered 366 and were valued at $3,947,225. It is said that the Lake Superior Corporation will begin active business the present week. The counsel for the Moffly reorganization committee is quoted as saying that the company will probably soon receive a large rail contract from the projected Grand Trunk-Pacific Railroad. It is claimed that this company will give the Lake Superior Company enough work to keep the rail plant in operation for a year.

The president of the New York, Ontario and Western Railway says that the committee appointed by the board of directors to consider the request of a large number of stockholders for the dissolution of the voting trust has not yet reported. It is unlikely that any official news on the subject will be given out until the regular monthly meeting of the board, which will be held on the last Wednesday of this month.

The Michigan State Telephone Company has closed an arrangement with Pere Marquette Railroad whereby the telephone company acquires over 1,000 miles right of way over routes of the Pere Marquette in Michigan, and upon these routes now trunk lines will be built. "At the end of the year," said President W. A. Jackson, of the telephone company, "there will be upward of 70,000 subscribers connected with our system, an increase of more than 15,000 for the year."

The committee appointed to investigate Southern Iron properties has rendered its report and it is understood that for the present no merger will be attempted. It is stated, however, that the movement has brought the three companies into more harmonious relations and that while the purpose for which the committee was formed will not be carried out, the effect of the interchange of information which has taken place will be wholesome.

The American Car and Foundry Company has received an order for 1,000 cars from the Harriman lines, being a portion of the order for upward of 2,000 cars placed by these roads last week. An order for 1,000 cars was also placed with the Pressed Steel Company by the Harriman roads. It is understood that the profits to the car companies on this business will be small, but in view of the scarcity of orders it was deemed advisable to take the business.

It is stated officially that the directors of Union Bag and Paper Company will declare the usual dividend at their meeting next Thursday. Some interests say that the company's business has not been very favorable recently, and that it would be better to conserve its financial strength by reducing the dividend, and on the present earnings a 7 per cent dividend leaves a very small surplus. The Moore interests will, however, insist on the payment of the regular dividend.

Corn Trade News of May 26 says: "Latest mail advices from Russia show that almost general rains have now fallen, and the crop outlook has improved in consequence. The drouthy districts now appear to be confined to the extreme East and Southeast. Supplies on interior markets are generally liberal. A report from Rostoff-on-Don (southeast), dated May 18 says that fine weather, favorable for the crops, had continued to prevail there, but at date of report complaints of want of rain were beginning to be heard."

Stockholders of the Chicago Savings Bank at their special meeting, Tuesday, voted the increase of the capital stock from $250,000 to $500,000 recommended by the directors. The new stock is offered to the present stockholders in the proportion of one share of new stock for each share now held. The price is $125 a share. The new stock must be paid for on or before June 30. Of the $312,500 that will be raised by the sale of the new stock at $125 a share $250,000 will increase the capital, and the remaining $62,500 will be turned into surplus.

The Philadelpha and Lehigh Valley Traction company's bondholders have adopted a reorganization plan presented by J. C. Dawson of Philadelphia. The entire system will be made compact with a new first mortgage for $4,600,000, $1,430,000 of the bonds to represent cash for the company's use in building a new power house, light plant and machine shop, paying preferred claims and receiver's certificates, and redeeming securities pledged as collateral. A second mortgage of $,00,000 will be distributed among the present bondholders of the various lines, preferred stock will be issued to pay the balance of the bonds, general creditors, and the preferred stockholders, and $751,000 is to be raised by assessment on the present security holders, they to receive first mortgage bonds, with a bonus of preferred stock. A syndicate will underwrite all assessments.

Relative to railroad bonds, a New York banking firm, in their monthly bulletin, say: "In contrast with the inactivity in speculative securities during May, there has been a steady and increasing demand for well secured issues of railroad bonds, and bankers report satisfactory sales 'over the counter.' These purchases in many instances are known to be due to the ease of money rates, notwithstanding exports of over $60,000,000 Gold in the period from April 7 to May 25 and the calling in of Government deposits by the Secretary of the Treasury. There has been undoubtedly a large accumulation of funds that will be likely to remain unemployed in the usual channels of trade for a considerable period, and there is a consequent disposition to seek well secured bonds."

It is believed in Wall Street that the new Columbus and Hocking Coal and Iron management may possibly decide to defer further dividend payments on the stock for some time. In this connection it is remarked that some directors are said to favor an accumulation of a larger surplus before making additional dividend disbursements. It will be remembered that a dividend of 1 per cent was declared last October, to be paid in quarterly installments, but the dates for the four payments were not then fixed. In the ordinary course of events the third installment of ¼ of 1 per cent would have been paid last month, but it was left to the new management to determine when the last two installments of the dividend declared should be paid. As yet the new directors who were elected May 18 have taken no action on the matter. It is understood that the earnings of the company have suffered recently from various causes, especially from the lake strike.

The Chicago *Drovers' Journal* says: "Fancy Beeves at $6 25 last week showed a gain of 40c over the top of the previous week, and an advance of 55c over two week ago, being the highest price obtained on the open market in Chicago in about a year and a half. This price was 75c above the top the corresponding week a year ago, yet $1 50 lower than two years ago, when the very light supply caused prices to go so very high. Three years ago the top was $6 15, and four years ago $5 75. The average price of good Beef Cattle this week was $5 40, or an advance of 35c over the previous week, 50c over two weeks ago, and 65c over three weeks ago. Compared with a month ago the average shows an advance of 70c, and compared with two months ago an advance of 85c. Compared with the low week of the year, which was the second week of last February, there was an advance of 95c. The average for this week was the highest since the first week of September, 1902, being 50c higher than a year ago and $1 15 lower than the high time two years ago, when the average price of good Beef Steers was $6 55."

Forty-two national banks, with aggregate capital of $1,797,800, were organized during May. Twenty-eight of these banks, with aggregate capital of $725,000, were of the class authorized by the act of March 14, 1900, and fourteen, with capital of $1,072,800, banks with individual capital of $50,000 or over. The Southern States lead in number of organizations, namely, sixteen, followed by the Middle Western States, with eleven. Five associations were organized in the Eastern States, the same number in the Western States, four in the Pacific States and one in the New England States. Comparing conditions on May 31, 1904, with those on March 14, 1900, it is shown that there has been a net increase in number of active national banking associations of 1,733, and in capital stock of $150,570,240, the number of banks existing on the later date being 5,350, with authorized capital stock of $775,835,355. The outstanding circulating notes have been increased from $254,402,730 to $445,988,565, or $191,585,845. The increase in circulation during May was $8,917,992.

AVAILABLE STOCKS OF BREADSTUFFS.

On the reverse page of this issue of the DAILY TRADE BULLETIN will be found an interesting statement of the Breadstuffs supply in Europe, America and Argentina on June 1. It is very complete. It includes the European and Argentina stocks as collected by Broomhall's *Corn Trade News*, Liverpool, a portion of the visible supply as compiled by the Secretary of the Chicago Board of Trade, the stocks in the Northwest collected by the Minneapolis *Daily Market Record*, returns from about forty points (including Denver and Pittsburg) estimated, with the balance of the report collected and compiled by the DAILY TRADE BULLETIN.

ITEMS OF GENERAL INTEREST.

New York Exchange 30c premium.

Documentary Sterling steady at 485.

Chicago Bank Clearings to-day, $25,364,484.

A Chicago Board of Trade membership sold to-day at $3 075 net to buyer.

Minimum rate of discount of the Bank of England is unchanged at 3 per cent.

Reported that 141,000 bu Wheat and 32,000 bu Corn were taken at the seaboard today for export.

Ten packers purchased 16,100 Hogs to-day; shippers, 2,000; left over, 5,000. Market closed weak.

A condition of 87 and area of 4,940,000 acres in Kansas, indicate a Winter Wheat crop of 83,000,000 bu.

Kansas report on Wheat, 87; harvest begins June 20. Condition of Corn, 78½, much replanting. Oats, 80.

Union City, Tenn., wired: "Commenced cutting Wheat to-day; will be general by 13th; best prospect in years."

Duluth claims that practically all of its receipts of Wheat are reshipments from Minneapolis to the Duluth mills.

Stocks of Hog Products at Chicago estimated at 52,000 brls Mess Pork, 104,500 tcs Lard, and 19,750,000 lbs Short Rib Sides.

Estimated receipts for to-morrow: Wheat, 27 cars; Corn, 492 cars; Oats, 93 cars; Rye, 1 car; Barley, 11 cars; Hogs, 20,000.

A report from California says harvesting has commenced there, and predicts a bumper crop of Barley in Oregon and Washington.

Average price of Hogs at Chicago, Wednesday, was $4 90, the highest since May 27. Average price Tuesday, $4 77; a week ago, $4 69, and a year ago, $6 13.

The Mexican duty of 15c per bu on Wheat imports has been removed. This is the usual action at this time of year. Mexican imports amount to about 5,000,000 bu in a normal year.

The weekly statement of the Bank of England shows an increase in bullion of $2,173,365. The proportion of the bank's reserve to liabilities is now 50.13 per cent, against 46.33 per cent last week.

Cotton in New York averaged higher. Liverpool closed 5 to 6 points higher. July was the feature, having good support, and led the list. Europe and spot houses bought. Closing sales were at gains of 21@29 points.

Stocks in New York were slow, but averaged higher. London bought 15,000 shares. Crop news was more favorable. Alton common advanced 2 points, but changes on other shares were mainly fractional. Money 1 to 1¼ per cent.

In Local Securities the feature was Metropolitan Elevated preferred, which advanced 2 points and is up 12 points of late, on local buying. Can shares were more freely taken, on a rumor that they are to be put on a dividend basis.

The Cincinnati *Price Current* in its weekly crop summary says: "Wheat making seasonable progress. Heading and filling favorably. Slight losses by Western rains. Weather becoming more seasonable and reports generally optimistic. Oats progressing favorably."

The Cincinnati *Price Current* reports the packing of the West for the week at 490,000 Hogs, compared with 485,000 for the week previous and 435,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 5,835,000 Hogs, compared with 5,445,000 for the corresponding time last year—an increase of 390,000 Hogs.

A message from Minneapolis, Wednesday said: "Wheat in Minnesota and North Dakota though getting much later start than usual, is in fine condition. Rainfall has been sufficient through sections where needed, and at the present time the outlook is very promising. Acreage is estimated at about the same as a year ago. Crop conditions in Manitoba and the Northwest Territories are very favorable and the growth as far advanced as usual at this date."

The *Northwestern Miller* says: "Crop reports are generally of a fairly favorable character. The floods in Kansas have not injured the Wheat fields to any appreciable extent, as they occurred outside the Wheat belt. From the Ohio Valley, where the crop outlook is least promising, come reports that in some sections where Wheat has not been plowed up and resown to other Grain, the plant is showing quite an improvement, and with fair weather from now on may produce a fair amount of Wheat. Crop conditions in the Northwest are very favorable."

Broomhall cables: "Our Buenos Ayres agent cables that last Argentine Corn crop is officially estimated at 177,428,000 bu, which compares with 147,856,000 bu estimated for the previous crop at this time last year, but which was later revised to 111,428,000 bu. Exportable surplus for this season is officially estimated at 120,000,000 bu. A year ago surplus was officially estimated at 103,428,000 bu, while actual shipments amounted to but 58,144,000 bu. Present estimate greatly exceeds private estimates which have placed surplus below 77,000,000 bu."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand continues only moderate and sales confined to local and domestic trade. Prices steady.

WINTER WHEAT—Was dull and feeling easier. A few cars of fresh receipts were sold and all denote shade lower prices. Nothing doing in round lots. No. 2 Red in store nominally $1 04@1 05 and fresh arrivals free on board quotably $1 05@1 07. No. 3 Red fresh receipts free on board ranged at $1 00@1 05 depending on quality. No. 2 Hard fresh receipts free on board sold at 93½c@$1 00—outside for choice. No. 3 Hard sold at 80@88c for poor to fair. No. 4 Hard sold at 77c.

SPRING WHEAT—Very quiet. Market was dull and prices 1@2c lower. Demand limited from all sources. No. 1 Northern in store nominally 95@98c, and fresh arrivals free on board quotably about 99c. No. 2 Northern nominally 95@97c. No. 3 Spring quotably 86@95c for poor to choice. No. 4 Spring sold at 69½c, and quotable at 65@88c for poor to choice.

REGULAR WHEAT—Only a moderate trade, still the market was fairly active at times and the feeling developed was rather unsettled. The close was ⅝c lower for July, and ⅛c for the September. Early strength was attributable chiefly to the rains, and fact that the English cables were not off in proportion to the decline on this side yesterday. There was more rain on the map than expected, heavy in Manitoba, and there were thunderstorms and rain in Nebraska and Kansas, and part of Oklahoma. Showers were predicted for Illinois, Missouri, Minnesota, North and South Dakota, Nebraska and Kansas, and fair weather for Indiana. Liverpool quoted spot unchanged, and futures steady to ⅛d lower. London came steady to ⅛d lower. English country markets were easy and 1½@3d lower. Cargoes on ocean passage were quiet with very little bidding. Paris was up ⅛c and Antwerp unchanged. Buda Pesth was down 1c and Berlin ⅛@⅜c lower. As the session advanced "bear" interests became more aggressive and selling for the Northwest was a conspicuous feature. The estimated India shipments 2,800,000 bu weekly, for this week as well as next, was one of the "bear" factors and aided the break. Minneapolis wired all the mills would close down to-morrow until Tuesday and also exerted a depressing influence. The Flour output at Minneapolis showed a decrease of 56,000 brls and production in the Northwest 323 105 brls, against 487,050 brls last year. *Price Current* stated that Wheat was making seasonable progress heading and filling favorably with slight losses by Western rains. Primary receipts were 20,000 bu smaller than last year and from July 1 to June 6 foot up 214,373,000 bu, against 242,818 000 bu in 1902-03. Duluth wired that practically all of the receipts there were reshipments from Minneapolis to the Duluth mills. Union City, Tenn., wired: "Cutting commences to-day, will be general by 13th; threshing commence by 20th; best crop for years; samples fine." Private Paris cables stated the weather in France was wet and the market up equal to 1c. Kansas City wired the total stock there was only 156,000 bu. Exports were meagre and 18 boat loads accepted at the seaboard. Minneapolis stocks were reported decreased 525,000 bu so far this week. Kansas report made condition 87 per cent on an area of 4,940,000 acres, indicating a yield of 83,000,000 bu, compared with 87,000,000 bu last year. Receipts at Duluth 23 cars and at Minneapolis 97 cars, a total of 120 cars, against 117 cars yesterday, 128 cars a week ago, and 193 cars last year. Local receipts included 23 cars Winter, 2 cars Spring, no mixed, a total of 25 cars, against 12 cars last year. Included in the above were 1 car contract grade. There was also 12 cars and no bu from unlicensed elevators. The estimated receipts for to-morrow are 27 cars. Withdrawals to-day were 6,800 bu. Receipts at Western points were 234,917 bu, against 254,568 bu last year. At Eastern points 46,828 bu, against 141,397 bu last year. Shipments from Western points were 285,216 bu, against 107,655 bu last year, and from Eastern points 26,521 bu against 614,745 bu last year. Shipments of Flour were 1,275 brls. Exports of Wheat in Flour were equal to 32,261 bu.

Future Deliveries of Regular Wheat—Fair trade and closing lower.

JUNE—Early 96c, and later nominally about 95c.

JULY—Old Style—Sold at 87⅝c and at 88½@88⅝c. Opened with sales at 88¼c, to 89⅝c; sold to 88⅛c, to 88½@88⅝c, to 87⅞c, to 88¼c, to 88c, to 88¼c, to 87⅝c, to 87¾c, to 87½c to 87¼c, to 87⅜c, to 87⅜c, and closed at 87¾c sellers.

JULY—New Style—Sold at 86¼@87⅜c. Opened with sales at 87c to 87@87⅛c, sold to 87⅛@87¼c, to 86⅞c, to 87⅜c, to 86¾c, to 87c, to 86½c to 86⅝c, to 86¼@86⅜c, to 86⅝c, to 86¼c, to 86⅝c, and closed at 86⅝c sellers.

SEPTEMBER—Old Style—Sold at 82¼@83c. Opened with sales at 82⅞c to 83c; sold to 82⅞c, to 82⅞@82¾c, to 82½c, to 82¾c, to 82¼c, to 82½c, and closed at 82½c.

SEPTEMBER—New Style—Sold at 80⅝c and at 81⅛@81½c. Opened with sales at 81⅛c to 81¼c, sold to 81¼@81⅜c, to 82⅛c, to 81⅛@81½c, to 80⅝c, to 80¾c, to 80⅝c, to 80⅞c, and closed at 80⅞c.

DECEMBER—Sold at 80¼@80⅞c. Opened at 80¾c; sold to 80⅝c, to 80⅞c, to 80½c, to 80⅝c, to 80¼c, to 80⅛c, to 80⅜c, and closed at 80⅜c.

CORN—A moderate trade and chiefly local, with the feeling somewhat unsettled. Closing prices showed the July up ⅛c, September up ⅛c and December a fraction. Early strength was due chiefly to the rains and reports of smaller country acceptances, "shorts" being the principal buyers. Later prices receded with Wheat and the larger estimated receipts for to-morrow. Receipts were 382 cars, with only 19 cars contract, but 498 cars are expected to-morrow. Bulk of the receipts are now coming from Illinois, and it is estimated that in some of the counties stocks have been reduced to 15@20 per cent. Liverpool quoted spot unchanged and futures ¼@⅜d lower. Cargoes on ocean passage were easy and 1½d lower. Decline abroad was reported due to "bearish" Argentine report and pressure of Argentine parcels. Kansas State report made the condition on June 1 78.5 per cent. "Shorts" were fair buyers closing hour of day. Showers were generally predicted. Western receipts were 594,000 bu last year, 499,000 bu. Shipments 283,000 bu and 539,000 bu respectively. Local arrivals 492,000 bu, shipments, 125,000 bu. Exports only 19,000 bu and 4 boat loads accepted at the seaboard. Withdrawals here 44,200 bu and 48 cars contract switched from private to public elevators. Shipping demand was reported moderate and sales 100,000 bu. St Louis firm and Kansas City steady. Car lots were in fair demand and larger supply. Prices were ½@¾c lower. No. 2 sold at 49¼@49½c, and closed at 48¾c. No. 2 Yellow sold at 50¼@50½c, and closed at 50c. No. 3 at 48¾@49c and closed at 48½c. No. 3 White at 48¾c. No. 3 Yellow at 50c, and closed at 49¾c. No. 4 at 41@47c outside for yellow. Charters were made for 175,000 bu, the Buffalo rate being 1½.

Corn by sample—Was in fair demand and the offerings a little larger. Feeling was weaker and prices ½@¾c lower. Sales on track and free on board. No Grade sold at 35@43c. No. 4 at 37@48c. No. 3 at 48½@49¼c. No. 3 Yellow at 49¾@50¼c. No. 2 Yellow at 50¼@50½c. No. 3 White at 48¾@49c. No. 2 White at 49c. Billed through: No Grade at 37@43c. No. 4 at 42@48c. No. 3 at 47¾@49c. No. 3 Yellow at 48½@49½c. No. 2 Yellow at 48c. No. 3 White at 47¾c. No. 2 White at 48c.

Future Deliveries of No. 2 Corn—Moderately active, and prices irregular, closing fractionally higher.

JUNE—Inactive, and closed 48c asked.

JULY—Sold at 48½@49⅛c. Opened at 48⅞c to 49c and sold at 49c, to 48⅞c, to 49⅛c, to 48⅝c, to 48¾@48⅞c, to 48⅝@48¾c, to 48¾@48⅞c, to 48⅝c, to 49c, to 48⅞@49c, and closed at 48⅞@49c.

SEPTEMBER—Sold at 47¾@48¼c. Opened at 48c to 48⅛c and sold at 48@48⅛c, to 48¼c, to 47⅞c, to 48c to 47¾c, to 48c and closed at 48c.

DECEMBER—Sold at 43½@45⅝c and 43¾c. Opened at 43⅝c to 43¾c and sold at 43½@43⅝c, to 43⅝@43¾c and closed at 43⅝@43¾c.

MAY—Sold at 42⅞c and 43c and closed at 43c bid.

OATS—Were fairly traded in and prices receded ¼@½c after a small advance. But the close was strong at a net gain of ⅛c on July, steady on September to ⅛c lower on December. There was no pressure to sell like on the previous days and good buying of July by shipping houses and of September by commission houses. The Kansas State report made the condition 80. Receipts were small, 61 cars, and 93 cars are expected to-morrow. Cash business was slow, but prices held firmly, sales being 25,000 bu including 10,000 bu Standard at 2c over July price in store. Withdrawals were 10,300 bu. Seaboard clearances 17 000 bu. Car lots in store and to go to store were steady. No. 4 White sold at 42¾c. Standard in store closed at 41⅝c.

Oats by sample were in fair request. The supply was light and prices held steady. Sales on track and free on board: No. 4 at 37c. No. 4 White at 37½@42c. No. 3 at 39@39½c. No. 3 White at 41½@44c. No. 2 at 40c. Billed through: No. 4 White at 40c. No. 3 White at 41@43c. Standard at 43@43½c. At the river: No. 4 White at 35@40¼c. No. 3 White at 40@41½c.

Future Deliveries of Contract Oats—Were unsettled and closed stronger.

JUNE—Sold at 41⅝c, closed at 41⅝c.

JULY—Offered sparingly. Sold at 39⅜@39½c and at 39⅞c. Opened at 39⅝@39¾c, sold to 39⅞c, to 39⅝@39½c, to 39⅝@39¾c at close.

SEPTEMBER—Good trading. Sold at 30⅞@31¼c. Opened at 31⅛c to 31¼c, sold to 30⅞c, to 31⅛c at close.

DECEMBER—More doing. Sold at 31¼@31½c. Closed at 31⅜@31½c.

RYE—Was very quiet—nothing whatever doing. Prices nominally unchanged. There were no receipts here and no withdrawals from store and no export clearances from the seaboard. No. 2 in store offered at 75c without buyers, and fresh arrivals free on board nominally about 75c. No. 3 in store offered at 66c without buyers, and fresh arrivals free on board quotably 66@70c.

Future Deliveries of No. 2 Rye—Quiet. July 67c bid and September 62c asked—no trading.

BARLEY—On account of there not being many Oats offered there was a somewhat restricted demand for low grade or mixing Barley. The market was easy, but with one or two exceptions it was called unchanged. Of malting Barley the quantity on sale was small. Attendance of buyers very limited. Demand at the same time took what there was on sale. Posted to-day 13 cars in, and 2,000 bu No. 5 taken out. There were some sales of Screenings at 40½@42c and the market was quotable at 31@42c for poor to choice, outside recleaned. Barley, low-grade feed or mixing sold down to 38¼c for poor and was quotable at 38@42c, outside for good weight. Malting, low grade, 43@44c, fair to good sound, 45@48c, good color, 50@55c, and fancy, 58@59c.

SEEDS—Trade very quiet. Nothing was done in Timothy to-day. About the only change in the entire market was a little firmer tone to Flax, and a slight improvement.

Timothy—No cash lots offered on sale to-day. The speculative market also was without demand or offerings. The entire market was simply lifeless. No change could be noted. In a nominal way values were quotable as they last appeared. September delivery obtainable at $3 16 and salable possibly at $3 05. Contract, spot, June or July delivery, nominally about $2 95. Country lots were quotable at $2 00@2 85 for low grade to fancy, choice about $2 70@2 75, fair to good Seed $2 50@2 60 and rough at $2 35@2 45.

Flax—On account of improvement in the Northwest the market was stronger here. There developed ⅛c advance for Northwestern cash Seed, and September delivery was held 1c above what lately has been quoted. The market was inactive aside from the sale of one car. Posted inspected in 1 car and out none. At Minneapolis 5 cars were received and at Duluth 6 cars. Spot No. 1 Northwestern sold at $1 07. No. 1 was nominal at $1 00 and Rejected quotable at 97c@$1 00—outside for choice Northwestern. June and July deliveries both were nominal at $1 00 salable at that possibly. September held at $1 06.

Clover—Inactive; none on sale. Nothing to the market any more than that it was nominally unchanged. Contract spot Seed nominally $10 75. Country lots common to choice, $7 00@10 00; fancy above; mixed with Buckhorn or other weed Seeds, $8 00@8 50; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Such lots as usually come to market when ordinary to good quotable at $8 50@9 50.

Other Seeds—Were quotably steady to firm for the different lines, especially if quality was good. Nothing offered but some Hungarian to arrive buyers and sellers were apart on this. Hungarian, common and light color to choice, dark, at $1 35@1 80. Common Millet, $1 20@1 60 for poor to fancy. German Millet, $1 20@1 70. Siberian, 85c@$1 10. Broom Corn Millet, $1 00@1 10. Early Fortune Millet, 85c@$1 05. Mustard, 85c@$1 05. Buckwheat quotable at $1 65@1 75 for good.

HOG PRODUCTS—A fairly good business in a speculative way was transacted in Hog Products, and the feeling was unsettled and prices irregular. Outside orders were moderate and local trading was fair. Offerings not very large, and the demand was fairly active. Hogs were in moderate supply, and prices lower, but this feature apparently had little influence on the market. Receipts at the leading Western packing points were estimated at 63,600, compared with 52,000 one year ago. Returns of the packing of the West for the week, compared with the corresponding week in 1903, exhibited an increase of 55,000 Hogs. Foreign markets were quiet, and Lard was quoted 3d lower. Domestic markets comparatively steady. Receipts of Products were good—of Lard and Meats about 21 cars. Shipments were moderate—of Lard and Meats about 26 cars. Speculative market opened firmer, and prices were a trifle higher and light offerings with fair miscellaneous buying, caused a further improvement all around. At the advance, there was some inclination to realize, and prices receded to inside figures, and the market closed comparatively steady. Shipping demand was only fair and chiefly for home wants. Offerings were moderate. Sales not very large and prices ruled steady.

Mess Pork—Trade was fairly active in Mess Pork, and the feeling was unsettled. Offerings were moderate and the demand was fairly active. Prices fluctuated considerably. Market opened rather firm, with fair miscellaneous buying and prices were advanced 5@7½c, which were followed by a further improvement of 17½@20c. At the advance there was a little pressure to realize and prices settled back 10@12½c. Again the market showed a little more strength, and prices rallied again, but toward the close settled back 12½@15c and closed steady. Shipping demand was light and offerings were small. Cash lots were quotable at $12 05@12 10.

JULY—In rather good demand with only fair offerings. Sales were made at $12 05@12 25. Opened at $12 05, sold to $12 25, to $12 15, to $12 22½, to $12 07½, to $12 10, and closed steady.

SEPTEMBER—Offerings were moderately free and the demand was rather active. Sales were made at $12 25@12 45. Opened at $12 25 to $12 27½, sold to $12 45, to $12 32½, to $12 45, to $12 27½ to $12 30, and closed steady.

Lard—A fair business was transacted in the Lard market and the feeling was stronger in a general way. Foreign advices less favorable to holders. Supply on hand gradually enlarging. Offerings were not very free, and the demand was fairly active, especially for September delivery. Market opened rather steady, and prices about 2½c higher, which was followed by a further improvement of 5@7½c. Later, the feeling was not so strong, and prices receded 7½@10c, and closed at inside figures. Inquiry on shipping account limited and offerings only moderate. Cash lots were quotably $6 52½@6 55. Loose lots in small request with moderate offerings. Prices steady at about 55c discount on July figures. Leaf Lard in moderate request and offerings were fair. Prices quotably steady at $5 87½. Neutral in only limited demand with fair offerings. Prices quotably steady at $6 87½@7 00 for No. 1 and $6 62½@6 75 for No. 2.

JULY—In fair request and offerings were not very large. Sales were made at $6 60@6 67½. Opened at $6 60 to $6 62½, sold to $6 67½, to $6 60, and closed steady.

SEPTEMBER—Offerings were fair, and the demand was moderately active. Sales were made at $6 75@6 85. Opened at $6 77½ to $6 80, sold to $6 85, to $6 80, to $6 85, to $6 80, to $6 82½, to $6 75, and closed steady.

JANUARY—Quiet, with small sales at $6 72½.

Short Rib Sides—Trade was fairly active in the market for Short Rib Sides, and the feeling was steadier in a general way. Offerings were fair, and the demand was quite active. Prices ruled irregular. Outside orders were fair. Market opened steady at about 2½c advance, and prices rallied 10@12½c further on fair miscellaneous buying. Later, a weaker feeling was developed and prices settled back 2½@5c. Toward the close, the feeling was steadier, and prices rallied 2½@5c but settled back 7½@10c and the market closed comparatively steady. Shipping demand was moderate, and offerings were rather light. Cash lots quotable at $6 75@7 00 according to weight.

JULY—In rather good demand with fair offerings. Sales were made at $6 87½@7 00. Opened at $6 87½ to $6 92½, sold to $7 10 to $6 95, to $6 97½, to $6 95, to $7 00, to $6 92½, and closed steady.

SEPTEMBER—Offerings were fair, and the demand was quite good. Sales were made at $7 10@7 20. Opened at $7 10, sold to $7 20, to $7 15, to $7 17½, to $7 15, to $7 17½, to $7 10, to $7 12½, and closed steady.

OCTOBER—Quiet, with small sales at $7 12½.

Other Meats—Trade was only moderate and feeling rather steady. Offerings were not very large and the inquiry was only fair. Exporters bought sparingly and the home demand was only fair. Green Meats in moderate supply with only fair inquiry, and prices steady. Pickled Meats in fair demand and prices well maintained. Dry Salted Meats were in fair demand, with moderate offerings, and prices ruled steady. Smoked Meats called for in limited quantities, and prices ruled steady. Closing prices ranged as follows:

SUPPLY OF BREADSTUFFS

Stocks in Europe and America.

According to the special cablegram from Broomhall's *Corn Trade News*, Liverpool, to the DAILY TRADE BULLETIN, the supplies of Breadstuffs—Flour and Wheat—in second hands in store in the principal countries of Europe, in Argentina, and afloat for Europe on June 1, 1904, exhibited an increase equal to 1,440,000 bus during May compared with an increase of 3,694,000 bu during April, and an increase of 5,831,000 bu during May, 1903. The aggregate quantity of Breadstuffs afloat for Europe on June 1, 1904, exhibited an increase of 1,350,000 bu during May, compared with an increase of 6,040,000 bu during April, and a decrease of 3,470,000 bu during May, 1903. Supplies en route to the United Kingdom were estimated 430,000 bu, those for the Continent increased 470,000 bu, and those "for orders" increased 1,350,000 bu. The aggregate supplies afloat for Europe on June 1, 1904, were 15,320,000 bu more than reported one year previous, and 8,530,000 bu more than reported two years previous. During May, 1904, the aggregate supplies in store in the principal countries of Europe were increased 1,550,000 bu, compared with a decrease of 1,990,000 bu during April, and an increase of 2,560,000 bu during May, 1903. Stocks in the United Kingdom were enlarged 1,040,000 bu, those in France decreased 330,000 bu, those in Germany, Belgium and Holland increased 740,000 bu, those in Russia increased 360,000 bu, and those in other portions of Europe increased 830,000 bu. Stocks in Russia were reduced 2,940,000 bu during April and were increased 360,000 bu during May, 1903. The quantity in store in Russia are about 200,0 0 bu less than reported one year ago and 2,710,000 bu more than reported two years ago. The aggregate stocks in store in Europe on June 1, 1904, are 16,138,000 bu more than reported one year previous, and 16,138,000 bu more than two years previous. Compared with the returns of one year ago, the supplies of Breadstuffs in store and afloat for the United Kingdom on June 1, 1904, were 6,440,000 bu more, those for the Continent 2,040,000 bu more, and those "for orders" 18,330,000 bu more. The aggregate supplies of Breadstuffs credited to Europe in all positions on June 1, 1904, were 26,340,000 bu more than reported on June 1, 1903, and 17,840,000 bu more than on June 1, 1902. Advices from Europe are not very encouraging for the Wheat and Rye crops, and the yields of both will probably be smaller than in 1903. Some authorities estimate the aggregate reduction in the European Wheat crop of this year will be 120,000,000 bu, but this may be offset partially by enlarged yields in India, Argentina and Australia. In the United Kingdom, Italy and Spain, the prospects are a fair yield. In many sections of France, the outlook is quite favorable for good yields. In Roumania, Austria-Hungary, Turkey and Russia, the prospects are not very good, and the aggregate yield will prouably fall considerably under that of 1903. In India, Argentina, Australia and North Africa, the prospects are generally favorable for good yields, and the reports from these countries are on a fairly liberal scale

DOMESTIC SUPPLIES OF BREADSTUFFS.

The aggregate supplies of Breadstuffs—Flour and Wheat—in the United States on hand and afloat on June 1, 1904, as compiled by the DAILY TRADE BULLETIN and the Minneapolis *Market Record*, exhibited a decrease during May equal to 14,971,000 bu, compared with a decrease of 7,531,000 bu during April, and a decrease of 26,683,000 bu during May, 1903. The reductions were quite general throughout the country, but more marked in sections where the large distributing markets are located—in New York, Illinois, Missouri, in the Northwest, and in Canada. The aggregate stocks of Flour in the United States and Canada were reduced 101,000 brls during May, compared with an increase of 342,000 brls during April, and a reduction of 240,000 brls during May, 1903. Quite a marked reduction was made in the supplies at the Atlantic seaboard markets and in the Southwest and Canada, while there was a moderate increase in the Spring Wheat sections. Production was on a moderate scale. The following table exhibits the stocks of Flour in the principal cities of the United States on the dates named:

Cities.	June 1, 1904. Brls.	May 1, 1904. Brls.	June 1, 1903. Brls.
Philadelphia	316,000	359,000	359,000
New York	153,000	192,000	57,400
Chicago	38,800	29,250	48,800
St. Louis	43,500	53,300	30,100
Toledo	6,000	7,000	5,000
Baltimore	44,000	44,000	42,000
Detroit	6,000	8,000	6,000
Boston	83,542	94,756	74,176
Milwaukee	76,200	76,200	74,400
Duluth	412,000	300,000	255,000
Total	1,052,992	1,012,402	747,025

Stocks of Flour at these points were increased 40,591 brls during May, compared with an increase of 92,750 brls during April, and a decrease of 138,869 brls during May, 1903. The aggregate supplies of Flour at these markets on June 1 were 305,974 brls more than reported one year previous. Stocks of Flour at the Atlantic seaboard markets on June 1, 1904, were 459,749 brls, compared with 525,132 brls on May 1, and 589,175 brls on June 1, 1903. The aggregate supplies of Flour in the United States and Canada on June 1, 1904, were 305,902 brls more than reported on June 1, 1903, and 182,9 0 brls more than reported on June 1, 1902.

During the month of May the supplies of Wheat in the United States and Canada were decreased 14,870,000 bu, compared with a reduction of 8,140,000 bu during April, and a decrease of 19,603,000 bu during May, 1903. The decrease was generally distributed throughout the United States. Stocks in the Northwest decreased 4,640,000 bu, compared with a reduction of 3,000,000 bu during April and a decrease of 5,925,000 bu in May, 1903. Supplies in the interior elevators of the Northwest increased 47,000 bu during May, compared with a reduction of 197,000 bu during April, and a decrease of 491,000 bu during May, 1903. Supplies are now estimated at 1,431,000 bu, compared with 1,384,000 bu on May 1, and 1,922,000 bu on June 1, 1903. The aggregate supplies of Wheat in second hands in the United States and Canada on June 1, 1904, were 5,491,000 bu less than one year ago, and 13,490,000 bu less than two years ago.

SUPPLIES AT HOME AND ABROAD.

The aggregate supplies of Breadstuffs afloat for Europe, in store in Europe and Argentina, and in store in the United States and Canada on June 1, 1904—including a larger number of points than in any other compilation were equal to 187,070,000 bu, against 154,587,000 bu on May 1, and 120,373,000 bu on June 1, 1903. The decrease during May was equal to 11,331,000 bu, compared with a decrease of 14,763,0 0 bu in May, 1903. The aggregate supplies reported in second hands in Europe and Argentina on June 1, 1904, were 22,333,000 bu more than reported one year previous, and 9,533,000 bu more than reported two years ago.

FLOUR TRADE DURING MAY.

Only a moderate trade was reported in Flour in the United States and Canada during May. The production was only fair, and the demand was barely sufficient to reduce the aggregate stocks slightly Orders were generally for limited quantities—dealers, as a rule, confining their purchases to current requirements. Exports were fair and mainly of lots held by millers at the seaboard markets. Buyers were backward and generally inclined on lower prices, while millers were averse to grant concessions in view of the firmness in Wheat. The unsettled feeling in labor circles tended to check speculation in trade. In New England, trade was rather slow, and mainly to supply home wants. Export trade light. In New York, trade was fair, and a few export orders were provided for. In Pennsylvania, Maryland, Virginia and West Virginia, trade was on a moderate scale, and almost exclusively for the domestic trade. In Kentucky and Tennessee, trade was a little larger in the aggregate, but chiefly for small quantities. In Ohio, there was a fair inquiry for the domestic trade. Export trade was light. In Michigan, Indiana and Illinois, millers sold moderate quantities, chiefly for home requirements. In Missouri, trade was fair, and stocks considerably reduced. Sales chiefly to the home trade. Trade in Kansas was only fair, with limited quantities for the home trade. In Oklahoma and Indian Territory trade was light, and in Texas was only moderate. In Iowa, trade was comparatively slow, while in Nebraska no business in trade. In Wisconsin, trade was only fair. In the Northwest, the production was moderate, and sales were somewhat below the average. Exporters were slow to purchase, and domestic trade was moderate. In the Rocky Mountains district trade was light. On the Pacific Coast, trade was fair, with moderate export orders provided for. Trade in Canada was fair, and chiefly for moderate quantities. Stocks reduced considerably.

WHEAT MOVEMENT DURING MAY.

The movement of Wheat from the farms of the United States during May was only moderate—the smallest on the crop—about 20,000,000 bu, compared with 30,000,000 bu in May, 1903. Farmers were busy with their usual spring work, which had been delayed. In the south and west, farmers on the lakes, and of freight handlers at some of the seaboard markets, interfered with the movement to some extent. Supplies at the principal seaboard markets were materially reduced. Receipts in New England, New York, Pennsylvania, Maryland, Virginia, West Virginia, Kentucky and Tennessee, were comparatively light and generally of small qualities. In Ohio, the offerings were moderate. In Michigan, the movement was fair. In Indiana and Illinois, the offerings were rather light. In Missouri and Kansas, farmers were disposed to sell moderate quantities in view of the fairly good prospects for the growing crop In Oklahoma, Indian Territory and Texas the offerings were only moderate. Supplies are exhausted. In Iowa, the movement was only moderate, and in Nebraska was only fair In Wisconsin, the movement was comparatively light. In the Northwest, the movement was moderate as farmers were unusually busy. Very little Wheat offered in the Rocky Mountains districts. On the Pacific Coast, the movement was limited in all quarters. In Canada, offerings of Wheat were light, and supplies were materially reduced.

OUTLOOK FOR WHEAT.

The general condition of the Winter Wheat crop has improved somewhat during the past month. In reply to the question: "Has the Wheat plant improved during the past month?" about 75 per cent of the replies to the DAILY TRADE BULLETIN were "yes," and about 25 per cent "no." However, in making an estimate of the probable yield, the percentage was lower in many cases, indicating that the estimate of yield was probably on the aggregate yield of last year, without reference to acreage. Advices in regard to Spring Wheat are generally favorable—in better condition so far than last year, but crop is a little late. In the aggregate there will probably be slightly larger than last year.

ACREAGE OF CORN.

According to advices received by the DAILY TRADE BULLETIN the acreage of Corn will be largely increased, especially in the Central West, where the Wheat area has been reduced by the crop failure.

OUR JULY REPORT.

We respectfully ask our correspondents in all sections of the country to make a special investigation as to the area and condition of the Wheat crop, and the quantity of Wheat in farmers' hands, in order that we may make a more specific report in July. We shall endeavor to obtain all the information we can from leading authorities in this country and Europe, and endeavor to give our patrons some reliable information in reference to the Wheat crop in general.

REVIEW OF TO-DAY'S MARKETS

FLOUR—Demand continues very moderate and market is quiet and steady.

WINTER WHEAT—Was dull and general feeling was weak, with medium and low grade Hard Winter especially difficult to sell. Scarcely any milling or shipping inquiry and some samples of ordinary Hard Wheat have been carried over for two or three days for lack of demand. No 2 Red in store entirely nominal at $1 04@1 05, and fresh arrivals free on board quotable at $1 05@1 10—a choice car selling at the top figure No 3 Red fresh receipts were quotably $1 02@1 05. No 2 Hard fresh receipts free on board nominally 93@95c. No. 3 Hard fresh receipts sold at 88@89c, and was quotably 80c for poor and 94c for choice No 4 Hard sold at 78c.

SPRING WHEAT—Very quiet and prices shade lower. Demand of a very limited character, due partly to the weakness in the speculative market. Millers and shippers holding off. No 1 Northern in store sold to the extent of 10,000 bu at 98c, and fresh arrivals free on board quotably 99c@$1 00. No 2 Northern nominally 93@97c. No. 3 Spring sold at 86½@91c and quotable at 86@95c for ordinary to choice. No. 4 sold at 74@80½c, and ranged at 65@88c for poor to choice

REGULAR WHEAT—The market started firm, but weakened later on, the close showing July off ⅝c and the September ⅜c lower. Trade was only of moderate volume and largely local The early strength was attributable chiefly to the rains in the Southwest and Manitoba, but the demand was soon satisfied and market had indifferent support as the session advanced. Liquidation became general, tired "longs" selling out Favorable crop advices from the Northwest, large Argentine shipments, slack cash demand and prospect of better weather were among the depressing influences. St. Louis received a sample of Wheat from Franklin County which would run 30 to 35 bu per acre. Commerce, Mo wired prospects good and that the harvest would commence next week Kentucky State report made condition 67 per cent against 60 May 1 and 84 June 1, 1903. Acreage 70 per cent Duluth reported crop reports favorable and farmers more disposed to sell their old Wheat. Argentine shipped 1,936 000 bu and total since Jan 1 aggregate 62 520,000 bu, compared with 42,442,000 bu same time in 1903 The visible supply there is reported 3 896 000 bu against 4,344,000 bu last week and 4,340,000 bu same date one year ago Markets there reported weak owing to poor export demand Liverpool quoted spot steady to 1d lower and futures ⅜@½d lower Receipts there the past three days 504 000 bu of which 112,000 bu came from America London came unchanged to ⅛d higher Paris and Antwerp unchanged Berlin declined ⅜c and Buda Pesth was ¾c lower Antwerp cabled that the surplus in India on this crop would equal 120,000,000 bu, and had a "bearish" influence Duluth stocks are expected to show 1 101,000 bu decrease and Minneapolis decrease 550 000 bu Exports were small and total for the week 1,482 000 bu, against 4,191,000 bu for the corresponding week in 1903 Receipts in the Northwest about half those of a year ago and primary receipts 46 000 bu smaller. *Modern Miller* was "bearish" Kansas City *Star* estimated the crop in Kansas at 80 000,000 bu Michigan crop report made condition 47 or 7 points lower than on May 1 Condition June 1 1903, was 87 Cash Wheat at Toledo was reported 3@5c lower Receipts at Duluth 22 cars and at Minneapolis 120 cars, a total of 142 cars, against 120 cars yesterday, 199 cars a week ago, and 281 cars last year Local receipts included 14 cars Winter 1 car Spring, 2 cars mixed, a total of 17 cars, against 20 cars last year. Included in the above were 1 car contract grade. There was also 3 cars and no bu from unlicensed elevators The estimated receipts for to-morrow are 27 cars. Withdrawals to-day were 26,000 bu Receipts at Western points were 255,542 bu, against 302 831 bu last year. At Eastern points 26,565 bu, against 53,186 bu last year Shipments from Western points were 392,153 bu against 225,337 bu last year, and from Eastern points 800 bu against 91 082 bu last year Shipments of Flour were 16,078 brls Exports of Wheat in Flour were equal to 68,161 bu.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, June 9.]

The movement of Hogs to market has continued in a steady manner. Total Western packing 490,000, compared with 485,000 the preceding week and 500,000 two weeks ago. For corresponding time last year the number was 435,000 and two years ago 495,000. From March 1 the total is 5,835,000, against 5,445,000 a year ago—an increase of 390,000. The quality runs from fair to good, the latter a prevailing condition. Prices are higher with prominent markets at the close indicating a general average of about $4.75 per 100 lbs, compared with $4.60 a week ago, $4.80 two weeks ago, $5.75 a year ago, $7.10 two years ago, and $5.95 three years ago.

There was more activity in the speculative Provision trade the past week, and the tone of the market was firmer. Pork and Short Rib Sides made a fairly good advance in prices, but Lard did not show as much strength as the other leading articles. There was a more active demand for Products in the domestic markets, and exporters bought a little more freely. In some quarters the large acreage of Cotton and the Cotton crop prospects are regarded as features in support of expectation for good Southern demand. The export clearances of Product were fair and show an increase over the preceding week, but there is a falling off as compared with the corresponding week last year. The week's exports a year ago, however, were rather large.

The stocks of Cut Meats at centers making monthly returns show the comparisons as to totals, in pounds, according to Cincinnati *Price Current* compilations, as follows:

	June 1, 1904.	May 1, 1904.	June 1, 1903.
Chicago	141,191,000	144,013,000	111,628,000
Kansas City	50,674,000	45,315,000	35,000,000
Omaha	55,509,000	51,518,000	45,951,000
Milwaukee	16,130,000	16,408,000	10,848,000
St. Joseph	33,166,000	30,495,000	36,622,000
Total, lbs	296,630,000	287,779,000	240,049,000

This indicates an increase of 9,000,000 lbs in the total, compared with a month ago while the stocks were increased 5,000,000 lbs last year for the corresponding period. The total at these points is now 56,000,000 lbs more than a year ago and 52,000,000 lbs more than two years ago. The total stocks of Lard at the five centers named in the foregoing table on June 1 were 142,000 tcs, compared with 125,000 tcs a month ago and 50,000 a year ago.

The total stocks of Cut Meats, of Short Rib Sides, of Sweet Pickled Hams in pounds, and of Lard in tierces, at Chicago, Kansas City, Omaha, Milwaukee and St. Joseph, compare as follows, for dates indicated:

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, June 9.]

The Wheat crop has made about normal progress toward maturity during the past week, with a tendency toward improved situation in some places and moderate reverses in other localities. The most favorable feature of the week's development is the favorable way in which the plant is heading out and filling in the portion of the crop that has reached this stage of development, which extends to the southern borders of the northern Winter Wheat States. In the Ohio River Valley the majority of reports reflect a tendency toward improvement as the season advances, but the reduction in area and thin stands preclude any hope of much over half a crop in this territory. In Eastern Kansas and Western Missouri there has been some loss by heavy rains and floods last week, to what extent it is difficult to determine as yet, but such damage is usually severe locally, but not especially influential in the aggregate.

The Spring Wheat crop is making favorable progress, with ample moisture and nearly normal temperature; indeed, conditions are such that little more could be wished.

The past week was too wet for the Corn crop, late planting being delayed, cultivation of early planted being hindered and some fields becoming weedy. East of the Mississippi River and in the Southern States the rains were of rather warm nature inducive to growth, but in the West the temperature was too cool. In Western Missouri and Iowa and Eastern Kansas the heavy rains did some damage by washing and some fields have to be planted for the third time, and making the crop late. Complaints of worms are no more than usual. The general tenor of reports is optimistic, the impression being that with a few more days of favorable dry weather, the crop will show up favorably. In the Southern States there has been a positive improvement by recent favorable weather.

The Oats crop is making favorable progress, and gives promise of a good average yield; in the Ohio Valley present indications are that the yield will be above the average, and the area is large. In Illinois and Iowa, the most important Oats States, the crop promises a full average, but the acreage is not quite as large as in late years.

A noticeable feature of crop reports during the past few weeks is the favorable condition of vegetation in general, of crops other than Grain. The minor crops in nearly all sections of the country are giving fair to very good promise: this includes Berries, garden vegetables, Potatoes and meadows. The Hay crop promises to be a large one: there is no section indicating a serious shortage.

THE WEATHER CONDITIONS.

Raining again in the Southwest—Oklahoma City has 1.74 inches; Wichita, .38, Dodge, .24, Concordia, .28. Heavy rain in Manitoba; 1.52 inches at Minnedosa, .42 at Winnipeg. Also raining in Dakotas. Cloudy in entire Northwest.

Indications are for fair weather in eastern part of this forecast district, and showers in western portion. Temperatures will rise in central districts during Saturday.

COMPARATIVE STOCKS OF LARD.

The Cincinnati *Price Current* submits the following comparisons of stocks of Lard on June 1 for the years mentioned, held in Chicago and New York, and reported in European markets and afloat, with totals, represented in tierces.

	Chicago.	N. York.	Europe, etc.	Total.
1884	124,500	35,600	84,500	244,600

1904	114,800	8,000	122,500	245,300

The above shows visible stocks of Lard this season to be 104,000 tcs more than a year ago and 31,000 less than the average for June 1 for ten years previous to this season. Compared with a month ago there is an increase of 23,000 tcs.

The aggregate stocks of Lard, as mentioned, the first of each month for years stated compare as follows, represented in tierces:

	1904.	1903.	1902.	1901.	1900.
January	134,000	105,000	163,000	159,000	264,000

ITEMS OF GENERAL INTEREST.

The business section of Johnstown, Ohio, was destroyed by fire, Tuesday. The loss is estimated at from $75,000 to $100,000.

Directors of the Chicago National Bank, Tuesday, declared the regular quarterly dividend of 3 per cent, payable June 30.

The fire loss of the United States and Canada for the Month of May aggregated $15,221,000, against $16,367,000 for the same month in 1903.

William Gerlach & Co.'s Malt house, Milwaukee, Wis., was damaged by fire, Tuesday, to an extent estimated at $75,000; covered by insurance.

The $5,727,000 City of Boston 36½-year average 3½ per cent bonds were awarded, Wednesday, to a syndicate at 100.93 and interest, a 3.455 basis.

A Chicago commission man who has been up in Manitoba for several weeks says: "Conditions up there are fine for Wheat and I expect a good crop."

The death of LEVI Z. LEITER, ESQ., a retired Dry Goods merchant and owner of large real estate interests in Chicago, was announced to-day.

The New York Central and Hudson River Railroad will on July 1 pay a dividend of 5 per cent on the stock of the New York and Harlem Railroad Company to holders of record June 15.

A dividend of 1½ per cent will be paid on the stock of the Union Traction Company of Philadelphia on July 1. Books close June 9 and reopen July 1.

The Seattle Electric Company has declared the semi-annual dividend of 3 per cent on its preferred stock, payable Oct. 1 to stockholders of record Sept. 17.

The No. 4 breaker of the Lehigh and Wilkesbarre Coal Company, at Audenreid, Pa., was burned, Wednesday. The loss will amount to $100,000.

The United Traction and Electric Company of New Jersey has declared a dividend of 1¼ per cent, payable July 1. Books close June 14 and reopen July 2.

Directors of the Fort Dearborn National Bank, Chicago, have declared the regular quarterly dividend of 1½ per cent, payable July 1 to stockholders of record June 30.

The American Beet Sugar Company has declared the regular quarterly dividend of 1½ per cent on its preferred stock, payable July 1 to stockholders of record June 20.

Directors of the Chicago Title and Trust Company, Wednesday, declared the regular quarterly dividend of 1½ per cent, payable July 1. Books close June 20 and reopen July 2.

The National Sugar Refining Company has declared its regular quarterly dividend of 1¼ per cent on its first preferred stock, payable July 2. Books close June 15 and reopen July 5.

The regular semi-annual interest of 2 per cent will be paid on the debenture stock of the Chicago Great Western on July 15, to holders of record June 30. Books close June 20 and reopen July 2.

The directors of the Merchants' Loan and Trust Company, Chicago, have declared the regular quarterly dividend of 3 per cent on the capital stock, payable July 1 to stockholders of record June 25.

Reports from Wabash, Ind., say there will be half a crop of Winter Wheat in that county. Exceptionally favorable weather the past six weeks has made a marvelous improvement in crop conditions.

The Westinghouse Air Brake Company has declared the regular quarterly dividend of 2½ per cent, and an extra dividend of 2½ per cent, both payable July 11. Books close July 5 and reopen July 11. These are the same rates as were paid for the previous quarter.

The condition of the French Wheat crop is so favorable and so forward, having passed the "earing" stage in the Centre that, according to the Paris *Petit Journal*, the harvest may commence in the Beauce districts, if all go well, by July 10, so that new Wheat would, in that case, make its appearance much earlier than last year.

Broomhall's Liverpool cable said: "Wheat market opened unchanged to ⅛d lower. Later, eased off ⅛d further for both futures. Factors were the decline in America yesterday and continued dullness here. Corn—'Bearish' Argentine crop estimate and pressure of Argentine parcels for sale caused a decline of ⅛d, following an unchanged opening."

Dornbusch of May 30 says: "The weather in France during the week was changeable, but on the whole favorable for the growing crops, much needed rain having fallen in most districts, although the midlands still complain of insufficiency. Prospects continue satisfactory and complaints are rare. Clover cutting has begun, a large yield is expected. Vines and Fruit trees look better than they have done for many a year."

In the Iowa crop bulletin Director J. R. Sage says: "Probably about two-fifths of the area of the State received excessive downpours during the week, and field work has been much retarded by wet weather and prevalent cloudiness. The Corn crop has made fair growth wherever conditions have been favorable for cultivation, and the stand, though quite variable, is not materially short of the average of the past ten years at the corresponding date. Replanting and belated planting are still in progress in some localities. The conditions have been generally favorable for the growth of grass, small Grain, Potatoes and garden truck."

The annual meeting of the stockholders of the Pennsylvania Company was held in Pittsburg, Tuesday. The annual report for the year 1903 was submitted, covering 1,339 miles of railroad operated directly by the Pennsylvania Company, and shows the following results: Gross earnings, $36,602,934; expenses, $27,116,683; net earnings from operation, $9,486,250; deduct rentals paid roads operated on basis of net earnings, $1,593,109, leaving as net operating earnings of Pennsylvania Company $7,893,140.93, to which add dividends and interest received from investments, $9,960,576, making a gross income of $13,853,171. Compared with 1903, gross earnings increased $3,576,186, and net earnings, $179,293.

It is stated that the bonds under the reorganization plan of the United States Realty and Construction Company will probably be a collateral trust issue, secured by the present preferred stock, which will be deposited under the agreement. In that event, the 5 per cent interest on the proposed new bonds will apparently be paid from dividends to be declared on the preferred stock. As the situation stands now the reorganization plan does not provide for the sale of the assets of the company to the reorganized company, but simply the issue of new securities in exchange for the present outstanding preferred and common stock. It is probable that the reorganization committee under certain contingencies may slightly alter the method of effecting the reorganization of the company's finances and decide to sell the assets to the new company.

The price at which the Illinois Trust and Savings Bank has agreed to take the entire issue of 4½ per cent bonds of the South Side Elevated Railroad, Chicago, in case the issue is authorized by the stockholders, is 97½ and interest. The bank has agreed to let the Corn Exchange National Bank have $1,000,000 of the issue and A. L. Baker & Co. a like amount. The remaining $6,000,000 will be divided equally between the National City Bank of New York and the Illinois Trust and Savings Bank. It has been stipulated by the management that the stockholders of the road shall have the privilege to subscribe at par for such part of the first issue of bonds, amounting to $3,000,000, as they may see fit to take. The bonds will be bought by the stockholders from the bank. The price at which the new bonds will be offered to the general public will probably be between 101 and 102.

A Chicago commission man says: "There is a falling off in the West of about 20 per cent in all kinds of business. Labor is not as well employed by at least 20 per cent as it has been in the last few years. Of course, the railroads in this country have been very prosperous for the last four years, as they always are when general business is good. Just now, however, a great many people are idle. This condition of affairs will make railroad earnings continue to show a falling off for the next three or four months. As a whole, the crop situation is more favorable than last year. While there is a short crop of Wheat east of the Mississippi River, the crops west are very good. The Cotton crop will show an increase of 8 to 10 per cent in acreage and from 5 to 10 per cent in condition over last year. I think that general business ought to be good next fall after the presidential election. The railroads throughout the West are retrenching, and every employe that can be spared is being laid off. Railroad companies also are buying much less material than usual."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market quiet and steady as quoted on the second page.

WINTER WHEAT—Was dull and lower prices accepted to make sales. A little Wheat was taken by speculators, but at their own prices. No competition whatever for the offerings. Some lots of Hard Winter have been carried over three or four days awaiting reasonable bids. No. 2 Red in store entirely nominal at $1 03@1 04, and fresh arrivals free on board nominal at $1 04@1 05. No. 3 Red nominally $1 00@1 05. No. 2 Hard Winter sold at 90@93½c, and a very choice car at 97c. No. 3 Hard sold at 80@85c for ordinary to good and at 90c for choice. No Grade sold at 71c.

SPRING WHEAT—Very quiet and prices 1@2c lower. Demand of a very limited character, due partly to the weakness in the speculative market. Millers and shippers holding off. No. 1 Northern in store quotably 93@97c, and fresh arrivals free on board quotable [illegible]@$1 01. No. 2 Northern nominally 90@96c. No. 2 Spring quotable at 86@96c for ordinary to choice. No. 4 sold at 80c, and ranged at 65@85c for poor to choice.

REGULAR WHEAT—The trade was fair in the aggregate and the undertone easier, the close showing old July off ⅛c and old September ⅜@¼c higher. The Government report was the main feature, indicating 624,000,000 bu, and the trade was divided as to the interpretation of the same. There was however scattered liquidation on the improved weather and favorable advices from the Northwest. A feature was the narrowing of the spread between old and new July, "shorts" covering the latter delivery. Support was very indifferent early, but at the decline demand improved. Map showed more rain in Kansas, but light, heavy rain at Fort Worth, Texas and a trace in Oklahoma. Generally fair weather however was predicted. Liverpool quoted spot unchanged and futures steady to ⅛d lower. London came steady to ⅛d lower. Paris was unchanged to ⅛c lower. Berlin and Antwerp unchanged and Buda Pesth ⅜c lower. Local weekly receipts were 220 000 bu, and shipments 700 000 bu. Primary receipts this week were 1 754 000 bu, against 1,737,000 bu last week and 1 915 000 bu one year ago. Receipts in Northwest 1,114 cars last week, 1,230 cars, year ago 1 734. English visible decreased 400 000 bu against an increase of 1,218 000 bu same week in 1903. Australia shipped 976,000 bu this week. English farmers deliveries were 220,000 bu, and the price was 8½@9c or 1c lower than last week. *Broomhall* estimated the world's shipments at 10,400,000 bu and predicted only moderate change in the quantity on ocean passage. Arrivals in the United Kingdom this week 4,000 000 bu, against 4,800,000 bu same week in 1903. Official French Wheat acreage reported 16 257 000 acreage, against 16 143,000 bu in 1903. Winter Wheat excellent in 1 department, good in 42 fair to middling in 44, and Spring Wheat good in 26 and fair to middling in 20 departments. *Broomhall* reported the Continent buying off coast cargoes. Minneapolis stocks decreased 581 712 bu this week. McKinney Texas received its first car of new Wheat to [illegible] and graded No. 2 Red. Exports moderate and about 4 1 [illegible] Flour and 4 boat loads accepted at the seaboard. A Winnipeg message stated the weather throughout the Canadian Northwest had been abnormally wet since Tuesday last, and if continued would be detrimental to the crops. Shorts bought at close. Receipts at Duluth 49 cars and at Minneapolis 141 cars, a total of 190 cars, against 142 cars yesterday, 137 cars a week ago, and 285 cars last year. Local receipts included 14 cars Winter, 2 cars Spring, 4 cars mixed, a total of 20 cars, against 15 cars last year. Included in the above were no cars contract grade. There was also 5 cars and no bu from unlicensed elevators. The estimated receipts for Monday are 31 cars. Withdrawals to-day were no bu. Receipts at Western points were 283 795 bu, against 305,789 bu last year. At Eastern points 18,001 bu, against 305,789 bu last year. Shipments from Western points were 216,300 bu, against 100,-735 bu last year, and from Eastern points 120,857 bu against 160 197 bu last year. Shipments of Flour were 18,807 brls. Exports of Wheat in Flour were equal to 205,488 bu.

Future Deliveries of Regular Wheat—Moderate trade and feeling easier.

JUNE—Entirely nominal. Offered at one time at 94c and later at 93¼c—no trading.

JULY—Old Style—Sold at 86¼@87c. Opened with sales at 87c to 86⅞c: sold to 86¼c, to 86½c, to 83⅜c, to 86⅝c, to 86¼@86⅜c, to 86⅜c, to 86¼c, to 86⅜c, to 86½c, to 86⅝c, and closed at 86⅝c sellers.

JULY—New Style—Sold at 85⅛c and at 85⅞@86c. Opened with sales at 85⅞@86c to 85¾c; sold to 85¼c, to 85¾c, to 85¼@85⅜c, to 85¾c, to 85⅜c, to 85¾c and closed at 85¾c sellers.

SEPTEMBER—Old Style—Sold at 81⅝@82⅝c. Opened with sales at 82⅛c to 82⅛@82¼c, sold to 81⅝c, to 82⅛c, to 81⅞c, to 82¼c, to 82⅛c to 82¼c, to 82¼@82⅜c, and closed at 82¼@82⅜c.

SEPTEMBER—New Style—Sold at 80@80¾c—only sparingly at 80c. Opened with sales at 80½c to 80⅜c, sold to 80½c, to 80c, to 80½c, to 80¼@80⅜c, to 80¼c, to 80½c, to 80¾c, to 80⅝c, and closed at 80⅝c bid.

DECEMBER—Sold at 79⅝@80¼c. Opened with sales at 80¼c to 80⅛c: sold to 79⅝c, to 80⅛c, to 80c, to 80¼c, and closed at 80¼c.

CORN—Moderate trade and unsettled tone; the close being ⅛c lower for July, while September gained ⅛@¼c and December ⅛c. The better weather and liberal receipts appeared to be the "bear" influences. Selling July and buying September was a feature and the spread narrowed to ¼@⅜c. Market, too was inclined to fluctuate with Wheat. Receipts 565 cars, against 338 cars last year, and 522 cars are estimated for Monday. Local weekly receipts were 3 662,000 bu, and shipments 1 777,000 bu, indicating a large increase in stocks here this week. Generally fair weather was predicted. Liverpool quoted spot unchanged and futures steady to ¼d lower. Primary receipts this week were 5,054,000 bu, against 4,331 000 bu last week and 2,919,000 bu one year ago. Omaha advices on supplies in Nebraska and prospective movement "bullish." Southwestern markets steady. Withdrawals here from regular elevators 178 200 bu. There were 68 cars contract switched from private to public elevators. Exports were only 2 500 bu and no boat loads accepted at the seaboard. Shipping demand better and sales 200,000 bu. Car lots were in moderate request with rather liberal offerings. Prices were ¼c lower. No. 2 sold at 48¾c and closed at 48¾c. No. 2 Yellow at 50c. No. 2 White sold at 48½@48¾c. No. 3 at 48½@49c, and closed at 48½c. No. 3 Yellow sold at 48½@49¼c, and closed at 49½c. No. 3 White sold at 48½c. No. 4 sold at 42@47½c, and No Grade at 38c.

Corn by sample—Was steady to ⅛c lower. Offerings somewhat larger and the demand was fair. Sales on track and free on board. No Grade sold at 31@41c. No. 4 at 35½@48c. No. 3 at 48½@49¼c. No. 3 Yellow at 49¾c. No. 2 at 48c. No. 2 Yellow at 50@50¼c. No. 3 White at 48½@49c. No. 2 White at 48¾c. Billed through: No Grade at 38@40c. No. 4 at 38@47c. No. 3 at 47@48¾c. No. 3 Yellow at 48½@49c. No. 2 at 47½c. No. 3 White at 47@47½c. No. 2 White at 47¼c.

Future Deliveries of No. 2 Corn—Moderately active with July weak and September firm, the close being ⅛c lower to ⅛@¼c higher.

JUNE—Inactive; nominal close, 47⅞c.

JULY—Sold at 48¼@48¾c. Opened at 48¾c to 48⅝c, and sold to 48⅜c to 48⅝c, to 48⅜c, to 48½c, to 48¾c. to 48⅜c, and closed at 48⅞c bid.

SEPTEMBER—Quoted ¾c to ⅛@⅜c under July. Sold at 47½c and 48⅛c—not much at 47½c. Opened at 47¾c to 47⅝c and sold at 47⅝@47¾c, to 47½c sparingly, to 47⅞c, to 47¾c to 47⅞c to 47⅞@47¾c, to 48⅛c, to 48@48⅛c and closed at 48@48⅛c asked.

DECEMBER—Sold at 43⅛@43¼c and 43½c. Opened at 43¼c and sold at 43⅛@43¼c to 43½c to 43⅜c, and closed at 43⅜c bid.

MAY—Sold at 42½@42⅝c and 42⅞c. Opened at 42½@42⅝c sold to 42⅞c, and closed at 42⅞c.

OATS—Were traded in liberally. The feature was the weakness in July, due to selling by "longs," and closed ⅛c lower for the day. At the same time, September and December, which were oversold, advanced and closed at the best prices, gaining ⅜c. The Government crop report, although surprising the trade by showing a smaller acreage than expected had little effect. It gave the acreage 27,616,000 acres, or 86,300 acres less than sown last year, but it exceeds the area harvested by 870,0 acres. The condition June 1 was 89.2, against 85.5 last year, and 9 .8 in 1902. It suggests a crop of 813,000,000 bu, against 784.00,000 bu harvested last year. Cash business was 35,000 bu. Arrivals 122 cars and 152 cars are expected Monday. Withdrawals were 8 000 bu and seaboard clearances 20 600 bu. Car lots to go to store were steady to ¼c higher. No 2 sold at 40c. Standard in store closed about 41½@41⅝c.

Oats by sample were in better supply, and although selling fairly at prices steady to ¼c higher, but failed to clean up. Sales on track and free on board: No. 4 at 38@40c. No. 4 White at [illegible]c. No. 3 at 39@[illegible]c. No. 3 White at 41@43½c. Standard at 43½@43¾c. Billed through: No. 4 White at 41@43½c. No. 3 White at 41¾@43c. Standard at 43¼c. No. 2 at 40c. No. 2 White at 43½c. At the river: No. 4 White at 38½@39½c. No. White at [illegible]. Standard at 42c.

Future Deliveries of Contract Oats—Were fairly traded and feeling irregular.

JUNE—Steady; closed at 41½c.

JULY—[illegible] and free. Sold at 39¼@39⅝c and at 39⅝c. Opened at [illegible], sold to 39¼@39⅜c to 39½c at close.

SEPTEMBER—Active and strong. Sold at 31@31½c and at 31½c. Opened at 31⅛@31¼c to 31½c, closed at 31½c.

DECEMBER—Sold at 31½@31⅞c. Opened at 31⅝@[illegible] and closed at 31⅞c.

RYE—Remains dull and neglected. Feeling weak and prices 1@2c lower. A few cars of fresh receipts were sold, but otherwise inactive and nothing doing. The receipts were nine cars. There were no withdrawals from store here and no export clearances from the seaboard. No. 2 in store was entirely nominal. Fresh receipts sold at 73c. No. 3 to go to store sold at 62c, and fresh arrivals free on board at 70c.

Future Deliveries of No. 2 Rye—Quiet. July 67c bid and Sept [illegible] 62c asked.

BARLEY—There was only a buyer or two on the market for malting Barley. Offerings also small and what came on sale could be disposed of, at the same time the market was easy rather than strong. Low grade Barley for mixing was slow and Screenings while salable at choice were dull for common. Posted to-day 17 cars received. Of Screenings sales of low grade only to common were reported and they were at 27½@31c, choice to fancy it was said to be still salable around 40@42c. Barley, low grade feed or mixing quotable at 38@42c outside for good weight. Malting, low grade, 40@44c, fair to good sound, 45@48c; good color 50@55c and fancy 58@59c. A lot of choice to arrive was sold at 59c.

SEEDS—There were lower nominal quotations for Hungarian and Millet Seeds but in other respects the market presented no changes.

Timothy—There were a few small bag lots sold; they did not amount to much. The speculative market was inactive. Yesterday's advance in quotation for September delivery was bid so the market was nominally steady. Limited cash sales made at $2 37@2 65 and market for country lots quotable at $2 00@2 85 for low grade to fancy choice about $2 70@2 75, fair to good Seed $2 50@2 60 and rough at $2 30@2 45. Contract, spot June or July, nominally $2 35. September delivery was $3 10 bid.

Flax—A car of Northwestern Flax came on the market, the first in some time, and sold to be $1 01 if No. 1, or 92c if Rejected. That did not indicate anything new. The rest of the market was inactive and nominal. Only one car received and none taken out. Minneapolis got 4 cars and Duluth 9 cars. No. 1 Northwestern cash quotable at $1 07, No. 1 at $1 00, and Rejected quotable at 92c@$1 01—outside for choice Northwestern. June and July deliveries both were nominal at $1 00, salable at that possibly. September held at $1 03.

Clover—Market bare of offerings, trading absent and no change quotable. Contract spot Seed nominally $10 75. Country lots common to choice, $7 00@10 00; fancy above, mixed with Buckhorn or other weed Seeds, $6 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Such lots as usually come to market when ordinary to good quotable at $8 50@9 50.

Other Seeds—Lower prices were named for Hungarian and Millet Seeds. Weakness attributed to slow order demand, and this was said to be indicative of a good stand of other crops. No regular market business done. Quotable: Hungarian, common and light color to choice, dark, at $1 25@1 50. Common Millet, $1 25@1 60 for poor to fancy. German Millet, $1 20@1 60. Siberian, 75@90c. Broom Corn Millet, $1 00@1 10. Early Fortune Millet, 85@95c. Mustard, 85c@$1 06. Buckwheat quotable at $1 65@1 75 for good.

HOG PRODUCTS—Speculative trading quite active and the market was stronger. Offerings were not very free, and there was good miscellaneous buying. Outside orders were moderately free, and local trading was fair. Hogs were in fair supply and steady. Good supply anticipated next week. Receipts at the leading Western packing points estimated at 42,500, compared with 38,-500 one year ago. Foreign markets were quiet and unchanged for Meats, but Lard was steadier and 3d higher. Domestic markets steady. Receipts of Products were good of Lard and Meats about 25 cars. Shipments were light—of Lard and Meats about 68 cars. Prices of all the speculative articles were advanced moderately but extreme figures were not fully supported to the close. Trading chiefly in July and September contracts. Shipping demand was only fair and offerings moderate. Sales rather light, and prices unchanged.

Mess Pork—Trade was rather active and the market was stronger. Offerings were moderately free and the demand was quite active. "Shorts" bought moderately. Prices were advanced 10@15c on the whole range but receded 2½@5c, and the market closed rather steady. Shipping demand was light and offerings were limited. Cash lots were quotable at $12 00@12 55.

JULY—In good request and offerings were fair. Sales were made at $12 42½@12 57½. Opened at $12 45 to $12 47½, sold to $12 45, to $12 47½, to $12 42½, to $12 57½, to $12 52½, to $12 55@12 57½ to $12 52½, to $12 55 to $12 52½, to $12 55 and closed steady.

Lard—A fairly good trade was reported in the Lard market, and the feeling was stronger. Offerings were fair, and the demand was quite active. Foreign advices more favorable to holders. "Shorts" accepted fair quantities. Prices were advanced 7½@10c on the whole range, but settled back 2½@5c, and the market closed rather steady. Inquiry on shipping account limited and offerings only moderate. Cash lots were quotably $6 70@6 72½. Loose lots in small request with moderate offerings. Prices steady at about 55c discount on July figures. Leaf Lard in moderate request and offerings were fair. Prices quotably steady at $6 00. Neutral in only limited demand with fair offerings. Prices quotably steady at $6 87½@7 00 for No. 1 and $6 62½@6 75 for No. 2.

JULY—In rather good request and offerings were fair. Sales were made at $6 72½@6 82½. Opened at $6 75, sold to $6 72½ to $6 82½ to $6 75, to $6 77½ and closed steady.

SEPTEMBER—Offerings were fairly large and the demand was good. Sales were made at $6 90@6 97½. Opened at $6 90 to $6 92½, sold to $6 90 to $6 97½, to $6 95, to $6 97½, to $6 92½, to $6 95, and closed steady.

OCTOBER—Quiet, with small sales at $7 00.

Short Rib Sides—Trade was rather active in the market for Short Rib Sides, especially in September contracts. Offerings were moderately free, and a brisk demand prevailed, partially credited to Eastern speculators. Feeling was firm, and prices were advanced 7½@10c, and the market closed steady. Shipping demand was light, and offerings were moderate. Cash lots quotable at $7 00@7 12½, according to weight.

JULY—Offerings were not very large and the demand was fair. Sales were made at $7 12½@7 20. Opened at $7 12½ to $7 15, sold to $7 20, to $7 17½, to $7 20 and closed steady.

SEPTEMBER—In rather active request and offerings were fair. Sales were made at $7 30@7 37½. Opened at $7 32½, sold to $7 30 to $7 37½, to $7 35, to $7 37½, to $7 35, to $7 37½, to $7 35, to $7 37½, and closed steady.

Other Meats—Trade was only moderate and feeling rather steady. Offerings were not very large and the inquiry was only moderate. Exporters bought sparingly and the home demand was only fair. Green Meats in moderate supply with only fair inquiry, and prices steady. Pickled Meats in fair demand and prices well maintained. Dry Salted Meats were in fair demand, with moderate offerings, and prices ruled higher. Smoked Meats called for in limited quantities and prices ruled steady. Closing prices ranged as follows:

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, June 10, 1904.

Easiness prevailed in the money markets everywhere. Rates in Chicago are 4 to 5 per cent, but most loans are made at five. The quietness in general business is inducing manufacturers and jobbers to pay off their loans and there has been a great deal of liquidation of late. Grain men are doing very little making money owing to light stocks. Packers are carrying liberal supplies, but they do not have to borrow extensively. Stock speculation is too light to make much money for any and those who are generally large users of money are not in the market. Rates in New York were 1 to 1¾ per cent on the Stock Exchange and time funds were 3 to 4 per cent. The movement of Gold from New York abroad has subsided, and so far exports slightly exceed $61,000,000.

New York exchange is steady at 25@35c premium per $1.00, and closed at 30c.

Foreign exchange was firm. Offerings of bills were light and mostly against sales of Manitoba Wheat for export. There is no change in the demand by the buyers of this bill. Other Chicago bankers are not catering to that interest extensively. Shippers' sixty-day documentary sterling bills on London ranged at 484¾@485, and closed steady.

Local Securities were more actively traded in. A feature was the good buying of Metropolitan and Southwestern Gold bonds, based on the optimistic belief that the intrinsic value of the property is greater than represented by the market price of the shares and substantial advances were recorded and will be held. Metropolitan preferred having moved up 12-points in two weeks. Cable shares were picked up by local interests and advanced. The report of the earnings of the Union Traction Company were decidedly unfavorable, the North Chicago Railway only earning 81% net for the six months' business ending Feb 29. This is further changing the Gold Bond situation. The showing of the West Chicago Railway was also unfavorable (a deficit for six months of $11,781), but it did not affect the market. Bonds were taken fairly and are quoted higher.

Stocks in New York were in the main neglected by a majority of traders. The significant feature is there is an element given Ontario and Western, which on Monday furnished over forty per cent of the total dealings. The buying was said to be for the Pennsylvania Railroad for control owing to the approaching dissolution of the Gould-Rockefeller pact. The showing of the West Chicago Railway was also unfavorable (a deficit for six months of $11,781), but it did not affect the market. Bonds were taken fairly and are quoted higher.

Stocks in New York were in the main neglected by a majority of traders. The significant feature is there is an element given Ontario and Western, which on Monday furnished over forty per cent of the total dealings. The buying was said to be for the Pennsylvania Railroad for control owing to the approaching dissolution of the Gould-Rockefeller pact. While all the activity there was a narrow range, showing that stocks were supplied by holders who were willing to part with their shares at the price. Another feature was the buying of Colorado Great Western by Chicago interests. This was due to one large holder getting out, as he found that the large interests did not want to take any more stock at present and the public was out. In forced prices off sharply, from which there was but a partial recovery. Wall Street took the crop situation more favorably on the whole, but there were factors which prevented the active buying of the investment character, and the rallies that came to the market at different times was due to covering by "shorts." There were rumors of probable reductions in the dividends of a number of industrial companies and of another issue of 20,000,000 Cuban bonds, following the successful placing of $5,500,000 on the 4th inst. It is to be handled by the same bankers. There was also a rumor that the 'Frisco Road desires to float a loan of $5,000,000. It has been given out by bankers who have handled the largest issues that the roads are to be no more extensive borrowing by the railroads. Money was easy, which was no help to the market. Reports of a speedy collapse of the lake tie-up was regarded unfavorably by Steel shares, and they responded moderately. The movement of the entire list was within moderate ranges and closed with the general run of the previous week. Total sales on the New York Stock Exchange for the week were 1,189,000 shares, compared with 932,000 shares the previous week and 5,400,000 shares for the same week in 1903.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

The mercantile trade is holding its own. Buying is easily in small lots and covers all lines of goods. The reordering of dry goods is at a fair rate and the buying for fall delivery is increasing somewhat. Railway traffic is light, their earnings are reduced, mills are cutting down their operating forces and reducing wages. Manufacturers are not making goods unless they have orders for them and retrenchment is in order everywhere. In the Pennsylvania Coke regions the falling off for Iron and Steel and their products has curtailed the use of Coke and the production is below the full down. There were fair inquiries for pig Iron and an easy market. Rails only appeared as better buyers for Steel rails and Iron bars, the latter for car construction. Structural Iron declined 5 points and there is increasing evidence of the conservative tone that exists. The movement of Coal is heavy, the Reading Road having broken all records in point of tonnage. Yet there is a scarcity of Anthracite Coal due to the lake tie-up, but this is likely to be removed very soon by a resumption of lake traffic. Lumber is dull and prices are weak, especially for the more larger quantities, and the feeling in regard to prices is one of steadiness. Hemlock and yellow pine are the best sellers, as they are cheaper than other woods. Spruce has declined 5 points and trading is increasing. Drugs, chemicals and paints had a fair sale.

Cotton in New York was irregular with a weak tone to it, the feeling due to liquidating sales. Prices have almost reached a point where spinners are beginning to look around for future supplies. The acreage is 84 per cent of last year's and last year and the Government crop report indicates a yield of about 11,000,000 bales. The weekly crop bulletin was more favorable for the growing crop and the rains that came on and the declines were due mainly to covering by "shorts" and were substantial, the close being at net gains of 11@30 points for the week, the latter on July.

COMMERCIAL.

Business in Commercial circles on 'Change the past week was very fair and indications are for a further broadening of all the leading markets. Price changes in the principal cereals as well as Dry Goods were frequent and attracted much considerable interest. Unfavorable conditions were the weather conditions and crop reports, and the Government statement issued late to-day will be awaited with a good deal of interest for the resulting week. The report indicated a yield of 63,000,000 bu Wheat, and 3,100,000 bu Oats. Business in Wall Street continues dull and stagnant, and Exchange seats have declined in sympathy into the Grain and Provision lists. The next few months should witness many opportunities for speculative ventures, and outside operators should look over the list with care. The Bureau of Agriculture Trade is the leading Grain and Provision market of the world, and the one market which forms the basis for prices at other speculative centers.

Crop advices from all sections have varied the past week and certain authorities on the other side estimate the probable yield in Europe at 120,000,000 bu more than was harvested in 1903. Weather conditions in the United Kingdom, however, were cabled as most favorable. A few complaints were reported from France and Germany, and prospects are as favorable as they were a week ago. Russian authority estimates that about 15 per cent of the old crop will be carried over. The crop in India is said to be progressing favorably and the last official report was that the shipments were 2,351,000,000 bu, as against 262,3,000 bu last year. The crop in Roumania will undoubtedly be short, and in Bulgaria the crops are said to be totally lost in certain districts owing to the severe frosts. Recent rains in Russia proved most beneficial to growing crops, and interior stocks are said to be quite liberal. Prospects are excellent in North Africa, where the crop will be a large one.

Weather conditions in the United States and Canada were somewhat improved this week, though temperatures were below normal for June. Winter Wheat was undoubtedly reduced to some extent by the excessive rains of last week in Oklahoma and Missouri, but some improvement has been noted in the course of the week. Cutting is now under way in Southern Kansas and general through the South. The Government report made the condition June 1 77.7 per cent, against 85.9 per cent on May 1 and 81.1 on June 1, 1903. With the exception of some weedy fields in South Dakota, Spring Wheat is in very promising condition in all districts. Corn growth has been checked by the cool weather, but it is now coming to the lack of warmth and sunshine and is in need of cultivation. Planting and replanting is still in progress in the Ohio and Tennessee districts. Oats are said to be growing well and a large improvement of the crop is reported in many important districts. The harvest is on through the South and nearing completion in the extreme Northern sections.

The movement of Wheat from farms and interior elevators was moderate the past week while the movement to mill and seaboard was remarkably freedom. In the Southwest, as well as West and Northwest, the arrivals of Wheat were under the receipts of one year ago. Receipts of Corn were fairly liberal, while those of Oats were somewhat in excess of Oats was fair. Shipments toward the seaboard larger, due to the partial break in the marine strike. Flour was in moderate demand, with prices steady to 10@15c lower. Corn in fair demand and lower, as well as Corn and Oats, continued light and insignificant and the new business booked was mainly confined to local trade. The monthly report of the DAILY TRADE BULLETIN the 9th says supply of Breadstuffs decre sed last month 11,831,000 bu and are now 14,726,000 bu, against 12,373,000 bu June 1, 1903, and 15,000,000 bu May 1, 1902, as compiled by the Secretary of the Chicago Board of Trade there were decreases in Wheat, Oats Rye and Barley and an increase in Corn. *Bradstreet's* reported a heavy reduction in the world's visible supplies, a moderate decrease in Oats, and a fair increase in Corn.

Just a fair speculative business was witnessed in the leading markets on the Chicago Board of Trade the past week. The feeling prevalent was somewhat unsettled, but the principal cereals displayed more independence than for some months. Wheat was inclined to a lower level closing days. Wheat influenced chiefly by weather and crop advices, they were generally of a favorable tenor, and prices were correspondingly lower. Corn also affected to some extent by the smaller receipts and break in the lake strike, but on the hard spots realized a fair advance, and generally prices settled back. Oats displayed quite a firm undertone, though private crop reports were "bearish." The visible is steadily decreasing, however, and was a stabilizing influence. Provisions were quite active and decidedly stronger, particularly the first half of the week. Outside orders were more numerous, and local interest more pronounced. Offerings were not very free. Sentiment was more general. Hogs were higher and "shorts" covered quite freely. Part of the buying was based on the theory that there would be more business in the way of transferring July contracts to September. Packing of the West for the week was 35,000 Hogs ahead of the corresponding week in 1903, and total for the season 3,850,000, compared with 5,445,000 in 1902.

Quite a good business was transacted in cash Grain the past week, receiving interest being favored with fair receipts. Corn was the large seller, ply and lower in price at the start, but the demand was good and values rallied later. A better demand prevailed for cargoes and charters were larger on a basis of 19½d4½c to Buffalo. Oats, too, in better request, with offerings moderate. Wheat was in light supply and fair demand, the ch ice grades being purchased for milling purposes. Round lots less firmly held and sales generally for small quantities. Rye was quiet and steady, and Barley without essential change. Seeds were in fair supply and Timothy in public elevators 3,700 bu, and 27 cars were taken from private warehouses. No. 1 Northern in store ranged at 96¾@97.00 down to 95@98c and fresh arrivals free on board at 96@97 Jc. No. 2 Spring sold in store at 87c and fresh arrivals free on board sold at 86¾@92½c, and No. 3 Spring in store at 85@90c for poor to choice. No. 4 Spring ranged at 85@90c for poor to choice.

REGULAR WHEAT—A very fair speculative business was transacted the past week, though the feeling was unsettled, and the principal factor the market a waiting one the closing days owing to the Government report coming out. Sentiment was very much mixed, but the close shows the old July 8@c basis lower and September 9@c. The Government report, which was issued this afternoon after the close, made the condition of Winter Wheat 77.7 per cent, against 76.5 per cent on May 1 and 81.1 on June 1, 1903. Spring Wheat was reported 93.1 per cent, against 95.9 per cent June 1, 1903. The report indicated a combined yield of 630,000,000 bu, as against 637,821,000 bu the final estimate of 1903, and 748,460,000 bu in 1902, the tone moderately "bearish," the improved weather, declining tendency abroad and rather favorable crop reports standing among the depressing influences. Reports that harvesting was under way in Kansas and Oklahoma likewise tended to exert a weakening influence. The Inspection West and Northwest was 1,467,000 bu, against 1,817,000 bu decrease one year ago. Total now 20,663,000 bu, against 22,741,000 bu in 1903 and 28,091,000 bu in 1902. Local public and afloat stocks decreased 272,000 bu to 1,841,02 bu, compared with 3,913,000 bu the corresponding date one year ago. Stocks here in all positions were reported at 3,103,- 000 bu, against 4,536,000 bu last week. Stock a year ago, 5,716,000 bu. Contract sales reported at 8,635 bu and now includes 720,761 bu, against 2,857,- 732 bu same date in 1903. *Bradstreet's* decreased 2,500,000 bu last week, with an increase same week last year. According to the monthly report of the DAILY TRADE BULLETIN the world's supply of Breadstuffs decreased last month 11,831,- 000 bu, against 12,373,000 bu decrease June 1, 1903, and 15,000,000 bu May 1, 1902. Reports from Manitoba were "bearish," stating the outlook was favorable and prospects were for 80,000 000 bu north of the line. Cash sales were fairly liberal, however, on quite a "bullish," indicating a yield of 117,600,0.0 bu, against 167,600,000 bu one year ago. Considerable "long" property came out the last of the week and July sold off sharply, the latter month at one touched 86¾c and September 81¾c. Around these figures "shorts" covered with considerable freedom.

Market was evidently steadied by strength in Corn and Oats, and while the crop is generally a little late, private advices from the Southwest indicating that the situation there was not as favorable as reported. Reports from the crop outlook in Eastern Europe also came in for considerable attention and exerted a "bullish" influence on the market. *Bradstreet's* weekly foreign crop summary said: "Reports from Europe this week mentions most favorable. France, Germany Occasional complaints being received and prospects rather less brilliant. A French authority estimates that the yield of soft Wheat in that country will not be carried over. Italy—On the whole the crop is progressing favorably. Roumania—Weather continues unfavorable and Wheat crop will be short. Bulgaria—Crops have suffered from continued drouth, crops reported lost in some districts Last year Bulgaria raised 56,000,000 bu, this being the largest crop on record. Turkey's crop is small. Russia—Weather conditions favorable and crops rather firm in their views. In Africa Wheat harvest progressing favorably, with prospects excellent." The Government weekly crop bulletin issued that Winter Wheat had suffered from heavy rains in portions of Oklahoma and Missouri, and elsewhere the crop had advanced favorably, but the outdoor over the eastern part of Winter Wheat belt, especially Pennsylvania, Maryland and Ohio improved in the Ohio Valley and the Middle Atlantic States. Wheat is now heading as far North as the Central Mississippi Valley, harvesting being under way in Kansas and Oklahoma. On the Pacific coast, the crop has advanced favorably and is spreading. In California it is maturing rapidly, but the late sown has been severely damaged by drouth. In the Southern States the crop is progressing condition in all districts, though said to be rather too weedy in South Dakota. The *Orange Judd Farmer* of June 4 report stated that weather conditions during May were favorable for Winter Wheat, but that the actual improvement in condition was smaller than expected. Present condition is reported as poor, but the actual improvement is most marked in Tennessee and Kentucky, but is only nominal in the Ohio Valley. Missouri and Kansas improve only two points, while Michigan, Indiana and Illinois are down one point. Leading States are: Ohio, 98; Indiana, 88; Illinois, 79; Missouri, 84; Kansas 83 and Nebraska 81. Complete returns fail to show the increased breadth indicated by the March intentions reports, amounting as 99.1% acres, against 20,176,000 acres harvested last year. Minnesota and South Dakota show a gain in acreage, but North Dakota and Nebraska offset it while the average prices for the condition of the crop is good, the average being 90.9, against 94.7 last year. The plant is vigorous, and would be higher. Primary receipts this week compared favorably with those of last year, and the total between July 1 and June 6 foots up 214,373,0.0 bu, compared with 187,870,000 bu last year and 330,000 bu in 1901-2. Exports continue meagre, the total for the week being 1,137,000 bu, and since July 1st 93,000,000 bu, against 414,760,000 bu for the same period in 1903-4. Stocks in the public and board were also small and insignificant. The following table shows the supplies of Breadstuffs in Europe and afloat and in store in Europe and Argentina on the dates named:

	June 1, '04.	May 1, '04.	June 1, '03.
	Bu.	Bu.	Bu.
Afloat for Europe	57,480,000	50,240,000	37,120,000
In store in Europe	36,0.0,000	34,470,000	25,650,000
In store in U. S.	20,663,000	22,741,000	28,091,000
In store in America	49,758,000	54,7.0,000	54,.30,000
Total	142,7.6,000	154,837,000	1.0,572,000

The decrease during May equalled 11,831,0.0 bu, compared with a decrease of 2,916,000 bu during April, and a decrease of 11,753,000 bu during May, 1903. Argentine shipments this week were 1,936,- 000 bu, and total since Jan. 1 is 62,5.0,000 bu, against 42,442,000 bu the same period in 1903. Visible there is now 20,663,000 bu, against 4,344,000 bu last week and 4,340,000 bu a year ago.

CORN—Another active week was witnessed in the Corn market and the feeling throughout was somewhat unsettled. At the start sentiment was to the "bear" side and lower prices were established, but as the week advanced the situation became stronger, but the advance failed to be maintained. The close compared with the final figures of last Friday shows the July 2¼c lower and the September and May 1¾c and the December 1½c. Liquidation was much in evidence during days, the favorable weather, large receipts and liberal country purchases all acting as "bear" influences, but the strength in Oats, Wheat and good-sized increase in domestic supplies last week also tended to depress values. Long property came out freely and the decline was not checked until the July had touched 43¾c, the September sold to 47¾c and December 43¾c. Primary markets were reported weak, due to the pressure of Argentine offerings, and the cash situation here was most unsatisfactory and bore down on "bear" factors. World's shipments were more liberal at 4,070,000 bu, of which Argentine furnished about half, against 2,681,000 bu the week previous and 5,860,0.0 bu one year ago. The quantity on ocean passage increased 2,013,000 bu to 10,0.5,000 bu this is 3,7.9,0.0 bu less than was afloat on the corresponding date in 1903. Local public supply increased 820,000 bu last week, while for the period last year the increase was only 45,000 bu. The present total is 4,260,000 bu, as against 4,931,000 bu in 1903 and 4,361,000 bu in 1902. Local and afloat stocks decreased 324,000 bu to 1,1.1,000 bu, compared with 1,380,000 bu one year ago. Stocks here in all positions reported at 4,.75,000 bu, a decrease of 40,000 bu last week, against a gain 3,651,000 bu. Contract stocks decreased 241,- bu, and now include 1,564,909 bu, against 9,.26 bu one year ago. *Bradstreet's* increased 6.0,000 bu last week, with an increase of 1,.46,000 bu same week last year. Cash demand showed considerable improvement and this feature encouraged interests with "bull" views. Prices rallied to 48½c and September to 48¼@48¾c before the demand was satisfied, but a sharp rise in the price of car lots was one of the "bull" helps, the low grades scoring a material advance. Speculative trade was light and there was little actual recession in values. Receipts through the West were largely in excess of last year and local arrivals included 3,147 cars, as against 2,9.1 cars last week and 2,.81 cars one year ago. Shipments were small, the total for the week aggregating but 58,000 bu, and since July 1 foot up 50,222,000 bu, against 63,.34,000 bu in 1903. The Government weekly crop bulletin stated that over the greater portion of Corn belt, growth had been checked by lack of warmth and sunshine, and that the crop was in need of cultivation, while in the central and eastern districts planting and replanting had been delayed by rains. The season, however, compared with last year is fairly satisfactory, as just a year ago this same considerable portion of the area remained to be planted. Private cables state that the area this year will break all former records, but much replanting was necessary owing to the late start of the seed. Favorable weather was reported in Argentina, and the export demand is said to be slack. Shipments from there this week were 2,1.6,000 bu and the total since May 1 is 14,.00,000 bu, against 17,.00,000 bu compared with 10,450 000 bu for the same period in 1901. The visible supply in the chief ports of Argentine is 3,.77,000 bu, as against 3,111,000 bu the week previous and 2,.00,000 bu one year ago. A cable from Buenos Ayres on Thursday cabled: "Our Buenos Ayres agent cables that last Argentine Corn crop is officially estimated at 177,4.8,0.0 bu, which compares with 310,8.0,000 bu reported for the corresponding date this time last year, but which was later revised to 111,.28,000 bu. Exportable surplus for this season is officially estimated at 1.0,000,000 bu. A year ago last plus was officially estimated at 2.0,000 bu, while actual shipments amounted to bu 8.,114,000 bu. Present estimate greatly exceeds private estimates which have placed surplus below 7.,000,000 bu." The market for lots in store and for local prices were most irregular, varying 4¾c in the week, as will be noted in the table on the following page.

OATS—The market for Oats during the past week was stronger part of the time and showed relatively more stability of values than other Grains. This was in the face of liberal selling in July and September by the "crowd." Cash buying was of a good character and was based largely on the smallness of interior supplies and the possibility of a complete exhaustion before the new crop is ready for delivery. The close was firm and closed at 3½@, a net loss of ¼c. September sold at 30@30⅜c, and closed at 31½@, a loss of ⅛c. December sold at 33½@33¾c, and is surprisingly close to 2c over September. Crop reports were favorable. The *Orange Judd Farmer* estimated the acreage at 29,844,000, against 30,561,000 acres last year. The condition is given at 90.2, against 94.1 last year. The crop was estimated at 900,000,000 bu against 873,000,000 bu last year. The Kansas State report of June 1 gave conditions 97. The Government weekly crop bulletin said: "Oats have made vigorous growth throughout the Central Valleys and Middle Atlantic States. A general improvement is reported in the Southern States, but only nominal in the Ohio Valley. Missouri and Kansas improve only two points, while Michigan, Indiana and Illinois are down one point. Leading States are: Ohio, 98; Indiana, 88; Illinois, 79; Missouri, 84; Kansas 83 and Nebraska 81. Complete returns fail to show the increased breadth indicated by the March intentions reports, amounting as 99.1% acres, against 20,176,000 acres harvested last year. Minnesota and South Dakota show a gain in acreage, but North Dakota and Nebraska offset it while the average prices for the condition of the crop is good, the average being 90.9, against 94.7 last year. The plant is vigorous, and would be higher. Exports continue meagre, the total for the week being 1,137,000 bu, and since July 1st 93,000,000 bu, against 414,760,000 bu for the same period in 1903-4. Stocks in the public and board were also small and insignificant. The following table shows the supplies of Breadstuffs in Europe and afloat and in store in Europe and Argentina on the dates named:

The decrease during May equalled 11,831,0.0 bu, compared with a decrease of 2,916,000 bu during April, and a decrease of 11,753,000 bu during May, 1903. Reports from Manitoba were "bearish," stating the outlook was favorable and prospects were for 80,000 000 bu north of the line. Cash sales were fairly liberal, however, on quite a "bullish," indicating a yield of 117,600,0.0 bu, against 167,600,000 bu one year ago. Considerable "long" property came out the last of the week and July sold off sharply, the latter month at one touched 86¾c and September 81¾c. ble supply decreased 114,000 bu and was reported at 8,852,000 bu, against 958,000 bu the previous week and 800,000 bu one year ago. The local stock in store was 163,000 bu and a year ago was 130,000 bu. No 2 in store was entirely nominal; holders asked 76c, but there was no trading; fresh arrivals free on board sold at 76½c and closed with 76c asked. No. 3 red, arrivals free on board sold at 75@75c and was quotably as low as 6½c for poor. No. 1 fresh receipts free on board sold at 75@74c and a very choice car sold at 76c. Future deliveries of No 2 Red opened July 6½c bid as compared with later 67c bid September was held at 63c early in the week and was offered at 62c last.

BARLEY—There was nothing important developed. Warmer weather and lateness of the season caused a light malting demand. It, at the same time, remained adequate to the supply. When there was a little more of this kind of Barley there would appear several buyers. Spot offerings were salable and an occasional to arrive lot was sold. Prices could not be noted to be at all changeable; they were steady. Only a small request was done in mixing Barley and Screenings. Offerings of fresh arrivals were small. Since of late a good many lots had been sold from store these also appeared less of these offered. Most better qualities of this class of goods ruled very steady and met with some demand from mixers but really poor cars were dull. Inspected in during the week 69 cars, compared with 72 last week and 72 cars two weeks ago. There were withdrawals of 15,100 bu, the previous week 8,787 bu were taken out and two weeks ago 7,650 bu. No reports reported. Visible supply decreased 382,000 bu, leaving 1,714,000 bu, compared with 674,000 bu the week before. Local stock showed 8,382 bu decrease; it was given as 81,037 bu, a year ago there was none. Prices during the week had a range as follows: Screenings were quotable at 31@35c for poor to choice, outside reclaimed; but none sold on the basis of the inside figure. Barley ranged feed or mixing, 40@42c, outside for good weight. Malting low grade, 43@44c; fair to good sound, 48@48c; good color, 50@56c, and fancy, 58@59c.

SEEDS—Nothing material developed, the past week. Timothy experienced an easier market and prices declined somewhat as noted below. Flax was easy early and weakened a trifle toward the latter there was reaction; very small offerings prevented anything of consequence being done. There was merely an inactive and nominally steady market for Clover. Late crop Medium Seed and Buckwheat were firm. Older trade good and some demand existed on the regular market; there were no offerings to speak of aside from an occasional to arrive lot.

Timothy—A weak feeling prevailed the past week. Tendency of prices was downward. New crop or September delivery declined 65@70c. The weather has been all that could be desired, and crop conditions have been favorable. Offerings were very meagre, but demand was very small. Usually cash offerings were small. About the middle of the week some fresh lots came on sale and there also was some stored Seed offered. Holders both here and in the country appear to have got a little more in line as selling mood. Demand very limited and buyers asked for concessions. Movement fell off compared with the previous week, but it was larger than a year ago. Receipts the past week, lbs..... 244,633

Contract spot or June delivery was $3 00 early and $2 95 later. July about the same as June. September delivery started at $3 15, sold later at $3 10, afterward it was offered at that with $3 05 bid, and finally closed with $3 10 bid and $3 15 asked. Cash Seed, pure and choice, was quoted early at $2 90 @3 00; later $2 85 was about the outside. Choice quality changed from $2 80@2 90 to $2 70@2 75. Fair to good ranged $2 60@2 75 to $2 50@2 60, and rough Seed declined from $2 40@2 50 to $2 35@2 45.

Flax—The run of Flax after seeding has not increased as might have been expected. The past week the run was almost nothing of consequence. There were shown in the postings but one car and part of a car received. The local mills have evidently had Flax enough in private storage and if there were offerings must also have been bought out of such stocks, for there were no withdrawals reported from regular houses. The market continued in an exceedingly quiet state. Early, an easy tone was apparent, and September delivery declined nominally 1c, but later under the influence of a small improvement in the Northwest there was a reaction here. Cash Seed shared in this and was about steady with the market, however, at best received very little attention. Posted receipts only 1 car and two-fifths of a car, compared with 4 cars a week and 6 cars two weeks ago. No withdrawals reported; the previous week 3,060 bu were taken out, and two weeks ago none. In local stock there was no change; this stock was given as 26,301 bu; a year ago it was 74,700 bu. Daily stock decreased 333,000 bu and Minneapolis 28,43 bu, a total reduction of 361,900 bu. The former point had remaining 7,935,000 bu and the latter 20,501,000 bu. Cash Flax was held by the public stocks, or such as are open to view. No 1 Northwestern was $1 06½@1 07; closed at $1 07. No 1 cash was nominally $1 06 all the week and Rejected sold at 98c@$1 00 for Northwestern. Duluth and Minneapolis deliveries of No 1 were nominally $1 00. September was $1 06 early, it was offered later at $1 05, and finally $1 04 bid.

Clover—There is little trading aside from the sale of few small lots. That was all that came in, and such lots were usually of common quality. They rarely ever do more. No grades above that speak of was being done; the time for that is past. Evidently little old Clover remains back; at least absence of arrivals would suggest that. New crop deliveries have not received no consideration. In the old meadows there is reported considerable winterkilling; in the new meadows some. The area of Clover at the same time is said to be large, and since rains of early in the conditions have been such that Clover has thrived well. Both receipts and shipments have been larger than a year ago, also the same was true of the previous week and two weeks. The movement for the week, with comparisons, was as follows:

Receipts the past week, lbs.....	55,550
The previous week.....	95,840
Two weeks ago.....	89,355
Same time last year.....	2,000
Shipments the past week, lbs.....	72,815
The previous week.....	45,220
Two weeks ago.....	52,240
Corresponding week last year.....	3,300

Values were without change all the week and ranged nominally as follows: Fancy spot seed was quoted at $10 75. Country lots, common to choice, $7 00@10 00; fancy above; mixed with Buckhorn or other weed Seed, $6 00@8 00; poor, cleaned out of Timothy or very foul, down to $5 50@5 90. Such lots as usually come to market, when offered here to good, quotable at $5 50@5 90.

Other Seeds—There were increased arrivals reported, and the output made a good showing. Even with such the case the regular market showed an almost entire absence of offerings. Order inquiry developed some business at times. Buckwheat was said to be good, and firmness prevailed. No further material change from late advanced prices occurred, and quotations appearing during the week are elsewhere given.

HAY—The receipts for the week were 6,905 tons, against 5,115 tons for the previous week; shipments for the week were 1,776 tons, against 227 tons for the previous week. The arrivals of both Timothy and Prairie Hay were quite liberal during the past week, and an easier feeling prevailed. Prices declined about 50c per ton. The demand was very fair, but the large offerings caused buyers to demand concessions which receivers were compelled to make. Timothy Hay ranged choice, good, and new hay is looked for from the Southwest almost any day. Quotations at the close ranged as follows: Choice Timothy, $13 50@14 00; No. 1 Timothy, $12 00@12 50; No. 2 Timothy, $10 50@11 50; No. 3 Timothy, $8 50@10 00. Choice Prairie, $11 00@11 50; No. 1 Prairie, $9 50@10 50; No. 2 Prairie, $8 50@9 00; No. 3 Prairie, $6 00@8 50; No. 1 Prairie, $7 00@7 50. Inside prices on Choice Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $14 00@14 50 for poor to choice Timothy, $13 50@14 00 for Clover Hay, $13 50 for State, and $9 25@11 00 for Iowa, Kansas and Arkansas Prairie Hay. Rye Straw sold at $10 50@11 00, and Oat Straw at $6 50@7 75.

COMPRESSED—There was a little more strength manifested in the market for Cooperage during the past week, but there was little change to note in prices. Offerings of all kinds were moderate, and the demand was only fair. Local packers purchased moderately, and outside orders were comparatively small. Ash Pork Barrels were in fair demand and steady at 92½@95c. Oak Pork Barrels were quiet and steady at $1 00@1 05. Lard Tierces were in fair request and prices ruled steadier at $1 37½@1 40. Iron bound Lard Tierces were steadier and prices were quotable at $1 27½@1 30 for six hoop and $1 32½@1 35 for eight hoop.

HOGS—The receipts of Hogs were fair during the past week, but not as large as generally anticipated, and the quality was quite good. Market was quite active throughout the week. Packers purchased rather freely, but shippers were a little backward about taking hold, and only filled moderate orders from Eastern markets. The feeling was rather firm early in the week and prices were advanced 15@20c on the whole range. Toward the close, the feeling was not so strong and prices declined 5@10c, but rallied again, and closed steady. Sales during the week were made at $4 40@4 95 for light, $4 40@4 80 for rough packing, $4 50@5 00 for mixed, and $4 65@5 05 for heavy packing and shipping lots, with the bulk of the trading within the range of $4 65@4 95 for fair to good averages. At the close about 2,500 Hogs remained in the pens unsold. Pigs were in fair supply and sold at very good demand, and sales were made at $4 05@4 70, according to weight and condition. Receipts of Hogs at the other large Western packing points were rather liberal, and the quality fairly good.

PACKING—There was a fairly good business at the packing houses during the past week just closed. Hogs were in fairly good supply, and packers purchased with considerable freedom. Manufacture of Products was fair, but adjusted as much as possible to decrinions most in request. Mess Pork neglected. Other cuts of Pork also moderately. Lard produced rather freely, and the average yield was good. Bulk of the manufacture placed in tierces. Domestic cuts of Hams made in fair quantities, and moderate proportion delivered from the block. Foreign cuts of Hams made sparingly. Shoulders attracted very little attention, and the production was small. A fair proportion sold from the block to the retail trade. Picnic Hams made more freely, and the bulk packed by manufacturers Long Clear Sides and Extra Long Clear Sides made in very small quantities. Short Clear Sides made sparingly. Extra Short Clear Sides made in moderate quantities. Short Rib Sides made with a little more freedom. Extra Short Rib Sides made moderately. Round Sides made rather freely with the preference given to light and medium averages. Backs and Bellies made in only limited quantities. Plates and Butts made sparingly. Pickled Cuts made to meet current requirements. Foreign fancy and special cuts of Meats made in limited quantities.

PROVISIONS Quite a good speculative business was transacted in the market for Provisions during the past week. Outside orders were somewhat larger, and local trading was rather active. An unsettled feeling prevailed and fluctuations in prices were frequent, and within wide ranges. Bulk of the trading was in July and September deliveries, with a fair business in transferring contracts ahead at the current differences. Hogs were in fairly good supply at all the largest Western packing points, and prices averaged higher, and this feature had a little influence on the market in a general way. Receipts of Hogs at the other large points during the week, compared with the corresponding week in 1903, exhibited an increase of 85,000 Hogs. Foreign markets exhibited considerable strength, and were quotably higher. Domestic markets were comparatively steady, with a little more trading in a general way. Supplies on hand are quite liberal, and are steadily increasing. Exports and deliveries requiring new Products so far have attracted very little attention. The receipts of Products were fairly liberal, as interior packers are commencing to make more liberal deliveries. Exports were not very large—considerably less than for the corresponding time last year. Early in the week, the feeling was rather firm, and prices were fairly steady to sell, and packers offered moderate quantities, while there was no particular demand from any source. Prices ruled slightly lower on all the leading articles, but later on a better demand improved. Investors were disposed to purchase moderate quantities, while packers gave the buying side of the market a little support. Cash trade was fairly active on the basis of outstanding contracts, and accepted fair quantities. On the other hand, the offerings were on a moderate scale, and were readily absorbed by the advanced material of the leading articles. At the improvement, speculators were disposed to realize on moderate quantities, and prices settled back moderately, and the market closed comparatively steady. In the shipping branch of the trade there was a fair demand from the interested and the volume of business was slightly enlarged. Exporters were disposed to purchase moderately, while buyers for the domestic trade accepted larger quantities. Offerings were fair, and holders were rather firm in their views. Prices were advanced slightly on all descriptions. Supplies fairly liberal.

Pork—A good speculative business was transacted in Mess Pork during the past week, and the feeling was considerably unsettled. Offerings were fair, and somewhat spasmodic, while the demand was quite good. More trading in behalf of outside parties, and local packers and speculators were considerably interested in the market. Transactions in contracts from July to September were made at 20@22½c differences. Supply on hand quite liberal. Early in the week, there was a little pressure to sell, while the demand was on a moderate scale. An easy feeling prevailed and prices declined 20@22½c on the whole range. After the reduction, the demand improved, especially from "shorts" and packers, while the offerings were lighter. A firmer feeling was developed and prices irregularly advanced 75@77½c. At the improvement, there was a little more inclination to sell, and prices receded 20@25c. Toward the close the market was stronger in a general way, and partly rallied 30@35c, but settled back 7½@10c, and the market closed comparatively steady. Demand on shipping account was light and offerings were moderate. Cash lots quotable at $11 50@12 00. Other cuts of Pork were in better request and offerings were moderate. Prices ruled 2½@50c higher. Supplies of all cuts are fair.

Lard—There was more interest was manifested in the Lard market, and trading during the past week was larger. Outside orders were more liberal, and local trading was fair. Foreign advices were more favorable to holders. Stock on hand is steadily increasing, and the production is fairly large. "Shorts" accepted fair quantities to provide for outstanding contracts. Early in the week, the feeling was rather easy, with some inclination to realize, and only a moderate inquiry. Prices declined 10@12½c. At the reduction, there was quite a good miscellaneous demand, while the offerings were lighter, and the market manifested considerable strength. Prices were irregularly advanced 30@32½c on the whole range. Toward the close, the feeling was not so strong, and prices receded 7½@10c, but rallied again 10@12½c, and the market closed comparatively steady. Transfers of contracts from July to September were made at 15@17½c difference. A few trades were made in October, November, December and January deliveries. The inquiry on shipping account was limited, and the offerings were moderate. A few trades were made at about 5@7½c discount on July figures—closing at 3½ 6½@6 7½. Refined Lard was in moderate demand, and a few sales were made at prices not made public. Loose lots were in only fair request, and the offerings were moderate. Quotable at 5½@5½c discount on July figures. Leaf Lard was in rather good demand and a few trades were made at $5 75@5 87½, and closed steady at $5 87½. Neutral was in only limited request, and offerings were fair. Market was rather quiet and prices quotably steady at $5 87½@7 00 for bbls, $6 00@6 12½ for tubs, and $6 12½@6 25 for pails.

Short Rib Sides Quite an active business in a speculative way was transacted in Short Rib Sides during the past week, and an unsettled feeling prevailed. Outside orders were large, and mainly on the buying side. Some speculators in the Eastern markets credited with liberal purchases for September delivery. Cash trade was fairly active. Offerings in the aggregate were not very free, while a fairly good miscellaneous demand prevailed. Supplies on hand are reported to be gradually increasing. Foreign advices were fairly favorable to holders. Early in the week, the feeling was quite strong, and prices advanced 25@27½c. At the decline, the demand improved, while the offerings were moderate. A firmer feeling was developed, and prices advanced irregularly 35@40c. Toward the close, the feeling was not so strong, while there was a little realizing, and prices receded 7½@10c, but rallied again 10@12½c, and the market closed steady. The inquiry on shipping account was moderate, and offerings were somewhat limited, but held firmly. Sales were limited. Cash lots quotable at $6 75@7 00, according to weight.

Green Meats—A moderate trade was reported in Green Meats during the past week and there were no particular changes to note. Local interest was confined to small quantities, and a few outside orders were provided for. Offerings were not very large, and holders rather firm in your views. There were a fair request and no buyer for large figures. Skinned Hams were in moderate demand, and prices ruled about the higher. Shoulders were in small demand and prices ruled steady. Bacon was in fair request and prices ruled 9@9½c higher. Bellies were in light request and offerings were small. Prices ruled rather steady.

Pickled Meats—Trade was a little more active in the market for Pickled Meats during the past week, and the undertone to the market was stronger. Exporters accepted a few lots, especially of light Hams, while the domestic demand was fair for all descriptions. Foreign markets were firmer, and prices slightly higher. Domestic markets steadier. A few lots accepted for delivery sixty to ninety days ahead. Offerings were fair, and holders firm in their views. Supplies of all kinds are fairly liberal, excepting of Picnic Hams. Manufacture is fairly liberal. Hams were in good request and prices ruled about ½c higher. Skinned Hams were in good request and offerings were fair. Feeling stronger and prices ruled 4½@4¾c higher. Heavy Shoulders were rather quiet and prices were slightly higher. Picnic Hams were in good request, with small offerings. Prices ruled ¼@¾c higher. Long Clear Sides were in light request and price a well maintained.

Dry Salted Meats A slight improvement was noted in the market for Dry Salted Meats during the past week, and it was also stronger. Offerings were not very free, while a fair demand prevailed, chiefly for domestic wants. Foreign advices were more favorable to holders. Buyers in distributing markets inclined to operate a small extent. Stocks of all kinds fairly large and market active and rather liberal. Foreign cuts of Hams were quiet and steady. Shoulders called for sparingly and offerings were moderate. Long Clear Sides and Extra Long Clear Sides were quiet but holders generally asking higher prices. Short Clear Sides were in small demand and prices ruled steady. Extra Short Clear Sides were in moderate demand and firm at 8c advance. Long 6@6½c. Extra Short Rib Sides were in fair request and ruled about 4c higher, closing at 6¾@7½c. Rough Sides were in good demand, especially for the Southern trade, and offerings were fair. Prices ruled ½@¾c higher during the week. Backs were in moderate request and prices were slightly higher. Butts in small demand and prices favored sellers. Picnic were in fair demand and prices ruled steady. Bellies were in moderate request and prices inclined in favor of sellers. Foreign fancy and special cuts of Meats were quiet, but firmly held.

Smoked Meats A fair trade was reported in Smoked Meats in a jobbing way during the past week, but the demand for car lots was comparatively small. Offerings were not very large, and buyers were backward. Holders rather firm in their views, and in some instances slight advances

GOVERNMENT REPORT ON CROPS.

WASHINGTON, June 10.—Preliminary returns to the chief of the bureau of statistics of the Department of Agriculture on the acreage of Spring Wheat sown indicate an area of about 17,140,800 acres, a decrease of 116,100 acres, or 0.7 per cent, from the revised estimate of the acreage sown last year.

The average condition of Spring Wheat June 1 was 93.4, as compared with 95.9 at the corresponding date last year, 95.4 on June 1, 1902, and a ten-year average of 93.8. The average condition of Winter Wheat was 77.7, compared with 76.5 May 1, 1904, 82.2 June 1, 1903; 76.1 at the corresponding date in 1902, and a ten-year average of 79.8.

The total reported area in Oats is about 27,646,000 acres, a reduction of 86,300 acres, or 0.3 per cent from the area sown last year. The average condition of Oats June 1 was 89.2, against 85.5 June 1, 1903; 90.6 at the corresponding date in 1902, and a ten-year average of 89.9.

The acreage reported as under Barley exceeds that harvested last year by about 153,000 acres, or 3.1 per cent. The average condition of Barley is 90.5, against 91.5 June 1, 1903; 93.6 at the corresponding date in 1902, and a ten-year average of 89.

The acreage under Rye shows a reduction of 6 per cent from that harvested last year. The average condition of Rye is 86.3, against 90.6 June 1, 1903; 88.1 at the corresponding date in 1902, and 89.6, the mean of the corresponding averages of the last ten years.

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, May 31.]

United Kingdom—A fair quantity of rain fell during Whit-week in the United Kingdom, and the weather does not yet seem inclined to clear up. The rains generally have been well received by agriculturists, and in some parts the moisture was much wanted, but a sufficiency having now fallen, growers are beginning to cry hold, enough! A period of bright sunshine with summer-like warmth is now desired, but it can be taken for granted that occasional rains will be wanted for roots and late cereal crops also during June. Reports concerning our cereal crops must be considered fairly favorable on the whole, but lateness is still complained of, and Wheat receives but very faint praise. We have seen no mention of the proverbial May Wheat ear, and the *Mark Lane Express* says it will be a fortnight yet before ears are in evidence. A good Wheat harvest for this country is out of the question, but with favorable weather from now onward growers should fare much better than they did last year or in 1902.

Russia—The recent rains have certainly improved prospects and correspondents are inclined to take more hopeful views We do not suppose, however, that a radical change has yet taken place in the condition of the crop, and it is certain that before the rain came the outlook was for quite a moderate harvest The expected decrease in shipments duly materialized last week, but recent advices again affirm that there are good supplies of Grain held in the interior and these should come down sooner or later, unless crop prospects become much worse than at present We think it likely, however, that holders will continue to hold firmly as long as they possibly can, for Russia is still at war and likely to remain so for some time to come, while crop prospects, to put the case mildly, are very far from being brilliant.

Roumania—There have been further rains. Our Braila correspondent writes that reports show very "spotty" crops, and opinions naturally are very varied generally, however, people incline to the belief that the rain came too late for the Wheat crop; for the Corn crop, the rains were of much benefit. The interior movement of Grain is increasing somewhat; shipments are moderate.

Bulgaria—Correspondents report that the crops show satisfactory condition, but rain is wanted in the South for the spring seedings.

Hungary The rains came too late and have been insufficient in quantity. To-day our correspondent telegraphs that rust is spreading and alarming reports are being received, with the result that the market has again taken an upward turn. The Wheat crop has been estimated 20 per cent less than last year's

Australasia—Mail advices dated April 23 say that showers had then fallen, starting the crops already sown and enabling seeding to proceed under better conditions. Further showers have been since reported by cable but no general rain. It is still reported that farmers hold good quantities of Grain, but chartering now is slow

Argentina—The weather is favorable and should give growers a good start in preparing the land for the new crop The movement to the ports and shipments again decreased last week

France -The weather continues to favor the crops and prospects are still regarded as highly satisfactory Supplies of native Wheat are ample and prices continue to droop.

Italy—Latest crop news is generally favorable, but complaint is made of thin plant and weed-infested fields.

Spain—Barcelona reports that drouth continues to prevail in several provinces, and fears of a short yield in such districts are entertained; in some parts beneficial rains have fallen.

Belgium—The weather is favorable and crop prospects are good.

Germany—With favorable weather the crops continue to make good progress; in most parts of the Empire rain fell last week, but growers would like to see a further fall Native Wheat continues in short supply, and this throws a good demand onto the foreign article.

North Africa -Reports on the whole continue to announce capital harvest prospects, except that in Oran heavy fogs have lately prevailed and caused some damage

THE WEATHER CONDITIONS.

Southwest generally clear and warmer Only .01 at Dodge City Heavy rain in Nebraska, 1 50 at North Platte Clear and cooler Northwest

Indications are for fair generally throughout his forecast district. A few scattered showers probable in West, but their location cannot be determined Temperature changes will be slight.

ITEMS OF GENERAL INTEREST.

Business failures in the United States and Canada for the past week were 247, against 240 the previous week and 229 for the corresponding week last year

Bank Clearings of the leading financial centers of the United States for the past week aggregated $1,779,421,884, a decrease of 14 2 per cent compared with the corresponding week last year.

Fire has destroyed the Federal custom house at Nogales, Ari., as well as the Southern Pacific and the Sonora Railroad depots. It is estimated that the total loss will foot up at least $100,000.

The Speyer & Co. certificates for the Republic of Cuba 5 per cent Gold bonds of 1904, both full paid, and second installment paid, have been admitted to quotation on the New York Stock Exchange in the unlisted department.

The Hibernian Banking Association of Chicago qualified, Wednesday, under the Illinois statutes to conduct a trust business. Bonds and other securities aggregating $200,000 were deposited with the Auditor of Public Accounts.

Ruddy Bros.' Packing Company, at Armourdale, Kan., is reported to have been bought in by the National Packing Company. The price is said to be $500,000. The plant had a killing capacity of 250 Cattle, 500 Hogs and 300 Sheep.

The Chicago Junction Railways and Union Stock Yards Company has declared the regular quarterly dividends of 1½ per cent on its preferred stock and 2 per cent on its common stock, payable July 1 Books close June 15 and reopen July 2.

The Iowa Supreme Court, Friday, affirmed a decision of the lower court prohibiting the sale of colored Oleomargarine unless the State Dairy Laws are complied with The suit was brought by the Iowa Dairy Commission against the Armour Packing Company, and was in the nature of a test.

Mark Lane Express of May 30 says: "The close, damp weather has been very favorable to the growth of vegetation, and Hay promises to be a good crop for the third year in succession, a prospect which naturally causes a certain depression in the market for dry feeding stuffs. The Wheat has improved in height and also in color, but there will soon be a need of hardening sun, and the unlikelihood of Wheat ears being in evidence for another fortnight gives us a fair clew to how much the season is behindhand."

WEATHER BUREAU REPORT.

WASHINGTON, June 14—Weather Bureau weekly summary issued at noon, says:

Winter Wheat—Continues to advance favorably, a general improvement being indicated in the Ohio Valley and Middle Atlantic States. Some injury is reported, however, by fly from Indiana and from overflows in Kansas. Harvest has been interrupted by rains in Northern Texas and Oklahoma. Harvest has begun in Southeastern Missouri, Southern Texas, and some Wheat is ready for harvest in Southern Kansas, where wet soil prevented commencement of this work. Wheat harvest is nearly finished in the South Atlantic and East Gulf States. On the Pacific Coast Winter Wheat has done well, except in California, where it has suffered from hot winds. In the last named State, harvest has begun with generally light yields.

Spring Wheat—Continues to make satisfactory progress and is in very promising condition.

Corn—Has made slow growth in Kansas and Nebraska. Much of the crop is still weedy, although it is in an improved state of cultivation. In Missouri, Illinois and Indiana fields are generally clean, but in the Middle Atlantic States rains have interfered with cultivation. In Texas a good yield of Corn is assured, and the crop is promising elsewhere in the Southern States.

Oats—Nearly all reports respecting Oats indicate that the outlook for this crop is very promising. Oats are now heading in Kansas, Missouri and Tennessee.

Cotton—In very favorable condition except in Arkansas, Northern Texas and Territories.

ITEMS OF GENERAL INTEREST.

Documentary Sterling easy at 485.

New York Exchange 30c premium.

Chicago Bank Clearings to-day, $31,127,918.

Ten packers purchased 12,900 Hogs to-day; shippers, 5,000; left over, 3,600. Market closed weak.

Reported that 64,000 bu Wheat and 98,000 bu Corn were taken at the seaboard to-day for export.

Exports of Corn from the United States during May were 1,381,000 bu, compared with 5,973,006 bu in May, 1903.

Estimated receipts for to-morrow: Wheat, 34 cars; Corn, 265 cars, Oats, 103 cars; Rye, 3 cars; Barley, 7 cars; Hogs, 33,000.

English Cotton spinners have decided to shorten their running time 8½ hours per week. The American will run only 47½ hours a week.

Exports of Flour and Wheat from the United States during May were equal only 3,976,000 bu, compared with 14 789,000 bu in May, 1903.

The receipts of Wheat at Liverpool during the past three days were 208,000 bu, of which 120,000 bu were American. Receipts of Corn, 224,000 bu, of which none were American.

Stocks in New York had a fair recovery from yesterday's break and closed higher, but gains were small. Traction shares led the advance. Trading in general was slow.

Cotton sold off early on the "bearish" weather reports, but reacted on "shorts' covering. The crop bulletin was construed as more favorable for the crop. Closing sales were 3@6 points higher.

Local Securities were slow, with only small lots traded in. Price changes were, in the main, fractional, aside from an advance of 1 point on South Side Elevated, and a loss of 1 point on Quaker Oats and ¾ on Street's Stable Car.

The masters' strike is said to have been declared off. The Rutland Line of steamers will start its boats at once. This is the first of the lines to start business since the strike began, although many boats of the Lake Carriers' Association have been running.

Bradstreet's report of the available supply for the past week shows the following changes:

	1904, bu.	1903 bu.
Wheat east of Rockies	Dec. 2 807,000	Dec 4 452,000
Europe and afloat	Inc. 100 000	Inc. 300,000
Total	Dec. 2 707,000	Dec. 4,152 000
Corn	Inc. 878,000	Inc. 195,000
Oats	Dec 181,000	Dec 387,000

Broomhall's weekly foreign crop summary says "Conditions in Eastern Europe are slightly improved, but in the western half there are increasing complaints of drouth. United Kingdom Wheat is looking rather better. France There are some complaints of the Wheat plant being thin and of damage to crop by storms, but as a whole condition has not been seriously lowered. Germany—Complaints of drouth are increasing, affecting Rye and Oats particularly. Russia—Reports from Southern districts are mostly favorable. Roumania—Crop reports continue pessimistic. Hungary—Weather during past week improved and farmers are more hopeful regarding crop outlook. Bulgaria Weather now favorable. Italy—During the week there have been complaints of drouth. Spain—Weather continues drouthy and in some section crop will be poor In largest Wheat districts, however, a fair yield is expected."

REVIEW OF TO-DAY S MARKETS

FLOUR—Demand is only moderate and market steady and without any noteworthy change.

WINTER WHEAT—There was some little milling demand early, but this was soon supplied, and later the market became very dull, with a closing of 1c to 4c lower. Several samples for lack of demand or reasonable bids remained unsold. No 2 Red in store nominally $1 01@1 02 and fresh arrivals free on board quotably $1 03@1 06. No 3 Red fresh receipts free on board quotable at $1 00@1 03. No. 2 Hard sold in store and to go to store at 89@92c, and fresh receipts free on board at 89@91c. No. 3 Hard fresh receipts free on board sold at 78@88c. No. 4 Hard sold at 75c. No. 4 White sold at 81c.

SPRING WHEAT—Was quiet and feeling weaker. The closing was 1@2c lower. Very little demand existed. No 1 Northern in store nominally 92¼@95c, and fresh arrivals free on board quotably 98@99c. No 2 Northern fresh receipts free on board quotably 92@95c. No 3 Spring ranged nominally at 85@93c. No 4 Spring sold at 66½@88c.

REGULAR WHEAT—The trade was only moderate, in fact the market was inclined to dullness early in the session but livened up considerably toward the close, with sentiment leaning more to the "bear" or selling side. English cables were disappointing, the weather most favorable and crop news from the Northwest most satisfactory. Close showed July off 1⅝c and September off ⅞c. There was quite free selling at the start by local operators, and support was rather indifferent. The decline was helped along on the report that a car of new No 2 Red Wheat had been received at St. Louis, but closer investigation showed the same to be only a large sample. While there was an advance on this side yesterday, Liverpool quoted spot ¼d lower to 1d higher, and futures ½@⅝d lower. Receipts there the past three days 208,000 bu, of which 120,000 bu came from America. London steady to ⅛d lower. Paris and Antwerp unchanged. Berlin advanced ⅛c and Buda Pesth a full 1c. A Paris cable stated the market there was affected by increased crop estimates, which showed 12½ per cent increase over one year ago. Minneapolis wired "reports from Spring Wheat sections are very glowing; have fine growing weather, and similar reports are coming from Manitoba." Texas advices reported the harvest in full swing all over the State. Weather conditions were considered ideal in both the Spring and Winter Wheat belts and fair and warmer conditions are indicated. Liverpool cabled "Drought relieved in some sections of Hungary, but weather too dry in Germany, prospects less favorable in France." Northwest wired: "United Kingdom selling us back, to-day, new crop Springs they bought 90 days ago at higher prices." *Broomhall's* foreign crop summary was looked upon as favorable, and as the session advanced liquidation became pronounced and last prices were near bottom. Stocks here in all positions were reported 3,063,000 bu, against 3,103,000 bu last week and 5,450,000 bu one year ago. Contract stock decreased 36 783 bu last week, and now include 753,978 bu, compared with 2,594,134 bu corresponding date in 1903. *Bradstreet's* available supply decreased 2,700,000 bu, against 4,152,000 bu decrease same week last year. Primary receipts were 90 000 bu larger than last year. Arrivals in the Northwest about the same. Clearances were moderate and 8 boat loads reported accepted at the seaboard. Minneapolis stocks decreased 60,000 bu the past three days. Receipts at Duluth 78 cars and at Minneapolis 134 cars, a total of 212 cars, against 299 cars yesterday, 211 cars a week ago, and 206 cars last year. Local receipts included 25 cars Winter, 5 cars Spring, 4 cars mixed, a total of 34 cars, against 36 cars last year. Included in the above were no cars contract grade. There was also 1 car and no bu from unlicensed elevators. The estimated receipts for to-morrow are 34 cars. Withdrawals to-day were 4,100 bu. Receipts at Western points were 335,753 bu, against 246,460 bu last year. At Eastern points 67,744 bu, against 51,914 bu last year. Shipments from Western points were 176,962 bu, against 159,825 bu last year, and from Eastern points 85 872 bu against 133,600 bu last year. Shipments of Flour were 3,060 brls. Exports of Wheat in Flour were equal to 99,772 bu.

Future Deliveries of Regular Wheat—Fair trade at lower prices.

JUNE—Quiet, and 93c was bid when July was 86¼c; closed nominally 92½c.

JULY—Old Style—Sold at 85⅝@87¼c. Opened at 87¼c and 87c; sold to 86¾c, to 87c, to 86⅝c, to 86⅞c, to 86¼c, to 86½c, to 85⅝@85⅞c, to 85¾c, to 85¾@85⅞c, to 85¾c, to 85⅞c, to 85⅝c, to 85¾c, and closed at 85¾c sellers.

JULY—New Style—Sold at 84⅝@86¼c. Opened with sales at 86¼c to 86@86⅛c, sold to 85⅝c, to 85¾c, to 85⅜c, to 85½c, to 85¼@85⅜c, to 85⅝@85¼c, to 85¼c, to 85⅜c, to 81⅝@84¼c, to 84⅞c, to 84⅝c. to 84⅞c, and closed at 84⅞c asked.

SEPTEMBER—Old Style—Sold at 82@82¾c. Opened at 82¾c to 82⅝c, sold to 82¼c, to 82½c, to 82c, to 82⅛c, to 82c, and closed at 82c bid.

SEPTEMBER—New Style—Sold at 80¼@81c. Opened with sales at 80⅞c to 81c, sold to 80⅝c, to 80⅞c, to 80⅜c, to 80⅝c, to 80¼c, to 80⅜c, and closed at 80⅜c bid.

DECEMBER—Sold at 80@80½c. Opened with sales at 80⅛c to 80⅜c, sold to 80½c, to 80¼c, to 80⅛c, to 80c, to 80⅛c, and closed at 80⅛c.

CORN—A fair trade, with the feeling much weaker, close showing declines of ⅝c to ⅞c. Market acted as though the "short" interest had covered quite freely on yesterday's advance and there was a general lack of support. The liberal receipts due weather present and prospective, reports of more liberal country acceptances, and expectation of a more favorable weekly crop bulletin were among the "bear" influences, the selling being led by professionals as well as Provision interests. Receipts were 614 cars 38 cars grading, against 703 cars last year when 31 cars were contract. For to-morrow 265 cars are estimated. The large increase in private elevator stocks was also a "bear" factor. Stocks here in all positions were reported 6 340,000 bu, against 4,275,000 bu last week and 3,837,000 bu one year ago. Contract stocks increased 35,427 bu and now include 1,600,336 bu, against 678,217 bu for the same date in 1903. *Bradstreet's* available supply increased 878,000 bu, compared with an increase of 195,000 bu for the same week in 1903. Weather conditions were favorable, temperatures being higher, and generally fair and warmer conditions predicted. Liverpool quoted spot American unchanged, while La Plata was 1d lower. Futures were ⅛@¼d higher. Receipts there the past three days 224,000 bu, and none from America. Western receipts were 816,000 bu; last year 760,000 bu. Shipments 541,000 bu and 563,000 bu respectively. Local arrivals 554,000 bu and shipments 355,000 bu. Exports 42 000 bu, last year 189,000 bu and 12 boat loads were accepted at the seaboard. Cash sales here 150,000 bu. Southwestern markets were weaker. New York advices reported the lake controversy nearer a settlement. Car lots were in smaller supply and fair demand. Prices were ¼@½c lower. No 2 sold at 49¼c and closed at 48¾c. No. 2 Yellow sold at 50½c and closed at 50¼c. No 3 at 48¾@49½c—outside for high color, and closed at 48½c. No 3 Yellow at 50c and closed at 49¾c. No 3 White at 48¾c. No 4 sold at 47½c.

Corn by sample—Offerings smaller and demand fair. Feeling a little unsettled, with good grades steady, while low grades were about 1c lower. Sales on track and free on board: No Grade sold at 37@45c. No 4 at 38@48½c. No. 3 at 48½@50c. No. 3 Yellow at 50@50½c. No 2 at 49¼@49¾c. No 2 Yellow at 50½@50¾c. No 3 White at 48¾@49c. Billed through: No Grade at 38@43c. No 4 at 47@48c. No 3 at 47¼@47¾c. No 3 Yellow at 48½@49½c. No 2 Yellow at 49½c. No 3 White at 47¼@47¾c.

Future Deliveries of No. 2 Corn—Fairly active and weaker and closed ⅝@⅞c lower.

JUNE—Sold at 47⅝c, and closed nominally 47½c.

JULY—Sold at 48⅝@48¼c and 49¼c. Opened at 49¼c to 49c, and sold at 48¾c, to 48⅞c, to 48⅝@48¾c, to 48¾@48⅞c, to 48⅛@48⅝c, to 48⅞@49c, to 48⅝@48¾c to 48½c, to 48⅝@48½c, and closed at 48⅝@48½c.

SEPTEMBER—Sold at 48½@49c. Opened at 49c to 48¾c and sold at 48⅝@48⅝c, to 48⅝c to 48½c, to 48¾c to 48⅝c, to 48⅞c, to 48½c, to 48¾c, and closed at 48¾c asked.

DECEMBER—Sold at 44@44⅜c. Opened at 44⅜c to 44¼c, and sold at 44c, to 44¼c, to 44⅛c, and closed at 44⅛c.

MAY—Sold at 43⅝@44c. Opened at 44c to 43⅝c, and sold at 43⅞c, to 43½c, to 43⅜c, closed at 43⅝c.

OATS—Were strong at the start, but weakened and declined ⅛@⅝c, and finished at the low point on distant deliveries, with a net loss of ⅛c, while July was off ¼c. The break in other Grains, fine weather and favorable crop reports were against the price. The Government crop bulletin said Oats were heading as far north as Missouri and Tennessee. There was good selling of July and September by the leading longs, which was the feature of the trading. The buying was scattered. Contract stocks decreased 27,000 bu last week and are 635,000 bu. Stocks in all positions decreased 302,000 bu and are 1,408 000 bu. Receipts 185 cars, with 103 cars expected to-morrow. Seaboard clearances 20,000 bu. Cash sales, 25,000 bu. Car lots to go to store were steady. No. 4 White sold at 40c. Standard in store closed at 41½@41⅝c.

Oats by sample were in fair request and prices held steady. Offerings were moderate. Sales on track and free on board: No 4 at 36@39c. No. 4 White at 34@42¼c. No 3 at 39¼@39½c. No 3 White at 40@44c. Standard at 44c. No. 2 at 40½c. Billed through: No 4 White at 41@41½c. No. 3 White at 42@42½c. Standard at 43@43½c. No. 2 at 40c. At the river: No 4 White at 35@40c. No 3 at 38c. No 3 White at 39½@41½c.

Future Deliveries of Contract Oats—Were active and closed lower.

JUNE Closed at 41½c.

JULY—Active. Sold at 39⅝@39½c and at 39⅞c. Opened at 39¾c to 39¾@39⅞c. Sold at 39⅞c, to 39⅝@39½c, to 39⅝c at close.

SEPTEMBER—Active. Sold at 32@32⅜c. Opened at 32½@32⅜c, sold at 32⅝c, to 32c, to 32@32⅛c at close.

DECEMBER—More doing. Sold at 32⅝@32¾c. Opened at 32¾c, sold to 32⅝c at close.

RYE—Not enough doing in cash to make quotations, with some trading for July delivery which declined 5c and closed steadier. Offerings fair and demand light. Two cars were received. There were no withdrawals from store here and no export clearances from the seaboard. No. 2 was entirely nominal, both in store and fresh arrivals. No 3 to go to store sold at 63c.

Future Deliveries of No. 2 Rye—Quiet. July sold at 63½c, down to 60c, to 60½c, and closed at 60½c. September nominally 60c. no buyers at that figure.

BARLEY—A good deal considering the volume of the offerings, of low grade Barley and only fair to common Screenings remained unsold. Some of the better cars were taken, but even these were easier, and poor lots were almost without demand. Market dull and depressed. General run of malting Barley also slow and weak. Only one or two buyers present, and they wanted little. Choice Barley scarce, salable, but not at former outside prices. Entire market heavy and dull. Prices favored buyers and 1@2c decline was quoted. Thirty nine cars were inspected in. A number of small odd lots to arrive were offered and no one seemed to care for them. Screenings were quoted at 30@42c for poor dirty to choice and clean. Barley, low grade feed or mixing, quotable at 38@41c outside for good weight, and some very poor musty sold down to 34c. Malting, low grade 38@43c: fair to good sound, 44@48c, good color, 50@54c, and fancy up to 56c.

SEEDS—New crop Timothy was a shade higher again, and old crop Flax improved somewhat. This was the extent of the changes taking place. There was otherwise nothing new. All lines ruled very quiet.

Timothy—September delivery scored 5c further advance. A sale was made at $3 20. This figure remained bid and it was offered at $3 25. There were no other offerings. A couple of cars of cash Seed came on sale. Most of this was common to poor quality. Cash Timothy in limited request, still it remains salable, and no change quotable. Contract spot, June or July delivery, nominally $2 95. Country lots quotable at $2 00@2 85 for low grade to fancy, choice about $2 70@2 75, fair to good Seed $2 50@2 60 and rough at $2 35@2 45.

Flax—There was 1c advance quoted for old crop Flax. No business was done. Improvement had for its basis a higher Northwestern market. There were no offerings. New crop or September delivery nominally unchanged. Local movement very small: 1 car or 850 bu received, none taken out. At Minneapolis 6 cars were received and at Duluth 17 cars. No. 1 Northwestern or No 1 from the Northwest quotable at $1 08. No. 1 was nominally $1 01. Rejected was quotable at 95c@$1 02. June and July deliveries were $1 01 bid and September offered at $1 06.

Clover—Nothing doing. No Clover coming on sale. Nominally unchanged, as follows. Contract spot Seed about $10 75. Country lots common to choice, $7 00@10 00: fancy above: mixed with Buckhorn or other weed Seeds $6 00@8 00, poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good at $8 50@9 50.

Other Seeds—Were quotably easy. Hungarian, common and light color to choice dark quotable at $1 15@1 35. Common Millet $1 25@1 50 for poor to fancy. German Millet, $1 20@1 50. Siberian, 75@90c. Broom Corn Millet, $1 00@1 10. Early Fortune Millet 85@95c. Mustard 85c@$1 05. Buckwheat quotable at $1 65@1 75 for good.

HOG PRODUCTS—Quite a good speculative business was reported in the market for Hog Products and the feeling was weak during the greater portion of the day. Outside orders were fair and local trading was active. Offerings were rather free, and the bulk credited to "longs" and local packers. Demand was only moderate and "shorts" were the principal purchasers. Hogs were in good supply and prices higher, but the Grain markets were easy, and this feature had a little influence on the market for Products. Market opened rather steady at about the closing figures of Monday, but there was considerable pressure to sell, and a weak feeling was developed. Prices declined materially on all the leading articles and closed rather steady around inside figures. Receipts of Hogs at the leading Western packing points were estimated at 76,000, compared with 65,300 one year ago. Advices from abroad indicated a quiet feeling in Meats at former prices while Lard was steadier and 6d higher. Domestic markets were steady. Receipts of Products were good—of Lard and Meats about 29 cars. Shipments were somewhat larger—of Lard and Meats about 134 cars. Demand on shipping account was fair and offerings were not very large. Holders rather firm in their views and buyers a little slow to follow. Sales were not very large, and prices inclined in favor of sellers.

Mess Pork—Trade was rather active in the market for Mess Pork, and the feeling was easy during the greater part of the session. Offerings were quite liberal, and the demand was fair. Considerable realizing in a general way. Market opened rather steady, and in a few instances slight advances were gained. A weak feeling developed, however, and prices receded irregularly 42½@46c on the whole range. At the decline, there was a little more inquiry, and prices rallied 2½@5c, and the market closed rather steady. Shipping demand was light and offerings were moderate. Cash lots were quotable at $12 30@12 35.

JULY—In moderate request, and offerings were moderately free. Sales were made at $12 32½@12 75. Opened at $12 75, sold to $12 45, to $12 50, to $12 52½, to $12 45, to $12 47½, to $12 40, to $12 42½, to $12 40, to $12 42½, to $12 37½, to $12 42½, $12 32½, to $12 35, and closed steady.

SEPTEMBER—Offerings were rather free, and the demand was fair. Sales were made at $12 55@13 00. Opened at $12 95 to $13 00, sold to $12 75, to $12 82½, to $12 70, to $12 77½, to $12 72½, to $12 75, to $12 67½, to $12 70, to $12 62½, to $12 65, to $12 55, to $12 60 and closed steady.

Lard—Rather a good business was reported in the Lard market, and the feeling was easier. Offerings were moderately free and the demand was only fairly active. Foreign advices were rather more favorable to holders. Considerable realizing by "longs." Market opened rather steady and prices were about 2½c higher. There was considerable pressure to sell and a weak feeling was developed. Prices declined 15@17½c on the whole range, and the market closed steady around inside figures. Some selling by outside parties. Inquiry on shipping account was limited and offerings only moderate. Cash lots were quotable at $6 70@6 72½. Loose lots in small request with moderate offerings. Prices steady at about 50c discount on July figures. Leaf Lard in moderate request and offerings were fair. Prices quotably steady at $6 00. Neutral in only limited demand with fair offerings. Prices quotably steady at $6 87½@7 00 for No. 1 and $6 62½@6 75 for No. 2.

JULY—In moderate request and offerings were fair. Sales were made at $6 72½@6 90. Opened at $6 90, sold to $6 80, to $6 82½, to $6 75, to $6 75@6 77½, to $6 72½, to $6 72½@6 75, and closed steady.

SEPTEMBER—Offerings were free and the demand was fair. Sales were made at $6 90@7 07½. Opened at $7 05 to $7 07½, sold to $7 00, to $7 02½, to $6 97½, to $7 00, to $6 95, to $6 97½, to $6 92½, to $6 95, to $6 90, and closed steady.

OCTOBER—Quiet with small sales at $7 00.

Short Rib Sides—Considerable interest was manifested in the market for Short Rib Sides, and the feeling was easier. Offerings were quite free and the demand was fair. "Longs" rather anxious to realize. Market opened rather steady at the closing figures of Monday, but a weak feeling was manifested with some pressure to sell, and prices receded 17½@20c, and the market closed steady around inside figures. Shipping demand was light, and offerings were small. Cash lots quotable at $7 00@7 25 according to weight.

JUNE—Quiet, with small sales at $7 17½.

JULY—In moderate demand and offerings were fair. Sales were made at $7 15@7 35. Opened at $7 35, sold to $7 30, to $7 32½, to $7 25, to $7 27½, to $7 15, to $7 17½@7 17½, to $7 15, and closed steady.

SEPTEMBER—Offerings were rather free and the demand was fair. Sales were made at $7 32½@7 52½. Opened at $7 50 to $7 52½, sold to $7 47½@7 50, to $7 50, to $7 45, to $7 47½, to $7 40, to $7 42½, to $7 35, to $7 37½, to $7 32½, to $7 35, to $7 32½, and closed steady.

Other Meats—Trade was only moderate and feeling rather steady. Offerings were not very large and the inquiry was only moderate. Exporters bought sparingly and the home demand was only fair. Green Meats in moderate supply with only fair inquiry, and prices higher. Pickled Meats in fair demand and prices well maintained. Dry Salted Meats were in fair demand with moderate offerings, and prices ruled easier. Smoked Meats called for in limited quantities, and prices ruled steady. Closing prices ranged as follows:

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, June 9.]

Wheat—We have now entered into the last month of the cereal year, and the export movement is about over with—one sailer to finish her cargo ready, and two steamers that will evidently take out very light cargoes will finish the season of 1903-4. Trade in export of Wheat has been very unsatisfactory during the past twelve months. Prices paid for Wheat were higher than foreigners were willing to pay, with freight added, and our shippers were compelled to let the milling interests have the Wheat they could not export, or any how at a dragging season, without much activity. There is some Grain left in the country, but it is in the hands of farmers who are able to carry the same for a number of years if necessary, who have a fixed price for the same, and will not sell until this is realized, and are willing to pay warehouse charges, insurance, etc., to obtain the same. This has been demonstrated before, and the wise ones no doubt profited by this experience, and others, no doubt, have taken their place to go through the same experience. Some few scattering lots were sold during the week, but not enough to cause any comment, as exporters are all out of the market at present, and no one would be willing to buy at present quotations for the sake of doing something. Trades are small; in fact, the market is duller now than ever in the history of the trade, and the only chance for a revival is not very bright at pre-ent. Crop advices are without change. The rains during the week have been very beneficial to the Spring Wheat, and all indications are more promising than ever before at the present time for a bumper of a crop than for many years past. We quote Club Wheat at 52c per bushel; Bluestem, 54c, and Valley, 55c per bushel.

Flour—Market very dull and no new business has been reported. In fact, there never has been a time the Flour trade has become an important factor to the Grain export trade that the market has been so dull. There is no demand from any source whatever, and not an overabundance of Flour is going coastwise at present. There is a very large of unsold Flour in every quarter of the Northwest, and in case of any unexpected call for Flour for shipping purposes, millers would have no difficulty in shipping the same. Japan is buying freely of Flour held by the trade in China, where the same was in abundance, and a great amount of this Flour has been worked off. There is no demand from the United Kingdom, and the outlook of sending another cargo over there is not very bright. We quote export brands from $3 85 to $3 95 per barrel, patents range from $4 00 to $4 35 per barrel, according to quality and brand.

THE WEATHER CONDITIONS.

Weather conditions are ideal throughout the agricultural sections of the West, Northwest and Southwest. Clear and pleasant in harvest sections Southwest. Light rains or showers in Northern Illinois, extending west to Western Nebraska. Generally clear Northwest, and light rains or cloudy weather in Manitoba. Temperatures stationary to slightly rising.

Indications are for generally fair weather in this forecast district. Temperature change will not be decided.

Members of the New York Cotton Exchange will vote on June 20 on the proposition to close on Saturday.

The Home Silver Mining Company of Utah has declared a dividend of 5c a share, payable June 30. Books close June 15 and reopen July 1.

The American Beet Sugar Company has declared a regular quarterly dividend of 1¼ per cent on the preferred stock, payable June 18.

The estimated earnings of the Southern Indiana Railway Company for May were $95,868, as compared with $90,182 for the same month last year.

The Northern Central Railroad Company has declared the usual semi-annual dividend of 4 per cent, payable July 15 to stockholders of record June 30.

Latest reports from New York are that the proposed consolidation of the Trust Company of America and the North American Trust Company has been abandoned.

The Chicago *News Bureau*, Monday, said: "La Salle Street has a report that dividends of the International Harvester Company are in danger of being reduced or passed."

The International Mercantile Marine Company will hold its adjourned annual meeting June 20. Philadelphia sends a report that the financial showing will be better than has been expected.

The New England Brick Company's properties will be sold at auction in Cambridge, Mass., to satisfy a $748,000 mortgage held by the Old Colony Trust Company. Reorganization may follow.

The United Shoe Machinery Company has declared the regular quarterly dividends of 2 per cent on its common stock and 1½ per cent on its preferred, payable July 15 to stockholders of record June 18.

A cable from St. Petersburg to the Chicago *Record-Herald* says: "It will be interesting to American Grain dealers to know that the crops in Russia, pretty well throughout the country, are reported short."

Stocks of Breadstuffs in Paris on June 1 comprised 672,000 bu Wheat and 35,000 sacks Flour, equaling together 904,000 bu Wheat, compared with 1,112,000 bu Jan 1, 824,000 bu June 1, 1903, and 1,840,000 bu June 1, 1902.

The American Cereal Company has filed with the Massachusetts commissioner of corporations its balance sheet for May 1, 1903. It shows total assets and liabilities of $11,028,473 each and a profit and loss surplus of $2,101,311.

At the directors' meeting of the Home Savings Bank, Chicago, Monday, the regular dividend of 5 per cent was declared, payable June 30, and $75,000 was added to surplus. This makes the surplus equal to the capital. Both are $600,000.

The American Malting Company will pay the principal and accrued interest on the Tanner and Delaney Engine Company 7 per cent Gold bonds, due July 1, upon presentation to its office on and after July 1, after which date interest will cease.

Don busch of June 1 says: "Our Odessa correspondent under date of May 28 states that more rain has fallen over the Southern Steppes and improved the crop outlook. Farmers are consequently hopeful of at least an average yield of cereals."

The statement of gross postal receipts at the fifty largest postoffices in the country for last month, as compared with May, 1903, show a total of $5,436,81., a net increase of $378,916, or over 7 per cent. The receipts at Chicago show 9 per cent increase.

The New York *Evening Post* calculates that the average earnings of the members of the New York Stock Exchange during the past year is $20,000, which would seem to show that the business of buying and selling Stocks is a good deal like that of Iron and Steel. It is either a prince or a pauper.

It is said that the New York, New Haven and Hartford Railroad Company is considering plans for the issuance of $10,000,000 refunding mortgage to take up the $6,400,000 7s and $6,000,000 6s of the New England Railroad, which mature Jan. 1. It is also said that the new bond will bear interest at the rate of 4 per cent.

It is said that the deposits of the United States Realty and Construction trustees under the reorganization plan are largely in excess of a majority of the total issue. Only $5,000,000 will need to be issued in exchange on July 1. The plan may be considered as practically effective, although not officially announced as such.

It is reported that a syndicate of New York and Boston bankers which has been negotiating for controlling interest in the Cincinnati, Hamilton and Dayton Railroad Company has decided upon a way out of the difficulty involved in the deal is to be paid. No details of the transaction have been made public officially.

It is said the directors of the Western Telephone and Telegraph Company, at their meeting next month, will declare a semi-annual dividend of 3 per cent on the preferred stock, placing the stock on a 6 per cent basis. Dividend disbursements this year have been equal to a rate equivalent to 5 per cent for the full fiscal year.

The *Times of Argentina* of May 2 says: "The small quantities of Corn that have been sold are very little satisfactory, and as prices continue weak in consuming markets, with no immediate prospects of a favorable reaction, many large farmers are beginning to hold operations for the time being, thereby giving the Corn a better opportunity to dry on the cob."

The chairman of the board of directors of the Seaboard Air Line Railroad says that while there is a falling off in the earnings of the railroads in other parts of the country, the Seaboard system will show an increase over last year. It is officially stated that the proceeds of the $600,000 recently sold will be used to reimburse the treasury of the company for expenditures made which are properly chargeable to capital account under terms of the mortgage.

J. P. Morgan & Co., having purchased the issue of the $20,000,00 thirty-year 4 per cent Gold debenture bonds of the New York Central and Hudson River Railroad Company, offer for subscription the 10,000,000 of the same at 97½ per cent and accrued interest. The principal is payable May 1, 1934. The subscription will be opened at the office of J. P. Morgan & Co. at 10 A. M. on June 14, and may be closed at or before 3 P. M. on the same day.

The directors of the Chicago, Burlington and Quincy Railroad have the right to change the rate of interest on $3,592,000 bonds, according to a decision by Judge Lacombe in the United States Supreme Court, Wednesday. The directors desired to change the rate from 3½ to 4 per cent on these bonds. Judge Lathrop, to whom the matter was referred, finds for the director, and says that it is the duty of the New England Trust Company as trustee to cancel the bonds at 3½ per cent, now certified and held by it, and not delivered to the railroad company, and to certify and deliver to the railroad company new bonds for the same amount at 4 per cent.

Directors of the American Ship Building Company will meet in Cleveland late next week to act on the regular quarterly dividend on the preferred stock. Officers of the company say the usual action may be expected. The company is completing the last three ships it is building under contract, and when these are finished the yards will be closed down to all but repair work until the capacity of the trade is revived again. The president of the company believes the year 1905 will see business pick up again and if it does not for a year later, he declares the company is strong enough to continue the payment of dividends on the preferred stock.

A New York dispatch says: "Announcement will be made soon of a gigantic new combination of capital in the United States and Canada. It is nothing less than an amalgamation of the valuable mines of America, and the man who is to consummate this stupendous transaction is Cecil John Rhodes. Mr. Rhodes' knowledge of the work now going on in furtherance of the plan lay the corporation under which the big mining properties will be merged, and the capital is to be $2,500,0.0,000. It is expected to control absolutely the mineral output of the United States except, possibly, that of the Calumet and Hecla Copper mine of Michigan."

The act of Congress making appropriation for the Department of Agriculture for the fiscal year ending June 30, 1905, contains the following: "The Secretary of Agriculture is hereby directed to obtain in the open market samples of Seeds of Grass Clover, or Alfalfa, test the same, and if any such Seeds are found to be adulterated or misbranded, or any Seeds of Canada Thistle, Dodder, or Buckhorn are obtained under any other name than Canada Bluegrass or *Poa Compressa*, to publish the results of the tests, together with the names of the persons by whom the Seeds were offered for sale." Announcement is hereby made that the collection and testing of Seeds as directed by this act will begin July 1, 1904.

The reduction of 3c a barrel in the price of Oil, according to a person in close touch with the Oil situation, shows the depressed conditions of certain branches of business. The United States Steel Corporation, for example, is a large consumer of the by-products of petroleum, but its purchases this year will be comparatively small, owing to the falling off in the production of Steel and Steel. A Standard Oil official said, Wednesday, that profits from by products are considerably larger than profits from the raw product. Also that the company has suffered a large amount of money this year in carrying on its prospecting work. Larger disbursements to stockholders in 1904 than in 1903 are not expected.

Representatives of the principal rail mills state that the Steel rail export business for the year will fall far below early calculations. If it reaches 120,000 tons for the year present estimates will be exceeded. "The export trade is a mere matter of trade," says a member of the Steel rail pool, "appears to be due partly to the keen competition of foreign railmakers for all possible contracts, and partly to the fact that foreign roads appear to be holding expenses as low as possible from the same reason actuating American roads. Our exports of Steel rails in April were 16,486 tons, which exceeded January's total by 8,720 tons, but they were 7,413 tons less than the exports of March, which aggregated 17,873 tons. Judging from the cessation in inquiries from abroad, the rail exports for the remainder of the season will slacken materially."

While officials of the Illinois Brick Company will not make public what they expect to do in the dividend situation, the story has come out from supposedly inside quarters that at the next meeting of the board the full 8 per cent that the preferred stock is in arrears will be declared, and a start of 2 per cent in July. 2 per cent in August and 2 per cent in September. It is further the hope that the finances of the company will be in shape by the close of the year to declare the dividend for that year as usual. Officials of the company admit that there is a probability of the last year's dividend being passed this summer. They say the money was earned last year, but was tied up in a big stock of surplus brick. The question of when the divi dend will be paid depends on when the company can collect the money owed it and can arrange for payments without inconvenience. This may be soon, or not for several months. The situation of the company is improving fast, however, and the probabilities of a dividend action grow greater steadily.

Indications are for scattered showers in this forecast district, with no material change in temperature. No continued rain is probable, however, so the weather will be mostly fair.

Local Securities were slow but prices held well, and for the most part averaged higher. Street's Stable preferred advanced 1⅝ Can preferred and Carbon preferred gained ½, and Radiator preferred advanced ¾

The Buenos Ayres *Herald* of May 6 says: "Farmers and colonists at Colon Entre Rios, are hard at work preparing their land for the new crops. The 1904-5 crop area in that district will, in all probability, show a marked advance on this season's figure.

Articles of incorporation have been filed for the Cotton Picker Company, under the laws of Maine, with a capital of $15,000,000, $500 paid in. The charter is a general one and gives the company power, among other things, to deal in and develop machinery.

The first break in the Paper strike at Appleton, Wis., occurred, Tuesday, when the Badger mill of the Kimberly-Clark Company, and the plant of the Strange Paper Company, both of Neenah, Wis., resumed operations. Several old machine tenders went back to work under the long-hour schedule.

Cotton in New York was affected by the break of 4 to 12 points in Liverpool, and by selling orders from that quarter. Sentiment was "bearish," and prices averaged lower. On the break, spot interest bought new crop months Closing sales were 50 points lower on near and 18@24 points lower on deferred deliveries.

A Cairo, Ill., miller who was in Chicago, Tuesday, said: "Prospects for the Wheat crop in Southern Illinois are much better than anticipated. Those who thought they would not get a very light crop now admit they will have over 50 per cent, and the possibilities are for 75 per cent. I have been out through the country for thirty miles around Cairo and find the crop is heading and filling well, with heads large and heavy."

The New York Stock market averaged lower. Southern Pacific broke 2⅝ and reacted ¾. Its financial plan for paying its debts and raising money for improvements as announced was considered a "bearish" factor. It proposes to issue $100,000,000 new 7 per cent preferred stock, of which $18,400,000 will go to the Union Pacific at par. The list averaged lower, but losses for the greater part were small at the last Money 1⅛ to 1¼ per cent.

The Inter-State Commerce Commission has received the answers of a number of Western Railroads to the complaint of the Cattle raisers' Inter-State executive committee, charging unjust discrimination in rates on Live Stock and dressed Beef and the existence of a conspiracy or combination or joint arrangement to destroy competition. In each case the roads against whom the allegations are made specifically deny the commission of any unlawful act, and pray that the complaint may be dismissed.

A commission firm of Minneapolis, who have investigated Northwestern crop conditions, estimate the Wheat acreage in North Dakota as increased 7 per cent over 1903. Minnesota increased 2 and South Dakota increased 1 per cent; acreage in Flax in the three States decreased 40 to 45 per cent. Government figures for the three States last year were as follows:

	Wheat Acres	Wheat Yield, bu	Flax Acres.	Flax Yield, bu.
Minnesota	5,393,328	70,652,597	507,425	6,013,508

Freight officials of Western railroads met in Chicago, Tuesday, to consider alleged cutting of rates on through traffic from New York to the Missouri River, via the gulf ports. The lines from the gulf were charged with joining the Mallory and Morgan steamship lines in making through rates from New York to the Missouri River which practically prevent the direct rail lines via Chicago from participating in the traffic. The gulf lines were asked to withdraw from joint through rates with the steamship lines, and to charge their full local rates from New Orleans The gulf lines denied that they were parties to any scheme to cut rates, but were not disposed to withdraw from through tariffs.

REVIEW OF TO-DAY'S MARKETS

FLOUR—Was quiet and easy with no improvement in the demand.

WINTER WHEAT—Was very quiet and feeling weak. A little inquiry for fresh arrivals, but no general or satisfactory demand existed. No 2 Red in store nominally $1 01@1 02, and fresh arrivals free on board quotably $1 03@1 05 No 3 Red fresh receipts free on board quotable at 95c@$1 02 No. 2 Hard fresh receipts free on board quotable at 89@92c, with a sale at 90c No. 3 Hard fresh receipts free on board sold at 83@87c, and ranged at 78@88c, depending on quality No 4 Hard sold at 72c.

SPRING WHEAT—Was quiet and feeling weaker. Very little demand existed, but the closing was steadier. No. 1 Northern in store nominally 92½@97c, and fresh arrivals free on board quotably 97@99c. No 2 Northern fresh receipts free on board quotably 93@95c. No. 3 Spring ranged nominally at 85@93c No. 4 Spring sold at 70@72c and ranged at 65@88c.

REGULAR WHEAT—Only a moderate speculative business was witnessed in this market, the trade being about all local The feeling manifested was a little unsettled, but undertone on the whole steadier and the close showed ⅛ to ¼c advance. The start was stronger, floor traders being inclined to look for a reaction after yesterday's break, and favored the buying side. The absence of any outside demand, however, was soon apparent and prices gradually receded, many of the early buyers liquidating. Favorable crop reports from both the Northwest and Southwest were the principal "bear" influences On the report of 40 loads being accepted at the seaboard the market again displayed a stronger tone. The map showed quite a heavy rainfall in the Southwest, also in the Ohio Valley. A prominent elevator concern in the Northwest estimated the increase in the Wheat area in North Dakota at 7 per cent, Minnesota 2, and South Dakota 1 per cent. Minneapolis wired. "Reports are coming from Manitoba that they would raise 75,000,000 bu this year. Receipts at country points show a slight increase, and will be reflected in the terminal receipts before long." Duluth wired the Wheat resold by the United Kingdom yesterday was 6c under purchase price ninety days ago, and that bids for Duluth Wheat were 4@5c out of line and Kansas Hard 2@3c below working Kansas City wired: "Harvest in full swing in Texas and Oklahoma" Oklahoma City reported that some Wheat would run 23 bu to the acre, and tests showed weight 63 lbs Bordeau, France, cabled: "Wheat promising well; no chance for imports this season." Liverpool quoted spot steady to ⅛d lower and futures ½@¾d lower London was ⅜@½d lower Paris and Antwerp unchanged. Berlin was ⅝c lower and Buda Pesth ¼c lower. *Broomhall* cabled private crop reports from Roumania were bad Primary receipts were 56,000 bu under last year: the arrivals in the Northwest 124 cars smaller Kansas City and St Louis received 27 000 bu and shipped out 92,000 bu Exports were again small. Minneapolis stocks were reported decreased 175,000 bu the past four days Receipts at Duluth 31 cars and at Minneapolis 98 cars, a total of 129 cars, against 212 cars yesterday, 117 cars a week ago, and 253 cars last year. Local receipts included 32 cars Winter, 2 cars Spring, none mixed, a total of 34 cars, against 15 cars last year. Included in the above were no cars contract grade. There were also 4 cars and no bu from unlicensed elevators The estimated receipts for to-morrow are 56 cars Withdrawals to-day were 43,000 bu. CORN—Was fairly active and higher prices ruled early, a moderate reaction following, but the close showed gains of ¼@⅜c and ⅜c The principal feature was the heavy purchases of September by influential interests, which started "shorts" to covering, and market displayed a decidedly strong undertone The settlement of the lake strike, moderate receipts and small country acceptances were among the "bull" helps At the advance, local operators sold with more freedom and prices receded slightly with Wheat. General rains were reported in Kansas, but reports were in the main more favorable. The Iowa bulletin noted some improvement in crop conditions. Receipts were 279 cars, with 21 cars contract, against 254 cars last year, when 25 cars graded For to-morrow 310 cars are estimated Liverpool spot unchanged and futures ⅛@½d lower. *Bradstreet's* available increased 2,878,000 bu, instead of 878,000 bu as was reported. Fair weather was predicted for Kansas and Indiana and showers for Nebraska and Illinois. Southwestern markets were all higher The July-September spread widened out to about ⅝c. Exports were 43,000 bu, against 289,000 bu last year and 9 boat loads were accepted at the seaboard. Cash sales here were 100,000 bu. Western receipts were 624,000 bu, or same as last year and the shipments 441,000 bu and 600,000 bu respectively. Local arrivals were 502,000 bu and shipments 306,000 bu. Only 1,000 bu was loaded out of public elevators, while 33,500 bu and 39 cars of contract were switched from private to public warehouses. Car lots were in moderate supply and fair demand. MAY—Sold at 43½@43¾c Opened at 43⅝c, sold to 43¾c, to 43½c, to 43¾c, and closed at 43¾c

OATS—Were traded in moderately and prices moved within a small range. July were offered fairly and closed ⅛c lower, while September and December which had good support from commission houses gained ⅛c There was nothing in the general run of news to stimulate trading on either side Crop reports were favorable, cash demand fair and arrivals smaller, the latter being 114 cars, with 96 cars estimated for to-morrow. Withdrawals were 15,300 bu. Seaboard clearances were 9,000 bu. Cash sales 75,000 bu Car lots to go to store were firm. No. 3 White sold at 42¼c Standard in store closed about 41½@41⅞c.

Oats by sample were in good demand and firm, with offerings smaller. Sales on track and free on board: No Grade at 32c No 4 at 38½@49c. No 4 White at 38@42½c. No. 3 at 39½c. No. 3 White at 41½@43½c. Future Deliveries of Contract Oats—Were unsettled, July closing lower and other months higher

JUNE—Slow at 41½c at the close.

JULY—Offered fairly. Sold at 39¼@39⅝c Opened at 39½c, sold at 39⅝c, to 39¼c, to 39⅝c at close

SEPTEMBER—Active. Sold at 31⅞@32¼c Opened at 32@32⅛c and 32⅛c sold at 31⅞c to 32¼c, to 32⅛c at close.

DECEMBER—Fair trading Sold at 32⅜@32¾c Opened at 32½c, sold to 32⅜c, to 32¾c, to 32½c at close.

RYE—Was unsettled. Feeling weak during the session, but closing was steadier. A few cars of fresh arrivals of No 3 were sold, but nothing doing in No 2 which remains entirely nominal Some demand developed for July delivery, and although an effort was made to break prices the closing was steadier. Only three cars received No withdrawals from store here and no export clearances from the seaboard No 2 entirely nominal. No. 3 fresh arrivals sold at 65@61c for poor to good.

Future Deliveries of No. 2 Rye—Some little trading in July, which sold at 60½c and was offered down to 58c, later sold at 60c, and closed with 60c bid September nominally 55c

BARLEY—A fair quantity of low grade Barley and Screenings appeared on sale Some of these cars have been on the market for several days There were sales, and demand was perhaps as good as it has been recently Even so it was tame, and rather a small supply of Oats was cited as the reason for a tame demand for mixing Barley. Of malting grades the offerings were light so was the demand light. The malting interest is practically out of the market for some time Only nine cars posted inspected in Sales of Screenings were made at 35@40½c for common to good; quotable over a range of 30@41c for low grade to choice Barley, low grade feed or mixing, quotable at 36@41c, outside for good weight and very poor, musty nominally lower, main sales were at 36@38c Malting, low grade, 38@43c; fair to good, sound, 44@48c; good color 50@54c, and fancy up to 56c

SEEDS—Little was done Nothing important developed New crop Timothy was a shade higher again while some kinds of Millet were easier, these were the changes which occurred

Timothy—There was no change in the cash market, or for contract old Seed, but new crop or September scored a further advance of 5c There was a sale at $3 25. There was a limited demand and little desire to sell has been manifested of late. Some cash Seed was offered, again mainly of only fair to common quality. Sales were at irregular prices but figures were not all given Contract spot, June or July delivery remained nominally $2 95 Country lots quotable at $2 00@2 85 for low grade to fancy choice about $2 70@2 75, fair to good Seed $2 50@2 60 and rough at $2 35@2 45.

Flax—In a nominal way yesterday's slightly improved prices were maintained Last quotations were said to be obtainable, but there were no offerings. Neither receipts nor shipments shown in the local postings. Northwestern movement small, receipts 4 cars at both Minneapolis and Duluth No 1 Northwestern or No 1 from the Northwest quotable as salable at $1 08 No 1 was at $1 01 Rejected was quotable at 95c@$1 02. June and July deliveries were $1 01 bid and September offered at $1 06.

Clover—Market in a nominal state, there were no offerings No change to note. Contract spot Seed about $10 75 Country lots, common to choice, $7 00@10 00; fancy above; mixed with Buckhorn or other weed Seeds, $6 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good at $8 50@9 50

Other Seeds—Nominal quotations for common and German Millets were lowered somewhat. All late sowing Seeds were easy and dull, yet the regular market was free from offerings Hungarian, common and light color to choice dark, quotable at $1 15@1 35. Common Millet $1 15@1 40 for poor to fancy. German Millet, $1 15@1 40 Siberian, 75@90c. Broom Corn Millet, $1 00@1 10. Early Fortune Millet, 85@95c Mustard 85c@$1 05 Buckwheat quotable at $1 65@1 75 for good.

HOG PRODUCTS—The market for Hog Products attracted fair speculative attention, and the volume of business was moderately large Outside orders were fair, and local trading was rather active Offerings were not quite as free as during the previous day, while the demand was moderately active Parties who sold late yesterday were inclined to accept fair quantities Packers were credited with selling the deferred deliveries Hogs were in good supply, and sold lower early, but rallied again toward noon. Receipts at the leading Western packing points were estimated at 89,600, compared with 73 400 one year ago Foreign advices indicated a quiet feeling in that quarter, and Liverpool quotations were reduced 3d on Lard and 6d on Hams Domestic markets were steady. Receipts of Products were quite liberal of Lard and Meats about 38 cars. Shipments were fair—of Lard and Meats about 114 cars. The speculative market opened rather easy, with a little pressure to sell, and prices ruled slightly lower on most descriptions, but as the offerings were readily absorbed a stronger feeling was developed, and prices rallied considerably on all the leading articles. At the improvement, there was some disposition to realize, and prices settled back to inside figures. Toward the close, prices rallied slightly all around, and the market closed comparatively steady. Trading chiefly in July and September contracts. Inquiry on shipping account was fair, and offerings were not very large Holders firm in their views and buyers a little slow to follow. Sales were fair, and prices well maintained

Mess Pork—Quite a good business was transacted in Mess Pork, and the feeling was somewhat unsettled. Offerings were fair, and the demand was moderately active Prices ruled irregular. Market opened rather easy, and a few trades were made at 2½@5c decline. Later, a stronger feeling was developed, with fair miscellaneous buying, and prices rallied 25@27½c. At the advance, the offerings were enlarged, and a weaker feeling was manifested. Prices settled back 26@27½c, but rallied again 7½@10c, and the market closed comparatively steady. Shipping demand was light, and offerings were moderate. Cash lots quotable at $12 35@12 40.

JULY—In fair demand and offerings were moderately free. Sales were made at $12 30@12 57½. Opened at $12 30, sold to $12 50, to $12 42½, to $12 45, to $12 42½, to $12 57½, to $12 30, to $12 35 to $12 30, to $12 40, and closed steady.

SEPTEMBER—Offerings were fairly liberal and the demand was moderately active. Sales were made at $12 52½@12 80. Opened at $12 55 to $12 57½, sold to $12 72½, to $12 70, to $12 72½, to $12 65, to $12 77½, to $12 75, to $12 80, to $12 77½, to $12 80, to $12 52½, to $12 57½, to $12 55, to $12 65, and closed steady.

Lard—Trade was fairly active in the Lard market, and the feeling was somewhat unsettled. Offerings were fair, and the demand was rather active Foreign advices were unfavorable to holders Market opened with a little pressure to sell, and a few trades were made at 2½@5c decline. Later, a stronger feeling was manifested, with fair miscellaneous buying, and prices rallied 7½@10c The advance tended to enlarge the offerings, and the market weakened Prices receded again 7½@10c, and the market closed steady around inside figures Inquiry on shipping account was limited and offerings only moderate. Cash lots were quotable at $6 67½@6 70 Loose lots in small request with limited offerings. Prices steady at about 50c discount on July figures Leaf Lard in moderate request and offerings were fair Prices quotably steady at $6 00 Neutral in only limited demand with fair offerings. Prices quotably steady at $6 87½@7 00 for No 1 and $6 62½@6 75 for No. 2.

JULY—In fair request and offerings were moderately free Sales were made at $6 70@6 80 Opened at $6 70 sold to $6 77½, to $6 75, to $6 80, to $6 72½, and closed steady

SEPTEMBER Offerings were rather free, and the demand was fairly active. Sales were made at $6 85@6 97½. Opened at $6 87½, sold to $6 95, to $6 90, to $6 95@6 97½, to $6 85, to $6 90, and closed steady

NOVEMBER—Quiet with small sales at $6 80.

JANUARY—Quiet and sold sparingly at $6 75

Short Rib Sides—Quite a good business was reported in Short Rib Sides, and the feeling was somewhat unsettled Offerings were fairly liberal, and the demand was quite active Outside orders were fair Market opened rather steady at the closing figures of Tuesday, but the demand was sufficient to readily absorb the offerings, and prices rallied 7½@10c. At the advance there was some pressure to sell, and prices receded 5@7½c and the market closed steady Shipping demand was light, and offerings were moderate Cash lots were quotable at $7 00@7 25 according to weight

JULY—In fair request and offerings were moderately free Sales ranged at $7 15@7 25 Opened at $7 15, sold to $7 20, to $7 17½, to $7 22½, to $7 20, to $7 25, to $7 15, to $7 17½@7 20, and closed steady

SEPTEMBER—Offerings were rather free and the demand was rather active Sales were made at $7 30@7 42½ Opened at $7 42½, sold to $7 37½@7 40, to $7 35@7 37½, to $7 37½, to $7 35, to $7 42½, to $7 32½@7 35 to $7 35, to $7 30 to $7 35, and closed steady

OCTOBER—Quiet with small sales at $7 37½

Other Meats—Trade was only moderate and feeling rather steady Offerings were not very large and the inquiry was only moderate Exporters bought sparingly and the home demand was only fair Green Meats in moderate supply with only fair inquiry, and prices ruled steady. Pickled Meats in fair demand and prices well maintained. Dry Salted Meats were in fair demand, with moderate offerings, and prices ruled steady. Smoked Meats called for in limited quantities, and prices were unchanged. Closing prices ranged as follows:

THE HOP SITUATION.

[New York Producers' Price Current, June 11.]

The Hop market remains in practically the same position as has characterized the trade for so long a time past. Weather is such that the beer business continues in very poor shape. It is impossible to interest brewers in Hops and the market continues to drag along. Owing to comparatively small stocks no concessions in prices are noted, holders feeling confident that Hops will be wanted sooner or later and show no disposition to hurry matters. Reports regarding the growing crop in the United States and Europe continue satisfactory.

THE WEATHER CONDITIONS.

There are rains all through Kansas and Missouri; heavy thunderstorms at Concordia, 2.12 inches, and .52 at Kansas City, rather light elsewhere. Cooler Northwest; higher temperatures elsewhere.

ITEMS OF GENERAL INTEREST.

A fire on Broadway, New York, Sunday, caused a loss of $200,000.

A fire, Monday, in the business district of Spooner, Wis., caused a loss of $40,000.

The business district of Cromwell, Ky., was destroyed by fire, Monday. Loss, $30,000.

The Mergenthaler Linotype Company has declared the regular quarterly dividend of 2½ per cent.

Books for the registration of the Railroad Securities Company, Illinois Central stock interest certificates, series A, will close June 20 for the regular dividend payment due July 1. Books will reopen July 2

A petition in involuntary bankruptcy was filed, Thursday, in the United States District Court against the Anderson Company, which has been conducting a large department store at Buffalo, N. Y. The liabilities, it is said, will amount to between $500,000 and $600,000 The capital stock is $300,000.

Chicago officials of the railroad line boats, who spent the greater part of last week in Buffalo, say no specific arrangements have been made as yet for starting those boats. They can get nearly all of their captains and mates, but there seems to be no desire for starting right away. Definite conclusions as to what will be done are expected this week.

The Directors of Chicago, Rock Island and Pacific Railway declared a dividend of 1¾ per cent, payable July 1. This makes the total declaration on the old issue for the year 8 per cent, or exactly the same yield offered by the new preferred and the bonds. The preliminary estimate of the earnings of the Rock Island Company shows approximately 1½ per cent earned on the common shares

Kansas City Southern is the object of a good deal of interest in some quarters at present because of the fact that before a year control of the road will again be vested in the hands of the stockholders. The Harriman voting trust, established in 1900, will expire by limitation April 1, 1905. If the voting trustees desire, or if sufficient pressure is brought to bear on them, they may dissolve the voting trust before that time.

Dornbusch of June 3 says of the French crops: "Consequent upon good crop conditions, farmers rather press their offers of Wheat, but as usual in such circumstances, the market is against them and even lower prices fail to attract many customers. The Flour market is not in a satisfactory state and millers are reluctant to buy Wheat. Much rain fell in the northern parts of the country, but moisture is needed in the South."

Dornbusch of June 2 says of the London Hop market: "The volume of business passing in this market continues on a very restricted scale, neither buyers nor sellers showing any disposition to enter into fresh business for the present. The market as a whole, however, maintains a steady tone, chiefly owing to very small supply available for sale, while values current, both on the Continent and in America, are above the parity of prices on this side."

It is doubtful if the directors of the Western Telephone Company declare a 3 per cent semi-annual dividend on the preferred stock at their meeting next month, although the stock is now on a 6 per cent cumulative basis. While the company is doing very well under the peculiar circumstances surrounding the telephone situation in the territory in which it is operating, the stock is not yet earning 6 per cent, and so long as it is not earned it will not be paid.

The Montreal and Boston Consolidated Mining and Smelting Company has been incorporated under the laws of Ontario, with authorized capital of $7,500,000, of which $6,500 000 will be issued to take over mining properties and to provide $150,000 working capital. It expects within three months to be smelting 1,200 tons of ore per day at a net profit of $2,500 per day, or a mining profit of $917,000 per year. The ores at present blocked out in the different mines aggregate over one million tons.

During the period extending from 1894-8, in the year, 86.9 kilos (191.5 lbs) of Wheat per head were consumed in Germany, and in the following five years the average quantity was 92 kilos (.02 7 lbs). The amount of Rye for the first period was 151 kilos (332.8 lbs) and 148.5 kilos (327.3 lbs) for the second. In the first half of the decade under consideration 16.1 per cent of the Wheat consumed was imported and in the second half 24.3 per cent. The figures for Rye are respectively 7.4 and 7.3 per cent.

The Buenos Ayres *Herald* of May 3 says: "Up to the present the new crop of Corn is not so well seasoned or so dry as last season's crop. The harvest time was not good, so that the rains spoilt quite a lot of this seed. Oats are beginning to arrive in much larger quantities now than at any time in the past. Argentine Oats are not up to much, as the land is too rich and the plant runs into straw. As a feeding stuff, however, they are hard to beat it and are now largely used for fine Stock."

Reports of the condition of the National Banks in Chicago as of June 9 last were made, Monday, in response to the call of the Comptroller of the Currency. In the aggregate they revealed local national institutions in an extremely easy position, and with the highest deposits ever recorded. Compared with the last previous call on March 28 the banks were shown to have gained $5,500,112, or 1.97 per cent, in deposits; $465,497, or .25 of 1 per cent, in loans, and $5,216,332, or 4.25 per cent. in cash resources.

Twenty-seven of the thirty-two Cotton manufacturing companies in Fall River, Mass., have declared their dividend for the second quarter of this year. The total amount paid was considerably less than in the corresponding quarter last year. It was less also than was distributed by the same mills in any corresponding quarter of the last ten years, except in 1897 and 1898. The aggregate amount paid in the quarter this year was $247,150, or 1.15 per cent on the total capital of the corporations paying.

The Allis Chalmers Company reports net profits for the year ended April 30, after deducting for depreciation and bad debts, of $954,024. From this was paid three quarterly dividends of 1¾ per cent each on the preferred stock, amounting to $853,125, leaving the surplus net profits of the year $99,499. During the year the company became the owner of $100,000 of its preferred stock and $180,000 of the common, which were canceled, reducing the outstanding capital stock to $16,150,000 preferred stock and $19,820,000 common.

A New York dispatch says: "Suits aggregating $1,500,000 probably will be filed against the millionaires who floated the United States Shipbuilding Company by those who invested on the strength of the glowing statements made by the organizers. The suits are inspired by the success of Charles H Kavanaugh of Waterford, N. Y., who began action for recovery against members of the law firm of Alexander & Green and Alvin W. Krech He received a check for $75,000 before the case came to trial."

James J. Hill, President of the Northern Securities Company, has issued a circular to stockholders in which he says that cash to pay the dividend declared on May 2 has been deposited in bank by the Northern Pacific and Great Northern Railroad companies, and that payment thereof will immediately follow the distribution and formal transfer of the railway shares. He adds that an early decision in the pending litigation against the proposed dissolution of the Northern Securities Company is expected.

Dornbusch of June 3 says of the crop outlook in Roumania: "Reports as to crop conditions are contradictory and in the main not satisfactory. Winter Wheat is irregular, and as rain came too late to do much good the yield is not expected to be up to the average. Spring Grain, particularly Corn, has been benefitted by the rain. Flax Seed will be a very small crop. In the immediate neighborhood of Braila the agricultural situation leaves much to be desired."

Close friends of the Metropolitan West Side Elevated Railroad Company, Chicago, are talking of a probability of resuming dividends on the preferred stock in August. They argue that the road will easily earn 5 per cent on the preferred stock this fiscal year, and with a surplus of about $25,000 in the treasury at the beginning of the year, the amount could be swelled to $100,000 at the end of the year, after paying 3 per cent on the preferred stock. Some look for 1 per cent on the shares in August and 2 per cent in February.

Deposits of the banks of Chicago, as shown by the official figures of conditions made public in response to the calls of the Comptroller of the Currency and the Auditor of Public Accounts of Illinois, at the close of business June 9 and the opening of business June 10, were the largest officially recorded in the history of the city. They aggregated $518,878,283. The highest previous totals recorded were shown in the last previous calls on March 22 and March 28—$529,822.658. A year ago the total deposits of the Chicago banks barely crossed $500,000,000.

A United States Steel director says: "The new Lake Superior Corporation will duplicate the experience of the Consolidated Lake Superior Company. The scheme to roll rails at the 'Soo,' made from Canadian ore, is wholly impracticable, and the negotiations now going on between the Lake Superior Corporation management and Ohio furnaces for the purchase of pig Iron is significant." The company will start out with a protection of $7 00 per ton on rails, and in case of goods dumped into the country at a less price than they are sold in the country of manufacture an additional duty of $2 80 per ton.

The Chicago *News Bureau* says: "The story is going the rounds in La Salle Street to the effect that there is a factional fight in the Harvester management. The big company is said to be losing business to independents, and one faction favors passing dividends, with a view of overcoming adverse sentiment among farmers of this country, who, it is said, contend that the trust is charging too much for its machinery. A local banker says this is being used as a cloak to cover a significant shrinkage in business, the same as has been experienced in nearly all other manufacturing enterprises."

The annual report of the Insurance Superintendent of the State of New York shows that three life insurance companies—the Equitable, the Mutual and the New York Life held on Jan. 1 stocks and bonds having an aggregate market value of $656,000,000. The total held by all life insurance companies in New York amounted to $1,055,000,000. During the year the New York Life's holdings increased $30,000,000, the Equitable's $3,000,000 and the Mutual's $1,000,000. The investments cover almost the entire range of high-class railroad stocks and bonds.

The report has been circulated freely for several days that the American Steel Foundries Company had made a new statement which is to be presented to the New York Stock Exchange with an application for the relisting of the company's stock. Vice-President George B Leighton says that the directors have taken no action whatsoever in regard to relisting the stock and the matter has not even been discussed formally by the board. There have been informal discussions, however, by some of the directors, but nothing is likely to be done until the autumn. That such an application will be made in due time, however, is entirely probable.

The *North British Agriculturist* of June 1 says: "The past week has been rather favorable for vegetation, though in some parts of the country the soil has been kept wet enough by the frequent and rather heavy showers that have fallen. Still the country is looking fairly well for the time of year. In the earlier districts the work of seeding the Turnip crop is now pretty well completed. The cereal crops are generally looking fairly well, and the Hay crop promises to be a full one. In the earlier districts Potatoes are beginning to show through the ground, and give promise of robust growth. On the whole, the crop prospects are improving, and, with good forcing weather, they would soon be fairly satisfactory."

Estimates of the United States Steel Corporation's earnings for the current quarter continue more favorable than a month ago. It is now said by those who have watched these figures closely since the organization of the company that the net earnings for the three months ending June 30 will be rather more than $20,000,000, and that the regular quarterly dividend of 1¾ per cent will be declared on the preferred stock. The earnings will not be officially announced until late in July, inasmuch as the day for the regular monthly meeting has been changed from the early to the latter part of the month. The net earnings, as they will be announced after the July meeting, will include the actual figures for June and not partly estimated figures as heretofore.

The Rock Island Railroad has reduced its preferred stock from $51,190,200 to $48,690,200 and requested the New York Stock Exchange to strike the $2,500,000 stock called in from the list. The stock returned to the treasury represents part of the price paid to the Southern Pacific for a half interest in the Texas lines. Officers of the State of Texas declared that the Rock Island as a parallel road could not own the lines partly purchased from the Southern Pacific. In 1903 the Rock Island purchased $5,000,000 of the Houston and Texas Central stock. $960,000 of the Houston, East and West Texas stock, and $200,000 of the Houston and Shreveport shares from the Southern Pacific. For the securities acquired the Rock Island turned over $2,500,000 preferred stock, $1,500,000 in cash and $3,500,000 five-year 4 per cent notes. It was announced, Friday, that the entire transaction had been canceled.

A move for a uniform inspection of Grains in all markets has been under way for some time. It is in charge of a committee of the Grain trade organizations, of which John C. Foering of Philadelphia is chairman. Thirty-nine Exchanges and boards of Warehouse Commissioners in the different cities and States and numerous Exchanges in Great Britain and on the Continent, have favored the move for a uniform grading. Chicago and Minneapolis have State inspection, which has been a stumbling block in the way of the committee's work. They have gone as far as they can, and until it is possible to harmonize the State inspection interest no further progress can be made. The grades established by the New York Produce Exchange are in force at the Atlantic seaboard ports, and are favored by a majority of the Exchanges. The Canadian Government has recently established an inspection East and West, each differing materially from the other sections.

Sixteen railroads terminating in Chicago, having a trackage of 36,920 miles, now have 6,712 less employes than a year ago, the reduction being only 3 per cent. The sixteen roads now have a total of 264,835 employes. Because of the decline in earnings further reductions in employes will be made. Between 1899 and 1903 the number of employes of roads terminating in Chicago increased 53 per cent, while the increase in wages was 61 per cent. In 1903 the increase in wages over 1902 was 17 per cent. The gross receipts of the sixteen roads for the nine months ending March 31 of this year increased $21,600,000, or 6 per cent over those of the corresponding period of the previous year, while their net earnings showed a decrease of $7,526,000, or 6.2 per cent. The present outlook is that not only will more employes be discharged, but wages will be reduced, either by cutting the price per hour or reducing the number of work hours per day.

The following securities have been listed on the New York Stock Exchange: An additional $150,000 of the first mortage fifty-year guaranteed 5 per cent bonds, due 1939, of the Rio Grande Junction Railway Company, making the total amount listed $2,000,000. An additional $393,000 of the Louisiana division, branch lines, first mortgage 5 per cent bonds, due 1931, of the Texas and Pacific Railway Company, making the total amount listed $4,241,000. An additional $886,000 of the first mortgage extention 5 per cent bonds, due 1944, of Missouri, Kansas and Texas, making the total amount listed $3,254,000 An additional $1,913,000 of the first consolidated mortgage guaranteed 4 per cent bonds, due 2000, of the Third Avenue Railroad Company, New York City Railway Company, lessee, making the total amount listed $36,913,000. An additional $2,354,000 of 4 per cent refunding 100-year mortgage bonds, due 2002, of the Metropolitan Street Railway Company, New York City Railway, lessee, making the total amount listed $15,134,000 Three million dollars of the 4 per cent noncumulative peferred stock of the Buffalo and Susquehanna Railroad Company.

The next report on the Cotton crop will be issued July 5.

The firm of W. H. Laidley & Co. went into the hands of a receiver, Wednesday.

Ten packers purchased 16,000 Hogs to-day; shippers 4,500 left over, 3,500. Market closed strong.

A Bordeaux (France) cable said: "Wheat and Oats promising well. No chance for imports of Grain this season"

Stocks of Hog Products at Chicago estimated at 53,000 brls Mess Pork, 114,000 tcs Lard, and 20,600,000 lbs Short Rib Sides.

Average cost price of Hogs at Chicago, Wednesday, was $4 9¼, against $4 97 Tuesday, $4 90 a week ago, and $6 18 a year ago.

Estimated receipts for to-morrow: Wheat, 23 cars; Corn, 297 cars; Oats, 99 cars; Rye, 1 car; Barley, 12 cars; Hogs, 19 000.

It is claimed that the weakness in Antwerp of 3⅛c is due to the arrival of speculatively held cargoes of Wheat and no demand for them.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to May 28 have amounted to 4,272,000 bu, against 4,861,000 bu in the previous year, and 2,260,000 bu in 1901-2.

Directors of the United Railways Company of St. Louis have declared the regular quarterly dividend of 1¼ per cent on the preferred stock, payable July 10 to shareholders of record June 26.

In Local Securities there was good trading in Can shares, common in particular being freely handled, with ¼ point range. Street's Stable Car was bought by investors and gained ½ to 1 point. Other shares were slow.

Weekly statement of the Bank of England shows an increase of £5,310,015 in Bullion. Proportion of reserve to liability is 51.8 per cent, against 50.13 per cent last week, and compared with an advance from 53 to 53⅛ per cent in this week last year.

Cotton in New York was higher, despite weakness and a small decline in Liverpool. There was liquidation early, and the market became oversold. This, was the chief cause for the late rally, and closing sales were at a decline of 4 points.

A Topeka, Kan., dispatch says: "Kansas Grain and elevator men, Wednesday, agreed upon an estimate of 80,000,000 bu of Wheat. The estimate is based on Secretary Coburn's recent report. This is 12,000 000 bu below last year's record-breaking crop. Wheat conditions are improving daily."

Reports from Kansas say that harvesting in the northern part of the State will not be on until the last of June and the first part of July. Advices from Oklahoma said the weather was fine and harvesting is progressing favorably. Texas had good weather, Tuesday, and threshing of Wheat was under way.

The Iowa crop bulletin says: "Nearly all of the unusually large Corn area has been cultivated once, with good progress in the second plowing. The stand is probably somewhat below normal, but it is generally better than previous reports indicated. Though the surface is dry there is sufficient moisture in the soil for present needs."

The Cincinnati *Price Current* reports the packing of the West for the week at 40,000 Hogs, compared with 490,000 for the week previous and 405,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 6,325,000 Hogs, compared with 5,850,000 for the corresponding time last year—an increase of 475,000 Hogs.

The *Northwestern Miller* says: "Opinions of the growing crop in Kansas are almost uniformly optimistic and indicate that, with seasonable weather from now on, a fine crop will be harvested. The same can be said of conditions in the Northwest. The cool wet weather has given the plant a fine, strong growth, and hot, forcing weather is all that is now needed."

The Cincinnati *Price Current* in its weekly crop summary says: "Wheat progressing favorably. Improving tendency in East and Southeast. Kansas low lands damaged some and too wet for harvest in the Southwest. Elsewhere conditions maintained. Corn slow growth, but well worked. Stand fairly good. Oats progressing favorably, with good acreage."

In the New York Stock market London was a seller of 30,000 shares Southern Pacific, and Wall Street liquidated freely, prices not being materially affected and net losses were small. Market in general displayed surprising steadiness, due to support from banking interests. Railway shares averaged slightly higher, and the list in general made small gains. Money 1⅛ to 1¼ per cent.

The Northwest Grain Dealers' Association wires from Winnipeg: "Estimated area under crop in Manitoba and Northwest Territories 3,420,411 acres, increase 9½ per cent; last year 3,123,663 acres. Oats 1,205,960 acres increase 9½ per cent; last year 1,101,333 acres. Barley 392,539 acres, increase 3 per cent; last year 381,135 acres. Flax 46,140 acres, decrease 28 per cent; last year 64,639 acres. The condition of the growing crops over the whole country is first-class, with the exception of some small areas which were sown late on account of too much water in the spring."

Broomhall cables: "The Russian Minister of Agriculture, in a report dated June 15, states that cold weather and drouth have caused serious damage to the crops, especially to the winter crop. The condition of Winter Wheat is below an average. In parts of the Southwest, Northwest and Central regions conditions are unsatisfactory to bad [The Southwest is an important growing district, the last two much less important] In the Southeast and North Caucasus—both important growers—the condition is good; elsewhere it is satisfactory. Condition of Winter Rye unsatisfactory to bad in same territories as Wheat, and in Little Russia a district where a fair amount is grown. Elsewhere the condition is satisfactory. Spring Wheat condition is good except in parts of Little Russia, a medium growing district. Condition of Rye and Barley is about an average."

REVIEW OF TO-DAY'S MARKETS

FLOUR—Dull and dragging. Prices 10c lower all around.

WINTER WHEAT—Ruled a little steadier and choice met with little better sale at the late decline, while medium and poor Wheat was dull as ever. No 2 Red in store nominally $1 01@1 02, and fresh arrivals free on board quotably $1 02@1 05. No. 3 Red fresh receipts free on board sold at $1 00½, and quotably down to 90c for poor. No 2 Hard fresh receipts free on board quotable at 88@92c, with a sale at 90c. No. 3 Hard fresh receipts free on board sold at 78@85c, depending on quality. No. 4 Hard sold at 73@75.

SPRING WHEAT—Was quiet. Trading limited to a few cars of fresh receipts, for which some little demand existed. No shipping demand. No. 1 Northern in store nominally 92@95c, and fresh arrivals free on board quotably 97@99c. No 2 Northern fresh receipts free on board quotably 92@95c. No. 3 Spring ranged nominally at 85@92c, with sales of a few cars at 86@88½c. No. 4 Spring sold at 65@78c and ranged at 65@88c.

REGULAR WHEAT—The market closed ⅝@⅞c lower for the day and on new ground. The selling was not as persistent late as earlier in the day, but any one wanting Wheat had no trouble in getting it. The mood was quite "bearish" as the market declined, but there were some in the trade who talked of a reaction from the decline on the morrow. There was a general lack of demand for cash, the business here and at the seaboard being exceptionally small. Kansas was asking for bids on August shipment, but no trades were made. There was a lower opening on the weakness in cables and the improved weather. Buda Pesth showed a drop of ⅜c, Berlin ¼c, Antwerp 3⅛c, Liverpool ⅛d, and London unchanged to ¼d off. Paris was an exception, closing unchanged to ⅛c better. The general weakness abroad was caused partially by the fact that a great deal of the Breadstuffs afloat is the property of speculators who are anxious to liquidate their holdings. Breadstuffs off coast are also owned largely by speculators. Spot Wheat at Liverpool, however, was unchanged. The large export business that was reported yesterday was questioned at that time, and a message from the seaboard says the business was the accumulation of ten days and that only about three loads a day are now being taken. In addition to the above there was some pressure to sell Wheat on account of a house that has asked for a receiver. Advices from the Northwest were "bearish." The Flour output for the week was only 293 000 brls, against 327,000 brls a year ago. Prices of Flour were weak in the Northwest and 10c lower at Chicago. Minneapolis Wheat stocks decreased 240 000 bu in five days and Duluth decreased 20 000 bu in three days. An early message from Minneapolis said that premiums for cash Wheat over July disappear. A later message said that millers were buying. Duluth message told of more Wheat being resold by foreigners in that market that had been purchased for September shipment. The official Russian crop report was construed as "bearish." Winnipeg receipts were only 72 cars, compared 210 cars a year ago. Primary receipts were 16,000 bu larger than a year ago, while the Northwestern were 19 cars smaller. A special from Argentina said that plowing was being impeded by drought, while reports from Italy said crop prospects were good. Wheat receipts at primary markets since July 1st 216,143 000 bu, compared with 211,725 000 bu last year. Receipts at Duluth 29 cars and at Minneapolis 190 cars, a total of 219 cars, against 129 cars yesterday, 120 cars a week ago, and 238 cars last year. Local receipts included 23 cars Winter, 6 cars Spring, 8 cars mixed, a total of 37 cars, against 26 cars last year. Included in the above were no cars contract grade. There were also 6 cars and no bu from unlicensed elevators. The estimated receipts for to-morrow are 23 cars. Withdrawals to-day were 30,530 bu. Receipts at Western points were 314,101 bu, against 298,643 bu last year. At Eastern points 13,208 bu, against 237,356 bu last year. Shipments from Western points were 150,099 bu, against 124,376 bu last year, and from Eastern points none, against 24,000 bu last year. Shipments of Flour were 30,613 brls. Exports of Wheat in Flour were equal to 137,758 bu.

Future Deliveries of Regular Wheat—Moderate business and closing lower.

JUNE—Entirely nominal.

JULY Old Style—Sold at 84¾@84⅞c and at 86⅛@86¼c. Opened with sales at 85¾@85⅞c and at 85⅝c; sold to 85½@85⅝c, to 86⅛@86¼c, to 85⅜@85½c, to 85½c, to 85⅜c, to 85⅝c, to 85⅛c, to 85¼c, to 84¾@84⅞c, to 85c, to 84⅞c, to 85c, and closed at 85c bid.

JULY—New Style—Sold at 84@85¼c. Opened with sales at 84⅞c to 84⅝c; sold to 84¾c, to 84⅝c, to 85¼c, to 84⅞c, to 85c, to 84½c, to 84¾c, to 84¼c, to 84⅜c, to 84c, to 84¼c, and closed at 84⅛@84¼c sellers.

SEPTEMBER Old Style—Sold at 81⅜@82⅜c. Opened with sales at 82c to 81⅞c; sold to 82c, to 81⅞c, to 82⅜c, to 82⅛@82¼c, to 82¼@82⅜c, to 81¼c, to 81⅝c, to 81⅜c, to 81½c, to 81⅜c, and closed at 81⅜c bid.

SEPTEMBER—New Style—Sold at 79⅝@79¾c and at 80⅝c. Opened with sales at 80½c to 80⅛c; sold to 80c, to 80⅝c, to 79⅞c, to 80c, to 79⅝@79¾c, to 79⅞c, to 79¾c, and closed at 79¾c bid.

DECEMBER—Sold at 79⅜@79½c and at 80⅜c. Opened at 80c, and sold to 80⅜c, to 79⅞c, to 80⅜c, to 79⅜@79½c, and closed at 79½c bid.

CORN—While there was a loss of ⅛c for the December, the market otherwise was up fractionally. This cereal was the strongest on the list, though closed tame. Cash business at a standstill. The market was again a room trading affair, and the situation presented a stronger front than that of Wheat. The trade was light with the offerings small and those wanting Corn were obliged to bid up for it. There was some buying of July for account of a house that has gone into the hands of a receiver. The "shorts" wanted September, and their purchases were again liberal. While the Liverpool future market was ⅛@¼d higher the spot was unchanged to 1d lower—latter for La Plata. There was further talk of drouth in Roumania, and the reports from sections of this country were less favorable. The long line of July Corn that was held here a few weeks ago still being sold in an easy way so as not to attract any attention. It is being replaced by a line of September. Receipts were 280 cars, of which 40 were contract, 34 cars and 112,000 bu were switched from private to public houses. Western receipts were 479,000 bu, compared with 463 000 bu a year ago. Clearances for the day were 3,457 bu. Car lots were in light supply and demand fair. Prices ruled steady to ¼c higher early, but closed with the advance lost. No. 2 closed at 48¾c. No 2 Yellow sold at 51¼c and closed at 51c. No 3 sold at 49@50c, outside for yellow, and closed at 48¾c. No. 3 Yellow sold at 50¾c, and closed at 50½c. No. 3 White sold at 49¼c. No 4 sold at 47@49c.

Corn by sample. Offerings small and demand good. Prices steady to 1c higher. Sales on track and free on board: No Grade sold at 35½@42c. No. 4 at 40@49c. No 3 at 49@50¾c. No. 3 Yellow at 50¾@51¼c. No 2 at 49¼@49½c. No. 2 Yellow at 51½c. No 3 White at 49¼c. No. 2 White at 49¼c. Billed through. No Grade sold at 43c. No 4 at 43@48½c. No 3 at 48c. No 3 Yellow at 50c. No. 3 White at 48c.

Future Deliveries of No. 2 Corn—Market moderately active and prices unsettled, closing ⅛c higher to ⅛c lower to unchanged for the day.

JUNE—Closed nominally at 48c.

JULY—Sold at 48¾@49¼c. Opened at 48¾c to 49c, sold to 48⅞c, to 49¼c, to 48¾c, to 48⅞c, to 48¾c, closing at 48¾@48⅞c asked.

SEPTEMBER Sold 49@49⅝c. Opened at 49c to 49¼c, sold to 49⅛c, to 49⅝c, to 49¼c, to 49½c, to 49⅛@49¼c, to 49⅜c, to 49¼c, closing at latter asked.

DECEMBER Sold at 44⅜@44¾c. Opened at 44½c to 44⅝c, sold to 44¾c, to 44⅜c, to 44¾c, to 44⅜c, to 44½c, closing at 44⅜c bid.

MAY—Sold at 43⅝@44c. Opened at 43¾c, sold to 44c, to 43⅝c, closing at 43⅝@43¾c asked.

OATS—Were strong and closed ⅛@¼c higher, December showing the most strength. A feature was the evening up of a large line by a house that passed into a receiver's hands late Wednesday. Commission houses bought early and sold later. Weather and crop reports were favorable. Cash business was slow; 10,000 bu Standard to local feedmen at 42@42¼c in store. Arrivals were 89 cars and 99 cars are expected to-morrow. Withdrawals 5,000 bu and export clearances 26,197 bu. Car lots to go to store were steady to ¼c higher. No 3 White sold at 43¾c. Standard in store closed at 41¾@42c.

Oats by sample were in fair request and prices steady to ¼c higher. Offerings were moderate. Sales on track and free on board: No Grade at 34@37c. No. 4 at 36½c. No. 4 White at 39@43c. No. 3 at 39½@40c. No. 3 White at 41½@43¾c. Billed through. No. 4 White at 37@42c. No 3 at 39½c. No 3 White at 38½@43¼c. Standard at 43¾c. No. 2 at 40c. At the river: No 4 White at 34½@40c. No. 3 White at 40½@42c.

Future Deliveries of Contract Oats—Were traded in moderately and prices closed higher.

JUNE—Quiet; closed at 41¾c.

JULY—Liberal trading. Sold at 39⅜@39⅝c. Opened at 39⅜c, to 39½c; sold to 39⅝c to 39⅜c, to 39½c at close.

SEPTEMBER—Active. Sold at 32⅛@32½c. Opened at 32¼c to 32⅛c, sold to 32¼c, to 32½c, to 32¼c at close.

DECEMBER—More interest taken. Sold at 32½c and at 32¾@32⅞c. Opened at 32½c to 32⅝c, sold to 32¾@32⅞c, to 32⅝@32¾c at close.

RYE—Was very quiet and prices little better than nominal. The day's trading comprised the sale of a few cars of fresh arrivals of No 3 at 60½c and No. 4 at 55@57c. Futures held steady. Receipts eight cars. There were no withdrawals and no export clearances from the seaboard. No. 2 in store entirely nominal.

Future Deliveries of No. 2 Rye—Quiet. July 60c bid. September nominally 55c.

BARLEY—For low grades the market remained heavy. It could, however, be noticed that the offerings had gone down some, so there was that much betterment, and yet a number of cars again remained unsold. Good Barley for malting was unchanged. A small demand was present, about sufficient to take the offerings. There really was nothing particularly new to note. Thirteen cars were inspected in. Very little was done in Screenings; they remained quotable over a range of 30@41c for low grade to choice. Barley, low grade feed or mixing, quotable at 35@41c, outside for good weight, and very poor, musty nominally lower. Malting, low grade 38@43c; fair to good sound, 44@48c; good color, 50@54c, and fancy up to 56c.

SEEDS—There was no trading in any line of Seed to-day. Cash offerings were entirely absent. No change in any line of cash Seed. The only feature was that new crop Timothy was offered at a small reduction.

Timothy—Was lifeless. The only no development was that September delivery was offered 5c lower, at $3 20 and $3 15 was bid. For old Seed the market was inactive and nominally unchanged. Contract spot, June or July delivery nominally $2 95. Country lots quotable at $2 00@2 85 for low grade to fancy, choice about $2 70@2 75, fair to good Seed $2 50@2 60 and rough at $2 35@2 45.

Flax—Nothing was done. The market was devoid both of demand and offerings, and values were nominally the same as last quoted. Neither receipts or shipments appeared in the local postings. Northwestern receipts were 9 cars at Minneapolis and 11 cars at Duluth. Prices were nominal as follows: No 1 Northwestern or No 1 from the Northwest quotable at $1 08. No 1 at $1 01. Rejected was quotable at 95c@$1 02. June and July deliveries were $1 01 bid and September could probably be had at $1 06.

Clover—Lifeless and no change to note. Contract spot Seed about $10 75. Country lots, common to choice, $7 00@10 00; fancy above; mixed with Buckhorn or other weed Seeds, $8 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good at $8 50@9 50.

Other Seeds—No trading. There were no consignments of any of the lines mentioned below on sale. Tone of the market easy. Quotable: Hungarian, common and light color to choice dark, at $1 15@1 35. Common Millet $1 15@1 40 for poor to fancy. German Millet, $1 15@1 40. Siberian, 75@90c. Broom Corn Millet, $1 00@1 10. Early Fortune Millet, 85@95c. Mustard, 85c@$1 05. Buckwheat quotable at $1 65@1 75 for good.

HOG PRODUCTS—The market for Hog Products attracted considerable speculative attention, and the volume of business was fair. Outside orders were not very large, and local trading was good. "Shorts" and local packers accepted fair quantities, and offerings were scattering and from miscellaneous sources. Market opened rather firm, influenced to some extent by the receipts of Hogs, which were less than generally anticipated, and sold at higher prices. There was considerable competition for the offerings, and prices were advanced moderately on all the leading articles. At extreme figures, there was inclination to realize, and prices receded slightly all around, but later rallied again, and the market closed rather steady. Receipts of Hogs at the leading Western packing points were estimated at 88,700, compared with 63 700 one year ago. Returns of the packing of the West for the week, compared with the corresponding week in 1903, exhibited an increase of 8 000 Hogs. Foreign Provision markets were quiet and prices unchanged. Domestic markets were steady. Receipts of Products were quite liberal, of Lard and Meats about 82 cars. Shipments were moderate—of Lard and Meats about 82 cars. Inquiry on shipping account was fair and mainly for the home trade. Offerings were moderate, and holders rather firm in their views. Sales were not very large and prices well supported.

Mess Pork—Trade was fairly active in the market for Mess Pork and the feeling was stronger in a general way. Offerings were not very large, and the demand was fair. "Shorts" bought fair quantities. Market opened rather firm at 7½@10c advance and further improved 10@15c with fair miscellaneous buying. Later, the market was not so strong, and prices receded 10@15c, but rallied again 12½@15c, and the market closed comparatively steady. Shipping demand was light, and offerings were limited. Supply reported to be increasing. Cash lots quotable at $12 60@12 65.

JULY—In fair request and offerings were moderate. Sales were made at $12 47½@12 65. Opened at $12 47½ to $12 65, sold to $12 60, to $12 55, to $12 62½, to $12 65, to $12 60, to $12 65, and closed steady.

SEPTEMBER Offerings were fairly liberal and the demand was moderately active. Sales were made at $12 72½@12 90. Opened at $12 80 to $12 85, sold to $12 82½, to $12 85, to $12 82½, to $12 90, to $12 75, to $12 70, to $12 75, to $12 77½, to $12 72½, to $12 90, to $12 87½, and closed steady.

Lard—Rather a good business was transacted in Lard, and the feeling was stronger in a general way. Offerings were fair, and the demand was moderately active. Foreign advices unchanged. Stock on hand steadily increasing. Bulk of the trading in September contracts. Market opened rather strong, with fair miscellaneous buying and prices were 7½@10c higher. At the improvement, there was a little pressure to sell, and prices settled back 2½@5c. Toward the close, the feeling was steadier, and prices ruled 2½@5c higher, and closed steady. Inquiry on shipping account was limited and offerings only moderate. Cash lots were quotable at $6 77½@6 80. Loose lots in small request with limited offerings. Prices steady at about 50c discount on July figures. Leaf Lard in moderate request and offerings were fair. Prices quotably steady at $6 00. Neutral in only limited demand with fair offerings. Prices quotably steady at $6 87½@7 00 for No 1 and $6 62½@6 75 for No. 2.

JULY Demand was fair and offerings were moderate. Sales were made at $6 80@6 87½. Opened at $6 80 to $6 87½, sold to $6 85, to $6 85, to $6 82½, and closed steady.

SEPTEMBER—Offerings were rather free, and the demand was quite active. Sales were made at $6 95@7 05. Opened at $6 95 to $7 02½, sold to $7 05, to $7 00, to $7 02½@7 05, to $6 97½, to $7 00@7 02½, to $6 95 to $7 00, and closed steady.

JANUARY Quiet, with small sales at $6 75.

Short Rib Sides—Quite a good business was reported in the market for Short Rib Sides, and the feeling was a little unsettled. Offerings were moderately free, and the demand was rather active. Supplies gradually enlarging. Market opened rather firm, with fair miscellaneous buying, and prices were 5@10c higher, and a further improvement of 2½c was gained. At the advance there was some pressure to sell and prices receded 10@12½c, but toward the close rallied 5@7½c, and the market closed comparatively steady. Shipping demand was moderate in a quiet way, and offerings rather light. Cash lots quotable at $7 00@7 25 according to weight.

JULY—In rather good request and offerings were fair. Sales were made at $7 22½@7 35. Opened at $7 25 to $7 32½, sold to $7 35, to $7 27½@7 30, to $7 32½, to $7 25, to $7 27½, to $7 22½, to $7 27½, and closed steady.

SEPTEMBER—Offerings were rather free, and the demand was fairly active. Sales were made at $7 40@7 52½. Opened at $7 45 to $7 50, sold to $7 52½, to $7 47½, to $7 50, to $7 45, to $7 47½, to $7 40, to $7 45, to $7 40, to $7 47½, to $7 45@7 47½, and closed steady.

OCTOBER Quiet with small sales at $7 52½.

Other Meats—Trade was only moderate and feeling rather steady. Offerings were not very large and the inquiry was only moderate. Exporters bought sparingly and the home demand was only fair. Green Meats in moderate supply with only fair inquiry, and prices ruled steady. Pickled Meats in fair request and prices well maintained. Dry Salted Meats were in fair demand, with moderate offerings, and prices ruled steady. Smoked Meats called for in limited quantities, and prices were unchanged. Closing prices ranged as follows:

GREEN—Hams av 10@12 lbs, 9⅜@9½c; 12@14 lbs, 9⅛@9¼c; 14@16 lbs, 9@9⅛c; 18@20 lbs 9½@9⅝c; Skinned Hams, 10½@10¾c; Shoulders, 6⅛@6¼c; Picnic Hams, 6¾@7c, Bellies, 9@11c. PICKLED—*loose*—Hams, 10@12 lbs 9⅝@9¾c; 12@14 lbs 9⅛@9¼c; 14@16 lbs, 9⅛@9¼c cash, 9⅛@9¼c June; 18@20 lbs, 9½@9⅝c, Skinned Hams, 10¾@10⅞c cash, 10¾@10⅞c June, Shoulders 6½@6¾c, Picnic Hams, 7¼@7⅜c; Bellies 8½@10½c. DRY SALTED—*loose*—Shoulders, 6¼@6⅜c; Short Fat Backs, 6@7½c; Short Clear Backs, 7¼@7⅜c; Clear Bellies, 7¾@8¼c; Rib Bellies, 7@8c; Extra Short Rib Sides, 7@7¼c; Extra Short Clear Sides, 7@7⅛c; Rough Sides, 7@7¼c; Plates, 5¼@5½c; Jowl Butts, 4⅜@4¾c. *Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

+Flour made by mills outside of St. Louis, but controlled in that city.

Unexpectedly, Minneapolis mills were quite generally shut down Friday morning and so remained until this morning. This cut two working days out of last week and one out of the present week. The result was that the output last week fell short of the estimate. To day 13 mills, mostly of the larger size, were in operation, and the week's output promises to approximate 265,000 brls. For the same week in 1903 the production was 243,185 brls.

Less Flour was sold last week by Minneapolis mills than in the week before, as they had no advancing Wheat markets to help them out. Therefore, sales were less than the output. With distant Wheat futures so much lower than current spot prices, the policy of buyers is to take as little Flour as they can get along with. In two or three cases, it was notable that shipping directions on old orders came in much more freely, and the mills are being given a chance to clean up old accounts in a way that affords some satisfaction.

Export trade remained dead. The most to be said was that Baltic ports took small lots of Patent and some First Clear. Holland and the United Kingdom also bid some for the latter grade.

On Friday the mills quite generally reduced their prices 5@10c per barrel, and quotations of Minneapolis and outside mills range at $4 75@5 00 per 196 lbs in wood f. o. b. Minneapolis.

The range of Eastern price to-day (June 14) asked by Minneapolis and outside mills for Patent in wood was: Boston rate points, $5 55@5 70; New York rate points, $5 50@5 75; Pittsburg rate points, $5 30@5 50; Baltimore rate points, $5 40@5 65; Philadelphia rate points, $5 45@5 60; Albany rate points, $5 50@5 75; Rochester and Syracuse rate points, $5 45@5 70; Buffalo rate points, $5 3 @5 50; Michigan, $5 05@5 25 in sacks; Iowa, Illinois and Wisconsin, $5 00@5 25 in sacks; Missouri points, $4 85@5 10 in sacks.

Shortage of Wheat in the Ohio Valley keeps up prices and shuts off any speculative demand. In the Southwest, trade in spot stuff remains dull, but inquiries are beginning to come for new crop shipment, though millers are very cautious, and do not care to shade prices much for future delivery, owing to the uncertainty of the crop outcome and of millfeed prices. Export trade remains practically out of the question. As a rule, American prices on Patent are from 1s 6d to 2s higher than foreigners care to pay. An occasional small lot is sold to keep a brand before the trade.

THE INDIAN WHEAT CROP.

[From Beerbohm, June 3.]

The crop reports from India continue of a most favorable character; the final official reports from the Northwest Provinces, Bombay and Bengal indicate a yield of about 500,000 tons more than last year, and there is little doubt that the Punjab return will add to this increase compared with last year, when the total crop was officially given at 7,780,000 tons, against 6,008,000 tons in 1902. A total crop this year of 8,500,000 tons, or 40,000,000 qrs, seems therefore probable. What this may mean in regard to the quantity available for export may best be judged by the following comparison of the crops and exports of the past seven years, for the seasons ending March 31:

	Crop, quarters.	Exports, quarters.
1904	*40,000,000	......
1903	36,700,000	5,800,000
1902	28,000,000	2,250,000
1901	31,500,000	1,750,000
1900	23,000,000	12,000
1899	29,500,000	2,250,000
1898	31,000,000	4,500,000
1897	24,000,000	550,000

*Estimated.

The home consumption in India is a variable quantity; that is to say, it increases when the price obtainable for export is low, and decreases when the price is high. There is little doubt, as we have already suggested in these columns, that India could this season, if necessary, export 12,000,000 qrs. Since April 1 this year (nine weeks) about 1,400,000 qrs have already been shipped, as compared with 1,010,000 qrs last year.

CROPS IN RUSSIA.

[From Dornbusch, June 3.]

Official advices from St. Petersburg, dated May 29, state: "During the past week the temperature has continued low throughout European Russia. In the Northeast the thermometer marked one degree below freezing, while in some places snow fell; in general, the temperature was 10 degrees below the mean, with rain and hail in the South, and snow in the North. The sudden change of temperature has prejudicially affected the development of vegetation, particularly the late-sown spring Grain, especially in many localities of the black soil zone and the Central Governments. The crops are in a critical state in the Southeast and North Kaukasus, where the early spring seedlings were injured and partly lost through the March frosts, and the resowings have now suffered from this week's cold spell. However, in general the spring-sown fields have not been materially affected, while the autumn cereals still look in very favorable condition, owing to the abundant moisture in the soil, and, although developing slowly, promise a good but a rather late harvest. Inland markets remain steady and in many of them supplies are small. Black Sea ports report a quiet trade in the absence of export demand."

BOSTON WOOL MARKET.

BOSTON, June 10.—The *Commercial Bulletin* says: "The Wool situation is very strong. Manufacturers are keeping in touch with events and doing a good deal of shopping. In a quiet way considerable has been sold, mostly old Wool, at higher prices than could be obtained a few weeks ago. Buyers have advanced their bids. Some new Wools, early bought, have been selling at a profit on interior cost. Interest in the West is centered principally in Oregon and Montana. In the latter State contracts on the Sheep's back amounting to 7,000,000 lbs have been made. One-half of the Oregon clip has been sold on the sealed bid basis. Prices are high everywhere.

"The shipments of Wool from Boston to date from Dec. 31, 1903, are 95,831,366 lbs, against 100,202,026 lbs at the same time last year. The receipts to date are 103,790,675 lbs, against 93,774,018 lbs for the same period last year."

WHEAT AT PRIMARY MARKETS.

The following table shows the receipts of Wheat at Winter and Spring Grain markets for fifty weeks, from June 30 to June 13, with comparisons, as compiled by the Cincinnati *Price Current*:

COTTON GROWING IN ARGENTINA.

The *River Plate Review* was the first English paper in the River Plate that drew attention to the possibilities of Cotton growing in Argentina and Paraguay, and it is satisfactory to note that what we wrote years ago is now being fulfilled. Considerable interest is now being shown in the cultivation of the Cotton plant, and as the news from Europe, where samples of our Cotton had been sent, is most favorable, it is to be expected that the attention of those interested in the Cotton trade will be directed toward these shores. In Paraguay the banks are now deeply interested in the Cotton question, and the cultivation of the plant is to be carried out on a large scale. In Chaco, Misiones, Tucuman and other up country provinces, attention is also being given to this cultivation, and we firmly believe that before many years have transpired Argentina will become one of the principal Cotton-producing countries of the world, as she has been with Grain and Wool. The quality of our Cotton leaves nothing to be desired, and the area in which it can be grown is unlimited, labor is also cheap in those districts, so that we have everything in our favor.

GOVERNMENT CROP NEWS NOT COMPLETE.

E. R. Williams, of Boston, says:

"Replying to inquiries, would state that there are no Government or official quantitative crop estimates made during the growing crop season. The only actual crop figures given by the Agricultural Bureau have, of late years, been in December, after all the returns were in. While the Government issues monthly, beginning with April and ending with December, estimates of the percentage of the condition, also of the acreage, they always omit informing an anxious public what the 100 equivalent means. The main essential is omitted.

"We are told the acreage and the percentage, the product of which two multiplied by the 100 equivalent gives the indicated crop; but we are left to guess—or, in other words, each expert is left to his own devices to figure out what is meant by 100. The variety of estimates is thus accounted for. No comparison can, therefore, be made between private estimates and official estimates, except in the month of December, when the latter are published."

AGRICULTURE IN GREAT BRITAIN.

[From the Agricultural Gazette, May 30.]

The rains of last week were entirely welcome in most parts of the country, if not in all, and their effect, with warm weather to help them, is striking, the growth of crops having been very rapid. At the present time the Oat crop promises to be the best of the white-straw crops, Wheat being, as is well known, quite out of the running, while Barley on some cold soils lacks color at present, though a spell of sunshine would quickly improve it in that respect. Spring Beans generally are thick and flourishing, and Peas are moderately satisfactory as a rule, except where the slug has preyed upon them badly. A good deal of the spring Grain is still very backward for the end of May, but a continuance of such growing weather as has occurred recently would bring the crops up to time. A sunny, but not too dry, June is to be desired. At present there is plenty of moisture in the soil, and sunshine is the great desideratum, but the latest crops will require rain at intervals for the next few weeks.

THE WEATHER CONDITIONS.

There are light rains in Missouri and Iowa. Good rains in Ohio Valley. Generally clear Southwest, West and Northwest. Cooler West.

Indications are for generally fair weather in this forecast district.

ITEMS OF GENERAL INTEREST.

The Cincinnati, Hamilton and Dayton Railroad has been sold to a syndicate of Boston men.

The Otis Elevator Company has declared the regular quarterly dividend of 1½ per cent on its preferred stock, payable July 15 to stockholders of record June 30.

The Fitchburg Railroad Company has declared the regular quarterly dividend of 1¼ per cent on its preferred stock, payable July 1 to stockholders of record June 1.

Directors of the United Fruit Company have declared a dividend of 2 per cent, an increase of one-half of 1 per cent, payable July 15 to stockholders of record June 30.

The Bankers' National Bank of Chicago has declared its regular quarterly dividend of 2 per cent, payable June 30 to stockholders of record at the close of business June 22.

The number of new telephones installed by the Chicago Telephone Company in May was 1,656, making the total in service 108,884. The increase from Jan. 10 to June 1 was 7,697 phones.

An increase in the assessment of the railroads in Nebraska has been voted by the state board of equalization, the 70 per cent rise voted meaning in round figures an added revenue of $19,000,000.

The Commercial National Bank of Cambridge, Ohio, and a branch, the People's Savings Bank of Byesville, failed to open Tuesday. The Commercial had $25,000 of city and $12,000 of school funds on deposit.

"Crop prospects are brilliant and Flour demand dead," was the way a Minneapolis miller summanized the Northwestern situation, Tuesday. Others reported enlarged offerings of Wheat at interior points.

It was stated, Tuesday, that no more Coal will be shipped from Chicago to Wisconsin points by lake. Steamers are now bringing enough Coal from the lower ports to relieve the famine which formerly existed.

The directors of the Minneapolis and St. Louis Railway, decided at New York, Tuesday, to pass the dividend on the common stock and declared the regular semi-annual dividend of 2½ per cent on the preferred stock.

The Texas Central Railroad Company has declared the regular semi-annual dividend of 2½c per cent on the preferred stock; also a dividend of 2½ per cent on its common stock. Both are payable July 15. Books for both close July 5 and reopen July 16.

The shipments of Flax Seed from India from April 1 to date amounted to 4,472,000 bu (Calcutta 2,688,000 bu and Bombay 1,784,000 bu), against 5,536,000 bu last season (Calcutta 3,176,000 bu and Bombay 2,360,000 bu), and 6,320,000 bu in 1902 (Calcutta 3,576,000 bu and Bombay 2,504,000 bu).

J. P. Morgan & Co. announce that $10,000,000 of New York Central and Hudson River Railroad 4 per cent debenture bonds offered publicly, Tuesday, at 97½ were oversubscribed. Boston, Philadelphia and Chicago took large amounts, and about $2,000,000 of the debentures were placed abroad.

The receipts of Flax Seed at Bombay for the week ended May 12 amounted to 8,140 tons, against 9,703 tons in the previous week and 7,870 tons in the same week last year. The total receipts at Bombay from Jan. 1 to May 12 amounted to 95,344 tons, against 85,502 tons in the same period last year.

Gould interests have won a decided victory in their contest connected with the extension of the Western Maryland. The Maryland State Court of Appeals handed down a decision, Thursday, sustaining the right of the Western Maryland to construct bridges and condemn a right of way across the property of the Chesapeake and Ohio Canal.

Officials of leading railroads say that while some of the Western companies are buying new equipment there will be no very large orders placed in the near future. The better outlook for crops is prompting some of the roads to buy cars for renewals, but the outside car builders will not receive more than what may be called the overflow.

The figures of condition of the State banks, at Chicago, made public Tuesday, showed the Chicago institutions in even easier conditions than supposed. Since the last previous call on March 22 the local State banks lost $2,025,744, or 1.3 per cent, in loans, and gained $13,555,513, or 5.42 per cent, in deposits, and $13,517,529, or 15.06 per cent, in cash resources.

It is reported that the syndicate now in control of the Pere Marquette Railroad is to get possession of the Cincinnati, Hamilton and Dayton Road. It is reported also that the Pere Marquette has acquired the Toledo Belt Railway and that bankers have been asked to buy $3,500,000 worth of bonds on this property, to be guaranteed jointly by the Cincinnati, Hamilton and Dayton and the Pere Marquette roads.

The North American Company reports for the year ended May 31 an excess of receipts over expenses of $801,292, as compared with $477,537 in the previous year, an increase of $323,755. After writing off the company's interest in the United States Ship Building Company there remains, according to the balance sheet, undivided profits of $1,739,333, against $1,330,140 at the end of the previous year.

An officer of the International Harvester Company is quoted as follows: "I have no knowledge of what dividend policy the directors contemplate, and, moreover, it would not be good judgment for me to anticipate their actions through public announcement, even if I did. I can consistently say, however, that business is running along very satisfactorily, despite the depression shown in many other lines."

A New York telegram says: "Considerable comment was aroused in all circles, Tuesday, by the renewed reports that the administration will shortly institute anti-trust proceedings against the anthracite coalers under the Sherman law, and based on the rulings in the Northern Securities case. The financial community has hailed the resignation of Attorney General Knox as indicating that no proceedings on this line will be begun by the new incumbent for some time, or until he is familiar with the subject."

Vice Chancellor Reed in the Court of Chancery at Trenton, N. J., has handed down an opinion in the case of the Vulcan Detinning Company against American Can Company. He says: "I will allow a limited injunction, restraining all the defendants from further communicating any part of the trade secret to any person, and from giving any further instructions concerning the process to any employe, and from employing any person in the transaction of the business involving the use of the trade secret other than those now employed."

This morning's *Oklahonian* has the following: "The reports concerning the Wheat crop are most gratifying. Alderman Shelby yesterday made the following statement: That on his farm near this city the Wheat will yield 23 bu per acre. Abner Day made a test of some Wheat on his farm which tested 63 pounds. Other farmers are coming into the city with most gratifying reports, and it is certain there will be much more harvested in Oklahoma County than was expected a month ago. Fine rains and good crop weather have worked wonders with the growing Wheat. Harvesting is reported in many localities."

A dispatch from New York says: "Considerable disappointment was expressed, Tuesday, that the Northern Securities management has abandoned its effort to hit upon a plan by which the dividends upon Great Northern and Northern Pacific securities held by the company might be disbursed to shareholders. The Hill-Morgan interests still talk confidently to the effect that the decision will be favorable, that the distribution will take place promptly, and that the held-up dividends will then be disbursed. It is of some significance to note that the recent talk of a compromise settlement between the Hill-Morgan and the Harriman interests has been dropped. This is taken to mean that even if the coming decision is unfavorable to the Harriman interests the latter will carry the case to the United States Supreme Court.

The following statement has been issued by the United States Steel Corporation: "Owing to the change in the by-laws, as announced by the chairman of the board after the meeting of the directors on May 3, 1904, in the following statement: 'The by-laws were amended by changing the date of the regular monthly meetings of the board from the first Tuesday of the month to the last Tuesday of the month. The reason for the change is that under the by-laws, as they previously existed, the question of dividends was considered on the first Tuesdays of April, July, October, and January, for the quarters ending with the months of March, June, September, and December. This necessitated action based on the estimate of earnings for the last month of the quarter. The change in the by-laws will give opportunity to ascertain the exact figures before the day of the meeting of the board—the June meeting of directors will be June 28. The July meeting, when the question of dividend for the quarter ending June 30 will be considered, will be held on the last Tuesday of July—viz., the 26th.'"

The National Association of Grain Dealers has made a demand on the railroads for radical changes in the rules governing demurrage of cars. The association insists that the arrangement shall be reciprocal, the railroads paying the shippers for the detention of freight on the basis that the shippers are compelled to pay the railroads for the detention of cars. For example, it is demanded that when a shipper makes verbal or written application to a railroad company for cars to be loaded with any kind of freight the cars shall be furnished within four to seven days following the receipt of the application. On failure to do so the offending company shall pay the shipper at the rate of $1 00 a car a day on a written demand for the sum made within thirty days. It is further demanded that when a railroad shall be offered freight in less than car load lots it shall immediately be received and be carried forward at the rate of not less than fifty miles a day, beginning with the day following the receipt of the shipment. Failure to do this will subject the railroad to a fine of $1 00 a car a day unless the delay is caused by accident.

Chicago Bank Clearings to-day, $27,847,123.

Chicago Board of Trade memberships sold, Thursday, at $3,075 and $3,087½ net to the buyer.

Ten packers purchased 12,500 Hogs to-day; shippers 4,500, left over, 1,500. Market closed steady.

Weekly statement of the Imperial Bank of Germany shows an increase of $6,020,000 in cash on hand.

Reported that 120,000 bu Wheat, 40,000 bu Corn, and 70,000 bu Oats were taken at the seaboard to-day for export.

The receipts of Hogs at Chicago for the week will be about 136,000, compared with 173,550 for the corresponding week last year.

Estimated receipts for to-morrow: Wheat, 19 cars; Corn, 357 cars; Oats, 101 cars; Rye, 1 car; Barley, 11 cars; Hogs, 10,000.

Directors of the Philadelphia and Erie Railroad Company have declared a regular semi-annual dividend of 2 per cent, payable July 8, as registered June 25.

The Mechanics' National Bank, New York, has declared a semi-annual dividend of 5 per cent, an increase of 1 per cent over the previous declaration, payable July 1.

Average cost price of Hogs at Chicago, Thursday, was $5 04, against $4 96 Wednesday, $4 97 Tuesday, $4 92 last Monday, $4 84 a week ago, $4 74 a month ago, and $6 17 a year ago.

The receipts of Wheat at Liverpool during the past three days were 432,000 bu, of which 104,000 bu were American. Receipts of Corn, 120,000 bu, of which 16,000 bu were American.

Applying the Department of Agriculture percentages of condition in the Northwest to the acreage reported by the Minneapolis *Market Record* indicates an aggregate yield for the three States of 209,700,000 bu.

Argentine Wheat visible is 3,680,000 bu, against 3,896,000 bu the previous week, and 4,272,000 bu last year. The Argentine Corn visible is 3,232,000 bu, against 3,472,000 bu the previous week and 2,743,000 bu last year.

A London cable says: "Argentina Corn quality is very good, but there are complaints of the season being too dry. Frosty weather is interfering with the sowing of Flax Seed throughout Northern Argentina."

Local Securities were slow except for Can shares. The latter were sold freely and receded, losing yesterday's advance. Street's Stable Car was moderately handled at ½ decline on common and ½ advance on preferred.

The forty-sixth annual report of the Board of Trade of the City of Chicago, compiled by Geo. F. Stone, Secretary, presenting full details of the Grain, Provisions, Seeds and Live Stock trades for 1903, has just been issued.

Shipments of Wheat from Argentina this week were 1,224,000 bu, against 1,938,000 bu the previous week, and 1,776,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 63,744,000 bu, against 44,218,000 bu same time in 1903.

Cotton in New York weakened on active selling by the South and by holders in general. News was "bearish," particularly in the Dry Goods line. Closing prices were 32 to 34 points lower on near and 5@16 points lower on deferred deliveries.

Shipments of Corn from Argentina this week were 1,896,000 bu, against 2,160,000 bu the previous week and 1,610,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 20,911,000 bu, against 12,090,000 bu for same time last year.

The Argentine correspondent of the *Northwestern Miller* estimates that on May 20 there remained in that country for export 40,000,000 bu Wheat and 12,000,000 bu Flax Seed. Aggregate exports on the crop estimated at 90,000,000 bu Wheat and 36,000,000 bu Flax Seed.

The shipments of Flax Seed from Argentina this week were reported at 701,000 bu, compared with 976,000 bu last week, and 224,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 29,876,000 bu, compared with 17,733,000 bu for the corresponding time last year.

Stocks in New York were weak and lower on profit-taking in Tractions especially, which lost ¼ to 1½. Union Pacific and Southern Pacific were well supported in the morning and advanced ⅜ to 1 point, but lost it and closed lower. Trading was smaller than yesterday. Money 1¼ per cent.

Bradstreet's reports the exports of Corn from the Atlantic and Gulf ports the past week at 297,000 bu, against 68,000 bu for the previous week and 1,089,000 bu for the corresponding week last year. Exports from July 1 reported at 50,519,000 bu, compared with 64,333,000 bu for corresponding time last year.

A Chicago operator back from Nebraska says: "All crops promise well. Corn rather weedy. Farmers will sell no Corn below 40c (this basis is 52c Chicago) until new crop is made. Probably holding 10 per cent of last crop. Feeders in West will probably take it all. Wheat harvest begins about July 6."

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 2,041,000 bu, against 1,482,000 bu for the previous week, and 3,617,000 bu for the corresponding week last year. Exports from July 1 reported at 132,262,000 bu, compared with 213,377,000 bu for the corresponding time in 1902-3.

Although there was transferred to New York from San Francisco only $132,460, and $2,135,000 was transferred from New York to San Francisco, the known movements of money indicate a gain in cash by the New York banks this week of $7,324,000. Of this amount $6,192,000 came from the interior and $1,132,000 from the Sub-Treasury.

Sales of American Copper for export have been very heavy within the last few days, aggregating about 4,000 tons, mainly for August shipment. Independent prices were 12⅝c to 12 19c, delivered in Europe, showing a reduction of 10 to 12 points under the foreign basis set by the Amalgamated Company. Total exports for first half of June amounted to about 7,000 tons, showing that the foreign movement is unprecedented for this season of the year. Domestic demand is also good.

The *Modern Miller* says: "The Winter Wheat harvest is steadily advancing northward, with conditions favorable, excepting temporary interruptions by rain in the Southwest. Cutting has begun in Southern Kansas, Missouri and Illinois. The returns received thus far indicate a satisfactory yield of Grain, of which the quality is generally good. Mills in the South, including Texas, are running on new crop Wheat. The prospects are that the movement from the farms will be free as soon as the crop is ready for marketing."

REVIEW OF TO-DAY'S MARKETS

FLOUR—Demand slow and market dull and easy. Prices 10c lower on the week.

WINTER WHEAT—Was dull and Red Wheat entirely nominal with little demand for Hard, which was steady. No. 2 Red in store nominally 98c@$1 00, and fresh arrivals free on board quotably 99c@$1 01. No. 3 Red fresh receipts free on board 93c@$1 00. No. 2 Hard fresh receipts free on board quotable at 88@92c, with a sale at 90c. No. 3 Hard fresh receipts free on board sold at 80@86c, depending on quality. No. 4 Hard sold at 72c.

SPRING WHEAT—Was quiet. Trading was again very limited. Feeling weaker. No shipping demand. No. 1 Northern in store nominally 92@95¼c, and fresh arrivals free on board quotably 97@99c. No. 2 Northern fresh receipts free on board quotably 92@95c. No. 3 Spring ranged nominally at 85@92c, with sales at 85c. No. 4 Spring sold at 85c and ranged at 65@82c.

REGULAR WHEAT—Just a fair speculative business was reported in this market, which closed ⅛c to ½@⅝c lower than yesterday. The trade was largely local and market started out stronger, influenced mainly by the smaller Argentine shipments and the fact that foreign markets did not sympathize fully with the decline on this side yesterday. As the session advanced, however, liquidation by tired "longs" set in and prices settled back, the favorable crop news being the dominant factor. Argentine shipped 1,224,000 bu and since January 1 aggregate 63,744,000 bu, against 44,218,000 bu last year. The visible there is now 3,680,000 bu, against 3,896,000 bu last week and 4,272,000 bu one year ago. Liverpool quoted spot steady to 1d lower and futures ⅛d higher to ¼d lower. Receipts there past three days 432,000 bu, of which 104,000 bu came from America. London steady to ⅛d lower. English country markets were easy and 6d lower on the week. Cargoes on passage were quoted as dull, with all buyers holding off. Liverpool steadied by better spot demand and smaller Argentine shipments. Paris was steady to ¼c lower. Berlin advanced ⅜c and Buda Pesth declined 1c. The map showed generally favorable conditions and showers were indicated West and Southwest, but clear in the Dakotas. St. Louis wired Texas was offering No. 2 Red to arrive by July 15 at 85c and asking for bids. A prominent St. Louis miller claimed to have only 10,000 brls Flour sold ahead for July, August and September shipment, against 150,000 brls at this time last year. The Minneapolis *Market Record* estimated the area in the Northwest 636,000 acres larger than the Government reported last year. Stocks at Duluth are expected to decrease 150,000 bu and Minneapolis decrease 400,000 bu. Primary receipts were 129,000 bu smaller than last year and arrivals in the Northwest 143 cars less. Exports moderate and total for the week 2,044,000 bu, against 3,617,000 bu last year. Acceptances at the seaboard 15 boat loads. *Modern Miller* summary was construed as "bearish." Winnipeg wired: "Elegant weather for the crops; foreigners 'bearish' on Wheat and bids 2c lower on Manitoba than Saturday." Milwaukee millers reported first sales of Flour for export in two months. Liquidation in September general closing hour and last prices near bottom. Receipts at Duluth 9 cars and at Minneapolis 96 cars, a total of 105 cars, against 219 cars yesterday, 142 cars a week ago, and 248 cars last year. Local receipts included 14 cars Winter, 3 cars Spring, 3 cars mixed, a total of 20 cars, against 31 cars last year. Included in the above were 5 cars contract grade. There was also 1 car and no bu from unlicensed elevators. The estimated receipts for to-morrow are 19 cars. Withdrawals to-day were 20,000 bu. Receipts at Western points were 223,268 bu, against 352,174 bu last year. At Eastern points 40,032 bu, against 52,070 bu last year. Shipments from Western points were 131,051 bu, against 82,997 bu last year, and from Eastern points none, against 119,401 bu last year. Shipments of Flour were 7,860 brls. Exports of Wheat in Flour were equal to 35,370 bu.

Future Deliveries of Regular Wheat—Fair trade and prices lower.

JUNE—Entirely nominal.

CORN—The trade was of very moderate volume and market a little slow at times, transactions being almost exclusively local. Rather a weak undertone was prevalent, and the close was ¼@½c lower. The weather was looked upon as favorable, receipts were larger than expected and crop advices more satisfactory. There was scattered July liquidation, and September was offered with rather more freedom. Receipts were 329 cars with 39 cars contract, and 357 cars were estimated for to-morrow. Liverpool quoted spot ½@1d lower and futures ⅛d lower. Receipts there past three days 120,000 bu; 16,000 bu came from America. Showers were predicted for the principal Corn States. There were transferred from private to public elevators 4 cars and 117,500 bu contract. Western receipts were 455,000 bu, last year 648,000 bu; shipments 377,000 bu and 299,000 bu respectively. Local arrivals 330,000 bu and shipments 269,000 bu. Exports 77,000 bu, and total for the week 299,000 bu against 1,789,000 bu last year. Argentina shipped 1,896,000 bu, and since Jan. 1 aggregate 20,911,000 bu against 12,090,000 bu last year. Visible there is 3,232,000 bu, last week 3,472,000 bu and 2,743,000 bu one year ago. Little progress is being made in plowing and seeding in Argentina, owing to the drouth. Shipping demand moderate and sales 100,000 bu. Car lots in fair demand and moderate supply. Prices were easy. No. 2 closed at 48¼c. No. 2 Yellow sold at 51c and closed at 50½c. No. 3 sold at 48¾@50c, outside for yellow and closed at 48c. No. 3 Yellow at 50¼c, and closed at 50c. No. 3 White at 48¼@48¾c. No. 4 at 46½@47c and No Grade at 43c.

Corn by sample—Choice yellow steady, while low grades were weak and ½@1c lower. Demand rather light and offerings fair. Sales on track and free on board: No Grade sold at 31@42½c. No. 4 at 40@49¼c. No. 3 at 48½@50c. No. 3 Yellow at 50¾@51c. No. 2 at 49¾@51c. No. 2 Yellow at 51@51½c. No. 3 White at 48¾@49¼c. No. 2 White at 49c. Billed through: No. 4 at 47½@48c. No. 3 Yellow at 49½@50¼c. No. 2 Yellow at 49¾@50½c. No. 3 White at 47¼@47¾c.

Future Deliveries of No. 2 Corn—Moderately active and weaker, closing ¼c to ½c lower.

JUNE—Inactive and closed nominally 47¾c.

JULY—Sold at 48@49c. Opened at 48⅜@48¾c and 48¾c, sold to 49c, to 48½c to 48¾c, to 48⅝c, to 48c, to 48¼c, to 48@48⅛c, to 48⅜c, and closed at 48⅜c asked.

SEPTEMBER—Sold 48½@48⅝c and 49⅜c. Opened at 49⅛c to 49¼c, sold to 49⅜c, to 48⅞c, to 49@49⅛c, to 48½@48⅝c, to 48¾c, and closed at 48¾c bid.

DECEMBER—Sold at 41@41⅝c and 44½c. Opened at 44½c to 44⅝c and sold at 44⅜c, to 44½c, to 44¼c, to 44¼c, to 44@44⅛c, to 44⅜c, and closed at 44⅛c bid.

MAY—Sold at 43⅜@43½c and 43¾c. Opened at 43¾c, sold to 43⅝@43½c, and closed at 43⅜@43½c.

OATS—Were depressed by liquidation of July by "longs" and in sympathy with the break in Wheat and Corn. There was moderate support on the break, but little was offered early. Prices receded and closed at a net loss of ⅜@⅝c. Other months declined and closed at almost the bottom at a net loss of ⅜@½c. Cash sales were 40,000 bushels here and 70,000 bushels at New York. Arrivals were 112 cars with 10 cars estimated to-morrow. Withdrawals were 9,600 bu and exports 12,000 bu. Crop reports were favorable. Car lots in store and to go to store were steady for good. No. 3 White sold at 42¾@43½c. Standard in store closed about 41¼@41½c.

Oats by sample were in good request and steady for good, and ½@1½c lower for poor, the latter being slow. Sales on track and free on board: No. 4 White at 37@42½c. No. 3 at 39c. No. 3 White at 41½@44c. Standard at 45c. Billed through: No. 4 at 32c. No. 4 White at 37c. No. 3 at 39½c. No. 3 White at 42¼@43¼c. Standard at 43¾@44c. No. 2 at 40c. At the river, No. 4 White at 36@39½c. No. 3 White at 39@42c.

Future Deliveries of Contract Oats—Were weak and lower with moderate trading.

JUNE—Slow; closed at 41¼c.

JULY—Offered freely. Sold at 38⅝@39⅜c. Opened at 39⅜c, sold to 38⅝c, to 38¾@38⅞c at close.

SEPTEMBER—Fair trading. Sold at 31⅝@31¾c and at 32¼c. Opened at 32⅛c to 32¼c, sold at 32¼c, to 31⅝@31¾c, to 31¾@31⅞c at close.

DECEMBER—Sold at 32⅛@32½c. Opened at 32½c, sold to 32¼c, to 32⅛@32¼c at close.

RYE—Was very quiet and market quotably steady. Only one car was received and there were no withdrawals from store here and no clearances from the seaboard. No special feature to the market. No. 2 was nominally about 65c, choice sample might command a little more. No. 3 fresh receipts sold at 60@62c and No. 4 sold at 52@58c.

Future Deliveries of No. 2 Rye—Quiet. July sold at 60c and closed steady. September nominally 56c.

BARLEY—Considerable low grade Barley was again available. Some was sold, but only a limited quantity could be placed. It was very weak. Apparently a shade lower prices again prevailed in the sales. After a small quantity was disposed of the demand was over. Sellers had to put aside their samples and wait for another day. Low grade and common Screenings very dull and easy, at the same time really choice would sell, and few such cars offered. There was only a little malting Barley offered, enough for all that was wanted. It was easy unless choice. Posted 13 cars inspected to-day. Screenings were quotable at 30@41c for low grade to choice. Barley, low grade feed or mixing, quotable at 35@40c, outside for good weight and very poor, musty nominally lower. Malting, low grade, 38@43c; fair to good, sound, 44@48c; good color, 50@54c, and fancy up to 56@58c.

SEEDS—The Seed market was again without business. There were no cash offerings aside from a lot of Millet. Late sowing Seeds are ruling very weak. Timothy, Flax and Clover all remained unchanged.

Timothy—For September delivery $3 10 was the only price heard bid; that was 5c below what was bid for it yesterday. Nothing was done. Little desire to sell was manifested and $3 25 was asked. The cash market was entirely nominal: it was without offerings. No change was quotable. Contract spot, June or July delivery nominally $2 95. Country lots quotable at $2 00@2 85 for low grade to fancy choice about $2 70@2 75, fair to good Seed $2 50@2 60 and rough at $2 35@2 45.

Flax—Was inactive and nominally unchanged. There was nothing whatever of this line on sale. No local receipts reported; 4 cars or 3,623 bu were taken out. Minneapolis receipts 10 cars and Duluth 2 cars. No. 1 Northwestern or No. 1 from the Northwest quotable at $1 08. No. 1 at $1 01. Rejected was quotable at 94c@$1 02. June and July deliveries were $1 01 bid and September obtainable at $1 06.

Clover—Nominally unchanged. Nothing in this line on sale. Contract spot Seed about $10 75. Country lots, common to choice, $7 00@10 00; fancy above; mixed with Buckhorn or other weed Seeds, $6 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good at $8 50@9 50.

Other Seeds—Hungarian and Millets were called weak. Market dull. Very little order demand. Other crops are doing so well that prospects are not good for trade in late-sowing Seed. Although weak no special change quoted. Quotable, Hungarian, common and light color to choice dark, at $1 15@1 35. Common Millet $1 15@1 40 for poor to fancy. German Millet, $1 15@1 40. Siberian, 75@90c. Broom Corn Millet, $1 00@1 10. Early Fortune Millet, 85@95c. Mustard, 85c@$1 05. Buckwheat was easier and about 10c lower; quotable at $1 5?@1 65 for good.

HOG PRODUCTS—Less interest was manifested in the market for Hog Products and trading was moderate. Outside orders were rather light, and local trading was moderate. Packers traded in limited quantities. Hogs were in fair supply and prices slightly higher. Receipts at the leading Western packing points were estimated at 56,200, compared with 65,500 one year ago. Foreign markets were steady and Lard quoted 3d higher. Domestic markets steady. Receipts of Products were liberal—of Lard and Meats about 31 cars. Shipments were fair—of Lard and Meats about 110 cars. Speculative market opened rather firm, with fair miscellaneous buying, and prices were advanced moderately on all the leading articles. After the early orders were provided for there was some inclination to realize and a weaker feeling was manifested. Prices receded moderately, and the market closed steady at nearly inside figures. Trading chiefly in July and September contracts. Inquiry on shipping account was light and offerings were moderate. Sales were somewhat limited and prices without material change.

Mess Pork—Only a fair business was transacted in Mess Pork, with the bulk of the trading on local account. Offerings were moderately free, and the demand was only fair. Early, the feeling was rather strong, and prices were advanced 2½@5c. Later, a weaker feeling was manifested, with a little pressure to sell, and prices settled back 17½@20c, but rallied 2½@5c, and the market closed comparatively steady. Very little demand on shipping account, and offerings were moderate. Cash lots were quotable at $12 50@12 55.

JULY—In moderate request and offerings were only fair. Sales were made at $12 50@12 70. Opened at $12 67½ to $12 70, sold to $12 55, to $12 70 to $12 65, to $12 67½, to $12 50, to $12 57½, to $12 55, and closed steady.

SEPTEMBER—Offerings were moderately free and the demand was fairly active. Sales were made at $12 77½@12 95. Opened at $12 90, sold to $12 92½, to $12 87½@12 90, to $12 95, to $12 87½, to $12 95, to $12 77½, to $12 8?@12 82½, and closed steady.

Lard—Trade was only fair in the Lard market. Offerings were not very free, and the demand from all sources was moderate. Foreign advices were a little more favorable to holders. Market opened somewhat steadier, and prices ruled 2½@5c higher. Later, there was some inclination to realize, and prices gradually receded 10@12½c, and the market closed comparatively steady around inside figures. The inquiry on shipping account was rather limited and offerings only moderate. Cash lots were quotable at $6 76@6 77½. Loose lots in small request with limited offerings. Prices steady at about 50c discount on July figures. Leaf Lard in moderate request and offerings were fair. Prices quotably steady at $6 00. Neutral in only limited demand with fair offerings. Prices quotably steady at $6 87½@7 00 for No. 1 and $6 62½@6 75 for No. 2.

JULY—In only moderate demand and offerings were fair. Sales were made at $6 77½@6 90. Opened at $6 87½ to $6 90, sold to $6 85, to $6 87½, to $6 77½@6 80, to $6 80, and closed steady.

SEPTEMBER—Offerings were not very large and the demand was fair. Sales were made at $6 95@7 05. Opened at $7 02½ to $7 05, sold to $7 02½, to $7 00, to $6 95, to $6 97½ and closed steady.

JANUARY—Quiet, with small sales at $6 80.

Short Rib Sides—A moderate business was reported in the market for Short Rib Sides, and the feeling was a little unsettled. Offerings were moderately free, and the demand was fairly active. Early, the feeling was rather firm with the demand somewhat in excess of the offerings, and prices were advanced 2½@5c. Later, a weaker feeling was developed, and prices settled back 10@12½c, and the market closed rather steady. Shipping demand was light, and offerings were moderate. Cash lots were quotable at $7 00@7 25 according to weight.

JUNE—Sold sparingly at $7 22½.

JULY—In fair request, and offerings were moderate. Sales were made at $7 20@7 32½. Opened at $7 30, sold to $7 30@7 32½, to $7 30, to $7 32½, to $7 20@7 22½, to $7 22½, and closed steady.

SEPTEMBER—Offerings were fair, and the inquiry was moderate. Sales were made at $7 40@7 50. Opened at $7 50, sold to $7 47½, to $7 50, to $7 47½, to $7 50, to $7 40, to $7 42½, and closed steady.

OCTOBER—Quiet with small sales at $7 52½.

Other Meats—Trade was rather light and feeling comparatively steady. Offerings not very large and the inquiry was only moderate. Exporters rather backward and the home demand was rather light. Green Meats in moderate supply with only fair inquiry, and prices ruled steady. Pickled Meats in moderate request and prices well maintained. Dry Salted Meats were in light demand, with moderate offerings, and prices ruled steady. Smoked Meats called for in limited quantities, and prices were unchanged. Closing prices ranged as follows:

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, June 15.]

During the past week the Winter Wheat crop has fully maintained its previous condition. East of the Mississippi River the general tendency has been favorable improvement; in the Ohio Valley, where the stand generally is very thin, and the acreage much reduced, many reports are made that the Winter standing is making large heads and are filling well. South of the Ohio River, where the crop is nearly ready to harvest, the improvement in the tenor of reports is noted. In Nebraska and Missouri also the crop has made favorable progress. Kansas reports generally indicate good yields, on the whole but medium hands have been engaged by reapers. Reports from various sources, from Texas and Oklahoma, indicate that over the larger part of that area harvesting has been hindered by excessive rains, and slight damage has resulted.

The Spring Wheat crop is doing about as well as could be reasonably expected; the week was cool, precipitation light, that is, under the needs; except that in North Dakota there was some excess, damaging moderately to low lands.

The week was highly favorable to work in the Corn fields, and the crop is fairly well cleaned, except in Kansas, where it is still very weedy, due to excessive rains. Over the important Corn States the temperature last week was favorable to favorable growth, and the crop already is later than usual. The stand is variable, but on the whole is fairly good. In some sections, particularly in Illinois and Indiana, favorable reports are made of the good stith of the soil. Complaints of cut worms are scattering, and about as numerous as in average years. In the Southern States where here been beneficial rains the conditions have improved, and throughout the South the promise is now good.

Record reports in regard to Oats have been favorable as a rule, indicating a full maint nance of previous outlook, and on the whole promising a good average crop

In Ohio Wheat is maturing favorably, with large, full heads, as a rule; estimates generally range from one-third to three-fourths crop, the majority report a full half crop, and on the whole 50 per cent of a average crop may be expected if conditions continue favorable. Corn cultivation has progressed favorably, and is in fair to good condition in regard to stand and cultivation, but is moderately late; some still being planted in the north; acreage large. Oats continue to promise a large yield from a large acreage. Minor crops generally promise to good results.

In Indiana the Wheat crop, although with thin stand and reduced acreage, is heading out favorably as a rule, in some instances surprisingly well. Some apprehension from Hessian fly in western localities is expressed, but on the whole nearly 60 per cent of a crop may be expected. Past week was too cool for rapid growth, and too dry in east central and north-eastern parts. Plenty of moisture fell on Sunday week in central counties, and week was fine for Wheat, which is heading and maturing favorably. Oats rather short in some eastern counties, but on the whole give about an average promise; some western counties give very good promise

In Iowa the past week was very favorable for cultivating Corn, which is generally clean, and the stand has improved, and is fair to good; soil is in good condition; acreage is large Small Grains generally have done well; and Oats have come up to a good average condition.

In Missouri the Wheat prospects have been fully maintained during the past week, and a fairly large crop is expected from the acreage planted; in some western counties there appears to be excessive, small yields are expected. The Corn crop is below an average in condition; up to the past week it was retarded planting being late, and the stand is variable. But it is being actively cultivated, and the weather lately has been more favorable for it. Oats prospects variable, and on the whole only fair. Hay crop promising.

In Kansas Wheat prospects have been slightly reduced by damage done by overflows to bottom lands; on other than bottom lands Wheat prospects are generally excellent; harvest season fully a week late. The Corn crop is very weedy owing to excessive rains, but generally has good stands, and that sown in central and western counties is increased, notwithstanding the wet weather, but less than originally intended, especially in eastern counties. Oats are progressing favorably and give fair to good promise.

NORTH WESTERN SPRING WHEAT ACREAGE

[From the Minneapolis Market Record.]

From replies received from 1,000 inquiries sent out by the *Market Record* on June 9 last, it would appear that the Wheat acreage in the State of Minnesota and the Dakotas is somewhat larger than it was a year ago. The reports show an increase of 4 per cent in Minnesota, 2.4 per cent in South Dakota, and 9.8 per cent increase in North Dakota. The May reports on acreage, as reported in the *Market Record* by its large number of correspondents, showed an increase in Minnesota of 3½ per cent, a decrease in South Dakota of 4½ per cent, and an increase in North Dakota of 9 per cent over 1892.

Using the figures of the Department of Agriculture on acreage for 1893, there appears to be an increase this year of 94,382 acres in Minnesota, 46,1-2 acres in South Dakota, and 75,7-2 acres in South Dakota. over the acreage of last year a total increase this year for the three States of 638,388 acres. The reports say that the condition of growing crops, with the exception of Corn, is generally good at the present time. The weather was cool during the spring and up to the present time, which resulted in small Grain still looking well. A strong hold in the ground, so that now they are in a thoroughly healthy condition and capable of withstanding much unfavorable weather.

In South Dakota Corn does not promise an increase of about a per cent over last year's acreage. In North Dakota Oats show an increase of 13 per cent and Barley 25 per cent increase. Flax shows only about 6½per cent of last year's acreage seeded this year In Minnesota there is some increase in the area given to Corn and Oats. Barley shows a falling off and so does Flax, with Rye about the same. The general condition of all Grains is excellent, excepting Corn, which is backward owing to the cool weather.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current June 16]

The supply of Hogs continues to be maintained in fairly liberal numbers. Total Western packing 49,000, compared with 190,00 the preceding week and 488,000 two weeks ago. For corresponding time last year the number was 405,000 and two years ago 460,000. From March 1 the total is 6,325,000, against 5,850,000 a year ago—an increase of 475,000. The quality continues good as a general rule. Prices are higher, prominent markets at the close showing a general average of about $4 90 per 100 lbs, compared with $4 75 a week ago, $4 60 two weeks ago, $5 05 a year ago, $7 15 two years ago, and $8 05 three years ago.

The speculative Provision market was fairly active the past week Prices were advanced on liberal buying of a general character. The advances were not supported to the close, and prices receded from the high point which was attained on Monday. There were no specific developments in the situation affecting prices, and the trading was largely confined to a purely speculative account. In a general way the demand for Products has improved slightly, and exporters as well as the domestic trade took larger quantities. Domestic packers were ready to firm. The export clearances of Product were fair, although smaller than the ideal movement for the preceding week, but were larger than for the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year.
Pork, pounds	300,000	458,000
Bacon, pounds	10,411,000	10,925,000
Total, lbs	10,711,000	11,383,000
Lard, pounds	9,715,000	7,597,000
Total, Product	20,426,000	18,941,000

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since March 1, at undermentioned places, compared with last year, as follows:

March 1 to June 15—	1894.	1893.
Chicago	1,850,000	1,720,000
Kansas City	770,000	570,000
Omaha	775,000	710,000
St. Louis	528,000	410,000
St. Joseph, Mo	470,000	470,000
Indianapolis	800,000	290,000

WHEAT AND CORN EXPORTS.

[From the Cincinnati Price Current.]

The exports of Wheat and Flour from the United States for the past eleven months have been about 213,000,000 bushels, against 177,000,000 bushels for the crop year ending June 30. This compares with 243,000,000 bu for the preceding year, and an annual average of 186,000,000 bu for ten years prior to the current season, and 177,000,000 bu for the last seven seasons, but 126,000,000 bu. for 1895-6, and the high point 235,000,000 bu., for 1901-2. Corn exports for the year will not exceed 60,000,000 bu, which compares with an annual average of 100,000,000 bu for ten years previously, during which period the quantity fell to 26,000,000 bu, for 1891-2, reaching 209,000,000 bu in 1887-8 and 1892-3.

The following tabulation by the Cincinnati *Price Current* shows the approximate exports of Wheat, including Flour, and of Corn, for the year ending June 30, 1894, and corresponding periods for years:

USE TOO MUCH CORN.

Prof. W. A. Henry, who stands at the head of authorities on Stock Feeding in this country, says if it is not possible to fatten our Steers on a much smaller quantity of Grain than has been customary in the past.

He finds that the British farmer gives to his fattening Beeves but a very small Grain allowance, the average in England and Scotland ranging from 400 to 600 pounds of Grain daily. Many feeders in the Middle and Western States feed from twenty to thirty pounds and often as much as thirty-five pounds of Corn daily.

The British feeder covers up Barley, Corn Meal, Cotton Seed Meal and Flax Seed Meal. The Turnip, or Rutabaga as we call it, is also used extensively in Great Britain. Forty to fifty to one hundred pounds of sliced Turnips, four to five pounds of good Straw and five to ten pounds of Hay are fed with the small Grain ration. There is no denying that the English Beef is as good as ours when put on the block.

Prof. Henry says that the American farmer could fatten Beef more economically if some Silage and Oats were fed. Cotton Seed Meal, cheap and lands were cheap little attention was paid to this fact; but, with the higher prices of both, the silo and the root crops are important factors. Prof. Henry says that if there is any profit in Corn, roots and silage it is in favor of silage. If silage is such a good thing for a dairy Cow it ought to be good for young cattle of Beef breeds and finally for fattening Steers.

THE WEATHER CONDITIONS.

General warming up all over the West. Temperatures in Manitoba unusually high, 86 to 68. Partly cloudy West, Southwest, and in Ohio Valley, with scattered light rains and thunderstorms.

The only rainfall of consequence shown on the map is at Huron, S D., where there is 1.38 inches. Temperatures extreme Northwest 82 to 66; North-west, 84 to 68; Missouri Valley, 90 to 66; Southwest, 84 to 74; Ohio Valley, 84 to 74. Scattered showers elsewhere.

Indications are for scattered showers accompanying the Western disturbance. The unsettled conditions may reach this section Saturday, but it is doubtful. Temperatures will rise generally throughout the Central Valleys.

A sample of new No. 2 Red Wheat from Texas was received at Chicago, Thursday. The Wheat is plump, a little dark and damp, showing the effects of recent rains, but withal it averages very good.

Rochester, N. Y., has awarded the $572,000 two months' notes at 109.05 and $130,000 eight months' notes at 103.08. The interest on the notes will be at the rate of 3½ per cent.

Reports from St. Louis, Wednesday, said a number of fields of Wheat in St. Charles County, Missouri, will run 30 to 40 bu per acre. There are also reports that rust has appeared in the Wheat fields in Southern Illinois.

The $3,000,000 bond pool which was formed to take the Aurora, Elgin and Chicago first mortgage bonds will expire July 1, and it is said that the pool has been extended for one year, subject to the sale of the bonds by the committee.

The United States Bureau of Etomology estimates the loss last season from chinch bugs at $60,000,000. The census estimates the loss at $49,272,989, but the etomologists claim that it included the loss from every cause in the regions where the bugs were active.

Directors of the Southern Pacific Railroad, Wednesday, voted to recommend to the stockholders the authorization of an issue of $100,000,000 7 per cent preferred stock. The proposition will be voted upon by the stockholders at a special meeting some time next month.

A Boston dispatch says: "The demand for Wool in the local market remains quiet, but a firmer tone is noted. Old lots are being cleared away as rapidly as possible. The new clip has arrived, but the sales have not been of sufficient size to indicate the relative value of the crop. The market for fleece Wools is nominal on spot."

The District Court at Austin, Texas, has assessed $37,000 penalties against the Pullman Company and the Fort Worth and Denver City Railway, as suit of the State charging violation of the anti-trust law through an exclusive contract for the operation of Pullman cars. Twenty-seven similar suits, involving $1,500,000, are pending.

The Lehigh Valley Railroad Company, Tuesday, made a reduction of 50c a ton on pea and buckwheat Coal. These are steam sizes, and come in competition with soft Coal. The reduction makes the prices of pea Coal from $3 00 to $2 55, and buckwheat from $2 50 to $2 40 f. o. b in New York. It is expected other companies will meet the Lehigh Valley rates.

Railroad traffic managers are viewing with some alarm the fact that during May the exports of cereals and breadstuffs from the United States were rolled at $15,000,000, against $25,000,000 in May, 1893. The packing-house products, however, about held their own, with exports valued at $14,-000,000. The high price of Wheat and other Grains is said to be the cause.

The American Steel Foundries Company has applied to the New York Stock Exchange to list $15,500,000 of its cent cumulative preferred stock and $15,000,000 common stock, the issue of which were stricken from the Stock Exchange list early in the year because of discrepancies discovered in the company's statement submitted when the stocks were originally listed.

Directors of the United Fruit Company have voted to authorize the issue of approximately $2,000,000 of new stock to be offered to shareholders of record at the close of business July 15 at par at the rate of 1½ shares for each ten shares held on that date This will enable the holders of convertible bonds to exchange their bonds and become entitled to subscribe for the new stock if exchange is effected before June 30.

A dispatch from South Framingham, Mass., dated June 15, says: "When the doors of the Farmers and Mechanics' Trust Bank here were opened for business at 9 o'clock to-day, fifty anxiety depositors were in line waiting to withdraw their funds. The bank officials said they were ready to pay all depositors in full on demand, as fast as books were presented. About 2 0 depositors had withdrawn about $40,000 up to this morning."

The Chicago Pneumatic Tool Company has brought suit in the United States Circuit Court against the Cleveland Pneumatic Tool Company and its New York agents, for the infringement of what is known as its Boyer patent. The court granted an order restraining the Cleveland company from the further manufacture and sale of infringing tools until the hearing upon the application for injunction. The Chicago company has received numerous orders for its product from President Dunlop, now in Europe.

The New York *World* says the brokerage profits as follows: "There are about 400 Stock Exchange brokerage houses. For a long time the trading has averaged on the Exchange less than 200,000 shares a day, and of this it is figured that 80 per cent was purely professional, or the operation of floor traders, who are now content to scalp an eighth or a quarter profit on the deal. A commission business of less than 40,0.0 shares a day for 40 firms gives but 100 shares to each firm, or commissions of $12 50. The daily expenses of few Stock Exchange houses amount to less than $100 per day. Most of them average about $200 a day."

The Chicago *Inter Ocean* says: "There has been any large increase in the last few months in the holdings of Stocks and bonds by Chicago banks, the statements of condition just made to the comptroller and the auditor do not show the fact. Owing to the exceptionally poor returns received from money loaned, and to the difficulty of making good loans, even at a low rate of interest, it has been stated that the banks were now making considerable investments in high grade securities, believing that the prices for them were low, and offered a better return for the money invested than could be secured through the ordinary channels of banking. This theory appears to have been mistaken, judging from the figures of investments reported to the comptroller and the auditor. The five largest National and eight largest investing State banks report a gain of only $653,548 in the investments in Stocks and bonds held since March. Much more extensive than the decrease of the Government bonds he d to secure deposits and circulation, actually reduced their investments from March 28 to June 9 by $118,343. The State banks from March 28 to June 9 increased their investments $1,771,891, or about the growth of the savings accounts."

REVIEW OF TO-DAY'S MARKETS

FLOUR Market quiet and easy as quoted on the second page.

WINTER WHEAT—Was dull and Red Wheat entirely nominal, with little demand for Hard, which was steady. No 2 Red in store nominally 98c@$1 00, and fresh arrivals free on board quotably 99c@$1 01 No 3 Red fresh receipts free on board 93@98c. No 2 Hard fresh receipts free on board quotable at 88@93c with a sale at 91c No. 3 Hard fresh receipts free on board sold at 82@88c, depending on quality No 4 Hard sold at 77c.

SPRING WHEAT—Was quiet Trading was again very limited Market steady. A few small parcels sold out of store No 1 Northern in store nominally 96@98c, and fresh arrivals free on board quotably 97@98c. No 2 Northern fresh receipts free on board quotably 92@95c. No. 3 Spring ranged nominally at 85@91c No 4 Spring sold at 85c and ranged at 65@88c

REGULAR WHEAT—Just a fair trade, with the undertone somewhat firmer, the close being ⅛@¼c to ¼c higher Early offerings were well taken, the market acting "short" and oversold. Locals led in the buying, and steadiness was due chiefly to the "bullish" advices from abroad. The higher English cables and prospect of smaller world's shipments were "bull" helps. Liverpool quoted spot unchanged, while futures were ⅛d higher. London came unchanged to ⅛d lower. Paris was ¼c higher. Berlin was ⅜@¾c lower and Buda Pesth 1⅛c lower The Liverpool strength was due to the smaller Australian shipments and prospect of lighter shipments from India, together with unfavorable weather in Russia and Argentina World's shipments this week are estimated at 8,800,000 bu, and a fair sized decrease is expected in the quantity of Breadstuffs on ocean passage. Imports into the United Kingdom this week were about 6,000,000 bu, against 4,000 000 bu last week and 4,900,000 bu one year ago. Indications were for mostly fair weather. Showery conditions will advance Eastward Temperatures seasonable. Local weekly receipts were 209,000 bu and the shipments 264,000 bu. The Italian Wheat crop was estimated at 109,000,000 bu, against 179 000,000 bu last year Australian shipments were only 344,000 bu. The market was also helped by the reported sale of 16 loads for direct export. At the improvement in prices "bear" interests were inclined to sell the September and prices receded New York wired: "Export demand does not reflect any unfavorable crop news from Russia and Argentina There are practically no bids here; only a few nibbles for Spring Wheat below the market." Receipts in the Northwest this week were 1,249 cars, against 1,144 cars last week and 1,625 cars last year Primary receipts this week, 1,755,000 bu; last week, 1,751,000 bu; year ago, 2,002,000 bu. Cairo wired: "Cutting Wheat all around here; expect a fair movement by July 1" Northwest advices on the Spring Wheat crop situation were very favorable. Receipts at Duluth 77 cars and at Minneapolis 208 cars, a total of 285 cars, against 105 cars yesterday, 190 cars a week ago, and 242 cars last year. Local receipts included 10 cars Winter, 2 cars Spring, 4 cars mixed, a total of 16 cars, against 12 cars last year Included in the above were none contract grade. There was also 6 cars and no bu from unlicensed elevators The estimated receipts for Monday are 29 cars Withdrawals to-day were 80,700 bu. Receipts at Western points were 296,897 bu, against 321,719 bu last year At Eastern points 22,440 bu, against 86,082 bu last year Shipments from Western points were 486,053 bu, against 128,303 bu last year, and from Eastern points 67,010, against 49 749 bu last year Shipments of Flour were 19,132 brls. Exports of Wheat in Flour were equal to 113,134 bu.

DECEMBER—Sold at 32@32¼c. Opened at 32¼c, sold to 32c, to 32⅛@32¼c at close

RYE Was quiet and prices about 2c lower. No special reason given for the weakness, excepting that there was a lack of demand Receipts three cars No withdrawals from store here and no exports from New York No 2 nominally 65c and No 3 fresh receipts sold at 55c

Future Deliveries of No. 2 Rye—Quiet. July was offered at one time at 57½c and later 58c bid. September nominally 65c

BARLEY—Dullness prevailed It was difficult to bring about sales All grades weak; low grades depressed Somewhat lower prices had again to be accepted in order to sell mixing Barley. Demand very limited. The market for Oats was easier and that made it bad Malting demand very light also, and few cars offered Screenings if fine clean would, perhaps, sell as readily as anything; few such cars offered Only 4 cars were inspected in. Screenings were quotable at 40@41c for low grade to choice Barley, low grade feed or mixing quotable at 33@39c, outside for good weight and very poor, musty nominally lower Malting, low grade 38@42c, fair to good, sound, 43@48c; good color, 50@54c, and fancy up to 56@58c

SEEDS The market possessed no life Cash Seed of all kinds scarce Cash Flax weakened some and late sowing Seeds were nominally weak; these were the only features

Timothy—Was inactive. There was a little cash Seed offered, but no sales learned of. The market was in a neglected state September remained at $3 25 asked and $3 10 bid Contract spot June or July delivery remain nominally $2 95 Country lots quotable at $2 00@2 85 for low grade to fancy choice about $2 70@2 75, fair to good Seed $2 50@2 60 and rough at $2 35@2 45.

Flax—No. 1 Northwestern or No. 1 from the Northwest ruled ½c easier to-day, with a sale made at $1 07½ That was all the business there was done and it was the only change developed No. 1 was nominally $1 01. Rejected was quotable at 95c@$1 02. June and July deliveries were $1 01 bid, with a little July offered at $1 02½; September offered at $1 06 A little more Flax moving. Receipts 3 cars or 2,550 bu, and output 8 cars or 7,995 bu.

Clover—Inactive; no Clover whatever offered. Contract spot Seed about $10 75. Country lots, common to choice, $7 00@10 00; fancy above, mixed with Buckhorn or other weed Seeds, $6 00@8 00, poor, cleaned out of Timothy, very foul, down to $3 00@6 00 Fair to good at $8 50@9 50

Other Seeds—No spot lots offered, and no one cared to purchase. Some to arrive Hungarian on sale, but it received no bids. All of these lines at present are dull and weak. Quotable: Hungarian, common and light color to choice dark, at $1 15@1 35 Common Millet $1 15@1 40 for poor to fancy. German Millet, $1 15@1 40. Siberian, 75@90c Broom Corn Millet, $1 00@1 10. Early Fortune Millet, 85@95c. Mustard, 85c@$1 05. Buckwheat was easier and about 10c lower; quotable at $1 55@1 65 for good.

HOG PRODUCTS—Less interest was manifested in Hog Products, and trading was moderate. Offerings were only fair, and the demand was moderate Outside orders were small and local trading was moderate Hogs were in only fair supply, and prices ruled rather steady. Good supply anticipated the coming week. Receipts at the leading Western packing points were estimated at 34,300, compared with 57,500 one year ago Foreign markets were quiet and prices unchanged Domestic markets comparatively steady. Receipts of Products were fairly good—of Lard and Meats about 20 cars. Shipments were fair of Lard and Meats about 127 cars Speculative trading was rather light, and the undertone to the market was rather steady. Prices ruled slightly lower on all the leading articles early, but rallied again toward the close, and the market in a general way closed around outside figures. Moderate business in transferring contracts ahead. Inquiry on shipping account was light, and offerings were moderate. Sales were somewhat limited, and prices were unchanged.

Mess Pork—Trade was moderate in the market for Mess Pork, and the feeling was steady. Offerings were rather light, and there was no particular demand from any source Early, a little steadiness prevailed, and a few trades were made at 2½@5c advance on opening figures. Later, ruled easier again, and prices receded 5@7½c, but rallied to outside figures, and closed rather steady. Shipping demand was light, and offerings were moderate. Cash lots quotable at $12 50@12 55

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, June 17, 1904.

There is an easy tone to the money market, with the demand slow. Large borrowers are getting money at 4 per cent on call, but most of the loans are at 4½ to 5 per cent. Grain men are not borrowing to any extent, as stocks are too light. Packers, who are carrying fair stocks are taking some money all the time. The merchants and manufacturers are liquidating rather than borrowing. Deposits of the National and State banks are increasing, and are the largest on record. A statement of condition of the banks June 10 showed deposits of $548,878,283, compared with $529,822,658 March 22 and March 28, the last dates on which previous statements were made. This is an increase of $19,055,625. Loans were $341,000,832, an increase of $1,50 ,247. The deposits of the National banks are $281,002,471, and of the State banks $263, 915,832. Money in New York was easy at 1 to 1½ per cent on the Stock Exchange and 2 to 4½ per cent for time, with mercantile paper 3½ to 4 per cent. The New York *Sun* says: "The decline of money rates in both Paris and London to a level lower than ours showed the phenomenal abundance of money in the principal financial centers of the world. This subject is one that is beginning to attract a great deal of popular interest in Wall Street, and has undoubtedly made a profound sensation in that body of a financial opinion which in the end governs the Stock market. The plethora of money in Paris, of course, is attributed to the transfer of the Panama money, but Wall Street people are not without hope that a part of this $40,000,000 may be exchanged for American securities."

New York Exchange was steady at 20c to 30c premium per $1,000 and closed at 25c.

Foreign Exchange was steady, with the supply of bills not large, as shipments of products are too small. Shippers' sixty-day Documentary Sterling Bills on London ranged at 484¾@485, and closed steady.

In the Mercantile trade there was a moderate business in the way of filling small orders, but no disposition to place large ones. There is the same quiet feeling all over the country, which is likely to continue for some months. The largest buying of fall goods on the part of Dry Goods houses is practically over for the present and sales are well up to last year's, and prices of bleached Cottons ½c to ⅝c lower. Of Shoes they are ahead, and of Clothing about even with those of a year ago. Reorder sales were moderate and came from sections that have the best crop prospects, and are able to sell goods bought early in the season. There is a decided quietness to the Iron and Steel trade. Buying of Pig Iron is in small lots, and the market is easy. Production is being curtailed, and the stocks are so large that prompt action in this direction was necessary. Some of the Steel Rail mills have enough orders on hand to run the greater part of the year. Others are only fairly supplied. There is a moderate buying and specification of Steel and Iron Bars on previous orders, and jobbers of heavy Hardware are getting more orders, as consumers are taking small lots. Production of Coke is being curtailed owing to the reduction in the consumption of Iron and Steel. Steam Coals are selling slowly, and the market is easy. Anthracite is selling well, and supplies in the West are light. But now that the strike of the lake masters is over there is to be a movement to the West by lake and supplies are to be increased. Lumber and Building Materials are having a good sale, but the demand for Lumber is not up to last year's. Hemlock and Yellow Pine, which are the cheapest, are having the best sale. In other lines there was a moderate business and a steadiness in prices, with the exception of Turpentine, which declined 1c. Collections are fair.

Cotton in New York was erratic and prices moved without regard to the usual influences. Manipulation of the near months, especially July, was a factor, and the "shorts" were driven in several times at heavy losses. Crop news was more favorable and the weather greatly improved. English spinners have decided to curtail their running time eight hours per week, and the American mills are to run forty-seven hours a week. Crop advices are not of a character to induce active buying of the new crop months, and the aggressive "short" selling was mostly responsible for the sharp rallies, the market becoming oversold every few days. New Cotton has arrived at Brownsville, Texas, but it had no effect on the market. Closing sales were at losses of 32@90 points for the week.

Local Securities averaged higher. The most active trading was in Can shares. They were bought by speculative houses, and they furnished the greater part of the trading. There has been a change in the management, and the buying was based on reports of better prospects, and slightly higher prices were maintained. The other Industrial shares were handled in a moderate way, without any new developments, and changes were mostly fractional. Elevated shares, which have been inactive for several weeks, received less attention but averaged higher. Cable shares were steady and handled sparingly. Investment buying of Bonds was improved. The claim that the Chicago banks have been large buyers of securities of late was not borne out by their recent statements.

Stocks in New York averaged lower the greater part of the week. The most surprising feature was the announcement that the Southern Pacific would issue $100,000,000 new 7 per cent preferred stock. That this should come when the market is almost stagnant and believed by Wall street to be overburdened with Stocks, was a great surprise. But as the issue is to be put out by the largest banking house in the street, and the one in which Wall street has had more confidence than any other of late, it was taken as indicating their ability to place the new stock and possibly that they believed affairs have reached a turning point. The new stock is to be issued at par to present stockholders. A Stock bearing that rate of interest at so comparatively low rate ordinarily would be considered a good thing, but being on Southern Pacific it is different. The money is to be used for improvements and to pay its indebtedness. There is to be $140,000,000 issued at once at the rate of one-fifth of present holdings to each stockholder. Under this agreement Union Pacific, which has $90,000,000 of Southern Pacific stock, will take $18,400,000 of the new stock. The excuse for making the rate so high is that the management wanted to give the stockholders something and make it easier to float as a lower rate would not have made it attractive even at par. The announcement led to a break in Southern Pacific shares and an advance in Union Pacific. In the market on the whole there was not a large business. Holders of shares bought recently were disposed to take profits as the belief existed that there had been rise enough to warrant a reaction. Crop prospects West were considered as more favorable, but railway earnings are poor, and the market was not especially inviting to buyers, but there are those who believe that securities have reached a point where any material decline should be taken advantage of to buy. Earnings of the United States Steel Corporation were unofficially given at $18,000,000 for April and May. At the last prices were not materially different from those of the previous weeks. Total sales on the New York Stock Exchange for the week were 1,059,000 shares, compared with 1,189,000 shares for the previous week and 3,566,000 shares for the same time last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

COMMERCIAL.

Business in commercial circles on the Chicago Board of Trade the past week was only of a moderate volume. Outside interest in the various commodities was in no way marked, in fact quite the reverse, orders, as a rule, being for limited quantities. Parties in the interior with capital and ample means for speculative ventures are using more than ordinary discretion, but this is generally the case in presidential years. Local traders, too, were disposed to be conservative in their transactions, and the result is comparatively narrow and uninteresting markets. Price changes, however, considering the volume of trade, were rather frequent, as the average speculator was inclined to accept small profits or losses, as the case may be. Many speculators are no doubt awaiting more definite advices regarding the outcome of the growing crops before trading on any extensive scale. Fluctuations this week were governed to a great extent by climatic conditions, and no doubt will be now for some time to come. Speculation is light in all the large exchanges, the New York Stock market being a good illustration of the apathy of the average investor. Railroads are curtailing operating expenses, the country merchant is buying only as actual requirements necessitate, in fact there is retrenchment all along the line. With the movement of the new crops under way, speculation will no doubt revive and broader and more active markets be witnessed.

Crop reports from abroad this week were on the whole favorable. Conditions in Eastern Europe are said to be slightly improved, but in the Western sections of the Continent rain is desired and some complaint of drouth is heard. In the United Kingdom Wheat is looking better, and in France estimates made showing an increase in the yield of 1½ per cent. Rye and Oats are said to need rain in Germany, but the outlook as yet is in no way alarming. Russian advices were more encouraging, while from Roumania reports were rather unsatisfactory. Italy reported drouth, as also Spain. Argentine and Indian advices reported weather conditions favorable.

Weather conditions in the United States and Canada were generally favorable the past week. Winter Wheat is making satisfactory progress over the Northern districts, and cutting is in full swing in Texas and Oklahoma and has started in Missouri and Southern Kansas. Reports, as a rule, were better than a week ago. There is some little talk of fly in Indiana, and some injury resulted from the overflows in Kansas. On the Pacific Coast the crop is doing well and harvesting has commenced in California. The outlook for Spring Wheat is excellent, the stand being healthy and even, and prospects most promising. Corn is not growing as rapidly as desired, temperatures still being below normal, and too much rain occurred in parts of the West, more particularly in Kansas and Nebraska, where the crop is said to be weedy and in need of cultivation. Through the Central West, however, prospects are better than noted a week ago. Oats are doing well and conditions very favorable. The crop is now heading in Kansas, Missouri and Tennessee. Reports from Manitoba stated the outlook for Wheat was the best in years and present indications favor a yield of 75,000,000 bu.

The movement of Grain from the farms and interior elevators was fair the past week. Weather conditions in most sections were favorable for the movement, and with work in the fields out of the way arrivals of coarse Grains at country stations will enlarge. In the Northwest Wheat was marketed with a little more freedom, the brilliant crop outlook no doubt inducing holders to part with the same and will shortly show up at terminal points. Through the West and Central West Corn was offered in fair quantities, but the movement, as a whole, was not as liberal as lately noted. Oats were marketed with moderate freedom, considering the lateness of the season. The movement toward the seaboard is gradually enlarging and, as the lake strike was settled this week, still freer shipments may be looked for in the near future. Exports of Flour and Wheat, as well as Corn and Oats, continue small and insignificant. The official exports of Wheat for May were only 1,049,380 bu, and from July 1, 1903, to May 31, 1904, 43,700,244 bu, against 108,131,187 bu same period in 1902-03. Bookings on the Atlantic Coast were a little larger of Wheat, but Corn acceptances were small. According to the visible supply as compiled by the Secretary of the Chicago Board of Trade there were decreases in Wheat and Barley, and an increase in Corn, Oats and Rye. *Bradstreet's* reported a liberal reduction in Wheat and Flour supplies, a moderate decrease in Oats, and a large increase in Corn.

Speculative transactions were of more moderate volume the past week. The leading cereals as well as Hog Products were less animated and business confined more exclusively to local operators. Outside orders were not very numerous and in most instances for moderate quantities. Fluctuations were confined within comparatively narrow limits, though price changes were frequent within the ranges established. Weather and crop conditions were the principal governing influences in Wheat and liquidation was quite general on the hard spots. The indifferent foreign demand and generally "bearish" statistics from the other side, too, were potent factors. Corn was erratic at times, but the close shows fair gains. Indications are for moderate receipts, and the settlement of the lake strike this week should result in a larger outward movement. "Shorts" were more disposed to cover on the declines. Oats exhibited a steadier undertone. Arrivals were moderate, the cash demand fair and local stocks are decreasing. Crop reports favorable. Rye was quiet, but at the same time very weak, selling off sharply under lack of support. Hog Products attracted fair attention, ruling strong and higher at the start under a good demand from "shorts." Realizing followed and prices settled back. Packers were credited with selling the deferred deliveries. Packing of the West for the week was 85,000 Hogs ahead of the corresponding week in 1903, and total for the season 6,325,000, compared with 5,850,000 in 1903.

A fair business was reported in cash Grain this week, and transactions are expected to enlarge now that the lake strike has been settled. Current receipts sold well and at satisfactory prices. Wheat was, perhaps, more quiet, the demand being less urgent, and the low grades sold off considerably. Millers accepted more moderate amounts and speculators more reluctant to purchase. Corn was in fair request and offerings were less liberal. Choice, dry and yellow was taken by warehouse interests to brighten up for July deliveries. Shippers, too, were in the market for cargoes and sales are enlarging. Oats sold fairly well and were firm. Offerings moderate. Rye was weak and Barley quiet. Seeds were slow, but steady. Hay was in fair demand and prices little changed. Hog Products were in fair request and the offerings not very large. Holders were firm in their views and buyers a little slow to follow. Exports for the week, compared with the corresponding week in 1903, exhibited decreases of 790 brls Pork and 370 boxes Meats, and an increase of 1,757,000 lbs Lard. Cattle were in good demand and prices continue to advance. Sheep sold readily and prices well supported.

FREIGHTS—As the lake and rail lines have resumed business, traffic all rail to the East is lighter. The Eastbound all-rail tariff is as follows:

To—	From Chicago. Domestic.	From Chicago. Export.	From Miss. River Domestic.	From Miss. River Export.
Boston	19½	13½	21½	16
New York	17½	13½	19½	16
Philadelphia	15½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News	14½	11	16½	14½

Flour rates are to be 17½c domestic and 15c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 4c per bu on Wheat, 3¾c on Corn, 3½c on Barley and 3c on Oats.

Ocean rates on Grain are steady, with export business poor. Rates on Grain are ½@¾d per bu from New York and ½d from Boston. Through rate on Wheat from Chicago to Liverpool is 10.4c per bu and Corn 10¼c. Flour 19c per 100 lbs and Provisions 35⅝c per 100 lbs.

Lake rates are lower. The strike of masters has collapsed and rates are lower at 1⅛c for Corn to Buffalo. Boats are moving freely.

FLOUR—Weakness as well as dullness are the points in the Four market that are still against the miller. The best Hard Spring Wheat patents are 10c lower at $5 50, and no demand to speak of at that price. Local and Domestic buyers are still taking hold in a hand-to-mouth way expecting further recessions in prices. Bids from abroad are still out of line. In fact they are 1s to 2s below the actual cost of manufacture. Stocks of Flour at Chicago are not large yet they are ample for the present light demand. Jobbers and manufacturers are feeling "bearish" on the situation owing to the favorable Wheat prospects in the Northwest and the harvest returns that are coming in from the Southwest. Consignments of Flour are small and are generally limited in price. Sales ranged during the week.

MILLSTUFFS—The receipts have been considerably larger during the past week, and coming at a time when the demand was about exhausted, prices declined $3 00@3 50 per ton. Sales were made at $17 00@17 50 per ton in 100 lb sacks.

WINTER WHEAT—The market has ruled dull during the past week, and prices suffered a decline of 6@8c for the various grades and descriptions, with Hard Wheat making the greatest loss. The receipts have not been noticeably larger, but there has been a lack of demand, buyers manifesting little disposition to purchase and then only at considerable reduction in prices. A few cars were taken by millers, but shippers and speculators were almost entirely out of the market. Receivers in some instances were compelled to hold their consignments two or three days before they were able to sell. It has been an exceedingly dull market, especially for the Hard Wheat—the dullest witnessed for some time. Buyers would make a bid, and there being no competition, all that holders could do in order to sell was to accept the offers made. Prospects of new Wheat coming on the market soon, and the lack of outside demand is what made buyers indifferent—they evidently could not see any encouragement to buy at present prices. What little business was transacted was in the fresh arrivals, round lots being neglected and entirely nominal. The stock of No. 2 Red in store was reported at 189,000 bu, against 194,000 bu the previous week and 1,246,000 bu the corresponding week a year ago. The receipts for the week were 132 cars, against 97 cars the previous week. There were withdrawn from public elevators 64,050 bu, and from private warehouses 17 cars. No. 2 Red in store was quoted nominally $1 03@1 04, down to 99c@$1 00. Fresh arrivals free on board were quoted at $1 04@1 08, down to $1 00@1 01. No. 3 Red fresh arrivals were quoted early in the week at $1 00@1 05, and later down to 90c@$1 00. No. 2 Hard fresh arrivals sold early in the week at 90@97c and later at 89@90c. No. 3 Hard sold early at 89@90c and later at 78@88c. No. 4 Hard sold at 72@75c. No Grade sold at 71c. No. 4 White sold at 81c.

SPRING WHEAT—Very little business was transacted in the market during the past week. Influenced by lower prices in the speculative market, the cash market was easier and prices 1@2c lower. No special demand existed outside of the wanting of an occasional small parcel for milling or shipping purposes and the few cars of fresh arrivals which came on the market. The receipts have been very small and so little doing in fresh arrivals as to make it difficult to establish market quotations. The stock of No. 1 Northern in store was decreased to 565,000 bu, against 597,000 bu the previous week and 1,318,000 bu the corresponding time last year. The receipts for the week aggregated 48 cars, against 30 cars the previous week. There were withdrawn from public elevators 17,600 bu and 78 cars were taken from private warehouses. No. 1 Northern in store ranged at 93@97c, down to 92@95c. Fresh arrivals free on board were quotably 98c@$1 00 to 97@99c. No. 2 Northern fresh arrivals free on board ranged at 90@96c. No. 3 Spring quotable at 85@95c. No. 4 Spring sold 68½@83c for poor to choice.

REGULAR WHEAT—The week closes with old July 2⅛@2¼c lower, while old September shows a loss of 1¼c. Speculative operations were of fair volume and the market considerably unsettled, with final results as noted above. Early in the week sentiment leaned to the "bull" or "long" side, and local professionals reinstated lines liquidated on Friday and Saturday, but as the week advanced "bear" leaders again became aggressive on the selling side and values again yielded. On the early rise July touched 87⅝c and September 82⅞@83c, and on the break which followed reacted to 84⅝c and 80¾c respectively. Fine weather and "bearish" foreign statistics were responsible for the weak start, but these influences were offset by the strength in coarse Grains. The upturn, however, proved short lived, as the favorable crop news from the Northwest and Manitoba, together with more satisfactory advices from abroad, exerted a most depressing effect on values. The quantity on ocean increased 440,000 bu, and is now 53,592,000 bu, against 35,752,000 bu in 1903. World's shipments were about as expected at 10,432,000 bu (Russia contributing 2,864,000 bu) against 10,096,000 bu the week previous, and 10,306 0 0 bu same week in 1903. Visible supply decreased 2,128,000 bu, against 2,707,000 bu decrease last year. Total is now 18,475,000 bu, compared with 20,001,000 in 1903, and 23,570,000 bu in 1902. Local public stocks decreased 37,000 bu and are now 1,187,000 bu, against 3,023,000 bu the corresponding date one year ago. Stocks here in all positions were reported 3,063,000 bu, against 3,103,000 bu last week and 5,450,000 bu one year ago. Contract stocks decreased 36,783 bu last week, and now includes 753,978 bu, compared with 2,594,134 bu corresponding date in 1903. *Bradstreet's* available supply decreased 2,700,000 bu, against 4,152,000 bu decrease same week last year. The Government weekly crop bulletin stated that Winter Wheat continued to advance favorably, and that a general improvement was indicated in the Ohio Valley and Middle Atlantic States. The crop, however, was reported as injured to some extent by fly in Indiana and by overflows in Kansas. The harvest, too, has been interrupted by rains in Northern Texas and Oklahoma. The crop is now ready for harvest in Southern Kansas. The outlook on the Pacific Coast is satisfactory, excepting in California, where hot winds were reported. Spring Wheat is progressing favorably, the growth being even and conditions as a whole are very promising, and this is also true in Manitoba and the Canadian Northwest. The Duluth *Commercial Record* claimed that the acreage of Wheat in North Dakota has been increased 20 per cent, instead of 5 per cent, reported by the Department of Agriculture. Some improvement in the European crop outlook was reported this week, as the following *Broomhall* cable would indicate: "Conditions in Eastern Europe are slightly improved, but in the western half there are increasing complaints of drouth. United Kingdom—Wheat is looking rather better. France—There are some complaints of the Wheat plant being thin and of damage to crop by storms, but as a whole condition has not been seriously lowered. Germany—Complaints of drouth are increasing. Russia—Reports from Southern districts mostly favorable. Roumania—Reports continue pessimistic. Hungary—Weather during past week improved and farmers are more hopeful regarding crop outlook. Bulgaria—Weather now favorable. Italy—During the week there have been complaints of drouth. Spain—Weather continues drouthy and in some section crop will be poor. In largest Wheat districts, however, a fair yield is expected. The Russian Minister of Agriculture, under date of May 30, reported condition of winter crops mostly satisfactory except in parts of the East and Southwest, where condition is bad. Both these districts are important Wheat growing territories. The spring crops are generally satisfactory, but are backward in the northern portions, and rain is needed in portions of central region, but these districts raise fair quantities of Wheat." Receipts at primary markets were fair for the season, and the total between July 1 and June 13 aggregates 216,113,000 bu, as against 241,725,000 bu in 1902-3 and 229,432,000 bu in 1901-2. Advices from the Northwest noted a tendency on the part of interior holders to sell more freely, this mood no doubt being influenced by the brilliant crop prospects. Exports for the week again made rather a poor showing at 2,044,000 bu. This makes the total since July 1 132,262,000 bu, as against 218,377,000 bu for the same period in 1902-3. Argentine, Russian and India shipments continue liberal. Argentina shipped 1,224,000 bu this week, making 63,714,000 bu since January 1, as against 41,218,000 bu for the same period in 1903. The visible there is 3,680,000 bu, against 3,896,000 bu last week and 4,272,000 bu the same time last year. The following table exhibits the exports of Breadstuffs from the following countries from July 1, 1903, to June 11, 1904, compared with the corresponding period in 1902-3:

Countries—	1903-4, bu.	1902-3, bu.
America	117,068,000	233,715,000
Russia	134,354,000	122,520,000
Danubian	55,7 6,000	56,120,000
India	60,272,000	19,911,000
Argentina	79,120,000	44,568,000
Australasia	25,544,000	....
Austria-Hungary	5,262,000	2,561,000
Chili, North Africa	10,772,000	15,636,000
Totals	508,068,000	495,134,000

CORN—A good trade was reported under this head the past week and fluctuations were quite frequent within the limits established. The fe[eling] was quite unsettled at times, but the clo[se] shows the July ⅛c lower, while the Septem[ber] advanced ⅞c and the December ⅝c. Sentime[nt] the opening days was "bullish" and there was [re]instating lines liquidated last week. Crop [ad]vices from Kansas were not of the best and f[ur]ther heavy rains were reported in Nebras[ka] which, it was expected, would delay cultiva[tion]. Receipts, too, failed to come up to the expe[cta]tions of "bull" leaders and Wheat displayed [an] upward tendency and these features tended to [im]part a stronger undertone to the market. The[re] was a lack of speculative offerings and the mar[ket] responded quite readily to the improved dem[and] which was not checked until July touched 4.. September 49⅝c and December 44¾c. May, t[oo], shared in the upturn, selling to 44c. A fea[ture] was the narrowing of the spread between July a[nd] September. The latter sold within ⅛c of Ju[ly] due to free purchases by influential interests. [On] the advances in prices established liquidation [came] in and a sharp reaction followed. The "short" [in]terest had no doubt covered quite thoroughly [on] the rise and support was lacking when the "l[ong"] property came out. The heavy addition to [the] public and private stocks here this week, sha[rp] break in Wheat and more favorable crop advi[ces] from the West and Southwest were among [the] depressing influences. July reacted to 48¼ a[nd] while September touched 48½c and Decembe[r] "Shorts" covered on the break and July ral[lied to] 49¼c and September to 49⅝c, but advance did [not] hold well. Routine statistics were construed moderately "bearish" and no doubt indirectly [af]fected values. Visible increased 398,000 bu, again[st] 50,000 bu decrease one year ago. The total is n[ow] 4,658,000 bu, against 4,881,000 bu in 1903 and 4 ... bu in 1902. Local public and afloat stocks [in]creased 24,000 bu, contrary to general expectat[ions] and are now 1,776,000 bu, against 1,014,000 bu [same] date in 1903. Stocks here in all positions w[ere] reported 6,340,000 bu, against 4,275,000 bu last w[eek] and 3,6 7,000 bu one year ago. Contract stocks [in]creased 35,427 bu and now include 1,600,336 [bu] against 878,217 bu for the same date in 1903. [*Brad*]*street's* available supply increased 2,878,000 bu, com[pared] with an increase of 195,000 bu for the sa[me] week in 1903. World's shipments were 3,9.. ,00 [bu;] previous week, 4,070,000 bu; year ago, 3,630,00 [bu]. The quantity on ocean passage increased 1,.. bu and is now 11,840,000 bu, against 12,793,0.. same date in 1903. Foreign markets exhibited [an] easier tone. Receipts abroad were moderate, [but] the Liverpool stock 1,012,000 bu is 617,000 bu larg[er] than a year ago. The Government weekly cr[op] bulletin was not as "bearish" as generally [ex]pected, claiming that the crop had made slo[w] growth in Kansas and Nebraska and that a co[n]siderable portion was weedy, though in an i[m]proved state of cultivation. In Illinois, Misso[uri] and Indiana the fields were said to be general[ly] clean, but in the Middle Atlantic States rains [in]terferred with cultivation. The outlook in Te[xas] is promising and a large crop assured. The We[st]ern movement continues fairly free, considerab[ly] in excess of that at this time last year, while t[he] exports were smaller. Local receipts this we[ek] were 2,486 cars, and a noticeable feature was t[he] falling off in the arrivals from Illinois poin[ts]. Last week the receipts were 3,197 cars and one y[ear] ago were 2,863 cars. Clearances at Atlantic a[nd] Gulf ports show little if any increase, the total f[or] the week being but 299,000 bu, and since July 1 [ag]gregate 50,519,000 bu, as compared with 64,3.. 0.. for the same period last year. Bookings for f[or]forward shipment were insignificant. Argenti[ne] shipments on the contrary continue quite fr[ee], 1,898,000 bu going forward this week, making [a] total since January 1 of 20,941,000 bu, against 1.. 090,000 bu in 1903. The visible supply there on Ju[ne] 17 was 3,232,000 bu, against 3,472,000 bu June .. and 2,143,000 bu June 17, 1903. The *Times of* [*Ar*]*gentina* of May 2 says: "The small quantit[ies of] Corn that have been shelled give very little s[at]isfaction, and as prices continue weak in co[nsum]ing markets, with no immediate prospects of a f[a]vorable reaction, many large farmers are p[ost]poning shelling operations for the time being, there[by] giving Corn a better opportunity to dry on c[ob]. The following table exhibits the exports of C[orn] from the following countries from Novembe[r] 1903, to May 28, 1904, compared with the corr[es]ponding time in 1902-3:

Countries—	1903-4, bushels.	1902-3, bushels.
America	30,496,000	58,781...
Russia	9,544,000	5,976...
Danube and neighborhood	20,624,000	15,2...
Argentina	27,352,000	10,8...
Other Countries	384,000	1,8...
Total	83,400,000	92,...

OATS—The market for Oats for the past we[ek] was less active within a narrow range, Septem[ber] and December developed more strength a[nd] showed the widest fluctuations, narrowing t[he] discount under July. July were offered free[ly by] the largest "longs" who were taking profits a[nd] ranged between 38⅝@39⅞c, and closed 38¾ c, a net loss of ⅝c. September sold betwee[n] 32⅝c, and closed at 31¾@31⅞c, gaining ⅛c. [De]cember was ⅜@½c over September and clo[sed] at 32⅛@32¼c. The weather and crop reports w[ere] favorable. The weather crop bulletin said t[he] crop was heading as far north as Tennessee a[nd] Missouri. All the private crop reporters al[so] a favorable condition. The Government rep[ort] made the condition June 1 at 89.2, or higher t[han] last year. The acreage was 27,646,000 or 8,0.. more than harvested last year. The condit[ions] suggest a yield of 813,006,000 bu. Cash bus[iness] with the East was moderate, and orders fr[om] some sections showed an improvement [as] lake rates were lowered by a collapse of t[he] lake strike, but charters were light and [only] small lots were taken by the line boat[s]. [Now] that navigation on the lakes has been resum[ed] an increased business with the East is to [be] expected, as Oats can be put down cheaper [by] rail than lake and rail. In the sample ma[rket] there were light offerings and a good dema[nd] with prices ½c to ¾c higher at the last. Rece[ipts] for the week were 757 cars, against 810 cars t[he] previous week and 774 cars last year. Exp[orts] from the seaboard were 117,000 bu, against 1.. bu the previous week and 115,000 bu last year. [Lo]cal stocks in public houses decreased 13,000 bu a[nd] are 704,000 bu, compared with 388,000 bu last y[ear]. Contract stocks decreased 27,000 bu and were .. 000 bu, against 320,000 bu last year. Stocks in a[ll] positions, public and private decreased 3.. and were 1,468,000 bu. The visible supply [in]creased 275,000 bu and was 5,377,000 bu, again[st] 4,057,000 bu last year.

RYE—A dull and demoralized feeling prevai[led] in this market. Very little business was done a[nd] that was at considerably lower prices, cash b[eing] 5@10c lower and July actual trading showed [a de]cline. Prices have been much above an ex[port] basis and not a bushel of Rye was exported out [in] May. What little Rye was used for domestic p[ur]poses was supplied by the daily fresh arriva[ls] and there have been no withdrawals, and [the] quantity in store was nearly four times as la[rge] as a year ago. There was no speculative trad[e] for June delivery, hence none was required [for] filling contracts. It has been an unsatisfacto[ry] market all round. One thing developed and th[at] was an increased desire to sell for July deliver[y]. The receipts for the week aggregated 27 ca[rs] against 8 cars the previous week. There were withdrawals from public elevators and none we[re]

taken from private warehouses. Export clearances from the seaboard none. Visible supply increased 116,000 bu and was reported at 960,000 bu, against $12,000 bu the previous week and 669,000 bu one year ago. The local stock in store was 452,000 bu and a year ago was 121,000 bu. No. 2 in store was entirely nominal and so were fresh arrivals—not a sale being made. The closing was somewhere about 65c. No. 3 fresh arrivals free on board sold at 62@70c down to 55@64c. No. 4 sold at 52@58c. Future deliveries of No. 2 Rye were lower. July sold early at 67c. to 65c, later to 60c and was offered at one time at 58c, sold at 60c, and closed at 60c. September 62c asked, and later nominally 55c.

BARLEY A dull market was experienced. At this season malting operations are conducted on a small scale. One or two buyers representing this interest was all that appeared on the market. Even these buyers wanted only a few cars and were disposed to reduce their bids. It is safe to say that during the week prices suffered 1@2c decline. Low grades were especially dull and weak. The demand from mixers was limited, it was inadequate to the quantity of poor Barley and common to poor Screenings offered. The quantity of both of these classes of goods on sale was increased. A number of lots in store were brought out, holders evidently having become tired and having made up their minds to sell. This, however, was a slow process, and samples were carried over from day to day. These under grade goods also became weaker and 2@3c lower. Very choice, clean Screenings had some sale, being preferred to heavier but dark Barley, owing to a better blend being obtained in mixing. Some cars of very poor musty Barley had to be sold very low. It was a generally dull, weak market. There was some increase in arrivals, this following the close of seeding time, a fact coupled with offerings from store, caused weakness and led buyers to expect concessions in prices. Inspected in during the week 111 cars, compared with 76 cars each for the two preceding weeks. No withdrawals from store reported; the previous week 18,400 bu were taken out, and two weeks ago 8,787 bu. Nothing in the way of exports appeared. Visible supply decreased 96,000 bu, but there still remained 1,618,000 bu against 582,000 bu the same time last year. Local stock decreased 15,185 bu, with 72,452 bu reported, against none last year. There was a final range of prices as follows: Screenings were quoted at 28@41c for poor dirty to choice and clean; Barley, low grade feed or mixing, quotable at 35@41c, outside for good weight, and some very poor musty sold down to 34c. Malting, low grade, 38@43c; fair to good sound, 44@48c; good color, 50@54c, and fancy around 56@58c. A number of small lots to arrive were offered, but they failed to attract the attention of buyers; they seemed to be no longer cared for, and yet at the close a few cars of fancy Wisconsin brought 68c.

SEEDS—There was no change particularly from the late very quiet state of the market. An up turn in the price of new crop Timothy, followed by a reaction, was one of the features of the week. Late sowing Seeds were generally weak and lower prices were quoted, and Clover remained nominally unchanged. There was hardly any business in Flax, at the same time, following a small improvement in the Northwest, there was a slight gain here.

Timothy—An advance of 15c in the price of September delivery Timothy, with a subsequent reaction of 5@10c, was the only feature of note in the market. It was another week of small business. Even in September, over the improved range of prices, there were but a few cars sold. The market for this opened at $3 10 bid; later it sold up to $3 25, and then reacted to $3 20 asked and $3 15 bid. In the market for old Seed there were no changes. Cash offerings remained small, and yet they were a little larger than a week ago. There were some car lots received, made up usually of different lots, and running from fair to poor quality. There was no Seed of high grade received. Cash demand very small, still dealers would take it, if for no other reason than to keep working. Output was light. It is the season for limited order business. Old Seed might have been called heavy for common and steady for better grades, without material price changes. Contract grade was entirely nominal, with spot, June or July delivery quotably about $2 95. The market for country lots was quotable at $2 00@2 85 for low grade to fancy, choice about $2 70@2 75, fair to good Seed $2 50@2 60 and rough at $2 35@2 40. Below is shown the movement, with comparisons:

Receipts the past week, lbs	119,150
The previous week	244,633
Two weeks ago	359,820
Same time last year	245,055
Shipments the past week, lbs	138,564
The previous week	95,955
Two weeks ago	2 2,975
Same time last year	301,327

Flax—For old Flax there was a strong market, made so by more favorable advices from the Northwest. There was 1c advance but it came about with only a very few cars sold. A few more cars came in, still the arrivals were of little consequence. There were only 3,623 bu taken from regular houses; there had been none for a couple of weeks. To fill orders or needs of local mills Flax was evidently secured from other sources, than from regular houses. Nothing was done in a speculative way. New crop Flax was on sale at one price all the week but there seemed to be no demand. Little could be learned about the crop. In the Southwest it was said to be thriving well, but nothing definite about the acreage. In the Northwest it was said there was likely to be a smaller area planted owing to lower prices on the last crop and liberal stocks in sight. In that quarter, however, seeding is not yet entirely over. There was a total decrease of 385,000 bu in Northwesten visible in the last report. Chicago stock did not change remaining at 24,201 bu; a year ago this stock was 74,336 bu. Duluth decreased 335,000 bu and 7,600,000 bu remained, Minneapolis decreased 50,000 bu and 318,520 were reported on hand. Thirteen cars were reported received, against 12-5 cars a week ago and 4 cars two weeks ago; output 3 623 bu, none the previous week and 4,060 bu two weeks ago. No. 1 cash was nominally $1 00@1 01. No. 1 Northwestern or No. 1 from the Northwest improved from $1 07@1 08 with a few cars sold. Rejected was quoted at 95c @$1 03 depending on quality, the outside being a little better than lately quoted. June and July deliveries were nominally $1 00 early to $1 01 later. September was usually on sale at $1 06.

Other Seeds—Weakness has prevailed. For nearly all lines of late sowing Seeds prices were marked down somewhat. Order demand was reported small. Output showed considerable decrease; it also was smaller than a year ago. The same state of facts appears in the receipts. Prices quoted during the week are in the table elsewhere given. Movement for the week, with comparisons, was as follows:

Receipts—The past week, lbs	242,470
A week ago	262,300
Two weeks ago	135,440
Same time last year	500,950
Shipments—The past week, lbs	204,645
A week ago	367,385
Two weeks ago	231,520
Same time last year	373 520

Buckwheat was called unchanged. It was nominal on the regular market, for there were no offerings. Some order trade reported. Good quality remained steady at $1 65@1 75 up to the close, when it was called easier and quoted at $1 55@1 65.

Clover—There was an entire absence of business the past week. The market was without offerings. The season for planting being over there was no regular demand. Dealers possibly would buy provided they could get Seed which in both quality and value was satisfactory. New crop Clover as yet is not being considered. Values were nominal all the week and no changes were made from the quotations of a week ago. Contract spot Seed was nominally $10 75. Country lots common to choice, $7 00@10 00; fancy above; mixed with Buckhorn or other weed Seeds, $6 00@8 00; poor, cleaned out of Timothy, very foul, down to $4 00@6 00. Fair to good at $8 50@9 50. The movement for the week, with comparisons, was as follows:

Receipts the past week, lbs	86,030
The previous week	55,550
Two weeks ago	9,810
Same time last year	......
Shipments the past week, lbs	79,630
The previous week	73,845
Two weeks ago	45,220
Corresponding week last year	1,975

HAY—The receipts for the week were 5,976 tons, against 6,936 tons for the previous week. Shipments for the week were 261 tons, against 284 tons for the previous week. The market for Timothy Hay ruled quiet and rather dull during the past week. The offerings were liberal, and only a moderate demand existed. Prices show no particular change, though the feeling was weak. Prairie Hay was in light supply throughout the week, and the local demand was good. A firm feeling prevailed and prices for choice grades advanced 50c per ton. Quotations at the close ranged as follows: Choice Timothy, $13 50@14 00; No. 1 Timothy, $12 00@13 00; No. 2 Timothy, $10 50@11 50; No. 3 Timothy, $8 50@10 00. Choice Prairie, $11 00@12 00; No. 1 Prairie, $9 50@10 50; No. 2 Prairie, $8 50@9 00; No. 3 Prairie, $6 00@8 50; No. 4 Prairie, $7 00@7 50. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $7 50@14 00 for poor to choice Timothy, $8 75 for Clover Mixed, $7 00@8 50 for State, and $8 50@11 50 for Iowa, Kansas and Nebraska Prairie Hay. Rye Straw sold at $11 00 @11 50, and Oat Straw at $5 00@7 50 for poor to good.

COOPERAGE—Trade was rather light in the market for Cooperage during the past week. Offerings were moderate, and the demand was only fair, and for limited quantities. Local packers were slow to purchase, and outside orders were moderate. Ash Pork Barrels were in fair demand and firmer at 97½c@$1 00. Oak Pork Barrels were in small demand with limited offerings, and quotably steady at $1 05@1 10. Lard Tierces were in moderate request and steady at $1 35@1 37½. Iron bound Lard Tierces were in limited demand and prices quotable at $1 22½@1 25 for six hoop and $1 27½@1 30 for eight hoop.

HOGS—The receipts of Hogs were fairly liberal during the past week, and the quality was rather good. Market was fairly active throughout the week, and the undertone was firm. Packers were rather free buyers, and shippers provided for a fair number of orders from the Eastern markets. Prices were advanced 20@22½c on the whole range, and the appreciation was fairly well supported to the close. Sales during the week were made at $4 65@5 12½ for light, $4 60@5 00 for rough packing, $4 60@5 20 for mixed, and $4 85@5 20 for heavy packing and shipping lots, with the bulk of the trading within the range of $4 80@5 15 for fair to good averages. At the close about 1,500 Hogs remained in the pens unsold. Pigs were in fair supply and rather good demand, and sales were made at $4 15@4 85, according to weight and condition. Receipts of Hogs at the other large Western packing points were quite liberal, and the quality fairly good.

PACKING—Business in packing circles was only on a fair scale during the past week. Hogs were in rather good supply, and packers purchased rather freely. Manufacture of Products was fair. Mess Pork neglected. Other cuts of Pork made in limited quantities. Lard was produced in rather liberal quantities, and the average yield was quite good. Only a small proportion placed in tanks. Domestic cuts of Hams made in fair quantities and a moderate proportion sold from the block. Skinned Hams cut rather freely, and chiefly cured by manufacturers. Foreign cuts of Hams made sparingly. Shoulders met with little favor, and the production was small. Moderate sales from the block to the local retail trade. Picnic Hams made rather freely, and the bulk cured by manufacturers. Long Clear Sides and Extra Long Clear Sides neglected. Short Clear Sides made sparingly. Extra Short Clear Sides made in moderate quantities. Short Rib Sides attracted a little more attention, and the production was fair. Extra Short Rib Sides made in moderate quantities. Rough Sides cut in fair quantities, and chiefly of light and medium averages. Backs and Bellies made in moderate quantities. Plates made sparingly. Butts cut in moderate quantities. Loins cut rather freely to meet current wants. Foreign fancy and special cuts of Meats made in small quantities.

PROVISIONS The market for Hog Products attracted considerable speculative attention during the past week, and trading was more active. Outsiders were considerably interested in the markets and local speculators and packers traded with considerable freedom. Undertone to the market was firm during the greater portion of the week, though fluctuations in prices were frequent. Bulk of the trading was in July and September contracts, with a fair business in the way of transferring contracts at the current differences. Hogs were in fairly good supply, and sold at higher prices, which feature had some influence in strengthening market for Products in a general way. Supply of Hogs at the far Western markets was quite liberal. Returns of the packing of the West for the week, compared with the corresponding week in 1903, exhibited an increase of 85,000 Hogs, and the increase for the season so far is about 8 per cent. Foreign markets were quiet and rather firm early in the week but easier toward the close. Domestic markets were steadier, with a little more life in the manufacturing districts. Supplies of most descriptions are quite liberal for the season of the year, and manufacture was fairly liberal. Receipts of Products were rather large, as interior packers were delivering on contracts and are disposed to sell regularly for immediate shipment. Shipments were only fair and widely distributed. The speculative market opened rather strong, with fair miscellaneous buying, and only moderate offerings. Prices were advanced materially on all the leading articles. At the advance, "longs" were inclined to realize, and packers were disposed to sell with some freedom. A weaker feeling was manifested, and prices declined considerably all around. The reduction encouraged a little general buying, and there was some covering of contracts on behalf of a house in financial difficulties. This combination of circumstances tended to strengthen the market, and prices rallied again, but settled back moderately toward the close and ruled steady. Very little doing in contracts beyond September. In the shipping branch of the trade, there was a fairly good business transacted. Offerings were moderate by local packers, but outside manufacturers were disposed to sell fair quantities. Exporters were backward about purchasing, while the domestic demand was fair.

Sales were only fair, and prices were well supported for most descriptions.

Pork—Trade was rather active in the market for Mess Pork during the past week and the feeling was somewhat unsettled and prices fluctuated considerably. Offerings were moderately free, and the demand was quite active. Outside parties were considerably interested in the market, and local operators traded rather freely. Bulk of the trading was in July and September contracts, and transfers were made at 22½@25c difference. Supply on hand reported to be gradually enlarging. Early in the week, the market exhibited considerable strength, with good miscellaneous buying, and prices were advanced 45@47½c on the whole range. At the advance there was some pressure to sell, while the demand slackened, and prices declined 55@60c. This reduction brought buyers into the market again, while the offerings were light, and prices rallied 37½@40c, but receded gradually again 17½@20c, and the market closed comparatively steady. The demand on shipping account was limited, and offerings were moderate. At the close, cash lots were quotable at $12 50@12 55. Other cuts of Pork were in fair request in a quiet way, and offerings were moderate. Prices inclined in favor of sellers but trading was light.

Lard—There was considerable interest manifested in the Lard market during the past week, and the undertone to the market was rather unsettled. Supply gradually enlarging. Outside orders were fair, and local speculators and packers traded rather freely. "Shorts" were a little anxious about their outstanding contracts. Foreign markets were stronger and prices advanced, but were easier again toward the close. Considerable strength was manifested early in the week, with fair miscellaneous buying, and prices were advanced 17½@20c on the whole range. At the advance, there was considerable liquidation, especially by holders of small quantities, while the demand was moderate. Prices gradually receded 22½@25c. Toward the close, a little more strength was manifested with "shorts" buying fair quantities, and prices rallied 17½@20c, but receded again 7½@10c, and the market closed steady for all deliveries. A few trades made in January contracts. The inquiry on shipping account was limited, and the offerings were moderate. A few trades were made at about 2½@5c discount on July figures, closing at $6 75@6 77½. Refined Lard was in moderate demand, and a few sales were made at prices not made public. Loose lots were in only fair request, and the offerings were moderate. Sold at 50@52½c discount on July figures and closed at 50c. THE WEATHER CONDITIONS.

Weather is springlike, warmer West and Southwest, stationary Northwest. Light to widely scattered showers in all directions. Rains in Missouri and Southeastern Iowa. Heaviest fall, .60, at Spring field, Mo., and .40 at Keokuk, Iowa.

Indications are for mostly fair weather. Showery condition will advance eastward to-night over lake region, but unimportant. Seasonable temperatures.

ITEMS OF GENERAL INTEREST.

Fire destroyed the Toledo Produce Exchange building Thursday.

The Detroit United Railway has declared a quarterly dividend of 1 per cent, payable August 1.

The doors of the Home Bank, Goodland, Ind., were closed Thursday. The deposits amounted to $153,000, of which $14,000 was county funds.

Oregon, Washington and Idaho will produce 60,000,000 bu of Wheat this year, according to R. M. Hall of the Oregon Railroad and Navigation Company.

The Old Dominion Steamship Company has declared the regular semi-annual dividend of 3 per cent, payable July 1. Books close June 20 and reopen July 1.

Officials of the American Steel and Wire Company say the volume of business for the first half of June was 10 per cent better than the same period in May.

The syndicate which recently purchased $5,742,60 City of Boston 3½ per cent bonds, has sold $2,655,000 of the issue and now offers the remaining $3,672,000 to investors.

The New York Air Brake Company has declared the regular quarterly dividend of 2 per cent on the capital stock of the company, payable July 15. Books close June 30 and reopen July 16.

The commissioners of the public debt of the City of Milwaukee will receive bids until June 22 for $3,000 4 per cent bonds, maturing annually to the extent of 5 per cent of the issue. The bonds are dated July 1 and interest is payable either in Milwaukee or New York.

Officials of the Illinois Steel Company confirm the report that orders for several thousand tons of Steel rails have been received from British Columbia. The Steel was sold on an export basis. Officials say the rail mills have all the business they can handle during the remaining months of 1904.

The London *Statist* publishes a special article with tables indicating that the money markets are really at a relatively tempting level, and that even were the profits to fall heavily no appreciable decline in prices would be justified. On the whole, the *Statist* comes to the conclusion that American railways will in the twelve months to June 30, 1905, continue to produce very large profits.

Practically all prospects for a combination of the Republic Iron and Steel Company, the State Sheffield Company, and the Tennessee Coal and Iron Company are said to have been dissipated since the officials of the three companies received the report of the expert, Coal and Ore consultant. The matter will be submitted to the directors as a matter of form this week, but this is expected to end the plan, at least at this time.

Broomhall's Argentine cable says: "Little progress is being made in plowing or seeding owing to the drouth. The situation in some parts is considered serious. Crops of Argentine Wheat are yet in store, although export demand continues poor. Arrivals from interior small; quality remains satisfactory. Corn markets weak, owing to very poor demand and now free from the fire of the first consolidated mortgage, and upon such extensions and branches as may be acquired out of the proceeds of such bonds, and also a lien, subject to the first consolidated mortgage, upon the properties covered thereby.

The following applications to list have been made to the New York Stock Exchange: $1,000,000 Kansas and Texas Railway Company of Texas, $601,000 additional first mortgage 5 per cent guaranteed bonds of 1942. Detroit City Gas Company, $1,000,000 additional first mortgage 5 per cent bonds, subscribed for at 1949. Central Indiana Railway Company, $750,000 first mortgage guaranteed 4 per cent bonds of 1953. Chicago Terminal Transfer Railroad Company, $400,000 additional first mortgage 4 per cent bonds of 1947.

The *Wall Street Journal* Western directors, Thursday, declared a semi-annual dividend of 1 per cent on the preferred stock, instead of 2 per cent, as usual in a statement to the preferred stockholders explaining that the dividend was reduced from 2 to 1 per cent, they said the accounts of the road for six months ending June 30, show net earnings of $116,536, against $ 38,433 in the previous year. "Since the first of the year the increase in the net earnings has largely accounted for the fact that during January, February and March of this year the severity of the winter and the congestion of traffic had serious inroads upon the earnings of the company.

Justice Gegerich in the Supreme Court of New York City on Tuesday reserved his decision on the application made for an injunction to restrain Russell Sage, Jacob H. Schiff, Frederick G. Bourne, Louis, Meanphis and Southwestern, the Colonial Trust Company, New York Security and Trust, and others, from issuing bonds under a mortgage under a mortgage recently made by Prisco and Eastern Illinois. This reservation of judgment ties up for the time being the refunding plan recently announced by the syndicate that purchased the bonds in question are the $16,000,000 authorized to refund the outstanding collateral trust notes of St. Louis, Memphis and Southeastern.

The Southern Pacific Company has issued a formal statement regarding the proposed preferred stock. The text of the statement, as given out, follows: "Its the $100,000,000 7 per cent preferred stock, $40,000,000 to be offered to shareholders at par; convertible into common stock, share for share, at the option of the holder, redeemable at its between July, 1905 and July, 1910. Will provide for all funding debts and expenditures authorized or contemplated during next year. Leaves unpaid of $30,000,000 of free and negotiable securities in treasury; will enhance credits of company and strengthen its position. Proceeds will diminish floating due during the next three years to advantage."

Rumor is revived that the Canadian Pacific is negotiating in London for control of the Chicago Great Western Railroad Chicago officials of the Great Western say they do not know whether there is any truth in the report. The Canadian Pacific has long been known to have desired to secure an outlet from St. Paul to Chicago By acquiring the Great Western it would become a very strong competitor for traffic to and from the Middle West. Control of both the Great Western Pacific and Great Western roads is held in London. It is said the Grand Trunk's preparations to push the building of the Soo line Pacific has caused the Canadian Pacific to decide to secure a line to Chicago and otherwise strengthen its position.

One of the leading directors of the Chicago Edison Company issued the following statement, Friday, regarding the issue of new stock which was proposed for a time to announce about the date of the annual meeting: "The stockholders at their meeting early in the year will receive information, submitted by the board of directors last December, to increase the company's capital stock to $15,000,000. No new money will be needed this year, however. Of this $5,000,000 the directors expect last Wednesday and went over the situation thoroughly concerning immediate necessities, arriving at the final conclusion that there is money enough in hand to take care of all plans until 1905."

The Chicago *Inter Ocean* says: "It is understood that no formal meeting of the directors of the National Bank of North America, Chicago, will be held this month to consider the subject of dividends. This means that no dividend will be paid by the Corn Exchange bank for the present quarter. However, it is understood that the stockholders have been told in many cases that the plan is to begin dividends in October instead. The bank was recently given a charter for 20 years instead of 10, under which the third year really begins July 1. It was decided some time ago that the bank should begin dividend payments after two years old, provided that it had been reasonably successful as an earner. On July 1, it is said, the management will consider that the bank is on a dividend paying basis and is earning money for distribution to stockholders on Oct 1. The rate of the dividend has not been decided on. It will be likely about 5 or 6 per cent."

REGULAR WHEAT—The trade was only moderate and market in no way animated at any time, though the undertone was rather firm. The close showed gains of ⅝@¾c to ⅞c. The foreign situation was considered more "bullish" and the weather through the Southwest was not regarded as favorable, there being reports of rust from Southern Illinois "Shorts" were among the principal buyers and market acted quite strong Bucharest, Roumania, cabled "Two-thirds of the Roumanian Wheat and Hay crops have already been lost owing to the prolonged drouth, and the Corn crop is in great danger. The Minister of Domains has ordered that leaves be gathered in the forests for use as winter fodder for Cattle." The map showed a heavy rain in Nebraska and Ohio. No rain in Texas or Oklahoma Showers predicted for the West and Southwest, and fair weather for the Northwest. Liverpool quoted spot steady to 1d lower and futures unchanged. London came steady to ⅛d higher. Paris declined ¼@1c and Berlin was off ⅜c Buda Pesth, however, advanced 1¼c Liverpool stocks decreased 136,000 bu to 3,472 000 bu. Stock a year ago 1,896,000 bu. Liverpool market was affected by unfavorable reports from Eastern Europe. The quantity on ocean passage decreased 2,632,000 bu and is now 50,360,000 bu, against 33,616,000 bu same date last year World's shipments were 9,336,000 bu, against 10,132 000 bu the previous week and 12 324,000 bu in 1903. Local stocks decreased 93 000 bu to 1,391 000 bu, against 3,216,000 bu in 1903 The official Hungarian crop report, just issued, raised the Wheat crop estimate 7,200,000 bu over the estimate of June 6, the revised total being 124,800,000 bu, last year's crop 167 000 000 bu. The text of the report said that further improvement is improbable, while deterioration is possible. Antwerp cabled that with the exception of Hungary and Roumania no complaints had been made and crop all over Western Europe doing well. India exportable surplus 120,000 000 bu, against 50,000,000 bu last year. Minneapolis reported receipts much larger than posted and cash demand dull, with country offerings increasing Duluth on the contrary reported an improved export and shipping inquiry, with 15 load for export and a cargo to an Eastern miller. St. Louis wired that Oklahoma was asking for bids on Wheat for June shipment. Primary receipts were 67,000 bu smaller than last year and Northwest cars 57 less than in 1903. Exports small and 20 boat loads accepted at the seaboard. Cash Wheat in Texas was reported 3c lower Buying new and selling old July at 1c to 1½c difference was a late feature. Flour prices at Minneapolis reported reduced 10c Receipts at Duluth 32 cars and Minneapolis 302 cars, a total of 334 cars, against 285 cars Saturday, 290 cars a week ago, and 391 cars last year Local receipts included 20 cars Winter, 5 cars Spring, 2 cars mixed, a total of 27 cars, against 19 cars last year. CORN—Only a moderate trade, about all local with the tone rather steady, closing prices showing slight gains Professionals and floor traders were on the buying side at the start influenced mainly by the action in Wheat The fine weather present and prospective, and larger receipts were the "bear" factors Early buyers turned sellers on the announcement of 677 cars for to-morrow. Receipts were 325 cars, with 60 cars contract, against 711 cars last year when 85 cars graded contract Liverpool quoted spot steady to ½d lower and futures ¼@½d lower. MAY—Sold at 43⅛@43⅜c. Opened at 43¼c, sold to 43⅜c, to 43¼c, to 43¼c and closed at 43¼c bid

OATS—Closed fairly strong, with prices ⅛@¼c higher. In the early trading prices ¼@⅜c with other Grains and on stop-loss and local selling. Later covering by part of the early sellers and the rally in other Grains caused strength and an advance of ½@¾c. Trading on the whole was fair. Receipts were 116 cars, with 175 cars estimated for to-morrow. Withdrawals were 27,600 bu Seaboard clearances were 20,000 bu. Local stocks decreased 87,000 bu in public houses, and are 653,000 bu. Cash sales were 50,000 bu, including 25,000 bu Standard at 3c over July Car lots to go to store were steady to 1c lower Standard sold at 42c, and in store closed at 41@41¼c

Oats by sample were in fair request and prices steady to 1c lower. Supply liberal, especially of poor, which were slow and weak Sales on track and free on board: No. 4 White at 38@43c. No 3 at 38½@40c. No. 3 White at 39@44c. Standard at 43@44c. No. 2 at 40c. Billed through: No. 4 White at 34½@42c. No. 3 at 38@39c. No 3 White at 41@42½c. Standard at 42@43½c No 2 at 39¼@39½c. At the river: No 4 at 36c No. 4 White at 34@38c. No. 3 White at 38@42c.

Future Deliveries of Contract Oats—Were lower early, but closed higher.

RYE—Ruled firm and prices 2@3c higher for July and stronger for cash There was a little better demand and the offerings were light Two cars were received There were no withdrawals from store and no export clearances from the seaboard No. 2 in store nominally 65c and a car of fresh receipts sold at 68c free on board. No 3 sold at 54c for part car and one car at 60c free on board.

Future Deliveries of No. 2 Rye—Light trading and prices for July 2@3c higher June nominally 65c. July sold at 61c, and that the closing September nominally 55c

BARLEY—There was only a limited and indifferent demand for malting grades. The market was very easy. For low grade, mixing Barley and for common Screenings there was almost no demand. Such goods dragging and weak. A little choice Screenings perhaps would have been salable. Posted 13 cars inspected in. Some Barley, no doubt, again sold for less than same grades have sold for lately. There was not much of a regular market. If a buyer could not be found wanting just such a grade as might be offered then to anyone else it was difficult to make a satisfactory sale Low grade to good Screenings were quotably 28@38c: choice, recleaned possibly 40@41c. Barley, low grade feed or mixing quotable at 33@40c, outside for good weight and very poor, musty nominally lower. Malting, low grade 38@41c; fair to good, sound, 42@47c: good color, 48@54c, and fancy above

SEEDS—Were dull and inactive. Rather an easy tone pervaded the market, and there were in one or two instances evidence of easier prices

Timothy There was some contract spot Seed sold at $2 92½, being 2½c below what for some time has been given as the nominal quotation. Aside from this there were no developments New crop or September delivery remained offered at $3 20 and $3 10 was bid. No business in cash Seed was done Nominal range of values as follows Country lots quotable at $2 00@2 85 for low grade to fancy choice about $2 70@2 75, fair to good Seed $2 50@2 60 and rough at $2 30@2 45

Flax—There was a nominal decline of ½@1c in prices. Trading entirely absent Weakness was due to easier quotations in Northwestern markets. Only 1 car or 1,052 bu received, and none taken out Minneapolis got 18 cars Duluth only 1 car. Local stock unchanged, remaining at 24 301 bu, against 73 307 bu a year ago No. 1 Northwestern or No 1 from the Northwest quoted at $1 07 No. 1 was nominally $1 01. Rejected was quotable at 95c@$1 02 July was offered at $1 01 and $1 00 bid. September nominal at $1 05

Clover Nominally unchanged Contract spot Seed about $10 75. Country lots, common to choice, $7 00@10 00; fancy above, mixed with Buckhorn or other weed Seeds $8 00@8 00, poor, cleaned out of Timothy, very foul, down to $3 00@6 00 Fair to good at $8 50@9 50.

Other Seeds—Were without demand Some Hungarian to arrive offered, but no one cared to bid. Hungarian, common and light color to choice dark, at $1 15@1 35 Common Millet $1 15@1 40 for poor to fancy. German Millet, $1 15@1 40 Siberian, 75@90c Broom Corn Millet, $1 00@1 10. Early Fortune Millet, 85@95c Mustard 85c@$1 05 Buckwheat easy; quotable at $1 55@1 65 for good

HOG PRODUCTS Trade was fairly active in the market for Hog Products and the feeling was stronger in a general way Offerings were fair and the demand was moderately active Outside orders were a trifle larger, and local trading was fairly active. Hogs were in fair supply, but not as large as generally anticipated, and prices were higher, which feature encouraged a little more buying. Market opened rather firm with fair miscellaneous buying, and prices were somewhat higher than the closing figures of Saturday Sellers were a little backward, and prices were further slightly advanced At the improvement there was a little inclination to realize and the feeling was not quite so firm Prices settled back moderately. Toward the close rallied to outside figures and market closed comparatively steady. Foreign markets quiet, and Lard quoted 3d lower. Domestic markets were steady. Receipts of Products were liberal - of Lard and Meats about 44 cars. Shipments were fair of Lard and Meats about 108 cars. CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, June 7.]

United Kingdom—The crops of this country continue to look well, but the premier cereal is the least satisfactory of all, so that with a thin plant in many fields and a very small acreage, nothing but a small outturn can be looked for. The weather on the whole has been favorable for vegetation, although the temperature generally has been too low for rapid growth. Winter Oats in the South were headed out by June 1, but the first Wheat ear has yet to be reported. It is much to be hoped that we shall now have a period of fine warm weather, which will enable farmers to secure their Hay in good condition and bring on the cereal crops for a timely harvest. Supplies of English Wheat are on a very moderate scale and prices keep low.

Russia—Taken on the whole, reports show that the late rains were of much benefit to the growing crops, and, in fact, a recent semi-official bulletin stated that the condition was over-average, although mentioning several districts which still have unsatisfactory crops. We continue to receive reports saying that good quantities of Grain are still held in the interior, but the demand for such is not brisk. Mention is again made of the war interfering with field work and the transport of Grain. Shipments are fair, port stocks quite moderate.

Roumania—The weather continues unfavorable for the crops and prospects are declining; in the North of Moldavia conditions are fair, but this region does not appear to be very extensive. In drouthy Wallachia, Rye has suffered great damage, and Wheat will be a poor crop, although it may improve if rain fall quickly. Barley, Oats and Corn all want rain, and average results depend on the needed moisture coming quickly. Fair quantities of Grain are moving in the interior, but shipments are only about moderate, and of course Wheat is not now the biggest item.

Bulgaria—Reports from this grower are more favorable than for Roumania.

Hungary—The official indication gives the Wheat crop as only 117,000,000 bu, against 157,000,000 bu harvested last year. The drouth continues to prevail, and if it last must prevent any improvement for Wheat and have a very adverse effect on Corn.

India—The Wheat crop is officially estimated at 352,000,000 bu, against 292,000,000 bu last year, and 228,000,000 bu in 1902. The last crop gave nearly 48,000,000 bu for export, so it is easy to see there must be a big lot to ship from the current year's crop. The Wheat continues to be freely offered at low prices, and shipments are large.

Australia—There is no fresh news. Shipments keep fair, but chartering is now very slow.

Argentina—Fair progress has been made in preparing for the new Wheat crop, and an increased acreage under Wheat is probable. Shipments have further decreased; only moderate quantities are arriving at the ports, and the quality is unsatisfactory.

France—Frequent rains last week gave rise to some complaints, but our Paris correspondent reports that the crop is magnificent, and will certainly give as large a yield as last year's, which was one of the biggest ever reaped, but defective as regards quality. Native Wheat is freely offered on country markets, and prices are easier.

Italy—The crop is making favorable progress and promises well. It should now be nearing maturity, at any rate in the early districts.

Belgium and Holland—Rains have fallen recently, and crop prospects are excellent.

Germany—Crop conditions in the Northwest and the South are all that could be desired, but in other parts there are more complaints of drouth. Rye and Oats are the crops most affected, but the matter is by no means regarded as serious; however, on light, sandy soils rains are certainly needed to ensure normal results at harvest. The Rye crop is now in bloom. Native Wheat continues in short supply, and foreign qualities have had to be employed for tenders against contracts in Berlin.

Denmark—The crops receive favorable mention.

North Africa—The harvest is progressing under favorable conditions, and prospects continue excellent. First samples have been found quite satisfactory.

GOLD MOVEMENT.

An analysis of the recent Gold movement is of interest, since it shows its true scope and meaning. It began on April 7, since which time over 60,000,000 of Gold has been exported. But in the meantime more than $22,000,000 of new Gold has been made available in New York on account of the San Francisco and Seattle assay office checks deposited there. The movement of Gold exported and of Gold received in the last eight weeks is shown by the following table:

Week ending—	Gold exported.	Gold received.
April 9	$2,925,000	$1,369,5??
April 16	1,500,000	5,460,200
April 23	1,500,000	4,1?9,8?0
April 30	12,800,000	2,08?,400
May 7	9,250,000	4,295,0?0
May 14	14,000,000	534,500
May 21	15,400,000	3,102,200
May 28	2,798,000	1,052,400
Totals	$60,173,000	$22,637,000

This shows a net loss in this period of $7,536,000. But $40,000,000 of the $60,173,000 of Gold exports are due to the Panama Canal payment.

CROPS IN THE NORTHWEST.

[From the Duluth Commercial Record, June 17.]

Wheat conditions in the Northwest, with occasional exceptions, are all that could be desired. The early sown in Minnesota and South Dakota is from 6 to 12 inches high and well stooled, and the same can practically be said of the early sown in North Dakota.

There are complaints of weeds from scattered localities and in the Red River Valley some fields are flooded, although it is not claimed they are drowned out. About the crop as a whole, however, the only thing that can be said is that it is almost too promising.

A little Barley and Flax are still being seeded in North Dakota, but this week should see all seeding finished.

The early sown Flax is up and so far no complaints are being made as to condition.

The Flax area is still a matter of great uncertainty, owing to the exceptional decreases in many sections of the country.

EXPORTS OF FLOUR AND WHEAT.

The exports of Wheat and Flour in Wheat (reckoning 4½ bu Wheat to a barrel of Flour) from all American ports as reported by the Chief of the Bureau of Statistics of the Treasury Department monthly for four years were as follows:

THE WEATHER CONDITIONS.

Showery conditions prevail West and Southwest, except Northern Illinois and all of Iowa. Good rains in Ohio Valley, Missouri and a heavy rainfall at Valentine Neb. Clear in Manitoba and most of Northwest. Temperature 56 at Valentine, Neb., 72 at Omaha, and 78 at Sioux City. Southwest cloudy. Showers in Kansas.

Indications are for showers and thunderstorms in western lake region. Temperatures lower Tuesday.

ITEMS OF GENERAL INTEREST.

The Standard Oil Company made another cut in all grades of Oil except Ragland Friday.

Vicksburg, Miss., is getting new Oats from Texas, which show the best quality in three years.

Members of the New York Coffee Exchange, Friday, voted to close the Exchange on Saturday July 2.

An American company is reported to have purchased the dockyards at Lareto, Lower California for $830,000 Gold.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to June 4 have amounted to 4,336,000 bu, against 4,776,000 bu in the previous year, and 2,280,000 bu in 1901-2.

Fire, Friday, almost wiped out the village of Altura, near Winona, Minn., on the Chicago Great Western Road. The Great Western depot and many other buildings were destroyed. The total loss will be from $40,000 to $50,000, partly insured.

The shipments of Flax Seed from India from April 1 to June 10 amounted to 5,018,000 bu (Calcutta 2,992,000 bu and Bombay 2,076,000 bu), against 6,200,000 bu last season (Calcutta 3,760,000 bu and Bombay 2,640,000 bu), and 6,792,000 bu in 1902 (Calcutta 4,272,000 bu and Bombay 2,520,000 bu).

The receipts of Flax Seed at Bombay for the week ended May 19 amounted to 9,951 tons, against 8,140 tons in the previous week and 7,050 tons in the same week last year. The total receipts at Bombay from Jan. 1 to May 19 amounted to 105,295 tons, against 93,201 tons in the same period last year.

The Liverpool *Corn Trade News* of June 1 says: "Our correspondent at Galatz reports that more or less rain has fallen throughout Roumania, but it has been ascertained that for the most part the moisture came too late. Rye has suffered most; Wheat comes next, and not more than a fourth of an average yield can be expected for this article. The condition of the Corn crop is still good, but more rain is wanted."

The New York *Producers' Price Current* says: "The remarkable dullness which has characterized the Hop trade ever since the middle of last January, shows no signs as yet of being broken. There is absolutely nothing doing between dealers, while brewers appear to have sufficient stock to warrant their not buying any Hops. Reports from growing districts both in this country and Europe continue excellent; in fact, better than they have been for many years at this time."

The syndicate which controls the Pere Marquette system and which recently purchased the Cincinnati, Hamilton and Dayton has just closed a deal by which it has acquired the Chicago, Cincinnati and Louisville road. The three railroads will be welded into one system and it is said the general offices will be moved to Chicago. By the acquisition of the Chicago, Cincinnati and Louisville, the Pere Marquette secures practically an air line between Chicago and Cincinnati and the former road secures an entry and terminals in Cincinnati and Chicago.

The Liverpool *Corn Trade News* of June 2 says: "The weather in France has become much cooler, and abundant rains have fallen in most districts, the moisture, however, was wanted by agriculturists, and they still express themselves as well satisfied with actual crop conditions. A period of fine weather is now wanted for earing and flowering and to permit of the gathering of the abundant Hay crop in good condition. Extreme dullness prevails on country markets, for although sellers are offering more freely and in a number of cases are willing to take 6d to 1s less money, millers only buy to cover immediate wants owing to the very satisfactory outlook for the new crops."

The following semi-official bulletin has been issued at St. Petersburg: "Returns dated May 28 show that general crop prospects are above the average. Winter Grain, especially Rye, is good in all the Northwestern region, but poor in some southern districts. Winter Wheat is unsatisfactory to bad in the southeast, and partially so in Little Russia, Central, Northwestern and Caucasian Governments, but the condition of the crop generally is satisfactory. Spring crops are better than winter crops; there are good prospects in northeastern and central regions, also in Dnieper, Azoff and Crimean districts, but these crops are unsatisfactory or bad in Southern Bessarabia, Middle Podolia, and partially in the Ural and northwestern districts."

Unless the attorneys of the railroads composing the Chicago Car Service Association agree, Tuesday, at a conference with United States District Attorney Bethea to change some of its most important rules and practices, suit will be commenced against the association for violation of the anti-trust law. If the Chicago Association is forced to change its methods all of the thirty-seven car service organizations in the United States must make similar changes. The worries of railway managers over the threatened attack in the Federal Courts on car service associations are increased by the action of the Mississippi State Railway Commission in ordering that the railroads must pay demurrage charges to shippers for delaying shipments. Fearing that similar rules may be made by other States, the railroads will try to have the courts declare illegal the rules of the Mississippi Commission.

The reorganization plan of the United Box Board and Paper Company, which was announced some time ago might be expected shortly, has been postponed for a considerable length of time, probably until late fall at least. The leading people in the company, it is understood, after taking counsel of the stockholders and Eastern bankers, decided the present time was not favorable for new issues of industrial bonds, and that the company could reasonably expect to do better later on. The company is in no need of money, and, while business is very poor, is earning its running expenses and fixed charges. All its needs are supplied for this year, and there is no trouble in sight until the $350,000 of bonds come due on Jan. 1, under the provisions of the mortgage. The problem is how to meet these bonds without crippling the working capital of the company. It was hoped that earnings would be sufficient to care for them, but apparently that will not be the case, owing to the exceptionally slack season for business. It is possible that some temporary means of providing for these bonds may be found, and that a reorganization of the company's finances will be saved until conditions are more suitable.

In the New York Stock market a more "bullish" sentiment was created by favorable crop reports and the smaller offerings. The feature was the strength and advance of 2 points in the Southern Pacific and Soo Steel preferred also came in for more attention, and advanced 8/4. Western Railway was made small gains. Money, 1@1½ per cent.

Bradstreet's weekly foreign crop summaries says: "Crop conditions in Europe, as a whole, are slightly improved. United Kingdom—Wheat crop progressing slowly. France—Weather improved. Crop prospects now generally good. Germany—Some rain has fallen since our last report. More is urgently needed. Russia—An unofficial report states that outlook in southwest sogurensk and saratof mo-ely favorable. Trade influences much of the important Wheat growing territory). Roumania—Wheat crop now estimated at only 80 to 90 per cent of last year's crop, or 220,000 to 250,000 bu. against 74,000,0-0 bu in 1903. Wants abundant rain which has fallen in some parts. Spain—Severe storms have damaged crops. North Africa—Prospects nearly favorable. Argentine—Some trade have fallen and more probable. Light frosts have occured."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The market is quiet and easy, with prices move in buyers favor.

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, June 16.]

Wheat—There is no market at the present time. No one wants any Wheat at the present writing at prices asked by holders. A few of them have at last realized that they held on a little too long, and dollar Wheat is a long way off. The trouble with many Wheat raisers is they listen to people who have no knowledge of conditions the world over, and are stuffed full of socialistic ideas and believe that they are the only ones that have any Wheat for sale, and that the buyer must come to them when he wants Wheat. If holders would have sold a few months ago we would have done a larger export business this year, and possibly would not have had as large a carry-over as we now have. Stocks are fairly good in the principal Wheat counties of the Northwest, considering the size of the crop last year. There are no buyers at present seeking Wheat at ruling figures; millers have their wants well in hand, and have Wheat to start with when trade picks up. In the absence of any special demand, quotations are: Club, 70c; bluestem, 80c, and valley, 83c per bushel.

Reports from all parts of the Inland Empire Wheat belt indicate that the crop this year will be a large one. Conditions prevail which lead to the belief that the harvest will equal that of the great Wheat year of 1897. Nothing has occurred to interfere seriously with the growth of the Grain, and unless something unforeseen occurs the coming summer will probably witness the garnering of a bumper crop. The acreage planted to fall and spring-sown Grain is considerably larger than it was a year ago. In some of the older counties, where the most of the Wheat land has been under cultivation, the increase is slight, if anything at all, but in most of the newer Wheat counties the area sown to Wheat this year is much above that of 19.3. Last year's Wheat brought good prices, and most of the growers felt warranted in putting in a larger acreage. Thousands of acres of new land in the western part of Whitman County are in their first crop. in Asotin it is estimated that the acreage this year is 50 per cent over that of last; Lincoln reports a larger area in Wheat, not because so much new land has been opened, but because there was comparatively little summer fallow. in Adams County it is estimated there is a 20 per cent increase in acreage, while from nearly all points in the Big Bend country there are reports of larger areas sown to Grain.

Weather conditions have been favorable. Fall-sown Grain went through the winter well, and comes out strong and promising. Spring Wheat is a little backward because of the late season, but it looks well and is attaining a good growth. There has been a fine supply of moisture, and recent rains have helped to put the Wheat fields in a highly promising condition. In many years the outlook has not been so bright, and it is not strange that the farmers are in good spirits, with every prospect of a bountiful harvest before them.

Flour—Market quiet and very little doing. There is some inquiry for future delivery, but not enough to cause any commotion in the situation. We have passed through a very dull month; in fact, two of them, and a little brightness appears on the horizon at the present writing. Stocks have gone down considerably in both China and Japan, and there is no doubt that there will shortly be an active demand for Flour. Shipments to South America are small and to California very little is doing. To the United Kingdom there is no call. We have only dispatched one cargo to England from here the past season, and the outlook for any new business from that country is not very encouraging. Quotations show some change. We quote export brands, $3 20 to $3 30 per barrel; Patents range from $4 00 to $4 35 per barrel.

WEATHER AND CROPS IN ROUMANIA.

[From Dornbusch, June 8.]

With the exception of a few showers around Braila and other parts of Wallachia on the 30th ult., no rain worth mentioning has fallen in the country since the 19th and 20th idem, and the windy weather, which continues prevalent, quickly dried up the moisture, so that the plants received little benefit. The sky has been overcast on more than one occasion, but the result has invariably been blighted hopes, while the temperature has now risen and is about at summer heat. To-day is a fine, bright day, and the greatly desired rain seems as far off as ever. Complaints as to damage to crops are growing from day to day, and the outlook is certainly anything but brilliant.

The drouthy radius around Braila is increasing in size and comprises the country lying as far west as Buzeu in Wallachia, north as far as Berlad in Moldavia, and an equal distance south and southeast in the Doorogea. Complaints also come from the remaining portions of Wallachia, and rain is very much wanted, but the prospects in these districts are considerably better than in the others. From the north of Moldavia to a little north of Berlad the crops are reported to be looking well. With regard to the position generally, the greatest damage has been done to Rye, which on some farms has been entirely lost, and the fields have been plowed up and Millet sown instead. There is likely, therefore, to be a very insignificant crop.

The Wheat in the drouthy districts, which has come into ear, will produce a very poor crop; if rain falls quickly it may do some good where it is more backward, but the crop from all accounts will be under the average. Barley, Oats and Corn all want rain, and it will depend upon this falling quickly whether there will be average crops. Flax Seed, as we reported last week, will be a very small crop. Beetroot and Pulse are suffering from the prolonged drouth, and in some parts there is not sufficient grass for the Cattle to feed upon.

The Tabard Inn Corporation was chartered at Trenton, N. J., Friday, with a capital of $12,500,000. The Company is a consolidation of the Booklovers' Library, Philadelphia Bookstore Company, Library Publishing Company, and the Tabard Inn Corporation.

EXPORTS OF RYE.

[From the Liverpool Corn Trade News.]

The following table exhibits the exports of Rye from the following countries from August 1, 1903, to June 4, 1904, compared with the corresponding time in 1902 3:

Countries—	1903-4, bushels.	1902-3, bushels.
Russia and Danube	32,872,000	54,968,000
America	688,000	5,024,000
Germany	5,600,000	4,080,000
Total	39,160,000	64,072,000

THE WEATHER CONDITIONS.

Weather is wet Southwest—Concordia 1.18 inches, Springfield, Mo., 1 inch, Kansas City .02 but raining. No rain at Dodge City or Wichita, but light rains through Oklahoma and Texas. Showers West. Fair and cooler Northwest. Moderate rains in Ohio Valley, 1.74 inches at Nashville. Generally cooler.

Indications are that the unsettled condition in this section will pass away to-day, followed by cooler weather. Weather Wednesday will be fair throughout this district, except possible showers in the Rocky Mountain slope.

ITEMS OF GENERAL INTEREST.

The planing mill of the Rat Portage, Ont., Lumber Company and thirteen dwellings were destroyed by fire, Friday. The loss is estimated at $100,000.

The Westinghouse Machine Company declared the regular quarterly dividend of 2½ per cent, payable July 11. Books close June 30, reopen July 12.

The directors of the American Trust and Savings Bank, Chicago, will meet next week to take action on the semi-annual dividend on the stock of the bank.

The National Rice Milling Company has declared a dividend of 2 per cent on its preferred stock, payable June 27. Books close June 17 and reopen June 28.

The American Telephone and Telegraph Company increased its net output of phones 52,176 in May. The total subscribers May 31 were 4,084,843, an increase of 615,019 in a year.

The Consolidated Car Heating Company has declared a regular semi-annual dividend of 1½ per cent, and an extra dividend of 1½ per cent, payable Aug. 1 to holders of record July 16.

Formal notice has been sent to Southern Pacific stockholders of the call of a special meeting of stockholders at Beechmont, Jefferson County, Ky., July 20, to act upon the proposition to create $100,000,000 preferred stock. Transfer books close July 14 and reopen July 21.

It is understood that the Lake Shore and Michigan Southern 4 per cent debenture bond syndicate has been closed with a profit of something over 2 per cent and interest at 4 per cent on the syndicate's money during the operation. This is the syndicate that took the $40,000,000 of twenty-five-year debenture bonds purchased by J. P. Morgan & Co. from the Lake Shore road a few months ago.

All indications point to the adoption of the proposition of the directors of the American Car and Foundry Company to modify the company's charter in order to classify the board of directors, which is scheduled for action at the special meeting of the stockholders June 28. Up to this time, it is said, there has been no opposition to the matter in so far as the leading holders of the stock are concerned. The classification of directors is a common thing with many of the industrial companies. Several of the leading companies made provision for it at the formation of the company.

Despite official denials, evidence is accumulating that the Dutch stockholders are determined to oust the Harriman interests from control of the Kansas City Southern Railroad. It is now known that the recent increase of $10 00 a share in Kansas City Southern stock was due to the buying up of the stock by Herman Sielcken. He is now in Amsterdam, in consultation with the Dutch stockholders. When the voting trust in Kansas City Southern expires next year it is certain that there will be a hard fight between Harriman and the Dutch for control of the Kansas City Southern. If the Dutch stockholders get the Kansas City Southern in all probability it will be consolidated with the Chicago Great Western.

The president of the South Side Elevated Railway Company, Chicago, reports that proxies for the special meeting on Aug 9 to authorize the new $10,000,000 bond issue are being received in very satisfactory volume. It requires a two-thirds vote of the stockholders to legalize the new issue, and it will probably not be until close to the time of the meeting that the management will feel absolutely assured of the project going through. In fact, proxies are revokable up to the last minute before the meeting, so that there will be no actual certainty until the meeting is held. However, the prospects are now considered so good for the bond issue that the management is now in active negotiation for the material to make its proposed extensions. It is understood that several provisional contracts have been practically closed.

The Chicago *Inter Ocean* says: "There is considerable mystification on La Salle Street regarding the Corn Products Company's dividend on its preferred stock, payable about July 10. According to the reports received by some of the brokerage houses from their New York correspondents, a meeting of the directors to consider the subject of dividends was called for last Tuesday. Whether or not this meeting was held has not yet been learned. If it was, the failure to announce the dividend action might well cause comment. It seems more likely that the meeting was postponed for some reason. At the office of the Corn Products Company in Chicago no word has been received regarding the meeting or dividend. It was stated, Friday, that the Chicago officials had no definite information that the meeting had been held and knew nothing regarding the dividend."

ITEMS OF GENERAL INTEREST.

New York Exchange 30c premium

Documentary Sterling steady at 484¾.

Chicago Bank Clearings to-day, $25,943,486.

The Chicago Flour mills have closed down for lack of orders for Flour.

A Rio Janeiro cable says, "Prospects for crop of Coffee for 1904 and 1905 very disheartening."

Ten packers purchased 22,500 Hogs to-day; shippers 5,500; left over, 4,500. Market closed steady.

The Medina, New York, National Bank has been closed by direction of acting Comptroller of the Currency.

Reported that 112,000 bu Wheat, 48,000 bu Corn and 50,000 bu Oats were taken at the seaboard today for export.

A number of agents at Chicago received orders from owners of steamers to lay them up unless Grain freights improve.

Estimated receipts for to-morrow: Wheat, 21 cars; Corn, 242 cars; Oats, 95 cars; Rye, 6 cars; Barley, 10 cars; Hogs, 31,000.

Local Securities were mostly strong, with good advances in Swift's, Chicago Telephone and Booth's preferred. The weakness was in Box Board preferred.

Liberal receipts of Meats from the interior—probably for delivery on July contracts. Directors of the Board of Trade are increasing the "regular warehouse" capacity.

Monday's Cattle receipts at Chicago, 28,087, were the largest since April 27. The Burlington road contributed 6,283, Northwestern 4,551, Rock Island 3,161, and Milwaukee 3,017.

Cotton in New York strong on old and new crop deliveries. There was general covering by the "shorts." The South and profit takers sold on the advance. Sentiment was "bearish," but the selling evidently was overdone. Closing sales were 20@29 points higher.

Average cost price of Hogs at Chicago, Tuesday, was $5 29, the highest since April 4, about 32c higher than a week ago, 63c higher than two weeks ago, 72c higher than a month ago, and 76c lower than a year ago when the average was $6 05.

Directors of the Chicago Telephone Company have declared the regular quarterly dividend of 2½ per cent on the capital stock payable June 30. Books close June 25, reopen July 1. No action was taken on the expected issue of new stock.

The Prudential Trust Company, of Pittsburg, Pa., has made an assignment. It is a very small affair, and no importance is attached to the failure. The company has a capital of $200,000, deposits, $303,000, and loans and discounts $415,000.

The entire issue of Chicago Rock Island and Pacific Railway $7,500,000 4½ per cent three-year Gold notes taken a few days ago by a syndicate headed by the First National Bank has been sold to investment institutions and private investors.

During the last half of May Germany imported for home consumption 2,504,000 bu Wheat and exported 112,000 bu. The net import in the ten months ending May was 50,392,000 bu, compared with 52,024,000 bu in the corresponding period of last season, and 65,448,000 bu in 1901-2.

The Dominion Coal Company, of Glace Bay, N. S., has declared the regular semi-annual dividend of 4 per cent on preferred stock, payable to shareholders of record June 28. Books close June 28 at 3 P. M. and will reopen July 4 at 10 A. M. No dividend was declared on the common stock.

Millers in Tennessee are taking all the Wheat offered by farmers and paying 85c. This is the same condition as in Texas. The millers in the latter State have not a large storage capacity, and are not expected to load up beyond their facilities for handling unless the demand for Flour keeps brisk.

Stocks in Wall Street had a good undertone and advanced fairly. Canadian Pacific and Soo led the upward movement, with gains of 1⅛ on the former and ¾ to 2 on the latter. They are being bought on increased earnings. Industrials all did better, Sugar gaining 1¼ and Consolidated Gas 2 points. Money 1⅛ per cent.

The mid-June Prussian official crop report, with comparisons, was as follows:

	June, 1904.	May, 1904.	April, 1904.	June, 1903.
Winter Wheat	80	82	80	72
Winter Rye	78	80	80	78
Oats	72	80	....	78
Potatoes	74	74	..	74

An official government report places the total Canadian Wheat crop this year at 99,500,000 bu, of which 51,000,000 bu will be available for export. The report estimates the Ontario Wheat yield (spring and fall) at 19,000,000 bu, or 5,000,000 bu less than last year. Manitoba and the Northwest Territories promise to produce 80,500,000 bu, against 53,000,000 bu last year.

The San Francisco *Commercial News* says, "Reports from the State of Washington indicate that the Wheat crop will be the largest on record. In the central part of the State the average increase in acreage is estimated at 20 per cent, and throughout the eastern part there has been an increase of 10 per cent. The acreage in Whitman County is placed at 25 per cent larger than last year, and a yield of 12,000,000 to 14,000,000 bu is looked for. In Asotin County the acreage is 50 per cent larger than last year. Walla Walla County has an acreage of 150,000 under Wheat, and expects to produce 3,500,000 bu, or 1,000,000 bu more than last year. The Lincoln County crop is placed at 12,000,000 bu, or 2,000,000 bu more than last year. Adams County counts on a yield of 7,000,000 bu from 250,000 acres."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The market is extremely dull and business is at a standstill. All the local mills are shut down. Foreign bids are still prohibitive.

WINTER WHEAT—Was in moderate demand and the market was steady. Some milling and shipping trade, but nothing urgent. No. 2 Red in store nominally 98@99c, and fresh arrivals free on board sold at 98c@$1 00. No. 2 Hard in store sold at 88c, and fresh arrivals free on board quotably 90@95c. No. 3 Hard in store sold at 88c, and fresh arrivals free on board sold at 81@83c for ordinary, and quotably up to 90c for choice.

SPRING WHEAT—Met with a moderate demand on milling and shipping account and market steady. No. 1 Northern in store quotably 9@10c over old July, and ranged at 94½@96¼c, and fresh arrivals free on board quotably 97@99c. No. 2 Northern fresh arrivals quotably 93@96c. No. 3 Spring fresh receipts free on board was quotably 85@93c, with sales at 85@90c. No. 4 Spring quotably 65@88c for poor to choice.

REGULAR WHEAT—Was only moderately active and feeling rather steady, with the close ¼@⅜c better for old July and unchanged for September. Buying of old July was more conspicuous, while the September offerings were freer on the early advance. Weather conditions were favorable and Continental markets were weak. Paris showed a break of ½@1½c and the tendency was cabled as lower. Buda Pesth lost ½c, while Berlin advanced ½c. Liverpool quoted futures ⅛d higher and London came unchanged to ⅛d lower. Primary receipts were 11,000 bu under those of a year ago, while Northwest cars were 40 larger. Milling news from the Northwest was "bearish." Minneapolis wired one of the large mills had reduced its capacity and that rumors were in circulation of a general shut-down on Thursday. St. Louis reported cutting in progress east of there in Illinois and Minneapolis wired "Wheat more than half made, look for bumper crop." Advices from Manitoba were in substance the same. The mid-June official Prussian crop report made condition of Wheat 80 per cent, against 72 per cent same time last year. Signal service predicted showers for Nebraska, Kansas and Missouri and are possible in the Northwest; fair for Illinois and Indiana. Minneapolis wired stocks had decreased 550,000 bu the past four days. Exports were very moderate, mostly all in Flour, and 14 boat loads accepted at the seaboard. Shippers reported a little better cash demand here, with sales of about 36,000 bu. Kansas City and St. Louis received 43,000 bu and shipped out 41,000 bu. St. Louis early in the day wired that reports from Southern and Southeastern Kansas were not of the best. Part of the September selling was credited to the Northwest, and the buying to foreigners. St. Louis wired there was an extraordinary demand there for sacks, which indicated a large crop on the river and an early movement. Dallas, Texas, wired: "Oklahoma City—Following from Enid, Okla. yesterday: 'A surprising condition in Wheat crop has developed now that the Grain is being harvested, and the surprise means that the yield will be from 40 to 50 per cent more than was at first estimated. One farmer of Garfield County has samples of his Wheat in the city which show three grains to the mesh. He said his yield will be almost 50 bu to the acre, which is probably the story of two-thirds of the farmers in this county.'" St. Louis wired: "Man here from Seneca, Mo., 35 miles south, who says he has been offered 1,000 acres of Wheat at 75c per bu, they are cutting it now." Receipts at Duluth 33 cars and at Minneapolis 133 cars, a total of 166 cars, against 170 cars yesterday, 129 cars a week ago, and 126 cars last year. Local receipts included 12 cars Winter, 3 cars Spring, 4 cars mixed, a total of 19 cars against 20 cars last year. Included in the above was none of contract grade. There were 2 cars and no bu taken from unlicensed elevators. The estimated receipts for tomorrow are 21 cars. Withdrawals to-day were 4,050 bu. Receipts at Western points were 253,334 bu, against 270,355 bu last year. At Eastern points 2,267 bu, against 76,122 bu last year. Shipments from Western points were 273,618 bu against 108,107 bu last year, and from Eastern points 30,260, against 37,486 bu last year. Shipments of Flour were 24,076 brls. Exports of Wheat in Flour were equal to 158,602 bu.

Future Deliveries of Regular Wheat—Fair trade and market firm.

JUNE—Nothing doing, but 92c was bid.

JULY—Old Style—Sold at 85⅝@85½c and at 85⅝@86½c. Opened with sales at 85⅞c to 85⅝c; sold to 85¾c, to 85⅝@85¾c, to 85⅝@85¾c, to 85⅝c, to 84⅞c to 86c, to 86¼@86⅜c, to 85¾c, to 86¼c, to 86c, to 86⅜@86½c, to 85⅞c, to 86c, and closed at 86c.

JULY—New Style—Sold at 84⅜@84½c and at 85¼c. Opened with sales at 84⅝c to 84¾c; sold to 84½c to 84⅝c, to 84⅝@84½c, to 85@85⅛c, to 84⅞c, to 85⅛@85¼c, to 84⅜@84⅝c, to 84⅝c, to 84½@84⅝c, to 85¼c, to 84¾c, to 84⅞c, and closed at 84⅞c sellers.

SEPTEMBER—Old Style—Sold at 81⅛@81⅞c. Opened at 81½c; sold to 81⅜c, to 81⅞c, to 81¼c, to 81⅝c, to 81⅛c, to 81⅝c, to 81⅜c, and closed at 81⅝@81½c.

SEPTEMBER—New Style—Sold at 79½@79⅝c and at 80⅛@80¼c. Opened with sales at 79⅞c to 79⅞@80c; sold to 79¾c, to 80⅛@80¼c to 79⅝@79¾c, to 79⅞c, to 79½@79⅝c, to 80@80⅛c, to 79¾c, to 79⅞c, and closed at 79⅞c sellers.

DECEMBER—Sold at 79⅝@79¾c and 80⅛c. Opened at 80c; sold to 79⅞c, to 80⅛c, to 79⅝@79¾c, to 80c, to 79¾c, to 80⅛c, to 79⅞@80c, and closed at 79⅞@80c.

CORN—The trade was very moderate and fluctuations narrow, the close showing July a trifle higher and the September ⅛c lower. The spread at one time was only 1-16c, as against ⅜c at one time yesterday. Buying July and selling September was a feature. Receipts were about as expected at 198 cars, 18 cars grading, against 442 cars a year ago, when 51 cars were up to the speculative standard. For to-morrow 242 cars are estimated. Acceptances from Iowa were reported as somewhat freer. The weather was most favorable and Kansas City wired conditions in the Southwest were ideal. The map showed most favorable weather for cultivation and progress of the crop. Showery conditions indicated outside Illinois and Indiana, where fair weather was predicted. The cash situation, too, was against the price, there being no prospect of business and many representatives of seaboard and exporting houses were requested to send no more messages on Corn offers until further instructions. Cash sales 50,000 bu. Considerable uneasiness, however, is still manifested by many traders who fear the probable attitude of the July "long" interest. Western receipts were 773,000 bu, against 762,000 bu last year. Shipments were only 164,000 bu, against 543,000 bu same day in 1903. Local arrivals were 685,000 bu, and shipments but 63,000 bu. Liverpool quoted futures ⅛d higher. There was 196,000 bu taken from irregular elevators, and only 1,000 bu from public warehouses. Exports were light at 20,000 bu, last year 111,000 bu, and 6 boat loads were accepted at the seaboard. Car lots were in fair demand and moderate supply. Prices were higher. No. 2 sold at 48¾c and closed at 48½c. No. 2 Yellow closed at 51c. No. 3 sold at 48⅜c and closed at 48¼c. No. 3 Yellow sold at 50¼c and closed at 50½c. No. 3 White sold at 48¼c. No. 4 sold at 42@47½c, outside for yellow.

Corn by sample—Offerings were light, and demand fair. Feeling firm, and prices unchanged to ½c higher. Sales on track and free on board: No Grade sold at 37@41½c. No. 4 at 37@48¾c. No. 3 at 48@50¼c. No. 3 Yellow at 50¼@50¾c. No. 2 at 48¾@50c. No. 2 Yellow at 50¾c. No. 3 White at 48½@49c. No. 2 White at 49c. Billed through: No Grade at 38@41c. No. 4 at 44@47½c. No. 3 at 47¼c. No. 3 Yellow at 49@49¼c. No. 2 Yellow at 49¼c. No. 3 White at 47¼@47¾c. No. 2 White at 48c.

Future Deliveries of No. 2 Corn—Moderately active and somewhat irregular, closing unchanged to ⅛c lower.

JUNE—Inactive, and closed nominally 48c.

JULY—Sold at 48⅛@48¾c. Opened at 48½c to 48⅜c, and sold to 48¼@48⅜c, to 48½@48⅜c, to 48¼@48⅜c, to 48½c, to 48⅜c, to 48¾c, to 48⅜@48½c, to 48⅜c, to 48⅛c, to 48½c, to 48⅛@48¼c, to 48⅜@48¼c, to 48½c and closed at 48½c asked.

SEPTEMBER—Sold at 48½@48⅞c. Opened at 48¾c to 48⅝c, and sold to 48⅜@48¾c, to 48¾c, to 48⅝c, to 48⅞c, to 48¾c, to 48½c, to 48⅝c, to 48⅝@48⅝c, and closed at 48½@48⅝c.

DECEMBER—Sold at 44¼@44½c. Opened at 44¼c to 44⅜c and sold at 44¼c to 44½c to 44⅜c, to 44¼c, to 44⅜c, to 44¼c, and closed at 44¼c asked.

MAY—Sold at 43½c and 43½@43⅝c. Opened at 43½c, sold at 43½@43⅝c, to 43½c, closed 43½ asked.

OATS—Were moderately active and unsettled. Prices advanced at one time and were ⅛@⅜c over yesterday's close. July broke ⅜c on moderate selling and closed the same as yesterday and September ⅛c lower, while December gained ⅛c. Commission houses sold July and had fair orders on both sides of the more deferred months. Weather favorable. Cash business slightly better with 25,000 bu sold here and 50,000 bu at New York. Seaboard clearances 9,000 bu. Arrivals were 58 cars, with 95 cars estimated for to-morrow. Withdrawals were 13,800 bu. Car lots to go to store were steady. No. 3 White sold at 42½c. Standard in store closed at 41@41⅜c as to location.

Oats by sample were in smaller supply and sold fairly, prices holding steady. Sales on track and free on board: No. 4 at 34@38c. No. 4 White at 35@41½c. No. 3 at 38½@39½c. No. 3 White at 40@44c. Billed through: No. 4 White at 39½@41c. No. 3 White at 42@43c. Standard at 43@43½c. At the river: No Grade at 31c. No. 4 White at 32@40c. No. 3 White at 38½@41½c. Standard at 42@42½c.

Future Deliveries of Contract Oats—Were unsettled and closed without material change.

JUNE—Closed at 41c.

JULY—Moderate trading. Sold at 38⅞@39½c. Opened at 39⅛c to 39¼c, sold to 39½c, to 38⅞c, to 39⅛c at close.

SEPTEMBER—Fairly traded in. Sold at 31⅞@32c and at 32¼c. Opened at 32⅛c to 32⅛@32¼c, sold to 32¼c to 31⅞@32c, to 32c at close.

DECEMBER—Sold at 32⅜c and at 32⅝@32¾c. Opened at 32⅜@32½c, sold to 32⅜c, to 32⅜@32¾c, to 32⅜c, to 32½c at close.

RYE—Was again quiet and feeling weaker, with prices for futures quotably about 1@1½c lower. There was more disposition to sell. Buyers backward and difficult to get operators interested in the market. Only one car was received. There were no withdrawals here and no export clearances at the seaboard. No. 2 in store nominally 65c and fresh arrivals quotably 65@68c. No. 3 sold at 58c.

Future Deliveries of No. 2 Rye—Quiet. June remains nominally 65c. July nominally 58½c, and 1,000 bu sold at 58c. September 52c bid and 53c asked.

BARLEY—Ruled very dull. Low grades, musty, dirty, seedy feed Barley, hard to sell and weak. A few good cars would sell, few such offered; demand also very limited. Screenings dull and slow unless choice clean. Malting Barley in very small request; no competition at all, sellers simply had to come to the views of such buyers as appeared. General offerings showed decrease. Only 6 cars inspected in. For a range Screenings were quotable at 28@38c; choice, recleaned possibly 40@41c. Barley, low grade feed or mixing, quotable at 34@40c for thin, or seedy, musty, to good color, sweet and good weight. Malting, low grade 38@41c; fair to good, sound, 42@47c; good color, 48@54c, and fancy above.

SEEDS—There were no transactions. The market was without special feature to note. It also was without essential change in any particular.

Timothy—Inactive. New crop or September delivery was offered at $3 20, which was 5c below the last asking price. Nothing was done; the recent bid of $3 10 was repeated. Old Timothy for present or future delivery was lifeless and nominal. There were no sellers. Contract spot or July delivery was nominally $2 92½. Country lots quotable at $2 00@2 85 for low grade to fancy, choice about $2 70@2 75, fair to good Seed $2 50@2 60 and rough at $2 35@2 45.

Flax—Neglected. No change whatever in the market. There were no offerings, and in consequence of that effort to purchase also was lacking. Values nominal, with No. 1 Northwestern or No. 1 from the Northwest at $1 07. No. 1 was quotable at $1 01. Rejected was quotable at 93c@$1 01. July again offered at $1 01 and $1 00 bid. September at $1 05 asked. Local movement—receipts 2 cars or 1,700 bu, output none. Minneapolis got 5 cars and Duluth 14 cars.

Clover—Was called nominally steady and unchanged. Nothing was done. Contract spot Seed about $10 75. Country lots, common to choice, $7 00@10 00, fancy above, mixed with Buckhorn or other weed Seeds $8 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good at $8 50@9 50.

Other Seeds—Some Siberian Millet offered, but not sold. Hungarian and all Millets are ruling unsettled and easy. Hungarian, common and light color to choice dark, at $1 15@1 35. Common Millet $1 15@1 40 for poor to fancy. German Millet, $1 15@1 40. Siberian, 75@90c. Broom Corn Millet, $1 00@1 10. Early Fortune Millet, 85@95c. Mustard 85c@$1 05. Buckwheat easy; quotable at $1 55@1 65 for good.

HOG PRODUCTS—Trade was fairly active in the market for Hog Products. Outside orders were fair, and local trading was moderately active. Offerings were fair early in the day, and the demand was only moderate, due to indications of an easier feeling in the Hog market. Prices declined moderately on all the leading articles. Later advices from the Yards indicated a stronger feeling, with a rally in prices, and this feature had a strengthening influence on the market for Products. Prices rallied again with fair miscellaneous buying. At the advance, there was a little general realizing and prices receded gradually to inside figures, and closed comparatively steady. A fair business was reported in the way of transferring contracts from July to September at the current differences. Receipts of Hogs at the leading Western packing points were estimated at 87,500 compared with 122,100 one year ago. Foreign markets were quiet and rather firm. Backs were quoted 6d higher and Hams 6d lower. Domestic markets were steady. Receipts of Products were quite large—of Lard and Meats about 58 cars. Shipments were rather light—of Lard and Meats about 70 cars. Demand on shipping account was fair, especially for the domestic trade. Offerings were moderate and in most cases held slightly higher. Sales were fair, and prices ruled in favor of sellers.

Mess Pork—A fairly good trade was reported in Mess Pork, and the feeling was somewhat unsettled. Offerings were fair, and the demand was moderately active. Prices ruled irregular. Market opened rather easy, with a little pressure to sell, and prices were 7½@10c lower, and further receded 2½@5c. Later, there was fairly good miscellaneous buying, and a stronger feeling was developed. Prices rallied 10@12½c. Toward the close, a weaker feeling was manifested, and prices gradually declined 20@22½c, and the market closed steady. Shipping demand was light, and offerings were moderate. Cash lots quotable at $12 75@12 80.

JULY—Offerings were not very large, and the demand was only fair. Sales were made at $12 77½@13 00. Opened at $12 95, sold to $12 90 to $12 97½, to $12 92½, to $13 00, to $12 77½, to $12 80, and closed steady.

SEPTEMBER—In fair request, and offerings were moderately free. Sales were made at $13 05@13 27½. Opened at $13 15 to $13 20, sold to $13 15, to $13 20, to $13 15 to $13 22½, to $13 20 to $13 25, to $13 22½, to $13 27½, to $13 12½, to $13 17½, to $13 07½, to $13 10, to $13 05, to $13 10, and closed steady.

Lard—Trade was fairly active in the Lard market, and the feeling was comparatively easy. Offerings were moderate and the demand was fairly active. Foreign advices were unchanged. Market opened rather easy, and prices ruled 7½@10c lower. At the decline, there was a little more inquiry, and prices rallied 7½@10c. Toward the close, the market weakened again with fair offerings, and prices settled back 7½@10c, and the market closed comparatively steady. Demand on shipping account was rather light with no particular pressure to sell. Cash lots were quotable at $6 92½@6 95. Loose lots in small request with limited offerings. Prices steady at about 50c discount on July figures. Leaf Lard in moderate request and offerings were small. Prices quotably steady at $6 12½@6 25. Neutral in only limited demand with fair offerings. Prices quotably steady at $7 12½@7 25 for No. 1, and $6 87½@7 00 for No. 2.

JULY—In fair request and offerings were not very large. Sales were made at $6 95@7 05. Opened at $6 97½ to $7 00, sold to $7 05, to $6 95, to $6 95@6 97½, and closed steady.

SEPTEMBER—Offerings were fair and the demand was moderate. Sales were made at $7 12½@7 25. Opened at $7 15 to $7 20, sold to $7 15 to $7 25 to $7 22½, to $7 25, to $7 12½, to $7 12½@7 15 and closed steady.

OCTOBER—Quiet and steady with small sales at $7 27½. Closed nominal at $7 17½.

Short Rib Sides—Rather a good business was transacted in Short Rib Sides, especially in September contracts. Offerings were fair and the demand was rather active. Trading in July moderate. Outlook favors rather free deliveries especially from the interior. Market opened rather easy, and prices ruled 7½@10c lower, with a little pressure to sell. Later, there was a little more strength manifested, and prices rallied 7½@10c. Toward the close, a quiet and easy feeling prevailed, and prices settled back 7½@10c, and the market closed rather steady. Shipping demand was light, and offerings were moderate. Cash lots quotable at $7 25@7 37½ according to weight.

JULY—Demand was moderate and offerings were only fair. Sales were made at $7 40@7 50. Opened at $7 47½, sold to $7 45, to $7 50 to $7 40, to $7 42½, and closed steady.

SEPTEMBER—Offerings were rather liberal, and the demand was fair. Sales were made at $7 60@7 72½. Opened at $7 62½ to $7 67½, sold to $7 62½@7 65 to $7 67½, to $7 65 to $7 70@7 72½, to $7 70, to $7 72½, to $7 65@7 67½ to $7 67½ to $7 60, to $7 65, to $7 60, to $7 62½, and closed steady.

OCTOBER—Demand light, and offerings were somewhat limited. A few trades made at $7 62½@7 75, and closed quiet at $7 65.

Other Meats—Trade was only moderate and feeling comparatively firm. Offerings not very large and the inquiry was only moderate. Exporters rather backward and the home demand was only fair. Green Meats in moderate supply with a fair inquiry, and prices ruled higher. Pickled Meats in moderate request and prices ruled higher. Dry Salted Meats were in fair demand, with moderate offerings, and prices favored buyers. Smoked Meats called for in limited quantities, and prices were steady. Closing prices ranged as follows:

RUSSIAN CROPS.

[Specially translated for Dornbusch.]

Towards the close of April meteorological conditions being mild and damp were favorable to agriculture and stimulated the growth of the cereals, but a wave of very low temperature has since passed over the country and probably caused more or less damage in many places to the late-sown spring Grain.

The condition of the crops is rather varied, although in general somewhat above an average. The spring crop prospects are better than those of the autumn-sown Grain. Rye has a rather better appearance than the Wheat.

The Asiatic Wheat is in general considered an average. It is reported to be good in the Tashkent and in the Aroft, in the central plains of Poland (Kalisz, Radom and Warsaw governments), a portion of the Baltic provinces, and also some districts of the governments of Tambeff, Penza, Kursk, Kharkoff, Bessarabia, and Minsk; bad and unsatisfactory in the southern districts of Bessarabia and Kieff, in the southern districts of the Government, and a portion of the government of Vitebsk. In the rest of the country prospects are uniformly satisfactory.

The rye is generally speaking, above the mean—good in the greater portion of the fields on the banks of the Vistka, Kama, and Bielaya, and in the middle and upper reaches of the Volga, in the middle and upper reaches of the Don, in most parts of the Tambeff, Voronezh, and Kursk governments, in some localities in the Azoff and Crimea, in the contiguous provinces of Moscow, Kaluga, and Smolensk, and some districts of the Polish and Baltic governments. Bad and unsatisfactory chiefly in the Southwest particularly in the south of Bessarabia and the central plains of Podolia, in some districts of the Government of Vitebsk governments and the western part of Courland. The condition is generally satisfactory in the remainder of the country.

The spring-sown cereals are described as above an average, good for the most part in the Northeast region, in the districts bordering upon the Vistka, Kama and Bielaya, and in the Volga —the greater portion of the Government, particularly the adjacent ones of Tambeff, Voronezh, Kursk, and Orel, the Crimea, and the Azoff and the other reaches of the Don. Unsatisfactory and partially in the south of Bessarabia, in the centre of Podolia and the greater portion of the Tchernigoff government, in the Kubanskie territories and south of the Ural. Elsewhere appearances are represented as satisfactory.

It is necessary to observe that the cold spell which occurred immediately after the above report may have somewhat deteriorated the condition of the crops, particularly the late sown.

CROPS IN ILLINOIS.

The weekly crop bulletin issued at Springfield for the week ending June 30:

Many localities needing rain, especially northern section. Weather has been favorable for farming operations, and much progress made

Weather very favorable for cleaning Corn, and fields generally in good condition. While crop has not made rapid growth, it is in fairly good state. Most fields have been plowed over once, many crossplowed, and some plowed third time.

Cotton destroyed some during week from lack of moisture. Plant is growing very short, not having attained seasonable growth, and color shows effects of insufficient moisture. Many fields heading out, very poorly.

Wheat doing well in central and nearly ripe in southern district. In latter section much of the crop will be ready for harvest during the ensuing week. Heads well filled and outlook generally favorable.

Harvesting of Clover in active operation in southern district, and will soon be followed by that in other districts. General yield light. Grassed in northern portion need rain.

Black Cherries, Raspberries, and Grapes promising, but would be improved by more moisture. Apples and Pears continue to drop, and the general outlook for Apples is very discouraging.

Potatoes being marketed in southern portion. Gardens promising and yielding well.

CROPS IN TENNESSEE.

[Nashville Correspondent of Modern Miller.]

Wheat is now ripening all over Tennessee and will be ready for harvest during the next week. Threshing will be in progress soon after the big national holiday in July. Further South harvesting is already in progress, but the amount of Wheat raised there is very small.

The new Wheat crop will be a little late this year because of the late planting last fall. A drouth extended in the fall made the ground so dry that plowing for seeding was impossible until, in some localities, a month after the Grain should have been in the ground. One week or even two weeks would have made no great difference, but a month had its effect in the late sprouting of the seed and the growing of the plant this spring

Corn is in fine condition and is receiving the second cultivating. In some sections of the Mississippi River bottom lands the crops are receiving their last working. The rains early in the week caused the rapid growth of weeds and many crops were getting foul, but the fine weather that followed greatly facilitated outdoor work, and cleaning out has about been completed.

SCOTCH AGRICULTURE.

[From the North British Agriculturist, June 8.]

During the past week the weather has been of a favorable character, being for the most part bright and warm, with a rather heavy fog at night. Vegetation has made rapid progress, and the work of the over are looking wonderfully well, considering the rather backward character of the season up till lately. The work of singling the Turnip breaks is now pretty well completed in all the earlier districts, and the braird has come away rapidly, so that no trouble has been experienced with the fly pest, up till now at any rate. The Potato crops are generally looking well, except in those cases where damage has been done by grubs or wire-worms. The Hay crop promises to be a full average one, and pastures are also improving rapidly. Fruit trees are showing up well, and in the earlier districts the horse and hand hoes are already busy among them. Altogether, the crop prospects are not bad at all, and given a continuance of fine weather, with a refreshing shower occasionally, the crops may all show up very well yet.

AGRICULTURE IN GREAT BRITAIN.

[London Agricultural Gazette, June 6.]

After a wet opening the weather in June became sunny and dry, while a northeast wind reduced the temperature, which has also been cold at night to check the growth of crops considerably. There was more rain at the end of May and beginning of June than was desirable, perhaps, but any excess of moisture in the soil has been evaporated by sunshine and the drying wind. Grain crops have continued to improve in appearance, but need warmer nights to bring them on rapidly, as they are still more or less backward. No Wheat ear could be found in May, we imagine, even on the site of a dunghill, where extra forward ears are usually found, nor has an ear been seen up to the present time, on the observations and reports we can determine. The weedy condition of many Grain fields is much to be regretted, as the drain upon the resources of the land caused by the weeds must diminish the yield of crops.

CHICAGO BANKS' SAVINGS DEPOSITS.

Savings deposits of the Chicago banks, as revealed by the reports made by the State institutions to the Illinois Auditor as of June 26, the new high record of $117,900,862. The last previous high record was $112,743,135, on March 28 last. The gain was $4,157,727, or $ 68 per cent. This is a little better than the usual steady growth of savings deposits.

Following are the figures of the savings deposits of the various Chicago banks, given in comparison with those of the last previous call, and the changes shown:

ADVANCE IN PRICES OF BEEF.

[From the National Provisioner.]

Prime Beeves continue to run scarcer and higher. Packers have not figured on the lack of natives during the past few days, and do not know how to account for it, except in the assumption that the winter was harder on Stock than at first believed, and upon the further assumption that farmers, expecting a repetition of the market of 1902, are holding back their Stock for this contingency. Feeders back their Stock for this contingency. Feeders back itself aloof from the market, preferring to profit by their lesson of a year earlier than rush into additional losses, feeling that the higher feeding conditions offset the lower range of of Cattle prices. These again were neutralized by the relatively lower prices for Corn and Hay in the consumptive trade. The combined effect has been the steadily smaller receipts of good native Cattle at points and the steady rise in the value of prime Steers. The prospect is that real choice Corn-fed Cattle will reach 5c soon. Carcass Beef has been pressing up, too, but not in proportion to the rise in Cattle on the hoof. The winter was generally hard on Beef Stock, and their frames responded slowly to conditioning. That made fattening and finishing tedious and expensive. The result is an unusually small number ready and not begun to come, and is not likely to get its run in progress much before August, because both grass and Cattle had a late start this spring.

TRADE IN WALL STREET.

[From Bradstreet's.]

Inactivity in Wall St eet, such as is now shown by the daily recorded transactions at the New York Stock Exchange, is not a matter of surprise, unlike anything that has been witnessed for many years. Even during the almost panicky times which prevailed when the currency question was to the forefront, the professional credit was consequently in question, there was, nevertheless, a good deal of speculative activity growing out of the ideas which prevailed in some quarters about the likelihood of a rise in prices to a much greater range of security values, and the more confident and, as it turned out, correct appreciation on the part of more conservative men of the strength and business sense and financial honesty with which the American people are imbued. At present, however, the New York stock market seems to rest upon what is known as a professional rather than a public basis. Declines in prices for both railroad and industrial securities have been so general and extensive that there would naturally seem to have discounted very largely the country's unindustrial activity and general trade, but the possibility of small crops and unfavorable results as regards our agricultural prospects. The large range of stock market valuation does not, however, attract buying of such securities, except where railroad mortgages and high grade bonds of an undoubted quality are concerned.

THE EGYPTIAN COTTON CROP.

The Alexandria General Produce Association's report on the progress of the crop during May is as follows: "Sowing during the first half of the week of May was completed; since then however, it has been continually favorable and beneficial to the Cotton plants. Generally speaking, the aspect of the fields is satisfactory. Some few cases of backwardness has been noticed in several districts, owing to the earlier cold weather, but this will easily be remedied by the present conditions. Partial resowing which was rather more general this year, was finished at the beginning of the month. Water is everywhere sufficient, and in certain places it is even in excess. There are no complaints as to damage caused either by worms or by locusts. The information received from Upper Egypt as to the Durra Sorgoum is good, and the fields are in good condition

OUTLOOK FOR TOBACCO.

[From Bradstreet's.]

The statistician of the Department of Agriculture reports that the condition of Tobacco on July ten days to two weeks late and that very irregular conditions exist as to acreag- in different sections. In the burley districts of Kentucky, Ohio, Indiana and West Virginia good prices and small stocks have made for a consid-rable increase Eastern Ohio counties producing export grades and sections in Virginia, producing sun-cured Tobacco will show an increased area devoted to their culture. On the other hand, the cigar Tobacco sections of New England, New York, Pennsylvania and Wisconsin and the dark districts growing counties of Western Kentucky, Tennessee and Virginia will show decreases, owing to the low prices paid for these types, high prices of Cotton, scarcity of labor and the late, backward season.

GRAIN FREIGHTS AT SAN FRANCISCO.

[From the Commercial News, June 16.]

The local Grain freight market continues to be characterized by dullness. In Grain freights, although no change is noted, the market can be quoted only in a general way at the basis fixed by the last charters, namely, 16s 3d for spot loading and 20s to 21s 3d for future, with 17s 6d in the north for spot and 23s to 23s 9d for future loading. Crop reports here are discouraging, and it is generally conceded that the total output of Wheat and Barley will be below last year, while the quantity of forwarding and shipping Grain will be quite short. Northern crop advices, however, could not be of a more favorable tenor, and some relief may be given ship owners in that direction. There is the number of vessels now in this port and headed for here the outlook for good outward rates is poor.

THE WEATHER CONDITIONS.

Indications are for mostly fair weather in this forecast district, although showers are probable in the Northwest and West of the Missouri River. Temperatures will rise again in the Lake Region.

ITEMS OF GENERAL INTEREST.

Fire, Tuesday, at Sandusky, Ohio, caused a loss of $140,000.

About 650,000 lbs of Oregon and Washington Wool sold last week at 14@16c.

The steamship Ohio was damaged by fire, Friday, to the extent of $20,000, at Seattle, Wash.

A decision given by the Colorado State Supreme Court Monday, affirmed the constitutionality of the inheritance tax law.

A fire in the business section of McComb City, Miss., Tuesday, destroyed property to the extent of $300,000; insurance, $150,000.

Stockholders of the Aetna Indemnity Company of Hartford, Conn., have voted to reduce the capital stock of the company from $2,000,000 to $500,000.

The Hall Signal Company has declared the regular quarterly dividend of 1½ per cent on its common stock, payable July 1. Books close June 24 and reopen July 2.

An official crop bulletin for Italy, covering the period from May 20 to May 31, says that dry, hot weather favored field work. Wheat, Corn and other crops were in want of rain.

A Clifton, Kansas, dispatch says: "Our harvest will not commence much before July 1, and threshing about July 15. Wheat is filling nicely. This we will have a better grade of Wheat than last year, provided it don't rain too much right after harvest."

In New York, Monday, the Inter-State Commerce Commission resumed its hearing on the Eastern differential question. D. B. Caldwell, of the Lackawanna, said there had been considerable late cutting, but did not believe differentials were responsible.

The regular quarterly dividend of 8 per cent on the stock of the Illinois Trust and Savings Bank, Chicago, has been declared and will be paid on July 1. The bank pays its extra quarterly dividends of 1 per cent each in the middle of the regular quarters.

A St. Petersburg dispatch says: "According to the *Novoe Vremya* the Russian Oil combinations have capitulated to the Standard Oil Company, and even the Rothschilds and Nobel interests have come to terms with the Americans. Standard Lake Stock Bank is the highest in Chicago, and stands 238 in the Nation and 19 in the State.

A Boston dispatch says: "There is a steady demand for domestic Wool. The sentiment prevails that the new Wools must bring higher prices in order that the buyers may clear a profit on the new clip. Some choice lots recently have been disposed of at record of values. Receipts of new grades are heavy daily and are increasing. Pulled and Territory Wools are quiet and foreign grades are steady, though firm.

The Denver *Stockman* says: "Reports reaching here from Nebraska and Kansas are to the effect that the continued wet weather is seriously interfering with the Corn crop. Much of it is very weedy and small, and is badly in need of cultivating, due to the wet condition of the ground it is impossible to get into the fields with cultivators. Corn and Oats are in the shade, and a big yield is expected. A week of fine weather would make Corn all right"

The Winnipeg *Commercial* of June 18 says: "In Manitoba conditions still continue very favorable, general feeling is, of course, optimistic. The present spell of warm weather is just what was needed. From all parts a sufficient amount of rain is reported, and the warm weather has made the Grain jump along rapidly. That the growth has caught up well after the late spring is indicated by the fact that Binder harvester has already harvested his Hay, making a new record for the West."

The president of a Chicago National Bank says: "There is a more cheerful feeling to-day than there was two weeks ago in regard to the crop outlook. Money is comparatively easy here because the rates are still low in New York. The business of the country is quiet on account of the nervous feeling which has existed for a long time, and about the Presidential election year being a good time in which to 'mark time.' The banking interests will show a good return this year upon a smaller volume of business. As to speculation, the public cannot be expected to come in until after the election this fall."

Iron Trade Review of May 14 says: "The September deliveries of Steel billets in the Central States that the area sown for Wheat and Flax Seed is 16 per cent more than in 1902-3. The quality of the seed is superior to that sown because the Wheat is between 78 and 85 lbs per bushel. Area of Wheat sown 4,320,021 hectares, production 3,780,019 tons, local consumption and seed 900,000 tons, available for export 2,880,019 tons. There are no Seed, area sown 1,487,778 hectares, production 883,000 tons, local consumption and seed 100,000 tons, available for export 783,000 tons. Other areas sown were, Corn 3,644,000 hectares; Africa, 1,780,124 hectares; Sugar Cane, 60,012 hectares; Vines, 51,625 hectares; Cotton, 1,112 hectares."

The *Mark Lane Express* of June 6 says: "The weather of May was on the whole mild and showery with less than an average of sunshine and more than an average both of rain and warmth. The usual cold snap made itself felt about the middle month, but it seldom sent the midnight thermometer below 40 degrees, and the growth of vegetation met with no setback. Our records are:

	Rainfall.	Sunshine.	Warmth.
1904.	Inches.	Hours.	Degrees.
January.....	2.48	48	41.22
February.....	3.06	39	40.50
March	1.44	81	45.54
April.....	2.80	140	49.04
May.....	2.10	130	55.80

Since June came in, May features have been for the most part continued, but there are signs of summerlike improvement."

The Hall Signal Company has closed a contract with the Lake Shore and Michigan Southern Railway Company to install its latest developed railway system of the electro gas type upon the line of the road between Dunkirk, N. Y., and Erie, Pa. The installation of these signals by the Hall company gives the road a system of continuous signals from Buffalo to Erie on the eastern end of the line. The Lake Shore has also contracted for the placing of similar signals on the western end of the line, beginning at Chicago and ending at Indiana Harbor, Ind. In addition to this contract, the Hall company has a number of company works on hand to equip the lines of other railroad companies.

Gross earnings of the United States Realty and Construction Company for eleven months ended May 31, according to a statement issued, Monday, were $2,158,580. After the payment of $830,825 interest and expenses there remained $1,327,755 net earnings. Out of this amount the company wrote off $488,365 for depreciation of securities, leaving a surplus of $839,370 for the period. This added to the previous surplus makes a total of $1,040,234. The surplus for eleven months is 3½ per cent on the present outstanding preferred stock—$37,011,100—and about $224,000 more than 5 per cent on the $18,565,850 of new stock to be issued in exchange for 50 per cent preferred stock in the reorganization. The showing is decidedly better than was expected from the company. The $838,385 written off for depreciation is more than twice as much as the amount that was added to earnings in the statement of the company's first nine months on account of the increase in the value of securities. The surplus for the year has $1,874,234 as a basis and $1,012,595 current liabilities. Total assets are $58,768,075. The stock of the reorganized company will be of one class. For the $37,011,100 outstanding preferred there will be issued $13,505,850 of 5 per cent bonds and $11,479,717 in new stock. For the present common stock amounting to $38,168,600, there will be issued $5,060,000 in bonds, making a total new stock issue of $16,540,417. Of the remaining new stock $1,500,000 will be held to meet the conversion feature of the bonds.

ITEMS OF GENERAL INTEREST.

New York Exchange 45c premium.

Documentary Sterling steady at 484¾.

Chicago Bank Clearings to-day, $25,556,340.

The minimum rate of discount of the Bank of England is unchanged at 3 per cent.

Ten packers purchased 21,500 Hogs to-day; shippers, 3,500; left over, 3,500. Market closed steady.

Sales of Wheat for delivery in May, 1905, were made to-day at 81¾@82⅛c. The first sale was at 82⅛c.

Reported that 56,000 bu Wheat, 16,000 bu Corn and 30,600 bu Oats were taken at the seaboard to-day for export.

The *Orange Judd Farmer* estimates the Flax Seed area of 1904 at 2,661,000 acres, compared with 3,159,000 acres in 1903.

Stocks of Hog Products at Chicago estimated at 52,000 brls Mess Pork, 121,000 tcs Lard, and 21,750,000 lbs Short Rib Sides.

Estimated receipts for to-morrow: Wheat, 9 cars; Corn, 305 cars; Oats, 67 cars, Rye, 1 car; Barley, 16 cars. Hogs, 20,000.

Broomhall cables: "Our Argentine agent estimates Wheat shipments this week will be about 1,600,000 bu and Corn about 2,400,000 bu."

St. Louis reported an increased demand for Grain sacks, Wednesday, from up-the river points. This indicates a good movement of Wheat.

The Governors of the New York Stock Exchange decided, Wednesday, to close the Exchange July 2, the Saturday before the Fourth of July.

A Minneapolis dispatch Wednesday, said: "Crop reports very favorable. Could not be better. No damage so far in sight. Weather perfect."

Chicago banks report no change in the money market. Rates are 4 to 4½ per cent, with some loans running up to next fall being placed at 5 per cent.

St. Louis wires: "The big farmer in St. Charles County, who was going to plow up a thousand acres of Wheat in March, has eleven binders running to-day."

Complaint of drouth is being received from Sweden. Last year Sweden raised about 5,500,000 bu Wheat and imported about 8,800,000 bu Wheat and Flour as Wheat.

Local Securities were sparingly traded in and prices only moved fractionally. Biscuit common made a small gain. Quaker Oats preferred advanced 1 point and common lost ½.

Duluth will have a big run of Wheat to-morrow—larger than for any two days in many weeks. There are 113 cars on the sample tables there to-day that will show in to-morrow's inspection.

Private wire houses in Texas have won a most important victory. The suit of the State of Texas versus E. G. Scales has been decided against the State. It was brought to trial by the private wire offices.

A Vienna cable says: "Terrible hail storms have swept over many parts of Morga, Moravia and Hungary last night and to-day. Immense damage has been done to crops, and there have been many casualties."

Cotton in New York averaged lower. New Orleans interests led the selling, and commission houses were free sellers, especially of August. Cables and crop news was "bearish." Closing sales were 15@23 points lower.

Indications are for showers in Missouri and Upper Mississippi Valleys to-night, extending eastward over the lake region by Friday morning. Temperatures will rise still further in this section while cooler weather will overspread the trans-Mississippi region during Friday and probably in Western lake region Friday night.

The Cincinnati *Price Current* reports the packing of the West for the week at 460,000 Hogs, compared with 490,000 for the week previous and 510,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 6,765,000 Hogs, compared with 6,330,000 for the corresponding time last year—an increase of 425,000 Hogs.

The Cincinnati *Price Current*, in its weekly crop summary, says: "All crops making favorable progress. Wheat heading out favorably, and where harvesting has begun the outcome equals or exceeds previous expectations. Corn mostly clean and of good color, but backward in growth. Oats maintaining about an average condition."

St. Louis wired: "A farmer who owns a large farm down in the American Bottoms says he expects all of the farms that were overflowed last year to make phenomenal yields this year, as last year's overflow deposited a silt on the land that fertilized it; that Wheat will move freely this year from that section, as the bottom farmers are all hard up."

In Wall Street the news was of a more encouraging character and prices advanced ⅛ to 1¼. Traders thought the turn in business affairs has been made. This induced fair buying. A move for profits in the last hour carried prices off and the close was irregular. Canadian Pacific lost 1 point, "Soo" common ¼ and Western Railways were ⅛@¼ lower to ⅛ higher. Money easy at ½ to 1¼ per cent.

The *Northwestern Miller* says: "Harvesting is in progress as far north as St. Louis, and is unusually early for that section. The Kansas Board of Agriculture report on the Wheat crop gives the probable yield of the State at 83,500,000 bu, or about a million higher than the Government report. The weather is favorable almost generally for growing Wheat, too much rain being the only threatening factor."

The Iowa crop bulletin says: "All reports show excellent progress in cultivation of the Corn crop, and the fields are now well cleaned. The plants have a healthy color, and the stand is nearly up to the average of former years. The larger part of the crop has been cultivated twice, and a portion is receiving its third plowing. Though late and somewhat below normal height, the general condition of the crop is promising."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market continues very dull, with no improvement in the demand from any quarter. Prices easy.

WINTER WHEAT—The market was quiet and steady. A little milling and shipping demand, but none for round lots. No. 2 Red in store nominally 98@99c, and fresh arrivals free on board quotably $1 00@1 01. No. 3 Red fresh receipts free on board quotable at 97@$1 00, with a sale at 98c. No. 4 Red sold at 80c. No Grade Red sold at 68½c. No. 2 Hard fresh receipts free on board quotably 88@95c. No. 3 Hard fresh receipts free on board sold at 88c and ranged at 82@90c. No Grade Hard sold at 83c.

SPRING WHEAT—Met with a light demand on milling and shipping account and market steady. No. 1 Northern in store quotably 9@10c over old July, and ranged at 95@96½c, and fresh arrivals free on board quotably 97@99c. No. 2 Northern fresh arrivals quotably 93@96c. No. 3 Spring fresh receipts free on board was quotably 85@95c, with a sale at 95c. No. 4 Spring quotably 65@88c for poor to choice, with a sale at 80c.

REGULAR WHEAT—Only a moderate trade, largely local and professional, but undertone was rather steady, but closed shade lower for July, while the September lost ⅛c. The principal feature early was the extremely light offerings, there being considerable July wanted. Market was helped at the start by the strength in Corn and comparatively firm English cables. On the advance, commission-house selling became more general and prices reacted. The map showed showery weather in Kansas, cloudy weather West and Northwest, and rains general in Manitoba, ranging up to 1 02 inches at Winnipeg. Generally clear through the Ohio Valley. Indications are for showers in Missouri and Upper Mississippi Valleys to-night, extending Eastward over the lake region by Friday. Liverpool quoted spot unchanged excepting La Plata, which was ¼d higher. Futures were ⅛@¼d better. London was ¼d lower to ⅛d higher. Paris was unchanged to ⅛c higher. Berlin was up ⅜c and Buda Pesth unchanged. Liverpool was strengthened by a better spot demand and reports of unfavorable weather in Argentina, rain being needed there. London quoted cargoes on passage steadier, with less offering in La Plata Wheats. *Broomhall* cabled there was also some talk of drouth in Sweden. The *Northwestern Miller*, however, reported the Flour trade very dull, and output in the Northwest this week 416,000 brls, compared with 450,000 brls corresponding week in 1903. St. Louis wired that a Cairo miller bought 10,000 bu new Wheat at 78c to be delivered to his mill this past week. Several of the large Grain houses operating in the Southwest reported that the offerings of Wheat from Oklahoma and Indian Territory were rapidly increasing, and that the aggregate sales from that section for shipment within 10@15 days would reach 25,000 bu to 30,000 bu of new Wheat daily. The *Price Current* reported Wheat making favorable progress and heading well. Where harvest has begun the outcome equals or exceeds previous expectations. Minneapolis wired stocks had decreased 700,000 bu the past five days, and that 250 cars had been loaded out of elevators yesterday. Toledo reported the sale of 100,000 bu Red Wheat past two days, 25,000 bu of which was at $1 01, and this cuts the stock in half. Primary receipts were 76,000 bu under those of 1903 and Northwest cars 59 cars smaller. The Topeka *Journal* estimated the crop of Kansas at 83,471,000 bu on reports from townships. North Dakota messages reported the crop outlook ideal. Kansas City and St. Louis received 16,000 bu and shipped out 58,000 bu. Argentine shipments this week were estimated at 1,600,000 bu. A Vienna cable reported terrific hail storms in Hungary causing serious crop damage. Receipts at Duluth 30 cars and at Minneapolis 109 cars, a total of 139 cars, against 166 cars yesterday, 219 cars a week ago, and 148 cars last year. Local receipts included 9 cars Winter, 3 cars Spring, 2 cars mixed, a total of 14 cars, against 11 cars last year. Included in the above were 2 cars contract grade. There was 1 car and no bu taken from unlicensed elevators. The estimated receipts for tomorrow are 9 cars. Withdrawals to-day were 3,600 bu. Receipts at Western points were 213,906 bu, against 290,291 bu last year. At Eastern points 33,290 bu, against 33,617 bu last year. Shipments from Western points were 187,852 bu, against 116,528 bu last year, and from Eastern points 7,993, against 159,406 bu last year. Shipments of Flour were 7,252 brls. Exports of Wheat in Flour were equal to 40,627 bu.

DECEMBER—Sold at 79¾@79⅞c and 80¼c. Opened at 80c; sold to 80⅛c, to 79⅞c to 80¼c, to 80c, to 79¾@79⅞c, to 79⅞c, and closed at 79⅞c.

MAY—The first sale for May delivery 1905 was made to-day at 82⅛c, and later sold at 81¾c.

CORN—Rather a better trade and steadier undertone, the close showing July off ⅛c and September unchanged from yesterday. There was a little flurry in July at the start, and the price at one time was ⅜c over the September. The buying in of about 45,000 bu for account of whom it may concern, due to a disputed trade was responsible for the irregular opening, trades varying ⅝c at the start. Receipts were moderate and cables firm and both proved "bull" helps. Arrivals were 218 cars, with 16 cars contract, and 305 cars are estimated for to-morrow. London quoted spot steady to ⅛d higher and futures ¼d better. London quoted cargoes on ocean passage firm and held 1½d higher. Argentine shipments this week were estimated at 2,400,000 bu. Provision interests were credited with buying as also "shorts" in general, commission houses leading in late selling. The weather was considered fairly favorable, and showery conditions were indicated. Iowa crop advices were very satisfactory, and the *Price Current* claimed the crop mostly clean and of good color, but growth backward. Cash demand was reported quiet, and exports 88,000 bu, against 217,000 bu last year, with 5 boat loads accepted at the seaboard. Western receipts 331,000 bu last year 551,000 bu. Shipments 345,000 bu and 536,000 bu respectively. Local receipts 232,000 bu, and shipments 261,000 bu. There were 18 cars and 63,500 bu contract switched from private to public elevators. Car lots were in moderate supply and fair demand. Prices were quite firm. No. 2 closed about 48¾c, and No. 2 Yellow at 50½c. No. 3 sold at 49c and closed at 48½c. No. 3 Yellow sold at 50@50½c, and closed at 50c. No. 3 White sold at 49c. No. 4 at 46@48c, and No Grade at 42½c.

Corn by sample—Was in fair demand and the offerings were small. Feeling firm, and prices unchanged to ½c higher. Sales on track and free on board: No Grade sold at 30@43c. No. 4 at 48@49c. No. 3 at 48¾@50c. No. 3 Yellow at 49@51c. No. 2 at 49¼c. No. 2 Yellow at 50½@51c. No. 3 White at 49c. Billed through: No Grade at 40c. No. 4 at 44@48c. No. 3 at 47½@48¾c. No. 3 Yellow at 49¼c. No. 2 Yellow at 49½c. No. 3 White at 47½@48c. No. 2 White at 48@48¼c.

Future Deliveries of No. 2 Corn—Moderately active and strong early, but broke badly later and closed fractionally lower.

JUNE—Inactive. Sold at 48c, closed nominally 47¾c.

JULY—Sold at 48⅝@49⅜c. Opened excited at 48½c to 49¼c and sold at 48⅞c, to 49⅜c, to 49c, to 49⅛@49¼c, to 48⅞c, to 49c to 48¾c, to 49⅛c off to 48⅝c and closed at 48⅝c bid.

SEPTEMBER—Sold at 48½@49c. Opened at 48⅝c to 48¾c, and sold at 48⅞c, to 48¾c, to 49c, to 48¾@49c, to 49c, to 48⅝c to 49c off to 48½c to 48½@48⅝c, and closed at 48½@48⅝c.

DECEMBER—Sold at 44⅛@44⅝c. Opened at 44⅝c, and sold at 44⅜c, to 44½c, to 44⅝c, to 44¼c, to 44⅛@44¼c, and closed at 44⅛@44¼c.

MAY—Sold at 43⅜@43⅝c. Opened at 43⅜c to 43½c and sold at 43⅝c, to 43⅜c, to 43½c, and closed at 43½c asked.

OATS—Were rather slow from a speculative standpoint. Moderate pressure to sell July caused a break of ⅛c and it closed at a net loss of ⅛c. Other months were steady with ¼c range and closed about the same as yesterday. Weather and crop reports more favorable, although rains are predicted over part of the belt to-morrow. Cash demand was better, with sales here of 80,000 bu. and at New York 30,000 bu. Arrivals 109 cars, with 67 cars estimated to-morrow. Withdrawals were 3,025 bu. Seaboard clearances were 17,000 bu. Car lots to go to store were steady. No. 4 White sold at 39½c. Standard in store sold at 41½c, and closed at 41¼@41½c.

Oats by sample were in fair request and firm for good owing to reduced offerings. Common and poor were plentiful and slow. Sales on track and free on board: No. 4 White at 37@43c. No. 3 at 38⅛@39½c. No. 3 White at 41@44c. Standard at 44½c. No. 2 at 40c. Billed through: No. 4 at 38c. No. 4 White at 39@42c. No. 3 at 38½c. No. 3 White at 42@43½c. Standard at 43@43½c. No. 2 at 39c. At the river: No Grade at 33c. No. 4 White at 34@39c. No. 3 White at 39½@42c.

Future Deliveries of Contract Oats—Were weaker and closed easy.

JUNE—Slow. Closed at 41¼c.

JULY—Small trading. Sold at 38⅝c and at 39⅛@39¼c. Opened at 39c, sold at 39⅛@39¼c, to 38⅝c to 39c, to 38¾@38⅞c at close.

SEPTEMBER—Slow. Sold at 31⅞@32c and 32⅛c. Opened at 32c to 32⅛c sold at 32⅛c, to 31⅞@32c; closed at 32c.

DECEMBER—Sold at 32⅜@32½c. Opened at 32½c; closed at 32½c.

RYE—Was quiet and practically unchanged. Demand light and offerings also limited. There were five cars received. No withdrawals from store here and no export clearances from New York. No. 2 in store nominally 65c, and fresh arrivals nominally 65@58c. No. 3. A choice car sold at 61c.

Future Deliveries of No. 2 Rye—Quiet. June nominally 62c. July nominally 60c. September 52c bid and 55c asked.

BARLEY—It was almost impossible to tell what the market or medium to common malting Barley was. There seemed to be no demand. There were some who would good to choice: of the latter none was offered, but no one wanted the common. Where bids were received they were at prices lower than same goods have been selling for and several cars were carried over. Feed Barley very dull; scarcely any demand. Low grade Screenings dull and depressed but choice clean salt to be salable at about late quotations; no really choice noticed. Posted to-day 12 cars No. 4 inspected in. A few cars of poor to common Screenings sold at 30@34c; choice, clean said to be quotably up to 38@40c. Barley low grade feed or mixing was uncertain in value and quotable at 34@40c for thin, or seedy, musty, to good color, sweet and good weight. Malting, low grade the same way, it was hard to quote, was perhaps 38@41c; fair to good, sound, 42@47c, good color 48@52c, and fancy above.

SEEDS—Transactions were limited, just enough was done to show there remains a little life in the market. General features unchanged and prices also the same as they have been.

Timothy—Was nominally unchanged. Nothing done aside from the sale of a small lot of cash Seed. That was all there was on sale of that line, and futures were devoid of interest any more than that $3 10 was bid for September and it was offered at $3 20. Contract spot Seed nominally $2 92½. Cash market for country lots quotable at $2 00@2 80 for low grade to fancy, choice about $2 70@2 75, fair to good Seed $2 50@2 60 and rough at $2 35@2 45.

Flax—A cargo of Flax was to-day posted received, but it did not come on sale. It was said to have gone to local mills. The only Flax offered or traded in was a car of Rejected and a lot of July delivery No. 1. Latter sold at the asking price of yesterday, which might be taken as a small improvement. At the same time it reflected no essential change. Besides the cargo received, there were a couple of cars—a total of 200,190 bu; none taken out. Receipts at Minneapolis 4 cars and at Duluth 6 cars. No. 1 Northwestern or No. 1 from the Northwest quotable at $1 07. No. 1 at $1 01. Rejected was quotable at 95c@$1 01. July sold to-day at $1 01. September remained at $1 05 asked.

Clover—Inactive, with no offerings and no change to quote. Contract spot Seed about $10 75. Country lots, common to choice, $7 00@10 00; fancy above; mixed with Buckhorn or other weed Seeds, $6 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good at $8 50@9 50.

Other Seeds—There were no offerings. There was nothing to change prices. Season about over and no doubt it would be difficult to sell any quantity except at reduced figures. Hungarian, common and light color to choice dark, at $1 15@1 35. Common Millet $1 15@1 40 for poor to fancy. German Millet, $1 15@1 40. Siberian, 75@90c. Broom Corn Millet, $1 00@1 10. Early Fortune Millet, 85@95c. Mustard, 85c@$1 05. Buckwheat easy: quotable at $1 5@1 65 for good.

HOG PRODUCTS—Rather a good business was reported in the market for Hog Products, and mainly on local account. Outside orders were light. Packers were credited with fair purchases. Hogs were in fair supply, and prices averaged slightly lower. This feature had no effect on the market, especially as the Grain markets were steadier. Receipts of Hogs at the leading Western packing points were estimated at 69,100, compared with 71,500 one year ago. Returns of the packing of the West for the week, compared with the corresponding week in 1903, exhibited a decrease of 50,000 Hogs. Foreign markets were quiet, and Lard quoted 3d lower. Domestic markets were steady. Receipts of Products were fair—of Lard and Meats about 22 cars. Shipments were moderate—of Lard and Meats about 107 cars. Market in a speculative way opened rather firm, with fair miscellaneous buying, and rather light offerings, and prices were advanced moderately on all the leading articles. Later, the feeling was not so strong, and prices receded slightly, and the market closed steady around medium figures. Shipping demand was fair, and offerings were not very large. Sales were moderate, and prices well supported.

Mess Pork—A fairly good business was reported in Mess Pork and the feeling was stronger in a general way. Offerings were not very large, and the demand was fair. "Shorts" bought moderately. Trading mainly local. Market opened rather strong with fair miscellaneous buying, and prices were 5@7½c higher, and further improved 10@12½c. At the advance, there was a little pressure to sell, and prices receded 7½@10c, and the market closed steady at medium figures. Stock on hand quite liberal. Shipping demand was light, and offerings were moderate. Cash lots were quotable at $12 90@12 95.

JULY—In fair request, and offerings were moderate. Sales were made at $12 87½@13 00. Opened at $12 87½, sold to $12 95, to $12 92½, to $13 00, to $12 92½, to $12 95 to $12 90 and closed steady.

SEPTEMBER—Offerings were only fair and the inquiry was only moderately active. Sales were made at $13 15@13 27½. Opened at $13 15, sold to $13 25, to $13 20, to $13 27½, to $13 22½, to $13 25 to $13 17½ to $13 20, and closed steady.

Lard—Trade was only moderate in the Lard market, and the feeling was steadier. Offerings were not very large and the demand was fair. Foreign advices were unfavorable to sellers. Market opened rather steady, with prices about 2½c higher, and a further appreciation of 5@7½c was gained. Later, there was some inclination to realize by holders of small quantities, and prices settled back 2½@5c, and the market closed steady. Stock on hand gradually enlarging. Demand on shipping account was rather light with no particular pressure to sell. Cash lots were quotable at $6 95@6 97½. Loose lots in small request with limited offerings. Prices steady at about 50c discount on July figures. Leaf Lard in moderate request and offerings were small. Prices quotably steady at $6 25. Neutral in only limited demand with fair offerings. Prices quotably steady at $7 12½@7 25 for No. 1, and $6 87½@7 00 for No. 2.

JULY—In moderate request and offerings were fair. Sales were made at $6 97½@7 05. Opened at $6 97½, sold to $7 05, to $7 00 and closed steady.

SEPTEMBER—Offerings were fair and the demand was moderately active. Sales were made at $7 15@7 22½. Opened at $7 15, sold to $7 20, to $7 17½, to $7 22½, to $7 17½ and closed steady.

Short Rib Sides—Considerable interest was manifested in the market for Short Rib Sides and the feeling was stronger. Offerings were fair, and the demand was moderately active. Receipts were fair, and supplies are gradually enlarging. Market opened rather easy and a few trades were made at 2½c decline, but a stronger feeling was soon developed and prices gradually advanced 10@12½c. Toward the close, the feeling was not quite so strong, and prices settled back 2½@5c, and the market closed steady at medium figures. Shipping demand was light and offerings were moderate. Cash lots were quotable at $7 37½@7 50 according to weight.

JULY—Demand was fair and offerings were not very large. Sales were made at $7 40@7 52½. Opened at $7 40, sold to $7 50, to $7 47½, to $7 52½, to $7 47½@7 50, to $7 50, to $7 47½, to $7 47½@7 50, and closed steady.

SEPTEMBER—Offerings were moderately free, and the demand was fair. Sales were made at $7 60@7 72½. Opened at $7 60 to $7 62½, sold to $7 60@7 62½, to $7 70, to $7 65, to $7 72½, to $7 67½, to $7 70, to $7 67½ to $7 67½@7 70, and closed steady.

OCTOBER—In moderate demand, and offerings were only fair. Sales were made at $7 62½@7 75, and closed steady at $7 70@7 72½.

Other Meats—Trade was only moderate and feeling comparatively firm. Offerings not very large and the inquiry was only moderate. Exporters rather backward and the home demand was only fair. Green Meats in moderate supply with a fair inquiry, and prices ruled steady. Pickled Meats in moderate request and prices ruled steady. Dry Salted Meats were in fair demand, with moderate offerings, and prices favored sellers. Smoked Meats called for in limited quantities, and prices were steady. Closing prices ranged as follows:

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

*Flour made by mills outside of St. Louis, but controlled in that city.

Minneapolis mills last week made 8,400 brls more Flour than in the preceding week. The mills are running considerably lighter, respectively, than they usually do. This week the 14 per cent loss in the production should approximate 39,000 brls. For the same week in 1903 the output and 305,700 brls.

Business with the Minneapolis mills last week was very dull. Sales failed to equal the output by considerable of a margin. The weakness shown by Wheat helped to strengthen buyers in their "bearish" views, and no more Flour was taken than it was necessary for them to have. However, shipping directions on old orders came in quickly and liberally, and there were no old orders in a surprising manner. Some of these orders were for Flour in excess above the present market, and to have them filled and out of the way, also the millers satisfactorily.

With the trade procrastinating about buying, millers feel that sooner or later the East must have Flour, and that when business does come material, the it will come in the greater volume for the dull period now being passed through. Some millers take the view that a better demand is not far away.

Export business is an impossibility as it is. A few bids received for Patents are so low that millers give them little heed. Clears are duller than they have been, and millers are willing to sell at about a 10c per brl profit. This helped to stimulate demand for First Clear from the United Kingdom and Holland, but usually at prices below millers' views.

A reduction of 10c per brl in the price of Patent was yesterday made by the majority of mills, and quotations of Minneapolis and outside mills now range at 84 70@$4 90 per 196 lbs in wood f. o. b. Minneapolis.

The range of Eastern price to-day (June 22) asked by Minneapolis and outside mills for Patent in wood was: Boston rate points, $5 05@5 85; New York rate points, $5 40@5 60; Pittsburg rate points, $5 20@5 45; Baltimore rate points, $5 30@5 50; Philadelphia rate points, $5 35@5 50; Buffalo rate points, $5 @5 50; Chicago, $4 90@5 20; Rochester and Syracuse rate points, $5 35@5 60; Buffalo rate points, $5 @5 50; Michigan, $4 90@5 20 in sacks; Iowa, Illinois and Wisconsin, $4 70@5 15 in sacks; Missouri points, $4 75@5 00 in sacks.

The best that can be said of business with "outside mills" last week, is that occasionally one reported a slightly better inquiry for Flour. The rule was, however, that trade was very dull and sales were less than output. Buyers consider present prices of Wheat and Flour are too high, and they are making few new purchases. However, this can be scarcely regarded as other than a healthy condition; the longer they delay buying, the more they will have to have when they do come into the market. There has been a noticeable improvement in the number of shipping directions received, and old orders are being cleaned up in a gratifying manner.

Export trade is confined to small lots of Flour here and there worked. Foreigners are much out of the Wheat belt, and there is almost impossible to do business except at a heavy sacrifice. Clears are perhaps harder to move than they have been heretofore, and prices are being shaded.

With a certain crop of grass in all quarters, millfeed is in less active demand, and outside mills find it more difficult to dispose of their product than for months.

STRINGENT RULES ADOPTED.

[From San Francisco Commercial News, June 16.]

At a meeting of the Board of Directors of the San Francisco Merchants' Exchange, June 7, several amendments were adopted. It was decided that hereafter sessions shall be held at 11am as the committee on Grain shall deem proper. Trading in time contracts is to be within the hours of the session or informal sessions and no call board space set apart for such trading. No contract for future delivery shall be made in any other place or at any other time. The violation of this rule will be punished by a fine of $25 00 for the first offense, suspension for not less than ten days nor more than six months for the second, and expulsion for the third. When Grain or produce in warehouse is sold "weights and grades cleared," unless otherwise specially agreed upon at the time of the transaction, no such adjustment shall hold good if the goods are kept in store later than the next succeeding the date of the transaction. Upon discovering that any Grain has become weevily or otherwise unsound, it will be the duty of the warehouseman to notify the holder of the receipt for such Grain.

THE HAY TRADE OF CANADA.

[From the Montreal Trade Bulletin.]

A magnificent Hay crop is now assured for this Province, as even the low-lying meadows in which there was some doubt a short time ago owing to the continuous rains, are now considered safe. In the chief Hay districts of the Province, townships, which had a very short crop last year, and had to import considerable quantities from this city and the North Shore, are promised an abundant crop of Hay. The fine weather they have experienced during the past week was just what the farmers were praying for and has done an immense amount of good. If the rains mean millions of dollars to the crops of this Province, the recent fine spell of weather means millions more. Now that the farmers feel satisfied that a big yield of Hay is assured they are beginning to make more liberal deliveries, but as the demand has taken care of them, buyers have not yet been able to get in at lower figures.

THE WEATHER CONDITIONS.

Rains in Kansas—now raining at Dodge City, also 18at Concordia. Elsewhere Southwest generally clear or light showers. There are general rains in Manitoba—up to 1 42 inches at Winnipeg. Also light scattered showers in the Dakotas. Temperatures seasonable. Generally cloudy Northwest.

The subscription books for the Chicago, Burlington and Quincy Railroad Company Illinois Division mortgage 3½ per cent bonds, which opened at the offices of Kuhn, Loeb & Co. of New York, and Lee, Higginson & Co of Boston, Wednesday, were closed immediately, the bonds having been largely oversubscribed.

The St. Louis, Memphis and Southeastern Railway Company filed a $16,000,000 deed of trust at St. Louis, Tuesday, in favor of the New York Security and Trust Company of New York and John D. Fluery of St. Louis, trustees. The money is to be used by the issuance of 4½ per cent Gold bonds, running for five years from June 1, 1904.

"I do not think any damage of consequence has been done as yet to the crops in the Red River Valley," said a message from a leading Minneapolis miller, Wednesday. "But I do think that things are in rather critical condition, and unless we get the proper kind of weather it will head out from that quarter. Everything may come out all right, and I hope it will. The Flour trade is slow."

The American Smelting and Refining Company has declared the regular quarterly dividend of 1¾ per cent on the preferred stock, payable July 5. Books close June 22 and reopen July 6. The company has also declared the regular quarterly dividend of 1¼ per cent on its common stock, payable July 25. Books close July 5 and reopen July 27.

The First National Bank of New York has declared for the Chicago, Rock Island and Pacific Railway Company's $26,000,000 Collateral Trust 4 per Gold notes, secured by the company's first mortgage and refunding 4 per cent bonds. It is understood that J. P. Morgan & Co. and Kuhn, Loeb and Kidder, Peabody & Co share in this purchase, and that a large amount of the notes has already been sold to investors at slightly under par.

It is reported that the New York Consolidated Gas in New York may be raised from 8 per cent to 10. This is said to explain the disparity between the price of the "rights" and the price as which it was figured they would sell. The rights include the privilege of subscribing directly for the new stock instead of through the medium of a 6 per cent bond convertible into stock, the new bonds will continue to draw 6 per cent till converted and the stock may get an additional 2 per cent.

At a meeting of the Denver and Southwestern Railway Company, held Wednesday, it was announced that only seven bondholders had consented to the plans for rehabilitating the company. While definite action was not taken declaring the plan operative, it was announced that such action undoubtedly would be taken shortly and the property sold at foreclosure for the benefit of those interested in the bondholders. The next step will probably be to bring about this.

It is asserted in electrical circles that while the Curtis turbine of the General Electric Company is mechanically as well as commercial success, it has not been perfected to the complete satisfaction of the General Electric people. This accounts in a measure for the delay in turning out these wheels, which are so revolutionary. The company has a large force of experts working upon the matter which will probably result in improvements in the wheel to increase the efficiency.

Fifteen hundred members are in attendance at Dealers' Association met at Milwaukee, Wednesday, and will continue their session to-day. One of the most important reports presented was one favoring civil service law in the State where the Grain inspection is under State supervision. The secretary's report showed an individual membership of 3,273 members. An increase of 733 during the past year Buffalo and New Orleans are in the field for the place of holding the next meeting.

The official return of Canada's foreign trade for the five months ended May 31 last, compares as follows for the last two years:

	1904.	1903.	Increase.
Imports	$220,040,180	$202,576,324	$18,063,856
Exports	171,291,791	169,575,674	*1?, 83,883
Excess imports	$48,654,389	$33,000,650	$15,719

*Decrease.

The exports is mainly in animals and their products and agricultural products.

"The year's business thus far has been better than that of the same period in 1902," said an officer of the American Radiator Company, "and there is every reason for believing that the balance of our fiscal year period will prove even better in point of earnings. We have more business in sight, and, what is more important, our profits are maintained at a low and firm. The last half of 1903 saw a great deal of finished product sold at declining prices."

Sharp complaint about dull times is being heard among the officers of the railroad steamship companies. It is said that very little package freight is being received for shipment either at Chicago, or at Buffalo, and that the business of this line is furnishing practically nothing. Apart from some of the boats which managed to hold their carcoes during the strike, few have left either port with a cargo of full cargoes. The agents are finding great difficulty in securing enough Grain to fill out loads, and even the recent concessions made in rates do not seem to bring the Grain forward for shipment.

The reports of the National banks of the City of New York, under the call of the comptroller of the currency, at the close of business June 9, show exceptionally large cash holdings. The National City Bank heads the list with resources of $239,727,170. The National Bank of Commerce is a close second, with resources of $238,715,000. The great concern, the National City Bank aggregate $184,156,100, and the gross deposits of the National Bank of Commerce $160,834,700. The Hanover National Bank shows resources of $70,000,000. All of the town bank deposits carried by the banks in New York are the largest in history.

The president of the Republic Iron and Steel Company is rushing the building of the new open hearth furnace which is to be put in the Bessemer plant of the company at Youngstown. Tracks are to be laid from the Hannah and Haselton furnaces of the company to the Bessemer plant at Youngstown, so that the molten metal may be carried direct to the mixer instead of going through the intermediary form of pig. It is claimed that the direct process will enable the company to reduce considerably the cost of manufacturing Steel. This in turn will give it further leeway toward selling its products at a profit even at low prices.

A Chicago Trade Journal says that the consumption of Hog Products in the South is decreasing. This is what beat the packers last year, when they lost $1,000,000 to $2,000,000 trying to support prices. Receipts and shipments of Hogs are around 60% for Short Ribs. Within the last five years the three big packing firms have put in at least 150 branch houses for distributing fresh Meats and Provisions in the South, and they have not the only two or three at the leading points. This introduction of the fresh Meat trade and of refrigerating plants at many points through that section has changed the past line of distribution of Beef and Mutton to the detriment of Hog Products."

The president of the Southern Pacific Company has caused to be mailed to the stockholders of the company a circular with respect to the proposed issue of preferred stock. Provision is made that each stockholder shall be entitled to subscribe, on or before the 1 rst of July next thereafter, for such share of preferred stock for every five shares of the present stock of the company registered in his name at the close of business July 14, and for fractions of shares in this proportion. The new stock subscribed for is to be paid for in three instalments, namely, 25 per cent, or $25 00 a share, on the date the subscription is made; 30 per cent on or before Oct. 1, 1904, and 50 per cent on or before Dec. 1, 1904. This stock is to carry dividends from July 1, 1904, if declared.

The question of national supervision of the Grain inspection has struck a snag. The Illinois State inspection and the Minnesota State inspection are against a unification of grading of Grains. The movement has been running for some time, and some of the leading Exchanges of this country and Europe favor it. Chicago Board of Trade Directors, Tuesday, discussed a report on the uniform Grain inspection. They opposed it chiefly because of the State inspection here in Chicago and of the varied interests which require different grading of Grain from the various sections of the country. Directors had a communication from the New York Produce Exchange, asking their indorsement of their system of grading of Grains. The latter has been adopted by a majority of the Exchanges of the country. The Directors, however, thought it best not to indorse it at present.

For the purpose of determining what stockholders are entitled to subscribe for the new issue of stock of the Chicago Savings Bank, the transfer books of the bank were closed on Saturday and will remain closed until July 1. Stockholders of record on Saturday last may make their final subscriptions and payments for the stock. On the date named the new stock will be issued. Sufficient reason for the proposition to increase the stock have been already stated by the management to make it certain that the stockholders will avail themselves of practically their entire rights to the new issue. Careful investigation and estimates have been made among the directors and leading interests in the bank, however, to purchase any of the stock that should not be subscribed for in the first instance by the stockholders. The project is thus assured of a prompt and successful completion.

A New York dispatch says: "Net earnings of the United States Steel Corporation for the quarter ending June 30 will be smaller than the corresponding quarter in the corporation's existence. This is admitted by corporation officials who, however, refuse to make public the new net earnings must be millions below the poorest of the corresponding quarters. June 30 will end the worst nine months in the corporation's existence. The effect of the depression on the Steel trade last year was noticed in net earnings in August, but it was not until September that the extent of the decrease became alarming. During the rest of the year and for the half of the present year the earnings have been of the minimum. For the nine months ending June 30, 1903, the Steel corporation's net earnings were $63,896,756. The statistical department has compared the net earnings for the nine months ending June 30 this year at $17,000,000 below the corresponding nine months last year."

The New York News Bureau quotes an important Standard Oil interest as saying: "More accurate information regarding the crops is received at the Standard Oil building than by the Government at Washington. Reports which have been received from the West during the past three weeks have been very gratifying to the leading railroad interests of the country. Unless weather from now on is unfavorable there is reason to believe that the largest Corn crop ever grown in this country will be gathered this fall. During the last half of August crop reports and crop condend meetings will be held. During that time dividends on Steel preferred. Amalgamated Copper and Consolidated Gas will be declared. The decisions of the directors of these companies will be of greatest importance. The chances are that the regular Steel preferred dividend will be declared, and there is a possibility that both the Amalgamated and Consolidated Gas dividends will be increased."

Charles H. Schwab has been interviewed abroad and thus discusses a few timely subjects: "Money is plentiful and Americans are only waiting to see how the Presidential election will go before they will transfer from New York to San Francisco, and on my trip saw abundant crops and evidences of prosperity everywhere. Banks are on a better basis now than they were in 1893. Prospects are good, and I expect a steady return to prosperity. Nature is independent of Wall Street." Passing to the labor question, Mr. Schwab said: "I am in favor of the open shop, whether of labor, capital or intellect. What I do oppose is the fallacy upon which labor unions in America are built. They are constructed upon the principle that they must make the rate for the lazier return, and that all men, regardless of ability, must be reduced to an equality of output. This cripples ability and enterprise by putting a premium on laziness. I have always treated my employes badly. Labor organizations will ultimately adjust themselves to existing conditions."

General estimates of the Wheat yield of Oklahoma are about 20,000,000 bu.

Estimated receipts for to-morrow: Wheat, 1 car, Corn, 361 cars; Oats, 127 cars; Rye, 1 car; Barley, 20 cars. Hogs, 8,000.

The receipts of Hogs at Chicago for the week will be about 127,000, compared with 179,731 for the corresponding week last year.

A message from Wellington, Kas., says: "Some threshing of Wheat has been done. Yields running from 30 to 32 bu per acre. Quality fine."

New Texas Oats are expected to fill up a good part of the extreme Southern demand from now on, which will reduce shipments from the North.

An Argentina cable says: "Rain has fallen in a few sections, but more rain is needed. The quality of Corn crop is decidedly good. All the advices are more satisfactory."

Average cost price of Hogs at Chicago, Thursday, was $5 26, against $5 31 Wednesday, $5 29 Tuesday, $5 04 a week ago, $4 57 a month ago, and $5 79 a year ago.

The receipts of Wheat at Liverpool during the past three days were 480,000 bu, of which 200,000 bu were American. Receipts of Corn, 64,000 bu, of which 40,000 bu were American.

Kansas City had its first car of new Oklahoma Wheat, Thursday. It came from Bliss, Ok., and graded No. 2 Red, weighing 60½ lbs, and showed excellent quality. It sold at 95c.

Cotton in New York was unsettled. Trading fell off towards mid-day and early advances disappeared. The news was of both sorts. Closing prices were 3@6 points higher.

Argentine cables: "New Wheat seedings have made but little progress, owing to drought. No cause for alarm yet, although at the same time, frosts have done harm in some parts."

Grain men are looking for a reduction in rail rates from the Southwest. As yet no official action has been taken by the Missouri River lines. It is also expected that rates to the Northwest will be reduced.

Argentine Wheat visible is 3,344,000 bu, against 3,680,000 bu the previous week, and 4,344,000 bu last year. The Argentine Corn visible is 3,942,000 bu, against 3,232,000 bu the previous week and 2,688,000 bu last year.

In Local Securities the weak spot was Metropolitan Elevated preferred, which broke 1 point. West Chicago Railway was strong and 1¼ higher. Industrials were stronger and ⅛ to ⅝ higher, with fair trading.

The Southeastern Millers' Association, in session, Wednesday, at St. Louis, reported that Tennessee and Kentucky will have between 55 and 60 per cent of an average crop of Wheat, and that demand for Flour was very poor.

Roumanian private message to *Broomhall* says: "Wheat harvest has commenced. Estimated crop 44,000,000 bu against 74,000,000 bu last year. Corn crop is all right in some parts, but rain is urgently needed taking the country as a whole."

Shipments of Wheat from Argentina this week were 1,792,000 bu, against 1,224,000 bu the previous week, and 1,384,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 65,536,000 bu, against 45,602,000 bu same time in 1903.

Shipments of Corn from Argentina this week were 2,526,000 bu, against 1,890,000 bu the previous week and 1,451,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 23,467,000 bu, against 13,541,000 bu for same time last year.

The shipments of Flax Seed from Argentina this week were reported at 464,000 bu, compared with 704,000 bu last week, and 360,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 30,340,000 bu, compared with 16,093,000 bu for the corresponding time last year.

Bradstreet's reports the exports of Corn from the Atlantic and Gulf ports the past week at 387,000 bu, against 297,000 bu for the previous week and 1,286,000 bu for the corresponding week last year. Exports from July 1 reported at 50,906,000 bu, compared with 65,609,000 bu for corresponding time last year.

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 1,271,000 bu, against 2,044,000 bu for the previous week, and 3,518,000 bu for the corresponding week last year. Exports from July 1 reported at 133,533,000 bu, compared with 221,895,000 bu for the corresponding time in 1902-3.

Stocks in New York were weaker and sold off on profit taking and pressure from the "bears." A feature was the passing of the semi-annual interest on Wabash A debentures. This came as a surprise and furnished a basis for the selling. The bonds broke 3 points. All Western Stocks declined fairly except Union Pacific and Southern Pacific, which were well supported. Steel preferred lost ½ and Copper ¾. Money, 1 per cent.

The *Modern Miller* says: "The cutting of the Winter Wheat crop continues to be interfered with by rains, but precipitation has not been general nor heavy, and farmers are taking advantage of every fair day to push the harvest. Settled weather is needed in order to start the crop to market at the usual time. No free movement is probable until well into July. The yield is satisfactory, and quality excellent. Complaints of damage by rust are becoming frequent, but as yet no well defined damage is noted."

The *Orange Judd Farmer* says: "June brought almost perfect weather conditions for small Grains. Moisture and moderate temperatures favored vigorous stalk growth and strong head development, and harvest is at hand with every prospect for a better acre yield of Winter Wheat than seemed possible earlier in the season. The few county reports already received indicate a harvest condition probably somewhat higher than on June 1. Spring Wheat conditions are practically perfect. Condition of Oats is fairly maintained and promises a full average yield, though the straw is a trifle short. Corn is small and rather backward on account of lack of hot, forcing weather, but the stand is as good as usual, color satisfactory, fields generally clean and well worked and plant vigorously rooted. The first condition report is likely to be rather lower than usual, because of the smallness of the plant, but favorable July weather will entirely cure this. The only ground for reasonable apprehension lies in the possibility of the crop coming generally into tassel a little late, when hot weather might naturally be expected."

REVIEW OF TO-DAY'S MARKETS

FLOUR—Market is dull and neglected. Foreign bids prohibitive and local jobbers buying sparingly.

WINTER WHEAT—The market was quiet and steady. A little milling and shipping demand, but none for round lots. No. 2 Red in store nominally 98@99c, and fresh arrivals free on board quotably $1 00@1 02. No 3 Red fresh receipts free on board quotable at 95c@$1 00, with sales at 95@98½c. No. 2 Hard fresh receipts free on board quotably 88@95c, with sales at 92@93c, and in store at 87c. No. 3 Hard fresh receipts free on board sold at 86c and ranged at 82@90c.

SPRING WHEAT—Met with a light demand on milling and shipping account and market steady. No. 1 Northern in store quotably 9@10c over old July, and ranged at 95@97¾c, and fresh arrivals free on board quotably 97@99c. No 2 Northern fresh arrivals quotably 93@97c. No. 3 Spring fresh receipts free on board was quotably 85@97c, with sales at 88@97c—outside fancy hard variety. No. 4 Spring quotably 65@80c for poor to choice.

REGULAR WHEAT—Was only moderately active, but undertone was considerably stronger and the close ⅝@¾c to ⅝c higher. Commission houses and professionals were fair buyers at the start, the rains in the Southwest, firm English cables, talk of drouth in Argentine, and the Roumanian crop report, being among the principal "bull" helps. Selling was chiefly by floor traders. The map showed 4 48 inches of rain at Concordia, and rainy or showery conditions extending from the extreme Canadian Northwest to the Gulf. Indications are for showers and thunderstorms in the greater part of this forecast district. *Broomhall* cabled that new Wheat seedings in Argentine had made but little progress owing to drouth and that harvest has commenced in Roumania, with yield estimated 44,000,000 bu, against 74,000,000 bu in 1903. Liverpool quoted spot unchanged to ¼d higher, and futures ⅜d higher. Receipts the past three days 480,000 bu, of which 200,000 bu came from America. London came ⅛d higher to ⅛d lower, Paris advanced 1@1¼c. Berlin was unchanged and Buda Pesth ⅝c lower. Receipts in the Northwest were 46 cars under last year. Minneapolis stocks are expected to show 800,000 bu decrease and Duluth 85,000 bu decrease. Baltimore reported the arrival there of several hundred bushels of new Wheat; quality and condition magnificent. Minneapolis wired that the demand for Wheat was poor, receipts fair, and rains a help to the crop. Argentina shipped 1,792,000 bu, making 65,536,000 bu since Jan. 1, against 45,602,000 bu for the same period in 1903. Argentine visible is now 3,344,000 bu, against 3,680,000 bu last week and 4,344,000 bu one year ago. India shipments estimated at 1,488,000 bu. San Francisco wired "Pacific Northwest needs more rain for Spring Wheat. Winter in good shape; harvest returns showing California worse than most pessimistic estimates; looks like one-third crop." Wellington, Kan., wired some harvesting has been done; yield, 30@32 bu; quality fine. *Modern Miller* was "bearish." Exports for the week 1,271,000 bu; last year 3,518,000 bu. Seaboard reported no boat loads accepted to-day. Buying old July was a late prominent feature. Receipts at Duluth 86 cars and at Minneapolis 149 cars, a total of 235 cars against 130 cars yesterday, 105 cars a week ago, and 281 cars last year. Local receipts included 3 cars Winter, 1 car Spring, 2 cars mixed, a total of 6 cars, against 33 cars last year. Included in the above was 1 car contract grade. There were no cars and no bu taken from unlicensed elevators. The estimated receipts for tomorrow are 1 car. Withdrawals to-day were 8,600 bu. Receipts at Western points were 232,747 bu, against 304,881 bu last year. At Eastern points 72,715 bu, against 27,368 bu last year. Shipments from Western points were 139,938 bu, against 118,944 bu last year, and from Eastern points 16,082, against 148,749 bu last year. Shipments of Flour were 14,592 brls. Exports of Wheat in Flour were equal to 61,746 bu.

Future Deliveries of Regular Wheat—Moderate trade and prices higher.

JUNE—Nothing doing—at one time 92c was bid.

JULY—Old Style—Sold at 86@86⅛c and at 86¾@86⅞c. Opened with sales at 86¼c to 86⅝c, sold to 86½c, to 86⅜c, to 86½@86⅝c, to 86¼@86⅜c, to 86½c, to 86@86⅛c, to 86⅜@86½c, to 86⅛c, to 86⅜c, to 86⅛c, to 86¾@86⅞c, to 86⅝c, to 86¾c, and closed at 86¾c bid.

SEPTEMBER—Old Style—Sold at 81½@82c. Opened at 81¾c; sold to 81⅝c, to 81¾c, to 81½c, to 81⅝c, to 81½c, to 82c, and closed at 82c sellers.

SEPTEMBER—New Style—Sold at 79⅞@80⅜c. Opened with sales at 80c; sold to 80⅛c, to 80c, to 80⅛@80¼c, to 79⅞c, to 80⅛c, to 80c, to 80⅜c, to 80¼c, to 80⅜c, and closed at 80⅜c.

DECEMBER—Sold at 80@80⅜c. Opened at 80¼c; sold to 80c, to 80⅜c, to 80¼c, to 80⅜c, and closed at 80⅜c.

MAY—Sold at 82@82⅝c and closed at 82⅝c.

CORN—The trade was comparatively small, and almost exclusively local. Feeling was somewhat stronger at the start, but later became easier. Closing prices showed July unchanged and the September trifle lower. The stronger start was due to the action of Wheat and heavy rain in Kansas. Showers, too, were generally predicted and cables were firm. There was selling of July and buying of September and the discount widened to ¼c. Liverpool quoted spot steady to ½d higher and futures unchanged to ⅛d higher. Receipts there past three days 64,000 bu. Receipts were 311 cars, with 27 cars contract and 381 cars are estimated for to-morrow. The weekly crop report of a local statistician was construed as rather "bearish." The Corn crop in Roumania was reported in satisfactory condition in some parts, but rain is urgently needed, taking the country as a whole. Bulgarian crop is in good condition. Argentine shipments, however, were liberal at 2,526,000 bu, and total since Jan. 1 aggregate 23,467,000 bu, against 13,541,000 bu same period in 1903. Argentine visible is now 3,344,000 bu, against 3,680,000 bu last week and 2,688,000 bu one year ago. Local arrivals were 303,000 bu, and shipments 325,000 bu. There were 67 cars and 62,500 bu contract switched from private Elevators. Western receipts were 423,000 bu, last year 670,000 bu. Shipments 416,000 bu and 368,000 bu respectively. Clearances 7,000 bu and total for the week 387,000 bu, against 1,288,000 bu same week in 1903. Shipping demand was slow, and Philadelphia wired Corn could not be used within 3c of the market. Seaboard reported 2 boat loads accepted. Car lots were in fair demand and little larger supply. Prices were ½@1c lower. No. 2 closed about 48¾c. No. 2 Yellow closed at 50c. No. 2 White sold at 48¾c. No. 3 sold at 48½c, and closed at 48½c. No. 3 Yellow sold at 49½c, and closed at 49½c. No. 3 White sold at 48½c. No. 4 sold at 45c.

Corn by sample—Offerings were moderate and demand just fair. Feeling easier and prices ½@1c lower. Sales on track and free on board: No Grade sold at 33@42c. No. 4 at 37@48½c. No. 3 at 48@49c. No. 3 Yellow at 49½@50½c. No. 2 at 48¾@50½c. No. 2 Yellow at 50½c. No 3 White at 48@48½c. No. 2 White at 48¾c. Billed through. No. 4 at 43@45c. No. 3 Yellow at 48¼c. No. 2 at 47½c. No. 2 Yellow at 48½c. No 3 White at 47@47½c. No. 2 White at 47½@47¾c.

Future Deliveries of No. 2 Corn—Moderately active and opened higher, but weakened later, rallied again, closing little changed from yesterday.

JUNE—Inactive, and closed nominally 47¾c.

JULY—Sold at 48@48¾c. Opened at 48⅝c to 48¾c, and sold at 48½c, to 48⅝c, to 48⅛c to 48⅜c, to 48¼c, to 48⅜c, to 48¼c, to 48⅜c, to 48c, to 48⅝c, to 48⅜c, and closed to 48⅜c bid.

SEPTEMBER—Sold at 48¼c and 48⅝@48¾c. Opened at 48⅝c to 48⅝@48¾c, sold at 48⅝c, to 48⅝@48¾c, to 48⅜c, to 48⅝c, to 48¼c, to 48⅝c, to 48½c, and closed at 48½c asked.

DECEMBER—Sold at 44@44⅜c and 44⅜c. Opened at 44¼c, and sold at 44⅜c, to 44⅛c, to 44¼c, to 44@44⅛c, to 44⅛c, and closed at 44⅛c bid.

MAY—Sold at 43¼@43⅝c and 43½c. Opened at 43½c, and sold at 43¼@43⅜c, to 43⅜c, and closed at 43⅜c bid.

OATS—Were weaker and closed at the bottom, with a net loss of ⅛@⅜c, the latter on July. There was fair selling of July and September, and but little pressure on December. Crop reports indicate a full average yield. The buying support was rather poor. Cash business was 60,000 bu. Trading on the whole was moderate and the strength in other Grains at the last failed to have any effect. Arrivals were 89 cars, with 127 cars estimated for to-morrow. Withdrawals were 15,000 bu. Seaboard clearances 18,000 bu. Car lots to go to store were weak and ¼@½c lower. No 4 White sold at 39@41½c. No. 2 at 40c. Standard at 41½c and closed in store at 41¼@41½c.

Oats by sample were in fair supply, but sold slowly. Prices were weak and ¼@½c lower. Sales on track and free on board: No 4 at 38½c. No 4 White at 37@41½c. No. 3 at 38½@39c. No. 3 White at 41½@43½c. Standard at 44c. No. 2 at 39⅝c. Billed through: No. 4 at 38c. No. 4 White at 38@41c. No 3 White at 41¾@43¼c. Standard at 42¾@43c. No. 2 at 38¾@42¾c. At the river: No. 4 White at 35@39c. No. 3 at 34c. No. 3 White at 38@40½c.

Future Deliveries of Contract Oats—Were weaker and lower.

JUNE—Sold at 41¼c, and closed at 41¼c.

JULY—Fair trading. Sold at 38⅜@38⅞c. Opened at 38⅞c, sold to 38⅜c, to 38¾@38½c at close.

SEPTEMBER—Irregular. Sold at 31¾c and 32@32⅛c. Opened at 31⅞@32c to 32c, sold to 32@32⅛c, to 31¾c, closed at 31¾c.

DECEMBER—Sold at 32¼@32⅝c and at 32½c. Opened at 32⅜c to 32½c, sold to 32½c, to 32¼@32⅜c, to 32⅜c at close.

RYE—Remains dull and neglected. The receipts were only two cars and there were no withdrawals from store here and no export clearances. Trading limited to a few cars of fresh receipts. No 2 in store entirely nominal at about 65c, and fresh arrivals nominally 65@66c. No 3 fresh receipts sold at 52@54c, but choice quotably somewhat higher. No. 4 sold at 50c.

Future Deliveries of No. 2 Rye—Quiet. July 59c bid and 61c asked. September 55c asked.

BARLEY—The market was practically dead. Weather hot; no special demand either for malting and mixing account. Some cars on sale now and then a good car, but mostly common to low grade. If a buyer appeared the seller would have to try to fix a price that would be accepted or there would be no sale. Values were in the main nominal. What price a car would bring would depend in case of the commoner grades on how badly it was wanted if desired at all. The season for old Barley is over. It is between crops when the Barley trade always drags. A little good malting, however, remains salable; this was about steady. Only eight cars were posted received. Screenings were quotable at 30@37c for poor to good, with choice clean possibly 38@40c. Barley, low grade feed or mixing, uncertain in value and quotable at 34@41c for thin, or seedy, musty, to good color, sweet and good weight, some heating, sold down to 30c. Malting, low grade was perhaps 37@41c; fair to good, sound, 42@47c; good color, 48@52c, and fancy above.

SEEDS—The entire Seed market was inactive. There were no cash offerings of any line and no special interest in futures appeared. There was nothing in the way of news from the country to have any effect.

Timothy—Of cash Seed there was none offered. In the case of new crop Seed buyers and sellers remain apart. For September $3 10 could be obtained and it was held at $3 20. Market for contract spot Seed remains nominally $2 92½. Cash market for country lots quotable at $2 60@2 85 for low grade to fancy choice about $2 70@2 75, fair to good Seed $2 50@2 60 and rough at $2 35@2 45.

Flax—Was said to be just the same in value as quoted yesterday, but there was not a thing done, and the reason for it was there was nothing offered. No local movement reported. At Minneapolis the receipts were 13 cars, at Duluth 2 cars. Nominal prices were as follows: No 1 Northwestern or No. 1 from the Northwest quotable at $1 07. No 1 at $1 01. Rejected was quotable at 95c@$1 01. July quotable at $1 01. September obtainable at $1 05.

Clover—Remains just the same as lately quoted. Contract spot Seed about $10 75. Country lots common to choice, $7 00@10 00; fancy above; mixed with Buckhorn or other weed Seeds, $6 00@8 00, poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good at $8 50@9 50.

Other Seeds—This line of Seeds also inactive, nominally easy owing to season being about over, but unchanged in the absence of offerings. Hungarian, common and light color to choice dark at $1 15@1 35. Common Millet $1 15@1 40 for poor to fancy. German Millet, $1 15@1 40. Siberian, 75@90c. Broom Corn Millet $1 00@1 10. Early Fortune Millet, 85@95c. Mustard 85c@$1 05. Buckwheat easy; quotable at $1 5 @1 65 for good.

HOG PRODUCTS—Trade in a speculative way was fair, and the undertone to the market was stronger. Hogs were in moderate supply and prices higher, and the Grain markets were steadier, and these features had a little influence on the market for Products. Outside orders were moderate, and local trading was fair. "Shorts" bought moderately. Offerings were not very large, and the demand was fair. Prices ruled higher on all the leading articles, and the advance was fairly well supported to the close. Receipts of Hogs at the leading Western packing points were estimated at 46,000, compared with 48,300 one year ago. Foreign markets were steadier, and prices were advanced 6d on Backs and 3d on Lard. Domestic markets quiet. Receipts of Products were fair—of Lard and Meats about 19 cars. Shipments were light—of Lard and Meats about 74 cars. Shipping demand was light, and offerings were moderate. Sales were somewhat limited, and prices unchanged.

Mess Pork—Only a fair business was reported in the market for Mess Pork, and the feeling was stronger. Offerings were moderate, and the demand was fair. Prices opened about 10c higher, and further improved 7½@10c, and the market closed comparatively steady around outside figures. Shipping demand was small and offerings were limited. Cash lots quotable at $13 05@13 10.

JULY—Called for moderately, and offerings were not very large. Sales were made at $13 00@13 10. Opened at $13 00, sold to $13 05, to $13 00, to $13 10, to $13 07½, to $13 10, and closed steady.

SEPTEMBER—Offerings were only fair, and the demand was fairly active. Sales were made at $13 27½@13 40. Opened at $13 30, sold to $13 27½, to $13 35, to $13 30, to $13 35, to $13 32½@13 35, to $13 37½, to $13 32½@13 35, to $13 35, to $13 32½, to $13 40, and closed steady.

Lard—Only a moderate business was transacted in the Lard market, and the feeling was steadier. Foreign advices more favorable to holders. Offerings were rather light, and the demand was fair. Market opened rather firm at 5@7½c advance, and further improved 2½@5c, and closed steady. Demand on shipping account rather light with no particular pressure to sell. Cash lots quotable at $7 02½@7 05. Loose lots in small request with limited offerings. Prices steady at about 50c discount on July figures. Leaf Lard in moderate request and offerings were small. Prices quotably steady at $6 25. Neutral in only limited demand with fair offerings. Prices quotably steady at $7 12½@7 25 for No. 1, and $6 87½@7 00 for No. 2.

JULY—Demand rather light, and offerings were somewhat limited. Sales were made at $7 05@7 10. Opened at $7 05, sold to $7 07½@7 10, and closed steady.

SEPTEMBER—In fair request and offerings were not very large. Sales were made at $7 22½@7 27½. Opened at $7 25, sold to $7 22½, to $7 27½, to $7 25, to $7 27½, to $7 25, to $7 27½ and closed steady.

Short Rib Sides—A fair business was transacted in the market for Short Rib Sides, and the feeling was stronger. Offerings were not very free and the demand was moderately active. Market opened rather strong and prices were 2½@5c higher. With a fair miscellaneous demand a further improvement of 5@7½c was gained, and the market closed rather steady. Shipping demand was light and offerings were small. Cash lots quotable at $7 37½@7 62½ according to weight.

JULY—In fair request and offerings were moderate. Sales were made at $7 52½@7 62½. Opened at $7 52½, sold to $7 57½, to $7 55@7 57½, to $7 62½, and closed steady.

SEPTEMBER—Offerings were fair and the demand was moderately active. Sales were made at $7 72½@7 82½. Opened at $7 75, sold to $7 72½, to $7 75, to $7 72½, to $7 80, to $7 75@7 77½, to $7 82½, and closed steady.

OCTOBER—Called for sparingly, and offerings were moderate. Sales were made at $7 77½@7 85, and closed quiet at $7 85.

Other Meats—Trade was rather small and feeling comparatively firm. Offerings not very large and the inquiry was only moderate. Exporters rather backward and the home demand was rather light. Green Meats in moderate supply with a fair inquiry, and prices ruled steady. Pickled Meats in moderate request and prices ruled steady. Dry Salted Meats were in fair demand with moderate offerings, and prices ruled higher. Smoked Meats called for in limited quantities and prices were steady. Closing prices ranged as follows:

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, June 23.]

Favorable progress has been made in all crops during the past week. The previous condition of the Winter Wheat crop has been fully maintained and in much of the Eastern region an improving tendency continues to be reflected. The prominent feature of the reports of the past week, as in several preceding weeks, is the satisfactory way the Wheat is heading and filling out; and in the Southern States where harvesting is already in progress the crop is yielding as well as or better than previously expected, and the quality is showing up well. In the Central States harvest is fully a week later than normally.

Spring Wheat has had a good growing week, and the crop is maintaining a good condition; the month so far has been more uniformly favorable for the crop than the month of June usually is.

The Corn crop has improved in all respects except growth; as a whole the crop is well cultivated, has a fair to good stand and a healthy color, but is still backward; the nights have been too cool for rapid growth; lately, however, there has been more rapid development in the Western Corn States, and the crop appears to be approaching more nearly a normal condition. In Kansas and much of Missouri the crop is very weedy. In the Southern States the crop is being laid by in good condition.

The Oats crop is maintaining about an average condition, without much change during the past week. In limited parts of Illinois, Iowa and Missouri the crop is heading short and some is thin, but elsewhere the crop is good.

In most sections of the country the grass crops are good to very good. Potatoes and minor crops are generally in favorable condition.

In Ohio Wheat is maturing favorably, with a tendency toward improvement reflected in recent reports, heads being large and apparently filling well, but stand of most fields is very thin and acreage is small. Corn has healthy color and fairly good stand, but nights have been too cool for rapid growth. In some Southern counties the fields are somewhat weedy owing to wet weather, but generally the fields are fairly clean. Oats maturing favorably. Potatoes promising. All supplies of last year's crops are generally reported small.

In Indiana Wheat shows most improvement in southern and eastern counties; some fly in western portions; prospects very irregular, estimates ranging from 15 per cent to practically an average yield. Fields generally very thin but heading well; 60 per cent crop seems to be about the limit of reasonable expectation. Except in a small portion of the north rains have been beneficial to the Corn, which is making fairly good progress, being generally clean, good stand and healthy color, but backward in growth. Oats progressing favorably. Hay prospects a little short in some localities but generally up to an average. A little Grain moving but supplies remaining are small.

In Illinois the northern half of State a little too dry, but in southern half moisture is ample for present needs. Wheat maturing favorably. Harvest will be later than usual. Corn generally is well cultivated and has healthy color, but has made little growth, nights too cool. Oats needing rain in northern counties, prospects somewhat irregular; over a large part of the State there is a short growth; on the whole the condition is nearly an average. Potatoes good. Grasses fair to good, needing rain in the north.

In Iowa general crop conditions are probably more satisfactory than in any of the other important agricultural States; the past week was fine for growing Corn, which is well cultivated, fair to good stand and is regaining its backward growth; a small portion of the east is getting a little too dry for Corn and Oats; otherwise moisture is ample for the present. Oats are in favorable condition in most sections, a little thin in a few counties, but on the whole are a good average. Timothy condition about the same as Oats. Grain movement moderate. Old Corn generally scarce.

In Missouri Wheat prospects have been maintained; harvest is now in progress in south, yield and quality reported satisfactory. Oats prospects are variable, very good in southwestern and northeastern counties, but heading short in most places; on the whole, is about fair. The season has been too wet and cool for Corn; in the past ten days the situation has improved some; the Corn is practically all planted and replanted, but the condition has not yet reached an average basis.

In Kansas rains have continued excessive in the eastern part of the State until the past few days. Wheat prospects have been maintained during the past week; harvesting begun in southern counties, yielding satisfactorily. Oats are doing fairly well. Corn is now all in and made rapid growth the past week, but is weedy and is not up to an average condition. Feed crops generally good.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, June 23.]

The movement of Hogs has fallen off moderately. Total Western packing for the week was 460,000, compared with 490,000 the preceding week and 490,000 two weeks ago. For corresponding time last year the number was 510,000 and two years ago 395,000. From March 1 the total is 6,785,000, against 6,360,000 a year ago, an increase of 425,000. Reports indicate fair to good quality. Prices are higher, prominent markets at the close indicating a general average of about $5 15 per 100 lbs, compared with $4 90 a week ago, $1 75 two weeks ago, $5 80 a year ago, $7 45 two years ago, and $6 00 three years ago.

The speculative Provision market was active the past week, and the tone was firmer, with prices tending upward. The advance was mainly credited to the higher prices of Hogs, but there was also a better general demand for Products in the domestic trade. Manufacturing centers were inclined to purchase with more freedom. Exporters continued to buy sparingly. At the close, prices for all the leading articles at Chicago are higher than a week ago. The export clearances of Product were fairly liberal, the figures showing an increase over the preceding week and a gain over the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year.
Pork, pounds	548,000	594,000
Bacon, pounds	13,751,000	10,626,000
Total, Meats	14,299,000	11,220,000
Lard, pounds	11,629,000	9,460,000
Total, Product	25,998,000	20,680,000

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since March 1, at undermentioned places, compared with last year, as follows:

THE WEATHER CONDITIONS.

The map this morning is a very wet one. Rains extend from the Canadian line down to Oklahoma—a veritable cloudburst—4.48 inches—at Concordia, Kas. There are light rains in the Canadian Northwest and also in Texas and Arkansas. None in Oklahoma at official points shown.

Indications are for showers and thunderstorms in the greater portion of this forecast district. There will be a break in the hot wave in this section Saturday, and cooling thunderstorms will cause a moderation in heat throughout the West.

ITEMS OF GENERAL INTEREST.

Reserve of the Bank of England increased $3,405,000 the past week. Bullion increased $3,615,220.

The plant of the Carlisle, Ill., Paper Company was destroyed by fire Wednesday. Loss, $50,000.

The Tremont Hotel, Quincy, Ill., was destroyed by fire Wednesday. Loss, $75,000; insurance, $45,000.

The steamer Oregon reached Seattle, Wash., Wednesday, from the Nome Gold fields, bringing $100,000 in bullion consigned to Seattle banks.

The Chicago and Northwestern Railroad reports a decrease of $500,000 in gross earnings for May, but an increase of nearly $4,000,000 for its fiscal year.

The National Licorice Company has declared the regular quarterly dividend of 1½ per cent on its preferred stock, payable June 30. Books close June 27, and reopen July 1.

The Terminal Railroad Association of St. Louis has applied to the New York Stock Exchange to list $18,000,000 general mortgage refunding 4 per cent sinking fund bonds of 1953.

A daily newspaper gives the following estimate of the number of idle men in the various industries: Railroad employes, 100,000, New England mill operatives, 80,000; packing house employes, 75,000; Iron and Steel workers, 110,000, Coal miners, 60,000; workers in other trades and industries, (estimated) 180,000. Total, 665,000.

More than 2,000 clerks in the general offices of the Pennsylvania Railroad in Philadelphia are to be forced to take indeterminate vacations without pay. The decision followed a conference between President Cassatt and Assistant Comptroller Riebenack on the question of a reduction in the force of employes. Division points also will be affected.

The president of the Sloss-Sheffield Steel and Iron Company says that all negotiations for the consolidation of Sloss-Sheffield, Republic Iron and Steel and Tennessee Coal and Iron have ended, and the plan of consolidation is abandoned. The representatives of the three companies bound themselves not to divulge the expert's reports about the valuation of the properties.

The president of the Metropolitan Street Railway of New York says: "Notwithstanding the bad winter months and the fact that the elevated roads, with their improved electric service, absorbed most of the new passenger business developed during the year, the receipts of our system of surface lines for the fiscal year ending June 30 will be only a few thousand dollars less than during those of last year."

A New York correspondent of a Chicago house wires as follows: "Over Sunday I had a talk with a member of one of the leading banking houses in this country. He told me that they had sold over $19,000,000 of various issues of bonds over the counter during the past week. None of these were in large blocks, but in comparatively small lots. He said his firm was pretty well cleaned up in bonds and was very 'bullish' on the situation."

The Governors of the New York Stock Exchange, Wednesday, acted favorably upon the application of the American Steel Foundries Company to relist the shares. It will be remembered that the securities of the corporation were stricken from the list several months ago on the discovery of an alleged error of $500,000. The statement of the Steel Foundries Company, which accompanies the application, is an exceptionally favorable one, showing a surplus of more than $1,600,000.

Directors of the Central Trust Company of Illinois, Chicago, will meet next week and declare the third regular quarterly dividend of 1 per cent, payable July 1. The fiscal year of the bank ends June 30, and the annual meeting will be held in July. For the year ending June 30 the bank will show earnings of substantially $240,000, or 6 per cent on the $4,000,000 capital stock. Deposits have grown about $1,000,000 in the year, and in general the bank has made rapid progress.

The *Wall Street Journal* says: "A gentleman identified with Amalgamated Copper interests says: 'You can state without any equivocation that the negotiations for the acquisition of the Heinze properties by the Amalgamated are off. It is a fact that the negotiations were on, but no agreement could be reached. I can tell you, however, that Heinze has demonstrated to the brainiest men in New York that he needs no guardian, and I think the Standard Oil people recognize Heinze as a foe worthy of their steel. For the first time since the organization of the Amalgamated Company the man now in charge of that company's affairs in Montana has the respect of the entire community, and Heinze himself respects him.'"

The absence of revenue from the roof theater and the troubles over the closing of the lodge halls make it extremely likely that the stockholders of the Masonic Fraternity Temple Association, Chicago, will not get more than 3 per cent in dividends on their stock this year. At that time the dividends payments were resumed three months ago, with a declaration of 1 per cent on the stock, the hope was expressed that 4 per cent might be paid for the year. The directors have held their last meeting for this month, however, and took no action on the dividend, so it is certain that 1 per cent will not be paid quarterly. It is likely, however, that at the meeting of the board in July another dividend of 1 per cent will be declared, payable Aug. 1. A third dividend of like amount may also be expected before the end of the year.

The New York bond market is reported practically cleared up of bonds in first hands, except for a portion of the last New York City issue and a portion of the Lake Shore debenture issue. The amount of New York City bonds remaining is not known. Of the Lake Shore bonds over 60 per cent have been sold and less than 40 per cent remain. The demand at present is showing indications of passing into bonds of a slightly lower grade. Bond houses say that if they could get absolutely first-class material they could do a large business. There is no sign, however, of any fresh material at this moment, and it is not thought likely that there will be any new bond issues for quite a while. The head of one large New York banking house is quoted as saying that not in years has there been so good a demand for first-class bonds as there is now. There has been a great restoration of confidence on the part of investors in this class of security.

Under the reorganization plan, by which the United States Realty Company is to be absorbed by the United States Realty and Improvement Company, the readjustment, if all the stock is exchanged, will be as follows: For the preferred stock now outstanding, amounting to $27,011,100, there will be delivered $13,505,500 in bonds and $11,479,717 in stock. For the common stock now outstanding, amounting to $33,198,000, there will be delivered $4,979,700 in stock. The total issue of the new stock for the purpose of exchange will amount to $16,459,417. The total issue of bonds will amount to $13,506,000. Out of the remaining stock $13,506,000 will be held to meet the conversion privilege contained in the bonds. It is expected that the new stock certificates and bonds will be ready for delivery on July 1 or shortly thereafter. Stockholders desiring to exchange their stock should deposit the same on or before that date with the New York Security and Trust Company in New York, or with the Illinois Trust and Savings Bank in Chicago.

With the end of this month the Republic Iron and Steel Company will end its fiscal year. The annual report probably will be published early in July. It is reported on what is claimed to be official authority that the net earnings for the year will be slightly under $3,000,000. While the company failed to follow its usual custom of issuing a semi-annual report in January it is understood that the earnings dropped to the lowest point in the last four months of 1903. Officials of the company have claimed some improvement in business and net results for the half-year now ending. The net profits in the year ended June 30, 1903, were $4,123,500, and, after the deduction of $1,382,590 for renewals and repairs, there remained a balance of $2,740,900 for the stock. The company's best period was in the fourteen months after formation to June 30, 1900, when the net profits were $5,684,100, and the balance left for the stock after all deductions was $3,613,728. The poorest period was in the following year, when the company made a deficit of $1,112,384. Dividends on the preferred stock were suspended after the quarterly payment in October last year. The present state of business does not indicate an early resumption.

"The Beef question at this time is one of interest," says the *National Provisioner*. "Good Steers have risen 1c to 1¼c per pound, live weight, since May 1. If the packers controlled Live Stock shipments and the market this rise is a peculiar proceeding. As a matter of fact, the run of abattoir Steers is light and the bidding for those in the pens has been so keen on few at hand that market went up. Competition thus seems to be as keen as ever in the Live Stock market. The rise of 1¼c per pound in Beef Cattle means a necessary rise of 2c per pound in dressed Beef without any margin of profit being left for the slaughterer. In other words, 6c Cattle on the hoof means 9¼c Beef in the carcass at absolute cost to the killer. As this Beef comes in the market the press may still find voice enough to howl. Before the end of June carcass Beef should be selling above 9¾c to 10c per pound. It now sells at 8½c to 9c and is ½c to ¾c per pound below cost, at that. Last week one big New York packer paid $6 40 per 100 lbs alive for prime Steers, or 6 2-5c per pound. That means 10.7c per pound in the carcass at cost wholesale. The outlook, as the *National Provisioner* has predicted for some time, is for higher and scarce prime Beef. All Cattle have gone up, and the consumer naturally does not like this sudden turn of affairs in the Live Stock market."

United States Consul General Worman, at Munich, Germany, in a recent report to the Department of Commerce and Labor on the subject of American Horses in Germany says: "The Russian edict forbidding the exportation of Horses on account of the war with Japan, has very disadvantageously affected several sections of Germany, particularly those of Northern Germany, which has been accustomed to depend for its general supply upon importation of Horses from Russia. In the year 1903, 43,610 Horses, valued at 17,000,000 marks ($4,046,000) were imported into Germany from Russia. Germany has always been the largest buyer of Russian Horses, and if the edict should continue long in force United States Horse breeders ought to profit by this opportunity, and again recover the good market for Horses that was theirs in Germany several years ago. In this part of Germany quite a number of Horses are imported from Austria and Hungary, particularly from Hungary. I believe, however, that if United States Horse breeders would make a special effort to participate in the races which usually take place here in May and later, they would undoubtedly make a market for their Horses, despite the close proximity of Hungary. An average Horse cannot be bought here for less than $250. A pair of Horses which cost here from $1,000 to $1,500 would not sell in the United States for more than $350 or $400. There is much wealth in South Germany, and those who have brought American Horses here have usually realized good profits. In North Germany, French and Dutch Horses find more or less of a market, especially draft Horses."

PREPARING FOR THE NEW CROPS.

Chicago Commission Merchants are preparing for the moving of the new crops. Prospects are now rather favorable for good yields of small Grains in the country tributary to the Chicago market, and indications point to an active business after the middle of July. It will be to the interest of interior shippers and speculators to watch the columns of the DAILY TRADE BULLETIN for full details of the speculative and cash Grain markets, and forward their orders and consignments to this market.

ITEMS OF GENERAL INTEREST.

For the corresponding week last year the exports were 285,000 brls of Flour and 115,000 bu of Wheat.

The Duluth *Commercial Record* says: "There is a great surprise in store for some of the Wheat people who are figuring on a 5 or 6 per cent increase in North Dakota Wheat area, or even a 10 per cent increase as the Minneapolis *Market Record* had it. In the far western counties there is no longer any doubt that the increases in Wheat area are something wonderful. Actual increases of 25, 35, 50, 100 per cent, and even more, over large stretches of territory mean something. On the Great Northern and Soo lines in western North Dakota, there are stations that will move 750,000 to 1,000,000 bu Wheat this year if the present prospect continues."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market is reported dull, but steady, as quoted on the second page.

WINTER WHEAT—The market was quiet and steady. A little milling and shipping demand, but none for round lots. No 2 Red in store nominally 98@99c, and fresh arrivals free on board quotably $1 00@1 02. No. 3 Red fresh receipts free on board quotable at 95c@$1 00, with sales at 99c@$1 00. No. 2 Hard fresh receipts free on board quotably 88@95c. No. 3 Hard fresh receipts free on board quotably 83@90c.

SPRING WHEAT—Met with a light demand on milling and shipping account and market steady. No 1 Northern in store quotably 9@10c over old July, and ranged at 95@97⅝c, and fresh arrivals free on board quotably 97@99c. No. 2 Northern fresh arrivals quotably 93@97c. No 3 Spring fresh receipts free on board quotably 85@95c. No. 4 Spring quotably 65@80c for poor to fancy.

REGULAR WHEAT—A better trade with a stronger undertone, the close showing July up ½c and September ⅞c higher. Situation at the opening was strong, influenced chiefly by the wet weather Southwest and Northwest, higher cables, both English and Continental, and smaller Australian shipments, only 296,000 bu. One of the features was the growing demand for the new September, investment buying being more in evidence, and "shorts" were more disposed to cover. Liverpool quoted spot ½@¾d higher and futures up ⅝@¾d. London came ¾d lower to ¾d higher. Paris advanced 1½@3c and was one of the early "bull" helps. Liverpool was strengthened to some extent by the smaller Indian offerings and dearer prices. London quoted cargoes on ocean passage steady with sellers asking 1½d advance. At the improvement in prices there was selling by several of yesterday's best buyers, and prices settled back temporarily. Receipts in the Northwest this week—1,315 cars—were 218 cars smaller than a year ago. Primary receipts were 1,679,000 bu, against 1,755,000 bu last week and 2,039,000 bu in 1903. *Broomhall* estimated world's shipment at 8,000,000 bu and predicted a fair decrease in the amount on ocean passage. Arrivals in the United Kingdom this week 4,000,000 bu; previous week, 6,000,000 bu; year ago, 2,800,000 bu. Local weekly receipts were 160,770 bu and shipments 275,497 bu. New York advices from abroad as to the foreign demand were rather "bearish," bids generally being 1@1½c out of line. Inquiry entirely for Spring Wheat for mixing with no requests for new winters. Russian crop prospects were cabled as favorable, except in Caucasian region where crop is in bad condition. Last year this territory raised 77,600,000 bu. Total India crop is estimated at 360,000,000 bu, as against the previous record year, 216,000,000 bu. The available surplus this year is placed at 128,000,000 bu. Minneapolis wired conditions were perfect and present weather helped to make them more so. Minneapolis wired the Flour market was very dull; also that there was a little too much rain in some sections, but conditions nothing serious. Kansas City and St. Louis received 17,000 bu and shipped out 39,000 bu. Antwerp closed unchanged. Buda Pesth was ⅛c lower and Berlin firm and ⅝c to 1½c higher on Wheat and 1@1⅛c up on Rye. Part of the late buying was credited to the Northwest. Provision interests bought new September and sold new July. Exports were reported small and only 10 boat loads accepted at the seaboard. Receipts at Duluth 49 cars and at Minneapolis 222 cars, a total of 271 cars against 235 cars yesterday, 295 cars a week ago, and 216 cars last year. Local receipts included 3 cars Winter, 2 cars Spring, no cars mixed, a total of 5 cars, against 24 cars last year. Included in the above was 1 car contract grade. There were 6 cars and no bu taken from unlicensed elevators. The estimated receipts for Monday are 5 cars. Withdrawals to-day were 36,900 bu. Receipts at Western points were 303,570 bu, against 304,286 bu last year. At Eastern points 18,727 bu, against 38,945 bu last year. Shipments from Western points were 123,076 bu, against 368,110 bu last year, and from Eastern points 7,338, against 48,800 bu last year. Shipments of Flour were 15,469 brls. Exports of Wheat in Flour were equal to 78,918 bu.

Future Deliveries of Regular Wheat—Fair trade and prices higher

SEPTEMBER—New Style—Sold at 80⅝@81¾c. Opened with sales at 80⅝c to 81c, sold to 80⅞c, to 81c, to 80¾c, to 81¼c to 81⅛c, to 81¾c, to 81⅝c, to 81¾c, to 81½c, to 81⅝c, to 81⅜c, and closed at 81⅜c bid.

DECEMBER—Sold at 80¾@81¼c. Opened at 80¾c to 81c; sold to 80¾@80⅞c, to 81½c, to 81⅜c, to 81½c, to 81⅜c and closed at 81⅜c sellers.

MAY—Sold at 83@83⅛c.

CORN—Only a moderate trade and local at that, the close showing July ½c lower, while September was ⅛@¼c lower. Market started out stronger with Wheat, but July offerings soon became moderately free, the selling being led by elevator interests, and prices settled back. Weather conditions were looked upon as favorable, and receipts were fair, 344 cars, with 436 cars estimated for Monday. Liverpool was firm, quoting spot unchanged to ½d higher and futures ⅛d better. London quoted cargoes on ocean passage firm and held 3d higher. Selling the July and buying the September was again a feature of the day. Local weekly receipts were 2,545,000 bu, and shipments 1,991,500 bu. Primary receipts this week 3,201,000 bu, against 3,741,000 bu last week and 4,161,000 bu one year ago. Showery, cooler weather was indicated. There were taken from regular elevators 78,700 bu and 452,050 bu loaded out of private warehouses. Country acceptances were reported as fair. Exports were only 41,000 bu and 4 boat loads taken at the seaboard. Local shipping demand still slow and sales 25,000 bu. Car lots were in fair request and more liberal supply. Prices ½@1c lower. No. 2 closed at 48¼c. No. 2 Yellow sold at 48¾c and closed at 48¾@49c. No. 3 sold at 47¾@48c and closed about 48c. No 3 Yellow sold at 48½@48¾c, and closed at 48½@48¾c. No. 3 White at 47¾@48c.

Corn by sample—Offerings were larger and demand only fair. Feeling weaker and prices ½@1½c lower. Sales on track and free on board. No Grade sold at 36@37c. No 4 at 36@47c. No 3 at 47½@48½c. No. 3 Yellow at 48½@49½c. No 2 Yellow 49@49½c. No 3 White at 47½@48c. No 2 White at 48¼c. Billed through: No 4 at 42¾@45c. No 3 at 46½@47c. No 3 Yellow at 47½@47¾c. No. 2 at 47½c. No. 2 Yellow at 47¾@48c. No. 3 White at 46½@47¼c. No 2 White at 47c.

Future Deliveries of No. 2 Corn—Only moderately active and easy, closing unchanged to ½c lower

JUNE—Inactive, and closed at 47½c

JULY—Sold at 47¾@48¾c. Opened at 48⅝c to 48¾c, and sold at 48⅛c, to 48⅜c, to 48@48½c, to 48⅛c, to 48c, to 48⅛c, to 47⅞c, to 48½c, to 47¾c to 48c, to 47⅞c, and closed at 47⅞c bid

SEPTEMBER—Sold at 48¼@48¾c. Opened at 48¾c to 48⅝c, and sold at 48½c, to 48⅝c, to 48⅝c, to 48½c, to 48¼@48⅜c, to 48½c, to 48¼c, to 48¼@48⅜c, and closed at 48¼@48⅜c bid

DECEMBER—Sold at 44@44¼c. Opened at 44¼c and sold at 44c, to 44¼c, to 44⅛c, and closed at 44⅛c asked.

MAY—Sold at 43⅜@43½c. Opened at 43½c and sold to 43⅜c and closed at 43⅜c.

OATS—Were traded in sparingly and prices only moved ⅛c. The close was at ⅛c loss for July and unchanged for other months. There was nothing in the weather news of especial importance, except rains in Illinois where needed. Cash business was slow, 5,000 bu. Arrivals 130 cars and 99 cars expected Monday. Withdrawals were 3,775 bu and seaboard clearances 11,723 bu. Car lots in store and to go to store were steady to 1c lower and slow sale. Standard in store closed at 40¾@41c.

Oats by sample were slow but steady for good, and weak to ½@1c lower for common and light weight lots. All the offerings failed to clean up. Sales on track and free on board: No. 4 White at 32@41c. No. 3 at 38@39c. No. 3 White at 40@43½c. Standard at 43½@43¾c. No. 2 at 40c. Billed through: No. 4 White at 33@40c. No. 3 at 37½c. No. 3 White at 40@43½c. Standard at 42½c. No. 2 at 38½c. No. 2 White at 43¾c. At the river: No. 4 White at 33@38½c. No. 3 White at 39@40½c. Standard at 42½c.

Future Deliveries of Contract Oats—Were slow and easy

JUNE—Lower. Closed at 40¾c

JULY—Slow. Sold at 38⅜@38⅝c. Opened at 38½c to 38⅝c, sold at 38⅝c, to 38⅜c at close.

SEPTEMBER—Sold at 31¾c and 31⅞@32c. Opened at 31¾@31⅞c to 31⅞@32c; sold to 31¾c, and closed there

DECEMBER—Slow at 32⅜c all day. Closed at 32⅜c.

RYE—Was quiet and nominally unchanged. Scarcely any interest shown in the market. There were no receipts and no withdrawals here and no exports from New York. No 2 in store nominally 65c and fresh receipts free on board sold at 65c. No 3 fresh receipts sold at 60c and ranged as low as 54c for common.

Future Deliveries of No. 2 Rye—Nothing doing. July 58½c bid and 60c asked. September 52c bid and 55c asked.

BARLEY—Was dull and weak. There was a limited demand for good malting. Low grade malting not wanted. There was almost no demand for mixing goods. Most cars of low grades offered remained unsold. Ten cars were inspected in. Low grade to good Screenings dull at 30@37c, choice, clean possibly would bring 38@41c. Barley, low grade feed or mixing, uncertain in value and quotable at 32@35c for thin, or seedy, musty; good color, sweet and good weight possibly 36@39c but nominal. Malting, low grade, was perhaps 37@41c; fair to good, sound, 42@47c; good color, 48@52c, and fancy above

SEEDS—There was no trading. Some offerings appeared of Timothy, Clover, Hungarian and Siberian Millet. The aggregate quantity was not important. Consignments went over unsold for want of satisfactory bids. Little disposition to purchase.

Timothy—Dull and inactive. A small quantity of cash Seed offered, but it did not sell. In the case of future deliveries buyers and sellers remain apart. September was $3 12½ bid and it was held at $3 20. Market for contract spot Seed nominally $2 92½. Cash market for country lots quotable at $2 00@2 85 for low grade to fancy, choice about $2 70@2 75, fair to good Seed $2 50@2 60 and rough at $2 35@2 45.

Flax—No trading and no change to note. There was an absence of sellers. Prices nominally unchanged all around. No local receipts or output. Minneapolis got 6 cars and Duluth 44 cars. No 1 Northwestern or No. 1 from the Northwest quotable at $1 07. No. 1 at $1 01. Rejected was quotable at 95c@$1 01. July quotable at $1 01. September obtainable at $1 05.

Clover—Inactive: a small quality offered but it did not sell. Contract spot Seed about $10 75. Country lots, common to choice, $7 00@10 00; fancy above; mixed with Buckhorn or other weed Seeds, $6 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good $8 50@9 50.

Other Seeds—Dull and inactive, no one cares to buy. No change quotable, but feeling weak. Hungarian, common and light color to choice dark, at $1 15@1 35. Common Millet $1 15@1 40 for poor to fancy. German Millet, $1 15@1 40. Siberian, 75@90c. Broom Corn Millet, $1 00@1 10. Early Fortune Millet, 85@95c. Mustard 85c@$1 05. Buckwheat easy: quotable at $1 55@1 65 for good

HOG PRODUCTS—Trade in Hog Products was fair in a speculative way, but mainly on local account. Outside orders were light. Hogs were in light supply and steady, and the Grain markets exhibited a little strength. Prices ruled rather easy—inclined in favor of buyers slightly. Fair supply of Hogs estimated for the coming week. Receipts at the leading Western packing points were estimated at 28,500, compared with 37,100 one year ago. Foreign markets were steadier, and quotations were advanced 6d on Cumberland Sides and 3d on Lard. Domestic markets quiet. Receipts of Products were liberal of Lard and Meats about 35 cars. Shipments were rather light—of Lard and Meats about 83 cars. Demand on shipping account was fair and offerings moderate. Prices well maintained

Mess Pork—Trade only moderate and feeling rather easy. Offerings were moderate and the demand was fair. Feeling rather easy and prices declined 17½c on the whole range. Market closed steady. Shipping demand was light and offerings were moderate. Cash lots at the close quotable at $12 95@13 00.

JULY—In moderate demand, and offerings were fair. Sales were made at $12 97½@13 15. Opened at $13 10 to $13 15, sold to $13 10, to $13 12½, to $13 02½, to $13 05, to $12 97½, and closed quiet

SEPTEMBER—Offerings were fair and the demand was moderately active. Sales were made at $13 25@13 42½. Opened at $13 42½, sold to $13 37½, to $13 40, to $13 37½, to $13 40, to $13 30, to $13 35, to $13 25, to $13 27½, to $13 25, to $13 27½, to $13 25, and closed steady

Lard—Only a moderate business was transacted in the Lard market, and the feeling was easier. Foreign advices more favorable to holders. Prices ruled about 2½c higher early, but settled back again 5@7½c and the market closed steady around inside figures. Demand on shipping account rather light with no particular pressure to sell. WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO. FRIDAY EVENING. June 24, 1904.

The money market remains easy, with a limited demand from about all classes of borrowers. Deposits are piling up and there is a liquidating period on, which means the reducing of loans, and the banks keep well supplied with funds. Rates are 4 to 5 per cent, with most of the loans around 4½ per cent. There was more 4 per cent money put out the past week than heretofore. In New York rates on the Stock Exchange were easy at 1 to 1½ per cent, and time funds went at 2½ to 4½ per cent, depending on the length of the loan and the kind of the collateral. In Europe easiness prevails in all monetary centers.

New York exchange was slow at 20@40c premium per $1,000, and closed at 40c.

Foreign exchange was offered to a moderate extent, and shippers' sixty-day documentary sterling bills on London ranged at 484¾@485, and closed at 484¾.

In the mercantile trade a moderate business was transacted, the buying of goods, however, continues conservative. In dry goods the feature was the weakness in Cottons, owing to the reductions of ½c to 1c made the previous week. It brought in a good run of buying, but purchases were not as large as such a remarkable reduction should bring. Goods that were not marked down last week had to follow during the past one. Woolens and silks were held at previous prices. Buying for immediate delivery was in small lots and purchases for fall shipment continue more or less restricted. For the present there is indecision in all lines awaiting the outcome of the presidential conventions which will be out of the way in the next three weeks. Crop prospects on the whole are favorable, but there is an uneasy feeling everywhere, and the disposition is to curtail. In the pig iron market inquiries were more numerous and for larger lots, mostly for extended delivery and prices were lowered to make fair sales. They are $13.00 to $13.50 for No. 2 Northern foundry in Chicago, and $9.25 at Birmingham. Steel rails were taken in fair quantities, sales last week being 4,000 tons. The mills at Chicago are well filled with orders and have lately received orders for export. The rail pool expects, however, that the price will be changed from the present basis of $28.00. Steel Plates are having a fair sale. Structural material has been bought more freely. Jobbers report a fair business in light and heavy hardware. The bituminous Coal market was slow and easy, particularly on Western grades. Anthracite is moving more freely, but the receipts by lake are so much behind last year's that it is hardly possible for them to catch up the balance of the season. Prices on yellow pine and some grades of hardwood are being shaded. There is no snap to the buying of any kind of lumber, but at the same time a fair business is under way. In all other lines of trade, purchases were in small lots. Sugars were advanced. Collections were fair.

Cotton in New York was actively traded in and prices were erratic. A good many "longs" still hold on and are waiting for strong spots to liquidate. "Shorts" were aggressive and have much in their favor. Crop prospects on the whole are favorable, although in Texas, damage by the boll weevil is increasing in some sections. The estimate of a crop of 11,000,000 bales is considered "bearish" enough to induce selling on the rallies, and the general feeling is so "bearish" that the market is frequently oversold. Closing prices were at losses of 27@51 points as compared with the previous week, July leading the decline.

Local Securities were slow, with moderate fluctuations. The feature was the gradual absorption of Swift shares and there is a revival of the talk of a packing merger, but nothing tangible has come to the surface. Prices advanced fairly and covered the dividend. American Can shares, which have been a feature, were sold by some of the recent buyers in a way that caused prices to recede. Boxboard shares were neglected and lower. Elevated and Traction shares were slow, with small changes. Chicago Telephone had a good advance. Bonds were in better request on the exchange and over the counter.

Stocks in New York were stronger and averaged higher with a moderate increase in trading. A more "bullish" feeling has developed and there is a steady accumulation of good stocks, not only the railways but the Industrials that have merit. There is a feeling in Wall Street as well as in Chicago that stocks have reached their lowest point and that all the discouraging influences have been discounted. The Republican convention at Chicago cut little figure and it is believed that a conservative democrat will be nominated. This, with favorable crop reports from the West, and the cheapness of money, were the chief reasons for the buying that has been under way for several weeks. There is more buying by the West and the larger commission houses who have not taken any part in the buying for a long time are sending out "bullish" literature. This is bringing in many orders for Western Railway shares. They have taken all the good dividend payers and the theory is that while there is not likely to be a large advance for the time being this is the time to accumulate stocks while they are considered cheap. Canadian interests were also more active on the buying side, and absorbed Canadian Pacific and Soo shares in a way that made them the most active in the market for a few days. A feature that received unfavorable comment was the selling of the Rock Islands three year notes for $7,500,000 to a banking syndicate in New York. They bear 4 per cent interest. The price was 98, so that it cost the road over 5 per cent. It was considered wise to sell the notes at 5 per cent, rather than sell a new bond, as the market is not in condition to take it. Wall Street believes that a turn for the better is about due in the Steel trade and there was buying of United States Steel shares by "shorts" and a higher level made. The whole list averaged higher, and closed with fair gains for week. Money was easy at ½ to 1½ per cent and it is expected to remain so for some time. Total sales on the New York Stock Exchange for the week were 1,178,000 bu, against 1,959,000 shares the previous week, and 1,669,000 shares for the same time last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

COMMERCIAL.

Business on the Chicago Board of Trade was not very satisfactory the past week, the trade still being largely professional and local. Outside interest was rather indifferent, speculative orders coming almost exclusively from the larger centers. There was at the same time a noticeable increase in the trade in the more forward deliveries, but at the same time the aggregate business was very moderate. "Bear" leaders appeared more confident owing to the fine growing weather, while the decreasing supplies on the other hand encouraged the "bulls." With more definite crop information at hand within the next few weeks, the principal markets should show a more decided tendency. The season will soon be at hand for renewed activity in all leading commodities and the outside speculator should not overlook the fact that Chicago is the leading market for speculative ventures.

There is no particular change to note in the foreign crop situation this week. Conditions have possibly been maintained or slightly bettered in several important sections of the Continent. In France the outlook is unusually good and advices from the United Kingdom indicate satisfactory results. Rain would be welcome in Germany and Russia reports were mostly favorable. The Roumanian report made the Wheat yield 37,000,000 bu to 44,000,000 bu, against 74,000,000 bu in 1903. Severe storms in Spain have caused some damage, while in North Africa prospects are favorable. Estimates on the Wheat yield in Hungary were raised 7,200,000 bu, making the same 121,800,000 bu, against 167,000,000 bu last year.

Weather conditions most of the week in the United States and Canada were very satisfactory. Temperatures were a little low for the season, but the weather clear in most sections, though on Thursday night and Friday rains were general through the Western country. A general improvement was reported in the condition of Winter Wheat and the harvest is now on as far North as Southern Illinois. Reports from Oklahoma indicate the yield would be much larger than previously supposed. Cutting is now progressing in California, and in other sections of the Pacific coast Wheat is in promising condition. Corn has not made the growth expected. The stand in many important districts is small, but healthy and well cultivated, with the possible exception of Kansas and Nebraska. Good growth is reported in Oklahoma and through the South. Rain would be welcome in some of the Southern States. Oats were said to be in need of rain in Michigan and Illinois and the crop is reported as heading short in Missouri.

The movement of Grain from the farms and interior elevators was moderate the past week. Receipts of Wheat at terminal points in the Northwest were smaller than a year ago, but holders are now said to be more disposed to sell, owing to the excellent outlook for the new crop. Through the West and Southwest Wheat marketings were very moderate and receipts of coarse Grains showed some falling off, which, no doubt, is due to the rail rates now in force. Reports from Missouri and Oklahoma would indicate that new Wheat will move early, and that present prices are attractive to growers. The mills will, no doubt, absorb all the first offerings. Yields are said to be more satisfactory than expected earlier in the season. The Corn and Oats movement was smaller through the Central West, and the movement of Grain Eastward is disappointingly small. Lake rates are low, and boats left light this week rather than except the rates offered. Exports of Flour and Grain are still very moderate as also are the Corn and Oats clearances. Bookings at the seaboard for forward delivery were meager. According to the visible supply as compiled by the Secretary of the Chicago Board of Trade there were decreases in Wheat, Oats, Rye and Barley, and an increase in Corn. *Bradstreet's* reported a liberal reduction in Wheat and Flour supplies, a slight decrease in Oats, and a fair increase in Corn.

Just a moderate speculative business was witnessed in the leading markets on 'Change, the trade in the main being local and professional. Sentiment at the same time was quite divided and prices irregular, more particularly for the nearby deliveries. Wheat values were governed largely by the weather and crop reports. The prospective movement, too, was quite a factor in shaping prices. Buying old July and selling new was a conspicuous feature the closing days. Market on the whole was quite firm. Corn was erratic and sensitive, the fear of July congestion being something of a factor and "short" lines were evened up on the declines. Favorable weather conditions and indifferent shipping demand were among the "bear" influences. Receipts were moderate. Prices on the whole were steadier. Oats were unsettled. Crop reports were not of the best and stocks are steadily decreasing. Cash demand moderate. The trade in Hog Products was fairly active and prices were somewhat stronger. Hogs were in moderate supply and prices higher. There was a fair miscellaneous demand for all descriptions of Product, while the offerings were moderate. Foreign advices favored holders. Realizing followed the upturn, but offerings were fairly well absorbed. Packers were credited with selling the deferred deliveries. Packing of the West for the week was 50,000 Hogs short of the corresponding week in 1903, and total for the season 6,785,000, compared with 6,360,000 in 1903.

There was a fair trade in cash Grain the past week, though the volume was probably less than that of the week preceding. Offerings were not as liberal, but the demand rather good. Wheat met with fair sale, but the inquiry was nothing urgent. Milling and shipping demand moderate. Corn sold well, that is car lots, but cargoes were slow notwithstanding the cheap lake rates. Foreign demand slack. Oats were in smaller supply and prices irregular. Quality was as a rule rather inferior. Rye and Barley were quiet. Seeds dull. Hay sold fairly well, that is choice, and prices were steady. Hog Products were in fair request and offerings moderate. Sellers generally asked higher prices. Sales somewhat limited. Exports for the week, compared with the corresponding week in 1903, exhibited a decrease of 230 brls Pork, and increases of 2,239,000 lbs Lard, and 6,250 boxes Meats. Cattle were in fair supply and prices ruled lower. Sheep were marketed in fair numbers and prices comparatively steady.

FREIGHTS—Eastbound business is slower and has fallen off 10 to 15 per cent since the collapse of the lake strike. Cars are plentiful and tonnage below the average of recent years. The Eastbound all-rail tariff is as follows:

To—	From Chicago. Domestic.	From Chicago. Export.	From Miss. River. Domestic.	From Miss. River. Export.
Boston	19½	13½	22½	16
New York	17½	13½	19½	16
Philadelphia	15½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News	14½	11	16½	14½

Flour rates are to be 17½c domestic and 15c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 4c per bu on Wheat, 3¾c on Corn, 3½c on Barley and 3c on Oats.

Ocean rates on Grain are easy, with export business light. Rates on Grain are ½@¾d per bu from New York and ½d from Boston. Through rate on Wheat from Chicago to Liverpool is 10.4c per bu and Corn 10¼c. Flour 19c per 100 lbs and Provisions 35⅝c per 100 lbs.

Lake rates are lower at 1c for Corn to Buffalo. Many boats were sent for Coal and Ore which pays better than Grain at 1c.

FLOUR—While the Northwestern millers' agents have advanced the price of the best Flour 10c per barrel, the local millers are closed down for want of demand. The bids from abroad are still considerably out of line and the domestic demand is practically at a standstill. There are many complaints of receipts of bad Flour from both the Northwest and Southwest and this has to be sold at whatever prices buyers feel disposed to pay. Consignments are light, buyers refusing to guarantee a price on any shipments. Stocks are ample for immediate wants, yet they are not large locally. One of the greatest drawbacks to the Flour situation at present is the large consignments that have been made in all the large markets of this country as well as in Europe. This hovers over the situation and prevents buyers from taking hold, even were they given lower prices. Sales ranged during the week:

MILLSTUFFS—There has been no important change since the close of last week. The receipts have been light, and the demand also limited. No special inquiry, and the market has been quoted dull. Bran in 100-lb sacks, sacks included, sold at $16 50@17 00 per ton.

WINTER WHEAT—There has been a little better feeling in the market during the past week. The decline which was so marked last week was checked and prices have held steadier. A moderate demand has existed, but trading was confined entirely to the fresh car lot arrivals, which were taken by millers and shippers. Hard Wheat, which was so very difficult to sell, met with a little better sale, and receivers experienced less difficulty in disposing of their consignments, when they were disposed to accept established market quotations. However, there has been no shipping demand for large quantities, and the in store lots, or round lots in store, ruled very quiet and entirely nominal. Some of the best Wheat is evidently owned by millers who draw upon these supplies as they require. The stock of No. 2 Red in store was reported at 177,000 bu, against 189,000 bu the previous week and 1,168,000 bu the corresponding week a year ago. The receipts for the week were 87 cars, against 132 cars the previous week. There were withdrawn from public elevators 28,000 bu, and from private warehouses 36 cars and 55,000 bu. No 2 Red in store was quoted nominally 98c@$1 00. Fresh arrivals were quotable at 99c@$1 01. No 3 Red fresh arrivals free on board sold at 95c@$1 00. No. 4 Red choice sold at 97c and poor at 80c. No Grade Red sold at 71@93c. No. 2 Hard sold at 91@95c, and ranged as low as 88c for ordinary. No 3 Hard sold at 80@88c for poor to good. No. 4 Hard sold at 69@77c. No Grade Hard sold at 55@85c for poor to choice. No. 3 White sold at 95c.

SPRING WHEAT—The market has been quiet all the week, and prices did not undergo any special changes since the close of last week. On the whole prices perhaps average a shade lower. Trade has been of a limited character. There has been no demand outside of the wanting of an occasional small parcel for milling or shipping purposes and the few cars of fresh arrivals which came on the market. The receipts have been very small and so little doing in fresh arrivals as to make it difficult to establish market quotations. The stock of No. 1 Northern in store was decreased to 532,000 bu, against 565,000 bu the previous week and 1,231,000 bu the corresponding time last year. The receipts for the week aggregated 42 cars, against 48 cars the previous week. There were withdrawn from public elevators 42,600 bu and 20 cars were taken from private warehouses. No. 1 Northern in store was quotably 9@10c over old July prices, and ranged at 92@96½c and fresh arrivals free quotable at 92c@$1 00. No. 2 Northern fresh arrivals free on board quotable at 92@96c and sold at the river at 92c. No. 3 Spring fresh arrivals free on board ranged at 85@97c. No. 4 Spring fresh receipts free on board ranged at 65@80c for poor to choice and with sales at 85c and billed through sold at 65c.

REGULAR WHEAT—Just a fair trade was reported in this market the past week, though the feeling manifested at times was quite unsettled. All things considered, the tone was firm, and the close shows old July up 1⅞c, while September gained 1⅛c. The week started out with a comparatively firm undertone, and sentiment leaned more to the "long" side of the market. The foreign situation was considered more favorable to holders, and statistics generally were looked upon as rather "bullish." A press cable from Bucharest, Roumania, stated that two thirds of the Roumanian Wheat and Hay crops had already been ruined, owing to the prolonged drouth, and that conditions were so serious that officials had ordered that leaves be gathered in the forests for the use of winter fodder for Cattle. There was also some apprehension least the rains in the Southwest would interfere with harvesting operations and also the movement. "Shorts" covered freely, and investment buying by local professionals started the market higher, July touching 85⅞@86c and September 81¾c. Buying new and selling old July was a feature on the advance. The visible supply decreased 2,132,000 bu, against 1,544,000 bu decrease the same week in 1903. The total is now 16,343,000 bu, compared with 18,460,000 bu in 1903 and 21,035,000 bu in 1902. The visible showed a larger decrease than any one expected, owing to the large falling off on the lakes. Of the total decrease over half came off the lakes, which decreased 1,143,000 bu to 481,000 bu. There was a decrease of 236,000 bu at Fort William and one of 71,000 bu at Port Arthur, these two points having 2,781,000 bu, compared with 1,917,000 bu a year ago. Local public stocks decreased 93,000 bu, to 1,391,000 bu, against 3,216,000 bu in 1903. Contract stocks decreased 44,048 bu last week, to 709,030 bu, against 2,399,820 bu one year ago. Stocks here in all positions 2,915,000 bu, a decrease of 148,000 bu. Stock a year ago 4,968,000 bu. The English visible increased 1,874,000 bu, compared with 1,311,000 bu decrease same week in 1903. *Bradstreet's* world's available supply decreased 3,007,000 bu, against 3,668,000 bu decrease last year. The quantity on ocean passage decreased 2,632,000 bu and is now 50,960,000 bu, against 33,616,000 bu same date last year. World's shipments were 9,336,000 bu, against 10,432,000 bu the previous week and 12,324,000 bu in 1903. Local stocks decreased 93,000 bu to 1,391,000 bu, against 3,216,000 bu in 1903. The official Hungarian crop report, just issued, raised the Wheat crop estimate 7,200,000 bu over the estimate of June 6, the revised total being 124,800,000 bu; last year's crop 157,600,000 bu. The text of the report said that further improvement is improbable, while deterioration is possible. The Roumanian crop is now estimated at 37,000,000 to 41,000,000 bu, against 74,000,000 bu in 1903. As the week advanced and the weather turned more favorable sentiment changed about from the "bull" to the "bear" side of the market. Reports from the Northwest were most flattering, and advices from the Southwest were likewise more satisfactory. July reacted to 84¾c and September to 81c. The milling situation, too, proved a "bear" factor. Enid, Okla., wired as follows on Wednesday: "A surprising condition in the Wheat crop has developed now that the Grain is being harvested, and the surprise means that the yield will be from 40 to 50 per cent more than was at first estimated. One farmer of Garfield County has samples of his Wheat in the city which show three grains to the mesh. He said his yield will be almost 50 bushel to the acre, which is probably the story of two-thirds of the farmers in this county." The Government weekly crop bulletin said that Winter Wheat had suffered no unfavorable conditions, and a general improvement indicated in nearly all districts, but some lodging is reported from Southern Nebraska. Harvest is in progress in the southern portions of Kansas and Missouri, but no Wheat has been cut east of the Mississippi and north of the Ohio River. Harvest started this week in Southern Illinois. On the North Pacific Coast, Winter Wheat continues in promising condition. Harvest is in progress in California, where the crop is light in most sections. The San Francisco *Commercial News* said: "Reports from the State of Washington indicate the Wheat crop will be the largest on record. In the central part of the State the average increase in acreage is estimated at 20 per cent, and throughout the eastern part there has been an increase of 10 per cent. The acreage in Whitman County is placed at 25 per cent larger than last year, and a yield of 12,000,000 to 14,000,000 bu is looked for. In Asotin County the acreage is 50 per cent larger than last year. Walla Walla County has an acreage of 150,000 under Wheat, and expects to produce 3,500,000 bu, or 1,000,000 bu more than last year. The Lincoln County crop is placed at 12,000,000 bu, or 2,000,000 bu more than last year. Adams County counts on a yield of 7,000,000 bu from 250,000 acres." The Portland *Commercial Review* of June 16 said: "Weather conditions have been favorable. Fall-sown Grain went through the winter well, and comes out strong and promising. Spring Wheat is a little backward because of the late season, but it looks well and is attaining a good growth. There has been a fine supply of moisture, and recent rains have helped to put the Wheat fields in a highly promising condition. In many years the outlook has not been so bright, and it is not strange that the farmers are in good spirits, with every prospect of a bountiful harvest before them." The Winnipeg *Commercial* of June 18 said: "Crop conditions still continue excellent, and the general feeling is, of course, optimistic. The present spell of warm weather is just what was needed. From all parts a sufficient amount of rain is reported, and warm weather will bring the Grain along rapidly. That the growth has caught up well after the late spring is indicated by the fact that one farmer has already harvested his Hay, making a new record for the West." An official Government report placed the total Canadian Wheat crop this year at 99,500,000 bu, of which 51,000,000 bu will be available for export. The report estimates the Ontario Wheat yield (spring and fall) at 19,000,000 bu, or 5,000,000 less than last year. Manitoba and the Northwest Territories promise to raise 80,500,000 bu, against 53,000,000 bu last year. *Broomhall's* weekly foreign crop summary said: "Crop conditions in Europe, as a whole, are slightly improved. United Kingdom—Wheat crop progressing slowly. France—Weather improved. Crop prospects now generally good. Germany—Some rain has fallen since our last report. More is urgently needed. Russia—An unofficial report states that outlook in southwest, southeast and center mostly favorable. (This embraces much of the important Wheat growing territory). Spain—Severe storms have damaged crops. North Africa—Prospects most favorable. Argentine—Some rains have fallen and more probable. Light frosts have occurred." Argentine shipments this week were 1,792,000 bu, and since January 1 65,536,000 bu, against 45,602,000 bu in 1903. Visible there was reported 3,314,000 bu, compared with 3,680,000 bu the previous week and 4,344,000 bu in 1903. Primary receipts were fair this week, and the total since July 1 to June 20 aggregates 217,857,000 bu, against 216,782,000 bu in 1902-03, and 231,957,000 bu in 1901-02. Exports this week were 1,271,000 bu, and since July 1 foot up 132,533,000 bu, as compared with 221,895,000 bu in 1902-03. Buying old July was the closing feature of the week, "shorts" covering, fearing congestion, the price selling to 87c. September sold up in sympathy, touching 82c. Rains Thursday night and Friday in the Winter Wheat belt were the "bull" factors. The following table exhibits the exports of Breadstuffs from the following countries from July 1, 1903, to June 18, 1904, compared with the corresponding period in 1902-3:

Countries—	1903-4, bu.	1902-3, bu.
America	148,673,000	238,399,000
Russia	137,202,000	126,456,000

India	52,400,000	21,340,000
Argentina	80,344,000	46,344,000
Australasia	25,888,000	.....
Austria-Hungary	5,270,000	2,772,000
Chili, North Africa	10,956,000	15,724,000
Totals	517,404,000	507,459,000

CORN—The Corn market attracted considerable attention at times this week, fluctuations being frequent though confined within rather narrow limits. Sentiment was very much mixed and the attitude of the "long" interest in July was watched closely. The close showed September ⅛c lower and December unchanged. July was nervous and erratic all the week ranging at 47⅛@49⅝c, and closed at 48⅜c bid or same as last Friday. A prominent Stock operator has been credited at different times with being the principal in the deal and there were rumors current that he proposed to take in all the Corn offered on July delivery and pay for it. This would mean a squeeze for the July "shorts," who did not have the Corn to deliver, and recollections of the campaign of 1902, which put the July price to 90c, gave the "shorts" great uneasiness and many covered on the break to 47⅛c, causing the recovery to 49⅝c. Buying July and selling September was a conspicuous feature the first of the week, the spread ranging from ⅞c discount to ⅜c premium. Weather conditions most of the week were considered ideal, receipts were fair and were the principal "bear" influences. Wheat was weak early and had a depressing effect on values. Liquidation was much in evidence and before the break was checked July touched 47⅛c, September 48c and December 43⅝c. The meagre demand for the cash article notwithstanding the low lake rate was another weakening factor. There was no prospect of business and many representatives of seaboard and exporting houses were requested to send no more messages on Corn offers until further instructions. The situation was about as dull as it possibly could be, and many shippers claimed Corn could not be shipped at a profit even at a rate of ⅝c to Buffalo. No such starvation price was quoted, but boats were offered at ⅞c to Buffalo and were going begging at that, while several vessels started to Buffalo light rather than make so low a rate. At the decline "shorts" purchased with considerable freedom and situation for a while became fairly firm. September rallied to 49c, and December to 44⅝c, while May touched 43½@43⅝c. The Government weekly crop bulletin stated that the Corn crop as a whole had not made rapid growth in the principal States, and was generally reported small, although healthy and well cultivated, except in portions of Nebraska and Kansas, where it is weedy. Good growth was reported in Oklahoma and Kansas, and the crop continues to do well in the Southern States, although needs rain. Statistics were generally construed as moderately "bearish." Visible supply increased 465,000 bu, against 529,000 bu increase same week in 1903. Total is now 5,123,000 bu, against 5,410,000 bu in 1903 and 5,189,000 bu in 1902. Local public stocks increased 65,000 bu, to 1,841,000 bu, compared with 998,000 bu same date last year. Contract stocks increased 70,103 bu last week and are now 1,670,439 bu, against 854,598 bu one year ago. Stocks here in all positions 6,440,000 bu, an increase of 100,000 bu; stock a year ago 4,424,000 bu. The amount on ocean passage was enlarged 1,7..,000 bu and is now 13,635,000 bu, against 15,121,000 bu same date in 1903. World's shipments were 4,19.,000 bu, against 3,996,000 bu the previous week and 4,406,000 bu corresponding week a year ago. *Bradstreet's* available supply increased 438,000 bu, compared with 1,620,000 bu increase the corresponding week in 1903. Exports for the week were only 387,000 bu and total for the season 60,906,000 bu, against 65,609,000 bu for the same period in 1903. The following table exhibits the exports of Corn from the following countries from November 1, 1903, to June 4, 1904, compared with the corresponding time in 1902-3:

Countries—	1903-4, bushels.	1902-3, bushels.
America	36,610,000	59,472,000
Russia	9,963,000	5,776,000
Danube and neighborhood	21,944,000	16,912,000
Argentina	29,272,000	18,393,000
Other Countries	392,000	1,912,000
Total	92,216,000	98,464,000

Argentina shipped 2,523,000 bu this week, making a total of 23,467,000 bu since Jan. 1, against 18,341,000 bu same period in 1903. The visible there is now reported 3,344,000 bu, as against 3,680,000 bu one week ago and 2,688,000 bu one year ago. The movement to primary points was fair this week, but not as large as a week ago. Local arrivals were 2,210 cars, against 2,486 cars last week and 3,720 cars for the corresponding week in 1903. Acceptances from the interior were moderate, though from certain sections, notably Iowa, there was some increase in the offerings as well as consignments. Bookings at the seaboard continue small and insignificant and foreign markets were dull and indifferent to the trend of values on this side. Foreign crop news was not of the best. The outlook in Roumania is poor owing to the drouth. Rain is also wanted in Italy and other sections of Southern Europe. The demand for car lots was only fair most of the week. Prices were somewhat irregular as will be noted in the table on the following page.

OATS—The market for Oats for the past week was moderately active and prices moved within a fair range. There was moderate buying on the declines induced by the Government weather crop bulletin, stating that prospects were less favorable in Missouri, Illinois and Michigan, owing to lack of moisture and warmth. On the whole, however, crop conditions are favorable. Kansas City had its first car of new Texas No. 2 Oats on Wednesday. July holders liquidated freely in the early trading, and "shorts," in covering later, forced a reaction from the decline. The market was, however, at no time in a condition to stand very much buying or selling without a sharp movement in prices. July sold between 37⅞@39½c, and closed at 38⅜@38½c, a net loss of ⅜c. September sold at 31½@32¼c, and closed at 31¾c, a net loss of ⅛c. December closed at 31⅝c, a gain of ⅜c. The country is doing little selling of the distant future against the forthcoming crop. Offerings of cash lots from the interior continue light. Cash business with the East was fair and about enough to absorb the greater part of the receipts. A good percentage of the arrivals were common, light weight lots, and prices covered a good range. Receipts for the week were 585 cars, against 757 cars the previous week, and 1,343 cars last year. Export clearances were 95,570 bu, against 117,000 bu the previous week, and 175,500 bu last year. Local stocks in public houses decreased 87,000 bu, and were 652,000 bu, against 399,000 bu last year. Of Standard they were 563,000 bu, a decrease of 70,000 bu, as compared with stocks of 359,000 bu last year. Stocks in all positions decreased 83,000 bu and are 1,3.5,000 bu. The visible supply decreased 410,000 bu, and was 4,937,000 bu, against 4,177,000 bu last year.

RYE—No important changes occurred in the market during the past week. It was next to impossible to get operators interested in the market, and trading has been on a very limited scale. As far as the speculative feature of the market was concerned, interest was lacking and there was no shipping business, prices evidently being above export basis. What little cash business was transacted was confined to the few cars of fresh

arrivals which were taken by local millers and for manufacturing purposes, and possibly a few cars taken by carriers to go to store. No Rye has been exported for some time, and the stock in store exceeded the quantity in elevators a year ago. There is just about enough Rye coming to supply requirements and stocks in store are not being drawn upon. The receipts for the week aggregated 23 cars, against 27 cars the previous week. There were no withdrawals from public elevators and only 5 cars were taken from private warehouses. Export clearances from the seaboard none. Visible supply decreased 81,000 bu and was reported at 879,000 bu, against 960 000 bu the previous week and 762,000 bu one year ago. The local stock in store was 452,000 bu and a year ago was ..,000 bu. No. 2 in store was entirely nominal at ..c and fresh arrivals sold free on board at 63c No. 3 fresh receipts sold free on board at 52@61c and No. 4 at 50@54½c. For future deliveries of No. 2 Rye the market has been quiet. June nominally 65c July was offered at 57½c early in the week and later sold at 61c, then was nominally ..c with sale of 1,000 bu lot at 58c, and closed at about 60c. September was nominally 55c early, and later 53c asked and 52c bid.

BARLEY—Dullness prevailed in this market. All grades were easy, low grades quite depressed. Demand was light. The very few buyers present, either for malting or mixing Barley, had the market about their own way. Offerings were small, and there was so little demand that if buyers could not purchase at what they thought fair value then there was no sale. Low grade Barley and poor Screenings dragged very slowly. Choice, clean Screenings were more easily sold than poor Barley; few such cars on sale. Demand for malting account is at a minimum. There was a fair quantity of mixing Barley on sale; some of it represented held lots. Prices for Barley were a little uncertain. If some buyer happened to want just such a car as might be offered, it might bring a former price, otherwise it might have to be shaded. In old crop Barley little of interest remains. Receipts during the week 71 cars, compared with 111 cars a week and 76 cars two weeks ago. No output was reported; the week before there was none, but two weeks ago 18,100 bu were taken out. No seaboard clearances reported. Visible supply decreased 327,000 bu, but there remained 1,291,000 bu, against 574,000 bu the same time last year. There was no material change in local stock; last report gave 72,315 bu, compared with none a year ago. Low grade to good Screenings had a quotable range of 28@38c; choice, recleaned possibly 40c. Barley, low grade feed or mixing, quotable at 33@40c, outside for good weight, and very poor, musty nominally lower. Malting, low grade, 38@41c; fair to good, sound, 42@47c; good color, 48@54c, and fancy above. Crop news has as yet come to hand sparingly. In nearly all sections, from what can be learned, the acreage does not vary much from last year. In north half of Iowa and southern half of Minnesota the stand is said to be rather thin; the crop was delayed by cold and wet weather. Wisconsin, Northern Minnesota and Dakota sections are said to be doing fine.

SEEDS—There was little done, and there were no changes of any note hence there is little to be said of the market that is of interest. Of all Seeds the arrivals and cash offerings have been on a very diminutive scale. Timothy Clover and Flax were salable, but on the rest—Hungarian and Millets—buyers would perhaps have hesitated for their season is practically over and at present prices buyers would hardly care to purchase with a prospect of holding.

Timothy—Was very dull and quiet. Contract prime changed just enough to show the tendency, declining from $2 95 to $2 92½; a little was sold. Of cash old Seed little came on sale. The market also was without special demand. Occasional lots came in and were sold, but prices could not always be learned. There was very little Seed shipped, much less than received. There has been no unfavorable crop news. Nothing was done in new crop Seed. Sellers for September delivery appeared at $3 20@3 25, and bids of $3 10@3 12½ were made. On the regular market country lots quotable at $2 00@2 85 for low grade to fancy, choice about $2 70@2 75, fair to good Seed $2 50@2 60 and rough at $2 35@2 45. Contract spot of July delivery closed nominally about $2 92½.

Flax—During the week a cargo of nearly 200,000 bu was received here, but the receipts by rail remained small, being 8 cars, compared with 13 cars the previous week and 1 2-5 cars two weeks ago. A cargo coming to market was the main feature of the week. This did not increase the offerings, in fact, none of this Flax came on the market; it went to local mills evidently. Order business must have been small, since the output was only 7,995 bu, the week before it was 3,623 bu, two weeks ago none. Flax going out is being taken from private stocks. It would appear so from the fact that local regular stock showed no change in the last report; it was given as 24,201 bu; a year ago it was 73,397 bu. Northwestern stocks again decreased fairly, they showing 546,000 bu reduction. For all that however, they remain liberal, for Duluth reported 7,600,000 bu and Minneapolis 271,918 bu. In the market nothing the least way important developed. It was for the most part neglected. Now and then the sale of a car load and a trade or so in July delivery was the extent of the business done. The market attracted no especial attention. There seemed to be no interest in old Seed particularly, and new crop Flax has not got to be considered yet. The offerings and demand both being exceedingly small, there was nothing to influence any important change in prices. Old crop Flax did recede 1c early, but later this decline was recovered. September was offered 1c lower, but nothing was done, and in fact no bids were heard. No. 1 cash was nominal during the week at $1 01 to $1 00, back to $1 01. No. 1 Northwestern opened at $1 07½ and was afterward quoted at $1 07. For Rejected there was a range of 95c@1 01 depending on quality, outside Seed from the Northwest. July declined from $1 01 to $1 00, with finally some orders to buy putting the price back to $1 01 and a sale made. September was offered from $1 06 to $1 05, with nothing doing.

Other Seeds—Were neglected. No spot offerings of the different kinds appeared on sale, and yet receipts and shipments were daily reported. There probably was some order business daily, but it was small and dealers all gave a dull report of the market. When there were any lots of the different kinds offered to arrive, it was difficult to even get bids for them. It looks as if the late-sowing demand was close to the end, and prices generally are regarded as too high for buying Seeds to lay away. There was simply an inactive and nominally weak market, with prices as given in the table elsewhere shown. The movement for the week with comparisons, was as follows:

Receipts the past week, lbs	202,165
The previous week	242,470
Two weeks ago	262,300
Same time last year	216,650
Shipments the past week, lbs	124,150
The previous week	204,645
Two weeks ago	367,385
Corresponding week last year	90,995

Clover—Another week has gone by and the market has presented nothing in way of news or change. The market has remained bare of offerings. No business was possible on this account. The market was likewise devoid of demand. It is the season between crops. In old Seed no business was possibly, and as yet the new crop has received no consideration. A small movement was reported; it was larger than a year ago, however. Values were nominal and unchanged. Contract Seed was quoted at $10 75 and country lots, common to choice, at $7 00@10 00; fancy above; mixed with Buckhorn or other weed Seeds, $6 00@8 10; poor, cleaned out of Timothy, foul, down to $3 00@6 00. Fair good at $8 50@9 50. Movement for the week, with comparisons, was as follows:

Receipts—The past week, lbs	52,000
A week ago	86,100
Two weeks ago	55,550
Same time last year	......
Shipments—The past week, lbs	34,870
A week ago	79,630
Two weeks ago	73 845
Same time last year	4,670

HAY—The receipts for the week were 4,404 tons, against 5,976 tons for the previous week. Shipments for the week were 215 tons, against 260 tons for the previous week. Early in the week the market for Timothy Hay ruled firm, and prices for choice grades advanced 50c per ton. The inquiry was good and offerings light. Later, the receipts became larger, and the demand was not so good. The market closed with the early advance lost. Prairie Hay was firm early in the week, with a fair demand and only moderate offerings. Toward the close, the arrivals were more liberal and the demand was less urgent. The feeling was easier, but prices not particularly lower. Quotations at the close ranged as follows: Choice Timothy, $13 50@14 00; No 1 Timothy, $12 00@13 00; No. 2 Timothy, $10 50@11 50; No. 3 Timothy, $8 50@10 00. Choice Prairie, $11 00@12 00; No. 1 Prairie, $9 50@10 50; No. 2 Prairie, $8 50@9 00; No. 3 Prairie, $8 00@8 50; No. 4 Prairie, $7 00@7 50. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $4 00@14 50 for poor to choice Timothy, $8 00 for Threshed Timothy, $7 00 for Clover Mixed, $7 25@8 00 for State, and $10 00@11 50 for Iowa and Kansas Prairie Hay. Rye Straw sold at $11 00, and Oat Straw at $5 00@7 25 for poor to good.

COOPERAGE—Little interest was manifested in the market for Cooperage during the past week, and the feeling was comparatively easy. Offerings were fair in a quiet way, and the demand was on a limited scale. Local packers were slow to purchase, and outside orders were small. Ash Pork Barrels were in moderate request, and prices ruled steady at 97½c@$1 00. Oak Pork Barrels were in light demand and quotably easy at $1 02½@1 05. Lard Tierces were called for moderately, and offerings were fair. Feeling dull and prices lower at $1 25@1 27½. Iron bound Lard Tierces were in limited demand and quotably easy at $1 15@1 17½ for six hoop and $1 17½@1 20 for eight hoop.

HOGS—The receipts of Hogs during the past week were only fair—considerably less than anticipated. Quality was quite good. Market was rather active on packing account, and shippers provided for fair orders from the Eastern markets. Feeling was rather firm early in the week, and prices were advanced 15@22½c. Toward the close, the feeling was not so strong, and prices receded 5@7½c, but rallied gradually 10@15c to outside figures, and the market closed rather steady. Sales during the week were made at $4 80@5 40 for light, $4 85@5 30 for rough packing, $4 85@5 42½ for mixed, and $5 05@5 45 for heavy packing and shipping lots, with the bulk of the trading within the range of $5 00@5 40 for fair to good averages. At the close about 3,000 Hogs remained in the pens unsold. Pigs were in fair supply and in rather good demand, and sales were made at $4 35@5 15 according to quality. Receipts of Hogs at the other large Western packing points were fairly liberal, and the quality rather good.

PACKING—Only a fair business was transacted at the packing houses during the week just closed. Receipts of Hogs were only fair, and prices averaged higher. Packers bought moderately, and the manufacture of Products was fair, but adjusted as closely as possible to descriptions must in request. Mess Pork neglected Other cuts of Pork made in limited quantities. Lard produced rather freely, and the average yield was quite good. A very small proportion placed in tanks. Domestic cuts Hams made rather freely, and a larger proportion delivered from the block. Skinned Hams cut in fair quantities, and the bulk packed by manufacturers. Foreign cuts of Hams neglected. Shoulders made moderately, and fair proportion delivered from the block to the retail trade. Picnic Hams met with more favor, and the production was fair. A moderate proportion delivered from the block. Long Clear Sides and Extra Long Clear Sides were neglected. Short Clear Sides made in limited quantities. Extra Short Clear Sides cut moderately. Short Rib Sides met with more favor, owing the advance in the speculative market, and the production not larger. Extra Short Rib Sides were cut in moderate quantities. Rough Sides made in fair quantities, and chiefly of light and medium averages. Backs and Bellies cut in moderate quantities. Plates made sparingly. Butts cut in fair quantities. Foreign fancy and special cuts of Meats made sparingly.

PROVISIONS—The market for Hog Products attracted considerable attention during the past week, and the volume of business was moderately large. Outside orders were fair and local trading was rather active. "Shorts" bought fair quantities, and packers were credited with favoring the buying side of the market. Quite a good business was transacted in the way of transferring contracts from July to September at the current differences. In a general way, offerings were not very free, while a good miscellaneous demand prevailed. The undertone to the market was rather firm, though fluctuations in in prices were frequent. During the early part of the week, the offerings were not sufficient to meet the general demand, and a strong feeling was developed. Prices were advanced on all the leading articles. At the improvement, there was some disposition to realize, especially by holders of moderate quantities, and the market exhibited a weaker feeling, and prices receded considerably all around. Toward the close, rather more steadiness was manifested, and prices rallied sharply again and prices were fairly well supported to the close. A little more business was transacted in October contracts. The receipts of Hogs were not very large, and prices averaged higher. Good supply at far Western points. Returns of the packing of the West for the week, compared with the corresponding week in 1903, exhibited a decrease of 50,000 Hogs. Foreign markets were rather steady early in the week, and in a few instances slight advances were gained. Toward the close, the feeling was quiet and prices were quoted lower on some descriptions. Domestic markets were rather more active, more especially in the manufacturing districts. The receipts of Products were quite liberal, particularly of Lard and Meats, as holders desire to deliver on maturing contracts. Shipments were fair, and widely distributed. Exports were fairly large, though generally regarded as consignments by manufacturers. In the shipping branch of the trade

there was rather a good business transacted but details were not fully reported. Exporters were not inclined to do much business, but merchants in the domestic trade, especially in the manufacturing districts, were inclined to enlarge their supplies to some extent. Supplies of all kinds are quite large for the season of the year, but holders are not pressing much property on sale. Prices of all the principal articles ruled higher, and holders were firm in their views at the close.

Pork—A fairly good trade was reported in the market for Mess Pork, and the feeling was rather firm in a general way. Trading was mainly on local account. Offerings were not very large, while the demand was fairly active. Stocks on hand quite large for the season of the year. Transfers of contracts from July to September were made at 25@30c difference. Early in the week, the feeling was rather firm, with only fair offerings, and prices were irregularly advanced 55@57½c. At the improvement, there was some inclination to realize, while the demand was moderate, and a weak feeling was developed. Prices gradually receded 35@30c on the whole range. Toward the close, the feeling was stronger again, with fair miscellaneous buying, and prices were advanced 25@30c, and the market closed rather steady. The demand on shipping account was rather light and offerings were moderate. Cash lots at the close were quotable at $13 15@13 10. Other cuts of Pork were in moderate request, with no particular pressure to sell. Holders rather firm in their views, and prices quotably 25@50c higher.

Lard—There was a fairly good trade reported in the Lard market during the week just closed, and the undertone to the market was stronger in a general way. Offerings were fair, and the demand from all sources was moderately active. Foreign advices were more favorable to holders early in the week, and prices ruled higher, but an easier feeling and a slight reduction in prices prevailed toward the close. Stocks on hand are steadily enlarging, and the production is fair. Interior packers disposed to sell the near deliveries. Early in the week there was quite a good demand in the speculative market, and offerings were not very free. A firm feeling prevailed and prices were advanced 27½@30c. At the appreciation there was rather more property for sale, while the demand was moderate, and prices receded 10@12½c. Toward the close the feeling was steadier, and prices rallied 17½@20c, and the market closed steady. Transfers of contracts from July to September were made at 17½@20c difference. A few trades were made for October delivery. The inquiry on shipping account was limited, and the offerings were moderate. A few trades were made at about 2½@5c discount on July figures—closing at $7 02½@7 05. Refined Lard was in moderate demand, and a few sales were made at prices not made public. Loose lots were in only fair request, and the offerings were moderate. Quotable at 50c discount on the July figures. Leaf Lard was in rather good demand and a few trades were made at $6 00@6 25, and closed steady at $6 25. Neutral was in only limited request, and offerings were fair. Market was rather quiet and prices quotably higher at $7 12½@7 25 for No. 1, and $6 87½@7 00 for No 2.

Short Rib Sides—Considerable interest was manifested in the market for Short Rib Sides during the past week, and the volume of business was quite large. Outside orders were moderate, and local trading was rather active. Stock on hand is gradually increasing, as the manufacture is fair, and the receipts from interior points are fairly large. Deliveries on July contracts will probably be quite large, as outside packers have taken advantage of the recent advance in prices. Trading chiefly in July and September contracts, though October is gradually gaining in favor. Transfers of contracts from July to September were made at 17½@20c difference. Early in the week, the feeling was rather firm, with fair miscellaneous buying, and prices irregularly advanced 32½@35c on the whole range. At the advance there was some inclination to realize, while the demand slackened, and a weaker feeling was manifested. Prices receded 12½@15c. Toward the close, a little more steadiness was developed and prices rallied 20@22½c on the whole range, and the market closed rather steady. The demand on shipping account was limited, and the offerings were moderate. Sales were light. At the close, cash lots were quotable at $7 37½@7 62½ according to weight.

Green Meats—Rather more business was transacted in the market for Green Meats during the past week, and the feeling was stronger. Offerings were fair, both on local and outside account. Local curers accepted fair quantities, and outside orders were somewhat larger. Hams were in rather good demand, with fair offerings, and prices were advanced ⅛@¼c. Skinned Hams were in fair request, and prices were advanced ¼@⅜c. Shoulders were in light demand and the offerings small. Prices were advanced ¼@½c. Picnic Hams were in rather good request, and sales were larger. Prices ruled ⅛@¼c higher. Bellies were in light demand and offerings were small. Prices inclined in favor of sellers.

Pickled Meats—Considerable interest was manifested in the market for Pickled Meats during the past week. Offerings were moderately free and the demand was rather active. Exporters were not inclined to purchase to any extent, and the advices from abroad were less favorable to holders. Orders from the domestic trade were fairly liberal. Holders rather firm in their views. Supplies of all kinds are fairly large. Hams were in good request, and fair sales were made at ⅛@¼c advance. Skinned Hams were in active demand for car lots, and offerings were fair. Prices ruled ¼@⅜c higher and closed firm. Shoulders were in light demand, with small offerings, and prices were quotable at ¼@½c advance. Picnic Hams were in rather good request, with rather light offerings, and prices were advanced ⅛@¼c. Bellies were in moderate demand, and prices ruled in favor of sellers.

Dry Salted Meats—Only a moderate business was transacted in Dry Salted Meats during the past week, and the feeling was stronger. Offerings were fair, and firmly held, but buyers were backward, and generally unwilling to follow the advance in prices. Supplies of all kinds are gradually increasing. Foreign markets were quiet and rather firm, and the orders from that quarter were somewhat limited. Domestic markets were comparatively steady. Interior packers are delivering fair quantities. Foreign cuts of Hams were quiet, and prices inclined in favor of sellers. Shoulders were in moderate supply, and prices ruled higher. Long Clear Sides and Extra Long Clear Sides were inactive, and prices were nominally higher. Short Clear Sides were neglected, and prices were nominally a trifle higher. Extra Short Clear Sides were in moderate request, and prices were quotably about ¼c higher—closed at 7¼@7⅜c. Extra Short Rib Sides were in limited request, but steadily held. Prices quotably about

¼c higher—closed at 7¼@7⅜c Rough Sides were in only moderate request, with fair offerings, and prides favored sellers—closed at 7¼@7⅜c. Plates were in moderate request, and prices ruled slightly higher. Butts in rather light demand, and prices well maintained. Backs were in fair request, and prices were slightly higher. Bellies met with a little more favor, and prices ruled slightly higher Foreign fancy and special cuts of Meats were quiet and firm.

Smoked Meats—Trade was fair in the market for Smoked Meats during the past week, and the feeling was stronger in a general way. Jobbing trading trade was quite good, owing to the warmer weather, while the car lot demand was only fair. Offerings were moderately free. Supplies of all kinds were fairly liberal Prices inclined in favor of holders Hams were in fair request, and prices ruled about ¼c higher. Skinned Hams were called for moderately, and prices were advanced ¼c Shoulders were in moderate request in a small way, and prices were well maintained Picnic Hams were in rather good demand, and prices favored sellers. Sides of all kinds were in only fair request and prices were slightly higher. Breakfast Bacon in rather good demand in a jobbing way, and prices well maintained.

Beef Products Trade only fair in the market for Beef Products during the past week, and the market in a general way was rather steady. Offerings were fair, and the demand was moderate, and generally for conservative orders. Cattle were in rather good supply, and prices were fairly well maintained on the better grades, while the common and medium lots ruled easier. Manufacture of Products fair. Shipments of Dressed Beef continue large Beef Hams were in moderate request and prices ruled steady. Extra Mess Beef in only fair demand and prices favored sellers. Plate Beef called for moderately and prices were about 25c higher Extra Plate Beef in fair request and prices favored sellers. Tallow was in moderate supply and in fair request, and prices were advanced ⅛c, especially on the better grades. Oleo-Stearine was called for moderately and prices favored sellers closed at 6⅜@6½c.

Greases—Trade was moderate in the market for Greases during the past week, and the feeling was stronger. Offerings were not very large, and firmly held Demand was fair. Prices ruled about ⅛c higher on the better grades.

THE WEATHER CONDITIONS.

Wet weather prevails throughout the Western country, except Texas and parts of Northern Minnesota and North Dakota. Heavy rains in Kansas—1.52 at Concordia, .58 and raining at Dodge, 2.06 at Kansas City. Milwaukee rain was 2.66 inches.

Indications are for showers and thunderstorms in the Western Lake region and Central Valleys, followed by cooler and clearing. Decidedly cooler Sunday.

EASTERN WHEAT CROPS.

[From the Northwestern Miller.]

A letter received here from Baltimore said that new Wheat was being cut in the lower counties of Maryland, and with favorable weather new Wheat, prompt shipment, would be offered the latter part of June, which would bring it in Baltimore the early part of July, and, if necessary, it might be sent to New York. The reports from New Jersey and Pennsylvania have been quite favorable. There has been improvement in condition in both States. Some of the Grain fields in Pennsylvania in particular, and in Virginia promise now a much better crop than was thought possible early in the season. New York State reports are of improvement in conditions, but the crop was badly winter killed and the results will be very disappointing at best.

ITEMS OF GENERAL INTEREST.

The Procter & Gamble Company has declared the regular quarterly dividend of 2 per cent on its preferred stock, payable July 15 to stockholders of record June 30.

Zimmerman & Forshay, bankers, Chicago, announce that they are prepared to pay the German Treasury 4 per cent bonds maturing July 1 at 100 and accrued interest without charge for collection.

An Altoona, Pa., dispatch says: "The Pennsylvania Railroad Company reduced 5,000 employes in its shops here to a two days a week working basis Tuesday. It is reported that 10,000 men will be idle all of next week."

Call money loaned at one-half of 1 per cent on the New York Stock Exchange, Thursday, the lowest level reached in years, if not in history. Most of the business in call funds on the Exchange was done at 1½ per cent.

Reports from ten counties in Western Iowa show Corn to be in good condition and well cleaned The only thing against it is that it is rather small for the season. Reports on Oats from all over the State are fine.

The report of the Kansas City national banks as of June 9 shows $5,277,000 loans and discounts, an increase of $145,839 over the amount June 9, 1903; individual deposits, $2,234,000, an increase of $230,000; reserve held, 28.9 per cent, an increase of 3.1 per cent.

Wabash Railroad directors, Thursday, not only decided to declare no interest on the debenture B bonds, but passed the interest on the A's for the first time since 1893. The Illinois, Indiana and Iowa directors also decided to defer a dividend declaration.

A year ago at this time best light Hogs sold in Chicago 15c above the best heavy-weights. At present heavy-weights are selling only about 5c above light-weights, with most dealers in the trade expecting Bacon grades to command a premium in the near future.

Judge Barker of the Supreme Judicial Court, Thursday, ordered the Marblehead (Mass.) Savings Bank to close its doors. The petition was made by the savings bank commissioners. The institution was established in 1871. Its deposits are estimated at $557,000.

The Distilling Company of America, the Kentucky Distilling and Warehouse Company and the Standard Distilling and Distributing Company have declared regular quarterly dividends of 1 per cent each on their stocks, payable July 15. Books close July 2 and reopen July 16.

A Minneapolis dispatch, Thursday, said: "The Northwestern crop news is very encouraging, and present prospects are for a large yield of Wheat. In fact, the conditions are so favorable that any change will have to be for the worse. The crop has all its grief to go through yet."

The American Woolen Company has declared the regular quarterly dividend of 1¾ per cent on its preferred stock, payable July 15. Books close July 1, and reopen July 16. This makes $7,350,000 disbursed by the company to its preferred shareholders since its organization, in 1899, or $36 75 per share.

The National Association of Grain Inspectors, an auxiliary of the Grain Dealers' National Association, met in Milwaukee, Thursday, and adopted resolutions in favor of uniform grading of Grain in all markets in the United States; opposing Government inspection of Grain, and favoring inspection in terminal markets under supervision of Boards of Trade.

There is nothing in the present position of the Metropolitan Elevated Railroad, Chicago, according to one of the best informed interests in that property, that indicates a resumption of dividends on the preferred stock this year or before two full years have elapsed since the passing of the payment. That was in February, 1903.

At the meeting of the stockholders of the Universal Tobacco Company held in Jersey City, Wednesday, to vote on the dissolution of the company, 67,393 shares were voted. Of these 50,060 shares of common and 17,333 shares of preferred were cast in favor of the resolution to dissolve the company. The dissolution plan of the board of directors was unanimously approved.

The Chicago Board of Trade Transportation Committee has decided to be present at a meeting of merchants and manufacturers and all the local trade associations at the Auditorium Annex next Tuesday. The meeting is called to take action against the adoption of the uniform bill of lading and the uniform classification which the railroads are trying to adopt. All shippers are especially opposed to the adoption of the uniform bill of lading.

Eastern railroad men stated, Friday, that the "at and East" rates on Grain at Buffalo will have to be reduced before export Grain can be diverted to that route. The rate on Corn from Buffalo to New York and other Atlantic ports is 3¾c, and it is the same from Chicago to Montreal by water. The officials hold that the rail rates east of Buffalo will have to be reduced at least 1c, which will allow the equivalent for lake carrying from Chicago to Buffalo.

The announcement has been made unofficially that the Mexican Central Railway Company has on deposit with the Boston Safe Deposit and Trust Company the funds with which to pay the July coupons on its 4 per cent consolidated mortgage bonds. These funds were obtained through a sale of a block of the railway company's priority 5 per cent bonds, withdrawn from the subsidy fund, of which the Boston Safe Deposit and Trust Company is the trustee.

The costs incurred in the United States Circuit Court in the case of the State of Minnesota vs. The Northern Securities Company, amounting to $5,418, must be paid by the Northern Securities Company. This is the decision of Judge W. H. Sanborn of the United States Circuit Court handed down, Wednesday, after a somewhat lengthy argument in the matter. The clerk of the court assessed the costs against the Northern Securities Company. The company objected, and the matter was passed up to the court.

A prominent banker at Wichita, Kan., writes as follows: "Throughout Southern Central and Central Kansas and the northern counties of Oklahoma, Wheat is in very fine condition, except a few localities on low or flat lands drowned out, the area of which, however, is insignificant in proportion to the total acreage. With reasonably good harvest weather from now on, a tiptop yield of good quality will be cut from this area. In the southeastern portion of Kansas the Wheat is badly injured by excessive rains, and will probably not yield a half average crop on acreage planted. In Southern and Southwestern Oklahoma and in Western Kansas, the yield will be light and mostly of poor grade, running from a short half crop to nothing, perhaps averaging a fourth average crop on the acreage cut."

Many corporations and millions of dollars of capital stock in Illinois were affected by a decision rendered, Thursday, at Springfield by the Illinois Supreme Court, which upheld the constitutionality of the act exempting from assessment by the State Board of Equalization the capital stock of corporations organized for purely manufacturing purposes, newspaper publishing, stock breeding and the mining and sale of coal. This act, which has been repeatedly attacked, was sustained in the case of the Hub against the Cook County Treasurer, in which the complainant sought to be relieved from paying a $40,000 assessment on its intangible property. It was contended by the complainant that the act was discriminating, in that it exempted the class of corporations mentioned. In passing on this point the Supreme Court held that the legislature has full power, under the constitution, to provide for the taxation of the intangible property of some corporations even while exempting that of others.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market continues dull and sales small. Prices unchanged.

WINTER WHEAT—The market remains quiet and steady. A little milling and shipping demand, but none for round lots. No. 2 Red in store nominally 98@99c, and fresh arrivals free on board quotably $1 00@1 02. No. 3 Red fresh receipts free on board quotable at 95c@$1 00, with a sale at 99c. No Grade Red sold at 90c. No. 2 Hard fresh receipts free on board quotably 88@95c. part car sold at 93c. No. 3 Hard fresh receipts free on board quotably 83@90c. Part car of No. 4 Hard sold at 80c.

SPRING WHEAT—Very little doing and market quiet and steady. Receipts continue very light. No. 1 Northern in store quotably 96@10c over old July, and ranged at 96@97⅝c, and fresh arrivals free on board quotably 97@99c. No. 2 Northern fresh arrivals quotably 93@97c. No. 3 Spring fresh receipts free on board quotably 85@95c. No. 4 Spring quotably 65@90c for poor to fancy, with sale of a car at the top figure.

REGULAR WHEAT—Just a fair trade, with the feeling rather unsettled, the close, however, showing July off ⅛c and September ½c lower. The trade is gradually centering more into new September, transactions in July being more in the way of closing up old contracts. Early sentiment was "bearish" influenced to some extent by favorable Minneapolis advices and disappointing cables, but the strength displayed in the Southwest soon brought about a change in the tone and the market firmed up, but weakened again toward the close. The excessive rains in the Southwest were among the principal helps. The map showed wet weather throughout the Southwest. Rains extended from Southern Illinois and Missouri southwest through Kansas, Oklahoma and Texas. Cairo, Ill., had 1.56 inches, Oklahoma City .96, Springfield, Mo., 1.76, Wichita .90. Fair weather was predicted for the Dakotas and showery conditions in the Central Valleys. Boonville, Mo., wired: "In this whole central section farmers report great disappointment in Wheat, only 10 bu where 20 bu was expected." Columbus, Kan., wired: "Wheat ripe, but ground soaked and cannot harvest." Kansas City wired: "Heavy rains, weather unfavorable; some damage to quality." Liverpool quoted spot unchanged and futures steady to ⅛d higher. Stocks there, 3,240,000 bu, decreased 96,000 bu. Stock a year ago, 2,048,000 bu. London unchanged to ½d higher. Paris spot 1½c higher and futures off ⅜c. Berlin ⅜c lower and Buda Pesth ¼c higher. London quoted cargoes on ocean passage firm and held 3d higher. Cargoes off coast 1½d higher. *Mark Lane* quoted foreign Wheat 3@6d higher. Four cargoes off coast, against seven on Saturday. Liverpool was affected to some extent by the large Russian shipments. Quantity on ocean passage decreased 1,792,000 bu and is now 49,168,000 bu, against 32,640,000 bu same time last year. World's shipments, 9,296,000 bu; previous week, 9,336,000 bu; year ago, 10,440,000 bu. The visible supply decreased 1,691,000 bu, against 1,001,000 bu decrease same week in 1903. Total is now 14,652,000 bu, against 17,459,000 bu in 1903 and 19,760,000 bu in 1902. Local public stocks decreased 20,000 bu to 1,374,000 bu compared with 2,866,000 bu same date one year ago. Condition of crop in Germany June 15 was reported 82 per cent, against 84 in May and 74 in June, 1903. Receipts in the Northwest were 26 cars under last year and primary movement 100,000 bu smaller. Kansas City wired that 10 cars of new Wheat were offered for sale there to-day. Quality fine, testing 60 to 61 lbs. New York wired foreigners had sold September in that market this morning. Minneapolis reported stocks decreased 150,000 bu past two days. The English visible increased 108,000 bu. Exports moderate and 13 boat loads accepted at the seaboard. San Francisco wired that foreign bids were 6d per bu under the market. Spot new No. 2 Red was reported selling at 91@93c at Kansas City and to arrive about 83c." Receipts at Duluth 15 cars and at Minneapolis 278 cars, a total of 293 cars, against 271 cars Saturday, 334 cars a week ago, and 319 cars last year. Local receipts included 4 cars Winter, no cars Spring, 2 cars mixed, a total of 6 cars, against 24 cars last year. Included in the above was no cars contract grade. There were 1 car and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 24 cars. Withdrawals to-day were 15,000 bu. Receipts at Western points were 349,118 bu, against 495,073 bu last year. At Eastern points 53,506 bu, against 125,247 bu last year. Shipments from Western points were 148,013 bu, against 153,125 bu last year, and from Eastern points 13,551 against 114,135 bu last year. Shipments of Flour were 9,188 brls. Exports of Wheat in Flour were equal to 51,927 bu.

Future Deliveries of Regular Wheat—Fair trade and closing a shade lower.

MAY—Sold at 83@83⅜c. Opened at 83¼c and closed at 83⅛c

CORN—Only a moderate local trade with the feeling barely steady, the close showing July ⅛c lower and September unchanged. There was not much feature to the trade, elevator interests sold July and commission houses were moderate sellers of September. Buying was chiefly professional. Receipts were fair, 424 cars, with 37 cars contract, against 921 cars and 92 cars respectively last year, and 609 cars estimated for to-morrow. Liverpool quoted spot up ½d and futures ⅛d higher to ⅛d lower. Stocks there 858,000 bu decreased 34,000 bu. Stocks one year ago 199,000 bu. London quoted cargoes on ocean passage held firm, with fewer offerings. World's shipments were 4,318,000 bu, against 4,192,000 bu previous week and 5,448,000 bu one year ago. The visible supply increased 311,000 bu, against 557,000 bu increase same week in 1903. Total is now 5,434,000 bu against 5,967,000 bu in 1903 and 5,687,000 bu in 1902. Local public stocks increased 135,000 bu to 1,976,000 bu, compared with 1,875,000 bu corresponding date one year ago. Western receipts, 574,000 bu; last year, 861,000 bu. Shipments, 400,000 bu and 538,000 bu respectively. Local arrivals 461,000 bu and shipments 325,000 bu. Eighty cars and 15,000 bu contract were switched from private to public elevators. Exports, 185,000 bu, and only 3 boat loads accepted at the seaboard. Quantity on ocean passage increased 2,168,000 bu to 15,804,000 bu, compared with 16,835,000 bu one year ago. Map showed rather too much rain through parts of the Corn belt, and showery conditions were predicted. Kansas City, however, reported the rains beneficial to the new crop, and Oklahoma and Indian Territory also claimed conditions were favorable. Shipping demand was rather better and sales 400,000 bu but the price was reported as very cheap. Car lots were weak and ½@1c lower. Offerings larger and demand only fair. No. 2 sold at 48@48¼c and closed at 48c. No. 2 Yellow sold at 48¼@48½c, and closed at 48¼c. No. 3 sold at 47½@48c, and closed at 47¾c. No. 3 Yellow at 47¾@48½c, and closed at 48c. No. 3 White sold at 47¾c. No. 4 at 45½@46½c.

Future Deliveries of Contract Oats—Traded in sparingly and prices held steady.

JUNE—Sold at 40¾c, closed at 40¾c

JULY—Slow. Sold at 38¼@38½c. Opened at 38¼c, sold to 38⅛c, to 38¼c, to 38¼@38⅜c at close.

SEPTEMBER—Sold at 31¾@31⅞c. Opened at 31¾c sold to 31⅞c, to 31¾@31⅞c at close

DECEMBER—Slow at 32¼@32⅜c. Opened at 32¼@32⅜c, closed at 32⅜c

MAY—First sale of the season. Sold at 33⅝c.

RYE—The market was quiet. Nothing whatever was done and prices entirely nominal. There were no receipts and no withdrawals from store here and no export clearances from the seaboard. The visible supply decreased 45,000 bu and Chicago stocks unchanged from last week. No. 2 in store nominally about 65c and fresh arrivals quotably about 65c. No. 3 nominally 52@60c for poor to choice.

Future Deliveries of No. 2 Rye—Quiet, nothing doing. July 59c bid and 61c asked. September 52½c bid and 54½c asked.

BARLEY—There was a light malting demand, that is a few would buy when they found something to their liking both in quality and price. There was a very easy market. Low grade Barley and poor Screenings dragging and weak but for choice Screenings or for sweet feed or mixing Barley there was a little inquiry. Prices exhibited no essential change to-day. Twelve cars were inspected in. Visible supply made only a small decrease, and remains considerably larger than last year. Local stock did not change. There were sales of Screenings over a range of 31@40c for poor to choice, latter cleaned. Barley, low grade feed or mixing, quotable at 31@35c for thin, or seedy, musty; good color, sweet and good weight possibly 37@40c. Malting, low grade was about 41@44c; fair to good, sound, 42@47c, good color, 48@52c, and fancy above.

SEEDS—All lines were practically the same as at the close of last week. Absence of regular offerings prevents trading. All there was done to-day was the sale of a few cars of cash Flax.

Timothy—The late bid price for September delivery new Seed was raised 2½c, to $3 15 and that was the only change. Nothing was done, for $3 25 was asked. Market for old Seed entirely neglected. Nothing in this line offered. Contract spot or July delivery nominally $2 92½. Country lots quotable at $2 00@2 85 for low grade to fancy, choice about $2 70@2 75, fair to good Seed $2 50@2 60 and rough at $2 35@2 45.

Flax—A couple of cars of Northwestern cash Flax came on the market and sold at the late quotation. Nothing else was done. There were no other offerings. Futures were entirely neglected. Local receipts 5 cars or 4,250 bu and none taken out. Minneapolis got 21 cars and Duluth 12 cars. No. 1 Northwestern or No. 1 from the Northwest quotable at $1 07, with a couple of cars sold. No. 1 quotable at $1 01. Rejected was quotable at 95c@$1 01. July quotable at $1 01. September at $1 05.

Clover—Nominally unchanged. No Clover offered. Contract spot Seed about $10 75. Country lots, common to choice, $7 00@10 00, fancy above; mixed with Buckhorn or other weed Seeds, $6 00@8 00 poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good $8 50@9 50.

Other Seeds—There was no regular market. Only nominal prices can be quoted and they only because nothing has occurred indicative of any change. It would perhaps be difficult to get the prices quoted. No quantity could be sold. On to-arrive lots no one cares to bid. Quotable Hungarian, common and light color to choice dark at $1 15@1 35. Common Millet $1 15@1 40 for poor to fancy. German Millet, $1 15@1 40. Siberian, 75@90c. Broom Corn Millet, $1 00@1 10. Early Fortune Millet, 85@95c. Mustard 85c@$1 05. Buckwheat easy; quotable at $1 50@1 65 for good.

HOG PRODUCTS—A fairly good trade was reported in Hog Products, and the feeling was easier. Outside orders were moderate, and local trading was fair. Packers credited with selling moderate quantities early in the day, and considerable general realizing toward the close. Hogs were in rather good supply, and prices ruled lower early, but rallied again later in the day. Receipts at the leading Western packing points were estimated at 67,300, compared with 73,000 one year ago. Exports for the week, compared with those of the corresponding week in 1903 exhibited increases of 1,089 brls Pork, 1,425,000 lbs Lard, and 2,078 boxes of Meats. Foreign market were firmer, and prices were advanced 6d on Cumberland Sides and Hams. Domestic markets were quiet. Receipts of Products were fair—of Lard and Meats about 18 cars. Shipments were small—of Lard and Meats about 71 cars. Speculative market opened rather easy, with considerable pressure to sell, and prices declined on all the leading articles. At the reduction a fair inquiry prevailed, but little change in prices prevailed, and the market closed comparatively steady. September contracts met with most favor. Demand on shipping account was moderate, and there was no particular pressure to sell. Sales were not very large, and there were no marked changes in prices.

Mess Pork—A fairly good trade was reported in Mess Pork, and the market was easier. Offerings were moderately free, and the demand was fair. Some realizing by local "longs," and "shorts" bought moderately. CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, June 14.]

United Kingdom—So far in June the temperature in this country has been too low to enable vegetation to make rapid growth, but agricultural papers say the check has not lowered the condition in any way, their reports as to Wheat being in fact rather better on the whole. The first Wheat ears are now beginning to show, and the plant looks well, although the stand is certainly thin.

Russia—Winter crops are now officially reported to be satisfactory except in Samara, Kherson and Southern Bessarabia, and it may be noted that the first mentioned grows hardly any Winter Wheat. Spring crops show better condition than the winter; the only complaints refer to want of rain in the centre and backward growth in the north. The export movement keeps liberal.

Roumania—Some rain fell toward the end of last week, and our correspondent at Braila telegraphed that the fall was thought to be general. Mail advices, however, are very pessimistic, and it is very doubtful whether the rains came in time to do much good to the Wheat crop. Spring crops and Corn, however, may have been benefited, but if these have not had, or do not get good rains within the next week or so, they are likely to do no better than the winter seedings. Receipts at shipping ports are reported to be smaller, but exports last week were well maintained.

Bulgaria—Rains fell in time almost throughout the country, and prospects for Winter Wheat are good.

Hungary—Our Buda Pesth correspondent telegraphs to-day that better weather has been experienced, and farmers are more hopeful. The price of Wheat for autumn delivery has fallen sharply during the week, but to-day is much firmer.

Argentina—Our cable of last Friday said that the weather is unfavorable for putting in the new crops, rain being much wanted. It is too early yet for any alarm to be felt regarding the new Wheat crop, in fact the same cable reported the market at Buenos Ayres as weak. Supplies continue moderate and the quality does not give satisfaction; shipments last week were rather larger.

Australasia—We have no fresh news regarding the new crop. Shipments last week were comparatively liberal, but only occasional ships are now being chartered.

India—The monsoon burst last week, rains being reported at Bombay. The big Wheat crop lately gathered in the Punjaub is moving so freely that the railways leading into Kurrachee are said to be badly congested. Shipments last week were large, but not so large as expected.

France—Stormy weather prevailed last week and there are some complaints about these unfavorable conditions; there is also some mention of thin plant and light ear. As a whole, however, crop prospects are still good, but it is certain that unless the weather turn more favorable for the critical stage of growth which the Wheat crop is now entering, complaints will increase. Supplies on country markets are still liberal, but, after a further decline, prices firmed up at the end of last week on the unfavorable crop weather.

Italy—The latest official crop bulletin stated that Wheat and other crops were in need of rain.

Spain—There is no change in the crop situation. In the drouthy districts crop conditions are poor, but the Castiles and other provinces have fair prospects.

Belgium and Holland—Weather conditions are variable—there are no complaints regarding the crops.

Germany—Complaints concerning drouth are increasing, the center and east being the parts chiefly affected. So far there are no complaints about Wheat, but Rye appears to have lost condition in a marked degree, and Oats are badly needing moisture. Not much mention is now made of native Wheat; imports of foreign qualities are of fair size, but not heavy.

THE WEATHER CONDITIONS.

Wet weather prevailed throughout the Southwest the last 24 hours, in addition to heavy rains for 24 hours ending Sunday 7 A. M. The rains extend from Southern Illinois and Missouri southwest through Kansas, Oklahoma and Texas. Cairo, Ill., has 1.56, Wichita .90, Springfield, Mo., 1.76, Oklahoma City .96. Cooler west of Missouri River. Clear West and Northwest. Showery in Ohio Valley.

Indications are showers will continue in central valleys. It will probably be mostly fair in the lake region and Northwest. Temperatures will be somewhat higher in this section Tuesday, and will rise west of the Mississippi River tonight.

ITEMS OF GENERAL INTEREST.

The American Sewer Pipe Company has declared a dividend of ¼ of 1 per cent, payable July 1, to holders of record June 28.

Among the companies incorporated at Wilmington, Del., Thursday, was the Chicago Graphite Manufacturing Company with a capital of $ 00,000.

The building of the Chicago Library Bureau, manufacturers of office and library furniture, was damaged by fire, Sunday, to the extent of $135,000; insured.

The regular quarterly dividend of 1¼ per cent on the preferred stock of the Big Four Railway Company will be paid July 20 to stockholders of record June 30.

Mail advices just to hand from South Australia mention good seeding rains in Victoria, however, the fall was light, but a largely increased area under Wheat was being expected.

The Chicago, Burlington and Quincy Railroad has applied to the New York Stock Exchange to list $9,835,000 additional of its Illinois division mortgage 3½ per cent bonds of 1949.

An official of the National Carbon Company says the volume of business for the period ending with June will show an increase of 10 per cent over the corresponding period in 1903.

A Chicago banking firm, Thursday, purchased $1,695,000 Long Island Railway Company refunding Gold 4 per cent bonds, due March 1, 1949, principal and interest guaranteed by the Pennsylvania Railway Company.

Fire, which threatened for a time to destroy many buildings at the World's Fair, St. Louis, Friday, consumed the House of Hoo-Hoo, rendering the building and all contents a total loss. The loss on the building and contents is estimated at $50,000.

The Home Bank, St. Paul, Ind., closed its doors, Thursday, and it is believed the loss to the depositors will be heavy. Fred Gillman, president of the Goodland, Ind., Bank, which failed recently, had drawn extensively on the bank, of which he was president also.

J. W. Lund, representing about 1,000 creditors, with claims of $450,000, was appointed trustee and placed under $100,000 bonds at a meeting of creditors of Pettingill & Co. at Boston. The assets include $38,000 cash and $153,000 book accounts, and the proved liabilities are $500,000.

The New Jersey Supreme Court, Thursday, in the case of the Spiral Rivet Tube Company, set aside a contract sanctioned by a majority of the directors of the company acting separately, holding that to be legal action must be taken at a regular called meeting of such directors.

The American Chicle Company has declared the regular quarterly dividend of 1½ per cent on its preferred stock, payable July 1, to holders of record June 28. The usual monthly dividend of 1 per cent also has been declared on the common stock, payable July 20, to holders of record June 28.

The Canada Southern Railway Company has declared a semi-annual dividend of 1¼ per cent, payable Aug. 1 to stockholders of record June 30. This dividend is a reduction of one-fourth of 1 per cent from the dividend paid Feb. 1 last. At this time last year a dividend of 1 per cent was declared.

A statement was issued, Friday, by the Auditor showing the condition of all the State bank of Illinois on June 10, with a comparative statement showing the increase or decrease as compared with the last statement, issued March 22, by the department. The aggregate of deposits is over $300,000,000, an increase of about $16,000,000.

The earnings of the Brooklyn Rapid Transit Company, last Sunday, showed a gain over the same Sunday last year of $22,850. The gain for Sunday, June 12, was $26,090. The first nineteen days of June show a gain of $150,066 over last year, an average daily gain of $7,892. For the fiscal year from July 1, 1903, the gain has been $1,265,236, an average of $3,574 per day for 354 days.

A franchise has been granted to the New York Connecting Railroad Company for building a viaduct railroad through Long Island City to the East River at a point opposite Ward's Island, thence by means of a bridge to pass over Ward's and Randall's islands to join the New Haven and Hartford system at Mott Haven. Consent of the board of aldermen remains to be secured. The proposed route is part of a plan evolved by the Pennsylvania Railroad Company to provide means for the extension of its traffic to New England territory.

Although the May earnings of the Baltimore and Ohio Railroad show a net decrease of nearly $750,000, the real showing is not nearly so bad. The company makes public monthly its earnings from traffic only and does not include therein its other income. As a matter of fact the company earned its full fixed charges, taxes and dividends in the first seven months of the present fiscal year, and it is understood that for the first ten months of the year the actual decrease in the total net income was only about $250,000.

The impression gains ground that some important international financing is under way. The departure for Europe at the end of the month of several leading financiers is commented upon in this connection. It is known that for some time certain of our American banking houses have been endeavoring without success to interest foreign bankers in contemplated railway loans. While there is a good market in New York for railway bonds of high character, it is almost impossible to float any more issues of a highly speculative character. Effort is probably being made to raise new capital in London.

The directors of the First National Bank of Englewood, Chicago, have declared the regular semi-annual dividend of 3 per cent and the usual extra dividend of 2 per cent, making 5 per cent for the half year. This is the same declaration as was made for the last three or four dividend periods. The dividends are payable on June 30 to stockholders of record on the same day. Earnings of the bank for the first half of this year have fallen off somewhat from those of last year. However, they will show at the rate of about 30 per cent on the capital stock. The first half of last year they were at the rate of about 35 per cent, and for the full year they were about 40 per cent on the stock.

ITEMS OF GENERAL INTEREST.

New York Exchange—no market.

Documentary Sterling steady at 485.

Chicago Bank Clearings to-day, $25,777,598.

Good rains reported in Argentina and drouth ended.

Elevator men are paying 62c for Hard and 65c for Soft Wheat at Oklahoma City.

Knoxville, Tenn., received the first car of new Wheat, Monday, and it sold for $1 00.

Ten packers purchased 10,300 Hogs to-day; shippers, 4,000; left over, 3,500. Market closed weak.

Reported that 72,000 bu Wheat, 36,000 bu Corn and 25,000 bu Oats were taken at the seaboard to-day for export.

One cent over September price is bid for new No. 3 White Oats to arrive at Chicago, billed through, by August 15.

Estimated receipts for to-morrow: Wheat, 6 cars; Corn, 158 cars; Oats, 53 cars; Rye, no cars; Barley, 16 cars. Hogs 31 000.

Average cost price of Hogs at Chicago, Monday, was $5 34, the same as Saturday. Average a week ago $5 19, two weeks ago $4 92, and a year ago $5 72.

Local Securities were slow, but prices held steady. The only important changes were a drop of ⅜ in Diamond Match and ½ on Title and Trust.

The Minneapolis Flour mills will close down from Friday to Tuesday, and the Pillsbury A mill will remain idle for a longer period to repair the canal.

English visible supply of Wheat increased 103,000 bu, compared with an increase of 1,874,000 bu last week, and a decrease of 761,000 bu the corresponding week last year.

The receipts of Wheat at Liverpool during the past three days were 552,000 bu, of which 72,000 bu were American. Receipts of Corn, 120,000 bu, of which none were American.

The American Sugar Refining Company has advanced the price of refined Sugar 5 points, to $4 90 net, less 1 per cent for cash. The other Sugar companies have not as yet followed the advance.

Cotton in New York was depressed by active realizing sales. Crop news was "bearish," and offset the stronger cables. On the breaks there was good covering and some investment buying. The closing showed losses of 20@40 points.

The railroads announce a reduction in freight rates at and east of Buffalo to 3c per bu on all Grain, and effective from July 1 to Aug 31. Heretofore the rate has been 4c on Wheat and 3¾c on Corn. This affects all export business by way of New York and Boston.

Stocks in New York weakened under the dullness and aggressiveness of the "bears," and averaged lower, but losses were small. Investment buying of Western Railway shares is fair, there being a steady absorption on all breaks. Crop reports were favorable, but they failed to stimulate buying by room traders. Money easy, 1¼ per cent.

Bradstreet's report of the available supply for the past week shows the following changes:

	1904, bu.	1903 bu.
Wheat east of Rockies	Dec. 1 871,000	Dec. 1,219,000
Europe and afloat	Dec 1,200,000	Dec 1,200,000
Total	Dec. 3,071,000	Dec 2,419 000
Corn	Inc. 814,000	Inc. 1,383,000
Oats	Dec 104,000	Inc. 200,000

Illinois weekly crop bulletin says: "Harvesting of Wheat is well under way in central and southern districts, and will be in active operation, with propitious weather, during the ensuing week. Some complaint is made on account of rust, but heads are generally well filled and the quality of the Grain is good. A decreased acreage is indicated. The general condition of Corn is quite favorable. Some fields have been laid by. The crop is growing fast, and fields are mostly clean. Oats are heading short and need rain in the northern district; in the central and southern districts the crop has improved."

Broomhall's weekly foreign crop summary says: "United Kingdom—Weather the past week been favorable; most of the crop is thin. France—Wheat prospects brilliant and a large yield is expected. Germany—Further rains past week have relieved the drouth. Russia—In Southwest there are, in some sections, continued complaints regarding Winter Wheat, but Spring Wheat is generally in fair condition. Prospects in the Azoff districts are mostly fair. In the Southeast it is too dry. Roumania—Position of Wheat remains unchanged. Corn prospects have been improved by rains, but more are needed. North Africa—Wheat harvest been hindered by rains, but large yield is still expected."

WEATHER BUREAU REPORT.

WASHINGTON, June 28.—Weather Bureau weekly summary, issued at noon, says:

Spring Wheat—While the condition of Spring Wheat is somewhat less promising than previously indicated, the outlook continues encouraging in Spring Wheat region east of the Rockies. In portions of the Dakotas the crop is weedy, but in these States and in Minnesota it has made growth and the early sown is beginning to head.

Winter Wheat—The progress of Wheat harvest in Kansas and Missouri has been interrupted by rains, but this work has proceeded without interference eastward of the Mississippi River, and is now in progress as far north as the southern portion of Illinois and Indiana and in Virginia and Maryland. Some lodging and rust are reported from Nebraska and Missouri, and dry weather has hastened the crop materially in Michigan, but elsewhere the crop has advanced favorably, well filled heads being generally reported.

Corn—In Iowa and in principal Corn States eastward of the Mississippi River Corn has made good progress and is well cultivated, rapid growth being generally reported. Rapid growth is also reported from Missouri, Kansas and Nebraska, but in these States cultivation has been hindered, particularly in Missouri and Nebraska, where many fields are grassy. A large crop is practically assured in Texas, but drouth has impaired the outlook in the Central, East Gulf and South Atlantic States.

Oats—Continue promising in nearly all districts. In some of the most important Oat States, however, the crop is heading short with less favorable prospects than previously indicated. Harvest has begun in Southern Missouri, Tennessee and North Carolina.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market is still very quiet, buyers of all classes purchasing sparingly. Prices steady.

WINTER WHEAT—Only a limited demand existed and market quiet. Prices about the same, but are little better than nominal. No 2 Red in store nominally 98c@$1 00, and fresh arrivals free on board quotably about $1 00@1 01. No 3 Red fresh receipts free on board nominally 95@99c. No. 2 Hard in store sold at 87½c and fresh receipts free on board at 90c, the latter ranged at 88@91c. No. 3 Hard fresh receipts sold at 87c and quotable at 82@90c.

SPRING WHEAT—Very little doing and market quiet and steady. Receipts continue very light. No. 1 Northern in store quotably 9@10c over old July, and ranged at 94¾@96¾c, and fresh arrivals free on board quotably 97@98c. No 2 Northern fresh arrivals quotably 93@97c. No 3 Spring fresh receipts free on board quotably 85@90c. No. 4 Spring quotably 65@90c for poor to choice, with sales at 81c and a fancy car hard variety at 92c.

REGULAR WHEAT—Just a fair trade and moderately active market. The feeling was rather unsettled, with the early tone stronger, but a reaction set in later. Closing prices showed the old July ⅞@1c lower while September lost ¾c. The market started easy on the improved weather and lower cables. The offerings, however, were well taken, and on liberal purchases of old July by a prominent local professional "shorts" came in and market advanced. The *Bradstreet's* showing was one of the "bull" helps. Stocks here in all positions were reported 2,708,000 bu, a decrease last week of 205,000 bu. Stock one year ago 4,485,000 bu. Contract stocks decreased 33,670 bu, and are now 675,354 bu, against 2,261,720 bu same date in 1903. *Bradstreet's* decreased 3,071,000 bu, compared with 2,048,000 bu decrease same week in 1903. At the advance "bear" leaders became more aggressive, the selling being led by the Southwest, and prices reacted. Winnipeg had 85 cars, against 83 cars one year ago, and Northwestern arrivals 58 cars larger. Foreign crop news was more favorable and Continental markets weak. Buda Pesth declined 1⅛c and Berlin was ¾c lower. Liverpool quoted spot unchanged and futures ⅛@¼d lower. Receipts there the past three days, 552,000 bu, with 72,000 bu of the same from America. London came unchanged to ¼d lower. Paris was steady to ¼c higher. Fair and warmer weather was predicted for most of the West and Northwest. Kansas City and St Louis received 77,000 bu and shipped 57,000 bu. Waterloo, Ill., reported the harvest delayed in Southern Illinois and the crop damaged considerably by the excessive rains of the past four days. Illinois crop bulletin was "bearish." The Government crop report stated harvesting had been delayed and Winter Wheat outlook was less promising. Primary receipts were 28,000 bu smaller than last year. Exports were limited and 9 boat loads accepted at the seaboard. Minneapolis reported that the mills would close Friday until Tuesday and that stocks had decreased 220,000 bu the past three days. St. Louis received 33 bags of new Wheat by boat, which sold at 85c on the levee. Seven cars were also received there. Rosario cabled that heavy rains had occurred in Argentina, relieving the drouth. Kansas City sold 2 cars No 2 Red at 88c. Cash sales here, 5,000 bu. Receipts at Duluth 65 cars and at Minneapolis 243 cars, a total of 308 cars, against 293 cars yesterday, 170 cars a week ago, and 250 cars last year. Local receipts included 14 cars Winter, 5 cars Spring, 2 cars mixed, a total of 21 cars, against 41 cars last year. Included in the above was no cars contract grade. There were no cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 6 cars. Withdrawals to-day were 5,600 bu. Receipts at Western points were 339,955 bu, against 368,286 bu last year. At Eastern points 47,766 bu, against 113,201 bu last year. Shipments from Western points were 253,455 bu, against 156,648 bu last year, and from Eastern points none, against 34,937 bu last year. Shipments of Flour were 24,760 brls. Exports of Wheat in Flour were equal to 120,420 bu.

Future Deliveries of Regular Wheat—Fair trade and closing lower.

JUNE—Sold at 92½c and that the nominal closing.

JULY—Old Style—Sold at 85¾@86¾c. Opened with sales at 85⅝c to 86½c, sold to 86⅜c, to 86⅝c, to 86½c, to 86¾c, to 86¼c, to 86⅛c, to 86c, to 86⅛c, 85¾@85⅞c, to 85⅞c, to 85¾c, to 86c, to 85¾c, to 85⅞c, to 85¾@85⅞c, and closed at 85¾@85⅞c.

JULY—New Style—Sold at 84¾c and at 85½@85⅝c. Opened with sales at 85⅜c to 85⅝c; sold to 85¼c, to 85⅛c, to 85½@85⅝c, to 84⅞c, to 85c, to 84¾c, to 85c, to 84¾c, to 85c, to 84¾c, to 84¾@84⅞c, and closed at 84¾@84⅞c.

SEPTEMBER—Old Style—Sold at 82@82½c and at 82½c. Opened with sales at 82⅛@82¼c to 82⅜c, sold to 82½c, to 82@82⅛c, to 82⅛c, and closed at 82⅛c.

SEPTEMBER—New Style—Sold at 80½@81c. Opened with sales at 80¾@80⅞c to 80⅝@80¾c, sold to 80¾c, to 80⅝c, to 80⅞@81c, to 80¾c, to 80½c, to 80⅝c, to 80½c, to 80½@80⅝c, and closed at 80½@80⅝c.

DECEMBER—Sold at 80⅜@80⅞c. Opened at 80⅝c; sold to 80½@80⅝c, to 80⅞c, to 80⅜c, to 80½@80⅝c, to 80⅜c, to 80⅜@80½c, and closed at 80⅜@80½c.

MAY—Sold at 82¾@83⅛c and closed at 82¾c.

CORN—A moderate trade and better undertone, the close showing July ⅛@¼c higher and September unchanged. Market started rather easy, the receipts overrunning the estimates at 623 cars and 95 cars were contract. There was also 159 cars and 6,500 bu contract switched from private to public elevators. Receipts last year 582 cars with 77 cars contract. There was scattered selling of July at the start by elevator interests, but the offerings were well taken. As the session advanced offerings became smaller. The estimate of only 158 cars for to-morrow was one of the "bull" helps, also the early advance in Wheat. Liverpool quoted spot ⅛d lower to ⅛d higher and futures ⅛d higher to ⅛d lower. Receipts there the past three days 120,000 bu and none from America. Stocks here in all positions reported 6,655,000 bu, an increase last week of 215,000 bu. Stock one year ago was 6,096,000 bu. Contract stocks increased 15,082 bu and now include 1,827,521 bu, against 1,042,754 bu same date in 1903. *Bradstreet's* increased 814,000 bu, against 1,383,000 bu increase same period in 1903. Roumanian crop prospects were reported improved by rains, but more is needed. Weather conditions, present and prospective, were considered favorable. Fair and warmer conditions are predicted for Missouri, Kansas, North and South Dakota and Nebraska. Government weekly crop bulletin was fairly satisfactory and Illinois report "bearish." Southwestern markets were steadier. Western receipts were 773,000 bu, last year 873,000 bu; shipments 135,000 bu and 323,000 bu respectively. Local arrivals 814,000 bu, and shipments only 57,000 bu. Exports 42,000 bu; last year 357,000 bu. Acceptances at the seaboard 4 boat loads. Rail rates east of Buffalo July 1 to August 31 reported 3c, or a reduction of ¼c. Shipping demand moderate and sales 25,000 bu. Car lots were in smaller supply; prices ½@1c higher. No. 2 closed about 48¼c. No 2 Yellow sold at 49½c and closed at 49¼c. No. 2 White sold at 48¼c. No 3 closed about 48c. No. 3 Yellow sold at 49¼c, and closed at 49c. No. 4 at 43½@45c.

Corn by sample—Was in smaller supply and in better demand. Feeling stronger and prices ½@1c higher. Sales on track and free on board—No Grade sold at 36@41½c. No. 4 at 34@49c. No. 3 at 47¾@49c. No. 3 Yellow at 49@49¼c. No. 2 at 48⅜c. No 2 Yellow at 49¼@49½c. No. 3 White at 48@48⅛c. No 2 White at 48½c. Ears at 52c. Billed through: No Grade at 40c. No. 4 at 43@46½c. No. 3 at 46½@47¼c. No 3 Yellow at 47½@48¼c. No. 2 Yellow at 48¼@48½c. No 3 White at 46¾@47c.

Future Deliveries of No. 2 Corn—Moderately active and comparatively firm, closing unchanged at ⅛@¼c higher.

JUNE—Inactive, and closed nominally at 47⅝c.

JULY—Sold at 47⅝@48¼c. Opened at 47⅝c to 47¾c and sold at 47⅝c, to 48¼c, to 47⅞c, to 48c, to 47⅞c, to 47⅞@48c, and closed at 47⅞@48c sellers.

SEPTEMBER—Sold at 48¼@48⅝c. Opened at 48¼c to 48⅜c, sold at 48¼@48⅜c, to 48⅝c, to 48¼c, to 48⅜c, to 48¼@48⅜c and closed at 48¼@48⅜c sellers.

DECEMBER—Sold at 44⅛@44⅝c. Opened at 44¼c, sold at 44⅜c, to 44¼c, to 44⅜c, to 44⅛c, to 44⅛@44¼c, and closed at 44⅛@44¼c bid.

MAY—Sold at 43½@43¾c. Opened at 43½c and sold at 43¾c, to 43⅝c, and closed at 43⅝c asked.

OATS—Were traded in moderately and closed ⅛c lower. There was good selling of July by commission houses and "longs" and prices receded ¼c. At 38c there was good support from resting orders and prices reacted ⅛c. Crop reports were favorable. Harvesting has commenced in Tennessee and Southern Missouri. Cash business was 100,000 bu here and 25,000 bu at New York. Stocks of contract decreased 24,889 bu and are 539,402 bu. Stocks in public and private elevators increased 13,000 bu and are 1,318,000 bu. Arrivals were 211 cars, with 53 cars estimated for to-morrow. Withdrawals were 13,450 bu. Seaboard clearances 22,000 bu. Car lots in store and to go were steady to ⅛c lower. Standard in store sold at 40¾c, and closed at 40⅝@40¾c.

Oats by sample were in light demand and the general run of offerings poor. This was chiefly the cause for the dullness and weakness, as prices receded ½c. The few good Oats offered, however, sold at previous prices. Sales on track and free on board. No. 4 at 33c. No 4 White at 35@40½c. No 3 at 37@38½c. No. 3 White at 40@43½c. Standard at 42@44½c. No. 2 at 38¼@38½c. Standard at 41½c. Billed through: No 4 White at 39¼@40c. No. 3 White at 40@41½c. No 2 at 38c. At the river: No. 4 White at 34@38½c. No. 3 White at 38½@40c.

Future Deliveries of Contract Oats—Were easier.

JUNE—Sold at 40⅝@40¾c, closed at 40⅝c.

JULY—Sold at 38@38¼c. Opened at 38¼c, sold to 38c, to 38⅛c at close.

SEPTEMBER—Sold at 31¾@32c. Opened at 31¾c to 31¾@31⅞c, sold to 32c, to 31⅞c at close.

DECEMBER—Sold at 32¼c and at 32⅜@32½c. Opened at 32¼c; closed at 32¼c.

MAY—Sold at 33¾c.

RYE—Was quiet and easier. Only limited trading. No special interest in the market. Receipts two cars. No withdrawals here and no exports from New York. No 2 in store 65c asked and fresh arrivals free on board nominally about 65c. No. 3 nominally 52@60c for common to good. No. 4 sold at 48c and No Grade at 50c.

Future Deliveries of No. 2 Rye—Quiet. June 65c asked. July sold at 59c and closed at 59c sellers. September 52½c bid and 53c asked.

BARLEY—To-day's offerings met with a rather dull market. The malting demand was light, as the quality of the offerings was hardly good enough for this trade. For good Barley there was a steady market. Screenings, when choice, were also steady. There was no special change in prices. Twenty cars were inspected in. Screenings were quotable at 32@40c for poor to choice Barley, low grade feed or mixing, quotable at 33@35c for thin, or seedy, musty, good color, sweet and good weight about 37@40c. Malting, low grade was about 37@41c; fair to good, sound, 42@47c; good color, 48@52c, and fancy above.

SEEDS—All the markets were inactive and nominally unchanged, except Timothy, which was 5c higher for September.

Timothy—September was 5c higher, selling at $3 20. Contract spot or July Seed was nominally 2½c higher, closing at $2 95. Very little old Seed coming on the market, and what small lots were offered brought former prices. Country lots quotable at $2 00@2 85 for low grade to fancy, choice about $2 70@2 75, fair to good Seed $2 50@2 60 and rough at $2 35@2 45.

Flax—There was no cash Seed on the market and no interest was taken in future deliveries. The market was called nominally unchanged. Local receipts were 122,754 bu, none inspected, and 1 car or 813 bu were taken from store. Minneapolis received 22 cars and Duluth 10 cars. No 1 Northwestern or No. 1 from the Northwest quotable at $1 07. No. 1 quotable at $1 01. Rejected was quotable at 95c@$1 01. July quotable at $1 01. September at $1 05.

Clover—Remained unchanged and entirely nominal. There were no offerings. Contract spot Seed about $10 75. Country lots, common to choice, $7 00@10 00, fancy above; mixed with Buckhorn or other weed Seeds, $6 00@8 00, poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good $8 50@9 50.

Other Seeds—Values were nominally unchanged. No offerings of any kind on the open market. Quotable Hungarian, common and light color to choice dark, at $1 15@1 35. Common Millet $1 15@1 40 for poor to fancy. German Millet, $1 15@1 40. Siberian, 75@90c. Broom Corn Millet, $1 00@1 10. Early Fortune Millet, 85@95c. Mustard 85c@$1 65. Buckwheat easy, quotable at $1 5@1 65 for good.

HOG PRODUCTS—Trade was fair in a speculative way in Hog Products and the feeling was unsettled. Local packers accepted fair quantities, and "shorts" bought moderately. Offerings were not quite as free as during the previous day, and the general demand was fairly active. Outside orders were moderate, and local trading was fair. At the opening, the feeling was easy in sympathy with the Hog market, and prices ruled slightly lower on all the leading articles. At the decline, buyers were inclined to take hold, and prices were advanced materially all around. Toward the close the feeling was rather weak, with rather free realizing, and prices settled back sharply, and closed easy. Hogs were in fair supply, and prices lower early, but rallied again. Receipts at the leading Western packing points were estimated at 70,700, compared with 70,300 one year ago. Foreign markets exhibited a steadier feeling in Meats, and quotations were advanced 1s on Backs and 6d on Cumberland Sides while Lard was easy and 3d lower. Domestic markets were quiet and steady. Receipts of Products were liberal of Lard and Meats about 41 cars. Shipments were moderate—of Lard and Meats about 99 cars. Demand on shipping account was moderate, and offerings were only fair. Sales were limited and prices without material change.

Mess Pork—The market attracted fair speculative attention with the bulk of the trading in September contracts. Offerings were fair and the demand was moderately active. Market opened with a little pressure to sell, and the feeling was rather easy, with prices 5@7½c lower. At the decline, the demand improved, and a firmer feeling was manifested. Prices were advanced 17½@20c on the whole range. Toward the close the feeling was rather weak, and prices settled back 25@27½c, and the market closed rather steady. Little demand on shipping account and offerings moderate. Little change in supplies. Cash lots quotable at $12 50@12 65.

JULY—In moderate request and offerings were only fair. Sales ranged at $12 60@12 87½. Opened at $12 65 to $12 70, sold to $12 87½, to $12 60 and closed steady.

SEPTEMBER—Offerings were rather free, and the demand was fairly active. Sales were made at $12 90@13 15. Opened at $12 95, sold to $13 12½, to $13 20, to $13 15, to $13 10@13 12½, to $13 17½, to $13 10, to $13 12½, to $13 00, to $13 02½, to $12 90, and closed steady.

Lard—A fair business was transacted in the Lard market, and the feeling was unsettled in a general way. Offerings were fairly large, and the demand was moderate. Foreign advices were unfavorable to holders. Market opened rather easy and prices favored buyers. Later, the feeling was stronger, with fair miscellaneous buying, and prices were advanced 7½@10c. Toward the close the feeling was rather easy again and prices settled back 12½@15c and the market closed steady. Demand on shipping account rather light with no particular pressure to sell. Cash lots quotable at $6 85@6 90. Loose lots in small request with limited offerings. Prices steady at about 50c discount on July figures. Leaf Lard in moderate request and offerings were small. Prices quotably steady at $6 12½. Neutral in only limited demand with fair offerings. Prices quotably steady at $7 00@7 12½ for No. 1, and $6 75@6 87½ for No. 2.

JULY—Called for moderately and offerings were fair. Sales were made at $6 87½@7 00. Opened at $6 97½, sold to $7 00, to $6 87½, to $6 87½@6 90, to $6 87½, and closed steady.

SEPTEMBER—Offerings were moderately free and the demand was fair. Sales were made at $7 07½@7 20. Opened at $7 10 to $7 12½, sold to $7 10@7 12½, to $7 20, to $7 07½, to $7 10, to $7 07½, and closed steady.

OCTOBER—Quiet, with small sales at $7 10@7 15, and closed at $7 10.

DECEMBER—Sold sparingly at $6 85.

Short Rib Sides—Rather a good trade was reported in the market for Short Rib Sides, and the feeling was unsettled in a general way. Offerings were fair, and the demand was moderately active. Market opened with a little pressure to sell, and rather an easy undertone and a few trades were made at 2½@5c decline. Later, a fair general demand prevailed and the market was stronger. Prices were advanced 10@12½c on the whole range. Toward the close, the feeling was easier again and prices receded 15@17½c, and the market closed comparatively steady. Shipping demand was light and offerings were moderate. Cash lots were quotable at $7 12½@7 37½ according to weight.

CROP PROSPECTS IN ROUMANIA.

[From Dornbusch, June 14.]

The report of the Meteorological Bureau of Bucharest, of 7th inst., says: "The scarcity of rain and the cold and windy weather during the month of May have greatly aggravated the agricultural situation. With some exceptions the winter as well as the spring sowings have but poorly developed, remaining small, sparse and thin. The Wheat which came up well during the winter and looked very good toward the end of last month, has remained small on account of the want of rain, many of its offshoots having dried up and only the main stalk having reached, producing small and weak ears, many of which have dried up at the heads. The spring Barley and Oats are showing up a little better, but even these do not much promise. In some districts the Barley is ready to burst into ear. Autumn Oats are much better. Corn has been sown everywhere, and in some places already begins to shoot. However, in uniform condition; here and there it is weak and thin, and in some places has not even shown above the ground. Grass is poor and sparse. Clover and Lucerne do not contain much nutriment. The agricultural situation at the end of the month of May is bad enough; nevertheless in the West of Muntenia and in parts of Oltenia especially, where the rain during the preceding month were more plentiful, as also in the North of Moldavia, where during the last ten days heavy rains have fallen, the agricultural prospects look good, and in some places may be even called fine. If rains continue to fall in these regions we may look for a good crop. On the other hand, in the East of Muntenia, especially in the districts of Jalomitza, Buzeu, Rimnic-Sarat, Braila, the central and lower parts of Moldavia, and in a large part of the Dobrogea the autumn as well as the spring sowings are compromised, and even though rain were to fall plentifully it would only benefit the Corn and the fodder.

THE WEATHER CONDITIONS.

The area of heavy rainfall central over the Southwest yesterday has moved east and is now central in southern part of the Ohio Valley. It is showery in the Northwest, cloudy and cool West, and partly cloudy with rising temperatures Southwest. Temperatures in extreme Northwest, 44 to 62; Northwest, 56 to 60; West, 54 to 62; Southwest, 60 to 74; Ohio Valley, 56 to 68.

Indications are for light scattered showers in this forecast district, but weather will be mostly fair. Temperatures will slowly rise.

ITEMS OF GENERAL INTEREST.

The output of the St. Louis Flour mills for the past week was 43,500 brls, against 46,400 brls for the previous week.

The opening at Milwaukee since March 1 is estimated at 219,364 Bbls, against 208,079 for the corresponding time in 1903.

The Wilmington and Northern Railroad Company has declared a dividend of seven-eights of 1 per cent, payable Aug. 16.

The Greene Consolidated Copper Company has declared a dividend of 3 per cent payable Aug 1; books close July 15 and reopen July 25.

The Aichison Railroad Company reports for May show gross earnings, increase, $123,345; net, income after interest and rentals, decrease, $342,698.

The syndicate formed to underwrite $15,000,000 first mortgage bonds of the Pittsburg Coal Company, which expires by limitation on July 1, probably will not be extended beyond that date.

During May France imported net for home consumption 530,000 bu Wheat and Flour. The net total for the ten months ending May was 10,764,000 bu, compared with 10,656,000 bu in the corresponding period of last season and 5,672,000 bu in 1902-03.

During the month of May, Belgium imported 6,320,000 bu Wheat and exported 1,368,000 bu. The net import of Wheat and Flour in the ten months ending May was 28,800,000 bu, compared with 28,128,000 bu in the corresponding period of last season.

A dispatch from Waterloo, Ill., says: "The many rains the past few days throughout southern Illinois have delayed the farmers from harvesting the Wheat crop, which is being damaged considerably and is lying on the ground from excessive rains. The Yellow Hay crop was also cut off considerably."

In the suit brought by W F. Johnston against the Norfolk and Southern Railway Company, Justice Greenhow of the Supreme Court of New York, Thursday, decided to grant an injunction pendente lite, restraining the placing of a mortgage for $4,000,000 on Norfolk and Southern Railway Company property.

It was rumored in New York, Thursday, that the next quarterly dividend on the common stock of the American Car and Foundry Company is to be passed. February of this year the last quarterly dividend was reduced from 4 per cent annually to 2 per cent. The last quarterly dividend of one-half of 1 per cent was paid in May.

The bulk of the Wabash debenture Bs were accumulated by a pool three years ago at about 80 and many of the members of this pool still retain the bonds. A belief prevailed on the street that the suspension of dividend payments on the A's was part of a plan to revive the old scheme of refunding the debenture B's into a 4 per cent bond at 75.

A Saratoga, N. Y., dispatch says: "The Citizens' National Bank, which suffered a heavy run, Saturday, is declared sound and fully prepared to meet its obligations. Lossed by unfortunate investments and alleged irregularities of the cashier are placed at $30,000 to $40,000. The American Surety Company of New York is upon the cashier's bonds for $25,000."

The Wabash statement for the month of May is favorable, a decrease of $39,567 in gross earnings having been offset by a decrease of $42,912 in operating expenses, so that net earnings were increased $3,337. For the first eleven months of the fiscal year gross earnings increased $1,884,648, but operating expenses were larger by $1,964,765 and net earnings smaller by $420,118.

The listing application of the American Steel Foundries Company gives a statement of the earnings for the year ended March 31, 1904, as follows. This shows, as was to have been expected in view of the conditions in the trade, a heavy falling off in profits. The net earnings for nine months were only $414,984, as compared with $1,760,938 for the fiscal year ended July 31, 1903, or $1,760,938.

France imported in May, the tenth month of the present cereal campaign, 2,287,040 bu of Wheat, which 691,360 bu of Wheat and Flour were delivered from bond for consumption, the rest being either exported or received as "temporary admissions" or consigned as entrepots. Imports entered for consumption in the corresponding month of the two previous years were 1,993,330 bu and 271,130 bu respectively.

Articles of incorporation have been filed at Madison, Wis., for a new electric railway between Chicago and Milwaukee. The name of the company is the Chicago and Milwaukee Electric Railroad Company, and the capital stock, $5,000,000, divided into 50,000 shares of $100 each. The proposed line is to be built from a point on the State line between Illinois and Wisconsin in the town of Pleasant Prairie, Kenosha County, and will run to Milwaukee, traversing the counties of Kenosha, Racine and Milwaukee.

The *Marche Francais* of June 13 states that the weather has become fine and warmer, and if this continue all will be well with the crops, although in their opinion the Wheat crop will not be equal to what last year's crop finally proved to be. The recent reports of the prospects of Spain are also considered to have been exaggerated, which was to a certain extent proved by the fact that although supplies from farmers did not increase, on the other hand they did not decrease, which would certainly have been the case had any serious damage been done.

The *River Plate Review* of May 21 says: "Latest reports issued by the immigration office on agricultural work in the Province of Santa Fe are satisfactory. Corn gathering is in full swing in all parts; yield and quality good. Maximum yield of 40 quintals to the hectare (about 60 bushels to the acre). The farmers are gradually departing from the old grooves and adopting the more latter-day methods of rotating their crops, thereby not only increasing the productiveness of the soil, but also lessening the risks of a fluctuating market."

The directors of the Illinois Brick Company at their regular monthly meeting, Monday, declared a dividend of 2 per cent on the common stock, payable July 15. Books will be closed from July 5 to July 15, inclusive. No statement was made as to the nature of the dividend or whether it was to pay in part the year's arrears of dividends, amounting to 6 per cent. No intimation was given of what might be expected in the future. The secretary stated that the directors merely declared a flat payment of 2 per cent on the stock and let it go at that.

Dornbusch of June 13 says of the French crops: "Crop reports this week are not unanimously favorable, as the heavy rains which have fallen experienced have done some damage in several districts, more especially in the central departments. The weather has now improved, and if continued will make much of the damage will be made good. The Wheat on the whole looks well, although opinions as to the probable yield differ very much. The condition of Oats also is not altogether good, but fine weather is needed. The vines look well and an exceptionally abundant yield is expected."

The London *Standard* of June 14 says: "Official report on the condition of the Wheat crop in France states that a bumper harvest is out of the question, and that one below the average is the best that can be hoped for. According to private estimates, the Wheat crop will be only 31 per cent of last year's. Rye 10 per cent, and Oats and Barley 24½ per cent. Last year's harvest, however, like that for the previous year, was unusually good. A rain that has fallen since the date of the inquiry, it is hoped Wheat and Oats may still recover to some extent, though Rye, which suffered most from rust, cannot be expected to fare well."

Dornbusch's Buda Pesth correspondent, writing under date of June 11, says: "The Flour market has shown rather more activity during the week and a fair quantity has been sold to the entire country chiefly for home consumption, but although prices were a trifle better, they yet do not leave any margin of profit. Later demand dwindled, influenced by reports of rain and quieter Wheat market. The turnover for the week was fairly good, although not sufficiently large to appreciably reduce the considerable stocks on hand. Business for export is still restricted. Feeding stuffs continue firm and meet a ready sale."

A plan for the formation of a holding company for the Seaboard Air Line is under consideration by the banking syndicate in control of the property. Conferences to that end have been held in New York recently, but the details have not yet been worked out. It is known, however, that the proposed holding company will be an entirely new company, which will provide a large amount of capital for the Seaboard system. A bond issue of at least $50,000,000 is contemplated. The chairman of the board of Seaboard Air Line said Friday: "The Seaboard Air Line System now is absolutely in need of no further financiering unless it should be decided to undertake certain works of new construction, improvement and betterment, as to the wisdom or necessity for which there are differences of opinion."

The London *Agricultural Gazette*, of June 13, says: "June weather hitherto has not favored the rapid advance of vegetation, and crops are still backward for the time of year. Since the 2nd instant the wind has been in the north-east, N. N. E., in most parts of the country, and the nights have been cold, though milder since Friday than before. Wheat looks well on the fields of spring Grain the chariock in full blossom quite like Autumn Grain to off-hand view, and such growth of a week running up to seed must reduce the yield greatly. No one can see such fields without being convinced that the spraying of crops infested with this detestable weed must pay well. There have been great showers for rain during the last few days, but very little has fallen in the country generally. Perhaps a good downfall would lead up to warmer weather, which is now much to be desired for crops of all kinds. The Wheats, gappy though they are generally, have improved in appearance."

The *Mark Lane Express* of June 13 says: "The temperature of the past week has been below the average out of the sun, as the prevailing winds have been from the north and east. No harm has been done to the growth of vegetation by its extremely rapid development being a little checked. Farmers see with pleasure the Wheat promising a fair yield of straw, for the local deficiency of good Wheat straw is mainly making itself felt. The plant is of a good color, the leaf blades decidedly strong in appearance, and the first ears are showing. There is no doubt about the fields being rather thinner than usual, but, if we have plenty of sunshine, quantity may be an average, and quality, including weight, above it. Barley, considering how late it was sown, looks promising, has come on very well, and Oats look strong and well almost everywhere."

A New York financier, in close touch with all the leading financial interests, said in the spring: "I can not see how anybody can predict the outcome of the Northern Pacific controversy. In one form or another it is bound to go on, like the Monon-Chesapeake case, until the matter is finally settled. Hill and Harriman had agreed on a price for the St. Paul Road as the eastern connection of Northern Pacific and Great Northern, but Rockefeller stepped in and raised the price and Hill backed out, leaving Rockefeller with St. Paul. Rockefeller never intended to own St. Paul for keeps. Harriman agreed on the Hill method of distribution of the Northern Securities assets, after the decision at Washington, but Rockefeller forced him to bring suit against Northern Securities and again demand control of Northern Pacific. Now Rockefeller, through Harriman, should be successful and get control of Northern Pacific, then St. Paul and Northern Pacific would be put together, as James J. Hill desires."

That the Rock Island management has for the time being abandoned the project of securing independent entry to Galveston, was reported Friday, from reliable sources. It is, however, understood that close traffic relations have been secured with the Southern Pacific whereby the traffic of the Rock Island can reach Galveston on the same favorable terms as those which exclusion of another road, or the purchase of an interest in other roads, an extravagant luxury. More than a year ago the Moores entered into negotiations with the Southern Pacific for the purchase of half interest in the Texas lines possessed by the latter. The common impression is that the deal was prevented by the Texas commission objection to the Rock Island's purchasing a half interest instead of building a new line, but those on the inside say it was financial stringency that prevented the deal. Rumor a year ago had it that the Rock Island has made a survey clear to the Pacific Coast and that if traffic increases construction will soon begin.

The extraordinary drift of currency from the interior to New York City, as well as to other of the large reserve cities, is reflected in a comparison of the call of the comptroller of the currency for bank statements with the corresponding date in the preceding year. The banks of many of the large cities show record breaking figures, particularly in the matter of gross deposits, between the dates mentioned. A majority of the banks have also made exceptionally heavy increases in deposits. The following table shows the gross deposits of the leading banks of the United States at the close of business June 9, 1904, and the increase in gross deposits since June 9, 1903:

	Gross dep. June 9'04.	Inc. since June 9'03.
National City Bank, N. Y.	$184,000,000	$46,800,000
National Bank of Com., N. Y.	180,000,000	26,500,000
First National Bank, N. Y.	110,000,000	20,000,000
National Park Bank, N. Y.	90,600,000	19,933,000
First National, Chicago	89,700,000	7,400,000
Hanover Nat. Bank, N. Y.	74,900,000	2,230,000
Chase National, N. Y.	56,900,000	5,700,000
National Shawmut, Boston	54,000,000	7,400,000

The Chicago *Inter Ocean* says: "A compilation of the reserves of the local National and State banks, as taken from their last official statements as conditioned on June 9, 1904, shows that they are high in total cash resources, but not extraordinarily strong in actual cash or legal reserves. As usual, the National banks, being for the most part central reserve agents for country banks, hold and legal reserves than the State banks, but there are some conspicuous exceptions among the latter. The National banks as a whole held on June 9 25 per cent of their deposits in cash reserves and 23 per cent in legal reserves. The State banks as a whole held 37 per cent of cash resources and 16 per cent of legal reserves. The banks of all in the city holding the highest percentage of cash resources was the National Live Stock Bank, which held cash resources amounting to 57 per cent of its deposit liabilities. Its legal reserve, however, was only 25 per cent, as compared with 29 per cent of legal reserve held by the First National, the largest percentage of legal reserve held by any of the banks. The Merchants' Loan & Trust, with 47 per cent of cash resources, led the State banks, with the single exception of the South Chicago Savings Bank at South Chicago, which reported 51 per cent of cash resources. The Corn Exchange and Savings had the lowest percentage of legal reserve, one-third of 1 per cent, contrasting with its current banks, the First National, which had the highest legal reserve."

Charles M. Schwab, former president of the United States Steel Corporation, when asked what he thought of the future of the Iron and Steel industry, said: "Everything looks decidedly more favorable. The progress of Steel and Iron cannot be stopped. I do not look for a boom this year, but for a steady trade. We don't want booms. I do believe, however, that there will be a steady improvement."

FOURTH OF JULY HOLIDAYS.

The Directors of the Chicago Board of Trade have voted to adjourn from Friday afternoon, July 1, to Tuesday morning, July 5. Other Stock and Commercial Exchanges throughout the country will also adjourn on these days.

ITEMS OF GENERAL INTEREST.

New York Exchange 30c premium

Documentary Sterling steady at 484¾.

Chicago Bank Clearings to-day, $38,118,307

India has suddenly stopped offering Wheat to Liverpool and raised its price.

The last sale of Chicago Board of Trade memberships was at $3,075 net to buyer.

Reported that 48,000 bu Wheat and 130,000 bu Corn were taken at the seaboard to-day for export.

Ten packers purchased 24,700 Hogs to-day; shippers, 3,500; left over, 3,000 Market closed weak and 10c lower

Average cost price of Hogs at Chicago, Tuesday, was $5.29, against $5.31 Monday, $5.29 a week ago, and $5.82 a year ago

New No 3 White Oats to arrive at Chicago by August 15 are ½c over September bid and ⅛c over asked free on board

Estimated receipts for to-morrow: Wheat, 12 cars; Corn 253 cars; Oats, 119 cars; Rye, no cars; Barley, 10 cars; Hogs, 27,000.

The call by the Chicago Board of Trade for the special assessment of $25 to buy memberships, which was due July 1, has been extended to July 20

An estimate of 83,000,000 to 87,000,000 bu of Wheat is made by the Santa Fe Railroad officials for Kansas, and 20,000,000 to 25,000,000 bu of Wheat for Oklahoma.

The Wheat crop of California is generally placed at about 14,000,000 bu More than the usual quantity has been cut for Hay, and the area been reduced by increased seeding of Barley.

A private cable from Odessa says: "Rain is falling and crop prospects are more favorable" Cable from Argentina says "Rain has fallen in most important Wheat growing districts."

Treasurer Roberts, at Washington, announces that $350,000 new Gold the product of American mines, was to-day deposited in San Francisco for telegraphic transmission to New Jersey

Cotton in New York yielded under sympathy with the break in Liverpool of 4 to 12 points. Commission houses were good sellers of all deliveries Closing sales were steady to 4 points lower.

The Great Western Cereal regular quarterly dividend of 2 per cent on the preferred stock is payable July 1 Books closed last night, and reopen July 2. Delay in declaration was due to difficulty of raising a quorum

A miller at Wellington, Kansas, in a wire Tuesday, said: "We are having entirely too much rain for the good of our harvest The fields are so wet that farmers will not be able to do any cutting for the next two or three days"

Three cargoes of Corn have been taken this morning by line boats at ¾c per bu This is the lowest rate of the year, and is counted below actual cost. One of the cargoes, 60,000 bu, goes to Erie and another is from South Chicago to Buffalo

Stocks in New York averaged higher despite the small business A poor statement by the Erie had no unfavorable effect on Coalers, and they gained ⅛ to ⅝ point. Western Railways gained ⅛ to 1 point. Tractions were up ⅝ to 1 point. Money, 1⅛ to 1¼ per cent.

Local Securities were slow. North Chicago Railway at 70, a drop of 9 points from the last previous sale. This was attributed to new developments in the Traction Investigation. Masonic Temple lost 2 points Metropolitan Elevated preferred broke 1 point and reacted ½.

Traffic officials of Western railroads say there is a marked change for the better in the general freight situation. Some lines had a good increase in traffic last week, and say the prospects are good. Earnings for June are expected to show better net results than in May, as operating conditions have been improved.

Beerbohm of June 17 says: "It is now considered tolerably certain that the Wheat crop of Roumania will be a third less than last year's total yield of 72,000,000 bu, which probably means that the Danubian exports next season may reach only 18,000,000 bu, as compared with about 40,000,000 bu in the present season. In Bulgaria also the drouth has caused some damage to the crops."

"Crop prospects in the Northwest are good," said a Minneapolis man who was in Chicago Tuesday. "Rain has not hurt the crops any—it seldom does at this time of the year. Rain early in the season was bad for the Red River Valley, as the soil there is heavy, and retains moisture longer than in the other sections. The James River Valley is going to have a big crop this year, and rains have been favorable for the Devil's Lake country, which had a failure last year."

Rates at and east of Buffalo have been reduced to 3c on all Grains. With a lake rate of ⅞c, it makes the rate on Corn Chicago to New York, including insurance, 4c per bu. The ocean rate of 1¼c will make a rate of 5¼c to Liverpool. Recently the ocean lines running out of Boston have taken Grain free for ballast. Montreal lines are offering to take Corn at 3½c from Chicago to Montreal, and the insurance of ¼c, making it 3¾c free on board steamers there Ocean rates from Montreal, however, are higher than from Boston Even with these low rates there is little demand for Grain.

REVIEW OF TO-DAY'S MARKETS

FLOUR—Market is still quiet. Rather more inquiry, however, from abroad for forward shipment. Local sales small. Prices steady.

WINTER WHEAT—Very limited trading and the market was quiet Prices about the same, but are little better than nominal No. 2 Red in store nominally 98c@$1 00, and fresh arrivals free on board quotably about $1 00@1 02, with a sale at $1 02 No. 3 Red fresh receipts free on board nominally 95@99c No. 2 Hard fresh receipts free on board ranged at 88@93c. No. 3 Hard fresh receipts quotable at 82@90c, with a sale of 3,000 bu from store free on board at 89c

SPRING WHEAT—Very little doing and market quiet and steady Receipts continue very light. No 1 Northern in store quotably 9@10c over old July, and ranged at 94½@96⅝c, with sales of 20,000 bu at 9¼c over, and fresh arrivals free on board quotably 97@98c. No. 2 Northern fresh arrivals quotably 93@97c No 3 Spring fresh receipts free on board quotably 85@95c, with sales of 2,000 bu from store free on board at 94c. No. 4 Spring quotably 65@90c for poor to choice with sale of a car at 68c

REGULAR WHEAT—Rather a better trade, and the feeling at the same time was quite unsettled, close showing old July ⅝@¾c higher, old September up ⅝c and new September ⅝@¾c higher The local professional trade was "bearish" early and sold with considerable freedom, the offerings being more pronounced. The lower English cables and more favorable foreign crop advices were among the "bear" influences Liverpool quoted spot steady to ½d lower and futures ½@⅝d lower. London came ½@⅞d lower. Paris quoted spot up 1¼c and futures unchanged. Berlin and Antwerp were steady. Private cables reported that rain had fallen in the most important Wheat growing districts of Argentine. Odessa cables reported that rain was falling and that crop prospects were more favorable. Crop reports from the Northwest were again most favorable and a good many of the early selling orders came from that section. Duluth wired: "The western part of North Dakota, where heavy Wheat acreage was planted, reports outlook superb; without impairment, good for 40 bu per acre." Roscoe, S. D., wrote as follows: "Crop between Minneapolis and Aberdeen looking better than I ever saw it at this season of the year." Minneapolis wired: "Crop conditions Northwest, outside the Red River Valley, good. In the Valley, the conditions are not as good as they were two weeks ago The Wheat plant, on account of so much rain, is in such shape that it cannot stand any grief, such as very hot weather. The greatest damage is from rust. The ground being so wet with such heavy growth keeps it from drying. The elevator people, however, think the three States as a whole will raise a big crop of Wheat and the crop is about two weeks late. Very hot weather as late as July 25 could cause damage." At the decline the demand improved and situation turned stronger Crop advices from the West were less favorable, operators anticipating a "bullish" private crop report from Kansas by a local statistician who is now stopping at Emporia. St. Louis wired news here this morning to numerous commission houses from Missouri and Kansas showing less favorable condition of Wheat and some radically strong Showers were predicted for Missouri, Illinois, Indiana and Kansas; fair for the Dakotas and Minnesota Receipts in the Northwest were 26 cars ahead of last year. Primary movement, however, was 94,000 bu smaller. Kansas City and St. Louis received 29,000 bu and shipped 72,000 bu Toledo shipped 90,000 bu. A feature on the decline was the buying by the Southwest Minneapolis stocks reported decreased 345,000 bu in four days. Exports small and insignificant and only 6 boat loads accepted at the seaboard A private estimate made Winter Wheat yield only 314,000,000 bu. Kansas yield is placed at 72,000,000 bu and in Oklahoma 19,000,000 bu Receipts at Duluth 24 cars and at Minneapolis 175 cars, a total of 199 cars against 308 cars yesterday 166 cars a week ago and 173 cars last year Local receipts included 3 cars Winter 3 cars Spring 3 cars mixed a total of 9 cars, against 17 cars last year Included in the above was no cars contract grade There were 2 cars and 10,000 bu taken from unlicensed elevators The estimated receipts for to-morrow are 12 cars Withdrawals to-day were 8,300 bu. Receipts at Western points were 212,871 bu, against 307,050 bu last year At Eastern points 41,381 bu, against 58,865 bu last year. Shipments from Western points were 195,404 bu against 251,392 bu last year, and from Eastern points none against 216,805 bu last year Shipments of Flour were 4,281 brls Exports of Wheat in Flour were equal to 19,264 bu

DECEMBER—Sold at 80⅜@81¼c. Opened at 80⅜c; sold to 80½c, to 80⅜c, to 81⅛c to 81c, to 81¼c, to 81⅛c, and closed at 81⅛c.

MAY—Sold at 82⅝@83⅜c. Opened at 82⅝c; sold to 82¾c, to 82⅝c, to 83⅜c, and closed about 83⅜c.

CORN—There was a better trade and more active market, with the close ¼@⅜c lower for the July, while September was ⅜c higher. The early feature was the July liquidation and the discount under September widened out to about ⅞c. "Long" Corn came out in large quantities, changing being a feature, purchases of September being made against sales of July. There were 21 cars of contract in out of 172 cars received and 139 cars and 55,000 bu contract switched from private to public elevators. Last year out of 351 cars in, 40 were contract. At the decline the demand improved and the market displayed a stronger undertone. A local crop expert now in Emporia Kan., wired that Corn was only a few inches high and very weedy. Bottom lands are under water. Missouri and Illinois crops almost as late. Position of the crop serious if hot weather attends tasseling in August. Iowa reports were of the same tenor This news was responsible for the change in sentiment May and December both in better demand. Liverpool quoted spot ½d higher and futures ¼d lower to ¼d higher London quoted cargoes on passage held 1½d higher Map was considered a favorable one and showers generally predicted Further rains were reported in Roumania, Russia and Argentina Western receipts were 645,000 bu, last year 770,000 bu Shipments 233,000 bu and 340,000 bu respectively. Local arrivals 564,000 bu; shipments 164,000 bu Estimated for to-morrow 253 cars Cash sales 125,000 bu Two small boats chartered, and the rate, ¾c, the lowest of the season. Exports were 135,000 bu, and 9 boat loads accepted at the seaboard. Car lots were weak and ½c lower. Demand fair and offerings moderate No. 2 closed about 47¾c. No 2 Yellow sold at 49@49¼c, and closed at 49c No 3 sold at 47¾c and closed at 47½c No 3 Yellow sold at 48¾c and closed at 48½c No 3 White sold at 47¾c No 4 sold at 47@47½c

Corn by sample—In light supply, but demand was likewise very moderate and the feeling was weaker Prices unchanged to ½c lower Sales on track and free on board: No Grade sold at 36@37½c. No. 4 at 35@48¼c. No. 3 at 47½@48¼c No. 3 Yellow at 49@49¼c No 2 at 48½c No. 3 White at 47¾@47¾c Billed through No Grade at 38c. No. 4 at 43@47c. No. 3 at 46½@47c. No. 3 Yellow at 47½@48c. No. 2 at 47c. No 3 White at 46@46¾c No 2 White at 47c.

Future Deliveries of No. 2 Corn—Fairly active and prices irregular, closing ¼@⅜c lower to ⅛@⅜c higher.

JUNE—Inactive and nominal, closed at 47⅜c

JULY—Sold at 47⅜c and at 47⅞@48c Opened at 47⅜c and sold at 47⅞@48c, to 47½@47⅝c, to 47¾c, to 47½c, to 47⅜c, to 47¾c to 47½c to 47⅜c, to 47½c, to 47⅝@47¾c, to 47⅝c, and closed at 47⅝c bid.

SEPTEMBER—Sold at 48⅛c and 48⅝@48¾c Opened at 48¼@48⅜c and sold at 48¼@48⅜c, to 48⅛c, to 48⅜c, to 48⅜@48½c, to 48⅜c, to 48½c, to 48⅝@48¾c and closed at 48⅝@48¾c.

DECEMBER—Sold at 44@44⅜c. Opened at 44c to 44⅛c and sold at 44⅛c, to 44¼@44⅜c, to 44¼c, to 44¼c, and closed at 44⅛c.

MAY—Sold at 43¾@44¼c. Opened at 43¾c and sold at 43⅞c, to 43¾c, to 44¼c, to 44⅛@44¼c, and closed at 44⅛@44¼c.

OATS—Were weak and ⅛@¼c lower, but reacted ¼@⅜c and closed steady for July, ⅜c lower for June and ⅛@¼c higher for other months. July "longs" sold early and later there was good general buying. There was plenty of rain over parts of the belt. Crop reports were in some respects less promising. Cash sales were 50,000 bu. Arrivals 62 cars, with 119 cars estimated to-morrow. Withdrawals were 37,700 bu. Seaboard clearances were 8,000 bu. Car lots to go to store were slow and ½@1c lower. Standard in store closed at 40¼@40½c.

Oats by sample were weak and ½@1c lower. Too many poor are offered, and the demand is too small to absorb the arrivals, necessitating the carrying over of the poorest. Sales on track and free on board: No Grade at 27c No. 4 at 37c No. 4 White at 35@41c. No. 3 White at 39@42½c. Standard at 42½@43½c. No. 2 at 40c. Billed through: No. 4 at 33@36c No. 4 White at 35@39c. No 3 White at 39½@41c. Standard at 41½@42½c At the river: No 4 White at 34@37½c. No. 3 White at 38½@39½c. Standard at 40c.

Future Deliveries of Contract Oats—Were unsettled, with June lower and distant months firmer.

JUNE—Sold at 40¼@40½c, closed at 40¼c.

JULY—Sold at 37⅞@38¼c. Opened at 38c to 38⅛c, sold to 37⅞c, to 38¼c, to 38⅛c at close.

SEPTEMBER—Sold at 31¾@32⅛c Opened at 31⅞c sold to 31¾c, to 32⅛c, to 32@32⅛c at close.

DECEMBER—Sold at 32⅛@32¼c and at 32½c. Opened at 32¼c, sold to 32⅛@32¼c, to 32½c at close.

MAY—Sold at 33⅞c and at 33⅞@34c; closed at 33⅞@34c

RYE—Quiet and 1c lower Offerings fair and demand light. More disposition to sell. There were no receipts, no withdrawals from store here and no export clearances from the seaboard No 2 in store nominally 64c, and fresh arrivals quotably about the same. No. 3 fresh receipts sold at 58c free on board.

Future Deliveries of No. 2 Rye—Quiet and lower July sold at 58c, and closed with 57c best bid September 58c bid and 55c asked

BARLEY There was no animation about the market and there was nothing new Demand limited from all sources. A few maltsters came on the market and took what little there was offered in their line Low grades very dull, and some cars again remained unsold Demand on mixing account was limited in the extreme Only 7 cars inspected in Screenings had a nominal range of 32@40c for poor to choice Barley, low grade feed or mixing, quotable at 30@35c for thin, or seedy, musty; good color, sweet and good weight possibly 36@38c. Malting, low grade, was about 37@41c; fair to good, sound, 42@47c; good color, 48@52c, and fancy above

SEEDS—Nothing really worth special mention was done. The fact of September delivery being offered at a reduced price was the only change to note

Timothy—Was slow and easy September delivery was offered at $3 15, or 5c below yesterday's sale price, to-day $3 10 was the best bid Cash values perhaps not materially changed Market dull and heavy, with no special demand Some rough Seed offered on the cash market, but nothing of good quality Contract spot or July delivery nominally about $2 92½@2 95 and country lots quotable at $2 00@2 85 for low grade to fancy, choice about $2 70@2 75 fair to good Seed $2 50@2 60 and rough at $2 30@2 45.

Flax—The only thing done was the exchange of a small lot from July to September delivery at a difference of 2½c in price, in favor of the deferred future No cash Flax on sale Aside from the unimportant transaction no particular interest of a speculative kind was shown. No local receipts reported one car or 538 bu taken out At Minneapolis 8 cars were received and at Duluth 24 cars Market for No. 1 Northwestern or No. 1 from the Northwest quotable at $1 07 No 1 at $1 01 Rejected was quotable at 95c@$1 01. July about $1 01. September, no regular quotation

Clover—Nothing doing; no Clover offered; entirely nominal. Contract spot Seed about $10 75 Country lots, common to choice, $7 00@10 00, fancy above; mixed with Buckhorn or other weed Seeds, $6 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good $8 50@9 50.

Other Seeds—Nominally dull and weak. Demand and offerings both absent in the regular market. Hungarian, common and light color to choice dark, at $1 15@1 35 Common Millet $1 15@1 40 for poor to fancy. German Millet, $1 15@1 40. Siberian, 75@90c. Broom Corn Millet, $1 00@1 10. Early Fortune Millet, 85@95c Mustard, 85c@$1 05. Buckwheat easy; quotable at $1 55@1 65 for good.

HOG PRODUCTS—Rather a good business was reported in the market for Hog Products, and the undertone to the market was comparatively easy. Offerings were moderately free, especially by outside "longs" and packers, while the demand was only fair from miscellaneous sources. Hogs were in good supply and prices lower, and this feature encouraged some selling. Receipts of Hogs at the leading Western packing points were estimated at 79,600, compared with 69,500 one year ago. Foreign markets exhibited a firmer feeling in Meats, and quotations were advanced 6d on Backs and Cumberland Sides, while Lard was easier and prices 3d lower. Domestic markets were quiet, and will probably remain so until after the holidays. Receipts of Products were good—of Lard and Meats about 31 cars. Shipments were moderate—of Lard and Meats about 93 cars. Speculative markets opened with a moderate inquiry at about the closing figures of Tuesday. After the early orders were provided for, there was some pressure to sell, and prices receded on all the leading articles. Market closed rather steadier around medium figures Quite a good business was transacted in transferring contracts from July to September at the current differences—about 27½@30c on Mess Pork, 17½@20c on Lard, and 25@27½c on Short Rib Sides. Inquiry on shipping account was moderate, and the offerings were only fair. Buyers a little slow to take hold in view of the easier feeling in the speculative market Sales were not very large, and former prices were barely maintained

Mess Pork—A fairly good business was reported in the market for Mess Pork, and the feeling was easier. Offerings were moderately free, and the demand was only fair. Market opened with a few trades around the closing figures of Tuesday, but there was some pressure to sell, and prices declined 17½@20c. Toward the close, rather more steadiness was manifested, and prices rallied 10@15c, and the market closed steady. Shipping demand was light, and offerings were moderate Cash lots were quoted at $12 50@12 55.

Short Rib Sides—Trade was fairly active in the market for Short Rib Sides, and the feeling was easier Considerable liquidation by holders of moderate quantities. Offerings were moderately free, and the demand was fair. Market was rather steady at the opening, with little change in prices. Later, there was considerable pressure to sell, and prices receded 7½@10c Toward the close, the feeling was steadier and prices rallied 2½@5c and the market closed comparatively steady. Shipping demand was light and offerings were moderate. Cash lots were quotable at $7 12½@7 25 according to weight.

JULY—Offerings were rather liberal, and the demand was fair. Sales were made at $7 20@7 30. Opened at $7 27½, sold to $7 30, to $7 22½, to $7 27½, to $7 20, to $7 22½ to $7 20, to $7 25, to $7 22½, to $7 25, to $7 22½, and closed steady.

SEPTEMBER—In fair request and offerings were moderately free. Sales were made at $7 45@7 55. Opened at $7 52½, sold to $7 55, to $7 50, to 7 52½, to $7 45, to $7 50@7 52½, to $7 50, and closed steady.

OCTOBER—Demand was fair and offerings were moderate Sales were made at $7 52½@7 57½, and closed quiet at $7 55.

Other Meats—Trade was rather active and feeling comparatively firm Offerings not very large and the inquiry was only moderate. Exporters rather backward and the home demand was only fair. Green Meats in moderate supply with a fair inquiry, and prices ruled steady Pickled Meats in good request and prices ruled steady Dry Salted Meats were in fair demand, with moderate offerings, and prices ruled easier Smoked Meats called for in limited quantities, and prices were unchanged Closing prices ranged as follows

RAILROAD DIVIDENDS.

[From the Wall Street Journal.]

The following are the principal changes in dividends and interest payments made during the past year or so by the directors of railroad companies whose securities are well known on the Stock Exchange:

	Old rate.	New rate.	Change per annum.
C. & E. Illinois	6	10	Plus 4
Canada Southern	2	2½	Plus ½*
Canadian Pacific	5	6	Plus 1
Detroit So. first mtg.	4	....	Minus 4†
D & So W. first mtg.	5	....	Minus 5†
Erie first	3	4	Plus 1
L., E & W. pfd	4	2	Minus 2
Lake Shore	7	8	Plus 1
I. I. I.	4	2	Minus 2
M. & St. L common	5	2½	Minus 2½
Nash Chat	..	4	Plus 4
Northern Pacific	6	7	Plus 7‡
Reading second	..	4	Plus 4
Wabash deb. A	6	3	Minus 3

*Regular rate hereafter, 2½ per cent. †Interest passed June or July. ‡One per cent in "extra" dividends.

Some dividends and interest payments that may be called problematical are:

	Rate, per cent.
Texas Pacific incomes	5
Great Western deb. A	5

In cases where the regular dividend was declared in the first six months and passed in the second, the rate is considered cut in half.

WHAT 100 MEANS.

[From Bradstreet's, June 25.]

Now that the crop situation is being so closely watched, it is worth reprinting the United States Department of Agriculture's definition of what 100 means. A normal condition, or the condition of 100, is not an average condition, but a condition above the average, giving promise of more than an average crop. Furthermore, a normal condition does not necessarily mean a perfect crop. A normal condition, or 100, is described as a condition of perfect healthfulness, unimpaired by drouth, hail, insects or other injurious agency, and with such growth and development as may reasonably be looked for under these conditions. A normal crop, in short, is neither deficient on the one hand nor extraordinarily heavy on the other. In fact, it may be exceeded, so that exceptionally favorable conditions will be reported in excess of 100. Normal conditions do not mean the same in different sections of the country. For instance, in one section a condition of 100 might mean 30 bu of Corn, while in another section it would mean 40 bu of Corn, or the corresponding amount of other crops. The department further states that there is no certain method by which a percentage of Cotton or any other crop can be expressed in quantitative figures. Conditions vary so that it would be practically impossible to figure out a normal per cent per acre in quantitative yield for the country at large.

BOSTON WOOL MARKET.

BOSTON, June 24.—The *Commercial Bulletin* says: "Active, firm and hardening, the week has been the best that Wool dealers have had for a long time. There is stronger and even 'bullish' sentiment. Operations by four big consumers have absorbed millions of pounds of new and old territory, Texas and medium fleeces, partly on the spot and partly to arrive, and including lots in the original bags and graded Wools from the piles. Scoured values are 1c to 2c higher on actual sales. Staple territory is certainly selling at 55c clean; good staple Idaho sold at 53c to 54c; large blocks of fine medium clothing at 50c, and some instance 51c to 52c. Ohio and Michigan one-quarter and three-quarters blood sold at 26c to 27c, including one line of 500,000 lbs Ohio to arrive at 27c landed. Western advices indicate the cleaning up of the new clip in quicker time than ever before. Foreign markets are firm and tending upward.

"The shipments of Wool from Boston to date from Dec. 31, 1903, are 101,500,247 lbs, against 106,817,870 lbs at the same time last year. The receipts to date are 122,011,722 lbs, against 106,513,826 lbs for the same period last year."

THE HOP SITUATION.

[New York Producers' Price Current, June 25.]

Business in Hops in New York continues of same dull character, no transactions of any importance have been reported. Brewers are showing no inclination to change their tactics, and in view of the continued comparatively cool weather this is not to be wondered at. Prices do not show any change, but in absence of transactions are simply nominal. Crop reports from this State continue good. Some reports have reached here, that California may not have so many Hops as last year, but good authorities there estimate they will have fully as much, if not 10 per cent more than in 1903. In Oregon the situation remains the same, but farmers would like to see some rain. Washington advices continue good. German and Bohemian reports continue satisfactory. England complains of an attack of fly and heavy Northeast winds.

THE WEATHER CONDITIONS.

The weather map shows rains in Kansas and Northwest Missouri, also general through West and Northwest. None of the rains are heavy. Texas has scattered showers. Temperatures seasonable and slowly rising.

Indications are for scattered showers in the Western Lake Region and Middle States to-day and to-night. No material change in temperatures.

ITEMS OF GENERAL INTEREST.

The main portion of the town of Sisson, Cal., was destroyed by fire, Monday. Loss, $300,000; insurance small.

The City Auditor of Cincinnati has awarded the $600,000 4 per cent semi-annual fifty-year park extension bonds at $563,911.

The accounting offices of the Burlington system, which are located at St. Joseph, Mo., will be removed on July 1 to Chicago.

Officials of the American Can Company say there has been a sharp increase in orders during the past week. Canners of Fruit are preparing for a big season's business.

The General Freight Agent of the Washington and Columbia River Railway claims there are still 20,000 tons or 6,600,000 bu of Wheat at various points along that line.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to June 11 have amounted to 4,361,000 bu, against 4,824,000 bu in the previous year, and 2,293,000 bu in 1901-2.

Johnson County, Texas, which in 1903 raised 150,000 bu Oats, has 110,000 bu this year. But the yield of Wheat will be shorter than last year, 400,000 bu, against 600,000 bu in 1903.

The Illinois Steel Company is reported to have booked orders for 90,000 tons of Steel rails for delivery in 1905 at prices to be governed by the market in the first quarter of next year.

Three rod mills of the Joliet plant of the Illinois Steel Company have closed. Six hundred men are made idle. Officials say the shut down will be for only a few weeks, during which time repairs will be made.

Mayor McClellan of New York City has signed ordinances providing for the issuance of about $12,500,000 corporate stock of the City of New York. The largest issue authorized is $10,000,000 for the construction of the Manhattan bridge.

At the special meeting of the stockholders of the American Car and Foundry Company in Jersey City, Tuesday, the resolution to classify the board of directors was withdrawn, owing to some opposition by the stockholders. No other business was transacted.

The shipments of Flax Seed from India from April 1 to date amounted to 6,064,000 bu (Calcutta 3,760,000 bu and Bombay 2,304,000 bu), against 6,600,000 bu last season (Calcutta 3,824,000 bu and Bombay 2,776,000 bu), and 7,088,000 bu in 1901-2 (Calcutta 4,480,901 bu and Bombay 2,608,000 bu).

A Chicago banking firm has been awarded the $25,000 5 per cent twenty year water works and electric light bonds of Janesville, Wis., at 105, a basis of 4 614. They have also been awarded the $545,000 4 per cent fifteen-year (average) city bonds of Reading, Pa., at 105.823, a basis of 3.498.

The receipts of Flax Seed at Bombay for the week ended May 26 amounted to 9,020 tons, against 9,951 tons in the previous week and 7,234 tons in the same week last year. The total receipts at Bombay from Jan 1 to May 26 amounted to 111,315 tons, against 101,055 tons in the same period last year.

The Southern Pacific Company has issued a circular to stockholders announcing that by resolution of the board of directors stockholders of record on July 28, 1904, instead of July 14, 1904, shall be entitled to subscribe to the proposed issue of preferred stock of the company. No other changes are made in the dates.

The New York *Commercial* estimates the July 1 interest and dividend disbursements payable in New York at $147,500,000, comparing with $142,890,000 last year and $139,100,000 in 1902. Railroad interest payments are estimated at $60,717,851 and railroad dividends $25,992,970. Industrial dividends are computed at $20,177,164.

A New York dispatch says: "Taking heart from the decision of the United States Supreme Court in the Northern Securities case, George Rice of Marietta, Ohio, who has been fighting the Standard Oil Company for thirty years, has begun an action in New Jersey to dissolve that corporation and distribute its assets among its shareholders."

"The East is running on light stocks of Corn and Oats," said a Chicago commission man, Monday, who for the last two weeks has been through the New England States, New York and Pennsylvania. "They are only buying supplies as required, and think prices too high. Their trade is not large, hence they show no disposition to stock up."

The directors of the First National Bank, Chicago, Tuesday, declared the regular quarterly dividend of 3 per cent on the stock of the bank, payable July 1 to stockholders of record June 30. The earnings of the last quarter, while not up to the usual standard, on account of the low money market, were considerably more than the dividend requirements.

The Kansas City weather man is quoted as saying: "Outside of a few spots in the Missouri Valley, like Concordia, Kan., where a cloudburst produced an unusual downpour, the precipitation for June in the Missouri Valley is below the normal. The average for June in the Missouri Valley is 5.12 inches. The general average this year is still below that figure."

It is said that the committee on Stock lists of the New York Stock Exchange has acted favorably upon the application of the Standard Milling Company to list its shares. The governors are expected to pass upon the resolution of the committee on Stock lists at their next meeting. There is $4,600,000 common stock and $6,900,000 preferred. The funded debt aggregates $3,492,000.

No decision has been reached by the traffic officials of the lines from the North Pacific Coast regarding rates on merchandise and other freight from the principal cities of the North Pacific Coast, in comparison with rates from St. Paul and Omaha. Wholesale merchants and jobbers of Seattle, Portland, Spokane, and other cities have asked for a reduction in rates east bound to a line midway between the Pacific Coast and the Missouri River.

Vice Chancellor Stevenson of Jersey City, N. J., Monday, signed an order permitting holders of $80,000 worth of stock of the National Salt Company to be placed in the general list of creditors. When the National Salt Company went into the hands of a receiver the holders of stock of the United Salt Company of Ohio, one of the solvent companies absorbed by it, had their stock returned. The holders of $80,000 worth of stock purchased on exchange were shut out until the order signed Monday.

As a result of recent conferences between representatives of the lumber interests of the Northwest and the Great Northern, Northern Pacific and Union Pacific Railroads, a reduction of about 10 per cent in the rates on dressed spruce and hemlock lumber will be made from North Pacific Coast points. The rate on rough fir lumber from North Pacific Coast points has been 40c to St. Paul and 60c to Omaha. The rate on dressed spruce and hemlock has been 5c higher. The lumber men asked the railroads to put all lumber in the same class, and the railroads have agreed.

The weekly Weather Bureau report, Tuesday, said: "In most of the districts east of the Mississippi River Cotton has not made rapid growth and is generally small, though healthy and well cultivated; and good growth, however, is reported from Mississippi and portions of Alabama, and while lice are increasing in the last-named State they are less numerous in Mississippi and South Carolina. West of the Mississippi River the advance of the crop has been more rapid, good growth being generally reported, and while some fields are foul in portions of Texas, Arkansas and Louisiana the crop is generally well cultivated. In Texas boll weevil are more numerous in the southeastern, central eastern, and coast sections.

Circulars have been issued asking subscriptions to the stock of the American State Bank, for the organization of which the Illinois Auditor of the State recently issued a permit to Chicago business men located near Garfield boulevard and State street. The capital stock is to be $200,000, and subscriptions are asked at $100 a share. The subscriptions are to be payable, 25 per cent as soon as all the stock is subscribed, and the remainder as soon as called for on the completion of the organization. The organizers of the new bank have purchased a lot at the corner of State and Fifty-Fifth streets, and propose to erect a building for the bank. It is probable the new institution will do a real estate mortgage loan business in connection with commercial and savings banking.

The application for the continuance of a temporary injunction to prevent the execution of a traffic agreement entered into between the Chicago and Eastern Illinois Railroad Company, the St. Louis and San Francisco Railroad Company, the St. Louis, Memphis and Southeastern Railroad Company, the Colonial Trust Company, the New York Security and Trust Company, and John D. Filley, was denied by Justice Giegerich in the New York Supreme Court Monday. The temporary injunction has been the means of holding up the completion of the financing of the St. Louis, Memphis and Southeastern and refunding of its 4 per cent collateral trust notes, announced some time ago by the 'Frisco. With the dissolution of the injunction this financing will probably be completed in the near future.

It is said that the Pere Marquette interests, which purchased control of the Cincinnati, Hamilton and Dayton Road, took a trifle over $5,000,000 of the common stock at 85 and $2,500,000 of the preferred at a net price of 115. The preferred stock was not needed for control, but the sellers would not part with the common without the preferred. It is reported that this preferred stock will be sold to certain Boston houses at 115 if negotiations are carried through successfully. This seems hardly likely to be true, as under the Ohio law preferred stocks of steam railroads created between 1873 and 1901 can all be arbitrarily retired at par, at the will of the common stockholders. This was the condition under which Hocking Valley preferred would be dealt with, and the law presumably applies also in the case of Panhandle, Lake Erie and Western and Big Four.

At the meeting of the stockholders' committee of the New York, Ontario and Western appointed to take action having for its end the discharge of the voting trust, it was decided that as the directors of the company are to meet on June 29, when it is expected that the committee appointed by the directors will make a report regarding the voting trust situation, it would be courteous to the directors for the committee not to make any report on their part at this time or to take any direct action until after the directors' meeting. During the discussion of the situation the question was asked, what could be done regarding the three shares of preferred stock of the Ontario and Western held by trustees for the Third National Bank. Chairman Clews of the committee said that this matter had not been fully considered, but as a suggestion he thought it might be legal and proper to indemnify the trustees by bonds of the company if they would turn over the three shares of stock.

Corporation lawyers and promoters do not look for any pronounced movement in the way of industrial consolidations for months to come. The following statement bearing on the outlook for a resumption of activity in the consolidation lines is credited to a lawyer who organized many of the largest corporations in existence: "The organization movement is practically dead and will continue in this condition for a year at least. For the last twelve months many attempts have been made to float combinations of certain industrial concerns, but without result. A year ago, when bankers had less available cash than at present, they would not countenance the movement, and they are less disposed to do so now, notwithstanding the fact that they are carrying in the neighborhood of $40,000,000 in surplus. To attempt to bring about a consolidation of any size at present would be foolish. The majority of the stocks of the corporations organized within the last two years is held by people who were interested in the subsidiary companies merged. They have been the sufferers."

The *Wall Street Journal* says: "As the time approaches for acting on the American Car and Foundry common dividend the belief grows in well-informed quarters that the dividend will be passed. The common dividend was reduced from 4 per cent to a 2 per cent basis per annum last January. The board will not take action before the first week in July. In the meantime the annual report will be published. It is expected that the net earnings for the fiscal year ending April 30 will be in the neighborhood of $4,000,000, which would be the best year on record with the exception of the preceding year. The financial results for the past fiscal year have been, on the whole, satisfactory, and if it were certain that the profits of the current fiscal year would equal that of last year, there would be no occasion for passing the common dividend. But the volume of current business is of small dimensions, with no assurance that there will be any material change in the immediate future. And this fact will unfavorably affect this year's earnings."

After a series of conferences with the New York Grain trade, extending over a year, a committee of traffic officials representing all New York trunk lines have agreed to a modification or a modernizing of the "Grain agreement." It has now to be individually adopted by the traffic departments of the following railroads: New York Central, West Shore, Erie, Pennsylvania, Lackawanna, Lehigh Valley, Ontario and Western and Baltimore and Ohio. On behalf of the Grain trade the negotiations have been carried on by the trade and transportation committee of the Produce Exchange. The new agreement relates to the inspections, grading, consolidation and delivery of Grain arriving by rail at the port of New York. It provides in brief that railroad companies may put together in elevators, warehouses, boats or barges, provided by themselves for the purpose, Grain of the same kind and grade, without regard to its ownership. This plan was devised, it is said, to enable the railroads to pool earnings on Grain from Buffalo to New York, making the Grain taken out of Buffalo State instead of Inter-State traffic."

The Governing Committee of the New York Stock Exchange has approved recommendations for the listing of the following securities: Of the Pittsburg, Fort Wayne and Chicago Railway Company, $4,959,200 additional guaranteed special stock, making the total amount listed to date $31,603,900. Of the Detroit City Gas Company, $174,500 additional stock, making the total amount listed to date $5,000,000. Of the Chesapeake and Ohio Railway Company, $500,000 additional general mortgage 4½ per cent coupon bonds of 1992, making the total amount listed to date $38,073,000. Of the Central Pacific Railway Company, $5,740,000 additional first refunding mortgage 4 per cent guaranteed coupon bonds of 1949, making the total amount listed to date $70,496,000. Of the Missouri, Kansas and Texas Railway System (M. K. & T. of Texas), $598,000 first mortgage fifty-year guaranteed 5 per cent coupon bonds of 1942, making the total amount listed to date $4,505,000. Of the Northern Central Railway Company, $5,731,100 additional capital stock, on and after July 8, 1904, as issued and paid for in full. This makes the total amount authorized to be listed $17 193 400. Of the Wisconsin Central Railway Company, $11,267,200 preferred stock and $16,147,900 common stock to replace voting trust certificates. Of the Wheeling and Lake Erie Railroad Company, $2,152,000 twenty-year equipment sinking fund 5 per cent coupon bonds of 1922.

Ten packers purchased 18,600 Hogs to-day; shippers 2,000; left over, 3,000. Market closed steady.

Reported that 24,000 bu Wheat, 48,000 bu Corn and 50,000 bu Oats were taken at the seaboard to-day for export.

Average cost price of Hogs at Chicago, Wednesday, was $5 21, against $5 20 Tuesday, $5 31 a week ago and $5 79 a year ago.

Estimated receipts for to-morrow: Wheat, 10 cars; Corn, 360 cars, Oats, 107 cars; Rye, 1 car; Barley, 8 cars; Hogs, 18,000.

The receipts of Hogs at Chicago for the week will be about 117,000, compared with 86,376 for the corresponding week last year

The State Banks of Chicago will begin July 1 to distribute a total of about $3,700,000 semi-annual interest on savings and other deposits.

A sale of 5,000 bu new No. 3 White Oats was made here to-day at 32½c—to arrive the first half of August—the first transaction on the new crop

Directors of the Great Western Cereal Company have declared the regular quarterly dividend of 2 per cent on the preferred stock, payable July 1.

Local Securities were slow with limited changes. The exceptions were an advance of 2 points in North Chicago Railway, and a loss of 1⅛ on Carbon common from the last previous sale

Stocks in New York were stronger and made small gains Trading was more general at the start, but dullness prevailed later. Arbitrage houses were fair buyers. Money, 1¼ per cent.

The special report prepared by the New York *Journal of Commerce* at the end of June indicates the condition of Cotton at 83.2 per cent, an advance of 3.4 points during the month, and is 8.3 points better than a year ago.

The Niles-Bement-Pond Company is said to have made a reduction of 50 per cent in its force of employes in Philadelphia. This reduction has been gradual, extending over the last six months, and is due to the general depression in business.

Cotton in New York sold higher in the morning sympathizing with Liverpool's advance. Crop reports came more favorable, and rains were reported where needed. This caused selling and a break. The close was at losses of 3@7 points.

A Boston banking firm has issued the official reorganization plan of the Fore River Ship and Engine Company. It is to be capitalized as follows: Six per cent noncumulative preferred stock, $2,400,000; common stock, $2,400,000; total, $4,800,000.

The weekly statement of the Bank of England shows an increase in bullion of $860,605. The proportion of the bank's reserve to liabilities is now 41.92 per cent, against 51.82 last week, and compares with a decline from 51⅝ per cent to 42 per cent in this week last year.

The Atchison increased its gross earnings $123,000 in May, but increased its operating expenses enough to make a comparative decrease of $210,000 in net earnings. The net for eleven months to May 30 increased $1,656,000 over the figures of the corresponding period last year.

The Cambria Steel Company has paid off $315,000 of the $1,275,000 outstanding amount of the total issue of $3,500,000 5 per cent notes created Dec. 15, 1900. This leaves a balance of $960,000 outstanding, of which $350,000 will be paid in December of this year, $45,000 in 1905, and $565,000 in 1906

The Cincinnati *Price Current* reports the packing of the West for the week at 440,000 Hogs, compared with 460,000 for the week previous and 485,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 7,225,000 Hogs, compared with 6,825,000 for the corresponding time last year—an increase of 400,000 Hogs.

A meeting of the Grain Inspection Committee, the Warehouse Committee of the Board of Trade and the Warehouse Commissioners of Illinois was held, Wednesday afternoon. The management of the Grain inspection and sampling department was discussed, and it was decided to appoint a committee to take charge of the new department and formulate rules for its working.

The Cincinnati *Price Current* in its weekly crop summary says: "Large, well filled heads general in Winter Wheat Damage by rust in Illinois and by rains in West local, and slight in aggregate Condition as a whole not materially changed Corn moderately late, weedy in Kansas and Missouri. Otherwise in prime condition. Oats an average crop. Vegetation generally favorable."

The official crop bulletin for Italy, covering the first ten days of June, says that rains had fallen in Central and Upper Italy, the same benefiting all crops. In the South and in Sicily, dry weather continued, damaging Wheat and Corn. Wheat had ripened fast, and harvest had already commenced in southern districts and in Sicily. Southern Italy is rather important as a Wheat grower, producing (with Sicily) 56,000,000 to 64,000,000 bu in a good year.

The following table exhibits the inspection of Grain at Chicago during June in the past six years:

REVIEW OF TO-DAY'S MARKETS

FLOUR—The market is rather quiet. Demand about all local and sales small. Only an occasional sale for export.

WINTER WHEAT—Demand limited and market extremely quiet Prices about the same, but are little better than nominal. No. 2 Red in store nominally 98c@$1 00, and fresh arrivals free on board quotably about $1 00@1 02 No 3 Red fresh receipts free on board nominally 95@98c, with a sale at 97c No. 2 Hard fresh receipts free on board ranged at 88@94c No 3 Hard fresh receipts quotable at 82@90c, with a sale at 86½c.

SPRING WHEAT—Very little doing and market quiet and steady Receipts continue very light. No. 1 Northern in store quotably 8½@9¼c over old July, and ranged at 94½@95⅞c, and fresh arrivals free on board quotably 97@98c No. 2 Northern fresh arrivals quotably 93@97c No. 3 Spring fresh receipts free on board quotably 85@95c No 4 Spring quotably 65@90c for poor to choice.

REGULAR WHEAT—The trade was moderate, a good share of which was in the way of changing July contracts to the more forward deliveries The feeling was a little unsettled, but the close showed old July unchanged, old September ¼c higher and new September up trifle. The attitude of certain interests credited with holding a large line of old July attracted a good deal of attention The map showed better weather, and crop reports from the West were less sensational Generally fair weather was predicted. Cables, however, were stronger and helped the market at the start. Liverpool quoted spot steady to ½d higher and futures ⅛d higher. London came ⅛@⅜d higher. Liverpool was strengthened by the Continent buying Australian cargoes nearly due and advance of 1d in the offerings from India. Paris was up 1½@1¾c. Berlin was ⅜c better, while Buda Pesth declined 1⅜c, making about 3c loss in three days. *Price Current* summary said: "Large, well-filled heads general in Winter Wheat; damage by rust in Illinois and by rain in West—local and slight in the aggregate—condition as a whole not materially changed." Southwestern houses sold the new July and September. Baltimore reported receipt of 6,000 bu new Wheat, selling at 65@81c St. Louis reported the receipts of 13 cars new Wheat. Kansas City wired the first sales of new No 2 Hard there were at 88c Minneapolis wired that the weather in the Northwest was too cool and wet for Spring Wheat to make any progress Receipts in the Northwest were 23 cars smaller than a year ago, and primary movement about the same as in 1903. Flour output this week 455,000 brls, against 505,000 brls one year ago. There was some talk of blight from Pennsylvania and Delaware Kansas City wired weather was fine for harvesting but Kentucky reported too much rain Kansas City and St. Louis received 44,000 bu and shipped out 58,160 bu. Synopsis of the Kansas weekly weather and crop bulletin divisions is "Eastern—Harvesting stopped by rain. Southern Wheat all cut. Middle—Harvesting and threshing; yield fair to very heavy; rain interfered some. West—Rain benefited all crops. Wheat looking well." Synopsis of the North Dakota weekly weather and crop bulletin: "Too much rain in low lands Some fields flooded and Wheat turning yellow and weedy. As a whole, however, Wheat is in fine shape" About same condition prevails in South Dakota. Receipts at Duluth 16 cars and at Minneapolis 191 cars, a total of 207 cars, against 199 cars yesterday, 139 cars a week ago, and 230 cars last year. Local receipts included 5 cars Winter, 2 cars Spring, 5 cars mixed, a total of [illegible] cars against 22 cars last year. Included in the above was 1 car contract grade. There were 1 car and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 10 cars. Withdrawals to-day were 6,200 bu. Receipts at Western points were 294,420 bu, against 302,508 bu last year. At Eastern points 59,952 bu, against 35,520 bu last year. Shipments from Western points were 131,305 bu, against 63,146 bu last year, and from Eastern points 39,928, against 173,326 bu last year. Shipments of Flour were 8,775 brls. Exports of Wheat in Flour were equal to 79,415 bu.

OATS—The feature was the break of ⅜@½c in June and July, due to liquidating sales. They closed at the bottom September only lost ⅛c and December gained ⅛c. Trading was moderate A few reports came from Central Illinois that the crop promise was not the best, but there was nothing in the general crop news to indicate less than an average yield. Cash sales here were 50,000 bu, and at New York 50,000 bu Arrivals 128 cars, with 107 cars estimated to-morrow Withdrawals 4,100 bu Seaboard clearances 19,000 bu Car lots in store and to go store dull and 1@2c lower. Standard in store closed at 39¾@40c

Oats by sample were slow, weak and 1@2c lower Offerings were not large but demand was very slow and receivers had a hard time in finding buyers for the surplus of poor lots which constituted the bulk of the offerings Sales on track and free on board: No. 4 at 30@35½c. No. 4 White at 34@39c. No 3 at 36¼c. No. 3 White at 38½@41c Standard at 40@43c. No. 2 at 37½@39c Billed through. No 4 at 32c. No 4 White at 32@38c No 3 White at 38@40½c. MAY—Sold at 34c. Closed at 34c

RYE—The market was quiet and slightly easier No special feature to the market. Only one car received and there were no withdrawals from store and no clearances from New York. No 2 in store nominally 63½c and fresh arrivals nominally 61@65c. No. 3 fresh receipts nominally 53@60c.

Future Deliveries of No. 2 Rye—Quiet and easier. July sold at 57½c and September at 53½c, and these about the closing figures.

BARLEY—There was the same dull, slow grind in this market there has been lately. A very limited demand for good malting Barley existed, while low grades seemed to be almost entirely neglected So little demand for feed Barley that most cars offered had to be held over Some very chaffy cars, they looked like bin sweepings, offered and no satisfactory bids could be obtained It seemed difficult to sell anything but a few good malting cars Posted 11 cars in There were common to good Screenings sold at 30@35c, It was said that choice would not bring over 36@38c. there seemed to be few wanted Feed Barley common to good, was dull at 30@35c; sweet, good color, thin, probably above. Some very poor chaffy stuff around hard to tell what to call it, for which 24@25c was about all that was bid. Malting, low grade was quotable 37@41c, fair to good, sound, 42@47c good color, 48@52c, and fancy above

SEEDS—Nothing material doing. September delivery Timothy weakened a trifle. Some Flax changed from a near to a deferred delivery for a little more of a premium than prevailed yesterday.

Timothy—Nothing was done except in September delivery. This sold early at $3 15. Buying orders proved to be limited. A little continued offered and with no further demand the market weakened to $3 12½ later asked Market for spot Seed entirely nominal, and in this no change was learned of Contract spot or July delivery nominally $2 92½@2 95 and country lots quotable at $2 00@2 85 for low grade to fancy, choice about $2 70@2 75, fair to good Seed $2 50@2 60 and rough at $2 30@2 45.

Flax—July and September delivery were again changed To-day September brought 3¼c premium against 2½c yesterday There was no trading aside from this. Regular quotations were without change. No offerings appeared. Another cargo lot was received, but none of this Flax came on sale. Receipts posted as 1 car and a cargo of 110,123 bu, total 110,973 bu; no output At Minneapolis the receipts were 5 cars, at Duluth 24 cars. For No. 1 Northwestern or No. 1 from the Northwest $1 07 was bid No. 1 salable at $1 01. Rejected was quotable at 95c@$1 01 July was $1 01 bid. September in the regular way held at $1 05

Clover—A few small lots came on sale and sold at $7 25@8 75 for poor to fair. No change in the general market. Contract spot Seed about $10 75. Country lots, common to choice, $7 00@10 00; fancy above; mixed with Buckhorn or other weed Seeds, $6 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good $8 50@9 50.

Other Seeds—No offerings of Hungarian and Millet. Dealers not disposed to purchase at present The season is late, demand nearly over and distributors have enough on hand To sell any quantity lower prices would have to be accepted No quotable range of prices at present Buckwheat remains at $1 55@1 60 for good Some order trade continues. No consignments coming on sale.

HOG PRODUCTS—Quite a good speculative business was transacted in the market for Hog Products, and the feeling was a little unsettled. Considerable liquidation of the near deliveries, and carrying charges were widened somewhat. Hogs were in fair supply, and prices ruled higher, which had a little effect on the market at the opening, and prices ruled higher all around. This feature encouraged a little realizing especially for July, and a weaker feeling was developed Prices receded moderately. Toward the close, the feeling was steadier, and prices rallied sharply, and the market closed steady Trading chiefly in July and September contracts Outside orders were moderate, and local trading was fairly active Receipts of Hogs at the leading Western packing points were estimated at 62,900, compared with 62 200 one year ago. Packing of the West for the week exhibited a decrease of 25,000 Hogs compared with the corresponding week in 1903 Foreign markets were quiet and firm at unchanged prices Domestic markets quiet and rather steady Receipts of Products were good—of Lard and Meats about 30 cars.
